[Notice 93]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 11, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

[Notice 94]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 12, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210A(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

[Notice 95]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 13, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

OVER-THE-COUNTER ORAL CAVITY DRUG PRODUCTS

Safety and Efficacy Review; Request for Data and Information

The FDA is undertaking a review of all over-the-counter (OTC) drug products for human use currently marketed in the United States, to determine that these OTC products are safe and effective for their labeled indications. This review will utilize expert panels working with FDA personnel.

A notice outlining procedures for this review was published in the FEDERAL REGISTER of May 11, 1972, (37 FR 9464).

To facilitate this review and a determination as to whether an OTC drug for human use is generally recognized as safe and effective and not misbranded under its recommended conditions of use, and to provide all interested persons an opportunity to present for the consideration of the reviewing experts the best data and information available to support the stated claims for all dosage forms of oral cavity drug products such as antiseptics, astringents, gargles, lozenges, mouthwashes and similar products, the administration invites submission of data, published and unpublished, and other information pertinent to all active ingredients utilized in such preparations.

FDA is aware that the following is not a complete list, but only respresentative of the kinds of active ingredients used in such products. FDA has conducted a literature search on each of them:

Benzalkonium Chloride	Gentian Violet
Benzethonium Chloride	Meralein Sodium (merodicein)
Carbamide (urea) Peroxide	Methyl Salicylate
Cetylpyridinium Chloride	Phenol
Chloramine-T	Polyvinylpyrrolidone-iodine (povidone-iodine)
Cineole (eucalyptol)	Sodium Borate
Domiphen Bromide	Sodium Caprylate
Ethyl Alcohol	Sodium Phenoxide (sodium phenolate)
Ethyl Aminobenzoate (benzocaine)	Zinc Chloride

FDA's literature search covered the United States of America literature and other leading English language literature published since 1950 from the following sources:

Medlars (NLM and SUNY)	Current List of Medical Literature
FDA Clinical Experience Abstracts	Index Medicus
Quarterly Cumulative Index Medicus	JAMA Subject Index
	DeHaen Drugs in Use
International Pharmaceutical Abstracts	RINGDOC
	VETDOC
Excerpta Medica	Abstracts of World Medicine
	Biological Abstracts
	Chemical Abstracts

The bibliography of the literature search is available to interested persons.

Interested persons are also invited to submit data on any other active ingredients for use in oral cavity drug products.

The FDA is aware that safety data on these ingredients may be available as a result of testing related to non-drug products, such as cosmetics. All interested parties are encouraged to submit at this time all available safety data for these ingredients, so that the conclusions reached will reflect the best information available.

This panel is not charged with reviewing the safety or effectiveness of the use of these ingredients in nondrug products such as cosmetics. However, the conclusions of the panel with respect to these ingredients for drug use may be utilized by the Food and Drug Administration in determining whether their use in cosmetics can continue to be justified. Thus, although the report and monograph prepared by this panel will cover only OTC drug use, the conclusions may well have a direct and substantial impact on all uses of these ingredients in consumer products.

To be considered, eight copies of the data and/or views must be submitted, preferably bound, indexed, and on standard size paper (approximately 8½ by 11 inches). All submissions must be in the format described below:

OTC DRUG REVIEW INFORMATION

I. Label(s) and all labeling (preferably mounted and filed with the other data—facsimile labeling is accetpable in lieu of actual container labeling).

II. A statement setting forth the quantities of active ingredients of the drug.

III. Animal safety data.

A. Individual active components.

1. Controlled studies.

2. Partially controlled or uncontrolled studies.

B. Combinations of the individual active components.

1. Controlled studies.

2. Partially controlled or uncontrolled studies.

C. Finished drug product.

1. Controlled studies.

2. Partially controlled or uncontrolled studies.

IV. Human safety data.

A. Individual active components.

1. Controlled studies.

2. Partially controlled or uncontrolled studies.

3. Documented case reports.

4. Pertinent marketing experiences that may influence a determination as to the safety of each individual active component.

5. Pertinent medical and scientific literature.

B. Combinations of the individual active components.

1. Controlled studies.

2. Partially controlled or uncontrolled studies.

3. Documented case reports.

4. Pertinent marketing experiences that may influence a determination as to the safety of combinations of the individual active components.

5. Pertinent medical and scientific literature.

C. Finished drug product.

1. Controlled studies.

2. Partially controlled or uncontrolled studies.

3. Documented case reports.

4. Pertinent marketing experiences that may influence a determination as to the safety of the finished product.

5. Pertinent medical and scientific literature.

V. Efficacy data.

A. Individual active components.

1. Controlled studies.

2. Partially controlled or uncontrolled studies.

3. Documented case reports.

4. Pertinent marketing experiences that may influence a determination on the efficacy of each individual active component.

5. Pertinent medical and scientific literature.

B. Combinations of the individual active components.

1. Controlled studies.

2. Partially controlled or uncontrolled studies.

3. Documented case reports.

4. Pertinent marketing experiences that may influence a determination on the efficacy of combinations of the individual active components.

5. Pertinent medical and scientific literature.

C. Finished drug product.

1. Controlled studies.

2. Partially controlled or uncontrolled studies.

3. Documented case reports.

4. Pertinent marketing experiences that may influence a determination on the efficacy of the finished drug product.

5. Pertinent medical and scientific literature.

VI. A summary of the data and views setting forth the medical rationale and purpose (or lack thereof) for the drug and its ingredients and the scientific basis (or lack thereof) for the conclusion that the drug and its ingredients have been proven safe and effective for the intended use. If there is an absence of controlled studies in the material submitted, an explanation as to why such studies are not considered necessary must be included.

VII. If the submission is by a manufacturer, a statement signed by the person responsible for such submission, that to the best of his knowledge it includes unfavorable information, as well as any favorable information, known to him pertinent to an evaluation of the safety, effectiveness, and labeling of such a product. Thus, if any type of scientific data is submitted, a balanced submission of favorable and unfavorable data must be submitted. The same would be true of any other pertinent data or information submitted, such as consumer surveys or marketing results.

In order to avoid duplication, interested persons should not in this submissions include published literature listed in the FDA literature search. An abstract of all such literature will be provided to the panel. Upon request, the panel will be provided with the complete article. Interested persons may, of course, refer to such literature in their submissions by citation.

Submissions or requests for copies of the bibliography of the FDA literature search should be forwarded to:

Food and Drug Administration
Bureau of Drugs
OTC Drug Products Evaluation Staff
(BD–109)
5600 Fishers Lane
Rockville, Maryland 20852

Data and information must be submitted on or before September 18, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Dated: July 3, 1973.

[Docket No. FDC–D–646; NADA No. 10–986V]

SCHERING CORP.

Trilafon Tablets; Withdrawal of Approval of New Animal Drug Application

In the FEDERAL REGISTER of November 7, 1970 (35 FR 17214, DESI 10–986V), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of a report received from the National Academy of Sciences—National Research Council, Drug Efficacy Study Group on Trilafon Tablets (perphenazine tablets) new animal drug application (NADA) No. 10–986V; marketed by Schering Corp., Animal Health Division, Galloping Hill Road, Kenilworth, NJ 07033.

Schering Corp. requested that approval of NADA No. 10–986V be withdrawn.

Based on the grounds set forth in said announcement and the firm's response, the Commissioner concludes that approval of said NADA should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), NADA No. 10–986V, including all amendments and supplements thereto, is hereby withdrawn effective on July 30, 1973.

Dated: July 13, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 73 143P]

FIXED HIGHWAY BRIDGE CARRYING CRYSTAL LAKE ROAD, ROUTE 593 ACROSS TORCH RIVER

Notice of Public Hearing

Notice is hereby given that the Commandant has authorized a public hearing to be held by the Commander, Ninth Coast Guard District at 7:00 p.m. e.s.d.s.t. on August 23, 1973, in the Alden School, Bebb Road, Alden, Michigan (½ mile east of Alden on Route 1). The purpose of the hearing is to consider an application from the Antrim County Road Commission, acting in cooperation with the Kalkaska County Road Commission, for a permit approving an existing fixed highway bridge across the Torch River. The bridge was constructed in 1970 without the benefit of prior Coast Guard approval. The illegally constructed bridge is a three span, fixed structure affording navigation a vertical clearance of 11.5 feet above mean low water, elevation 588.5 feet referred to U.S.G.S. datum and a horizontal clearance of 50 feet through the center span.

All interested persons may present data, views, and comments orally or in writing at the public hearing concerning

V 38 I 139 JUL 20 73 XUM

the effect of the bridge on present and prospective navigation on the waterway and the impact on the environment if modification or removal of the bridge is required. The environmental issues may include, but are not limited to, the impact on recreational areas, wildlife and waterfowl refuges, public parks and historical sites.

The hearing will be informal. A Coast Guard representative, who will preside at the hearing, will make a brief opening statement detailing the purpose of the hearing and announcing the procedures to be followed at the hearing.

Each person who wishes to make an oral statement should notify the Commander (oan), Ninth Coast Guard District, 1240 East Ninth Street, Cleveland, Ohio 44199 by August 17, 1973. Such notification should include the approximate time required to make the presentation. A transcript of the hearing will be made and may be purchased by the public.

Interested persons who are unable to attend the hearing may also participate in the consideration of this bridge permit application by submitting their comments, in writing, on or before September 7, 1973, to the Commander, (oan), Ninth Coast Guard District. Each comment should state the reasons for any objections or proposed changes to the bridge and the name and address of the person or organization submitting the comment. Copies of all written communications will be available for examination by interested persons at the office of the Commander, (oan), Ninth Coast Guard District.

All comments received will be considered before final action is taken on the bridge permit application. After the time set for the submission of comments, the Commander, Ninth Coast Guard District, will forward the record; including all written comments and his recommendations to the Commandant, U.S. Coast Guard, Washington, D.C. 20590. The Commandant will make the final determination whether to issue a permit approving the bridge or to order the bridge modified or removed.

(Sec. 502, 60 Stat. 847, as amended, secs. 4(f), 6(g)(e)(c), 80 Stat. 933 as amended; 33 U.S.C. 525, 49 U.S.C. 1653(f), 1655(g)(C); 40 CFR 1.46(c)(10))

Dated: July 16, 1973.

J. D. McCann,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

[CGD 73 141 N]

GREAT LAKES PILOTAGE ADVISORY COMMITTEE

Notice of Open Meeting

This is to give notice pursuant to Public Law 92-463, sec. 10(a), approved October 6, 1972, that the Great Lakes Pilotage Advisory Committee will conduct an open meeting on 15 August 1973 in Executive Conference Room #453, Federal Aviation Administration Great Lakes Region Headquarters, 2300 East Devon, Des Plaines, Illinois, beginning at 10:00 a.m. C.d.s.t.

Members of this Advisory Committee are:

(1) Captain Ernest A. Clothier
President, American Pilots Association
(2) Dr. Eric Schenker
Professor of Economics and Associate Director Center for Great Lakes Studies
(3) Mr. Richard L. Schultz
Executive Director of the Cleveland-Cuyahoga County Port Authority.

The summarized agenda for the 15 August 1973 meeting consists of:

(1) Committee administrative matters
(2) Current pilotage operational matters
(3) Department of Transportation Statement of Policy for Pilotage in the Great Lakes System

The Great Lakes Pilotage Advisory Committee was established by the Great Lakes Pilotage Act of 1960 (Public Law 86-555) to provide advice and consultation with respect to proposed pilotage regulations and policies.

The public may file statements with the Committee and oral statements may be presented before the Committee provided advance approval has been obtained.

Further information may be obtained by writing Chief, Ports and Waterways Planning Staff, Office of Marine Environment and Systems, U.S. Coast Guard, Washington, D.C. 20590, or by calling (202) 426-2274.

Dated: July 12, 1973.

W. M. Benkert,
Rear Admiral, U.S. Coast Guard Chief, Office of Marine Environment and Systems.

NEW YORK HARBOR VESSEL TRAFFIC SYSTEM ADVISORY COMMITTEE

Notice of Open Meeting

This is to give notice pursuant to Public Law 92-463, Sec. 10(a), approved October 6, 1972, that the New York Harbor Vessel Traffic System Advisory Committee will conduct an open meeting on Wednesday, August 15, 1973, in the Auditorium of Building 108, Governors Island, New York beginning at 10:30 a.m.

Members of the Committee and their industry positions are:

Admiral John M. WILL, USN (Ret)
State of New York Board of Commissioners of Pilots
Captain H. C. BREITENFELD
United New York Sandy Hook Pilot's Benevolent Association
Captain W. H. BURRILL
State of New Jersey Board of Commissioners of Pilots
Mr. Richard DEWLING
U.S. Environmental Protection Agency
Captain L. T. EARL
United New Jersey Sandy Hook Pilots' Benevolent Association
Mr. A. GIALLORENZI
AIMS Petroleum Industry Representative
Mr. Alfred HAMMON
Port Authority of New York and New Jersey
Captain T. A. KING
U.S. Department of Commerce Maritime Administration
Commodore F. LINDNER
Long Island Sound Commodores Association
Colonel H. W. LOMBARD, USA
Department of the Army, Corps of Engineers
Mr. Robert W. SANDERS
New York Harbor Panel Marine Towing and Transportation Industry
Captain R. D. SANTE, USN
U.S. Navy Military Sealift Command
Captain S. M. SELEDEE
American Institute of Marine Underwriters
Captain J. G. STILLWAGGON
Interport Pilot's Associates, Inc.
Captain K. C. TORRENS
American Institute of Merchant Shipping

The Agenda for the August 15, 1973 meeting consists of:

1. Discussion of the modification of the Captain of the Port, New York Study based upon later studies done by the U.S. Coast Guard.
2. Discussion of communications circuit discipline and possible monitor control of Channel 13 within the New York Port Area.
3. Discussion of allowable speeds under various conditions of wind, current, and tides within New York Harbor's channels and rivers.
4. Discussion of anchorages, channel depths and port facilities as they reflect on the needs of the port of New York in connection with vessel safety.
5. Such other matters that come before the Committee.

The New York Harbor Vessel Traffic System Advisory Committe was established by the Commander Third Coast Guard District on April 1, 1973, to advise on the need for, and development, installation and operation of a Vessel Traffic System for the New York Harbor. Public members of the Committee serve voluntarily without compensation from the Federal Government, either travel or per diem.

Interested persons may seek additional information by writing Commander H. A. Pledger, Project Officer, Vessel Traffic System, Third Coast Guard District, Governors Island, New York 10004, or by calling 212-264-0409.

Dated: July 6, 1973.

B. F. Engel,
Vice Admiral, U.S. Coast Guard Commander, Third Coast Guard District.

NATIONAL OFFSHORE OPERATIONS INDUSTRY ADVISORY COMMITTEE TO THE MARINE SAFETY COUNCIL

Notice of Renewal

This is to give notice pursuant to Public Law 92-463, approved 6 October 1972, that the National Offshore Operations Industry Advisory Committee to the Marine Safety Council has been renewed by the Secretary of Transportation for a two year period commencing July 1, 1973 through June 30, 1975.

The Committee was first established under the Treasury Department on December 15, 1959 as the National Offshore Operations Advisory Panel. The objectives and mission of the Committee are to provide advice and consultation with respect to offshore operations including, but not limited to, fairways, sea-lanes, and offshore drilling operations.

Public members of the Committee serve voluntarily without compensation from the Federal Government, either travel or per diem.

Interested persons may seek additional information by writing:

Capt R. Brooks, USCG
Executive Secretary, U.S. Coast Guard Marine Safety Council
400 Seventh St., SW
Washington, D.C. 20590

or by calling: (202) 426 1477.

Dated: July 16, 1973.

W. F. Rea III,
Rear Admiral, Chief Office of Merchant Marine Safety.

INDUSTRY ADVISORY COMMITTEE ON RULES OF THE ROAD

Notice of Renewal

This is to give notice pursuant to Public Law 92-463, approved October 6, 1972, that the Industry Advisory Committee on rules of the road to the Marine Safety Council has been renewed by the Secretary of Transportation for a two year period commencing July 1, 1973 through June 30, 1975.

The Committee was first established under the Treasury Department on December 14, 1960 as the rules of the Road Coordinating Committee. The objectives and mission of the Committee are to provide advice and consultation with respect to matters concerned with proposals affecting the rules of the road.

Public members of the Committee serve voluntarily without compensation from the Federal Government, either travel or per diem.

Interested persons may seek additional information by writing:

Capt R. Brooks, USCG
Executive Secretary, U.S. Coast Guard Marine Safety Council
400 Seventh St., SW
Washington, D.C. 20590

or by calling: (202) 426-1477.

Dated: July 16, 1973.

W. F. Rea III,
Rear Admiral, Chief Office of Merchant Marine Safety.

COMMITTEE FOR PURCHASE OF PRODUCTS AND SERVICES OF THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST

Notice of Proposed Deletion from Procurement List 1973

Notice is hereby given pursuant to section 2(a)(2) of Public Law 92-28; 85 Stat. 79, of the proposed deletion of the following commodity from Procurement List 1973, March 12, 1973 (38 FR 6742).

CLASS 7510

Binder, Looseleaf
7510-582-3801
7510-582-3809

Comments and views regarding this proposed deletion may be filed with the Committee not later than 30 days after the date of this Federal Register. Communications should be addressed to the Executive Director, Committee for Purchase of Products and Services of the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

By the Committee.

CHARLES W. FLETCHER,
Executive Director.

FOREST SERVICE

Draft *Date*

Roaring and Salmon Rivers' Unit, Mt. Hood N.F. 07/09

The statement refers to a comprehensive land use plan for the Roaring River and Salmon River Planning Units of Mt. Hood National Forest. A total of approximately 81,700 acres is involved. Management will be for back country, recreation, and special interest values, with some timbering and construction of low standard roads. There will be soil disturbance and water pollution. (135 pages)
(ELR ORDER # 31144) (NTIS ORDER # EIS 73 1144D)

Perenosa Timber Sale 07/06
Alaska

The statement refers to administrative alternatives considered in the revision of the Perenosa Timber Sale of 1968. Involved is a 15 year timber sale for the harvest of 525 million board feet of Sitka spruce sawtimber from Afagnak Island, Alaska. If modification is approved, the sale will involve the harvest of 332 million board feet on 12,000 acres. A largely roadless and undeveloped area will be roaded for the timber harvest, providing the opportunity for more intensive use and management of other resources in the sale area. (62 pages)
(ELR ORDER #31125) (NTIS ORDER # EIS 73 1125D)

Centennial Mountains, Targhee National Forest 07/06
Idaho
County: Clark Fremont

Proposed is land use management for the 193,000 acre Centennial Mountain Planning Unit, Dubois and Island Park Ranger Districts, Targhee National Forest. Proposed activity includes timber harvesting, livestock grazing, mining, road construction, and outdoor recreation. Adverse impact will include soil movement and changes in vegetative cover, effects upon wildlife, changes in scenic values, and increased fire risks. (95 pages)
(ELR ORDER # 31128) (NTIS ORDER # EIS 73 1128D)

Nezperce National Forest 07/06
Idaho

The statement refers to a proposed adjustment to the present Timber Harvest Plan and Road Program for Nezperce National Forest. The present plan provides for 100 million board feet of harvest annually. Under the adjustment roadless areas will be entered to sustain the annual allowable harvest. The statement indicates the basic new road system. Intensive roading of undeveloped areas, and its side effects, constitute the principal adverse impact of the plan. Roads will eliminate forever the present solitude and completely natural setting of the undeveloped area. (81 pages)
(ELR ORDER # 31129 (NTIS ORDER # EIS 73 1129D)

South Boise-Wood River, Sawtooth N.F. 07/11
Idaho
County: Blaine Camas Elmore

The statement refers to a proposed land use plan for 593,000 acres of the South Boise-Wood River Planning Unit of the Sawtooth National Forest. The Unit will be managed for recreation, back county and wilderness values, timber cutting, wildlife habitat, livestock grazing, water resources, road and trail construction, and scenic and historic values. Of the 506,000 acres of roadless areas in the planning unit, 313,000 acres will be roaded and 193,000 will remain roadless. (approximately 170 pages).
(ELR ORDER # 31157 (NTIS ORDER # EIS 73 1157D)

South Fork Yaak Planning Unit, Kootenai N.F. 07/10
Montana
County: Lincoln

The statement refers to the proposed implementation of a revised multiple use plan for the South Fork Yaak Planning Unit, Yaak Ranger District, Kootenai National Forest. Approximately 47,000 acres have been stratified into six management situations, for such values as big game winter forage production, timber harvesting, recreation, and livestock grazing. Adverse impact will include the construction of roads in presently roadless areas, soil and vegetative disturbance, and air and noise pollution. (102 pages)
(ELR ORDER # 31157 (NTIS ORDER # EIS 73 1152D)

Utah
County: Wayne Garfield

The statement refers to a proposed land use plan for the 252,000 acre Aquarius Planning Unit of Dixie National Forest. Proposed activities include timber harvesting, road construction, mining, range management improvement, control of off-road vehicle use, protection of wilderness, and watershed improvement. There will be adverse impact to soil stability, water and air quality, and aesthetics from timber harvest and road construction.
(ELR ORDER # 31154) (NTIS ORDER # EIS 73 1154D)

Final *Date*

Wild Free-Roaming Horses and Burros 07/10

Proposed is the issuance of a Regulation designed to implement P.L. 92-155 for the protection of wild free-roaming horses and burros. It is estimated that there are 2,200 of the animals associated with National Forest lands in Arizona, California, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, and Wyoming. The proposed Regulation directs the Chief of the Forest Service to administer the animals so natural ecological relationships will be maintained consistent with the principles of multiple use. It also directs the Chief to undertake necessary studies of the habits of these animals.

SOIL CONSERVATION SERVICE

Draft *Date*

Troublesome Creek Watershed Project 07/05
Iowa
County: Audubon Cass Guthrie

The project proposes conservation land treatment measures, 135 grade stabilization structures for prevention of gully erosion, two floodwater retarding structures, two multipurpose structures for floodwater retardation and recreation, and two recreation developments. Of the 1,884 acres of land committed to the project, 658 acres and 47 miles of stream channel will be inundated. Three families will be displaced and 8 farms disrupted. Adverse effects of the action are: loss of 47 miles of ecological communities in the stream; loss of crop, pasture, and woodland; loss of 658 acres of wildlife habitat and disruption of wildlife habitat on 788 acres. (20 pages)
(ELR ORDER # 31119) (NTIS ORDER # EIS 73 1119D)

Bryant Swamp Watershed 07/05
North Dakota
County: Bladen

The proposed project measures include land treatment; 22.9 miles of stream channel modification; and six grade-control structures. Purposes of the project are to provide flood prevention and drainage to 4,090 acres of crop and pasture land and reduce erosion. Adverse impacts stemming from the project are reduction of 52 acres of wildlife wetland habitat, damage to one mile of fishing stream, and loss of or damage to 185 acres of woodland. (24 pages)

Draft *Date*

Oyster Creek Nuclear Generating Station 07/10

New Jersey
County: Ocean

Proposed is the issuance of a full-term operating license to the Jersey Central Power and Light Company for operation of the 1930 MWt, 620 MWe (net) Station. Exhaust steam is cooled by a once-through flow system with water from Barnegat Bay. Periodic fish kills occur during winter shutdowns of the station. Impingement on intake screens results in the significant annual loss of 32,000 blue crabs and 24,000 winter flounder, in an area heavily used for sport fishing. (248 pages)

07/05

Importation of South African Fur Sealskins

The statement considers a request from the Fouke Company, a major U.S. fur processor, for an economic hardship exemption from the moratorium, and possible a waiver of the moratorium on the importation of marine mammals into the United States under provision of the Marine Mammal Protection Act of 1972 (P.L. 92-522). The National Marine Fisheries Service is investigating the feasibility and the desirability of allowing importation into the United States of South African owned skins from the South African fur seal harvest. Evansville Local Protection Project 07/06
Indiana
County: Vanderburgh

Proposed in the continued construction of the flood protection work at Evansville. The Pigeon Creek Section (Unit 2) is the last portion of the project to be completed at this time. Protection works consist of earthen levees, concrete walls, pumping plants, and associated interior drainage facilities. Adverse effects of the action are changes in land use; alteration of the natural terrain and obstruction of river view; and the relocation of 65 families on 203 acres of land. (22 pages)
(ELR ORDER # 31124) (NTIS ORDER # EIS 73 1124D)

Gulfport Harbor, Mississippi 07/05
Mississippi
County: Harrison

The proposed project is the continuation of routine maintenance dredging of the Gulfport Harbor. The project consists of a channel across Ship Island Bar, a channel through Mississippi Sound, an anchorage Basin at Gulfport and the maintenance of the small boat harbor. Adverse impacts will be: loss of bottom-dwelling organisms, increases in turbidity, increases in the amount of mercury and other heavy metals in the food chain (present concentrations exceed the EPA criteria for open water disposal), reduction in primary productivity, and loss of phytoplankton. (14 pages)
(ELR ORDER # 31112) (NTIS ORDER # EIS 73 112D)

New Rochelle Harbor 07/06
New York
County: Westchester

Proposed is the maintenance dredging of the existing Federal channels in New Harbor to their authorized dimensions. Spoil will be deposited in the approved dumping ground in the Atlantic Ocean. Temporary turbidity and disruption of local marine life will occur. (10 pages)
(ELR ORDER # 31127) (NTIS ORDER # EIS 73 1127D)

Turtle Creek Local Protection Project 07/12
Oklahoma
County: Canadian

The statement refers to a flood protection project on Turtle Creek in Yukon, Oklahoma. There will be channel work done on the Creek in order to protect 600 acres of land. Forty acres will be acquired for project measures. (Tulsa District.) (32 pages)
(ELR ORDER # 31165) (NTIS ORDER # EIS 73 1165D)

Zacate Creek 07/11
Texas

The statement refers to a proposed flood protection and recreation project for the City of Laredo. Included are 19,500' of channel work on Zacate Creek, and open space park development. A total of 160 buildings (mostly low-income housing), will be displaced by the project; some archeological sites will be lost. (Fort Worth District) (92 pages)
(ELR ORDER # 31161) (NTIS ORDER # EIS 73 1161D)

Oceana Local Flood Protection Project 07/12
West Virginia

The statement refers to a flood protection project at Oceana. Project measures include 25,000 feet of channel work from the Clear Fork—Laurel Fork confluence to Lollydale, three sediment retention basins, and recreation facilities. There will be construction disruption and loss of wildlife habitat. (Huntington District) (48 pages)
(ELR ORDER # 31162) (NTIS ORDER # EIS 73 1162D)

Final *Date*

Flood Protection, Southwest Jefferson County 07/12
Kentucky
County: Jefferson

The statement refers to a project which is intended to protect 41 square miles of Ohio River floodplain against the flood of record. Project measures include 70,750 feet of earthen levee, 1500 feet of reinforce concrete floodwall, a permanent impoundment of 810 acres; five pumping plants; and 1815 acres for recreation. A total of 2,750 acres would be acquired for the project in fee, 803 acres for flowage easement, and 580 acres for borrow. Displacements will include 109 family dwellings, 15 commercial buildings, 15 sets of farm buildings, 99 house trailers, and 2 churches. (66 pages)
COMMENTS MADE BY: USDA DOI state and regional agencies
(ELR ORDER # 31166) (NTIS ORDER # EIS 73 1166F)

Hannibal Locks and Dam, Ohio River 07/09
Ohio West Virginia

The proposed project involves the construction and operation of a high lift, non-navigible gated dam with two parallel lock chambers, removal of 3 existing locks and dams (12, 13, and 14), localized dredging to provided required channel clearances and the establishment of public use access areas. The conversion of 3 pools into a single pool of 42.2 miles will inundate 1,200 acres of river bank and clearing. Adverse impacts include loss or disruption of 1,450 acres of wildlife habitat; loss of bank erosion. (68 pages)

Kingston Urban Renewal Project County: Luzerne	07/11

The statement refers to an urban renewal project for the Borough of Kingston, in order to compensate for damages which resulted from Tropical Storm Agnes in 1972. Under the project flood damaged structures will be removed, and new housing constructed. Twenty percent of new residential construction is expected to be for low income families. Commercial areas will be reconstructed. There will be disruption from construction activities. (81 pages)
(ELR ORDER # 31087) (NTIS ORDER # EIS 73 1087D)

Reading Urban Renewal Project Pennsylvania	07/11

Proposed is an urban renewal program for the City of Reading, in order to compensate for damages which resulted from Tropical Storm Agnes in 1972. Of 797 buildings in the project area, 520 are structurally deficient; 214 will be cleared. Fifty percent of new residential construction will be for moderate income families; 20% will be for low income families. There will be construction disruption. (36 pages)
(ELR ORDER # 31082) (NTIS ORDER # EIS 73 1082D)

Deepwater Ports	07/10

The statement refers to a bill which would amend the Outer Continental Shelf Lands Act to authorize the Secretary of the Interior to regulate construction and operation of deepwater port facilities. The legislation would allow regulation when the level of imports of petroleum or other bulk commodities warrants the existence of such facilities. The environmental risk is related to ship density in congested areas, as well as total tonnage of commodities. The effect of transporting increased petroleum imports via Very Large Cargo Carriers (VLCC's) through deepwater port facilities located on the OCS is examined. (534 pages)

FEDERAL HIGHWAY ADMINISTRATION

Draft	*Date*
Sterling Avenue, FAU Route 8399 Illinois	09/09

County: Peoria
Proposed is the improvement of 1.8 miles of Sterling Avenue (FAU Route 8399) in the City of Peoria. A four-lane facility with an 18-foot grass median will be constructed to replace the existing two-lane roadway. The noise level will increase in the project area.
(22 pages)
(ELR ORDER # 31143) (NTIS ORDER # EIS 73 1143D)

Elmira North-South Arterial New York	07/09

County: Chemung
Proposed is the construction of a "New Main Street" with four travel lanes, center median/left turn lane, signalized intersections at major cross streets, pedestrian crossings, controlled access, and appropriate safety and aesthetic treatment. Project length is 7.5 miles. The project is intended to relieve congested north-south streets of local traffic and

aid in Urban Renewal Flood recovery planning. Depending upon the route selected, displacements will range between 98 and 118 families and 41 and 49 businesses. (110 pages)
(ELR ORDER # 31140) (NTIS ORDER # 73 1140D)

I-90—Issaquah to West Snoqualmie Washington	07/10

County: King
The proposed project is the reconstruction of 8.34 miles of I-90, Issaquah to West Snoqualmie, to a six lane highway. The facility will require a unspecified amount of forest and pasture land, displace 31 families and 4 businesses and relocate a number of public utilities. The facility will traverse and alter a number of major creeks and rivers. Erosion, siltation, sedimentation and high amounts of runoff (containing both toxic and non-toxic substances) will cause damage to the aquatic life system. Other adverse impacts are loss of wildlife habitat; increases in water, air and noise pollution; and increased flooding potential. (170 pages)
(ELR ORDER # 31155) (NTIS ORDER # EIS 73 1155D)

Final	*Date*
Interstate Route 84, Connecticut Connecticut	07/09

County: New Haven
The proposed project consists of the relocation of a section of Interstate Route 84 in Waterbury from the vicinity of South Elm Street easterly to Hamilton Avenue. Project length is 1.2 miles. Adverse effects stemming from the project are loss of land and buildings along the margin of the project area. (191 pages)

(ELR ORDER # 31138) (NTIS ORDER # EIS 73 1138F)

The following is a corrected summary of a statement which was received by the Council on June 28, 1973.

I 91, I 93, US 2, US 5, Vermont Vermont	06/28

County: Caledonia
The statement refers to several projects, including 24 miles of I 91; 11 miles of I 93; and the relocation of sections of US 2 and US 5. Right-of-way acquisition will include approximately 2608 acres of land, 98 residential units, 6 businesses, and 2 farms. Approximately 1200 acres of woodland with water storage properties and wildlife will be lost. Other adverse effects stemming from the project are increased soil erosion causing siltation in surrounding streams and increased air and noise pollution levels. (150 pages)

DELAWARE RIVER BASIN COMMISSION

[DRBC-EU-D-72-227 CP]

TROUT RUN EARTHFILL DAM

Availability of Environmental Statement

In accordance with the National Environmental Policy Act of 1969 and the Delaware River Basin Commission's Rules of Practice and Procedure (section 2-3.5.2) notice is hereby given of the availability of the final environmental statement as of July 18 which discusses the environmental impact of the Trout Run Reservoir of the Borough of Boyertown in Earl Township, two and a half miles west of the Borough of Boyertown, Berks County, Pennsylvania. The final statement has been prepared by the Commission based on the Borough of Boyertown's environmental report by the consultants Glace and Glace of Harrisburg, Pennsylvania, and the Commission's staff analysis of the proposed action. The final statement includes comments from other agencies, interested citizens and citizens groups.

The proposed action includes the construction of an earthfill dam and relocation of one mile of highway L.R. 06053 in creating the 42 acre 330 million gallon water supply reservoir.

The final environmental impact statement may be examined in the library at the office of the Delaware River Basin Commission, 25 State Police Drive, West Trenton, New Jersey, and in the library of the Water Resources Association of the Delaware River Basin, 21 S. 12th Street in Philadelphia. A limited number of copies of the final statement are available to persons or agencies upon request.

The final statement will be submitted to the Council on Environmental Quality as of July 18.

W. BRINTON WHITALL,
Secretary.

CHEMAGRO

Petition Regarding Pesticide Chemicals

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 3F1391) has been filed by Chemagro Division of Baychem Corp., Post Office Box 4913, Kansas City, MO 64120, proposing establishment of tolerances (40 CFR Part 180) for combined residues of the insecticide *S*-[2-ethylsulfinyl)ethyl] 0,0-dimethyl phosphorothioate and its cholines-terase-inhibiting metabolites in or on the raw agricultural commodities tomatoes at 1 part per million, onions (bulb) at 0.05 part per million, and filberts at 0.01 part per million.

The analytical method proposed in the petition for determining residues of the insecticide is a thermionic emission gas chromatographic procedure using a phosphorus sensitive detector.

Dated: July 17, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

CROWN ZELLERBACH CORP.

Notice of Filing of Petition for Food Additive

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 U.S.C. 348 (b)(5)), notice is given that a petition (FAP 3H5039) has been filed by Crown Zellerbach Corp., One Bush Street, San Francisco, CA 94119, proposing establishment of a food additive tolerance (21 CFR Part 121) for residues of butyl benzyl phthalate in or on raisins at 35 parts per million resulting from use of butyl benzyl phthalate as a solvent for the insecticide malathion in formulations applied to paper trays used in drying grapes.

Dated: July 17, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

FEDERAL POWER COMMISSION

[Docket Nos. RI74-6 and RI74-7]

CONTINENTAL OIL CO. ET AL.

Hearing on and Suspension of Proposed Changes in Rates [1]

JULY 12, 1973.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable,

[1] Does not consolidate for hearing or dispose of the several matters herein.

V 38-139 JUL 20 73 XUM

unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto [18 CFR, Chapter I], and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

[SEAL] KENNETH F. PLUMB,
Secretary.

* Unless otherwise stated, the pressure base is 14.65 p.s.i.a.
[1] Subject to processing cost up to a maximum of 4.5 per Mcf.
[2] New gas well gas.
[3] Casinghead gas.
[4] Corrected by filing of June 22, 1973.

The proposed increase of Continental Oil Company under its FPC Gas Rate Schedule No. 180 exceeds the rate limit for a one day suspension, and, is, therefore, suspended for five months.

The remaining proposed increases do not exceed the rate limit for a one day suspension and are suspended for one day.

The producers' proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR, § 2.56).

Nothing contained in this order shall relieve the respondents of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

[FR Doc.73-14857 Filed 7-19-73;8:45 am]

[Rate Schedule No. 15 etc.]

MOBIL OIL CORP. AND SKELLY OIL CO.

Notice of Rate Change Filings

JULY 12, 1973.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable area new gas ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 639, issued December 12, 1972.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filings should on or before July 19, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

FIRST CITY BANCORPORATION OF TEXAS, INC.

Order Approving Acquisition of Bank

First City Bancorporation of Texas, Inc., Houston, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under § 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the successor to a merger of Northline State Bank, Houston, Texas ("Bank"),[1] with New Northline State Bank, a newly organized bank not in operation. The banks would merge under the charter and name of Bank, and the proposed acquisition is treated herein as the proposed acquisition of shares of Bank.

[1] At present Applicant owns .97 per cent of the voting shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the third largest banking organization in Texas and largest in the Houston banking market (approximated by the Houston SMSA), controls 15 banks with aggregate deposits of $2,012 million, which represent about 6 percent of total deposits in commercial banks in Texas and 19.5 percent of all such deposits in the Houston banking market.[2] In addition, Applicant owns voting shares (less than 25 percent) of each of 13 other banks which hold, in the aggregate, deposits of approximately $406 million, representing 1.17 percent of aggregate deposits in commercial banks in Texas.[3] Consummation of the proposed transaction would add .15 percentage points to Applicant's share of the Houston banking market and .04 percentage points to Applicant's share of total commercial bank deposits in the State.

Bank, a small retail institution with deposits of approximately $12 million, serves primarily an area surrounding the Northline Shopping Center in a suburban area of north Houston. On the basis of deposits, Bank ranks 94th among the 156 banks within the rapidly expanding Houston banking market. Bank's service area overlaps that of only one of Applicant's subsidiaries, First City National Bank, a large downtown wholesale institution located over six miles from Bank. Due to its small size and its distance from downtown Houston, Bank is not regarded as a desirable vehicle for entry into the Houston banking market. Moreover, Bank and Applicant are affiliates, since shareholders owning 58.34 percent of the outstanding stock of Bank also own 50.06 percent of the outstanding stock of Applicant. A close relationship apparently has existed between Applicant and Bank since Bank's formation in 1965; and persons with present and past affiliations with Applicant have always participated in Bank's management. On the basis of the record, the Board considers that consummation of the proposed acquisition would not adversely affect competition in any relevant area to any significant extent.

[2] Banking data are as of December 31, 1972, adjusted to reflect holding company acquisitions and formations approved through May 31, 1973.

[3] The Board's Order of January 4, 1973, conditions approval of Applicant's acquisition of Highland Village State Bank, Houston, Texas, and of First State Bank of Clear Lake City, Clear Lake City, Texas, upon divestiture of direct or indirect control of all voting shares in excess of 5 percent of both South Main Bank and Heights State Bank, both of Houston, Texas. The above figures do not reflect any such divestiture.

The financial and managerial resources of Applicant, its subsidiary banks, and Bank, are regarded as satisfactory and consistent with approval and prospects are considered favorable. Considerations relating to the convenience and needs of the community are consistent with approval. It is the Board's judgment that the proposed acquisition is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[4] effective July 12, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-14923 Filed 7-19-73;8:45 am]

MARINE BANCORPORATION

Order Approving Acquisition of Globe Finance Co. of Opportunity, Inc.

Marine Bancorporation, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(1) of the Board's regulation Y, to acquire indirectly 90 percent of the outstanding small loan accounts, together with furniture and equipment of Globe Finance Co. of Opportunity, Inc., Opportunity, Washington ("Globe Finance"), through Applicant's 100 percent owned subsidiary, Commerce Credit Corporation, Seattle, Washington. The proposed subsidiary would engage in the activity of making small secured and unsecured loans for a period not in excess of 25½ months, subject to restrictions and limitations specified in the Samll Loan Act of the State of Washington.[1] Such activity has been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(1)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FR 12834). The time for filing comments and views has expired, and none has been timely received.

Applicant controls one bank, The National Bank of Commerce of Seattle, Seattle, Washington ("Commerce Bank"), with aggregate deposits of $1.4 billion, representing approximately 20 percent of the total deposits in commercial banks in Washington.[2] Commerce Bank is the second largest bank in the State.

Applicant proposes to acquire Globe Finance through Commerce Credit Company, its wholly-owned nonbanking subsidiary established in 1972 and engaged in small consumer loans and second mortgage lending. Globe Finance has net assets of $137,000 and operates a small loan business in the suburban area of Opportunity, Washington, serving only a portion of the Spokane market. The sales office of Globe Finance is located six miles east of downtown Spokane. Commerce Credit Company operates no offices in eastern Washington and consummation of this proposal would eliminate no direct competition. There is a strong possibility that Applicant may soon open offices, and compete in the consumer loan markets in the eastern Washington area.[3] However, the operations of Globe Finance are small in comparison with the large Spokane market which is served by seventeen companies including several large national corporations. Furthermore, a sister corporate organization to Globe Finance operates two other offices in the Spokane area and thus the number of alternative consumer lenders in Spokane will not be reduced by the present application. In terms of the overall market, the acquisition of the assets of Globe Finance by Commerce Credit Company would have no significant adverse effects on existing or potential competition within the market, and the Board finds that the competitive issues are consistent with approval of the application.

It appears that the proposed acquisition would not result in any undue concentration of resources, conflicts of interests, unsound banking practices, or any other adverse effects on the public interest. Furthermore the proposed acquisition would serve the public, since it would provide for the entry into the subject market of a company with greater financial resources than are presently possessed by Globe Finance, thereby resulting in greater potential availability of consumer credit for local residents.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under § 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary

[4] Voting for this action: Vice Chairman Mitchell and Governors Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Chairman Burns and Governor Daane.

[1] Chapter 31.08 Revised Code of Washington.

[2] All banking data are as December 31, 1972.

[3] The Commerce Bank has received regulatory approval to merge Washington Trust Bank, Spokane, Washington, into itself. That merger has been deferred pending ultimate resolution of a suit brought by the United States Department of Justice challenging that merger, which the Department lost in the trial court and has now appealed to the Supreme Court.

V 38 I 139 JUL 20 73 XUM

to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[4] effective July 12, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-14924 Filed 7-19-73;8:45 am]

GENERAL SERVICES ADMINISTRATION

[Federal Property Management Reg.; Temporary Reg. F-185]

DATA SERVICES OF THE FEDERAL TELECOMMUNICATIONS SYSTEM INTERCITY VOICE NETWORK

1. *Purpose.* This regulation prescribes revised procedures and reporting requirements and updated rates for the various data services provided by the Federal Telecommunications System (FTS) intercity voice network.

2. *Effective date.* This regulation is effective July 1, 1973.

3. *Expiration date.* This regulation expires February 28, 1974, unless sooner revised or superseded.

4. *Conditions of service.* This regulation contains provisions for conditions of service and methods of charging for direct use of the FTS intercity voice network for transmission of data by facsimile, magnetic tape, card transceiver, or similar data terminal equipment.

a. *General.* The FTS intercity voice network is available under controlled conditions for direct subscriber access by Federal agencies or their approved cost reimbursement contractors for the transmission of only that data which can be accommodated over normal voice-grade, unconditioned switched channels.

b. *Suspension of service.* Daytime use of the FTS intercity voice network for data transmission is subject to restrictions necessary to protect the quality of regular network service for voice transmission. In the event of deterioration of quality of service for voice transmission at any location, the General Services Administration may inform agencies of the necessity for temporary or permanent cessation of use of particular FTS voice circuits for data transmission during the daytime usage hours.

c. *Service availability.* Service is offered between locations which are served direct by the FTS intercity voice network. No off-net originating service is available. Off-net terminating service is available only by special arrangement.

5. *Direct subscriber use between agency terminals.* This service is available to agencies having a data transmission requirement between locations served direct by the FTS intercity voice network. The following general provisions, rates, and method of billing will apply:

[4] Voting for this action: Vice Chairman Mitchell and Governors Daane, Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Chairman Burns.

a. *Prior approval.* Prior approval must be obtained from GSA in accordance with FPMR 101-35.2 before the inception of service.

b. *Charges.*

(1) Data transmissions during daytime hours (7 a.m. to 7 p.m. e.s.t., Mondays through Fridays, except holidays) will be at the rate of 14 cents per minute. Although calls may be subject to sampling, such calls will not be included in the sampling results.

(2) Night, holiday, and weekend service (7 p.m. to 7 a.m. e.s.t., Mondays through Fridays, and 24 hours per day on Saturdays, Sundays, and holidays) will be provided without charge.

(3) All costs associated with data terminal equipment, data sets, channel terminations, installation charges, special circuitry, metering devices, etc., will continue to be borne by the subscribing agency unless agreements have been made with GSA wherein GSA will provide a total communications service for the agency at a rate which also covers such items as listed above.

(4) Agency subscribers of GSA's Remote Access Multi-User System (RAMUS), provided by the Federal Data Processing Center in Atlanta, Georgia, and located within a 100-mile radius of the entry points listed below to the Atlanta time-sharing computer, are not subject to the above usage charges or to the reporting requirements of subparagraph 5c, below, since the FTS intercity costs within this radius are included in the charges for the RAMUS service.

LIST OF ENTRY POINTS

Chicago, IL	New York, NY
Detroit, MI	Washington, DC
Boston, MA	Vicksburg, MS
Atlanta, GA	

c. *Reports and billing.* (1) Except as specified in subparagraph 5c(3), below, using agencies shall submit, no later than 10 days after the end of each quarter, usage reports on GSA Form 2830, Individual Terminal Report of FTS Intercity (Voice Network) Data Transmission. GSA Form 2830 requires the number of calls and minute usage for daytime hours for each terminal location (address—number, street, city, State, ZIP code, and room number) and, for information purposes, a listing of the terminals used at night, holidays, and weekends. Reports shall be forwarded to the General Services Administration (CXM), Washington, DC 20405. The first report is due October 10, 1973.

(2) GSA will render a quarterly bill to the headquarters level based on the quarterly usage submitted by the agency on GSA Form 2830 for each of its terminal locations.

(3) For that part of agency traffic that is carried over the FTS intercity voice network under the GSA Teleprocessing Service Contract, a quarterly report of usage need not be submitted since this traffic will be reported to GSA by the contractor. GSA will render a quarterly bill to the headquarters level based on the information submitted by the contractor.

6. *Forms availability.* Agencies may obtain their initial supply of GSA Form 2830 from the General Services Administration (3BRDD), Union and Franklin Streets Annex, Building 11, Alexandria, VA 22314. Agency field offices should submit all future requirements for the form to their Washington, DC headquarters office which will forward consolidated annual requirements to the General Services Administration (BRAF), Washington, DC 20405.

7. *Service to Alaska, Hawaii, and Puerto Rico.* This service continues to be available on an authorized and controlled basis for certain types of record and data traffic requiring the use of unconditioned voice circuits served direct by FTS intercity voice network.

a. To avoid interruption of transmission, it is required that the originator of data calls to and from Alaska, Hawaii, and Puerto Rico inform the FTS overseas operator that the call is a data call and give the approximate length of transmission.

b. The following rates cover only the cost of service from the gateway centers (San Francisco to Hawaii for Hawaii service; Seattle to Alaska for Alaska service; and Washington, DC to Puerto Rico for Puerto Rico service) and are effective July 1, 1973.

To and from gateway centers and:

	Rate/Minute
Alaska	0.90
Hawaii	1.00
Puerto Rico	1.00

c. Data transmissions originating or terminating in Alaska, Hawaii, or Puerto Rico are not subject to the reporting requirements of paragraph 5, above. GSA will render a quarterly bill at the headquarters level based on tickets prepared by GSA operators at the gateway centers. GSA will also bill at the rate of 14 cents per minute for any data traffic (7 a.m. to 7 p.m. e.s.t., Monday through Friday, except holidays) that passes over the conterminous 48-State portion of the FTS intercity voice network. Although such conterminous traffic may be subject to sampling, such calls will not be included in sampling results.

8. *General-usage magnetic tape and card service.* Service to agencies having a requirement for the delivery of magnetic tapes and punched cards is currently available by arrangement between any of the GSA terminal stations in the following locations:

Atlanta, GA	Fort Worth, TX
Auburn, WA	Kansas City, MO
Boston, MA	New York, NY
Chicago, IL	San Francisco, CA
Denver, CO	Washington, DC

a. The reimbursement rate for the transmission of magnetic tape between any two GSA terminal locations, including usage of the FTS intercity voice network, will be $1 per minute. Service is also available to agencies operating their own magnetic tape terminal having access to the FTS intercity voice network. The charge for magnetic tape service from an agency-operated terminal to any of the above GSA locations or from any of the above GSA locations to an agency-operated terminal will be at the rate of 57 cents per minute. This rate includes FTS usage and use of the single GSA magnetic tape terminal.

b. The reimbursement rate for the transmission of punched card traffic between any two GSA terminal locations is 2½ cents per card. The card transceiver network is also interconnected with the Defense Communications System Automatic Digital Network (AUTODIN), enabling the exchange of card traffic with any location served by the military worldwide system.

c. The pickup and delivery of magnetic tapes and card decks from GSA-operated terminals are the responsibilities of the subscribing agency. Agencies are to return or make suitable replacement for magnetic tapes provided by GSA.

d. Billing for services will be made monthly by GSA on the basis of usage reports from the GSA data communications centers providing the service.

9. *Prior approval and information.* a. Prior arrangements must be made with GSA before the inception of service. Requests for information and approval in connection with initial requirements should be directed to the Assistant Commissioner for Agency Assistance, Planning, and Policy (CP), Automated Data and Telecommunications Service, General Services Administration, Washington, DC 20405 (telephone: FTS 202-254-6306, IDS 193-46306, or Centrex A 46306).

b. Information regarding specific rate applications and billing may be obtained from the Office of the Executive Director (CX), Automated Data and Telecommunications Service General Services Administration, Washington, DC 20405 (telephone: FTS 202-254-6364, IDS 193-46364, or Centrex A 46364).

10. *Agency comments.* Comments concerning the effect or impact of this regulation on agency operations or programs should be submitted to the General Services Administration (CP), Washington, DC 20405, no later than November 30, 1973, for consideration and possible incorporation into a permanent regulation.

11. *Effect on other issuances.* This regulation cancels GSA Bulletin FPMR F-37.

ARTHUR F. SAMPSON,
Administrator of General Services.

JULY 13, 1973.

[FR Doc.73-14964 Filed 7-19-73;8:45 am]

OFFICE OF ECONOMIC OPPORTUNITY

NATIVE AMERICAN PROGRAM

Notice of Designation

Pursuant to the authority in section 222(a) of the Economic Opportunity Act of 1964, I hereby designate as a Special Program a program to be known as the Native American Program. This program, which will be developed and carried out under the direction of the Department of Health, Education, and Welfare, will involve new and innovative approaches in dealing with the special needs of Indians and Alaska Natives, providing for a better focusing of available resources on their attainment of economic self-sufficiency. It will also contribute to the implementation of the President's recommendations on Indian Policy as presented to the Congress on July 8, 1970. The program shall include provisions to enable Indians and Alaska Natives, acting through their own instruments of self government, to establish their own programmatic and funding priorities and to gain control and direction of institutions and programs affecting their daily lives.

Assistance under this program shall continue to be provided through grants on contracts to tribal councils or other public or private nonprofit agencies for such purposes as, but not limited to: (1) The support of self-determination programming aimed at increasing the capabilities of reservation Indians to take over services now provided by non-Indian controlled organizations; (2) the support for projects designed to meet the nutritional needs of Indians and Alaska Natives, and to provide other needed services to promote individual and family self-sufficiency; (3) the support for establishment and operation of urban centers serving Indian people living off reservations; and (4) funding to encourage self-help and community economic development efforts.

I hereby determine that the objectives sought cannot be effectively achieved through the use of authorities under section 221 of the Act. As is indicated above, an important objective sought is the better focusing of federal and state resources on the goal of self-sufficiency of Indian tribes, Alaska Native communities and their members. Because of the extent of geographic, cultural and socio-economic dispersion and isolation of such tribes and communities, the variety of the resources that may be brought to bear and the complexity of the systems and processes by which the availability of these resources is determined, local initiative programming under section 221 has not been and cannot be effective to achieve this objective. In accordance with the principle of self-determination without termination of the special relationship between the Federal government and the Indian tribes and Alaska Native communities, the determination, formulation and administrative effectuation of responsive measures should be carried out cooperatively by Federal and State governments and organizations representative of Indians and Alaska Natives functioning on a national or state-wide basis. Financial, organizational, informational and technical assistance required for these purposes cannot be effectively, efficiently or economically provided through the use of authorities under section 221 of the Act.

A further objective sought is to increase the capability of Indian tribes and Alaska Native communities to establish their own programmatic and funding priorities. At present these tribes and communities possess this capability in varying degrees. This crucial aspect of self-determination has not been effectively achieved because of the categorization of much of the available resources, the history of their administration by non-tribal and non-community agencies and the widespread deficiency of financial, technical and other support for the development and functioning of strong, well organized, efficient tribal and community governments. To achieve the objectives there is needed a program of assistance which accords the development of such governments the status of a binding national priority, but which is otherwise substantially noncategorical in proportion to the recipient tribes' and communities' capacity for planning and utilization. The authorities under section 221 of the Act preclude the establishment of a binding national priority of this type and are, in general, insufficient for the accomplishment of this purpose. This designation shall be effective on July 1, 1973.

Dated: July 6, 1973.

A. J. ARNETT,
Director-Designate,
Office of Economic Opportunity.

[FR Doc.73-14965 Filed 7-19-73;8:45 am]

SECURITIES AND EXCHANGE COMMISSION

BROKER-DEALER MODEL COMPLIANCE PROGRAM ADVISORY COMMITTEE

Notice of Public Meetings

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92-463, 86 Stat. 770, the Securities and Exchange Commission announces the following public advisory committee meetings.

The Commission's Advisory Committee on a Model Compliance Program for Broker-Dealers, established on October 25, 1972 (Securities Exchange Act Release No. 9835), will hold meetings on August 1-3, 1973 at the Dallas North Marriott Inn, 7750 LBJ Freeway, Dallas, Texas. The meetings will commence at 9:00 a.m., local time.

This Advisory Committee was formed to assist the Commission in developing a model compliance program to serve as an industry guide for the broker-dealer community. Assisted by this Committee's work, the Commission plans to publish a guide to broker-dealer compliance under the securities acts in order to advise broker-dealers of the standards to which they should adhere if investor confidence in the fairness of the market place is to be warranted and sustained. The Committee's recommendations are not intended to result in the expansion of Commission rules governing broker-dealers, but to inform broker-dealers as to the existing requirements and how they may comply with them.

The Committee's scheduled meetings will be for the purpose of reviewing drafts and proposals concerning the

V 38 139 JUL 20 73 XUM

Committee's proposed report to the Commission on these compliance guidelines for broker-dealers.

These meetings are open to the public. Any interested person may attend and appear before or file statements with the Advisory Committee—which statement, if in written form, may be filed before or after the meeting or, if oral, at the time and in the manner and extent permitted by the Advisory Committee.

[SEAL] RONALD F. HUNT,
Secretary.

JULY 17, 1973.

DEPARTMENT OF LABOR

Wage and Hour Division

[Administrative Order No. 626]

SPECIAL INDUSTRY COMMITTEE FOR ALL INDUSTRY IN AMERICAN SAMOA

Appointment; Convention; Notice of Hearing

Pursuant to sections 5 and 6(a)(3) of the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 205, 206(a)(3)), and Reorganization Plan No. 6 of 1950 (3 CFR, 1949–53 Comp., p. 1004), I hereby appoint Special Industry Committee No. 10 for American Samoa. Pursuant to section 6(a)(3) and section 8 of the Act, as amended (29 U.S.C. 206(a)(3), 208) and Reorganization Plan No. 6 of 1950, I hereby convene this committee, refer to it the question of the minimum wage rate or rates for all industry in American Samoa to be paid under section 6(a)(3) of the Act, as amended, and give notice of the hearing to be held by it.

The Committee shall meet in executive session at 9 a.m., September 20, 1973, in the Legislative Hall, Pago Pago, American Samoa, and shall commence its public hearing at 9 a.m., September 24, 1973 at the same place. The industry committee shall investigate conditions in such industry and the committee, or any authorized subcommittee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the committee to perform its duties and functions under the Act.

The committee shall recommend to the Administrator of the Wage and Hour Division of the Department of Labor the highest minimum rate or rates of wages for such industry which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in such industry, and will not give any industry in American Samoa a competitive advantage over any industry in the United States outside of Puerto Rico, the Virgin Islands and American Samoa. The committee shall not, however, recommend minimum wage rates in excess of those under the Fair Labor Standards Act for classifications in the United States, currently $1.60 an hour.

Where the committee finds that a higher minimum wage may be determined for employees engaged in certain activities or in the manufacture of certain products in such industry than may be determined for other employees in such industry, the committee shall recommend such reasonable classifications within such industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it, under the principles set forth herein, which will not substantially curtail employment in such classification and will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage rate shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within the industry, in making such classifications, the committee shall consider, among other relevant factors, the following:

(1) Competitive conditions as affected by transportation, living and production costs; (2) wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (3) wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards.

The Administrator of the Wage and Hour Division, U.S. Department of Labor, shall prepare an economic report containing the information he has assembled pertinent to the matters referred to the committee. Copies of this report may be obtained at the Office of the Governor, Pago Pago, American Samoa, and the National Office of Wage and Hour Division, U.S. Department of Labor, Washington, D.C. 20210, as soon as it is completed. The committee will take official notice of the facts stated in this report. Parties, however, shall be afforded an opportunity to refute such facts by evidence received at the hearing.

The procedure of this industry committee will be governed by the provisions of Title 29, Code of Federal Regulations, Part 511. Copies of this part of the regulations will be available at the Office of the Governor in Pago Pago, American Samoa, and at the National Office of the Wage and Hour Division. The proceedings will be conducted in English but in the event a witness should wish to testify in Samoan, an interpreter will be provided. As a prerequisite to participation as a party, interested persons shall file six copies of a prehearing statement at the aforementioned Office of the Governor of American Samoa and six copies at the National Office of the Wage and Hour Division, U.S. Department of Labor, Washington, D.C. 20210. Each prehearing statement shall contain the data specified in § 511.8 of the regulations and shall be filed not later than September 1, 1973. If such statements are sent by airmail between American Samoa and the mainland, such filing shall be deemed timely if postmarked within the time provided.

Signed at Washington, D.C., this 16th day of July 1973.

PETER J. BRENNAN,
Secretary of Labor.

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Exemption of Providers of Health Services

The purpose of this amendment is to add a new § 140.35 to Part 140 of Title 6, Code of Federal Regulations to exempt institutional and noninstitutional providers of health services from the provisions of the Council's freeze regulations, and to continue the Phase III mandatory controls applicable to providers of health services that are embodied in § 130.61 of Part 130 of this title.

The continuation of Phase III mandatory controls is intended to be an interim measure. New regulations governing providers of health services will be developed and issued as a separate subpart of the forthcoming Phase IV regulations after extensive consultation with the Health Industry Advisory Committee of the Cost of Living Council and other interested health care providers and consumers.

Because the purpose of this amendment is to provide immediate guidance and information with respect to the administration of the Economic Stabilization Program, the Council finds that further notice and procedure thereon is impracticable and that good cause exists for making it effective in less than 30 days. Interested persons may submit communications regarding these regulations. Communications should be addressed to the Office of General Counsel, Cost of Living Council, Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11730, 38 FR 19345.)

In consideration of the foregoing, Subpart D of Part 140 of Chapter 1 of Title 6 of the Code of Federal Regulations is amended as set forth herein, effective July 1, 1973.

Issued in Washington, D.C., July 18, 1973.

JAMES W. MCLANE,
Director,
Special Freeze Group.

Section 140.35 is added to Part 140 to read as follows:

§ 140.35 Providers of health services.

Effective July 1, 1973, institutional and noninstitutional providers of health services are exempt. Providers of health services continue to be subject to the Phase III mandatory controls set forth in § 130.61 of this title.

[FR Doc.73-15025 Filed 7-19-73;4:30 pm]

PART 150—COST OF LIVING COUNCIL PHASE IV REGULATIONS

The purpose of this amendment is to establish a new Part 150—Cost of Living Council Phase IV Regulations and a new Subpart N therein.

Subpart N is a republication of the June 18, 1973, price regulations applicable to the construction industry, 38 FR 15821. Prior to publication on June 18, there was consultation with numerous contractor's associations, user groups, and affected Federal agencies.

The regulations establish several rules applicable to prices charged for construction operations, reaffirm profit margin limitations for construction operations, prescribe reporting requirements for sales, costs, and profits by a firm in the construction industry, and provide a procedure for renegotiation of fixed price construction contracts where wages have been reduced.

Because the purpose of this amendment is to provide immediate guidance and information with respect to the administration of the Economic Stabilization Program, the Council finds that further notice and procedure thereon is impracticable and that good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Title 6 of the Code of Federal Regulations is amended by establishing a new Part 150 and adding a new Subpart N therein as set forth below, effective August 12, 1973.

Issued in Washington, D.C., July 19, 1973.

WILLIAM N. WALKER,
Acting Deputy Director,
Cost of Living Council.

Subpart N—Construction

Sec.
150.451 Scope.
150.452 Definitions.
150.453 Prices: Redetermination of contracts in excess of $500,000.
150.454 Reporting of sales, costs, and profits.
150.455 Prices: Passthrough of allowable costs.
150.456 Profit margin measurement.

AUTHORITY: Economic Stabilization Act of 1970, as amended; Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; EO 11730, 38 FR 19345.)

Subpart N—Construction Industry

§ 150.451 Scope.

This subpart establishes special rules applicable to prices charged for construction operations in the construction industry. This subpart does not apply to the prices charged by any firm in the construction industry which derives both less than 20 percent of its annual sales or revenues from construction operations and less than $30 million of annual sales or revenues from construction operations.

§ 150.452 Definitions.

For purposes of this subpart, the terms—

(a) "Annual sales or revenues" means the total gross receipts of a firm in the construction industry during its most recent fiscal year, except that it does not include gross receipts of or from a foreign branch or division of such a firm, or the gross receipts of or from a wholly or partially owned foreign entity such as a corporation, partnership, joint venture, association, trust, or subsidiary, if the gross receipts of such foreign entity, branch, or division are derived primarily from transactions with other foreign firms. A foreign entity, branch, or division is one located outside the several States and the District of Columbia. However, gross receipts of domestic entities from U.S. export sales and from sales to firms in the Commonwealth of Puerto Rico are included in the determination of annual sales or revenues. For purposes of this subpart annual sales or revenues shall also include the firm's pro rata share of annual sales and revenues derived from the construction operations of any joint venture of which it is a part.

(b) "Base period" means any one, at the option of the firm concerned, of the following fiscal years: That firm's last three fiscal years ending before August 15, 1971, and any fiscal year, other than the fiscal year for which compliance is being measured, completed on or after that date.

(c) "Construction industry" means every firm engaged in or undertaking any construction operations, and every employee employed by such firm.

(d) "Construction operations" means all work relating to the erecting, construction, altering, remodeling, painting, or decorating of installations such as buildings, bridges, highways, and the like when performed on a contract basis, but shall not include maintenance work performed by workers employed on a permanent basis in a particular plant or facility for the purpose of keeping such plant or facility in efficient operating condition. The term also means the transporting of materials and supplies to or from a particular building or project by the workers of the contractor or subcontractor performing the construction or the manufacturing of materials, supplies, or equipment on the site of a project by such workers. In addition, the term means all other work classified as construction in 29 CFR 5.2(g).

§ 150.453 Prices: Redetermination of contracts in excess of $500,000.

(a) The contract price for each construction contract in excess of $500,000, all or part of which is performed by construction workers whose wages and salaries are subject to review by the Construction Industry Stabilization Committee (CISC) or the Cost of Living Council (CLC), shall be redetermined prior to final payment if the wage and salary level of those construction workers is reduced as a result of CISC or CLC action. The amount by which the contract price is reduced as a result of the redetermination must fairly reflect the results of the CISC or CLC action, including any cost increases directly resulting from the CISC or CLC action.

(b) Redetermination of any Federal Government fixed-price prime construction contract in excess of $500,000 affected by CISC or CLC action shall be conducted in the manner provided in the Federal Procurement Regulations and applicable regulations of the Department of Defense.

(c) Redetermination of fixed-price prime construction contracts in excess of $500,000 other than those referred to in paragraph (b) of this section shall be conducted in the following manner:

(1) Upon notification of a reduction in the wages and salaries of construction workers subject to CISC or CLC review each subcontractor performing work under the prime contract, whose construction workers have had a reduction of wages and salaries as a result of CISC of CLC action, shall promptly notify the prime contractor of any such reduction, notwithstanding the dollar value of the subcontract.

(2) In the absence of a contract clause relating to redetermination of the contract price, and after notification by his subcontractors of a reduction in the wages and salaries of construction workers as a result of CISC or CLC action, the prime contractor shall offer in writing to redetermine the contract price with the owner or user prior to final payment, and furnish the owner or user with a statement of the estimated number of employees affected by the CISC or CLC action.

(3) The owner or user shall notify the contractor of his intention to jointly redetermine the contract price within 90 days after receipt of the offer referred to in paragraph (c)(2) of this section.

(d)(1) In complying with this section, the prime contractor may require each subcontractor, regardless of tier, to submit to him a statement of the estimated number of employees affected by the results of the CISC or CLC action. The final payment due the subcontractor engaged to perform the subcontracted work shall be jointly redetermined to reflect fairly the results of the CISC or CLC action, including any cost increases directly resulting from such action.

(2) Pending notification by the owner or user of his intent to redetermine the contract price, the prime contractor may place in escrow an amount which fairly reflects the CISC or CLC action. The prime contractor shall refund to the subcontractor the amount placed in escrow if the owner or user does not indicate to the prime contractor his intention to jointly redetermine the contract price within the 90-day period specified, or if the owner or user does notify the prime contractor during that time period that he will not redetermine the contract price.

§ 150.454 Reporting of sales, costs, and profits.

A firm in the construction industry with annual sales or revenues of $50 million or more from construction operations shall report annually information as to sales, costs, and profits in accordance with forms and instructions issued by the Council. A firm required to report quarterly under § 150.151 shall not include within the quarterly report sales, costs, and profits information relating to construction operations if the firm is required to report such information annually under the provisions of this section.

§ 150.455 Prices: Passthrough of allowable costs.

A firm in the construction industry may charge prices for construction operations to reflect any allowable costs which it has incurred and continues to incur to the extent that such prices do not result in an increase in its profit margin over that which prevailed during the base period. For purposes of this section, the term "allowable costs" includes the full amount of any pay adjustment contained in a collective-bargaining agreement entered into after November 8, 1971, to the extent such pay adjustment has been approved by CISC or CLC. The full amount of any pay adjustment contained in a collective-bargaining agreement entered into after November 8, 1971, which was approved by the CISC or CLC and passed through prior to June 13, 1973, shall also be considered to be an allowable cost as of the date such pay adjustment was passed through.

§ 150.456 Profit margin measurement.

(a) For purposes of § 150.455 to the extent possible and consistent with the accounting principles customarily used in preparation of the contractor's financial statements, profit margin on construction operations shall be separately determined from profit margin on nonconstruction operations. To the extent that the annual sales or revenues from nonconstruction operations cannot be separated from the annual sales or revenues from construction operations for purposes of profit margin determination, those annual sales or revenues from nonconstruction operations are subject to the mandatory profit margin rule of this subpart.

(b) Where annual sales or revenues from nonconstruction operations cannot be separated from the annual sales or revenues from construction operations, the base period to be used in calculating the profit margin shall be the base period defined in § 150.21 and not the base period defined in § 150.452.

(c) No firm in the construction industry may exceed its base period profit margin unless the excess results from factors such as variation in the profit margin caused by the accounting method used on multiyear projects, the manner of accruing losses on multiyear projects, or other factors which are unique to the construction industry and which would distort the comparison of a firm's current profit margin with that which prevailed in its base period.

(d) Any justification for a profit margin exceeding the base period profit margin by a firm subject to § 150.454 which is based on paragraph (c) of this section, shall be reported and be subject to review by the Council.

V 38 139 JUL 20 73 XUM

COST OF LIVING COUNCIL

[6 CFR Parts 130, and 150]

PHASE IV REGULATIONS

Notice of Proposed Rulemaking

Pursuant to Executive Order 11730, the Cost of Living Council is considering the adoption of the regulations set forth in this notice effective August 12, 1973.

In its initial action in implementing Executive Order 11730, the Council on July 18, 1973, issued a series of amendments to the Freeze regulations providing for Stage A of the transition of the Food industry from the Freeze to Phase IV (38 FR 19462).

Elsewhere in this edition of the FEDERAL REGISTER are amendments to the Economic Stabilization Regulations which provide for returning providers of health services to Phase III controls pending development of Phase IV regulations (38 FR 19462) and providing for the direct transition of the construction industry from the freeze into Phase IV. (38 FR 19462).

In issuing this notice of proposed rulemaking the Council is inviting public comment on the principal substantive price control rules contemplated for Phase IV. Special rules are included dealing with the petroleum and insurance industries. Also included are several technical amendments to existing Phase III Wage Stabilization regulations to adjust them for Phase IV and to accommodate the establishment of separate Price Stabilization regulations.

In the near future, the Council will be issuing procedural regulations covering appeals, requests for exceptions, exemptions and reclassification, hearing procedures, and the disclosure of economic stabilization information. It will also be issuing additional regulations providing for Stage B of the transition of the food industry into Phase IV as well as a recodification of the Phase III wage stabilization regulations, which continue in effect.

Interested persons are invited to participate in the rulemaking by submitting written data, views or arguments with respect to the proposed regulations set forth in this notice, to the Executive Secretariat, Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508. Comments should be identified with the designation "Proposed "Phase IV Docket" and should be organized so that those dealings with a particular subpart of the proposed regulations are separate from those dealing with other subparts (i.e. on separate pages). At least ten copies should be submitted. All communications received before July 31, 1973, will be considered by the Council before taking final action on the proposed regulations. The proposed regulations contained in this notice may be changed in the light of comments received. All comments received in response to this notice will be available for examination and copying by interested persons at the Cost of Living Council, 2000 M Street, NW., Washington, D.C. during the hours of 9:00 a.m. to 5:00 p.m., Monday through Friday. Submissions will be available both before and after the closing date for comments.

SUBPART A—GENERAL

Subpart A provides the scope of the new Part 150. It specifies which of the prior regulations are superseded and which temporarily remain in effect.

Subpart A also provides that reports due under the Phase III regulations continue to be required even though Phase III has ended for most firms.

Subpart A also reiterates the Phase III rule that contract renegotiation provisions which depend for their operation upon the modification or termination of the Economic Stabilization Program are inoperative as inconsistent with the goals of that program.

SUBPART B—DEFINITIONS

Subpart B contains the definitions of general applicability to this part. Definitions which are applicable only to one subpart are placed at the beginning of that Subpart.

SUBPART C—CLASSIFICATIONS

Subpart C classifies all firms as price category I, II or III, based upon the firm's annual sales or revenues. Specifically, a price category I firm is a firm with annual sales or revenues of $100 million or more. A price category II firm is one with annual sales or revenues of at least $50 million but less than $100 million. All others are price category III firms. The terms "firm" and "annual sales or revenues" are carried forward from Phase II and III. Therefore, as in Phase II, for purposes of determining the appropriate price category, a firm must include the annual sales or revenues from the most recently completed fiscal year of each entity it controls, directly or indirectly, as well as its own annual sales or revenues from its most recently completed fiscal year.

SUBPART D—EXEMPTIONS

The purpose of Subpart D is to set forth a list of the items, transactions, and firms exempt from various provisions of the Economic Stabilization Program. The exemptions are the same as those that prevailed during Phase II and III with certain exceptions and modifications as follows:

Section 150.51 includes language to make it explicit that the exemption of a particular item or sale from the rules governing the price that may be charged for the item or sale does not mean that revenues derived can be excluded from a firm's revenues in determining such things as its price category classification or its profit margin.

Items and sales being added to the Phase II and III exemption are (1) brokerage fees for securities and commodities [§ 150.54(l)], (2) certain long-term coal contracts [§ 150.54(n)]. (3) lumber and certain wood products [§ 150.54(o)], and (4) public utilities [§ 150.56].

Postal rates are being expressly deleted from the exemptions [§ 150.54(a)].

The exemption for U.S. tanker rates [§ 150.54(k)] is restated to expressly cover tanker rates on all coastwise voyages, not just those "by sea".

The requirements that a vessel be U.S. built, U.S. documented, and U.S. owned are being omitted as unnecessary since all vessels must meet those standards before they can be licensed to engage in the coastwise trade.

In the small businesses exemption the dates for measuring a firm's qualifications are being advanced 15 months to make them more contemporaneous with the Economic Stabilization Program's entry into Phase IV.

SUBPART E—GENERAL RULES

Subpart E sets forth the general pricing rules which, unless otherwise provided, apply in the new Part 150. The general pricing rules are: (1) No one may change a price for an item which exceeds the base price (or other authorized price) for that item; (2) no one may knowingly pay a price which exceeds the base price (or other authorized price) for that item, unless he had no reasonable alternative but to pay that price and he reports the unlawful price to the IRS; and (3) no one may take retaliatory action against another who files or intends to file a violation complaint or otherwise exercises his rights under the Economic Stabilization Program. These rules are virtually the same as those provided in Phase II.

Subpart E also sets forth the pricing rules applicable to firms engaged in manufacturing and service activities. These rules differ from the Phase II pricing rules for manufacturers and service organizations (§§ 300.12 and 300.14) in several respects, including the following:

(1) Prices above base price levels may be changed to recover net allowable cost increases on a dollar-for-dollar basis only. In Phase II, price increases which reflected increases in allowable costs also reflected maintenance of profit margins (subject to the limitation that the firm's overall profit margin could not exceed its base period profit margin).

(2) The antecedent base point for "cost reach-back" purposes has been changed from the date of the last price increase in the item concerned to the fiscal quarter which ended prior to January 11, 1973. This is also the period for calculating base prices under Phase IV. This change will simplify control and reporting of cost justification because henceforth costs will always be measured from the same base point on a cumulative basis, without regard to intervening price increases. A new period for cost accumulation began under the Phase II rules every time the price of an item was increased, with the result that costs were recorded on an incremental basis without a common point of reference.

(3) Subpart E also places a positive obligation upon firms which raise prices above base price levels to reduce prices when, and to the extent that, the costs which support those price increases no longer continue to be incurred. This rule was implicit under Phase II but was not expressly stated in either § 300.12 or § 300.14.

(4) Subpart E continues unchanged the Phase II rule requiring that increases in labor cost be reduced to reflect productivity gains and that the unit cost decrease in nonvariable costs that results from an increase in volume of output be taken into account. However, because construction contractors are subject to special regulations under Subpart N which differ substantially from the applicable Phase II rules, the productivity offset required in Phase II is not required of construction contractors in Phase IV.

Also new in Subpart E is a special pricing rule covering lawful price increases late in Phase II (after the end of the firm's base cost period), price increases under Phase III's general price standard, and price increases lawfully effected during the 1973 freeze. Essentially, this special rule provides that these price increases may continue to be charged after August 12, 1973, at the last price level charged with respect to the item concerned on or before that date. However, before these prices may be raised again, the entire amount by which the price charged exceeds the base price, including all price-increase increments since the firm's cost base period, must be cost-justified in accordance with the new dollar-for-dollar rule.

(5) Another special pricing rule contained in Subpart E provides that firms which are subject to the prenotification requirement may apply the prenotified percentage price increase authorized under Subpart H to a product line or service line on a weighted average basis. However, where the prenotified percentage price increase authorized is 10 percent or less, the price increase on any one item may not exceed 10 percent, and where the prenotified percentage price increase to be applied is more than 10 percent the price increase on any item may not exceed the prenotified percentage price increase authorized.

(6) Subpart E also contains the same profit margin limitation which was applied in Phase II to firms which raised a price above the base price. The profit margin rule has been restated, however, to more clearly express its purpose and intent.

Under the profit margin rule as now stated, a firm may not exceed its base period profit margin "for the fiscal year in which a price above the base price is charged." This language makes clear that the profit margin test is a fiscal year test. It does not preclude testing profit margin compliance on a quarterly basis, however. As in Phase II, compliance will be tested quarterly in Phase IV on the basis of a projection for the full fiscal year.

The profit margin rule has been restated to eliminate language which limited price increases to those which in addition to being otherwise permissible, did not "result in" a profit margin excess. This language raised the question of whether there was a requirement to establish a causal link between a price increase above base price and an ensuing profit margin excess. Some firms took the position early in Phase II that a profit margin excess actually experienced was not a direct result of price increases above base but was the result of other factors. Other firms interpreted "result in" to loosely mean "end in," with the sense not of any direct causality but merely of outcome or conclusion. The Cost of Living Council has consistently adhered to the position (as did the Price Commission) that the charging of a price in excess of the base price necessarily contributes in some degree to any profit margin excess experienced in the same fiscal year, and that no direct causal relationship need be shown.

To avoid any misinterpretation in Phase IV, the Council has eliminated from the profit margin rule all words which raise a question of causality. The Council has, however, retained the essential sense of the profit margin rule as an indirect or secondary limitation on price increases once a price above base is charged. The profit margin rule now simply states that once a firm has changed a price in excess of the base price it may not exceed its base period profit margin for the fiscal year in which the increased price is charged. Conforming changes have been made in the new Part 150 wherever the profit margin rule is applied.

Under the alternative general price standard of Phase III firms were permitted to raise prices by a weighted annual average of 1.5 percent or less without limitation as to profit margin. Firms which increased prices pursuant to that alternative general price standard and which, as a result, exceed their base period profit margin during Phase IV may be eligible for an exception to application of the profit margin rule.

Subpart E contains a special provision (§ 150.92) covering prices specified in contracts entered into during the 1973 freeze with respect to delivery or performance occurring during Phase IV. A special rule is needed because contracts calling for performance or delivery after the freeze were not subject to the price freeze rules.

The new § 150.92 provides that a contract entered into during the freeze, with respect to any delivery or performance occurring after August 12, 1973, shall be subject to the pricing rules of Phase IV except that no prenotification shall be required with respect to payment which falls due before September 12, 1973. The effect of this regulation is to subject the post-freeze portion of the contract to all of the pricing rules of Phase IV except prenotification during the first month of Phase IV. The regulation does not operate to bar any delivery or performance scheduled to take place during the first month of Phase IV which would have been deferred by operation of the prenotification rule.

SUBPART F—BASE PRICES AND OTHER AUTHORIZED PRICES

Subpart F provides the rules for calculating base prices and other authorized prices. The general rule is that the base price of an item is the average price lawfully charged for the item in transactions with the class of purchaser concerned during the base price period.

The average price is determined by dividing the net sales of the item to the class of purchaser by the quantity of the item sold or leased to the class of purchaser during the base price period. The base period is the last fiscal quarter which ended prior to January 11, 1973. If no transaction occurred during that fiscal quarter with respect to the item and class of purchaser concerned, the base price period is the next preceding fiscal quarter in which such a transaction did occur.

Subpart F provides that temporary special deals and allowances may not be excluded in computing the base price. Subpart F also incorporates the Phase II rule modifying the class of purchaser concept for purposes of vending machine sales.

The rules for determining a base price with respect to new items, and for determining an authorized price with respect to custom products and custom services are similar to those provided in Phase II. An important change is the inclusion of a prenotification requirement with respect to the sale of new items by a firm which derives more than $10 million annually from the sale or lease of new items. The purpose of this new rule is to provide a better check on whether an item fully qualifies to be treated as a new item and whether the calculation of the base price of the new item fully conforms to the Subpart F rules.

SUBPART G—BASE COST AND CURRENT COST

Subpart G establishes the basic rules for comparing base costs with current costs. Details of actual calculation of net allowable cost increases are provided in the instructions which accompany forms issued pursuant to Subpart H.

The base cost period for an item is the last fiscal quarter which ended before January 11, 1973. The base cost of direct materials and labor is the rate at which those costs were incurred on the last full day of business in the base cost period. The base cost rule for all other costs is the same except that if the base cost cannot reasonably be determined by reference to the rate at which other costs were incurred on the last full day of business in the base cost period, the firm may use the average cost incurred throughout the base cost period with repect to those costs.

The current cost period is the current fiscal quarter for which a quarterly report or record is required to be filed pursuant to Subpart H. However, because prenotification firms must cost-justify price increases whenever they wish to increase prices, the current cost period for prenotification firms is any representative period prior to the date of the prenotification document in which the normal, recurring costs of the firm were incurred.

With respect to costs of direct materials and labor, the current cost is the rate at which those costs were incurred

V 38 I 139 JUL 20 73 XUM

on the last day of the current cost period. With respect to all other costs, the rule is the same except that if current costs cannot be determined by application of that rule the firm may use the average costs incurred throughout the current cost period with respect to those costs.

The base cost period for new items is the fiscal quarter in which the new item concerned was first sold or leased in a transaction with the class of customer concerned.

Subpart H—Prenotification and Recordkeeping

Subpart H imposes prenotification and recordkeeping requirements on firms.

PRENOTIFICATION

Sections 150.151–150.156 set forth the prenotification rules. The general prenotification rule, § 150.151(a), requires that a price category I firm not increase a price above base price with respect to products or services it sells as a manufacturer or service organization until the firm has filed a notice of the proposed price increase with the Council and 30 days have elapsed since the filing of the notice. The pricing rules require that a firm decrease prices which have been increased above base price if the costs upon which the increased price was based later decrease.

The prenotification requirements do not apply to price increases for exempt items, price increases that reflect solely an increase in excise taxes or duties on imports and certain price increases by non-profit organizations. Prices in contracts with the Federal government need not be prenotified. Moreover, a firm may continue to charge a price lawfully charged on August 12, 1973, without prenotifying that price to the Council.

The notice of the proposed price increase must be filed in the form and manner prescribed by the Council, and will be considered to be filed on the date when it is accepted by the Council. The Council will notify the firm in writing of the date of acceptance. The 30-day prenotification period begins with the date when the notice is accepted.

Section 150.154 provides that during the 30-day prenotification period, the Council may issue an order disapproving or modifying a proposed price increase which does not conform to the rules of this part. It may temporarily suspend the running of the 30-day prenotification period of a proposed price increase if it finds additional information is necessary, or that the notice was improperly filed. The Council may defer a price increase in whole or in part if it finds that the price increase is of such magnitude and would have such an impact upon the economy as to be unreasonably inconsistent with the goals of the Economic Stabilization Program.

Any firm whose proposed price increase has been modified, suspended, disapproved or deferred by an order of the Council, may seek reconsideration of the order pursuant to the provisions of Part 105 of this title.

If the Council does not modify, suspend, disapprove or defer the price increase, the firm may, immediately upon expiration of the 30-day prenotification period, implement the proposed price increase. However, if after implementation of the price increase the Council finds that the price increase is inconsistent with the rules of this part, or unreasonably inconsistent with the goals of the Economic Stabilization Program, it may issue an order modifying, deferring, suspending or disapproving the price increase.

A firm may request from the Council a volatile pricing authorization pursuant to § 150.156. Once a firm receives such an authorization, the firm no longer has to prenotify those increases in the price for an item which are based solely upon the increased cost of raw materials or partially processed materials used in the item.

It also provides that a firm which was pricing pursuant to a volatile pricing authorization of the Price Commission may price pursuant to that authorization until it applies for and receives authorization from the Council. However, a firm may not continue to use a volatile pricing authorization of the Price Commission after September 12, 1973.

Quarterly and Annual Reports

All price category I and II firms must submit quarterly reports to the Council containing information on prices, costs, and profits in accordance with regulations issued by the Council. The report for the firm's fourth fiscal quarter shall contain information for the entire fiscal year.

Price category III firms must file an annual report with the Council with information on prices, costs and profits.

A firm which fails to file a required report or document is subject to the provisions of § 150.164. Specifically, (1) it may not implement any further price increases until it has complied with the reporting requirements and has obtained special approval of the Council, (2) action is suspended on any exception request filed by the firm, and, (3) the Council may, when appropriate, order the firm to reduce any of its prices.

Section 150.165 requires each firm to keep records (for four years) which are sufficient to demonstrate that the firm is in compliance with the provisions of this part. These records are subject to inspection by an officer or employee of the Internal Revenue Service or the Council.

Subpart I—Accounting and Financial Reporting Requirements

Subpart I provides information on accounting and financial reporting requirements. These requirements are the same as those found in the Phase II regulations.

When an acquisition or divestiture occurs, accounting information may be restated only in accordance with generally accepted accounting principles consistently applied. This rule requires restatement of prior-year financial statements in the event of acquisition or divestiture accounted for on a pooling of interest basis. Restatement is generally not appropriate when an acquisition or divesture is accounted for under the purchase method of accounting.

Subpart I also requires firms which are subject to section 13 or 15(d) of the Securities and Exchange Act or which prepare audited annual financial statements to include with each report filed with the Council a report of an independent public accountant.

Subpart J—Special Rules

Subpart J sets forth special pricing rules for low profit firms, for firms which sell items subject to seasonal pricing patterns, and for certain marketing and purchasing cooperatives. The low profit rule for wholesalers, retailers, and manufacturers is set forth in § 150.201. That for service organizations is set forth in § 150.202. The rules differ from the Phase II rules in several particulars. Every firm must file certain financial data with the Council for each fiscal year in which it chooses to use the rule. The firm may price under the low profit rule starting 31 days after it has filed this information with the Council, unless the Council during this time suspends or disapproves of the firm's proposed action, or requests additional information. The Council may disapprove use of the low profit rule by a manufacturer, wholesaler, or retailer whose profit margin is at or above the average profit margin of other firms engaged in the same industry. Within 45 days of the close of a fiscal quarter in which a low profit firm which has priced pursuant to the low profit rule achieves its base period profit margin, as computed pursuant to the low profit rule, the firm's use of the low profit rule is terminated, except as to the profit margin acquired by use of the rule.

The seasonal patterns pricing rule, which allows a firm to adjust prices which normally fluctuate in distinct seasonal patterns without regard to allowable cost increases, is adopted substantially from Part 140, the freeze regulations. The special price rules applicable to marketing cooperatives and market risk sharing plans and to purchasing cooperatives during Phase II are continued in §§ 150.203 and 150.204 respectively.

Subpart K—Retailers and Wholesalers

The purpose of Subpart K is to set forth rules applicable to all firms that engage in retail or wholesale operations except those dealing in petroleum products. Retail and wholesale firms will be required to classify the items they sell by categories. Price Category I and II firms would be required to submit their merchandise pricing plan (i.e., a list of categories together with certain information concerning the firm's pricing practices) to the Cost of Living Council. Small firms will prepare their plan and retain it at their main office. Once a firm submits, or in the case of a firm under $50 million finishes preparing its plan, the firm comes out from under the current price freeze and is subject to the rules set forth in § 150.304(b). Under these rules, a firm will be subject to gross margin tests on a quarterly and annual basis on a category-by-category basis

and to a firm-wide annual profit margin test.

Within 60 days after receiving them, the Cost of Living Council will review the merchandise pricing plans submitted by the Price Category I and II firms.

The Council will either approve the firm's pricing scheme or, if it found that a firm's list of categories or supporting information was inadequate or that they did not comply with the requirements of the Subpart, the Council will so notify the firm and require it to correct deficiencies. The Council would retain authority to order price rollbacks of increases that may have been improperly instituted by the firm.

Once its plan is approved, a Price Category I or II firm will be routinely monitored by the Council on the basis of quarterly reports submitted by the firm, supplemented by IRS audits. The quarterly reports will show the firm's gross margins for each of its merchandise categories as compared to the gross margins for that category for the firm's base year and for the corresponding fiscal quarter during the base year. Each category gross margin will have to be no greater than the higher of those two base gross margins. A firm's report for its fourth fiscal quarter will also serve as its annual report and will be the basis for determining its compliance with the annual gross margin and profit margin limitations set forth in § 150.304(b)(2) and (3).

Smaller firms will be expected to monitor themselves, subject to audit by the Council or the Internal Revenue Service. They will also be required to submit annual reports similar to the larger firm's quarterly reports.

Under proposed § 150.311, any firm will be allowed once during its fiscal year to carry any category gross margin overage into the succeeding quarter for purposes of offsetting it. To the extent the firm can then offset the overage, it would be excused. In the case of a fourth quarter overage, the overage would be excused if, for the year, the gross margin for the category is within the base annual gross margin for that category.

Subpart L—Petroleum and Petroleum Products

Coverage. Subpart L sets forth the proposed Phase IV petroleum regulations which apply to all sales and purchases of crude petroleum (Standard Industrial Classification Code 1311, excluding natural gas), natural gas liquids (Standard Industrial Classification Code 1321), and refined petroleum products (Standard Industrial Classification Code 2911), and to leases of gasoline stations by manufacturers or resellers of retail gasoline to gasoline retailers. The Small Business exemption § 150.60 is amended to provide that no firm which produces, manufactures or sells covered products will qualify for the Small Business exemption.

Retail Sales—Gasoline, Heating Oil and Diesel Fuel. Any person who sells gasoline, No. 2 diesel fuel or No. 2 heating oil to an ultimate consumer may not charge a price above the ceiling price as set forth in § 150.353. The ceiling price is computed as the seller's actual cost of the product on August 12, 1973 (the proposed effective date of this regulation) plus the actual dollar-and-cent markup applied to a retail sale of the same product on January 10, 1973. In cases where the seller has customary price differentials at a single location, based upon such things as volume or cash discounts, there are separate ceiling prices.

Retailers of gasoline and diesel fuel are required to post on each retail pump, the ceiling price and, for gasoline, the octane rating.

The Council, with the cooperation of the Internal Revenue Service, will monitor ceiling prices on a continual basis, and make periodic upward adjustments in the ceiling where necessary to reflect higher costs.

Domestic Crude Petroleum. Section 150.354 places a ceiling on the first sale by a producer of domestic crude petroleum and the first sale by a royalty owner of domestic crude petroleum accepted as a royalty payment. The ceiling price is the price posted on May 15, 1973 for each grade of petroleum from each particular field. Ceiling prices will be monitored by the Council with the cooperation of the Internal Revenue Service and the ceiling will be reviewed quarterly by the Council to determine whether it should be adjusted.

The Council recognizes a need to stimulate increased production and is proposing a system which allows increased production (new crude petroleum) from each producing property and an equal amount of the current production (old crude petroleum) to be sold without respect to the ceiling price rule. Adoption of this incentive plan creates a two-tier pricing system for crude oil, which requires posting of two sets of prices, one for "old oil" and one for "new oil". Postings for "old oil" can be no higher than the ceiling price and postings for "new oil" is at the buyer's discretion.

A crude oil producer is required to prorate among all his "old oil" buyers the amount of "old oil" freed from ceiling limitations by the production of a like amount of "new oil".

During the period for public comment on these prepared regulations the Cost of Living Council will undertake an analysis and obtain statistical information concerning the structure and level of domestic crude oil prices on May 15 and the pattern of the movement of those prices from that date until the date of the freeze on June 13, 1973.

Resellers. The price at which a wholesaler or retailer can resell a product he purchased and resells without substantial change in form is determined pursuant to § 150.355. The price is computed as the reseller's variable cost of the product plus his actual markup applied to that product at that business location on January 10, 1973. Resellers can import crude oil and/or product for resale and also can commingle imported product or crude oil with the same product or crude oil purchased domestically. A reseller is also permitted to commingle like product or crude oil purchased for resale from various sources (foreign and domestic) at the same and at different times. The resale price of commingled product or crude oil is the weighted average cost of the components plus the reseller's actual dollar-and-cent markup. A manufacturer which elects to act in a reseller capacity can: (1) Physically commingle imported or domestic product purchased for resale under the resellers rule with product it has manufactured domestically, to facilitate transportation and distribution of the purchased product to be resold under the resellers rule; and (2) physically commingle imported or domestic crude oil purchased for resale under the resellers rule with crude oil it has produced or purchased for refining, to facilitate transportation and distribution of the purchased crude oil to be resold under the resellers rule. This rule does not apply to any retail sales of gasoline, heating oil or diesel fuel. Resellers remain subject to the profit margin test.

Manufacturers. Pursuant to the provisions of § 150.35, a manufacturer cannot charge a price which exceeds its May 15, 1973 price based upon customary price differentials, unless: (1) The increase reflected, on a dollar-for-dollar basis, increased costs since May 15, 1973, of imported crude petroleum and petroleum products; or (2) the increase reflected, on a dollar-for-dollar basis, the increased cost of domestic crude petroleum over the ceiling price; or (3) the increase is prenotified to the Cost of Living Council. A manufacturer which imports product and commingles it with the same product it has manufactured domestically can pass on any increase in cost after May 15, 1973, that imported product on a dollar-for-dollar basis as a price increased over the base price for that product. Equal dollar exchanges of crude for crude are also permitted. Manufacturers remain subject to the profit margin test.

Leases. Section 150.357 provides that a gasoline manufacturer which leases real property to a gasoline retailer for use in retailing gasoline cannot increase the rent for that real property in excess of the rent charged for the month of May 1973. In addition, the lessor cannot increase the retailer's obligation to sell petroleum products to a level above that which prevailed for that retailer in the month of May 1973, or impose any operating requirements which are inconsistent with the Economic Stabilization Program, such as increase the retailer's hours of operation.

General requirements. Section 150.361 requires each seller of crude, petroleum products and natural gas liquids to maintain records of base and ceiling prices and make the information available for a customer upon request. Moreover, each seller has to certify in each bill of sale of such products that the price is no higher than authorized under Economic Stabilization Program rules.

Producers. The reporting and recordkeeping requirements are set forth in § 150.362. Each producer of domestic crude petroleum which derives $50 million or more in annual sales or revenues

V 38 139 JUL 20 73 XUM

from sales of covered products is required to prepare and file with the Cost of Living Council, quarterly reports on prices, costs, profits, and production levels.

Each producer which sells "new crude petroleum" without respect to the ceiling prices must report base period production levels (for the year) and corresponding ceiling prices on an initial report and report, on subsequent monthly reports, the quantity and price of "new crude petroleum" and "released old crude petroleum" sold at prices above ceiling prices.

Manufacturers. Each manufacturer of covered products and each retailer or reseller which derives $50 million or more in annual sales or revenues from the retailing or reselling of covered products must prepare and file with the Cost of Living Council, monthly and quarterly reports on price movements, costs and other related information.

Recordkeepers. Each retailer or reseller of covered products which derives less than $50 million but more than $1 million in annual sales or revenues from the retailing or reselling of those products must prepare and maintain at its principal place of business, monthly and quarterly reports on price movements, costs and other related information.

SUBPART M—INSURANCE

The purpose of Subpart M is to set forth rules applicable to rate increases by insurers. In general, it will provide that insurers may charge a price for insurance, in excess of the price in effect on August 12, 1973, only in accordance with rate-making practices, rating plans, or formulas developed under the rules set forth in proposed § 150.403.

Each health insurer that had $50 million or more of earned premiums and each property-liability insurer that had $150 million or more of earned premiums during the calendar year preceding the effective date of any rate increase it is proposing is designated as a "prenotifier" and must notify the Cost of Living Council and the State regulatory agency at least 30 days before any proposed increase of 5 percent or greater which affects $1 million or more in aggregate annualized premiums under the existing rate, and would be required to certify that the proposed increase conforms to the requirements of the subpart. Such a proposed increase would be reviewed by the appropriate State regulatory agency (acting under agreement with the Cost of Living Council) and acted upon, within 20 days, by certification that the increase does or does not comply with the subpart. The certification will be prima facie evidence of that compliance or noncompliance. The Cost of Living Council could delay the effective date, request further information, suspend all or part of the increase, or limit, refuse, rescind, reduce, or modify the increase. If the Council does not act within 30 days after the date of the filing, the increase could go into effect without its approval.

Each health insurer with $25 million or more earned premiums and each property-liability insurer with $50 million or more earned premiums during the calendar year preceding any rate increase proposed by it will be required to file quarterly reports with the Cost of Living Council.

The Cost of Living Council would designate the United States Civil Service Commission as the certifying agency for contracts under the Federal Employees Health Benefits Law.

SUBPART N—CONSTRUCTION

[Issued July 19, 1973, 88 FR 19468].

SUBPART O—[RESERVED FOR PROVIDERS OF HEALTH SERVICES]

SUBPART P—MASS TRANSPORTATION SYSTEMS

The purpose of Subpart P is to require public benefit corporations charged by law or contract with the responsibility of operating a mass transportation facility (the fares of which are not otherwise regulated), to prenotify according to the procedures established in Subpart H for price category I firms. This provision reflects the requirements of section 215 of the Economic Stabilization Act Amendments of 1970, as added by the Economic Stabilization Act Amendments of 1971 (Public Law 92–210).

Pay amendment to Part 130. A new § 130.26 is being added to Part 130 in Subpart B. The new regulation establishes a procedure pursuant to which the Council may require that a proposed or scheduled pay adjustment shall not be put into effect until 30 days after prenotification of such pay adjustment has been received by the Council.

Paragraph (b) provides that prenotification under the regulation may be required under certain specified conditions. Paragraph (c) provides that such prenotification must encompass all pay adjustments for the applicable control year. Paragraph (d) establishes a requirement that the employer serve a copy of such prenotification on the collective bargaining agent, if any, for the affected employee unit. Paragraph (e) establishes the address to which such prenotification must be addressed.

Paragraph (f) of the new regulation provides that prenotification submitted under the regulation shall be made using the Form PB–3, which was originally issued by the Pay Board and which has been retained for use by the Council. In addition, paragraph (f) lists certain supplemental information which must also be submitted. This supplemental information will be used by the Council to better understand and evaluate wage, salary and benefit adjustments as reported on the Form PB–3.

A new paragraph (d) is being added to § 130.34 to exempt, from the scope of the rules respecting wage stabilization, pay adjustments affecting employees of establishments in the lumber industry, as defined by reference to Standard Industrial Classification (SIC) Codes. This action is taken in order to be consistent with action the Council proposes to take in Subpart D of Part 150, respecting price adjustments in the lumber industry.

In consideration of the foregoing it is proposed to amend Title 6, Code of Federal Regulations as set forth below.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11723, 38 FR 15765; Cost of Living Council Order No. 30, 38 FR 16267)

Issued in Washington, D.C., on July 19, 1973.

WILLIAM N. WALKER,
Acting Deputy Director,
Cost of Living Council.

1. Amend Part 150 by adding Subparts A through N and P to read as follows:

PART 150—COST OF LIVING COUNCIL PHASE IV REGULATIONS

Subpart A—General

Sec.
150.1 Scope.
151.2 Procedures and remedies applicable to certain Phase II and Phase III matters.

Subpart B—Definitions

150.21 Definitions.

Subpart C—Classifications

150.31 Price Category I Firms.
150.32 Price Category II Firms.
150.33 Price Category III Firms.

Subpart D—Exemptions—Items Not Included in Coverage

150.51 General.
150.52 Agricultural products, seafood products, and raw sugar price adjustments.
150.53 Real estate and insurance premiums.
150.54 Certain price adjustments.
150.55 Miscellaneous.
150.56 Public utilities.
150.60 Small businesses: exemption of firms with 60 or fewer employees.

Subpart E—General Price Rules

150.71 General rules.
150.76 Price rules for manufacturing and service activities.
150.92 Contracts entered into before August 13, 1973.
150.96 Productivity gains.

Subpart F—Base Prices and Other Authorized Prices

150.101 Scope.
150.102 Sales and leases of products and services.
150.103 Sales and leases of new property and new services.
150.104 Custom products and custom services.

Subpart G—Base Cost and Current Cost

150.131 Scope.
150.132 General rule.
150.133 Base cost.
150.134 Current cost.
150.135 Special rules for new items.

Subpart H—Prenotification and Reporting

Sec.
150.151 Prenotification.
150.152 Manner of prenotification.
150.153 Measure of the prenotificatoin period.
150.154 Council action.
150.155 Implementation of price increases.
150.156 Volatility.
150.157 Previous volatility authorizations.
150.161 Quarterly reports.
150.162 Annual reports.
150.163 Additional reports and information.

Sec.
150.164 Effect of failure to file or maintain reports or other documents required by or under certain sections of this part.
150.165 Records.

Subpart I—Accounting and Financial Reporting Requirements

150.171 Accounting for business combinations.
150.172 Procedures required with respect to certain financial information.

Subpart J—Special Rules

150.201 Low profit firms: manufacturers, wholesalers, and retailers.
150.202 Low profit firms: certain service organizations.
150.203 Seasonal patterns.
150.204 Marketing cooperatives and market risk-sharing transactions.
150.205 Purchasing cooperatives.
150.206 Stabilization of particular industries and sectors.

Subpart K—Retailers and Wholesalers

150.301 Purpose and scope.
150.302 Effective date of applicability to food retailers and wholesalers.
150.303 Definitions.
150.304 General pricing rules.
150.305 Establishment of merchandise categories.
150.306 Merchandise pricing plans; retailers and wholesalers with annual revenues of $50 million or more.
150.307 Incomplete and nonconforming plans.
150.308 Approved plans.
150.309 Merchandise pricing plans; retailers and wholesalers with annual revenues of less than $50 million.
150.310 Reporting.
150.311 Repurification of a quarterly violation.
Appendix A Merchandise Categories Applicable to Retailers and Wholesalers

Subpart L—Petroleum and Petroleum Products

150.351 Purpose and scope.
150.352 Definitions.
150.353 Ceiling price rule: Retail sales.
150.354 Ceiling price rule: Crude petroleum.
150.355 Price rule: Resellers.
150.356 Price rule: Manufacturers.
150.357 Price rule: Leases.
150.358 Ceiling price determination.
150.359 Base price determination.
150.360 Base price—new product.
150.361 Price information and certification.
150.362 Reports and recordkeeping.

Subpart M—Insurance

150.401 Applicability.
150.402 Definitions.
150.403 Criteria.
150.404 Change in rate making formula.
150.405 Prenotification.
150.406 Certification by state regulatory agency.
150.407 Self-certification.
150.408 Cost of living council actions.
150.409 Rates for replacement or revised insurance coverages.
150.410 Insurance rates subject to state laws.
150.411 Investigation and review of rates.
150.412 Reporting.
150.413 Federal Employees Health Benefits Law.
150.414 Data requirements.
150.415 Monitoring by health insurers.

Subpart N—Construction

Subpart O—Health Reserved

Subpart P—Mass Transportation Systems

150.551 Purpose and scope.
150.552 Definition.
150.553 General rule.

Subpart A—General

§ 150.1 Scope.

(a) Except as provided in paragraph (b) of this section and in § 150.2, this part supersedes Parts 130 and 140 of this chapter.

(b) Part 130 of this chapter remains effective with respect to wages and salaries, with respect to sales of food subject to Subpart F of that part, with respect to sales of meat subject to Subpart M of that part, and with respect to providers of health services subject to Subpart G of that part. Part 140 of this chapter remains effective with respect to sales of food.

(c) *Reports due under prior rules.*— Any report required to be filed with the Council under the provisions of Part 130 of this chapter or any rule, order or regulation of the Council in effect on August 12, 1973, for any reporting period which ended on or before that date and which was not filed by that date, shall be filed with the Council in the form and within the time in which it would have been filed pursuant to the provisions of Part 130 of this chapter.

(d) Price renegotiation provisions in contracts, which depend for their operation upon the modification or termination of the Economic Stabilization Program, were previously declared to be inoperative as unreasonably inconsistent with the goals of the Economic Stabilization Program. Such renegotiation provisions continue to be inoperative on the same ground. This part shall not operate to permit:

(1) A retroactive increase in prices for goods or services sold or leased while those prices were subject to past or present provisions of this title, or

(2) A prospective increase in prices under the terms of a contract subject to a decision and order issued at any time pursuant to this title, except to the extent consistent with such decision and order.

(e) This part does not apply to economic transactions which are not prices within the meaning of the Act. Examples of transactions not within the meaning of the Act are:

(1) State or local income, sales and real estate taxes;

(2) Workmen's compensation payments;

(3) Welfare payments;

(4) Child support payments; and

(5) Alimony payments.

(f) The Council may permit any exceptions, exemptions or reclassifications that it considers appropriate with respect to the requirements prescribed in this part. Requests for exceptions or exemptions from the requirements of this part shall be submitted in accordance with the provisions of Part 105 of this chapter.

(g) This part applies to:

(1) Economic units and transactions in the several States and the District of Columbia; and

(2) Sales of goods and services by firms in the several States and the District of Columbia to firms in the Commonwealth of Puerto Rico.

§ 150.2 Procedures and remedies applicable to certain Phase II and Phase III matters.

(a) Paragraphs (a) and (b) of § 130.7 of this chapter remain effective with respect to Phase II matters.

(b) The procedures and remedies specified in Subparts E through H of Part 140 of this chapter remain in effect with respect to all matters which were subject to that part before August 13, 1973.

Subpart B—Definitions

§ 150.21 Definitions.

"Act" means the Economic Stabilization Act of 1970, as amended.

"Allowable cost" means any cost direct or indirect, unless disallowed by the Cost of Living Council.

"Annual sales or revenues" means the total gross receipts of a firm during its most recently completed fiscal year, from whatever source derived, except that it does not include gross receipts of or from a foreign branch or division of such a firm, or the gross receipts of or from a wholly or partially owned foreign entity such as a corporation, partnership, joint venture, association, trust, or subsidiary, if the gross receipts of such foreign entity, branch, or division are derived primarily from transactions with other foreign firms. A foreign entity, branch, or division is one located outside the several States and the District of Columbia. However, gross receipts of domestic entities from U.S. export sales and from sales to firms in the Commonwealth of Puerto Rico are included in the determination of annual sales or revenue.

"Base period" means any two, at the option of the person concerned, of the following fiscal years: That person's last three fiscal years ending before August 15, 1971; and any fiscal year, completed on or after that date except: A fiscal year for which compliance is being measured, and a fiscal year in which the firm exceeded its base period profit margin. In determining a base period for the purpose of computing a profit margin during a base period, a weighted average of its profits during the two years chosen shall be used.

"Base cost" means the base cost as determined pursuant to Subpart G of this part.

"Base cost period" means the base cost period as determined pursuant to Subpart G of this part.

"Base price" means the base price as determined pursuant to Subpart F of this part.

"Base price period" means the base period as determined pursuant to Subpart F of this part.

"Class of purchasers" means purchasers or lessees to whom a person has charged a comparable price for comparable property or service during the base price period pursuant to customary price differentials between those purchasers or lessees and other purchasers or lessees.

"Controlled group" means a controlled group of corporations, as defined in section 1563(a) of Title 26, United States Code.

"Council" means the Chairman of the Cost of Living Council established by

V 38 I 139 JUL 20 73 XUM

Executive Order 11615 (3 CFR 1971 Comp., p. 199) and continued under the provisions of Executive Order 11695, or his delegate.

"Current cost" means the current cost as determined pursuant to Subpart G of this part.

"Current cost period" means the current cost period determined pursuant to Subpart G of this part.

"Customary price differential" includes a price distinction based on a discount, allowance, add-on, premium, and an extra based on a difference in volume, grade, quality, or location or type of purchaser, or a term or condition of sale or delivery.

"Firm" means any individual, company, corporation, association, estate, partnership, trust, joint-venture, or sole proprietorship or any other entity however organized including charitable, educational, or other eleemosynary institutions, and the Federal government including Federal agencies, departments, corporations and other instrumentalities, and State and local governments. For purposes of this definition, a firm includes any entity listed in the preceding sentence that is part of or is directly or indirectly controlled by the firm. A person will be deemed to control any firm which is controlled directly or indirectly by such person, his spouse, children, grandchildren, or parents. An entity directly or indirectly controlled by any other entity listed in the first sentence of this definition is not a firm. Whenever the Council considers it appropriate, it may treat as a firm any, part, or all of the entities which comprise the firm.

"Fiscal quarter" means the fiscal quarter of the firm to whom a regulation containing the term applies.

"Fiscal year" means the fiscal year of the firm to which a regulation containing the term applies. It is a consecutive 12-month period constituting a taxable year.

"Item" means a product or service unit offered for sale to a class of purchaser.

"Lease" means a contract whereby a person having a legal estate in any personal property conveys a part of his interest to another person in consideration of rent or other compensation, but does not include a license.

"Manufacturer" means that part of a firm engaged in the trade or business of making, fabricating, or assembling a product or commodity by manual labor or machinery for sale and also includes the mining of natural deposits, the production or refining of oil from wells, and the refining of ores.

"Mass transportation system" means a public benefit corporation, with annual sales or revenues in excess of $10 million, which is charged by law or contract with the responsibility of operating a mass transportation facility or facilities which:

(a) Serves a Standard Metropolitan Statistical Area (SMSA); and

(b) Constitutes the sole or a principal means of public transportation for that area.

A facility or facilities includes a rapid rail transit, subway, elevated, bus system but does not include school buses or other conveyances used primarily for sight-seeing or chartered for private use.

"Nonprofit organization" or one which is "not operated for profit" is a firm which is defined as a nonprofit organization in section 501(c) and is exempt under section 501(a) of the Internal Revenue Code of 1954, amended.

"Pooling of interests" means a combination of two or more corporations which meets the conditions set forth in Opinion No. 16 of the Accounting Principles Board of the American Institute of Certified Public Accountants (effective date October 31, 1970), 666 Fifth Avenue, New York, N.Y. 10019.

"Prenotification" means notice submitted to the Cost of Living Council pursuant to the provisions of Subpart H of this part.

"Price" means any compensation for the sale or lease of any property or services, and includes rent, commissions, dues, fees, margins, rates, charges, tariffs, fares, or premiums, regardless of form.

"Price increase" means an increase in the unit price of a product or service or a decrease in the quality of substantially the same product or service.

"Product" means an item of personal property offered for sale to another person.

"Product line" means an aggregation of products of the same manufacturer or different manufacturers, substantially similar as to intended function, usage, and structure, which are offered for sale simultaneously, or within the same commercial season by a firm.

"Profit margin" means the ratio that operating income (net sales less cost of sales and less normal and generally recurring costs of business operations, determined before non-operating items, extraordinary items, and income taxes) bears to net sales as reported on the firm's financial statement prepared in accordance with generally accepted accounting principles consistently applied.

"Public utility" means a firm that regularly furnishes the public or a recognized segment of the public with a commodity or service which is of public consequence and need whether or not that firm is under the jurisdiction of a regulatory agency, including gas, electric, telephone, telegraph, public transportation by vehicle or pipeline, water, and sewage disposal services.

"Real estate with improvements" means land upon which there is a structure, dwelling, or other building. It does not mean land on which roads, water, sewer, or drainage facilities have been constructed.

"Regulatory agency" means any commission, board, or other legal body existing under law which has jurisdiction to regulate prices and services offered by a public utility.

"Rent" means any price for the use of personal property of any description, including any charge no matter how identified in a lease or other agreement, for the use of any property or for any service in connection with the use of leased property.

"Retailer" means that part of a firm engaged in the trade or business of purchasing property and, without substantially changing the form of that property, reselling it to ultimate consumers.

"Retail firm" means a firm whose annual sales or revenues are primarily from the sale of goods to ultimate consumers.

"Sale" includes exchange, transfer, or other disposition in return for valuable consideration.

"Security" means any note, stock, treasury stock, bond, debenture, evidence of indebtedness, certificate of interest or participation in any profit-sharing agreement, collateral-trust certificate, preorganization certificate or subscription, transferable share, investment contract, voting-trust certificate, certificate of deposit for a security, fractional undivided interest in oil, gas, or other mineral rights or any financial or net leases as defined in section 163(d)(4)(a) of the Internal Revenue Code of 1954, amended, or, in general, any interest or instrument commonly known as a "security", or any certificate of interest or participation in temporary or interim certificate for, receipt for, guarantee of, or warrant or right to subscribe to or purchase, any of the foregoing.

"Service" includes any service performed by a firm for a person, other than in an employment relationship, and also includes professional services of any kind and services performed by membership organizations for which dues are charged, and the leasing or licensing of property to another person.

"Service line" means an aggregation of service, of the same service organization or different service organization, substantially similar as to intended function, usage, application, and result, which are offered for sale simultaneously, or within the same commercial season, by a firm.

"Service organization" means that part of a firm engaged in the trade or business of selling or making available services, including professional service organizations, nonprofit organizations, governments, and government agencies or instrumentalities which carry on those activities.

"Spin-off" means the distribution of the controlling stock in a corporation, by another corporation which owned such stock immediately before that distribution, to the shareholders of the distributing corporation without the surrender by those shareholders of stock or securities in the distributor.

"Split-off" means the distribution of the controlling stock in a corporation, by another corporation which owned such stock immediately before that distribution, to the shareholders of the distributing corporation with the surrender by those shareholders of stock or securities in the distributor.

"State and local governments" means the several States and the District of Columbia, a municipality or other political subdivision, authority, commission, board, district, public corporation or other agency or instrumentality of the several States and the District of Columbia and any board, commission,

agency, or other instrumentality of a local government.

"Transaction" means an arms-length sale or lease between unrelated persons and is considered to occur at the time and place a binding contract is entered into between the parties.

"United States" means the several States and the District of Columbia.

"Unrelated person" means a person other than a person described in section 267(b) of Title 26, United States Code.

"Wholesaler" means that part of a firm engaged in the trade or business of purchasing property and, without substantially changing the form of that property, reselling it to retailers for resale or to industrial, commercial, institutional, or professional business users.

Subpart C—Classifications

§ 150.31 Price Category I firms.

(a) A price category I firm is a firm with annual sales or revenues of $100 million or more.

§ 150.32 Price category II firms.

(a) A price category II firm is a firm with annual sales or revenues of at least $50 million but less than $100 million.

§ 150.33 Price Category III firms.

(a) A price category III firm is a firm with annual sales or revenue of less than $50 million.

Subpart D—Exemptions

§ 150.51 General.

(a) Price adjustments with regard to the items and sales described in §§ 150.52 through 150.56 are exempt from the price adjustment requirements prescribed in this part. However, revenues received from the sale of exempt items or from exempt sales are included in a firm's annual sales or revenues, as defined in § 150.21, for all purposes including determinations of price category classification and profit margins.

(b) Small business firms which meet the qualifications prescribed in § 150.60 are exempt from and not included in the coverage of this part.

§ 150.52 Agricultural products, seafood products, and raw sugar price adjustments.

(a) *General.* Subject to paragraph (b) of this section, the sale of agricultural products which retain their original physical form and have not been processed is exempt. Processed agricultural products are products which have been canned, frozen, slaughtered, milled, or otherwise changed in their physical form. Packaging is not considered a processing activity. Examples:

Exempt	*Nonexempt*
Live cattle, calves, hogs, sheep, and lambs.	Carcasses and meat cuts.
Live poultry	
Sheared or pulled wool.	Wool products.
Mohair	Processed and blended honeybutter product.
Hay: Bulk, pelleted, cubed, or baled.	Dehydrated alfalfa meal or alfalfa meal pellets.
Wheat	Flour.
Sugar beets and sugar cane.	Refined sugar.
Maple sap	
All seeds for planting.	Seeds processed for other uses.
Raw coffee bean.	Roasted coffee bean.
	Canned and frozen vegetables.
	Dill pickles.
	Packaged slaw.
	Popped popcorn.
Feed grains including:	Mixed feed.
Corn	Cracked corn.
Sorghum	
Barley	Rolled barley.
Oats	Rolled oats.
Raw milk	Pasteurized milk and processed products, such as butter, cheese, ice cream.
	Frozen, dried, or liquid eggs.
Soybean	Soybean meal and oil.
Leaf tobacco	Cigarettes and cigars.
Baled cotton, cotton seed, cotton lint.	Cotton yarn, cottonseed oil, cottonseed meal.
	Frozen french fries, dehydrated potatoes.
Unmilled rice	Milled rice.
	Roasted, salted, or otherwise processed nuts.
	Canned or freeze dried mushrooms.
Fresh hops	
Stumpage or trees cut from the stump.	Milled lumber.
	Canned fruit or juices.
	Glazed citrus peel.
	Canned grapes, wine.
	Applesauce.
	Canned prunes and prune juice.
	Canned olives.
Garden plants	Floral wreaths.

(b) *Exempt first sales.* (1) Only the first sale by the producer or grower of those agricultural products which are of a type sold for ultimate consumption in their original physical form is exempt. Examples of these products are:

Shell eggs, packaged or loose.	All fresh vegetables and melons including:	All fresh or naturally dried fruits, packaged or not, including:
Raw honeycomb honey.	Tomatoes.	Fresh oranges.
Fresh potatoes, packaged or not.	Lettuce.	Grapes and raisins.
All raw nuts—shelled and unshelled.	Sweet corn.	Apples.
Fresh mushrooms.	Onions.	Peaches.
Fresh mint.	Green beans.	Strawberries.
Dried beans, peas, and lentils.	Cantaloupe.	Grapefruit.
Unpopped popcorn.	Cucumbers.	Pears.
	Cabbage.	Lemons.
	Carrots.	Plums and prunes.
	Watermelons.	Cherries.
	Green peas.	Cranberries.
	Asparagus.	Avocados.
	Pepper.	Blueberries.
	Broccoli.	Apricots.
	Cauliflower.	Tangerines.
	Spinach.	Olives, uncured.
	Green lima beans.	Nectarines.
	Honeydews.	Raspberries.
	Escarole.	Blackberries.
	Garlic.	Figs.
	Artichokes.	Tangelos.
	Eggplant.	Limes.
	Brussels sprouts.	Dates.
	Beets.	Papayas.
		Bananas.
		Pomegranates.
		Currants.
		Persimmons.
		Cut flowers.

(2) The first sale by (i) a producer of broilers or turkeys or (ii) a producer or fisherman of raw seafood products including those which have been shelled, shucked, iced, skinned, scaled, eviscerated, or decapitated is exempt.

(3) The first sale of the following items are exempt:

(i) Mint oil,

(ii) Maple syrup or sugar,

(iii) Dehydrated fruits.

(c) *Raw sugar prices.* Raw sugar price adjustments which are controlled under the Sugar Act of 1948, as amended, are exempt.

§ 150.53 Real estate and insurance premiums.

(a) *Real estate.*—(1) *Sales.* The sales price of the following sales of real estate are exempt.

(i) Unimproved real estate.

(ii) Real estate with improvements completed prior to August 15, 1971.

(iii) Real estate with improvements completed on or after August 15, 1971, if—

(A) The sales price is determined after the completion of construction; or

(B) The sales price is determined before the completion of construction and the wage rates estimated by the builder at the time the price is determined are not subsequently reduced by any action under the Economic Stabilization Program.

(2) *Rentals.* All rent charge for the rental of real property, except for rent charged by a gasoline manufacturer for the rental of a retail gasoline station to a retailer of gasoline, are exempt.

(b) *Insurance premiums.* (1) Premiums charged for the following lines of insurance purchased or renewed after November 13, 1971, are exempt.

(i) Reinsurance of all kinds.

(ii) Ocean marine insurance.

(iii) Inland marine insurance on a bid basis applicable to facilities of transportation and communication.

(iv) Life insurance, annuities, and endowments (including individual and group contracts of: Ordinary and term life insurance, fixed and variable annuities, and endowments of all kinds); but excluding credit life insurance of any kind.

V 38 I 139 JUL 20 73 XUM

(v) Individually negotiated and rated insurance contracts written in excess of a self-insured retention of at least $100,000.

(2) Premiums charged for the following sublines of aviation insurance purchased or renewed after September 1, 1972, are exempt:

(i) Hull insurance.

(ii) Liability insurance for bodily injury (excluding passenger hazard) caused by an aircraft.

(iii) Liability insurance for property damage caused by an aircraft.

§ 150.54 Certain price adjustments.

(a) *Federal and State and local governments.* (1) Prices charged for any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, or similar thing of value or utility, (other than postal rates) performed, furnished, provided, granted, prepared, issued, or transferred by any Federal department, agency, or other instrumentality including any wholly owned Government corporations as defined in the Government Corporation Control Act of 1945, as amended, but not including the U.S. Postal Service are exempt.

(2) Prices and fees charged by State and local governments for any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, facilities, materials, or similar thing of value or utility, performed, furnished, provided, granted, prepared, issued, or transferred including tuition and other charges for schools, colleges, and universities owned or operated by a State and local government, are exempt, except, however, that fees or charges for health services (but not health service fees levied on all students as a condition of enrollment are not exempt under the provisions of this section.

(b) *Tuition fees of private nonprofit educational organizations.* Tuition fees and other charges by private schools, colleges, and universities not operated for profit, are exempt, except that: (1) Fees and charges resulting in income which is subject to tax under Part III of Subchapter F of the Internal Revenue Code of 1954, as amended, as unrelated business taxable income and (2) medical fees and charges, other than a health service fee levied on all students as a condition of enrollment, are not exempt under the provisions of this section.

(c) *Custom products and services.* (1) The prices charged for the following products when custom made to individual order are exempt:

(i) Leather goods.

(ii) Wigs and toupees.

(iii) Fur apparel.

(iv) Jewelry.

(2) The prices charged for the following custom services when provided to individual order are exempt:

(i) Tailoring of clothing.

(ii) Framing of pictures and mirrors.

(iii) Taxidermy.

(d) *Exports, imports, ocean shipping rates, and foreign air transportation.* (1) The prices charged for export sales including the sale of products to a domestic purchaser who certifies that the product is for export are exempt.

(2) The prices charged for imports, but only the first sale into U.S. commerce are exempt.

(3) The rates charged for international ocean shipping are exempt.

(4) All rates, fares, and charges for foreign air transportation (as defined by the Federal Aviation Act, 49 U.S.C. 1301 (21)) which are set forth in tariffs filed with the Civil Aeronautics Board or which are established or approved by the Civil Aeronautics Board are exempt.

(e) *Damaged and used products.* The prices charged for damaged and used products other than products which have been rebuilt, repackaged, baled, reassembled, or otherwise processed are exempt.

(f) *Government property.* (1) The prices charged for abandoned or confiscated property sold by any Federal agency or State and local government pursuant to authorization of a court are exempt.

(2) Prices charged for property sold by the United States, including leasesales are exempt.

(g) *Transactions in gold.* Prices charged for transactions in gold on the domestic market under license from the Secretary of the Treasury pursuant to the Gold Reserve Act of 1934 as amended, and regulations issued pursuant thereto are exempt.

(h) *Securities and financial instruments.* (1) Securities as defined in § 150.21 are exempt.

(2) Commercial paper is exempt.

(3) Commodity futures sold on an organized commodities exchange but not including the commodity (unless otherwise exempt) are exempt.

(i) *Brokerage fees.* Brokerage fees, charged for the purchase or sale of securities or commodity futures.

(j) *Fees and charges imposed by Indian Tribal Councils.* Prices charged for any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, commodity, or similar thing of value or utility, performed, furnished, sold, leased, provided, granted, prepared, issued, or transferred by any Indian Tribal Council which is formally recognized by a State or the Federal Government are exempt whether or not all or part of a particular transaction takes place on or off Indian Tribal lands.

(k) *U.S. tanker rates.* Rates for the transportation by tank vessels in the coastwise trade are exempt.

(l) *Retail firms, including restaurants.* Price adjustments of retail firms, including restaurants, with annual sales or revenues of less than $100,000.

(m) *Silver.* Prices charged for (1) commercial trade silver in refining shapes, (2) silver content in ores and dore, (3) silver coins, and (4) other forms of silver sold for manufacturing or professional uses are exempt.

(n) *Long-term coal contracts.* Prices charged for coal under contracts entered into after August 11, 1973, to provide coal over a period of at least eight years to a public utility which is under the jurisdiction of a regulatory agency are exempt.

(o) *Lumber.* Prices charged for lumber or wood products described in the Standard Industrial Classification Manual, 1972 edition, under Industry Code 2411, 2421, 2426, 2429, 2435, 2436, 2439 or 2492, are exempt.

§ 150.55 Miscellaneous.

(a) Royalties and other payments from the sale of copyrights, manuscripts, and like materials prepared for publication are exempt.

(b) Dues paid to a nonprofit organization are exempt.

(c) The prices charged for the following items are exempt:

(1) Antiques and art objects including paintings, etchings and sculptures.

(2) Collectors coins and stamps.

(3) Rocks and stone specimens including precious stones and mountings into which precious stones are set.

(4) Handicraft objects.

(d) Price adjustments made by producers or distributors of motion pictures and television productions for motion pictures and television productions are exempt.

§ 150.56 Public utilities.

Rate increases for commodities or services provided by a public utility are exempt.

§ 150.60 Small Businesses: exemption of firms with 60 or fewer employees.

(a) *Applicability to firms existing on or before March 31, 1973.*

(1) *General.* Subject to the provisions of paragraphs (a)(2) and (3) of this section, any firm, existing on or before March 31, 1973, including a local government, with an average of 60 or fewer employees (determined as provided in paragraph (a)(3) of this section) is exempt from and not included in the coverage of this Part.

(2) *Exemption not applicable.* The exemption provided for in paragraph (a)(1) of this section shall not be applicable to:

(i) A firm which in its fiscal year ending prior to August 12, 1973, had annual sales or revenues of $50 million or more;

(ii) A firm which on August 12, 1973, was an institutional or noninstitutional provider of health services (as defined in Subpart K of this part);

(iii) A firm which on August 12, 1973, was engaged in construction operations as defined in Subpart N of this part;

(iv) A firm, if the pay adjustments immediately preceding the August 12, 1973, applicable to or affecting 50 percent or more of its employees, were set by a master employment or other employment contract which was negotiated on a joint or association basis or on an industry, area, group, or other similar basis and which covered more than 60 employees;

(v) A firm which is engaged in the business of selling "covered products" as defined in Subpart L of this part.

(3) *Determination of average number of employees.* The average number of employees for firms in existence on or before March 31, 1973, shall be computed by dividing the sum of the number of employees employed in the pay periods which included September 30, and December 31, 1972, and March 31, and June 30, 1973, by the number of such pay periods for which any such firm was in existence.

(b) *Applicability to firms coming into existence on or after April 1, 1973.*—(1) *General.* Subject to the provisions of paragraphs (b)(2) and (3) of this section, price adjustments of any firm coming into existence on or after April 1, 1973, including a local government, with an average of 60 or fewer employees (determined as provided in paragraph (b)(3) of this section) are exempt from and not included in the coverage of this title.

(2) *Exemption not applicable.* The exemption provided for in paragraph (b)(1) of this section shall not be applicable to:

(i) A firm which at any time during its first four calendar quarters after June 30, 1973, had annual sales or revenues of $50 million or more;

(ii) A firm which at any time during its first four calendar quarters after June 30, 1973, was an institutional or noninstitutional provider of health services (as defined in Subpart K of this part;

(iii) A firm which at any time during its first four calendar quarters after June 30, 1973, was engaged in construction operations as defined in Subpart N of this part;

(iv) A firm, if the pay adjustments at any time during its first four calendar quarters after June 30, 1973, applicable to or affecting 50 percent or more of its employees, were set by a master employment or other employment contract which was negotiated on a joint or association basis or on an industry, area, group or other similar basis and which covered more than 60 employees;

(v) A firm which is deemed to have an average of more than 60 employees in any calendar quarter in its first four calendar quarters, including its fourth calendar quarter, after June 30, 1973;

(vi) A firm which is engaged in the business of selling "covered products" as defined in Subpart L of this part.

(3) *Determination of average number of employees.* The average number of employees for firms coming into existence on or after April 1, 1973, shall be computed as follows:

(i) For its first calendar quarter after June 30, 1973, the average number of employees shall be deemed to be 60 or fewer until such time as the number of employees in that first calendar quarter after June 30, 1973, exceeds 60;

(ii) If the firm was deemed to have an average of 60 or fewer employees in the pay period which included the last day of its first calendar quarter after June 30, 1973, it shall be deemed to have 60 or fewer employees during its second calendar quarter after June 30, 1973;

(iii) A firm shall compute its average number of employees for its third calendar quarter after June 30, 1973, by dividing by two the sum of the number of employees employed in the pay period which included the last day of its first two calendar quarters after June 30, 1973;

(iv) A firm shall compute its average number of employees for its fourth calendar quarter after June 30, 1973, by dividing by three the sum of the number of employees employed in the pay period which included the last day of its first three calendar quarters after June 30, 1973; and

(v) If the firm's average number of employees was deemed to be 60 or fewer for its first four calendar quarters after June 30, 1973, its average number of employees shall be permanently established for the purpose of this paragraph by dividing by four the sum of the number of employees employed in the pay period which included the last day of its first four calendar year quarters after June 30, 1973.

(c) *Definitions.* As used in this section—

(1) "Employee" means any person residing in and employed in the several States or the District of Columbia for whom an employer is required to pay taxes imposed pursuant to the Federal Insurance Contributions Act, 1939, as amended, 26 USC 3101 (FICA), and any person otherwise excluded from FICA coverage, who (i) performs services for any firm as an agent-driver, or commission-driver engaged in the distribution of milk for his principals; or (ii) is defined as an "employee" in 26 USC 3121(d).

(2) "Local government" includes any town, village, city, or similar entity which was incorporated by authority of the State and which has and exercises local legislative powers, and any county, town, township, or similar entity which is a subdivision of the State or county and which possesses and exercises some powers of local self-government; any school district which is an independent governmental unit and any special district classified as an independent governmental unit created for the sole purpose of performing one or more municipal functions. An "independent governmental unit" is one which meets the criteria for classifying governmental units used by the Department of Commerce, U.S. Bureau of the Census, in the 1967 Census of Governments, "Governmental Organizations," beginning at p. 13.

Subpart E—General Price Rules

§ 150.71 General rules.

(a) Except as otherwise provided in this Part, no firm (including an individual) may charge a price with respect to any sale or lease of an item after August 12, 1973, which exceeds the base price (or other price authorized under this Part) for that item.

(b) No firm (including an individual) may knowingly pay a price with respect to any sale or lease of an item which exceeds the base price (or other price authorized under this part) for that item. However, this paragraph (b) does not apply to the sale or lease of an item to any firm (including an individual) under circumstances of economic or other coercion in which the buyer or lessee, because of his need for that property or service, had no reasonable alternative but to pay the illegal price, and he reports the sale or lease to the Internal Revenue Service for investigation promptly.

(c) No firm (including an individual) may take retaliatory action against any other firm (including an individual) that files or manifests an intent to file a complaint of alleged violation of, or that otherwise exercises any rights conferred by, the Economic Stabilization Act of 1970, as amended, any provision of this part, or any order issued under this part. For the purposes of this paragraph, "retaliatory action" includes any refusal to continue to sell or lease, any reduction in quality, any reduction in quantity of services or products customarily available for sale or lease, any violation of privacy, any form of harassment, or any inducement of others to retaliate.

§ 150.76 Price rules for manufacturing and service activities.

(a) *Price increases.* A firm engaged in manufacturing or service activities, or both, may charge a price in excess of the base price of an item only to recover on a dollar-for-dollar basis those net increases in allowable costs that it incurred with respect to that item since the end of the base cost period and which it continues to incur, subject to paragraphs (b) through (f) of this section. A firm engaged in manufacturing or service activities, or both, which is also engaged in wholesaling or retailing, or both, is subject to the requirements of Subpart K of this part with respect to its wholesaling and retailing operations.

(b) *Price reductions.* A price in excess of the base price of an item may continue to be charged only as long as the net increases in allowable costs which support the price in excess of the base price continue to be incurred. Price reductions shall be made whenever and to the extent that a price charged in excess of the base price is no loriger supported by those net increases in allowable costs.

(c) *Offset for productivity gains.* Increases in labor costs shall be reduced to reflect productivity gains in accordance with § 150.96.

(d) *Special rule for certain Phase II and Phase III price increases.* Notwithstanding paragraphs (a) and (b) of this section, any price above the base price which was charged—

(1) after the end of the base cost period of the firm concerned and before January 11, 1973 in compliance with applicable Phase II Economic Stabilization Regulations; or

(2) after January 10, 1973, and before June 13, 1973, in compliance with the

V 38 139 J JUL 20 73 XUM

general price standard set forth in § 130.13 of this chapter; or

(3) after June 12, 1973, and before August 13, 1973, in compliance with Part 140 of the Economic Stabilization Regulations—

may continue to be charged after August 12, 1973, at the last price level charged with respect to the item concerned on or before August 12, 1973. However, that price may be increased after August 12, 1973, only if the full extent of the price charged above base price, including all incremental price increases charged after the base cost period of the firm concerned, is cost-justified in accordance with paragraph (a) of this section and all other requirements of that paragraph are met.

(e) *Price increases pursuant to prenotification.* (1) Price category I firms which are subject to the prenotification requirements of Subpart H of this part must comply with those requirements before increasing prices pursuant to this subpart.

(2) Subject to paragraphs (e) (3) and (4) of this section, a firm which is authorized to charge a prenotified percentage price increase pursuant to Subpart H of this part shall apply that percentage price increase to a product line or service line on a weighted average basis (in accordance with instructions which accompany forms issued pursuant to Subpart H of this part) so that the weighted average of all price adjustments in that line does not exceed the prenotified percentage price increase.

(3) In the case of a prenotified percentage price increase authorized under Subpart H of this part which is not more than 10 percent, the price charged for any one item in that line may not exceed 110 percent of the base price of that item.

(4) In the case of a prenotified percentage price increase authorized under Subpart H of this part which is more than 10 percent, the percentage price increase above the base price which may be charged for any one item may not exceed the prenotified percentage price increase authorized under Subpart H of this part.

(f) *Profit margin limitation.* A firm engaged in manufacturing or service activities, or both, which charges a price in excess of the base price may not, for the fiscal year in which a price in excess of the base price is charged, exceed its base period profit margin.

§ 150.92 Contracts entered into before August 13, 1973.

The price specified in a contract for the sale of an item entered into after 9:00 p.m., e.s.t., June 12, 1973, and before August 13, 1973, with respect to any delivery or performance occurring after August 12, 1973, shall be subject to this part except that no prenotification shall be required with respect to payments which fall due before September 12, 1973.

§ 150.96 Productivity Gains.

(a) *Calculation of productivity gains by manufacturers*—(1) *General.* For the purposes of determining whether a price may be increased by any manufacturer under any provision of this part, productivity gains shall be calculated on the basis of the average percentage gain in the applicable industrial category, as set forth in the table in Appendix A to this part. To the extent provided in the table in Appendix A, productivity gains shall be taken into account in the calculation of all price increases during any fiscal year of a manufacturer but only until the full productivity offset, derived from Appendix A and calculated under paragraph (a)(2) of this section, has been used within that fiscal year.

(2) *Calculation.* (i) For the purposes of determining the extent to which a price increase is justified, each manufacturer shall calculate the sum of all of its actual labor costs (of the type required to be included as costs in reporting and prenotification forms issued pursuant to Subpart H of this part, whether or not such forms are required to be filed) as a percentage of sales, and shall multiply that percentage by the average annual rate of productivity gain for the applicable industrial category, as set forth in the table in Appendix A to this part. The result is the productivity gain, stated as a percentage, by which the total cost increase must be reduced in order to be an allowable cost for the purposes of a price increase under this part.

(ii) If the business of the manufacturer extends to more than one industrial category, the average percentage gain in productivity in each category must be weighted in proportion to the ratio which its expected sales (at present prices for the 12-month period following the proposed date of the increase) in each industrial category bears to the total sales for that period affected by the price increase.

(3) *Subsidiaries, etc., not included.* This subparagraph does not apply to a wholesale, retail, service, public utility, insurance, regulated seller of milk or milk products, or health provided subsidiary, division, affiliate, or similar entity that is a part of, or is directly or indirectly controlled by, a manufacturer.

(4) The percentage of unit cost decrease in nonvariable costs that results from an increased volume shall be treated as provided in the instructions which accompany forms issued pursuant to Subpart H of this part. Negative volume may not be shown.

(b) *Calculation of productivity gains by service organizations other than construction contractors.* For the purpose of determining the extent to which a price increase is justified, each service organization other than a construction contractor shall reduce increases in labor costs to reflect productivity gains in accordance with instructions which accompany forms issued pursuant to subpart H of this part.

Subpart F—Base Price

§ 150.101 Scope.

This Subpart sets forth the regulations which apply for determining base prices except as otherwise provided by this part.

§ 150.102 Sales and leases of products and services.

(a) *General rule.* The base price with respect to the sale or lease of an item is the average price lawfully charged for the item in transactions with the class of purchaser concerned during the base price period. The base price shall be determined in accordance with this Subpart notwithstanding the fact that the base price so determined may be lower than the price prevailing on May 25, 1970.

(b) *Average price.* The average price is determined by dividing the net sales of that item to that class of purchaser by the quantity of the item sold or leased to that class of purchaser during the base price period.

(c) *Base price period.* The base price period is the fiscal quarter which ended before January 11, 1973. If no transaction occurred during that quarter with respect to the item and class of purchaser concerned, the base price period is the next preceding fiscal quarter in which a transaction occurred with respect to that item and class of purchaser.

(d) *Temporary specials.* Prices charged pursuant to temporary special deals or temporary special allowances may not be excluded in computing the base price of an item. For the purposes of this paragraph, "temporary special deal" includes an offer of free goods, a combination sale, increased quantities, an introductory offer, and a "cents-off" or "price-pack" offer; and "temporary special allowance" includes early shipping, advertising, display buying, and promotional or other similar arrangements.

(e) *Class of purchasers for vending machine sales.* For the purpose of determining the base price with respect to a sale of an item through a vending machine, the term "class of purchaser" with respect to a firm using vending machines includes those purchasers within a marketing pricing area customarily utilized by that firm.

§ 150.103 Sales and leases of new property and new services.

(a) *General—new item.* (1) An item is a new item if—

(i) The firm concerned did not produce, sell or lease it in the same or substantially similar form at any time during the 1-year period immediately preceding the first date on which the firm offers it for sale or lease. (A change in appearance, arrangement, or combination does not create a new item. Ordinarily, a change in fashion, style, form or packaging does not create a new item. In the case of a product for lease, a permanent improvement or betterment made to the products, as a part thereof, to increase value or to restore it makes it a new property for purposes of a lease if the cost of the improvement or betterment is greater than $100 and at least as much as three month's rent for the property); and

(ii) It is substantially different in purpose, function, quality, or technology, or its use or service effects a substantially different result from any other item which the firm concerned currently sells or leases or sold or leased at any time during the 1-year period immediately preceding the first date on which the firm offers it for sale or lease.

(2) *New market.* An item which the firm concerned has previously sold or leased is a new item with respect to its offer or sale to any market to which he did not sell or lease it at any time during the 1-year period immediately preceding the first date on which he offers it for sale or lease. For the purposes of the section, a "market" is one or more members of any one of the following groups: wholesalers; retailers; consumers; manufacturers; or service organizations.

(b) *Base price determination.* A firm offering a new item shall determine its base price as follows:

(1) *Manufacturers and Service Organizations*—(i) *Net operating profit markup.* A manufacturer or service organization shall apply the average net operating profit markup it lawfully received on the most nearly similar item it sold or leased to the same market during the base period to the total allowable unit costs of the new item. For the purposes of this subparagraph, "net operating profit markup" means the ratio which the selling price bears to the total allowable unit costs of the item.

(ii) *Average price of comparable property or services.* If the firm concerned did not offer a similar item for sale or lease to a particular market during the base period, the base price for sales or leases to that market shall be the average price received in a substantial number of current transactions in that market by other firms selling or leasing comparable items in the same marketing area.

(iii) *Customary pricing practice.* If the firm concerned did not offer a similar item for sale or lease to a particular market during the base period, and if the new item is not comparable to any items being sold or leased by any firm in current transactions in the same market, the firm may determine the base price by using any customary pricing practice it used during the base period, or, if it did not sell or lease any property or service during that time, it may use any other pricing practice commonly used by other firms engaging in comparable business with the same market.

(2) *Wholesalers and retailers.*—(i) *Gross margin markup.* A retailer or wholesaler shall apply the gross margin currently being charged for products within the category into which the new product falls to the total allowable unit cost of the new property.

(c) *Base prices upon acquisition.* If a legal entity or a component of a legal entity determines a base price pursuant to this Subpart for an item which it sells or leases to a particular market and the entity or component is subsequently acquired by another firm, that item does not become a new item with respect to the same market. The base price of the item with respect to that market remains the base price determined for it by the acquired entity or component unless the acquiring firm sells or leases the same item to the same market. If the acquiring firm sells or leases the same item to the same market, the acquiring firm's base price with respect to the sale or lease of that item to that market shall be the base price with respect to the sale or lease by the acquired entity or component of that item to that market.

(d) *Prenotification of New Items.* A firm subject to the prenotification requirements of § 150.151 which has projected sales and revenues for its current fiscal year of $10 million or more derived from the sale or lease of new items may not charge a price for a new item until it has provided 30 days prior notice to the Cost of Living Council in the form and manner prescribed by the Council.

§ 150.104 Custom products and custom services.

(a) *Definitions.* The following definitions apply in this section:

"Custom product" means a product (other than one specified in § 150.54(c)(1) specifically produced by a manufacturer to the buyer's or buyers' specifications and not reasonably comparable to any product manufactured at any previous time by the same manufacturer or its predecessors in interest, including any buyer-specified changes or additions to a non-custom product to the extent that they are not reasonably comparable to any charges or additions manufactured, with respect to that non-custom product, at any previous time by the same manufacturer or its predecessors in interest.

"Custom service" means a service (other than one specified in § 150.54(c)(2)) specifically produced by a service organization to the buyer's or buyers' specifications and not reasonably comparable to any service provided at any previous time by the same service organization or its predecessors in interest, including any buyer-specified changes or additions to a non-custom service, at any previous time by the same service organization or its predecessors in interest.

(b) *Base price.* A manufacturer or service organization may charge a base price for a custom product or service in conformity with its customary pricing practices, if any, which reflect only costs incurred or to be incurred in the manufacture of the product or the furnishing of the service which are allowable as determined under regulations or decisions issued pursuant to the Economic Stabilization Program. However, a firm which charges a price for a custom product or custom service may not, for the fiscal year in which that price is charged, exceed its base period profit margin.

Example 1. Labor costs to be incurred in the making of a custom product were estimated to be $2,000,000. However, $200,000 of this estimated cost was found to be nonallowable under regulations or decisions issued pursuant to the Economic Stabilization Program. Therefore, the highest amount of allowable costs for labor that may be included in determining the base price chargeable for the product is $1,800,000.

Example 2. Labor costs to be incurred in the construction of an office building were estimated to be $2,000,000. Because of the action of an agency administering a part of the Economic Stabilization Program, $100,000 of this estimated cost was found to be nonallowable because it exceeded wage rates approved under a contract subject to the Program. Pursuant to another action of an agency administering a part of the Economic Stabilization Program, negotiated and approved changes in work rules resulted in an increase in labor costs of $50,000. Therefore, the highest amount of allowable costs for labor that may be included in determining the base price chargeable for the construction is $1,950,000.

(c) *Effective date.* This section applies to the determination of base prices for all custom products or services after August 12, 1973, regardless of the date of the contract, if any, under which the item is sold.

Subpart G—Base Cost and Current Cost

§ 150.131 Scope.

This Subpart sets forth the general rules for determining base cost and current cost except as otherwise provided in this part. These general rules are supplemented by instructions which accompany recordkeeping, reporting and prenotification forms issued pursuant to Subpart H of this part.

§ 150.132 General rule.

For the purpose of determining whether costs have been incurred which permit the charging of a price in excess of the base price, net allowable costs incurred during the base cost period with respect to the item concerned ("base costs") shall be compared with net allowable costs incurred during the current period with respect to that item ("current costs"). Subject to Subpart E of this part, current costs which exceed base costs may be used to support a price in excess of the base price for the item concerned.

§ 150.133 Base cost.

(a) *Base cost period.* The base cost period for an item is the last fiscal quarter which ended before January 11, 1973.

(b) *Direct Materials and Labor.* The base cost with respect to costs of direct materials and labor is the rate at which those costs were incurred on the last full day of business in the base cost period.

(c) *All other costs.* The base cost with respect to all costs other than direct materials costs and labor costs is the rate at which those costs were incurred on the last full day of business in the base cost period. However, if the base cost with respect to all costs other than direct materials costs and labor costs cannot reasonably be determined by the method prescribed in the preceding sentence, that base cost is the average cost incurred throughout the base cost period with respect to those costs as calculated in accordance with instructions which accompany recordkeeping, reporting and prenotification forms issued pursuant to Subpart H of this part.

V 38 I 139 JUL 20 73 XUM

§ 150.134 Current cost.

(a) *Current cost period.* For reporting and recordkeeping purposes, the current cost period is the current fiscal quarter for which a quarterly report or record is required to be filed pursuant to Subpart H of this part. For prenotification purposes, the current cost period is any representative period prior to the current cost closing date in which the normal, recurring costs of the firm were incurred.

(b) *Current cost closing date.* For recordkeeping and reporting purposes, the current cost closing date is the last full day of business in the current fiscal quarter being reported or recorded. For prenotification purposes, the current cost closing date is any date prior to the date of the prenotification document as entered on that document.

(c) *Direct materials and labor.* The current cost with respect to costs of direct materials and labor is the rate at which those costs were incurred on the current cost closing date.

(d) *All other costs.* The current cost with respect to all costs other than costs of direct materials and labor is the rate at which those costs were incurred on the current cost closing date. However, if the current cost with respect to all costs other than direct materials costs and labor costs cannot reasonably be determined by the method prescribed in the preceding sentence, that current cost is the average cost incurred throughout the current cost period with respect to those costs as calculated in accordance with instructions which accompany recordkeeping, reporting and prenotification forms issued pursuant to Subpart H of this part.

§ 150.135 Special rules for new items.

(a) *Base cost period.* The base cost period for each new item, as defined in accordance with § 150.103 is the fiscal quarter in which the new item concerned was first sold or leased in a transaction with the class of customer concerned.

(b) *Base cost.* The base cost with respect to each new item is the base cost as determined in accordance with paragraphs (b) and (c) of § 150.133.

(c) *Current cost.* The current cost period, current cost closing date, and current cost for each new item, as defined in accordance with § 150.103, is the current cost period, current cost closing date, and current cost as determined in accordance with § 150.134.

Subpart H—Prenotification and Reporting

§ 150.151 Prenotification.

(a) *General rule.* Except as provided in paragraph (b) of this section; a price category I firm may not increase a price for any product or service above the base price with respect to a product or service it sells as a manufacturer or service organization until the firm has filed, pursuant to this subpart, a notice of the proposed price increase with the Council and 30 days have elapsed since the filing of the notice.

(b) *Waiver of prenotification.* (1) The following price increases by a price category I firm need not be prenotified—

(i) Price increases for items which are exempt under Subpart D of this part or otherwise excluded from coverage of this title.

(ii) Price increases by a nonprofit organization with less than $100 million in annual sales or revenues derived from transactions in property or services which are not exempt under Subpart D of this part or otherwise excluded from coverage of this title.

(iii) Any price increase to the extent it reflects solely an increase in excise taxes (including sales and use taxes) or in duties on imports.

(2) The following prices charged by a price category I firm need not be prenotified:

(i) A price in a contract for the purchase of a product or service by an agency of the Federal government, and a price stated in a subcontract under a contract for the purchase of a product or service by an agency of the Federal government.

(ii) A price above base price which a price category I firm may continue to charge after August 12, 1973 pursuant to § 150.76(d).

§ 150.152 Manner of Prenotification.

The notice of the proposed price increase must be filed in the form and manner prescribed by the Cost of Living Council, and will be considered to be filed on the date when it is accepted by the Council. The Council will notify the firm, in writing, of the date of acceptance. If the information submitted is incomplete or inadequate, the Council will not accept the filing, and will so notify the firm.

§ 150.153 Measure of the Prenotification Period.

The 30-day prenotification period will commence on the date of acceptance of the notice by the Council. In any case in which the 30-day period would otherwise end on a Saturday, Sunday or Federal holiday, it will end at the close of the next succeeding workday.

§ 150.154 Council action.

During the 30-day prenotification period, the Council may issue an order disapproving, modifying, suspending or deferring a proposed price increase in whole or in part.

(a) The Council may issue an order disapproving or modifying a proposed price increase in whole or in part, if it finds that the proposed price increase does not conform to the rules of this part.

(b) The Council may issue an order temporarily suspending the running of the 30 days prenotification period, of a proposed price increase if it finds additional information is necessary or that the form was improperly filed. The order will remain in effect until the Council notifies the firm in writing that the additional information has been received and accepted.

(c) The Council may issue an order deferring a price increase, in whole or in part, if it finds that the proposed price increase is of such magnitude and would have such an impact upon the economy as to be unreasonably inconsistent with the goals of the Economic Stabilization Program.

§ 150.155 Implementation of price increases.

If the Council does not act upon the proposed price increase within the 30-day prenotification period, pursuant to § 150.154, the proposed price increase may be placed in effect immediately upon expiration of the 30-day prenotification period. Failure of the Council to act upon the price increase within the 30-day period does not constitute approval of the price increase and nothing in this part shall be construed to limit the authority of the Council to modify, suspend, disapprove, or defer any such price increase in whole or in part placed into effect after the expiration of the 30-day period if the Council finds that:

(a) The price increase does not conform to the rules of this part; or

(b) The price increase is of such magnitude and would have such an impact upon the economy as to be unreasonably inconsistent with the goals of the Economic Stabilization Program.

§ 151.156 Volatility.

(a) Subject to paragraphs (b) through (d) of this section, a firm that has customarily priced an item in a manner immediately responsive to frequent and customary market price fluctuations of the raw materials or partially processed products which it uses in that item may, when and to the extent authorized by the Cost of Living Council increase the price of that item to the extent of any significant market price increase of those raw materials or partially processed products, without regard to the prenotification requirements of this Subpart. However, in the case of a price increase based on an increase in the price of a partially processed product, only that part of the increased cost of the partially processed product that is due to an increase in the market price of the raw materials in that product may be used in computing any allowable increase under this paragraph. For the purposes of this paragraph and paragraph (c) of this section "raw materials" include raw agricultural products, raw seafood, and other raw materials used by the firm in preparing an item for which an authorization is sought under this section.

(b) *Limitation.* A firm which increases a price pursuant to an authorization granted under this section shall reduce that price to the extent of any later decrease in cost in accordance with the general rules of this part.

(c) *Notice on invoice.* A firm which increases a price on any partially processed product pursuant to authorization under this section shall indicate on each invoice to its manufacturing and processing customers that part of any cost increase that is due to an increase in the cost of the raw materials used in making the partially processed product.

(d) Until September 12, 1973, a firm which received a volatile pricing authorization from the Price Commission which was in effect on January 10, 1973, with respect to an item shall be deemed to have received authority from the Council to put price adjustments for that item into effect in accordance with the provisions of this section. Effective September 12, 1973, however, a firm may adjust the price of an item pursuant to this section only if it has received a volatile pricing authorization issued by the Council pursuant to paragraph (a) of this section.

§ 150.161 Quarterly reports.

(a) *General.* Except as provided in paragraph (b) of this section, each price category I and II firm shall submit quarterly reports to the Cost of Living Council containing information on prices, costs and profits in accordance with regulations issued by the Council.

(b) *Waiver of quarterly reports.* Quarterly reports need not be submitted to the Council by the following firms:

(1) A firm whose total annual sales or revenues are derived from transactions involving goods and services which are exempt under Subpart D, or otherwise excluded from coverage of this title.

(2) A firm which is a nonprofit organization with less than $50 million derived from transactions in property or services which are not exempt under Subpart D of this part, or otherwise excluded from coverage of this part.

(3) State and local governments.

(c) *Manner of reporting.* Each quarterly report required under paragraph (a) of this section shall be made in accordance with regulations issued by the Cost of Living Council.

§ 151.162 Annual reports.

(a) *General.* Each price category III firm shall file an annual report with the Cost of Living Council with information on prices, costs and profits in accordance with regulations issued by the Council.

§ 151.163 Additional reports and information.

Whenever the Cost of Living Council considers it necessary for the effective administration of the Economic Stabilization Program, it may order any firm to file special or separate reports, setting forth information relating to the Economic Stabilization Program, in addition to any other reports required by this part.

§ 151.164 Effect of failure to file or maintain reports or other documents required by or under certain sections of this part.

(a) If a firm which is required to file a report or other document with the Cost of Living Council pursuant to the provisions of this part or an order issued by the Council does not, within the time limits prescribed, file the report or other document—

(1) The firm may not implement any further price increases including price increases which could otherwise be implemented pursuant to § 150.155 until it has complied with that reporting requirement and has obtained the special approval of the Council;

(2) Except to the extent specifically authorized otherwise by the Council in any case, based upon a written request of the firm concerned citing hardship or inequity, action is suspended on all exceptions filed by that firm until it has complied with the reporting requirement; and

(3) The Council may, whenever it considers it appropriate under the circumstances, order the firm to reduce any of its prices.

(b) Each day that a firm falls to comply with a reporting requirement pursuant to this part pertaining to reports, or an order under this part, is considered to constitute a separate violation of this part or that order.

§ 151.165 Records.

(a) *General.* Each firm subject to this part shall keep such records as are sufficient to demonstrate that the prices charged by the firm are in compliance with the rules in this part.

(b) *Inspection.* Records required to be kept under paragraph (a) of this section shall be made available for inspection at any time upon the request of an officer or employee of the Internal Revenue Service or the Council.

(c) *Justification.* Upon the request of an officer or employee of the Internal Revenue Service or the Council any firm which has filed a notice of a proposed price increase or increases a price pursuant to this part, shall:

(1) Specify the records that comply with paragraph (a) of this section; and

(2) Justify that proposed price increase or increased price.

(d) *Period for keeping records.* Each firm required to keep a record under this section shall maintain and preserve that record for at least 4 years after the last day of the calendar year in which the transactions or other events recorded in that record occurred or the property was acquired by that firm whichever is later.

Subpart I—Accounting and Financial Reporting Requirements

§ 150.171 Accounting for business combinations.

When filing a report or other document under this part, accounting information for business combinations may be restated only in accordance with generally accepted account-principles, consistently applied. Restatement of prior accounts is required for certain changes in business combinations accounted for as a pooling of interests and when there has been a spin-off or a split-off to a parent firm's shareholders. Restatement of prior accounts is generally not appropriate when there is an acquisition or divestiture of a business or other property which is otherwise accounted for. Net sales, costs, and expenses of discontinued operations may not be condensed to "one line" in submissions to the Council, but shall be reported and accounted for on the same basis as continuing operations.

§ 150.172 Procedures required with respect to certain financial information.

(a) Each person subject to section 13 or 15(d) of the Securities Exchange Act of 1934 and each firm that prepares an audited financial statement on an annual basis shall obtain, for its reports filed with the Council, the services of an independent public accountant to perform the procedures specified in Part 105 of this title. Those procedures are considered to be supplementary to periodic Council examinations for compliance.

(b) This section applies to all filings received by the Council.

Subpart J—Special Rules

§ 151.201 Low Profit Firms: Manufacturers, wholesalers, and retailers.

(a) *Definitions.* For purposes of this section—

"Low profit firm" means any firm which did not receive more than 10 percent of its annual sales or revenues from providing services and during its most recently ended fiscal year or during its "alternative fiscal year" computed in accordance with paragraph (c) of this section had:

(1) Net sales of less than $1 million and a profit margin which was less than 3 percent; or

(2) Net sales of $1 million or more and a profit margin which was less than the percentage set forth in column B of the table in paragraph (b) of this section, corresponding to the firm's capital turnover ratio.

"Base period profit margin" of the firm means a profit margin authorized pursuant to this section.

"Covered activities" means any activity other than firming, life insurance, overseas operations or public utility services.

(b) *Table.* For the purposes of this section, the capital turnover ratio is computed by dividing the net sales for the year by the average total capital (long-term debt plus owner's equity, less investments, the income of which is included in nonoperating income). For the purposes of making calculations under this section, only "covered activities" are included. The average total capital for any fiscal year is computed by adding the outstanding total capital at the beginning of that fiscal year to the outstand-

V 38 139 JUL 20 73 XUM

ing total capital at the end of that fiscal year, and dividing by two:

Column A Capital Turnover Ratio	Column B Applicable Profit Margin (percent)
Less than 3.4	3.0
3.4 or more, but less than 3.6	2.9
3.6 or more, but less than 3.7	2.8
3.7 or more, but less than 3.8	2.7
3.8 or more, but less than 4.0	2.6
4.0 or more but less than 4.2	2.5
4.2 or more, but less than 4.3	2.4
4.3 or more, but less than 4.5	2.3
4.5 or more, but less than 4.8	2.2
4.8 or more, but less than 5.0	2.1
5.0 or more, but less than 5.3	2.0
5.3 or more, but less than 5.6	1.9
5.6 or more, but less than 5.9	1.8
5.9 or more, but less than 6.3	1.7
6.3 or more, but less than 6.7	1.6
6.7 or more, but less than 7.1	1.5
7.1 or more, but less than 7.7	1.4
7.7 or more, but less than 8.3	1.3
8.3 or more, but less than 9.1	1.2
9.1 or more, but less than 10.0	1.1
10.0 or more, but less than 11.1	1.0
11.1 or more, but less than 12.5	0.9
12.5 or more, but less than 14.3	0.8
14.3 or more, but less than 16.7	0.7
16.7 or more, but less than 20.0	0.6
20.0 or more, but less than 25.0	0.5
25.0 or more, but less than 33.3	0.4
33.3 or more, but less than 50.0	0.3
50.0 or more	0.2

(c) *Base period low profit-alternative fiscal year.* A firm may compute an average fiscal year for use as an "alternative fiscal year" for the purposes of paragraph (a) of this section by combining and dividing by 2 the net sales and the average total capital, respectively, for any two of that firm's base period years as defined in Subpart B of this part.

(d) *General.* Notwithstanding Subpart E of this part, but subject to paragraphs (e) and (f) of this section, a low profit firm may after August 12, 1973 increase any of its prices by an amount reasonably calculated to result by the end of the third fiscal quarter following the fiscal quarter in which the prices are increased in a profit margin that does not exceed the profit margin allowable under this section. For firms covered by paragraph (a)(1) of this section, the allowable profit margin is 3 percent. For firms covered by paragraph (a)(2) of this section, the allowable profit margin is that set forth in Column B of the table in paragraph (b) of this section.

(e) *Price limitations.* A firm in the course of any its fiscal years in which it operates under this section, may increase the price of any of its products under this section above the price which legally was charged or legally could have been charged on the day before the day on which the firm elected to be subject to this section without regard to cost justification so long as such increase does not result in exceeding the profit margin allowable under this section.

(f) *Pay limitations.* No firm may qualify as a low profit margin firm if, during its current fiscal year, and for as long as it continues to use this section as a basis for further increasing any price, it pays or credits to an officer or employee who is an owner or a relative of an owner of the firm a rate of salary or other compensation or benefit which exceeds the rate of salary or other compensation or benefit it paid or credited to that officer or employee during its most recent fiscal year, plus 5.5 percent for each fiscal year thereafter. For the purposes of this paragraph, the word "owner" means an officer or employee who owns (or is considered to own within the meaning of section 318(a)(1) of the Internal Revenue Code) on any day of the fiscal year concerned, more than 5 percent of the outstanding stock of the firm.

(g) *Reporting.* Each firm before utilizing this section for a fiscal year or part thereof, in addition to complying with the reporting requirements of Subpart H, and before increasing any price under this section, shall furnish to the Council sufficient financial data to support its loss or low profit position. Such a firm may increase prices under this section after 30 days following the date of the receipt of that financial data by the Council unless, during that 30-day period, the Council suspends or disapproves that action or seeks additional information. The Council may disapprove such action for a firm whose profit margin is at or above the average profit margin of other firms engaged in the same industry.

(h) *After achieving allowable profit margin.* Within 45 days after the end of a fiscal quarter in which a loss and low profit firm which has increased prices pursuant to this section achieves its base period profit margin or approaches it within .01 percent at an annual rate, use of this section terminates. Thereafter the firm must conform to the price rules of this part which would be applicable to it if it had not been a loss and low profit firm, except that it must continue to utilize the base period profit margin it acquired pursuant to this section in lieu of its own base period profit margin.

§ 150.202 Low profit firms: Certain service organizations.

(a) *Definition.* For the purposes of this section, "low profit firm" means any firm which, during its most recently ended fiscal year, obtained at least 90 percent of its revenues from the furnishing of services, and which—

(1) During its most recently ended fiscal year or during its alternative fiscal year computed in accordance with paragraph (b) of this section, had a profit margin which was less than 1 percent; or

(2) Has estimated, and has prepared supporting documentation that it will have for its current fiscal year, a profit margin of less than 1 percent.

(b) *Base period low profit-alternative fiscal year.* A firm may compute an average fiscal year for use as an alternative fiscal year for the purposes of paragraph (a) of this section by combining and dividing by two the net sales for any two of that firm's base period years.

(c) *General rule.* Notwithstanding any other provision of this part, but subject to paragraphs (d), (e) and (f) of this section, a low profit firm may after August 12, 1973 increase any of its prices by an amount reasonably calculated to result in a profit margin of not to exceed 1 percent by the end of the third fiscal quarter following the fiscal quarter in which the prices are increased.

(d) *Pay Limitations.* No firm may qualify as a low profit firm if, during its current fiscal year, and for as long as it continues to use this section as a basis for further increasing any price, it pays or credits to any of its officers or employees who is an owner or a relative of an owner of the firm a rate of salary or other compensation or benefit which exceeds the rate of salary or other compensation or benefit it paid or credited to that officer or employee during its most recent fiscal year, plus 5.5 percent for each fiscal year thereafter. For the purposes of this paragraph, the word "owner" means an officer or employee who owns (or is considered to own within the meaning of section 318(a)(1) of the Internal Revenue Code) on any day of the fiscal year concerned, more than 5 percent of the outstanding stock of the firm.

(e) *Reporting.* Each firm before utilizing this section for a fiscal year or part thereof, in addition to complying with the reporting requirements of Subpart H of this part, and before increasing any price under this section, furnish to the Council sufficient financial data to support its loss or low profit position. Such a firm may increase prices under this section after 30 days following the date of the receipt of that financial data by the Council unless, during that 30-day period, the Council suspends or disapproves that action, or seeks additional information.

(f) *After achieving allowable profit margin.* Within 45 days after the end of a fiscal quarter in which a loss and low profit firm which has increased prices pursuant to this section achieves a profit margin of 1 percent or approaches it within .01 percent at an annual rate, use of this section terminates. Thereafter the firm must conform to the price rules of this part which would be applicable to it if it had not been a loss and low profit firm, except that it must continue to utilize the 1 percent profit margin it acquired pursuant to this section in lieu of its own base period profit margin.

§ 151.203 Seasonal patterns.

(a) *General.* Nothwithstanding any other provision of this part, prices which normally fluctuate in distinct seasonal patterns may be adjusted as prescribed in this section.

(b) *Distinct fluctuation.* Prices must show a large or otherwise distinct fluctuation at a specific, identifiable point in time. The distinct fluctuation must be an established practice that has taken place in each of the 3 years before the date of the contemplated change. New firms may determine their qualifications from those generally prevailing with respect to firms similarly situated, selling or leasing in the same marketing area. If there are not similar firms in the immediate area, qualification may be established by reference ot the nearest similar marketing area.

(c) *Time of price fluctuation.* The price fluctuation referred to in paragraph (b) of this section may not take place at a time other than the time at which that fluctuation took place in the preceding year unless the date of the price fluctuation is tied to a specific event such as a previously planned introduction of new models.

(d) *Allowable price.* Subject to paragraph (e) of this section, if the requirements of paragraphs (b) and (c) of this section are met, the maximum price which may be charged by the person concerned is the greater of the following:

(1) The base price determined under Subpart F of this part;

(2) The price authorized pursuant to the provisions of Subpart E or K of this part; or

(3) The price charged by that firm during the first 30 days of the period following the current seasonal price adjustment, or if the season was less than 30 days, during the period of that season.

For purposes of paragraph (a) of this section, the price charged during that 30-day period, or the period of the season if less than 30 days, is the weighted average of the prices charged on all transactions during that period.

(e) *Limitation.* Notwithstanding paragraph (d) of this section, a firm which charges a price pursuant to this section, may not exceed its base period profit margin.

(f) *Return to nonseasonal prices.* Each firm that increases a price under this section shall decrease that price at the same date or identifiable point in time as the price was decreased in the previous season. The price shall be decreased to the allowable price for the applicable season, pursuant to paragraph (d) of this section.

§ 151.204 Marketing cooperatives and market risk-sharing transactions.

(a) *Applicability.* This section applies to—

(1) Sales of products or services by a marketing cooperative, as defined in paragraph (b) of this section, for its members and for other persons; and

(2) Transactions for the sale of products or services by a seller to a buyer in which the price is set in whole or in substantial part by reference to the buyer's proceeds from the later resale of the product or service, or the sale by that buyer of another product or service into which the initial product or service is processed or made.

(b) *Definitions.* For the purposes of this section "marketing cooperative" means a firm that is organized or operated on a cooperative basis for the purpose of marketing the products or services of its members and other persons, and turning back to them the proceeds of sales, less expenses, on the basis of either the quantity or the value of the products or services furnished by them, or that does not make a profit on the sales for its members, either

(1) Because the market price obtained is only enough to cover costs and expenses and payment for their products or services, or

(2) Because a later additional payment adjusts the payment for this purpose may be cash or other item of value which qualifies as a "patronage dividend" under section 1388 of the Internal Revenue Code of 1954 (26 USC 1388). A firm is not disqualified from being a marketing co-operative by conducting a portion of its transactions with nonmembers. Each transaction of the kind described in paragraph (a)(2) of this section is a "market risk-sharing transaction" and is considered to bind the buyer and seller of that transaction to a "market risk-sharing agreement". The price which is charged in a market risk-sharing transaction is a "market risk-sharing price". The total proceeds which a firm receives from a marketing co-operative for a product or service which the cooperative markets for that firm is also a "market risk-sharing price".

(c) *General.* A market risk-sharing price, as defined in paragraph (b) of this section, may not exceed the price authorized to be charged under any other provision of this part if the kind of product or service and the kind of transaction concerned are not exempt from the Economic Stallization Program under Subpart D of this part. If a market risk-sharing price is exempt thereunder, and if that price is one of the costs of another product or service which is not exempt thereunder, the manufacturer, service organization, wholesaler, or retailer for whom such a market risk-sharing price is a cost may charge a price in excess of the base price or the price authorized pursuant to § 150.76(d), or Subpart K of this part, for that other product or service under the same conditions and subject to the same restrictions as would otherwise apply to that person under this part, except that—

(1) If that firm is also a marketing co-operative and charges a price pursuant to this section, the ratio of its operating income to its net sales in the current fiscal year may not exceed the ratio which prevailed during the base period (in computing this ratio the firm may elect to reduce operating income by patronage dividends in both the base period and the current period); and

(2) The costs which are determined by the market risk-sharing plan shall, for the purposes of this part, be considered to be imputed allowable costs.

(d) *Imputed allowable costs.* The imputed allowable cost shall be:

(1) Any price that is published or otherwise documented as prevailing in the trade and which the firm has customarily used in establishing a payment at the time of delivery of the product or service, or in determining pool interest in deliveries of the product or service; or if none,

(2) The average documented price paid by competitors for the same product or service in transactions that are not by the marketing co-operative or are not market risk-sharing transactions in the same marketing area, or, if no significant number of those transactions are occurring in the same marketing area, in the closest substantially similar marketing area; or if none,

(3) The published price of the same product or service under Federal Government support programs, State or Federal marketing orders, commodity market quotations, or Department of Agricultural Market News Service Reports, whichever is most commonly used in the trade as an indicator of current commercial market prices; or if none,

(4) The published price or average documented price paid by competitors for a related product or service that has a similar price pattern in the same marketing area, or in the closest substantially similar marketing area.

§ 151.205 Purchasing co-operatives.

(a) *Applicability.* This section applies to sales of products or services by a purchasing co-operative, as defined in paragraph (b) of this section, to its members and to other persons.

(b) *Definitions.* For the purposes of this section "purchasing cooperative" means a firm that is organized or operated on a co-operative basis for the purpose of purchasing or manufacturing products or services for its members and other persons at cost, plus expenses, or that does not make a profit on sales to its members, either because the initial price charged is only enough to cover costs and expenses or because a later refund reduces the net price to such an amount. A refund for this purpose may be cash or other item of value which qualifies as a "patronage dividend" under section 1388 of the Internal Revenue Code of 1954 (26 USC 1388). A firm is not disqualified from being a purchasing co-operative by conducting a portion of its transactions with nonmembers.

(c) *General.* A purchasing co-operative may charge any price for a product or service it sells to its members or other persons, except that a firm which prices pursuant to this section, the ratio of its operating income to its net sales in the current fiscal year, may not exceed the ratio that prevailed during the base period (in computing this ratio the firm may elect to reduce operating income by patronage dividend in both the base period and the current period).

(d) *Exceptions.* A purchasing co-operative that sells a product to its members or other persons primarily for their resale and not for their use or consumption shall charge a price in accordance with its allowable costs or gross margins for the item's merchandise category. In computing its ratio or operating income to net sales a purchasing co-operative may not use the election authorized in paragraph (c) of this section for patronage dividends. The provisions of this paragraph do not apply to a sale made by a purchasing co-operative operating under the Agricultural Marketing Act of 1929, as amended (12 U.S.C. 1141(j)), to a member or other person of that co-operative who is also a co-operative and only resells to its members or other persons for their use or consumption.

V 38 I 139 JUL 20 73 XUM

§ 150.206 Stabilization of particular industries and sectors.

(a) Whenever the Council finds it necessary to achieve the goals of the Economic Stabilization Program, it may issue regulations providing for the stabilization of prices in a particular industry, sector of the economy or part thereof.

(b) The Council may order public hearings with respect to the regulations issued or to be issued pursuant to paragraph (a) of this section if the Council determines that public hearings would aid in achieving the goals of the Economic Stabilization Program.

Subpart K—Retailers and Wholesalers

§ 150.301 Purpose and scope.

(a) Except as provided in § 150.302, this subpart prescribes mandatory controls applicable to firms which engage in retailers or wholesalers of crude petroleum or petroleum products to which Subpart L of this part applies.

(b) To the extent this subpart may be inconsistent with other provisions in this part, the provisions in this subpart govern.

§ 150.302 Effective date of applicability to food retailers and wholesalers.

Until September 12, 1973, this subpart does not apply to those retailers or wholesalers of meat or other food products who remain subject to Subpart M of Part 130 or Subpart I of Part 140 of this title until that time.

§ 150.303 Definitions.

As used in this subpart.

"Customer category" means a group of related customers distinguished from other customers because of customary price differentials between those customers and other customers, which is treated as a single pricing unit, irrespective of the products they purchase, for the purposes of this subpart.

"Gross margin" means the ratio that total revenues received less the cost of goods sold bears to total revenues received.

"Gross margin base period" means the last fiscal year ending prior to February 5, 1973.

"Merchandise category" means a group of related products which is treated as a single pricing unit for the purposes of this subpart.

"Pricing entity" means the lowest level of organization within a firm at which pricing decisions are made.

§ 150.304 General pricing rules.

(a) This section becomes effective with respect to a price category I firm or price category II firm to which this subpart applies when the firm submits the merchandise pricing plan required by § 150.306(a). It becomes effective with respect to a price category III firm to which this subpart applies when the Firm completes the merchandise pricing plan required by § 150.309.

(b) A firm to which this section has become applicable may charge a price for an item in excess of the base price of that item only if—

(1) The gross margin for that item's merchandise category for any fiscal quarter in which the increased price is charged does not exceed the higher of—

(i) the gross margin realized for that category during the corresponding fiscal quarter of the gross margin base period; or

(ii) the gross margin realized for that category for the retailer's or wholesaler's gross margin base period;

(2) The gross margin for that item's merchandise category for any fiscal year in which the increased price is charged does not exceed the gross margin realized for that category for the retailer's or wholesaler's gross margin base period; and

(3) The firm's profit margin for any fiscal year in which the increased price is charged does not exceed its base period profit margin.

§ 150.305 Establishment of merchandise categories.

(a) Except as otherwise provided in this section a retailer or wholesaler shall use the merchandise categories set forth in Appendix A to this subpart.

(b) If a retailer or wholesaler sells items which do not fall within any of the categories listed in Appendix A, he may form additional merchandise categories, each of which must include all related items falling within the same general description. For each such category included in a plan required to be submitted to the Cost of Living Council pursuant to § 150.306, the retailer or wholesaler shall submit with the plan a statement demonstrating that the categories are consistent with the requirements of this subpart.

(c) If a retailer's or wholesaler's customary business relies on customer categories rather than merchandise categories, he may substitute customer categories in his merchandise pricing plan. When such a substitution is made in a plan required to be submitted to the Cost of Living Council pursuant to § 150.306, the retailer or wholesaler shall also submit a statement demonstrating that the categories are consistent with the requirements of this subpart.

(d) A firm which is primarily a retailer or wholesaler may include within its merchandise pricing plan related manufacturing and service activities which are integrated into its retail or wholesale activities and constitute not more than 10 percent of the firm's total retail and wholesale sales for the immediately preceeding fiscal year.

§ 150.306 Merchandise pricing plans; retailers and wholesalers with annual revenues of $50 million or more.

(a) Each price category I firm and each price category II firm to which this subpart applies, shall prepare and submit to the Cost of Living Council a merchandise pricing plan. The plan must include—

(1) A description of the retailer's or wholesaler's internal organization as it relates to pricing activities;

(2) A list of the retailer's or wholesaler's pricing entities;

(3) A completed Form CLC----- on each pricing entity setting forth its merchandise categories, the base period gross margin for each category, and the gross margin realized for each category during each fiscal quarter of the gross margin base period;

(4) A list of products and product lines carried by the retailer or wholesaler; and

(5) A description of the manner in which the retailer or wholesaler makes its pricing decisions.

(b) Within 60 days after it receives a retailer's or wholesaler's merchandise pricing plan, the Council will review the plan and (1) approve it or (2) take the action provided for in § 150.307.

§ 150.307 Incomplete and nonconforming plans.

(a) If after reviewing a merchandise pricing plan submitted pursuant to § 150.306, the Cost of Living Council determines that the information submitted is incomplete or inaccurate or that the plan does not conform to the requirements of this subpart, it will notify the submitting retailer or wholesaler of its determination and the basis for that determination. The retailer or wholesaler shall, within the time prescribed by the Council, submit to the Council such additional data or information as the Council may require or such modifications to its plan as may be necessary to bring it into conformance with the requirements of this subpart. Effective upon receipt of the notice the retailer or wholesaler may not implement any further price increases until the Council approves the plan or otherwise advises the retailer or wholesaler.

(b) In addition, if the retailer or wholesaler fails to submit the required additional data, information, or modifications, within the time prescribed by the Council or, if after submission thereof, the Council determines that the merchandise pricing plan still does not conform to the requirements of this subpart, it may order the retailer or wholesaler to reduce his prices to base prices or such other level above base prices as the Council may determine to be appropriate and to submit a new plan based on new categories or pricing entities, specified by the Council.

§ 150.308 Approved plans.

(a) After the Cost of Living Council approves a retailer's or wholesaler's merchandise pricing plan, the retailer or wholesaler shall use the categories and pricing entities specified in the approved plan in monitoring its prices and filing such reports as may be required by the Council.

(b) A retailer or wholesaler may modify its approved merchandise pricing plan only after the modification has been approved by the Council.

§ 150.309 Merchandise pricing plans; retailers and wholesalers with annual revenues of less than $50 million.

Each price category III firm to which this subpart applies, shall prepare and maintain at its principal place of business, a merchandise pricing plan. The firm may group all of its retail or wholesale products into a single merchandise category, in which case its merchandise pricing plan need only consist of a completed Form CLC ------ setting forth the base period gross margin information for that single category. However, if the firm elects to use more than one category, its plan must include, to the extent applicable, each of the items specified in § 140.306(a) of this chapter for plans required to be submitted to the Cost of Living Council.

§ 150.310 Reporting.

(a) Each price category I firm and each price category II firm to which this subpart applies shall prepare and submit to the Cost of Living Council within 45 days after the end of each fiscal quarter a Form CLC ---- in the manner prescribed by the Council.

(b) Each price category III firm to which this subpart applies shall prepare and submit to the Cost of Living Council within 45 days after the end of each fiscal year a Form CLC ---- in the manner prescribed by the Council.

§ 150.311 Repurification of a quarterly violation.

(a) If a firm's gross margin for a particular category for any fiscal quarter other than the fourth fiscal quarter, exceeds the limitations prescribed in § 150.304(b)(1), the Cost of Living Council will reduce any sanctions it may impose for the violation to the extent that the firm offset the overage in the succeeding fiscal quarter.

(b) If a firm's gross margin for a particular category has not exceeded the limitations prescribed in § 150.304(b)(1) during any of the first three fiscal quarters but exceeds those limits for the fourth fiscal quarter, the Cost of Living Council will not impose sanctions for the violation if the gross margin for that category for the fiscal year is within the limitation prescribed in § 150.304(b)(2).

(c) A firm is entitled to the quarterly gross margin overage relief provided by this section only once per category within any fiscal year.

APPENDIX A

MERCHANDISE CATEGORIES APPLICABLE TO RETAILERS AND WHOLESALERS

DEPARTMENT STORES

101 Bedroom furniture
102 Boys' clothing and accessories
103 Building supplies
104 Cafeteria
105 Children's shoes
106 China and crystal ware
107 Clocks and watches
108 Confections
109 Cosmetics and toilet articles
110 Dining furniture
111 Domestics—yard goods, linens, etc.
112 Eyeware
113 Giftware
114 Girls' clothing and accessories
115 Hand tools
116 Hardware
117 Hobbies, crafts and educational materials
118 Housewares—small appliances, kitchenware, etc.
119 Infants' ware
120 Jewelry
121 Lamps and other lighting fixtures
122 Lawn and garden
123 Living room furniture
124 Luggage
125 Major appliances
126 Men's accessories
127 Men's clothing
128 Men's shoes
129 Notions
130 Office supplies and equipment
131 Outdoor furniture
132 Paint
133 Photo
134 Power tools
135 Rugs, carpets and other floor coverings
136 Silver pieces and silverware
137 Sporting goods
138 Tires, batteries and accessories
139 Wallpaper and other wall coverings
140 Women's accessories
141 Women's clothing
142 Women's shoes

DRUGSTORES

201 Apparel
202 Books, magazines, newspapers
203 Cafeteria/restaurant
204 Cards and stationery
205 Confections
206 Cosmetics and toilet articles
207 Drugs—prescription
208 Drugs—non-prescription
209 Housewares
210 Medical and dental equipment and supplies
211 Notions
212 Photos
213 Seasonal—summer
214 Seasonal—winter
215 Tobacco products and related items
216 Toys and games

VARIETY STORES

301 Cafeteria
302 Children's and infants' apparel and accessories
303 Confections
304 Cosmetics and toilet articles
305 Domestics
306 Furniture and lamps
307 Hardware
308 Housewares
309 Jewelry, clocks, watches and giftware
310 Luggage
311 Men's apparel and accessories
312 Notions
313 Pets and pet supplies
314 Photo
315 Seasonal—summer
316 Seasonal—winter
317 Sporting goods
318 Stationery, office supplies and greeting cards
319 Toys, games and hobbies
320 Women's apparel and accessories

FOOD OPERATIONS

401 Alcoholic beverages
402 Baked goods
403 Canned food items
404 Dairy
405 Delicatessan
406 Fish, fresh
407 Frozen food
408 General mechandise, non-food
409 Grocery items other than canned
410 Health and beauty aids
411 Meat
412 Produce
413 Tobacco products and related items

HARDWARE STORES

501 Building materials—brick, sand, gravel, cement, concrete, etc.
502 Building supplies—windows, doors, screens, fences, hardware, etc.
503 Housewares
504 Lawn and garden supplies
505 Lumber
506 Paints, paint supplies
507 Tools, hard
508 Tools, power

FURNITURE

701 Accessories, non-furniture
702 Bedding, spreads, pillows
703 Bedroom furniture
704 Carpets and floor covering
705 Diningroom furniture
706 Drapery and fabric
707 Lamps
708 Occasional furniture
709 Summer, patio, casual furniture
710 Upholstered furniture

Subpart L—Petroleum and Petroleum Products

§ 150.351 Purpose and scope.

(a) This part prescribes mandatory controls applicable to the sale of crude petroleum and certain petroleum products and leases by gasoline manufacturers or resellers to gasoline retailers of real property to be used in the retailing of gasoline.

(b) To the extent this subpart may be inconsistent with other provisions in this part, the provisions in this subpart govern.

§ 150.352 Definitions.

For the purposes of this subpart

"Actual markup" means the difference between a seller's January 10, 1973, selling price of a product (reflecting any applicable customary price differential) and the seller's cost of that product which he sold on January 10, 1973. If the seller made no sale of that product on January 10, 1973, the selling price is the selling price of the product (reflecting any applicable customary price differential) in the most recent sale before January 10, 1973.

"Base price" means the base price determined pursuant to § 150.359, or in the case of a new product, § 150.360.

"Ceiling price" means the ceiling price determined pursuant to § 150.358.

"Customary price differential" includes a price distinction based on a discount, allowance, add-on, premium, and an extra based on a difference in volume, grade, quality, or location or type of purchaser, or term or condition of sale or delivery.

"Covered product" means a product described in the 1972 edition, Standard Industrial Classification Manual, Industry Code 1311 (except natural gas), 1321, or 2911.

"Domestic crude petroleum" means a crude petroleum produced in any of the several States, or the District of Columbia or from the "outer continental shelf" as defined in 43 USC 1331.

"Manufacturer" means a business entity which produces or refines crude petroleum, or refines liquid hydrocarbons from oil and gas field gases, or recovers liquefied petroleum gases incident to petroleum refining.

"Producer" means a business entity which produces crude petroleum.

"Reseller" means a person who carries on the trade or business of purchasing gasoline, heating oil, or diesel fuel, and without substantially changing its form,

V 38 139 JUL 20 73 XUM

reselling it to other than ultimate consumers or purchasing any other covered product, and without substantially changing its form, reselling it to other resellers or to ultimate consumers.

"Retailer" means a person who carries on the trade or business of purchasing gasoline, heating oil, or diesel fuel and without substantially changing its form, selling it to ultimate consumers.

§ 150.353 Ceiling price rule: Retail sales.

(a) *Applicability.* This section applies to each retail sale of diesel fuel grade No. 2-D as defined in American Society for Testing and Materials (ASTM) D975–71, heating oil grade no. 2 as defined in American Society for Testing and Materials Designation (ASTM) D396–71, or any of the various grades of retail gasoline.

(b) *Rule.* No retailer of gasoline, diesel fuel or heating oil may charge a price for that product which exceeds the ceiling price of the product.

(c) *Posting.* Each retailer of gasoline shall post on each pump that he uses to dispense gasoline, the ceiling price and the minimum research octane rating (as described in the American Society for Testing Materials (ASTM) "Standard Specifications for Gasoline" (D439–70) of the gasoline sold from that pump.

§ 150.354 Ceiling price rule: Crude petroleum.

(a) *Applicability.* This section applies to (1), except as provided in paragraph (c) of this section, the first sale by a producer of domestic crude petroleum, and (2) the first sale by a royalty owner of domestic crude petroleum accepted as a royalty payment pursuant to the terms of a lease between the royalty owner and the producer of that domestic crude petroleum.

(b) *Rule.* (1) *General.* Except as provided in paragraph (b)(2) of this section, no producer of domestic crude petroleum and no royalty owner may charge a price higher than the ceiling price for that domestic crude petroleum.

(2) *Special release rule.* Notwithstanding paragraph (b)(1) of this section, a producer of new crude petroleum from a property which he leases or owns may in the month produced, or in any subsequent month, sell that new crude petroleum without respect to the ceiling price. However, if the amount of crude petroleum produced in any month is less than the base production control level for the property for that month, any new crude petroleum produced from that property during any subsequent month may not be sold pursuant to this subparagraph until an amount of the new crude petroleum equal to the difference between the amount of crude petroleum actually produced from that property during the earlier month and the base production control level for that property for the earlier month has been sold at or below its ceiling price.

(3) *Released crude.* If during a particular month, a producer produces from a property new crude petroleum which could be sold at other than the ceiling price pursuant to paragraph (b)(2) of this section, he may sell without regard to the ceiling price, an amount of the base production control level crude petroleum for that month equal to the new crude petroleum for that property for that month. The maximum price that he may charge for the crude petroleum (other than new crude) in this case shall be computed as follows:

$$P_{max} = P_e + \left(\frac{C_p}{C_{bpcl}} - 1\right)(P_m - P_e)$$

Where:

P_{max} = Maximum price that may be charged for the crude petroleum (other than new crude) purchased from the property ($/bbl);
P_e = Ceiling price of the crude petroleum ($/bbl);
C_{bpcl} = Base production control level for the property (bbl's);
C_p = Total amount of crude petroleum produced from the property during the month (bbl's); and
P_m = Current free market price of the particular quality and grade of crude petroleum ($/bbl).

Application of this formula may be illustrated by the following example:

Example: During September 1973, Firm X produces 8,170 barrels of a single grade of crude petroleum from a particular property. During September 1972, 6,420 barrels of crude petroleum were produced from the same property. The ceiling price for the September 1973 crude petroleum is $4.10 per barrel, and its free market price (i.e. the price X can get on the market for the 1,750 barrels of new crude) is $4.95 per barrel. The maximum price that X may charge for the 6,420 barrels of other than new crude petroleum (i.e. old plus release crude) produced in September 1973 is:

$$P_{max} = \$4.10 + \left(\frac{8170}{6420} - 1\right)(4.95 - \$4.10)$$

$P_{max} = \$4.10 + (.27)$ ($3.85)
$P_{max} = \$4.10 + \$.23$
$P_{max} = \$4.33$/bbl

(4) *Definitions.* For purposes of this subparagraph

"Base production control level" for a particular month means—

(i) For a particular property on which the producer has leased production rights, the total number of barrels of domestic crude petroleum produced in the same month of 1972 from that property.

(ii) For a particular property on which the producer owns production rights, the total number of barrels of domestic crude petroleum produced in the same month of 1972 from that property.

"New crude petroleum" means the total number of barrels of domestic crude petroleum produced from a leased or owned property in a specific month less the base production control level for that property.

(c) *Exchange for imported crude petroleum.* Notwithstanding paragraph (b) of this section, a producer of domestic crude petroleum who negotiates an exchange of domestic crude petroleum for an equal amount of imported crude petroleum to be refined by the producer may, subject to prior approval by the Cost of Living Council, price that domestic crude petroleum at a price not to exceed the price of the imported crude petroleum with which it is exchanged.

§ 150.355 Price rule: Resellers.

(a) *Applicability.* This section applies to each resale of a covered product, other than a retail sale of a product which is subject to § 150.353 and is purchased and resold without substantial change in form.

(b) *Rule.* No reseller of a product to which this section applies may charge a price in excess of the actual cost of the particular inventory of product being resold plus the actual markup the reseller applied to that product on January 10, 1973. If a covered product, imported from outside the several States and the District of Columbia is commingled with other imported product or with the same product produced in one of the several States or the District of Columbia, any increase in the cost of the imported product incurred after May 15, 1973, may be averaged into the cost of the product with which it is commingled. However, in no case may the reseller's profit margin exceed that which prevailed during its base period.

§ 150.356 Price rule: Manufacturers.

(a) *Applicability.* This section applies to each sale of a covered product by the manufacturer of that product other than—

(1) a retail sale which is subject to § 150.353;

(2) the first sale of domestic crude petroleum which is subject to § 150.354;

(3) a resale which is subject to § 150.355; or

(4) a sale of domestic crude petroleum in exchange for an equal dollar value of imported crude petroleum.

(b) *Rule.* Except as otherwise provided in this subparagraph, a manufacturer may not charge a price for a covered product in excess of the base price of that product until the proposed price increase has been prenotified to the Cost of Living Council using the prenotification procedure specified in Subpart H for price category I firms. A manufacturer may, without prenotifying the Council adjust its prices to the extent the adjustment reflects solely an increase in:

(1) The price actually paid for domestic crude petroleum purchased and refined by the manufacturer over the ceiling price of that domestic crude determined in accordance with § 150.358(b); or

(2) The price actually paid for imported crude petroleum (other than crude petroleum received through an equal exchange to which § 150.154 (c) applies) refined by the manufacturer or for an imported covered product over the cost of that crude petroleum or product to that manufacturer on May 15, 1973.

However, in no case may the manufacturer's profit margin exceed that which prevailed during its base period.

§ 150.357 Price rule: Leases.

(a) *Applicability.* This section applies to each lease by a gasoline manufacturer or reseller of a retail gasoline station to a retailer of gasoline.

(b) *Rule.* A gasoline manufacturer who leases real property to a gasoline retailer for use in retailing gasoline may not—

(1) increase, offer to increase, or give notice of intent to increase the rent for that real property to an amount in excess of the base rent established under § 150.359(b);

(2) increase the retailer's obligation to sell covered products to a level above that which prevailed for that retailer during the month of May, 1973; or

(3) impose any operating requirements on the retailer which would be inconsistent with the Economic Stabilization Program such as increasing the retailer's hours of operation or the volume of any covered product which he must sell.

§ 150.358 Ceiling price determination.

(a) *Retail diesel fuel, heating oil and gasoline.* The ceiling price of diesel fuel, heating oil, or gasoline for any particular location at which it is sold is the actual price paid by the seller for the product sold at that location on August 12, 1973, plus the actual markup applied by the seller at that location on January 10, 1973 to the cost of the same product.

(b) *Domestic crude petroleum.* The ceiling price for a particular grade of domestic crude petroleum in a particular field is the highest posted price at 7:00 a.m., e.d.t., May 15, 1973 for that grade of crude petroleum at that field, or if there are no posted prices in that field, the related price for that grade of crude petroleum which is most similar in kind and quality.

§ 150.359 Base price determination.

(a) *Manufacturers.* The base price of a covered product being sold by the manufacturer of that product is the price the manufacturer charged for that product (reflecting any applicable customary price differential) on May 15, 1973. If the manufacturer made no sale of the product on May 15, 1973, the base price is the price he charged for that product in the most recent sale before that date.

(b) *Retail gasoline station rent.* The base rent with respect to a lease of real property by a gasoline manufacturer or reseller to a gasoline retailer for use in the retailing of gasoline is the rent charged for that station for the month of May, 1973.

§ 150.360 Base price—new product.

(a) The base price of a new product is:

(1) In the case of the first sale of domestic crude petroleum, the current free market price of that particular quality and grade of crude petroleum;

(2) In the case of a covered product (other than the first sale of domestic crude petroleum) being offered by the manufacturer of that product, the median price charged for the same or most nearly comparable product (reflecting any applicable customary price differentials) on May 15, 1973, by other manufacturers selling the same or most nearly comparable product in the same marketing area; and

(3) In all other cases, the median price currently being charged for the same or most nearly comparable product (reflecting any applicable customary price differentials) by other persons selling the same or most nearly comparable product in the same marketing area.

(b) *Definitions.* For purposes of this section

"Median price" means the highest price at which at least 50 percent of the product was sold.

"New product" means a product which the seller did not sell in the same or substantially similar form in the one year period immediately preceding the first date on which he offers it for sale or for lease and if it is substantially different in purpose, function and quality or technology or its use or service effects a substantially different result from any other property which the offering seller currently sells or sold at any time during the one year period immediately preceding the first date on which he offers it for sale.

§ 150.361 Price information and certification.

(a) *Price information.* Each seller of covered products shall maintain records of its base prices and ceiling prices and shall make available upon request by a customer, the base price or ceiling price of any item being offered for sale to that customer.

(b) *Certification.* Each seller of a covered product subject to this subpart shall upon request certify in the bill of sale that the sale was made at a price no higher than authorized by this subpart.

§ 150.362 Reports and Recordkeeping.

(a) *Reports.* (1) *Producers.* Each producer of domestic crude petroleum which derives $50 million or more in annual sales or revenues from sales subject to § 150.354 shall prepare and file with the Cost of Living Council, quarterly reports on prices, costs, profits, and production levels on a form prescribed by the Council.

(2) *Manufacturers.* Each manufacturer of covered products and each retailer or reseller which derives $50 million or more in annual sales or revenues from the retailing or reselling of covered products shall prepare and file with the Cost of Living Council, monthly and quarterly reports on price movements, costs and other related information on forms prescribed by the Council.

(b) *Recordkeeping.* Each retailer or reseller of covered products which derives less than $50 million but more than $1 million in annual sales of revenues from the retailing or reselling of those products shall prepare and maintain at its principal place of business, monthly and quarterly reports on price movements, costs and other related information on forms prescribed by the Cost of Living Council.

Subpart M—Insurance

§ 150.401 Applicability.

This subpart applies to each insurance rate increase to be placed into effect after August 12, 1973, which would increase the rate above the level in effect on that date, whether or not the increase is approved by a regulatory agency.

§ 150.402 Definitions.

As used in this subpart—

"Covered earned premium" means the total premium volume earned for all lines of insurance that are not exempt by § 150.53(b).

"Insurer" means a firm which by contract or for a stipulated consideration undertakes to compensate another for loss on a specified subject and is (1) subject to the regulatory jurisdiction of a State or the District of Columbia (including a person engaged in providing non-profit medical or hospital services under such a regulatory jurisdiction) or (2) undertaking to provide medical or hospital services for a capitation fee.

"Prenotifier" means a health insurer that had $50 million or more of total covered earned premium or a property-liability insurer that had $150 million or more of total covered earned premium during the year preceding the effective date of the rate increase it is proposing.

"Rate" means an amount to be charged, charged or paid for insurance, calculated in accordance with a rate making practice or formula, or developed under a classification system.

"Rate increase" includes a restriction in coverage, an increase in a deductible level, or any similar diminuation of insurance coverage without a corresponding reduction in the rate.

"Rating bureau" means a person who makes, files, or submits insurance rates applicable to, on behalf of, or advisory for more than one insurer.

"State Regulatory Agency" means any commission, board or other legal body that has jurisdiction over rates or practices of insurers in a State or the District of Columbia.

§ 150.403 Criteria.

(a) Each insurance rate increase put into effect by any insurer or rating bureau (regardless of its total premium volume earned) after August 12, 1973, which would increase the rate above the level in effect on that date must be consistent with the following criteria:

(1) Factors that reflect experience incurred on all actual costs may be used in the customary manner in the rate-making process.

(2) Factors in the rate-making process or in the actual determination of the final premium that relate to or reflect changes in claim frequency, occurrence or utilization, changes in the classification of risks under class plans already in use or territory relativites, or similar changed conditions of risk may be used in accordance with customary practice provided such factors are supported statistically.

V 38 I 139 JUL 20 73 XUM

(3) Factors in the rate-making process reflecting or anticipating cost or price increases (i.e., trend factors to the extent they reflect or project inflation) may be used subject to the following restrictions:

(i) For any portion of the period of projection through August 14, 1971, the normal, full factors may be used, provided they are statistically supported by the latest available data in accordance with the insurer's customary practice.

(ii) For any portion of the period of projection after August 14, 1971, through November 13, 1971, a zero rate of inflation must be used.

(iii) For any portion of the period of projection after November 13, 1971, to January 11, 1973, the inflationary trend factor may not exceed five-eighths (5/8) of the factor otherwise justified at the time of determining the rate increase.

(iv) For any portion of the period of projection after January 11, 1973, to August 12, 1973, the inflationary trend factor may not exceed six-eighths (6/8) of the factor otherwise justified at the time of determining the rate increase.

(v) For any portion of the period of projection after August 12, 1973, to the end of the projection period, the inflationary trend factor may not exceed seven-eighths (7/8) of the factor otherwise justified at the time of determining the rate increase.

(vi) Notwithstanding subdivisions (iii), (iv), and (v) of this subparagraph, if the annualized inflationary trend based upon the latest available data is equal to or less than five-eighths (5/8) of the annualized inflationary trend based on experience and customary practices before August 15, 1971, that factor based upon the latest available data may be used for the period of projection from November 14, 1971, to the end of the projection period.

(4) Factors for claim settlement or loss adjustment expenses, contingencies which are separate, distinct and in addition to a profit factor, state taxes, licenses and fees, and commissions payable to licensed agents and brokers may be loaded on a percentage of premium or any other customary basis of actual incurred costs in accordance with customary practice. Any increases in the percentage loading for these expense items must be justified.

(5) Factors for administrative expenses other than those specified in paragraph (a)(4) of this section when loaded as a percentage of premium must be limited to a maximum of a 5 percent increase in the dollar amount represented by the loading that was used in the prior rate. If administrative expenses are loaded on an actual cost basis, no increase will be permitted unless statistically supported.

(6) Any profit portion of premium, whether loaded as a percentage of premium of a dollar amount per contract, must be limited to a 2½ percent increase in the dollar amount represented by the loading that was used in the prior rate. For purposes of this section, any portion of premium which is classified as a contribution to reserve, contingency reserve or similar element where a profit, as such, is not a part of the rate-making process, shall be treated as the profit provision.

(b) For the purpose of paragraph (a)(3) of this section, the period of projection covers the entire length of time from the underlying experience base to the future date to which loss or cost levels are being adjusted, regardless of how such period is customarily measured.

§ 150.404 Change in Rate Making Formula.

No insurer or rating bureau may change a rule, rating formula, formula use or application, data base, rate making procedure or technique, or other element in the rate making process unless:

(a) the change will result in an overall premium level reduction;

(b) the change is necessitated by "no-fault" legislation enacted in a particular jurisdiction; or

(c) written approval has been granted by the Cost of Living Council.

§ 150.405 Prenotification.

(a) Each prenotifier, or rating bureau acting for a prenotifier, shall file a written notice with the Cost of Living Council and the appropriate State regulatory agency of each State to which the rate increase is applicable (or the State of domicile or delivery of the master policy for experience rated or group contracts applicable to a multi-State risk) of each proposed rate increase in excess of 5.0 percent which affects $1 million or more of aggregate annualized premiums under the existing rate. Any subsequent proposed rate increase in the same calendar year for the same class of purchaser shall be prenotified regardless of the size of such rate increase. Each person submitting a notice under this section shall certify to the Cost of Living Council and the State regulatory authority that the proposed increase conforms to §§ 150.403 and 150.404. The certification must be signed by the chief executive officer of the prenotifier or by an individual to whom he has delegated that authority. A copy of the delegation must be filed with the Cost of Living Council.

(b) In any State in which rates are established by a State regulatory agency, that agency may submit a prenotification and certify to the Cost of Living Council that the rate increases are in compliance with §§ 150.403 and 150.404. An insurer using those State rates needs only to notify the Cost of Living Council and report quarterly that it is using those rates without submitting all of the supporting data.

(c) Any increase in excess of 5.0 percent which is to be effective in more than 25 jurisdictions may be prenotified directly to the Cost of Living Council in lieu of the procedure set forth in paragraph (a) of this section.

§ 150.406 Certification by State Regulatory Agency.

A State regulatory agency may agree, in writing, with the Cost of Living Council to certify that the rate increases of which it has received prenotification under § 150.405 are or are not in compliance with §§ 150.403 and 150.404. Each agency entering into such agreement with the Cost of Living Council shall furnish its certification to the Council (with a copy to the insurer) within 20 days after it receives the prenotification. A certification by an agency under this paragraph is prima facie evidence that the proposed rate increase is or is not in compliance with §§ 150.403 and 150.404.

§ 150.407 Self-Certification.

Whenever a prenotified, or a rating bureau acting for a prenotifier, cannot obtain a certification of a rate increase from a State regulatory agency in accordance with § 150.406 because:

(a) The State concerned has not agreed to furnish certifications under that paragraph; or

(b) The State regulatory agency did not act upon the filing within the period required under that paragraph;

The prenotifier or rating bureau shall immediately notify the Cost of Living Council that it cannot obtain the certification and may request the Council to act upon the certification filed with it under § 150.405.

§ 150.408 Cost of Living Council Actions.

(a) With respect to any rate increase certified by a State regulatory agency under § 150.405(b) or § 150.406, or self-certified by a prenotifier or a rating bureau acting for a prenotifier under § 150.407, the Cost of Living Council may, within 30 days after the State regulatory agency receives the prenotification take one or more of the following actions:

(1) Require the insurer to furnish additional information regarding the increase.

(2) Delay the effective date of the increase pending further Council action.

(3) Suspend all or part of the effect of the increase, pending further action by the Cost of Living Council or by the regulatory agency.

(4) Limit, refuse, rescind, reduce, or modify the increase.

(b) If the Cost of Living Council does not act upon a request under this paragraph before the end of the thirtieth day as described above, the increase may go into effect. However, in any case in which that period would otherwise end on a Saturday, Sunday, or Federal Holiday, it will end at the close of the next succeeding workday. A prenotification to a State regulatory agency which has been certified as being not in compliance with §§ 150.403 and 150.404 may not be placed into effect unless the written approval of the Cost of Living Council has been granted.

§ 150.409 Rates for replacement or revised insurance coverages.

The rate for a form of insurance coverage replacing or revising another form of insurance coverage previously written by the same insurer is subject to the same requirements as an increase in the rate for the previous insurance coverage would have been subject.

§ 150.410 Insurance rates subject to State laws.

Approval of an insurance rate increase under this section does not authorize the use of an insurance rate in contravention of any applicable State law that is not inconsistent with this section.

§ 150.411 Investigation and review of rates.

The Cost of Living Council acting with and through the appropriate State regulatory agency may require an insurer or rating bureau acting for an insurer to file with the appropriate State regulatory agency the latest available rate review for a particular class of business for which rates have not been revised in the last four quarters. The Head of the State regulatory agency shall determine whether the rate level filed is or is not consistent with the goals of the Economic Stabilization Program and shall so inform the Cost of Living Council.

§ 150.412 Reporting.

(a) Each health insurer that had $25 million or more of total covered earned premium and each property-liability insurer that had $50 million or more of total covered earned premium during the calendar year preceding any rate increase shall file a quarterly report with the Cost of Living Council with a copy to the appropriate State regulatory agency at the time it normally releases its quarterly reports, but in any event not later than 45 days after the end of the quarter, of each rate increase effected during the first quarter of the year ending the preceding quarter that affected $250,000 or more of aggregated annualized premiums under the pre-existing rate. However, with respect to a rate increase that has been prenotified the report need not include the supporting data required by § 150.414, but must list the rate increase, the name of the prenotifier or rating bureau, date of prenotification, line of insurance, State or States affected, and aggregate annualized premium affected. In addition, each report shall also include the latest available premium and claims or loss experience in the latest available rate level format for those lines of business or classes of coverage with an annualized premium volume of $1 million or more for which rates were not revised during the last four quarters.

(b) Each health insurer which had $25 million or more of total covered earned premium during the calendar year preceding any rate increase shall file with the Cost of Living Council a monthly notice not more than 30 days after the end of the month of all rate level increases and decreases effected during that month that affected $250,000 or more of aggregate annualized premiums. This notice need not contain the data required under §150.414, but should include a specification of the type of health insurance coverage, premium volume affected, average percentage change and dollar effect of that change. At the option of the health insurer such notice may also include information on those contracts with anniversary dates during that month for which no change in rate level was made.

§ 150.413 Federal Employees Health Benefits Law.

The Cost of Living Council designates the U.S. Civil Service Commission to act as certifying agent for contracts of insurers under the Federal Employees Health Benefits Law. Each prenotifier that proposes to increase a rate under such a contract shall file notice thereof with the Cost of Living Council and the Civil Service Commission. Each other insurer that proposes to increase a rate under such a contract shall file notice thereof with the Civil Service Commission. The Civil Service Commission shall, with respect to each proposed increase, certify to the Cost of Living Council that the increase is or is not in compliance with §150.403 and that certification is prima facie evidence of compliance or noncompliance. A rate certified by the Civil Service Commission as being in compliance may go into effect on any date, specified by that Commission, that is at least 10 days after the date of the certification, and at least 30 days after the date of the prenotification.

§ 150.414 Data requirements.

Each prenotification filed under §150.405 and each quarterly report made under §150.112 shall include:

(a) The specifications of the coverages to which the rate increase is applicable and of the person or persons by which the rate is to be used;

(b) The average percentage increase by line of coverage and by State;

(c) The annualized inflationary trend factor or factors used with specification of the applicability of the factors if more than one are involved, including pre-Phase I, Phase I, Phase II, Phase III and Phase IV applicability separately; and

(d) Any other data specified by the Cost of Living Council on a form to be prescribed by the Council.

§ 150.415 Monitoring by health insurers.

Each health insurer is authorized and encouraged to monitor and report to health care providers (both institutional and noninstitutional) any price increases by those providers that involved significant deviation from the provisions of this part that apply to those providers and any increases in use of services or benefits that significantly exceeds its experience with that provider. Upon the receipt of such a report, the provider and the insurer shall make a good faith effort to determine whether any violation of this part has occurred and to take any steps to remedy such violation.

Subpart P—Mass Transportation Systems

§ 150.551 Purpose and Scope.

This Subpart prescribes mandatory controls applicable to a firm which operates or controls a mass transportation system, the fares of which are not otherwise regulated.

§ 150.552 Definition.

As used in this Subpart—

"Mass transportation system" means a public benefit corporation, with annual sales or revenues in excess of $10 million, which is charged by law or contract with the responsibility of operating a mass transportation facility or facilities which:

(a) Serves a Standard Metropolitan Statistical Area (SMSA); and

(b) Constitutes the sole or a principal means of public transporation for that area.

A facility or facilities includes a rapid rail transit, subway, elevated, bus system but does not include school buses or other conveyances used for sight-seeing or chartered for private use.

§ 150.553 General rule.

A public benefit corporation (within the meaning of Section 215 of the Economic Stabilization Act Amendments of 1971 (Public Law 92-210)), charged by law or contract with the responsibility to operate a mass transportation facility or facilities, the fares of which are not otherwise regulated, may not charge a price above base price until the proposed price increase has been prenotified to the Cost of Living Council using the prenotification procedure specified in Subpart H for price category I firms.

2. Amend Part 130 in Subpart B by adding a new § 130.26 to read as follows:

§ 130.26 Imposition of prenotification requirement.

(a) *General.* Subject to the provisions of this section, the Council may require, with respect to a proposed or scheduled pay adjustment applicable to or affecting a specific firm or appropriate employee unit, that such pay adjustment shall not be put into effect until 30 days after prenotification of such pay adjustment has been received by the Council.

(b) *Applicability.* Prenotification pursuant to the provisions of paragraph (a) of this section may be required if the Council has reason to believe that—

(1) A proposed or scheduled pay adjustment, whether pursuant to a collective bargaining agreement or pay practice, may be in excess of the general wage and salary standard set forth in § 130.12;

(2) Such pay adjustment, if put into effect, may unduly influence the collective bargaining process in a destabilizing manner or may affect pay adjustments applicable to or affecting other firms or appropriate employee units; and

(3) Such pay adjustment appears to be unreasonably inconsistent with the standards and goals of the Economic Stabilization Program.

(c) *Control year.* A prenotification submitted pursuant to the provisions of paragraph (a) of this section shall include all pay adjustments put into effect, scheduled, or proposed to be put into effect with respect to the applicable control year, determined pursuant to § 201.52 of this title.

(d) *Service.* An employer submitting a prenotification under the provisions of paragraph (a) of this section shall at the

V 38 I 139 JUL 20 73 XUM

same time serve a copy of each such submission on the collective bargaining agent, if any, for the affected employee unit.

(e) *Receipt by Council.* A prenotification submitted pursuant to the provisions of paragraph (a) of this section shall be addressed to Office of Wage Stabilization, Cost of Living Council, Washington, D.C. 20508. Such prenotification shall not be considered submitted until actually received at such address.

(f) *Content of prenotification*—(1) *General.* A prenotification submitted pursuant to the provisions of this section shall be submitted by the employer on the Council's Form PB–3, pursuant to instructions issued by the Council. In addition, such prenotification shall include the supplemental information described in paragraph (f)(2) of this section. The Council may, under the circumstances of a specific case, waive one or more of the foregoing requirements in whole or in part, or may require the submission of additional information.

(2) *Supplemental information*—(i) *Narrative description of all changes with potential economic impact—(a) Wages, salaries and benefits.* Specify both the old and new wage and salary and benefit levels, as well as the extent of such changes within the following categories:

(*1*) *Straight-time hourly rates.* Straight-time hourly rates, including, but not limited to:

(*i*) Pattern of base pay increase, e.g., merit increases on a variable timing basis; across the board occupational differences, etc. Describe increases in terms of percent and cents per hour increases;

(*ii*) Basis of cost of living adjustments, limitations on adjustments, formula for adjustments, and total as well as time-weighted estimates of these adjustments;

(*iii*) Individual occupational rate changes resulting from consideration of factors such as rate inequities, job evaluation plan changes, skill or craft rate adjustments, etc.;

(*iv*) Changes affecting rates of pay or costs under production incentive programs;

(*v*) Progression program increase changes such as accelerated step changes or accelerated automatic changes between job levels, etc.; and

(*vi*) Reduction in scheduled hours worked which affects the base rate.

(*2*) *Included benefits.* Included benefits (with changes expressed in cents per hour), including, but not limited to:

(*i*) Premium pay for overtime, shift work, weekend and holiday work, special schedules, etc.;

(*ii*) Vacation and holiday provisions such as eligibility requirements, compensation provided, amounts of time off provided, etc.;

(*iii*) Pay for time off such as sick leave, bereavement, military, jury duty, etc.;

(*iv*) Severance pay, supplemental unemployment benefit plans, or other pay for terminated employees, etc.;

(*v*) Pay-as-you-go pension plans;

(*vi*) Paid rest, wash-up and meal time; and

(*vii*) Major subsidized training and educational programs.

(*3*) *Qualified benefits.* Qualified benefits, including, but not limited to:

(*i*) Pension plan eligibility requirements, benefit level, vesting provisions, survivor benefits, contributory rates, etc.;

(*ii*) Health insurance eligibility requirements, dependent coverage, type and level of benefits, contributory rates, etc.;

(*iii*) Life insurance eligibility requirements, type and levels of benefits, contributory rates, etc.;

(*iv*) Disability insurance eligibility requirements, type, level and duration of benefits, contributory rates, etc.;

(*v*) Sickness and accident benefits; and

(*vi*) Changes in other qualified benefit plans such as employee savings plans, etc.

(*4*) *Other changes.* Other changes with potential significant economic impact, including, but not limited to:

(*i*) Occupational lines of demarcation;

(*ii*) Crew size;

(*iii*) Apprentice-journeyman ratios;

(*iv*) Temporary assignment rules;

(*v*) Overtime scheduling requirements;

(*vi*) Other work rule or pay practice changes; and

(*vii*) Geographic adjustments or allowances.

(*b*) *Differential treatment.* Where specific employee groups within an appropriate employee unit are treated differentially, this should be noted and the reasons given. Provide both the old and new levels as well as the extent of all changes in straight-time hourly rates, included benefits, qualified benefits, and other changes with potential significant economic impact, for each employee group treated differently. An employee group is a sub-group of an appropriate employee unit and may be determined by skill, occupation, job grade or level, geographic location, or organization, etc.

(ii) *Information on changes in pay rates*—

(*a*) For represented employees not covered by an established merit pay plan, submit a copy of the collective bargaining agreement covering the changes in pay rates, and a copy of the prior succeeded agreement, if any.

(*b*) For non-represented employees not covered by an established merit pay plan, submit appropriate documentation in lieu of a collective bargaining agreement.

(*c*) For employees covered by an established merit pay plan, submit a description of the plans, practices and controls used to govern wage and salary increases.

(*d*) For purposes of (*a*) and (*b*) of this subdivision, include sufficient information to describe any change in rates of pay except that where rate information is treated as confidential and regarded as proprietary, data which reflect the average changes in pay may be submitted.

(*e*) If pay adjustments are to be made differentially across groups, submit additional information indicating the amounts and reason for such expenditures and expressing amounts in both cents per hour and percentages.

3. Amend Part 130 in Subpart D by adding a new paragraph (d) to Section 130.34 to read as follows:

§ 130.34 Certain pay adjustments.

* * * * *

(d) *Pay adjustments in the lumber industry*—(1) *General.* Pay adjustments affecting employees engaged on a regular and continuing basis in the operation of an establishment in the lumber industry.

(2) *Definition.* For purposes of this paragraph, the term "establishment in the lumber industry" means an establishment classified in the Standard Industrial Classification Manual, 1972 edition, under Industrial Code 2411 (Logging Camps and Logging Contractors); 2421 (Sawmills and Planing Mills, General); 2426 (Hardwood Dimension and Flooring Mills); 2429 (Special Product Sawmills); 2435 (Hardwood Veneer and Plywood); 2436 (Softwood Veneer and Plywood); 2439 (Structural Wood Members, Not Elsewhere Classified); or 2492 (Particleboard).

REPORT UNDER FEDERAL IMPOUNDMENT AND INFORMATION ACT

No. 139—Pt. III——1

V 38 - 139
JUL 20 73
XUM

OFFICE OF MANAGEMENT AND BUDGET

REPORT UNDER FEDERAL IMPOUNDMENT AND INFORMATION ACT

JULY 13, 1973.

Honorable Spiro T. Agnew,
President of the Senate,
Washington, D.C. 20510.

DEAR MR. PRESIDENT: The enclosed report is submitted pursuant to the Federal Impoundment and Information Act, as amended. In accordance with that Act, the report is being transmitted to the Congress and to the Comptroller General of the United States, and will be published in the FEDERAL REGISTER.

Sincerely,

ROY L. ASH,
Director.

BUDGETARY RESERVES AS OF JUNE 30, 1973

Introduction. The Director of the Office of Management and Budget, under authority delegated by the President, is required to apportion funds provided by the Congress. The apportionments are required under the Antideficiency Act (31 U.S.C. 665) and generally are for the current fiscal year. Under the law, such apportionments limit the amounts which may be obligated during specific periods.

The Antideficiency Act authorizes the withholding of funds from apportionment to provide for contingencies; or to effect savings made possible by or through changes in requirements, greater efficiency of operations, or other developments subsequent to the date on which the funds were made available. There are also occasions when specific provisions of law provide that the funds should be available for use over periods longer than one year; in such cases, they generally are not fully apportioned in the current year, and the unapportioned part is withheld, to be released later for use in the next year or years. Thus, some amounts are withheld from apportionment, either temporarily or for longer periods. In these cases, the funds not apportioned are said to be held or placed "in reserve." This practice is one of long standing and has been exercised by all recent administrations as a customary part of financial management.

On occasion the Congress has explicitly required that an amount be placed in reserve pending an administrative determination of need (e.g., the 1973 Agriculture-Environmental and Consumer Protection Appropriation Act—Public Law 92-399). Most reserves, however, are established upon the initiative of the Executive Branch based on an operational knowledge of the status of the specific projects or activities. For example, when the required amount of work can be accomplished at less cost than had been anticipated when the appropriation was made, a reserve assures that savings can be realized and, if appropriate, returned to the Treasury. In other cases, specific apportionments sometimes await (1) development by the affected agencies of approved plans and specifications, (2) completion of studies for the effective use of the funds, including necessary coordination with the other Federal and non-Federal parties that might be involved, (3) establishment of a necessary organization and designation of accountable officers to manage the programs, or (4) the arrival of certain contingencies under which the funds must by statute be made available (e.g., certain direct Federal credit aids when private sector loans are not available).

From time to time addition reserves are established for such reasons as the necessity to conform to the requirements of other laws. An example is the executive's responsibility to stay within the statutory limitation on the outstanding public debt.

Since the report as of April 14, 1973, the total of reserves has been reduced by over $700 million. Of the total released, over 80 percent was in response to the development or completion by the responsible agencies of approved plans, designs, and specifications, to the effect of court actions, disasters, and contingencies. The remainder was applied to costs of pay raises or resulted from re-estimates of obligations, balances, and receipts. In addition to the over $700 million released for use prior to the end of fiscal year 1973, approximately $2.4 billion held in reserve during fiscal year 1973 has subsequently been released and made available for obligation in fiscal year 1974, which began July 1, 1973.

The total of reserves as of June 30, 1973 is 3.1% of the total estimated budget outlays for fiscal year 1973. The comparable percentage at the end of fiscal years 1959 through 1961 ranged from 7.5% to 8.7%. At the end of fiscal year 1967, it stood at 6.7%. At the end of 1972, it was 4.6%. But a range in the neigborhood of 6% has been normal over most of the last decade.

Report required by law. This report is submitted in fulfillment of the requirements of the "Federal Impoundment and Information Act," as amended, which provides for a report of "impoundments," and certain other information pertaining thereto. This report lists the budgetary reserves which were in effect as of June 30, 1973.

The Antideficiency Act requires that all apportionments be reviewed at least quarterly, and that reapportionments be made or reserves be established modified, or released as may be necessary to further the effective use of the funds concerned. Thus, in answer to item Number 5 of the Federal Impoundment and Information Act, the period of time during which funds are to be in reserve is dependent in all cases upon the results of such later review.

The remainder of this report lists, by agency, all accounts for which some funds are reserved. An asterisk (*) identifies those accounts added to the listing since the last report (i.e., such accounts contained no reserves on April 14, 1973). Reserve entries which have been superseded (i.e., increased, decreased, or elimiated) since January 29, 1973, by a subsequent apportionment action and are no longer in effect appear in parenetheses. Entries *not* in parentheses indicate the most current apportionment and reserve action. The listing:

(a) Presents the amount currently apportioned for the fiscal year 1973;

(b) Presents the amount in reserve as of June 30, 1973;

(c) States whether the amount reserved will be legally available for obligation in fiscal year 1974;

(d) Indicates the date of the reserve action and the effective date of the current reserve;

(e) Presents a code which relates to the reason for the current reserve action, without necessarily exhausting all possible reasons.

(f) Presents a code which indicates the estimated fiscal, economic, and budgetary impact of the current reserve.

Codes used in the remainder of this report relating to the reasons for and estimated fiscal, economic, and budgetary impact of the reserve actions are described on the following pages. In some cases, the standard explanations given have been modified slightly from those used in previous reports. Such modifications have been made for the sake of clarity. The codes and footnotes listed for each entry relate to conditions which were in effect as of the date of the reserve action.

REASON FOR RESERVE ACTION

Code

1 "To provide for contingencies" (31 USC 665(c)(2)).

2 "To effect savings whenever savings are made possible by or through changes in requirements, greater efficiency of operations, or other developments subsequent to the date on which such (funds were) made available" (31 USC 655(e)(2)).

3 To reduce the amount of or to avoid requesting a deficiency or supplemental appropriation in cases of appropriations available for obligation for only the current year (31 USC 665(c)(1)). This explanation includes amount anticipated to be used to absorb or partially absorb the costs of recent pay raises grant pursuant to law.

4 "To achieve the most effective and economical use" of funds available for periods beyond the current fiscal year (31 USC 665(c)(1)). This explanation includes reserves established to carry out the Congressional intent that funds provided for periods greater than one year should be so apportioned that they will be available for the future periods.

5 Temporary deferral pending the establishment of administrative machinery (not yet in place) or the obtaining of sufficient information (not yet available) properly to apportion the funds and to insure that the funds will be used in the most effective and economical" manner (31 USC 665(c)(1)). This explanation includes reserves for which apportionment awaits the development by the agency of approved plans, designs, specifications.

6 The President's constitutional duty to "take care that the laws be faithfully executed" (U.S. Constitution, Article II, Section 3):

6a—Obligation at this time of amount in reserve is likely to contravene law regarding the environment; or the amount in reserve is being held pending further study to evaluate the environmental impact of the affected projects (activities) as required by law.

6b—Existing tax laws and the statutory limitation on the national debt are not expected to provide sufficient funds in the current and ensuing fiscal years to cover the total of all outlays in these years contemplated by the individual acts of Congress.

6c—Action taken consistent with the President's responsibility to help maintain economic stability without undue price and cost increases.

6d—Amount apportioned reflects the level of obligations implicity approved by the Congress in its review of and action on the appropriation required to liquidate obligations under existing contract authority.

6e—Other. See footnote for each item so coded.

7 The President's constitutional authority and responsibility as Commander in Chief (U.S. Constitution, Article II, Section 2).

8 The President's constitutional authority and responsibility for the conduct of foreign affairs (U.S. Constitution, Article II, Section 2).

9. Other. See footnote for each item so coded.

10. Not applicable or no reason required. (In most cases where a previous reserve has been apportioned in its entirety.)

ESTIMATED FISCAL, ECONOMIC, AND BUDGETARY EFFECT

I. Same effect as set forth in the most recently submitted budget document, of which this item is an integral part.

II. The change from the previous reserve is expected to contract the budgetary impact of this program and contribute to the reduction of inflationary pressures.

III. The release or reduction of the previous reserve will facilitate use and expenditure of the available funds consistent with current program needs and economic conditions in the area affected.

IV. Other. See footnote for each item so coded.

V. Not applicable or no explanation required. (In most cases where a previous reserve has been apportioned in its entirety.)

Department of Treasury	24	24	22
Atomic Energy Commission	316	316	118
Environmental Protection Agency	2	2	-
General Services Administration	261	261	262
National Aeronautics and Space Administration	33	30	2
Veterans Administration	71	69	44
Other Independent Agencies:			
National Science Foundation	62	62	62
Small Business Administration	51	51	50
All other	52	52	51
Total	8,723	8,456	7,732

*Less than $500 thousand.

BUDGETARY RESERVES

(Dollars in thousands)

As of June 30, 1973

GENERAL NOTES

Amounts in parenthesis () indicate actions superseded by later apportionment actions.
An asterisk * indicates an account added to the list since the last report.

Amount apportioned	Amount in reserve	Available beyond FY 1973?	Date of reserve action	Effective date of reserve	Reason for reserve action (see code)	Estimated fiscal, economic, & budgetary effect (see code)

V 38 139 JUL 20 73 XUM

1. Funds have not been apportioned while awaiting the completion of negotiations with the Government of Israel.

2. P.L. 92-571, "Making further continuing appropriations for fiscal year 1973, and for other purposes," includes a limitation on obligations of $5 million. The reserve will remain in effect until Congress completes final action on its annual limitation on the Foundation's activities.

3. P.L. 92-399, "Agriculture-Environmental and Consumer Protection Appropriation Act, 1973" requires the creation of certain reserves pending such circumstances as the provision of matching funds by the States, the determination of qualified and necessary projects, the determination of the availability of qualified personnel, and the determination of need.

4. The Census of Agriculture has been postponed until 1977 to coincide with the economic censuses.

5. Fees deposited to the Interstate land sales account are used only to the extent funds are not sufficient in the appropriation for Salaries and expenses, Housing Production and Mortgage Credit Programs.

6. The Department of the Interior has no present plans for the use of these funds which are available only for the development of water wells on public lands.

7. No improvements are currently necessary. (See footnote [8].)

8. 66 Stat. 754 requires that certain miscellaneous revenues be deposited in a special fund to provide for the replacement of the project work and to defray annual operating and maintenance expenses when necessary.

9. Construction is deferred pending evaluation of the alternatives of lease versus direct construction.

10. P.L. 92-544, "Department of State Appropriation Act, 1973" provides these funds for the activities of a commission. However, P.L. 92-394, "United States Information and Educational Exchange Act of 1948, Amended" authorizes funds in this account to be spent only on grants.

11. 45 U.S.C. 361 authorizes the Railroad Retirement Board to use funds from the Unemployment Trust Fund of 0.25% of the taxable payroll of railroad workers for the administrative expenses of operating the railroad unemployment insurance fund. The amount apportioned represents the actual operating requirements. If the remainder of this formula-based authorization (currently in reserve) is not needed, it will be returned to the Unemployment Trust Fund.

12. The Commission is not yet in operation.

13. The level of obligations for the account will be approximately $1.5 million above the budget estimate for fiscal year 1973 due to a re-estimate of actual commitments incurred prior to the beginning of the eighteen-month housing moratorium.

14. The level of obligations for the Cooperative forest fire control program will be approximately $4 million above the budget estimate for fiscal year 1973 in order to maintain equitable funding to the States.

15. The level of obligations for this account will be approximately $25 million above the budget estimate for fiscal year 1973 in order to take emergency actions designed to diminish flood damage in the Great Lakes Basin.

16. The level of obligations in this account will be approximately $22 million above the budget estimate for fiscal year 1973 due to a final accounting of actual commitments incurred prior to the beginning of the eighteen month housing moratorium.

17. The level of obligations in this account will be approximately $2.25 million above the budget estimate for fiscal year 1973 in order to provide the Federal share of funds required to make the necessary alterations at the site of a recent shipping accident.

18. Funds in reserve in this account were released to permit compliance with a court order requiring all unobligated balances of the Food Stamp program to be obligated by June 30, 1973. The purpose of the court order was to prevent the lapse of funds while subject to litigation.

19. The level of obligations in this account will be aproximately $16 million above the budget estimate for fiscal year 1973 in order to provide maximum flexibility in the negotiation of certain contracts.

20. The level of obligations in this account will be approximately $84.6 million above the budget estimate for fiscal year 1973 in order to take emergency actions to diminish and repair flood damage in Great Lakes and Mississippi River Basins.

21. The level of obligations in this account will be $156 thousand above the budget estimate for 1973 due to a final accounting of actual commitments made prior to the beginning of the 18-month housing moratorium.

22. The level of obligations in this account will be approximately $20 million above the budget estimate for fiscal year 1973 in order to provide emergency assistance necessitated by recent natural disasters.

23. The revenues for this account will be approximately $100 million lower than the budget estimate for fiscal year 1973.

Minimum Wages for Federally Assisted Construction

Modifications, and Supersedeas Decisions to Area Wage Determination Decisions

No. 139—Pt. IV——1

V 38-139 JUL 20 73 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Modifications and Supersedeas Decisions to Area Wage Determination Decisions

General wage determination decisions.[1] Area Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

Area Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to area wage determination decisions. Modifications and Supersedeas Decisions to Area Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original Area Wage Determination Decision.

Modifications to general[1] wage determination decisions. Modifications to General Wage Determination Decisions for the following States (the numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State):

Louisiana:
AP–736 ---------- May 25, 1973
Montana:
AP–910 ---------- June 22, 1973
AP–914; AP–915; AP–916; AP–917 ---------- June 29, 1973
Oklahoma:
AP–364 ---------- December 8, 1972
AP–731 ---------- May 11, 1973
Pennsylvania:
AP–490 ---------- March 9, 1973
AP–818 ---------- May 18, 1973
AP–835 ---------- May 25, 1973
Tennessee:
AP–193 ---------- May 25, 1973
Texas:
AP–346 ---------- September 29, 1972
AP–721; AP–723; AP–725; AP–726 ---------- April 27, 1973
Utah:
AP–254 ---------- December 8, 1972

Supersedeas decisions to general wage determination decisions. Supersedeas Decisions to General Wage Determination Decisions for the following States (the numbers of the decisions being superseded and their dates of publication in the FEDERAL REGISTER are listed with each State; Supersedeas Decisions numbers are in parentheses following the number of the decision being superseded):

Arizona:
AP–259(AQ–1,005) ------- January 19, 1973
AP–909(AQ–1,006) ------- June 15, 1973
Arkansas:
AP–734(AQ–7) ---------- May 25, 1973
Georgia:
AP–148(AQ–4,001); AP–149 (AQ–4,000) ---------- January 12, 1973
Iowa:
AM–2,456(AQ–3) -------- August 25, 1971
Louisiana:
AP–366(AQ–4) ---------- December 8, 1973
AP–397(AQ–5); AP–398 (AQ–6) ---------- Jan. 26, 1973
North Dakota:
AP–268(AQ–1,001) ------- March 9, 1973

Signed at Washington, D.C., this 13th day of July 1973.

BEN P. ROBERTSON,
Acting Administrator,
Wage & Hour Division.

[1] In the future published decisions will be referred to as "General" rather than "Area" Wage Determination Decisions in conformance with the terminology in Regulations Part 1 (29 CFR 1.5(b)).

GROUP II Conveyor operator; Generator operator-portable; Power grizzly operator; Self-propelled chip spreading machine-conveyor operator; Watch fireman; Welding machine operator - gasoline and diesel power	6.73	.45	.50		.02	
GROUP III Concrete mixer operator - skip type; Dinky operator - (under 20 tons wt.); Driver-moto paver, Slurry seal machine, and similar type equipment; Motor crane driver; Power sweeper operator - self-propelled; Ross carrier or fork lift operator; Skip loader operator - all types with rated capacity 1-1/2 cu. yds. or less; Wheel type tractor operator (Ford, Ferguson, or similar type) with attachments such as fresno, push blade, post hole auger, mower, etc., excluding compacting equipment	7.13	.45	.50		.02	
GROUP IV A-Frame boom truck or winch truck operator; Asphalt plant firemen; Elevator hoist operator (including Tuskey hoist or similar types); Grade checker (excluding civil engineer); Multiple power concrete saw operator; Pavement breaker, mechanical compactor operator, power propelled; Roller operator - all types except as otherwise classified; Screed operator; Self-propelled chip spreading machine operator (including Slurry seal machine operator) Stationary pipewrapping and cleaning machine operator; Tugger operator	7.57	.45	.50		.02	

AQ-1,005 P. 8

POWER EQUIPMENT OPERATORS (cont'd)	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	App. Tr.	Oth
GROUP V Aggregate plant operator (including crushing screening and sand plants, etc.); Asphalt laydown machine operator; Asphalt plant mixer operator; Beltcrete machine; Boring machine operator; Concrete mechanical tamping, spreading or finishing machine (incl. Clary, Johnson, or similar types); Concrete pump operator; Concrete batch plant operator, all types and sizes; Conductor, brakeman, or handler; Elevating grader operator - all types and sizes (except as otherwise classified); Field equipment serviceman; Highline cableway signalman; Kolman belt loader operator or similar type, w/belt width 48" or over; Locomotive engineer (including Dinky-20 tons wt. and over); Moto-paver and similar type equipment operator; Operating engineer rigger; Pneumatic-tired scraper operator (Turnapull, Euclid, Cat, D-W, Hancock and similar equipment) up to and incl. 12 cu. yds.; Power jumbo form setter operator; Pressure grout machine operator (as used in heavy engineering construction); Road oil mixing machine operator; Roller operator-on all types asphalt pavement; Self-propelled compactor, with blade; Skip loader operator-all types with rated capacity over 1-1/2 but less than 4 cu. yds.; Slip form operator (power driven lifting device for concrete forms); Soil cement road mixing machine operator-single pass type; Stationary Central generating plant operator-rated 300 k.w. or more; Surface heater and planer operator; Traveling pipewrapping machine operator	$8.01	.45	.50		.02	
GROUP V-A Heavy duty mechanic and/or welder; Pneumatic tired scraper, all sizes and types over 12 cu. yds. up to and incl. 45 cu. yds. MRC (Turnapull, Euclid, Cat, D-W, Hancock, and similar equipment); Tractor operator (Pusher, Bulldozer, Scraper) up to 400 net horsepower rating; Trenching machine operator	8.27	.45	.50		.02	

AQ-1,005 P. 9

POWER EQUIPMENT OPERATORS (cont'd)	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	App. Tr.	Other
GROUP VI Auto-Grade Machine (CMI and similar equipment); Boring machine operator (including Mole, Badger and similar type); Concrete mixer operator-paving type, and mobile mixer; Concrete pump operator with boom attachment (truck mounted); Crane operator-crawler and pneumatic type, under 100 ton capacity MRC; Crawler type tractor operator - with boom attachment; Derrick operator; Forklift operator for hoisting personnel; Grade-all operator; Helicopter hoist; Highline cableway operator (less than 20 tons rated capacity); Mass excavator operator (150 Bucyrus Erie and similar types); Mechanical hoist operator (two or more drums); Motor grade operator - any type power blade; Motor grader operator with elevating grader attachment; Mucking machine operator; Overhead crane operator; Piledriver engineer (portable, stationary or skid rig); Pneumatic-tired scraper operator-all sizes and types (Turnapull, Euclid, Cat D-W, Hancock and similar equipment over 45 cu. yds. MRC); Power driven ditch lining or ditch trimming machine operator; Skip loader operator - all types with rated capacity 4 cu. yds. but less than 8 cu. yds.; Slip form paving machine operator (including Gunnert, Zimmerman and similar types); Specialized power digger operator - attached to wheel-type tractor; Tower crane (or similar type) operator; Tractor operator (Pusher, Bulldozer, Scraper) 400 net horsepower and over; Tugger operator (two or more); Universal equipment operator - Shovel, Backhoe, Dragline, Clamshell, etc., up to 8 cu. yds.	$8.55	.45	.50		.02	

AQ-1,005 P. 10

POWER EQUIPMENT OPERATORS (cont'd)	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	App. Tr.	Oth
GROUP VII Crane Operator - pneumatic or crawler (100 ton hoisting capacity and over MRC rating); Helicopter pilot - FAA qualified when used in construction work; Highline cableway operator, over 20 ton rated capacity and using traveling head and tail tower; Remote control earth moving equipment operator Skip loader operator - all types with rate capacity of 8 cu. yds. or more; Universal equipment - shovel, backhoe, dragline, clamshell, etc., 8 cu. yds. and over	$9.05	.45	.50		.02	
MULTIPLE-UNIT EARTH MOVING EQUIPMENT: Tractor Operator - pneumatic-tired or track type, two units - fifty cents (50¢) per hour more than the base single-unit rate established in Group V, Group V-A, or Group VI, and one dollar ($1.00) per hour for each additional unit.						
All Operators, oiler, and motor crane drivers on equipment with booms of 80 and over, incl. jib shall receive .0075 (3/4 of a cent) per foot per hour premium pay additional to the regular rate of pay.						
Oiler shall be required on all track or crawler-type cranes, backhoes, shovels, clamshells, draglines, gradalls, etc.						
Oiler drivers shall be required on all truck mounted or self-propelled excavating and/or hoisting equipment having the configuration for two men.						

TRUCK DRIVERS	Basic Hourly Rates	Fringe Benefits Payments: H & W	Pensions	Vacation	App. Tr.	C
GROUP I						
PICKUP; Station wagon; Teamsters	$5.67	.35	.60		.02	
GROUP II						
BUGGYMOBILE, 1 C.Y. OR LESS; Bulk cement spreader (2 or 3 axle); Bus driver; Dump (2 or 3 axle); Flatrack (2 or 3 axle); Water (under 2500 gal.)	5.78	.35	.60		.02	
GROUP III						
BULK CEMENT SPREADER (4 AXLE); Dump (4 axle); Dumptor or dumpster, less than c.y.; Flatrack (4 axle); Water (2500 gal. but less than 4000 gal.)	5.94	.35	.60		.02	
GROUP IV						
BULK CEMENT SPREADER (5 AXLE); Dump (5 axle); Dumptor or dumpster, 7 c.y. but less than 16 c.y.; Flaherty spreader or similar type equipment or leverman; Flatrack (5 axle); Slurry type equipment or leverman; Transit mix, 8 c.y., or less mixer capacity	6.23	.35	.60		.02	
GROUP V						
BULK CEMENT SPREADER (6 AXLE); Dump (2 axle); Flatrack (6 axle); Rock truck (dart, cuclid, and other similar type end dumps, single unit) less than 16 c.y.	6.36	.35	.60		.02	
GROUP V-A						
OIL TANKER OR SPREADER TRUCK DRIVER end/or bootman, retortman or leverman	6.50	.35	.60		.02	
GROUP VI						
BULK CEMENT SPREADER (7 AXLE); Concrete pump truck driver, (when integral part of transit mix truck); Dump (7 axle); Flatrack (7 axle); Hydro lift, Swedish crane, Iowa 300 and similar types; Ross carrier fork lift or lift truck; Transit mix, over 10.5 c.y. but less than 14 c.y. mixer capacity	6.61	.35	.60		.02	

TRUCK DRIVERS: (cont'd)	Basic Hourly Rates	Fringe Benefits Payments: H & W	Pensions	Vacation	App. Tr.	Oth

POWER EQUIPMENT OPERATORS						
Group A						
Backhoe operator; Clamshell operator; Conc. mix operator, Cent. mix plant; Conc. pump operator-Ridley or similar type; Crane operator (truck, tower, crawler or locomotive); Derrick operator; Dragline operator; Drill operator-Caisson foundation type; Elevating grader operator; Forklift operator that comes within the jurisdiction of the operating engineers; Hoisting engine operator; Locomotive operator; Mechanics-heavy duty; Oilers on cranes with earth boring drill attached with a separate power source; Concrete paving mixer operator; Pile driver operator; Rock crusher operator; Shovel operator; Trenching machine operator over 6 ft. depth capacity; Well point system operator (including the operation of all pumps on project operated by the contractor); Generator operator-75 K. VA and over; Tugger hoist operator; Winch truck operator, hoisting material; Air compressor operator, 365 C. F. M. and over, furnishing air simultaneously for more than one contractor	$ 7.65	.25	.15		.07
Group B						
Bulldozer operator; Dozer shovel operator; Drill operator-Quarry master type; Fireman-Stationary or portable; Motor grader operator; Motor scraper operator-(pans); Pusher dozer operator; Self-propelled compactor operator, with blade; Tractor operator with special equipment; Trenching machine operator-up to and including 6 ft. depth capacity	7.30	.25	.15		.07
Group C						
Air compressor operator, 600 cu. ft. and over; Air compressor operator batt. of two, 300 cu. ft. and over; Hydrohammer operator; Concrete batch plant operator;	6.08	.25	.15		.07
Group D						
Oiler-truck or locomotive cranes	6.43	.25	.15		.07
Group E						
Oiler-unspacified; Pump operator, over 4", up to batteries of 4; Welding machine operator, batteries of two-300 amps and over	5.53	.25	.15		.07
Group F						
Concrete mixer operator, skip types, except paving mixers; Concrete finishing machine operator; Concrete paving machine operator; Roller operator; Well drill operator	5.88	.25	.15		.07

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

ECONOMIC STATISTICS—CLC modified prenotification requirements and restores small business exemption for pay adjustments in food industry; effective 7–19–73 19682

ENVIRONMENT—
Interior Department announces availability of draft impact statement on proposed deregulation of natural gas prices 19703
NASA announces availability of draft impact statement on 1975 Viking Mars exploration 19719

FEDERAL CRIME INSURANCE—HUD eliminates commercial protective device certification requirement for applicants; effective 7–1–73 19686

NATIONAL SCHOOL LUNCH PROGRAM—USDA revokes requirement for annual statement on program operations; effective 7–1–73 19661

GEOTHERMAL RESOURCES—Interior Department issues revised proposals for exploration, development, and production (2 documents); comments by 8–22–73 .. 19747, 19765

SOYBEAN EXPORT—Commerce Department licensing amendments for oil-cake and meal; effective 7–19–73 .. 19682

FEDERAL AGENCY ADMINISTRATION—Administrative Conference of the U.S. recommendations concerning practices and procedures 19781

MOTOR CARRIER SAFETY—DOT advance proposal to broaden exemptions of lightweight vehicles from accident reporting requirements; comments by 1–15–74 19692

AIR CARRIERS—CAB amendments authorizing inclusive tour charter flights (3 documents) 19674, 19678, 19680

TEXTILE IMPORTS—CITA announces new requirement for visaed Korean shipments 19723

PESTICIDES—
EPA announces hearings on cancellation of registrations of aldrin and dieldrin 19712
EPA proposes tolerance standards for parathion; comments by 8–23–73 19699

MEAT AND POULTRY INSPECTION—
USDA proposes use of xanthan gum as a product binder material; comments by 10–1–73 19690
USDA proposes requirements for cleaner jar closures; comments by 10–1–73 19690

(Continued inside)

REMINDERS

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

ICC—Freight tariffs, railroads, water carriers, and pipeline companies subject to section 6 of the Interstate Commerce Act and Carriers jointly therewith; clarification of carriers that are governed by this part..... 16231; 6–21–73

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION—Requirements for lamps, reflective devices, and associated equipment for trailers that are either less than 6 feet in length or 30 inches in width 16875; 6–27–73

federal register
Area Code 202 Phone 962-8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

COMMODITY PRICE SUPPORTS—USDA 1973 rates for barley, grain sorghum, wheat, and rye (4 documents); effective 7–23–73..... 19662, 19665, 19668, 19669

MEETINGS—
Interior Department: Indian Education for Health Committee, 7–19 and 7–20–73..... 19702
Defense Department: Army and Air Force Exchange and Motion Picture Services Civilian Advisory Committee, 8–22–73..... 19702
National Endowment for the Humanities: Public Programs Panel, 8–1–73..... 19720
Fellowships for the Professions Panel, 7–25–73 19720
Commerce Department: Federal Information Processing Standards Task Group 12—Significance and Impact of ASCII as a Federal Standard, 8–2–73..... 19707

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

[Amdt. 12]

PART 210—NATIONAL SCHOOL LUNCH PROGRAM

State Plan of Child Nutrition Operations

The purpose of this amendment is to revoke paragraph (c) of § 210.14 of the regulations governing the National School Lunch Program (7 CFR Part 210). Paragraph (c) requires each State agency to submit to the Child Nutrition Division, Food and Nutrition Service, an annual information statement prior to the execution or extension of an agreement between the State agency and the Department, for administration of the Program in schools within the State.

Paragraph (c) of § 210.14 is superfluous since the information is also required in the State Plan of Child Nutrition Operations which each State agency is required to submit not later than January 1 of each fiscal year under § 210.4a of the regulations. Approval of the plan by FNS is a prerequisite to the payment of Federal funds to the State agency under the National School Lunch Act, as amended, and the Child Nutrition Act of 1966, as amended, or to the donation by the Department of any commodities under 7 CFR Part 250 for use in schools and service institutions.

Accordingly, paragraph (c) of the National School Lunch Program regulations is revoked.

(Catalog of Federal Domestic Assistance Program No. 10.555 National Archives Reference Services)

Effective date: July 1, 1973.

Dated: July 16, 1973.

CLAYTON YEUTTER,
Assistant Secretary.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Prune Reg. 11]

PART 924—FRESH PRUNES GROWN IN DESIGNATED COUNTIES IN WASHINGTON AND IN UMATILLA COUNTY, OREGON

Limitation of Shipments

This regulation requires fresh Washington-Oregon Prunes, during the period August 1, 1973, through August 31, 1974, to grade U.S. No. 1, except for off-color and an additional tolerance for defects, and be at least 1¼ inches in diameter.

On June 26, 1973, notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 16781), regarding a proposed regulation to be made effective pursuant to the marketing agreement and Order No. 924 (7 CFR Part 924) regulating the handling of prunes grown in designated counties in Washington and in Umatilla County, Oregon. This notice allowed interested persons until July 13, 1973, to file written data, views, or arguments pertaining thereto. None were submitted. The proposed regulation was recommended by the Washington-Oregon Fresh Prune Marketing Committee established pursuant to the said marketing agreement and order. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

This regulation is based upon an appraisal of the crop and current and prospective market conditions. Fresh shipments of Washington-Oregon Prunes are expected to start on or about August 1, 1973, and total 16,700 tons, compared with 14,267 tons last season. Hence, ample supplies of fresh prunes meeting the regulation requirements should be available to fill fresh market needs. The regulation is designed to prevent the handling of lower quality and smaller size prunes which do not provide consumer satisfaction and to promote orderly marketing in the interest of producers and consumers, consistent with the objectives of the act.

The provision which excepts the Brooks variety of prunes from the requirements of this regulation recognizes the fact that prunes of this variety are primarily consumed locally, that they do not withstand shipment well, and that the amount of prunes of this variety produced is insignificant compared to the total supply. Individual shipments, not exceeding 500 pounds, of the Stanley or Merton varieties of prunes, subject to necessary safeguards, are excepted from these requirements because the production of these varieties is relatively small and those few which are produced are primarily consumed locally or are sold for home use and not for resale. Individual shipments, not exceeding 150 pounds, of any variety other than Stanley or Merton varieties of prunes sold for home use and not for resale, subject to necessary safeguards, are excepted from these requirements in that the quantity of prunes so handled is relatively inconsequential when compared with the total quantity handled, and because it would be administratively impracticable to regulate the handling of such shipments due to the nearness of the source of supply.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the recommendation and information submitted by the Washington-Oregon Fresh Prune Marketing Committee, and other available information, it is hereby found and determined that the regulation as hereinafter set forth, is in accordance with the provisions of the said marketing agreement and order and will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this section until August 22, 1973 (5 U.S.C. 553) in that (1) notice of proposed rule making concerning this section, with an effective date as hereinafter specified, was published in the FEDERAL REGISTER (38 F.R. 16781), and no objection to this section or such effective date was received; (2) compliance with the regulation will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof; and (3) shipments of the current crop of such prunes are expected to begin on or about the effective date hereof and this section should be applicable, insofar as practicable, to all shipments of such prunes in order to effectuate the declared policy of the act.

§ 924.311 Prune Regulation 11.

(a) *Order.* Prune regulation 10, (37 FR 14287) is hereby terminated on August 1, 1973.

(b) During the period August 1, 1973, through August 31, 1974, no handler shall handle any lot of prunes, except prunes of the Brooks variety, unless:

(1) Such prunes grade at least U.S. No. 1, except that only two-thirds of the surface of the prune is required to be purplish color; and such prunes measure not less than 1¼ inches in diameter as measured by a rigid ring: *Provided,* That the following tolerances, by count, of the prunes in any lot shall apply in lieu of the tolerances for defects provided in the United States Standards for Grades of Fresh Plums and Prunes: A total of not more than 15 percent for defects, including therein not more than the following percentage for the defect listed:

(i) 10 percent for prunes which fail to meet the color requirement;

(ii) 10 percent for prunes which fail to meet the minimum diameter requirement;

(iii) 10 percent for prunes which fail to meet the remaining requirements of the grade: *Provided,* That not more than

V 38-140 JUL 23 73 XUM

one-half of this amount, or 5 percent, shall be allowed for defects causing serious damage, including in the latter amount not more than 1 percent for decay; or

(2) Such prunes are handled in accordance with paragraph (c) of this section.

(c) Notwithstanding any other provision of this regulation, any individual shipment which, in the aggregate, does not exceed 500 pounds net weight, of prunes of the Stanley or Merton varieties of prunes, or 150 pounds net weight, of prunes of any variety other than Stanley or Merton varieties of prunes, which meets each of the following requirements may be handled without regard to the provision of paragraph (b) of this section, and of §§ 924.41 and 924.55:

(1) The shipment consists of prunes sold for home use and not for resale, and

(2) Each container is stamped or marked with the handler's name and address and with the words "not for resale" in letters at least one-half inch in height.

(d) The term "U.S. No. 1" shall have the same meaning as when used in the United States Standards for Fresh Plums and Prunes (§§ 51.1520–51.1538 of this title); the term "purplish color" shall have the same meaning as when used in the Washington State Department of Agriculture Standards for Italian Prunes (June 5, 1972) and in the Oregon State Department of Agriculture Standards for Italian Prunes (July 15, 1972); the term "diameter" means the greatest dimension measured at right angles to a line from the stem to blossom end of the fruit; and, except as otherwise specified, all other terms shall have the same meaning as when used in the marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 18, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-15007 Filed 7-20-73;8:45 am]

PART 945—POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

Limitation of Handling; Correction

In § 945.332 *Handling regulation* (38 FR 18865 July 16, 1973, FR Doc. 73-14316) paragraph (a) (3) is corrected by deleting the word "generally."

Dated: July 18, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-15006 Filed 7-20-73;8:45 am]

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regs., 1973 Crop Barley Supplement]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1973 Crop Barley Loan and Purchase Program

On October 7, 1972, notice of proposed rulemaking regarding loan and purchase rates for 1973 crop barley and detailed operating provisions to carry out the 1973-crop barley loan and purchase program was published in the FEDERAL REGISTER (37 FR 21332). No data, views, or recommendations were filed by interested persons.

The General Regulations Governing Price Support for the 1970 and Subsequent Crops, published at 35 F.R. 7363 and 7781, and any amendments thereto, and the 1970 and Subsequent Crops Barley Loan and Purchase Program Regulations, published at 35 FR 11166 and 11902, and any amendments to such regulations are further supplemented for the 1973 crop of barley. The material previously appearing in these §§ 1421.72 through 1421.77 shall remain in full force and effect as to the crops to which it is applicable.

Sec.
1421.72 Purpose.
1421.73 Compliance requirements.
1421.74 Availability.
1421.75 Maturity of loans.
1421.76 Warehouse charges.
1421.77 Loan and purchase rates.

AUTHORITY: Sec. 4, 62 Stat. 1070, as amended, 15 U.S.C. 714. Interpret or apply sec. 5, 62 Stat. 1072, secs. 105, 401, 63 Stat. 1051, as amended; 15 U.S.C. 714c, 7 U.S.C. 1421, 1441.

§ 1421.72 Purpose.

This supplement contains additional program provisions which, together with the provisions of the General Regulations Governing Price Support for the 1970 and Subsequent Crops, the 1970 and Subsequent Crop Barley Loan and Purchase Program Regulations, and any amendments thereto, apply to loans on and purchases of the 1973 crop of barley.

§ 1421.73 Compliance requirements.

A producer shall be eligible for a loan or purchase with respect to the barely being tendered if the producer complies with the 1973 set-aside program, appearing in the regulations published in Part 775 of this title pertaining to the Feed Gain Set-Aside Program for crop years 1971–73 (36 FR 12835), and any amendments thereto, on the farm on which such barley was produced if such farm is in an area in which the Feed Grain Set-Aside Program is in effect.

§ 1421.74 Availability.

A producer desiring to participate in the program through loans must request a loan on his 1973 crop of eligible barley on or before April 30, 1974, in Alaska, Idaho, Minnesota, Montana, North Dakota, Oregon, South Dakota, Washington, Wisconsin, and Wyoming and by March 31, 1974, in all other States. To sell eligible barley to CCC a producer must execute and deliver to the appropriate county ASCS office, on or before May 31, 1974, in the States named in this section and on or before April 30, 1974, in all other States, a Purchase Agreement (Form CCC–614) indicating the approximate quantity of 1973 crop barley he will sell to CCC.

§ 1421.75 Maturity of loan.

Loans mature on demand but not later than: May 31, 1974, on barley stored in the States of Alaska, Idaho, Minnesota, Montana, North Dakota, South Dakota, Oregon, Washington, Wisconsin, and Wyoming, and on April 30, 1974, in all other States.

§ 1421.76 Warehouse charges.

Subject to the provisions of § 1421.56 the schedule of deductions set forth in this section shall apply to barley stored in an approved warehouse operating under Uniform Grain Storage Agreement.

SCHEDULE OF DEDUCTIONS FOR STORAGE CHARGES BY MATURITY DATES

Maturity date April 30, 1974	Deduction (cents per bushel)	Maturity date May 31, 1974

(b) *Discounts.* The basic county rate shall be adjusted as applicable by discounts as follows:

Reason:	Discount (cents per bushel)
Class—Mixed Barley	2
Grade:	
U.S. No. 3	3
U.S. No. 4	6
U.S. No. 5	15
Total damage (percent): [1]	
10.1–11	1
11.1–12	2
12.1–13	3
13.1–14	4
14.1–15	5
15.1–16	6
16.1–17	7
17.1–18	8
18.1–19	9
19.1 and above	10
Garlicky	10
Weed Control Law (where required by § 1421.25)	10

[1] Not applicable to barley of the class Western Barley.

Other factors. Amounts determined by CCC to represent market discounts for quality factors not specified above which affect the value of the barley, such as (but not limited to) thin barley, moisture, foreign material, test weight, heat damage, musty, sour, smutty, stained, weevily, ergoty, and bleached. Such discounts will be established not later than the time delivery of barley to CCC begins and will thereafter be adjusted from time to time as CCC determines appropriate to reflect changes in market conditions. Producers may obtain schedules of such factors and discounts at county ASCS offices approximately 1 month prior to the loan maturity date.

NOTE: Discounts are cumulative except only one grade discount shall be applied. The discounts for total damage in excess of 10 percent are in addition to the discount of 15 cents for barley grading U.S. No. 5. For the purpose of applying discounts, factors which cause barley of the subclass Malting Barley or Blue Malting Barley to have a lower numerical grade than if the barley were graded under a different subclass shall be disregarded.

Effective date: July 23, 1973.

Signed at Washington, D.C., on July 13, 1973.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

[CCC Grain Price Support Regulations, 1973 Crop Grain Sorghum Supplement]

PART 1421—GRAIN AND SIMILARLY HANDLED COMMODITIES

Subpart—1973 Crop Grain Sorghum Loan and Purchase Program

On October 7, 1972, notice of proposed rulemaking regarding loan and purchase rates for 1973 crop grain sorghum and detailed operating provisions to carry out the 1973 crop grain sorghum loan and purchase program was published in the FEDERAL REGISTER (37 FR 21332). No data, views, or recommendations were filed by interested persons.

The General Regulations Governing Price Support for the 1970 and Subsequent Crops, published at 35 FR 7363 and 7781, and any amendments thereto, and the 1970 and Subsequent Crops Grain Sorghum Loan and Purchase Program regulations, published at 35 FR 10745 and any amendments to such regulations are further supplemented for the 1973 crop of grain sorghum. The material previously appearing in these §§ 1421.235 through 1421.239 shall remain in full force and effect as to the crops to which it is applicable.

Sec.

1421.235 Availability.
1421.236 Compliance requirements.
1421.237 Warehouse charges.
1421.238 Maturity of loans.
1421.239 Loan and purchase rates and discounts.

AUTHORITY: The provisions of this subpart issued under sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 105, 401, 63 Stat. 1051, as amended; 15 U.S.C. 715c, 7 U.S.C. 1421, 1441.

§ 1421.235 Availability.

(a) *Loans.* A producer desiring to participate in the program through loans must request a loan on his 1973 crop of eligible grain sorghum, (1) on or before March 31, 1974, on grain sorghum stored in the following countries in Texas and all counties in Texas south thereof: Austin, Bexar, Caldwell, Colorado, Comal, Galveston, Gonzales, Harris, Hays, Kinney, Lavaca, Medina, Uvalde, Val Verde, and Waller; (2) on or before May 31, 1974, on grain sorghum stored in Oklahoma and in counties in Texas north of those named in subparagraph (1) of this paragraph; and (3) on or before June 30, 1974, on grain sorghum stored in States other than Texas and Oklahoma.

(b) *Purchases.* To sell eligible grain sorghum to CCC a producer must execute and deliver to the appropriate county

V 38-140 JUL 23 73 XUM

ASCS office a Purchase Agreement (Form CCC-614), indicating the approximate quantity of 1973 crop grain sorghum he will sell to CCC, on or before the applicable maturity date specified in § 1421.238.

§ 1421.236 Compliance requirements.

A producer shall be eligible for a loan or purchase with respect to the grain sorghum being tendered if the producer complies with the 1973 set-aside program appearing in regulations published in Part 775 of this title pertaining to Feed Grain Set-Aside Program for Crop Years 1971–73, and any amendments thereto, on the farm on which such grain sorghum was produced.

§ 1421.237 Warehouse charges.

Subject to the provisions of § 1421.216, the schedules of deductions set forth in this section shall apply to grain sorghum stored in an approved warehouse operating under the Uniform Grain Storage Agreement.

(a) Schedule of deduction for storage charges for maturity date of April 30, 1974.

May 27–June 9	2	June 27–July 10.
June 10–June 30, 1974.	1	July 11–July 31, 1974.

[1] Dates storage charges start, all dates inclusive.

§ 1421.238 Maturity of loans.

Loans mature on demand but not later than: (a) April 30, 1974, on grain sorghum stored in the following counties in Texas and all counties in Texas south thereof: Austin, Bexar, Caldwell, Colorado, Comal, Galveston, Gonzales, Harris, Hays, Kinney, Lavaca, Medina, Uvalde, Val Verde, and Waller; (b) June 30, 1974, on grain sorghum stored in Oklahoma and in counties in Texas north of those named in paragraph (a) of this section; (c) July 31, 1974, on grain sorghum stored in States other than Oklahoma and Texas.

§ 1421.239 Loan and purchase rates and discounts.

(a) *Basic rates (counties).* Basic county rates for loan and settlement purposes are established for grain sorghum grading U.S. No. 2 or better and are as follows:

ALABAMA

(b) *Discounts.* The basic loan and purchase rate shall be adjusted by discounts as follows.

	Cents per cwt.
(1) Class: Mixed grain sorghum	3
(2) Grade:	
U.S. No. 3 (not over 14 percent moisture)	3
U.S. No. 4 (not over 14 percent moisture)	5
Smutty	5
(3) Weed control law (where required by § 1421.25)	15

(4) Other factors: Amounts determined by CCC to represent market discounts for quality factors not specified above which affect the value of the grain sorghum, such as (but not limited to) moisture, heat damage, test weight, weevily, musty, sour, stones, weathered, discolored. Such discounts will be established not later than the time delivery of grain sorghum to CCC begins and will thereafter be adjusted from time to time as CCC determines appropriate to reflect changes in market conditions. Producers may obtain schedules of such factors and discounts at county ASCS offices.

NOTE: Discounts are cumulative except only one grade discount shall be applied.

Effective date: July 23, 1973.

Signed at Washington, D.C., on July 13, 1973.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

[FR Doc.73-14906 Filed 7-20-73;8:45 am]

[CCC Grain Price Support Regs., 1973-Crop Rice Supplement, Amdt. 1]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

1973-Crop Rice Loan and Purchase Program

The regulations issued by Commodity Credit Corporation, and published in 38 FR 14088 which set forth requirements with respect to the 1973-crop rice loan and purchase program are hereby amended to read as follows:

Paragraph (a) of § 1421.328 is corrected to substitute the words whole kernels for head rice. The amended paragraph (a) reads as follows:

§ 1421.328 Loan and purchase rates.

* * * * *

(a) *Basic rates.* The basic rate per 100 pounds of rice shall be computed as follows: Multiply the yield (in pounds per hundredweight) of whole kernels by the applicable value factor for whole kernels (as shown in the table below according to class) and round the result to the nearest hundredth. Similarly, multiply the difference between the total yield and the whole kernels yield (in pounds per hundredweight) by the applicable value factor for broken rice and round the result to the nearest hundredth. Add the results (as rounded) of these two computations to obtain the basic loan or purchase rate per 100 pounds of rice and express such rate in dollars and cents.

VALUE FACTORS FOR WHOLE KERNELS AND BROKEN RICE[1]

Rough rice class	Whole kernels	Broken rice
	Cents per pound	
Long grains	9.62	4.65
Medium grains	8.87	4.65
Short grains	8.87	4.65

[1] These value factors may be changed. Such changes, if any, will be made by an amendment to this section issued shortly after August 1, 1973.

* * * * *

Effective date. This amendment to the regulations shall be effective on July 23, 1973.

Signed at Washington, D.C., on July 13, 1973.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

[CCC Grain Price Support Regulations, 1973 Crop Rye Supplement]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1973 Crop Rye Loan and Purchase Program

On October 7, 1972, notice of proposed rulemaking regarding loan and purchase rates for 1973-crop rye and detailed operating provisions to carry out the 1973 rye loan program was published in the FEDERAL REGISTER (37 FR 21332). No data, views, or recommendations were filed by interested persons.

The General Regulations Governing Price Support for the 1970 and Subsequent Crops (35 FR 7363 and 7781) and the 1970 and Subsequent Crops Rye Loan and Purchase Program regulations (35 FR 10355), and any amendments to such regulations, are further supplemented for the 1973 crop of rye. The material previously appearing in these §§ 1421.350 through 1421.354 shall remain in full force and effect as to the crops to which it is applicable.

Sec.
1421.350 Purpose.
1421.351 Availability.
1421.352 Maturity of loans.
1421.353 Warehouse charges.
1421.354 Loan and purchase rates.

AUTHORITY: The provisions of the subpart issued under sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 105, 401, 63 Stat. 1051, as amended; 15 U.S.C. 714c, 7 U.S.C. 1421, 1441.

§ 1421.350 Purpose.

This supplement contains program provisions which, together with the provisions of the General Regulations Governing Price Support for the 1970 and Subsequent Crops and the 1970 and Subsequent Crops Rye Loan and Purchase Program regulations, and any amendments thereto, apply to loans and purchases with respect to the 1973 crop of rye.

§ 1421.351 Availability.

A producer desiring a 1973 crop rye loan must request such loan on his eligible rye on or before March 31, 1974. To sell eligible rye to CCC, a producer must execute and deliver to the appropriate county ASCS office, on or before April 30, 1974, a Purchase Agreement (Form CCC-614), indicating the approximate quantity of 1973 crop rye he will sell to CCC.

§ 1421.352 Maturity of loans.

Unless demand is made earlier, all loans on rye will mature on April 30, 1974.

§ 1421.353 Warehouse charges.

Subject to the provisions of § 1421.342, the schedule of deductions set forth in this section shall apply to rye stored in an approved warehouse operating under the Uniform Grain Storage Agreement.

SCHEDULE OF DEDUCTIONS FOR STORAGE CHARGES

Maturity Date April 30, 1974	(Deduction cents per bushel)
Prior to May 28, 1973	14
May 28–June 21	13
June 22–July 16	12
July 17–Aug. 10	11
Aug. 11–Sept. 4	10
Sept. 5–Sept. 29	9
Sept. 30–Oct. 24	8
Oct. 25–Nov. 18	7
Nov. 19–Dec. 13	6
Dec. 14, 1973–Jan. 7, 1974	5
Jan. 8–Feb. 1	4
Feb. 2–Feb. 26	3
Feb. 27–March 23	2
March 24–April 30, 1974	1

[1] Date storage charges start, all dates inclusive.

§ 1421.354 Loan and purchase rates.

(a) Basic loan and purchase rates (counties). Basic rates per bushel for loan and settlement purposes for rye are established for rye grading U.S. No. 2 or better, or U.S. No. 3 on the factor of test weight only and are as follows:

(b) *Discounts.* (1) The basic rates shall be adjusted by discounts as follows: Rye containing more than three-tenths of 1 percent ergot (ergoty rye containing in excess of 1 percent is not eligible for warehouse-storage loans).

	Discount (cents per bushel)
Ergot content (percent):	
0.31–0.40	1
0.41–0.50	2
0.51–0.60	3
0.61–0.70	4
0.71–0.80	5
0.81–0.90	6
0.91–1.00	7

Rye grading U.S. No. 4 on the factor of test weight only:

	Discount (cents per bushel)
Test weight (pounds):	
51.0–51.9	5
50.0–50.9	10
49.0–49.9	15

Rye grading U.S. No. 3 on account of being "thin."

(2) The discounts shall be 5 cents per bushel plus 1 cent for each 2 percent of "thin" rye or fraction thereof, in excess of 25 percent.

Weed control discount (where required by § 1421.25)	10

(3) Other factors: Amounts determined by CCC to represent market discounts for quality factors not specified above which affect the value of rye such as (but not limited to) moisture weevily, ergoty, stones, musty, sour, and heating. Such discounts will be established approximately 1 month prior to the loan maturity date for rye and will thereafter be adjusted from time to time as CCC determines appropriate to reflect changes in market conditions. Producers may obtain schedules of such factors and discounts and adjustments thereof at county ASCS offices approximately 1 month prior to the loan maturity date or as soon thereafter as practicable.

Effective date: July 23, 1973.

Signed at Washington, D.C., July 13, 1973.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 92—IMPORTATION OF CERTAIN ANIMALS AND POULTRY AND CERTAIN ANIMAL AND POULTRY PRODUCTS; INSPECTION AND OTHER REQUIREMENTS FOR CERTAIN MEANS OF CONVEYANCE AND SHIPPING CONTAINERS THEREON

Relief of Restrictions on Importation of Animals and Birds

The amendment provides for the Deputy Administrator, Veterinary Services, upon specific request to permit animals or birds to be brought into or through the United States under conditions prescribed by him when he determines that such action will not endanger the livestock or poultry of the United States.

Pursuant to the provisions of sections 6, 7, 8, and 10 of the Act of August 30, 1890, as amended, section 2 of the Act of February 2, 1903, as amended, sections 2, 3, 4, and 11 of the Act of July 2, 1962, and section 306 of the Act of June 17, 1930, as amended, (19 U.S.C. 1306; 21 U.S.C. 102–105, 111, 134a, 134b, 134c, and 134f), Part 92, Title 9, Code of Federal Regulations is hereby amended in the following respects:

In § 92.2, paragraph (d) is amended to read:

§ 92.2 General prohibitions; exceptions.

* * * * *

(d) Except for animals prohibited entry by section 306 of the Act of June 17, 1930, as amended (19 U.S.C. 1306), the provisions in this Part 92 relating to animals and birds shall not apply to healthy animals (other than poultry) in transit through the United States if they are not known to be infected with or exposed, within the 60 days preceding the date of export from the country of origin, to communicable diseases of such animals, or to healthy poultry or birds not known to be infected with or exposed, within the 90 days preceding the date of export from the country of origin, to communicable diseases of poultry, if an import permit* has been obtained under § 92.4 of this Chapter and all conditions therein are observed; and if such animals or birds are handled as follows:

(1) (i) they are maintained under continuous confinement in transit through the United States aboard an aircraft, ocean vessel, or other means of conveyance; or

(ii) they are unloaded, in the course of such transit, into an animal or bird holding facility which is provided by the carrier or its agent and has been approved* in advance by the Deputy Administrator in accordance with paragraph (d) (3) of this section as adequate to prevent the spread within the United States of any livestock or poultry disease, and they are maintained there under continuous confinement until loaded aboard a means of conveyance for transportation from the United States and are maintained under continuous confinement aboard such means of conveyance until it leaves the United States; the import permit will specify any additional conditions necessary to assure that the transit of the animals or birds through the United States can be made without endangering the livestock or poultry of the United States, and that Department inspectors may inspect the animals or birds on board such means of conveyance or in such holding facility as provided in section 5 of the Act of July 2, 1962 (21 U.S.C. 134d) to ascertain whether the requirements of this paragraph are met, and dispose of them in accordance with section 2 of the Act of July 2, 1962 (21 U.S.C. 134a) if such conditions are not met; and

(2) the carrier or its agent executes and furnishes to the collector of Customs at the first port of arrival a declaration stating that the animals or birds will be retained aboard such means of conveyance or in an approved holding facility during transshipment as required by this paragraph.

(3) Provisions for the approval of facilities required in this paragraph are:

(i) They must be sufficiently isolated to prevent direct or indirect contact with all other animals and birds while in the United States.

(ii) They must be so constructed that they provide adequate protection against environmental conditions and can be adequately cleaned, washed and disinfected.

(iii) They must provide for disposal of animals and bird carcasses, manure, bedding, waste and any related shipping materials in a manner that will prevent dissemination of disease.

(iv) They must have provisions for adequate sources of feed and water and for attendants for the care and feeding of animals and birds in the facility.

(v) They must comply with additional requirements as may be imposed by the Deputy Administrator if deemed applicable for a particular shipment.

(vi) They must also comply with all applicable local, State and Federal requirements for environmental quality and with the provisions of the Animal Welfare Regulations in Chapter I of this Title, as applicable.

(Secs. 6, 7, 8, and 10, 26 Stat. 416, 417, as amended; sec. 2, 32 Stat. 792, as amended; secs. 2, 3, 4, and 11, 76 Stat. 129, 130, 132, sec. 306, 46 Stat. 689, as amended; 19 U.S.C. 1306; 21 U.S.C. 102–105, 111, 134a, 134b, 134c, 134f; 37 FR 28464, 28477.)

Effective date. The foregoing amendment shall become effective on July 23, 1973.

The amendment relieves certain restrictions presently imposed but no longer deemed necessary to prevent the introduction and spread of livestock or poultry disease and must be made effective promptly to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 17th day of July 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-15010 Filed 7-20-73;8:45 am]

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE (MEAT AND POULTRY PRODUCTS INSPECTION) DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—MANDATORY MEAT INSPECTION

PART 331—SPECIAL PROVISIONS FOR DESIGNATED STATES AND TERRITORIES; AND FOR DESIGNATION OF ESTABLISHMENTS WHICH ENDANGER PUBLIC HEALTH AND FOR SUCH DESIGNATED ESTABLISHMENTS

SUBCHAPTER C—MANDATORY POULTRY PRODUCTS INSPECTION

PART 381—POULTRY PRODUCTS INSPECTION REGULATIONS

Subpart V—Special Provisions for Designated States and Territories; Criteria and Procedure for Designating Establishments With Operations Which Would Clearly Endanger the Public Health; Disposition of Poultry Products Therein

DESIGNATION OF A STATE UNDER FEDERAL MEAT AND POULTRY PRODUCTS INSPECTION ACTS FOR SPECIAL PURPOSES; AND CLARIFICATION OF DESIGNATION OF KENTUCKY

Statement of considerations. The Federal Meat Inspection Act, as amended (21 U.S.C. 601 et seq.), extends the provisions of titles I and IV of the Act to intrastate activities with respect to cattle, sheep, swine, goats, and equines and their carcasses and parts and products

*Such permit may be obtained from the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, United States Department of Agriculture, Hyattsville, Maryland 20782. Requests for approval of such facilities should also be made to the Deputy Administrator.

V 38-140 JUL 23 73 XUM

thereof, in any State (including any organized territory), when designation of the State under section 301(c) of the Act becomes effective upon the basis of the determination of the Secretary of Agriculture that the State has not developed and activated, with respect to such intrastate activities, requirements at least equal to those imposed under titles I and IV of the Federal Act with respect to activities in or for "commerce" as defined in the Act. Section 5(c) of the Poultry Products Inspection Act (21 U.S.C. 454(c)) makes similar provision for the application of sections 1–4, 6–10, and 12–22 of that Act to intrastate activities with respect to poultry and poultry products.

Sections 202, 203, and 204 of the Federal Meat Inspection Act (21 U.S.C. 642, 643, 644) authorize record and related requirements; registration requirements; and regulation of transactions involving dead, dying, disabled, or diseased livestock of the specified kinds, or parts of the carcasses of such animals that died otherwise than by slaughter; with respect to operators engaged in specified classes of business in or for "Commerce" as defined in the Act. Similar authorities are contained in sections 11 (b), (c), and (d) of the Poultry Products Inspection Act (21 U.S.C. 460 (b), (c), and (d)). Section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act (21 U.S.C. 645, 460(e)) authorize the Secretary of Agriculture to exercise the authorities under the aforesaid sections with respect to firms, persons, and corporations engaged in the specified kinds of business but not in or for "commerce" in any State or organized territory when he determines, after consultation with an appropriate advisory committee, that the State or territory does not have at least equal authority under its law or is not exercising such authority in a manner to effectuate the purposes of the Act.

The State of North Dakota has been designated for the application to intrastate activities, of titles I and IV of the Federal Meat Inspection Act and sections 1–4, 6–10, and 12–22 of the Poultry Products Inspection Act. The Secretary, after consultation with an appropriate advisory committee, has now determined that this State does not have or is not exercising, in a manner to effectuate the purposes of the Acts, with respect to intrastate businesses, authorities at least equal to those under sections 202, 203, and 204 of the Federal Meat Inspection Act and sections 11 (b) and (c) of the Poultry Products Inspection Act. Therefore, this State is hereby designated under section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act for the exercise of the specified authorities with respect to intrastate businesses, and hereafter sections 202, 203, and 204 of the Federal Meat Inspection Act and section 11 (b) and (c) of the Poultry Products Inspection Act shall apply as hereinafter provided, to persons, firms, and corporations engaged in the kinds of business specified in said sections, but not in or for commerce, to the same extent and in the same manner as if they were engaged in such business in or for commerce and the transactions involved were in commerce.

In addition, this document amends the designation of Kentucky published in the FEDERAL REGISTER on April 18, 1973 (38 FR 9584, FR Doc. 73-7228). The effective date of that designation was April 18, 1973; however, that notice of designation did not explicitly make said date a part of § 331.6 of the meat inspection regulations and § 381.224 of the poultry products inspection regulations. This is done in this document.

Accordingly, the table in § 331.6 of the meat inspection regulations (9 CFR 331.6) is amended to read as follows:

1. In the "State" column, "North Dakota" is added immediately below "Kentucky" in all three places.

2. In the "Effective Date of Designation" column, "April 18, 1973" is added on the line with "Kentucky" in all three places; and July 23, 1973, is added on the line with "North Dakota" in all three places.

(Secs. 21 and 205, 34 Stat. 1260, as amended, 81 Stat. 584, 21 U.S.C. 621, 645; 37 FR 28464, 28477).

Further, the table in § 381.224 of the poultry products inspection regulations (9 CFR 381.224) is amended to read as follows:

1. In the "State" column, "North Dakota" is added immediately below "Kentucky" in both places.

2. In the "Effective date" column, "April 18, 1973" is added on the line with "Kentucky" in both places; and July 23, 1973, is added on the line with "North Dakota" in both places.

(Secs. 11(e) and 14, 71 Stat. 441, as amended, 82 Stat. 791, 21 U.S.C. 460(e), 463; 37 FR 28464, 28477).

These amendments of the regulations are necessary to reflect the determinations of the Secretary of Agriculture under section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act, and to effectuate the purposes of the acts by facilitating their enforcement. It does not appear that public participation in this rulemaking proceeding would make additional information available to the Secretary. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that such public procedure is impracticable and unnecessary and good cause is found for making the amendments effective less than 30 days after publication in the FEDERAL REGISTER.

These amendments and the notice given hereby shall become effective July 23, 1973.

Done at Washington, D.C., on July 11, 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 73-GL-21]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of VOR Federal Airway

On May 31, 1973, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (38 FR 14294) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter Victor Airway 72 between Mansfield, Ohio, and Akron, Ohio.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 11, 1973, as hereinafter set forth.

Section 71.123 (38 FR 307) is amended as follows: In V–72 "INT Cleveland, Ohio, 138° and Tiverton, Ohio 017° radials: Akron, Ohio;" is deleted and "INT Mansfield 098° and Akron, Ohio, 233° radials; Akron;" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on July 16, 1973.

CLAUDE FEATHERSTONE,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-15001 Filed 7-20-73;8:45 am]

[Airspace Docket No. 73-GL-23]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Federal Airway Segment

On May 31, 1973, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (38 FR 14294) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would extend VOR Federal Airway No. V–218 from Minneapolis, Minn., direct to Grand Rapids, Minn.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 11, 1973, as hereinafter set forth.

Section 71.123 (38 FR 307) is amended as follows: In V–218 "From Minneapolis, MN.; Waukon, IA., Rockford, IL.;" is deleted and "From Grand Rapids, Minn., via Minneapolis, Minn.; Waukon, Iowa.; Rockford, Ill.;" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on July 16, 1973.

CLAUDE FEATHERSTONE,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-15002 Filed 7-20-73;8:45 am]

[Airspace Docket No. 73-EA-56]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Transition Area

The Federal Aviation Administration is amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Gaithersburg, Md., transition area (38 FR 490, 6169).

The transition area as presently designated includes an extension to the north for an NDB–A instrument approach procedure. The NDB–A Procedure was cancelled recently and replaced with an NDB–14 procedure. As a result of the cancellation of the NDB–A procedure, deletion of the north transition area extension from the description of the Gaithersburg transition area is permitted.

Since the foregoing amendment is less restrictive, notice and public procedure hereon are unnecessary.

In view of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t. September 13, 1973, as follows:

1. Amend § 71.181 of Part 71, Federal Aviation regulations so as to delete the description of the Gaithersburg, Md. 700-foot floor transition area and by substituting the following in lieu thereof:

GAITHERSBURG, MD.

That airspace extending upward from 700-feet above the surface within an 8.5-mile radius of the center (39°09'54'' N., 77°10'00'' W.) of Montgomery County Airport, Gaithersburg, Md.; within 3 miles each side of the 292° bearing from Gaithersburg, Md. RBN (39°10'06'' N., 77°09'42'' W.), extending from the 8.5-mile radius area to 8.5 miles west of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on July 11, 1973.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.73-1500 Filed 7-20-73;8:45 am]

[Airspace Docket No. 73-SW-41]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Areas

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to reduce the time of designation for restricted areas R–5107C White Sands Proving Grounds, N. Mex., and for R–5109A and R–5109B White Sands, N. Mex.

On May 15, 1973, an amendment to Part 73 of the Federal Aviation Regulations, effective July 19, 1973, was published in the FEDERAL REGISTER (38 FR 12735) which will change the titles for R–5107C, R–5109A, and R–5109B from those listed in the preceding paragraph to "White Sands Missile Range, N. Mex." Accordingly, the amended title will be used throughout the remainder of this docket.

The United States Air Force has advised that the time of designation for R–5107C, R–5109A, and R–5109B can be reduced without detriment to using agency activities.

Since this amendment restores airspace to the public and reduces a restriction upon the public, it is a minor amendment upon which the public would have no particular reason to comment. Therefore, notice and public procedure thereon are deemed unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective 0901 Gmt, September 13, 1973, as hereinafter set forth.

In § 73.51 (38 FR 658, 12735):

1. The time of designation for Restricted Area R–5107C White Sands Missile Range, N. Mex., is amended to read as follows:

Time of designation. Continuous Monday through Friday. Other times as activated by NOTAM issued at least 12 hours in advance.

2. The time of designation for Restricted Area R–5109A White Sands Missile Range, N. Mex., is amended to read as follows:

Time of designation. Continuous Monday through Friday. Other times as activated by NOTAM issued at least 12 hours in advance.

3. The time of designation for Restricted Area R–5109B White Sands Missile Range, N. Mex., is amended to read as follows:

Time of designation. Continuous Monday through Friday. Other times as activated by NOTAM issued at least 12 hours in advance.

Issued in Washington, D.C., on July 16, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

CLAUDE FEATHERSTONE,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-15003 Filed 7-20-73;8:45 am]

[Docket No. 13037]

PART 167—ANNETTE ISLAND, ALASKA, AIRPORT

Deletion of Part

The purpose of this amendment to the Federal Aviation Regulations is to delete Part 167, "Annette Island, Alaska, Airport."

Part 167 prescribed aircraft landing and parking charges, motor vehicle and aircraft safety regulations, and regulations relating to individual conduct, creation of fire hazards, and the obligations of tenants for that area of Annette Island, Alaska, described as follows:

Commencing at U.S.C. & G.S. Triangulation Station "Yellow", latitude N. 56°06'-09.129'', longitude W. 131°34'25.982'', proceed south 7°31' west 13,189.30 feet to the true point of beginning; thence east 3,000 feet; thence south 1,000 feet; thence east 1,695.41 feet to a point on the mean high tide line; thence south 49°35' east 6,337.71 feet to a point on the mean high tide line; thence south 42°19' west 7,864.11 feet; thence south 28°41' east 4,395 feet to a point on the mean high tide line; thence along the meander of the mean high tide line a distance of approximately 8,000 feet; thence north 28°41' west 4,000 feet; thence south 44°56' west 1,610 feet; thence north 43°57' west 1,750 feet; thence north 44°56' east 1,570 feet; thence north 28°41' west 8,602.70 feet; thence north 33°55' east 3,235 feet; thence north 55°28' east 2,047.80 feet to the true point of beginning of this description, containing 2,681 acres, more or less.

Due to the opening of Ketchikan Airport on June 30, 1973, which is located approximately 18 miles from the Annette Island Airport, it is expected that all landings of large air carrier aircraft and a considerable number of other landings presently being made at Annette Island Airport will be made at Ketchikan Airport. Because of that expected reduced traffic level at Annette Island Airport, the provisions of Part 167 will no longer be necessary. Therefore, Part 167 will cease to be effective at midnight on July 31, 1973, Pacific Daylight Time. However, the airport will continue to be available for use by aircraft after that date in an unlighted and unattended condition. Activities on or about the facilities at the Annette Island Airport operated by the U.S. Coast Guard will be conducted as prescribed by the Commanding Officer, U.S. Coast Guard Air Station, Annette Island, Alaska.

Since this amendment merely deletes obsolete regulatory material, compliance with the notice, public procedure, and effective date provisions of 5 U.S.C. 553 is not required.

(Sec. 10, International Aviation Facilities Act, 49 U.S.C. 1159; sec. 313(a), Federal Aviation Act of 1958, 49 U.S.C. 1354(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c); § 1.47, regulations of the Office of the Secretary of Transportation, 49 CFR 1.47)

In consideration of the foregoing, Part 167 of Chapter I of Title 14 of the Code of Federal Regulations is deleted effective midnight on July 31, 1973, Pacific Daylight Time.

Issued in Washington, D.C., on July 16, 1973.

ALEXANDER P. BUTTERFIELD,
Administrator.

[FR Doc.73-15004 Filed 7-20-73;8:45 am]

V 38 140 JUL 23 73 XUM

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-806]

PART 207—CHARTER TRIPS AND SPECIAL SERVICES

Charter Flight Limitations

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., July 17, 1973.

In notice of proposed rulemaking EDR-240/SPDR-31,[1] the Board proposed amendments to Parts 207 and 212 of its Economic Regulations (14 CFR Parts 207, 212) to authorize certificated route air carriers, and, subject to conditions, foreign route air carriers, to perform inclusive tour charter flights, and related amendments to Part 378 of the Special Regulations (14 CFR Part 378), which embodies the rules governing the operation of Inclusive Tour Charters (ITC).

Until now, only U.S. supplemental air carriers and certain foreign charter air carriers[2] have been authorized to perform the chartered air transportation involved in inclusive tours—ie., to charter all or part of an aircraft to the tour operator and foreign tour operators authorized by Part 378 to act as indirect air carriers in the sale of ITC's. Early last fall, TWA filed a petition for rule making seeking an amendment of Parts 207 and 378 so as to extend to certificated route air carriers the authority to perform inclusive tour charter flights. A parallel petition was also filed by KLM Royal Dutch Airlines, requesting that such authority be granted also to foreign route air carriers. Upon consideration of these petitions, and various answers filed thereto, we tentatively determined that it would be in the public interest to extend ITC authority to route carriers and by issuance of EDR-240/SPDR-31 (the Notice), instituted this rule making proceeding to grant the relief requested by TWA and, subject to conditions, by KLM.

Pursuant to the Notice, 19 comments were filed: A joint comment by a number of trunkline carriers (trunkline carriers);[3] a joint comment by 53 U.S. independent tour operators (ITO); a joint comment by Aloha Airlines, Inc. and Hawaiian Airlines, Inc. (Hawaiian carriers); and 14 individual comments, consisting of four by foreign route air carriers,[4] four by tour operators,[5] and one each by Alaska Airlines, Inc. (Alaska), Capitol International Airways, Inc. (Capitol), Southern Airways Inc. (Southern), Modern Air Transport, Inc. (Modern), the Las Vegas Parties, The United States Tour Operators Association (USTOA); one by the American Society of Travel Agents, Inc. (ASTA); and one by the National Air Carrier Association (NACA) on behalf of its member supplemental air carriers.[6]

The trunkline carriers and a number of the other commenting parties[7] generally support the proposed rules. NACA would support the rule if the Board were to undertake also an expansion of the ITC market through the authorization of one-stop ITC's. BCAL and KAL support the rule insofar as it would authorize foreign route carriers to perform ITC's, but they oppose various of the limitations which the rule imposes with respect to the exercise of such authority. Capitol, BOAC, ITO, Gateway and Kuoni oppose the proposed rules.

Upon full consideration of the relevant matters contained in the comments, we have decided, for the reasons set forth hereinafter and in the Notice, to adopt the proposed rules, but with several minor editorial and clarifying modifications.[8] Except as modified herein, the tentative findings set forth in the Explanatory Statement in the Notice are incorporated herein and made final.

CONSIDERATIONS RELATIVE TO ITC AUTHORITY FOR ROUTE CARRIERS GENERALLY

1. *Legal considerations*—A. *General*—In the rule making notice we rejected arguments grounded on the contention that, in enacting the 1968 amendment to section 401(e)(6) of the Act[9] (the so-called "Pickle amendment"), Congress intended the Board to withhold ITC authority from route carriers unless it finds that to do so would be justified under the "conventional standards of public convenience and necessity." Viewing the legislative history of the Pickle amendment, as a whole, we determined that in adopting said amendment Congress intended only to insure that any exercise by the Board of its regulatory powers with respect to route carriers' ITC authority would be consistent with the public interest, just as it must be with respect to other types of charter service. No new matters or arguments have been presented in the comments which would persuade us to depart from this determination, and we adhere to it.

B. *Evidentiary hearing.* We turn next to requests by Capitol and BOAC for an evidentiary hearing. In support of its request, Capitol argues that the diversionary impact on supplemental carrier operations of granting ITC authority to route carriers will be so severe as to constitute a modification of the supplemental carriers' existing authority under their certificates, and, as such, notice and hearing on the proposed amendments are required by the Act. BOAC's request is grounded on the contention that a grant of ITC authority to route carriers, particularly when added to their authority to perform the recently established travel-group charters, will result in undue diversion from scheduled services;[10] and, therefore, that a hearing is administratively desirable to determine what, if any, "conditions" should be imposed with respect to such authority in order to prevent a "substantial impairment of scheduled services."

An evidentiary hearing on the within rule is neither required nor desirable, and, accordingly, these requests are denied. With respect to Capitol's request, we cannot accept the fundamental contention upon which it is based, namely, that the proposed rule involves a certificate amendment for which a prior hearing is statutorily required. Rather, this proceeding clearly involves the adoption of a "rule," as defined in section 2 of the Administrative Procedure Act (5 U.S.C. 551(4)), in that we are here prescribing for certain classes of carriers a standard of general applicability and of future effect. That the operations of the supplemental carriers under their certificates might be affected thereby does not transform our rule making into the kind of adjudicative action which is involved in amending a carrier's certificate and for which the Act prescribes a prior hearing.[11] Furthermore, to the extent that the rule might have some diversionary impact on the supplemental carriers' ITC business, it is well established that "economic damage is not a modification of the existing license."[12]

969 (1960).

Nor can we accept BOAC's underlying argument that granting ITC authority

[1] January 9, 1973, 38 FR 1396, Docket 25092.

[2] Those holding permits expressly authorizing them to perform inclusive tour charters.

[3] American Airlines, Inc., Braniff Airways, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., Pan American World Airways, Inc., Trans World Airlines, Inc., and Western Air Lines, Inc.

[4] British Caledonian Airways Limited (BCAL), British Overseas Airways Corporation (BOAC), Korean Air Lines Company, Ltd. (KAL) and Polskie Linnie Lotnitze (LOT).

[5] AITS, American Express, Kuoni Travel Service, Inc. (Kuoni) and Gateway Holiday Tours, Inc. (Gateway).

[6] Overseas National Airways, Inc., Saturn Airways, Inc., Trans International Airlines, Inc., and World Airways, Inc. NACA has also filed a motion to file an otherwise unauthorized pleading, namely, a reply comment in opposition to the trunkline carriers' comment insofar as that comment requests a liberalization (discussed at pp. 16–18, *infra*) of the Part 207 definition of "on-route" charter. We have determined to grant the motion and accept the reply comment as a matter of discretion.

[7] The Las Vegas Parties, American Express, AITS, LOT, ASTA, USTOA and Southern. Southern also urges the Board to consider the establishment of a new class of business oriented-charters, in addition to the pro rata, single-entity and mixed charters authorized by present regulations. However, this proposal goes far beyond the limited scope of this rule making proceeding.

[8] The amendments to Parts 212 and 378, respectively, are contained in ER-807, and SPR-70, respectively, published contemporaneously herewith.

[9] That section, as amended, reads: "Any air carrier, other than a supplemental carrier, may perform charter trips (including inclusive tour charter trips) or any other special services, without regard to the points named in its certificate, or the type of service provided therein, under regulations prescribed by the Board."

[10] BOAC alleges that ITC's (presumably ITC's operated by route carriers) and TGC's would divert 20 percent and 40 percent, respectively, of the traffic presently being carried in international markets, but does not indicate how it arrived at these percentages.

[11] American Airlines, Inc. v. C.A.B., 359 F.2d 624 (D.C. Cir. 1966).

[12] Delta Airlines, Inc. v. C.A.B., 275 F.2d 632, 641 (D.C. Cir. 1960), *cert den.* 362 U.S.

to route carriers will cause "undue diversion" from scheduled services and, therefore, that we would be abusing our administrative discretion if we were to adopt these amendments following only such procedures as are appropriate for ordinary rule making. BOAC has offered no factual support—nor are we aware of any—for its assertion that the route carriers will use their new ITC authority so extensively as to impair significantly their ability to provide adequate regularly scheduled service in any particular markets; indeed, it is noteworthy that of all the carriers who have submitted comments on our proposed rule—including in particular the major U.S. international route carriers—it is only BOAC which has expressed this view. Moreover, the history of ITC operations shows that ITC's have been developmental rather than diversionary, so that we have no sound reason to anticipate that conferring ITC authority on route carriers would produce the dire consequences predicted by BOAC.

2. *Policy considerations*—A. *General.* Capitol's opposition to the proposed authorizing amendments is also based on the policy arguments that, inter alia, the ITC market is small and underdeveloped in relation to the other major charter markets; this market has been, and will continue to be, adequately served and developed by the supplemental carriers; and, therefore, there is no conceivable public need for granting ITC authority to route carriers. We do not agree.

As explained in the Notice, the ITC is the only type of charter which our present charter rules limit to particular classes of carriers. Yet, although ITC authority has heretofore been confined only to supplemental and foreign charter carriers, the Board has never—as Capitol appears to contend—regarded the ITC market as inherently and necessarily the exclusive province of these carriers, or that such authority is essential to insure the continued viability of the supplemental industry. Rather, as also explained in the Notice, ITC's are designed to provide one of the several alternative methods for facilitating low cost travel by large numbers of the traveling public. Conferring ITC authority on route carriers should facilitate attainment of this objective, for it is self-evident that they will make available to the public a wider range of tour programs, frequencies and destinations than are afforded under present regulations. We therefore think it clear that it is in the public interest to achieve a greater uniformity in our charter regulations by extending to U.S. and foreign route air carriers authority to participate in the inclusive tour charter market.

B. *Limitations on the scope of the U.S. route carriers' new ITC authority.* In the Notice, we tentatively concluded that we should deny a joint request by Capitol and NACA to limit U.S. route carriers' new ITC authority solely to markets in which such carriers provide regularly scheduled nonstop service. At that time, we tentatively rejected the proponents' principal supporting allegations, to the effect that a grant of unconditional and unrestricted ITC authority for scheduled carriers would result in serious economic damage to the supplemental carriers in major charter markets. Not only had the proponents failed to furnish us with any diversion estimate to substantiate their allegations of harm but, since ITC's have historically constituted only a relatively small fraction of the supplementals' total charter business,[13] we were unable to conclude, based on our experience, that the proposed authority would invite massive invasion by the route carriers into the supplementals' lifeblood charter markets. Indeed, most route operators presently offer in these markets a wide variety of GIT (group inclusive tour) services at discount fares which are similar to ITC services, in terms of the type of prospective air traveler each is designed to attract.[14] Since GIT fares have achieved a relatively high level of public acceptance, we seriously doubt that the route carriers would eliminate them entirely and substitute instead a large-scale program of ITC operations. We also felt that as a procedural matter, it would be more appropriate for us to consider the proposed limitation—although by its terms directed only towards the narrow issue of ITC authority—in the context of the broader issue raised in another NACA petition requesting contraction of the overall charter authority held by U.S. and foreign route air carriers.[15]

Although in its comment Capitol again requests that the U.S. route carriers' ITC authority be limited to markets regularly served with nonstop service, it has come forward with no new facts or arguments to refute the substantive grounds upon which we based our tentative rejection of this limitation. Nor have we been persuaded to depart from our earlier position that there is no sound reason to single out ITC authority as a kind of service for which route carriers' authority should be particularly limited. We therefore now make final our tentative rejection of the request for a limitation on U.S. route carriers' ITC authority.

C. *Expansion of the ITC market.* While NACA does not oppose the rule per se, it reiterates its view, advanced in opposition to the petitions which initiated this proceeding, that extending ITC authority to route carriers will have an adverse competitive impact on the supplemental carriers unless the Board undertakes a concomitant expansion of the ITC market through the authorization of one-stop ITC's. It therefore requests that the proposed extension of ITC authority to route carriers be held in abeyance until after the Board has taken such action as is appropriate to effectuate such expansion. We are told that the route carriers have certain "inherent competitive advantages" that will enable them to divert most of the ITC business presently being handled by the supplemental carriers. The first—and allegedly most important—of these advantages would be their ability to ameliorate the risk of loss associated with the cancellation of ITC's by providing "assurances" to tour operators that, in the event of an ITC cancellation, the inclusive tour groups which they have formed would be carried on scheduled services, under a GIT or other promotional fare. Another advantage, it is said, arises from the long and close relationships which the route carriers have had with American Express and several other of the largest and most prominent tour operators, i.e., it is feared that the large volume of variegated air transportation services which the route carriers already perform for major tour operators will give the route carriers a decided advantage over the supplementals in seeking to attract such tour operators' ITC business.

We will deny NACA's request. With respect to the procedural aspects of the request, we reaffirm what we said in the Notice, in rejecting NACA's earlier proposal to include the issue of one-stop ITC authority (and other comprehensive amendments to our charter regulations) among the issues in this proceeding, namely: that the narrow issue of whether the Board should permit scheduled carriers to operate ITC's can, and should be, considered independently of the broader revisions to the Board's ITC regulations proposed by NACA, since the former would merely equalize the charter authority of the scheduled and supplemental carriers with respect to participation in the ITC market, while the latter would entail consideration of many important and multi-faceted issues involving the basic nature of inclusive tour services.[16] Consideration herein of NACA's far-reaching proposal would transform this narrow rule making into an omnibus proceeding, pending the outcome of which we would have to unduly delay extending to route carriers the ITC authority which we have determined that they should clearly have, in the public interest, as explained above.

Nor are we convinced, as a substantive matter, that the route carriers will have an undue competitive advantage over the

[13] For example, Form 41 data shows that of the total charter traffic operated by carriers in domestic and international markets during 1971, inclusive tour charter traffic represented only 11 percent and five percent, respectively.

[14] *I.e.*, the individual who is willing to conform his travel needs to a group-travel program in return for a substantial reduction in price.

[15] Docket 24713. Part of the relief requested in the petition is a modification of the Part 207 definition of "on-route" so as to encompass only those charter trips performed between a pair of points between which the carrier is authorized to provide nonstop turnaround scheduled service.

[16] We note in this connection that there are presently pending before the Board various proposals to authorize the performance of one-stop ITC's, including a petition filed by NACA in Docket 24711.

V38I140 JUL 23 73 XUM

supplemental carriers in major ITC markets under the present regulatory framework. Although it may well be that some tour operators will prefer to make their chartered air transportation arrangements with route carriers, we think that we are justified in doubting that supplemental carriers are so marginally competitive with route carriers in major charter markets that adoption of this rule will result in a mass migration by tour operators to the ITC services of the regular route operators. On the contrary, the supplemental carriers are charter specialists who have always in the past been able to compete effectively against route carriers for charters which both classes of air carriers are authorized to perform, and there is simply no reason to believe that they will be unable to hold their own in competition with route carriers for ITC business.[17]

D. *Proposals directed toward establishing new regulatory requirements with respect to the sale and promotion of ITC's.* ASTA and a number of the tour operators [18] who support the general purpose of the rule urge us to adopt several new substantive restrictions and requirements with respect to the sale and promotion of ITC services.[19] They believe that imposition of these proposed tighter controls over the advertising and marketing of ITC's are generally desirable to preserve the "independent relationship" which has heretofore existed between tour operators; and that they are particularly desirable in the light of the vast economic resources which the route carriers will bring with them to the ITC market. It is argued that unlike most supplemental and foreign charter air carriers that presently provide ITC services, the route carriers have large well-established and well-financed marketing and advertising organizations which will be highly attractive to tour operators in developing their ITC business. Thus, they say, in the absence of the subject restrictions and requirements, the attractiveness of the route carriers will provide them with economic leverage to control the itinerary, price, content and all other important components of the ITC programs.

We will not now pass on this request since it raises issues which are beyond the scope of this rule making proceeding. The instant proceeding is concerned with ITC services, in particular, whereas the problems which the suggested requirements are intended to resolve may be properly deemed to arise generally, in connection with the various other types of charter services authorized by the Board's regulations. Nevertheless, we do recognize that there may be merit in the request for rules designed to assure the independence of tour operators from direct air carriers, and therefore, we intend to analyze the problems raised by the tour operators in order to determine whether to institute a rule making proceeding in this area.[20]

E. *Expansion of the definition of "on-route" charter in Part 207.* Although supporting the ultimate objective of the proposed amendments, the trunkline carriers argue that, if route carriers are actually to enjoy ITC authority comparable in scope to that presently held by the U.S. supplemental and foreign charter air carriers adoption of the proposed rules will not of itself suffice. They contend that so long as their new ITC authority would be subject to the existing restrictions which Part 207 imposes on the frequency and regularity of off-route charters, in conjunction with the present—and in their view necessary—three-stop limitation on ITC's prescribed by Part 378, supplemental and foreign charter carriers will have an "undue advantage" over route carriers in competition for ITC business. More specifically, they argue that Part 207's strict requirements would, as a practical matter, preclude a route carrier from operating an ITC program unless all of the three (or more) stops included in the tour were on-line points for such carrier—ie., unless the transportation services performed by the direct air carrier between each of the cities on the tour itinerary were considered "on-route." Therefore, the argument runs, as a practical matter, route carriers would be at a competitive disadvantage vis-a-vis the supplementals for ITC business, since the supplementals are free to perform air transportation for virtually every type of ITC itinerary offered by a tour operator without limitation as to linear routes. While not suggesting that route carriers be given unlimited authority to operate ITC's in markets for which they are not certificated, the trunklines urge us to reach a "rational compromise" by amending the Part 207 definition of "on-route" charter so as to include all air transportation performed by a route carrier between any points on the itinerary of an ITC in which the origination point and at least one destination point is normally "on route" for that carrier.[21]

The Board has determined not to adopt this proposal. To begin with, it raises an issue which is clearly outside the scope that we have prescribed for the instant proceeding. Moreover, in light of the way inclusive tours are normally operated, the proposed redefinition of "on-route" is not required to enable the route carriers to compete for ITC business. The trunkline carriers' argument for such redefinition rests on the assumption that the chartering direct air carrier provides all transportation between the various points on an ITC itinerary. In fact, however, the direct air carrier typically provides transportation only from the originating point to the first stopover point and from the last stopover point back to the originating point. Intermediate stops on the itinerary are normally provided by rail, motor or water carriers.[22] Only rarely does the tour operator arrange for all transportation on the ITC itinerary to be by air—ordinarily where the distances between the various stopover points on the tour itinerary are so substantial that air transportation is either the most economical or perhaps the only available mode of travel—and still rarer are the instances where the same direct air carrier is used to provide all such services.[23] As a practical matter, therefore, the limitations which Part 207 of the regulations impose on route carriers' charter authority should not materially impair their ability to perform, within the confines of their respective route systems and the present Part 207 definition of "on-route," the air transportation portion of the typical ITC program.

We also reject the Hawaiian carriers' request that the Board imposed a joint common fare requirement with respect to inclusive tour charters performed in mainland-Hawaii markets. Joint common faring is a device used in connection with individually ticketed services and in inherently incompatible with the fundamental nature of charter services. Moreover, implementation of

[17] For these reasons, and for those upon which we relied in rejecting proposals directed toward limiting the route carriers' authority to their nonstop markets, we also reject Modern's request to withdraw such authority insofar as it will apply to "North American" markets.

[18] AITS, ITO, Kuoni, Gateway and USTOA.

[19] These provisions would: (1) Prohibit the direct air carrier from furnishing, participating in or subsidizing the advertising or promotion of ITC program; (2) require explicitly that ITC's must be arranged and sold solely by tour operators acting as independent principals and not as agents for direct air carriers; (3) require to be filed with the Board all contracts or agreements between the direct air carrier and the tour operator with respect to financial transactions affecting a tour program made prior to or following a particular ITC flight; (4) prohibit direct air carriers from making available any of their employees and facilities in connection with the promotion and sale of ITC programs; and (5) prohibit the use of promotional materials which list the name of the carrier more prominently than that of the tour operator or which are so structured as to give the impression that the tour is being offered by the carrier instead of the tour operator.

[20] ITO also requests that the Board adopt conditions which would prohibit any ITC operator from (1) utilizing any land facilities, ships or buses in any way affiliated with the direct air carriers furnishing the air transportation; (2) operating, concurrently, ITC's and any other form of group or bulk transportation with the same direct air carrier; and (3) furnishing substitute scheduled transportation on the same carrier on which an ITC is cancelled. However, these conditions would be unduly restrictive and ITO has shown no present need for their adoption. They are, therefore, rejected.

[21] They also suggest that we accord parallel treatment to foreign route air carriers by adopting a similar liberalizing amendment to Part 212.

[22] For example, Modern has performed the air transportation services for a number of air/sea cruise ITC's between New York and the Carribbean in which the intermediate Caribbean points are served by a cruise ship departing from Maimi, the first stopover point on the tour.

[23] For example, in the Hawaiian market, the inter-island stops on the ITC itinerary appear to be provided usually via scheduled air services of the Hawaiian carriers.

the new route authority by route carriers should result in a general stimulation of travel to Hawaii, and the Hawaiian carriers have not shown that this overall increase in travel will not ultimately redound to their benefit.[24]

SPECIAL CONSIDERATIONS RELATIVE TO FOREIGN ITC AUTHORITY

The Notice indicated that inclusive tour programs offered in international markets frequently involve a series of tours spanning an entire charter season with ITC flights scheduled to depart at regular intervals until the ITC program is completed.[25] Because our regulations impose fairly stringent limitations on the frequency and regularity with which U.S. route carriers may perform "off-route" charters, we thought it unlikely that any of our route carriers could operate, as off-route charters, the transportation services needed to sustain the typical international ITC program. For this reason, we tentatively concluded that, as a practical matter, the U.S. route carriers would confine their exercise of the proposed authority in foreign air transportation to the performance of ITC's in on-route markets.

Although, for considerations of comity and reciprocity, we also proposed to authorize foreign route carriers to perform inclusive tour charters, the Notice expressed our tenative view that such authority should, to the extent feasible, be reasonably co-extensive with that which we expected to be actually usable by U.S. route carriers. To accomplish this purpose, we therefore proposed and, after due consideration of the comments summarized hereinbelow, we now adopt the following regulatory scheme with respect to the performance of ITC's by foreign route air carriers.

1. *General ITC authority.* Our proposal confined the general ITC authority of foreign route carriers solely to charter trips performed between those points in the United States and in the carrier's home country between which such carrier is authorized by permit to, and does in fact, provide regularly scheduled service.[26]

BCAL alleges that a foreign air carrier has "plenary authority" to conduct all "species" of air transportation services over each of the routes designated in its permit, and argues that to make the general ITC authority of foreign route carriers contingent upon the performance of a prescribed level of service over their designated routes is tantamount to an amendment of such carriers' permits and, as such, the rule cannot be implemented without the statutorily requisite hearing.[27]

BCAL has cited no precedent, nor are we aware of any, to support its position that the Board lacks legal authority to adopt the rule herein question without evidentiary hearings. BCAL's position rests on a basic misconception of the relationship between a foreign air carrier's "on-route" charter authority—which is derived from its permit—and the conditions and limitations under which it can perform the various types of charters established by the Board's regulations within the scope of such authority. The outstanding permits of all foreign route carriers contain a standard provision to the effect that the holder is authorized to engage in charter trips in foreign air transportation subject to the terms, conditions and limitations prescribed by Part 212 of our Economic Regulations. In authorizing foreign route carriers, for the first time, to operate charters for inclusive tour groups, while simultaneously attaching to the exercise of this new authority a condition designed to insure that such charter services will not be operated except in markets where the foreign route carrier already provides a specified level of "on-route" regularly scheduled services,[28] we are taking regulatory action clearly contemplated by the above-described permit condition. This rule making action can thus not be construed as effectuating, or being intended to effectuate, a change in the scope of the foreign carriers' operating authority which constitutes a technical amendment of their section 402 permits.

Moreover, we do not believe an evidentiary hearing on the subject service standard would serve a useful purpose. Determination of the service standard which should be met by foreign route carriers exercising their new ITC authority involves principally a question of policy, which we believe can be adequately disposed of on the basis of the written comments which have been submitted in this proceeding.

Nor are we impressed with KAL's contention that there is no sound policy ground for conditioning foreign carrier's ITC authority upon their actual provision of service over routes which they have been authorized to serve by the terms of their permits. Since, as previously indicated, the ITC authority which we propose to confer on U.S. route carriers will permit substantial operations only in on-route ITC markets in the international market, the prescribed service standard is designed to insure that our carriers are not placed in a position less favorable than that of their foreign competitors with respect to international ITC operations. It is also consistent with the policy, now well established, that a foreign carrier should not ordinarily be granted authority to perform "on-route" charter services to points to which it does not provide scheduled services.[29]

2. *Scope of a foreign carrier's general ITC authority.* The restriction on the "on-route" ITC authority of foreign carriers which we proposed to include in § 212.8(a)(8)—and which we now make final—clearly bars the operation of ITC charters between "on-route" points in any intermediate third country (ie., a country other than the foreign carrier's domicile) and the U.S. However, some questions have been raised as to the exact scope of the restriction.

On the one hand, KAL contends that the proposal is somewhat ambiguous in that it does not indicate whether a foreign carrier would be authorized to perform ITC's in a homeland-U.S. market where it provides regularly scheduled service on other than a nonstop basis—eg., a market in which a foreign carrier provides single-plane scheduled service via a point intermediate to its home country. On the other hand, the trunkline carriers inquire as to whether the subject authority would permit a foreign route carrier to operate ITC's between the U.S. and its homeland with intermediate stops at points beyond the homeland, to which the carrier does not provide regularly scheduled service.[30]

As reflected in EDR-240, it was our intention that a foreign carrier's general ITC authority would permit the performance of ITC's only in markets where it provides nonstop or other single-plane scheduled service; specific authorization would be required for the operation of any charter originating or terminating in, or involving one or more stops in, any country other than the U. S. or the carrier's home country. In order to make our intention more clear, we have modified the rule so as to explicitly provide that the general ITC authority covers the performance of all ITC's between points in the U. S. and points in the carrier's home country.[31]

[24] Indeed, tour operators utilize Aloha and Hawaiian to provide transportation between the intermediate points on mainland-Hawaii ITC's which involve inter-island travel.

[25] For example, Golden Holiday Tours, Inc., a California based tour operator, recently completed an ITC program to Europe consisting of 140 individual ITC flights performed over a six-month period; as many as seven charter flights per week were operated under the program during the summer of 1972.

[26] KAL construes the regularly scheduled service standard as requiring the prescribed level of round-trip flights to be performed in individually ticketed service. Although we did not intend this result in preparing the proposed rule, there is some language in the Notice which at least arguably makes the rule subject to the construction urged by KAL. Accordingly, we have modified the rule so as to make clear that the required number of round trips may be performed in individually waybilled as well as individually ticketed service.

[27] Citing sections 402 and 801 of the Act.

[28] There is nothing particularly novel about a requirement of this nature; for example, in a recent foreign air carrier permit proceeding, the Board made the applicant's authority to provide "on-route" charter trips to and from certain points named in its permit contingent upon the inauguration of scheduled service between such points. (Order 73-3-33, March 13, 1973).

[29] See Order 73-3-33, *supra*.

[30] For example, an ITC performed by KLM between New York and Amsterdam which includes stops in Brussels and Paris to meet the three-stop requirement prescribed by Part 378 (assuming that all three stops on the tour would be served by air transportation and that such air transportation would be performed solely by KLM.)

[31] We have also adopted KAL's suggestion to lower from two to one the minimum number of round trip flights required to establish the existence of regularly scheduled service in a particular market. Accordingly, we are modifying section 212.8 to incorporate this suggestion.

V 38 I 140 JUL 23 73 XUM

3. *Specific ITC authority.* Our proposal included a provision under which foreign route carriers could apply to the Board for prior approval to perform ITC services for which they do not hold general ITC authority. We further expressed our tentative intention to adopt a policy of approving only applications for such specific ITC authority as has been agreed to previously in a bilateral intergovernmental understanding between the U. S. and the domiciliary country of the applicant with respect to nonscheduled services unless, the applicant shows that special or unusual circumstances warrant such approval. KAL argues that this policy would result in a regulatory framework which would be unduly discriminatory against foreign route carriers, in that U.S. route carriers would be permitted to perform off-route ITC's subject only to the limitations of Part 207, whereas foreign route carriers would effectively be barred from even seeking authority to provide comparable ITC services unless they could base their application on an intergovernmental agreement. KAL suggests that we should adopt instead a policy of approving such applications by foreign route carriers within the same kinds of limitations prescribed by Part 207 for charters which are considered off-route for U.S. certificated carriers.

We reject KAL's allegation that our proposed policy would unduly discriminate against foreign route carriers, and, accordingly we have determined to adopt the policy as proposed. In light of the restrictionist policies followed by numerous foreign governments with respect to inclusive tour charter services operated to their shores, there is no assurance that granting any additional ITC authority to foreign route operators—even subject to the lesser limitations proposed by KAL—would be matched by foreign governments with reciprocal privileges for U.S. carriers insofar as they may operate ITC's off-route in international markets.[22] To withdraw our policy entirely and give to foreign route operators the same type of blanket authority we conferred on them to perform TGC's, would thus clearly result in providing such carriers with a potential advantage vis-a-vis our own route carriers in competition for international ITC business. In any event, our policy is certainly not absolute and we are prepared to provide appropriate exceptions upon a showing that the government of the foreign carrier applying therefor follows a liberal policy and there is effective reciprocity in according rights to U.S. carriers with respect to the operation of charters for inclusive tours.

WAIVERS

One final matter requires comment. In the rule making notice, we expressed our intention to waive those of our own ITC requirements which would otherwise bar any U.S. or foreign air carrier from performing a foreign-originating ITC, so long as the terms and conditions of such ITC satisfy the country of origin's ITC rules and those foreign rules are consistent with the basic ITC concept embodied in Part 378.[23] Several parties who support the rule interpreted this to imply that the Board was announcing its intention to establish a new liberal policy with respect to the performance of foreign-originating ITC's. Thus, for example, the comment of the Las Vegas Parties indicates their understanding that the Board would be prepared to consider authorizing foreign-originating one-stop ITC's to be performed by all classes of U.S. and foreign carriers, provided only that such ITC complies with the rules of the country of origin. Conversely, the comments of the trunkline carriers, evidencing the same understanding of the waiver policy discussed in the Notice, opposes it on the grounds that it will "open for ad hoc determination" the question whether any particular foreign-originating ITC is sufficiently distinguishable from individually ticketed service and this, in turn, would completely "disrupt the stable definition" of ITC.

The above-described interpretation by some parties of the Notice's statement on waiver policy indicates that the statement requires clarification. It was not our intention in the Notice to announce that, in connection with these new rules, we would henceforth grant waiver requests for all foreign-originating ITC's complying with foreign law. Part 378 has contained a waiver provision ever since it was first adopted in 1966, and in the Notice we wished to call attention to this provision in light of the new extension of ITC authority to route carriers. However, to the extent that the Notice may have been misunderstood on this point, we take this occasion to make clear our policy on ITC waivers: We shall continue to be prepared to permit route carriers as well as supplemental carriers to perform foreign-originating ITC's in conformity with the detailed requirements of the originating country's ITC rules, rather than our own, so long as the applicable ITC rules of such foreign country are substantially similar to those which we have prescribed in Part 378.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 207 of the Economic Regulations (14 CFR Part 207) effective August 20, 1973, as follows:

Amend § 207.11(b) and (c) by adding new subparagraphs (8) and (6), respectively, as follows:

§ 207.11 Charter flight limitations.

Charter flights (trip) in air transportation shall be limited to the following:

* * * * *

(b) * * *

(8) By a tour operator or a foreign tour operator as defined in Part 378 of this chapter; or

(c) * * *

(6) By a tour operator or foreign tour operator as defined in Part 378 of this chapter:

Provided, That with respect to paragraph (c) of this section each person engaging less than the entire capacity of an aircraft shall contract and pay for 40 or more seats:

And provided further, That paragraph (c) of this section shall not be construed to apply to movements of property.

(Secs. 101(3), 204(a), 401, 407 and 416(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 737 (as amended by 75 Stat. 467, 76 Stat. 143, 82 Stat. 867, 84 Stat. 921), 743, 754, 766 and 771; 49 U.S.C. 1301, 1324, 1371, 1377 and 1386)

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73-15037 Filed 7-20-73;8:45 am]

[Reg. ER-807]

PART 212—CHARTER TRIPS BY FOREIGN AIR CARRIERS

Miscellaneous Amendments

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., July 17, 1973.

By notice of proposed rule making EDR-240/SPDR-31,[1] the Board proposed amendments to Parts 207 and 212 of its Economic Regulations (14 CFR Parts 207, 212) to authorize certificated route air carriers and, subject to conditions, foreign route air carriers to perform inclusive tour charters, and related amendments to Part 378 of the Special Regulations (14 CFR Part 378). For the reasons discussed in ER-806, published contemporaneously herewith, the Board has decided to adopt the proposed amendments with several minor editorial and clarifying modifications.

Accordingly, the Civil Aeronautics Board hereby amends Part 212 of the Economic Regulations (14 CFR Part 212) effective August 22, 1973, as follows:

1. Amend the Table of Contents by changing the title of § 212.4, the table as amended to read in pertinent part as follows:

Sec.
212.4 Limitation on the operation of off-route charter trips and certain inclusive tour charter trips.

[1] January 9, 1973, 38 FR 1396, Docket 25092.

[22] For example, many foreign nations impose onerous substantive restrictions on the ITC operations of U.S. carriers typified by the refusal of several foreign governments to grant landing right privileges for ITC's originating in the United States.

[23] American Express proposes that we go even further and provide blanket authority for the performance of foreign-originating inclusive tours operated in accordance with such of those foreign country rules as embody Part 378's basic concept. This proposal raises issues which are outside the scope of this rule making proceeding. Also beyond the scope of tihs proceeding is Modern's request to eliminate the requirement prescribed by § 387.2(a)(4), that ITC prices must be established at a level which is at least 110 percent of the lowest available scheduled fare for the transportation provided on the tour.

2. Amend §212.1 by inserting in alphabetical order, a new definition of "Inclusive tour charter trip" to read as follows:

§ 212.1 Definitions.

For the purposes of this part:

* * * * *

"Inclusive tour charter trip" means a charter trip performed in accordance with the provisions of Part 378 of this chapter.

* * * * *

3. Amend the title and text of § 212.4 to read as follows:

§ 212.4 Limitation on the operation of off-route charter trips and certain inclusive tour charter trips.

A foreign air carrier shall not perform any off-route charter trips or inclusive tour charter trips for which prior approval is required unless specific authority in the form of a Statement of Authorization to conduct such charter trip has been granted by the Board: *Provided, however,* That no Statement of Authorization shall be required for the performance of a charter trip as provided in § 212.8(a)(4-a) of this part in cases of emergency; *Provided, also,* That emergency charters for commercial traffic shall be reported in accordance with § 212.14. An emergency charter within the meaning of this section shall not include such circumstances as cancellation of flights due to periodic overhaul of aircraft or delay in the delivery of newly acquired aircraft, and a foreign air carrier may not provide emergency charter trips on any day in each of three or more successive calendar weeks for any single direct air carrier without a Statement of Authorization.

4. Amend paragraphs (a) and (b) of § 212.5, the paragraphs as amended to read as follows:

§ 212.5 Statements of Authorization; application.

(a) Application for a Statement of Authorization shall be submitted on CAB Form 433 to the Civil Aeronautics Board, addressed to the attention of the Director, Bureau of Operating Rights. Upon a showing of good cause, such application may be transmitted by cablegram or telegram or may be made by telephone: *Provided, however,* That an application for the performance of a charter transporting commercial traffic for another direct air carrier or direct foreign air carrier (as provided in § 212.8(a)(4-a)) must be submitted on CAB Form 433, and a copy thereof shall be served upon the Federal Aviation Administration, marked for the attention of Director, Flight Standards Service, and upon each certificated air carrier which is authorized to serve the same general area in which the proposed charter trips are to be performed. Each applicant shall keep on file with the Director, Bureau of Operating Rights, a copy of its current standard form of charter agreement. Each application shall contain an abstract of the charter agreement setting forth the names and addresses of the operator, the charterer, and their agents, if any; a description of the proposed operations, type of aircraft to be flown; and, if reciprocity has not previously been established or if any changes have occurred since the previous Board finding thereon, documentation to establish the extent to which the nation which is the domicile of the applicant grants a similar privilege with respect to U.S. air carriers. Applications to perform inclusive tour charter trips for which prior approval is required shall refer to the bilateral agreement or understanding, if any, between the United States and the foreign nation which is the domicile of the applicant whereunder the applicant has been designated to provide the charter services covered by the application. A true copy of the charter agreement actually consummated shall be transmitted to the Director, Bureau of Operating Rights, as soon as practicable, but in no event later than fifteen (15) days after consummation.

(b) Applications shall be filed with the Board at least 5 days in advance of the date of the commencement of the proposed flight, except that applications for authority to conduct planeload cargo charters may be filed not less than 48 hours in advance of the proposed flight:

Provided, however, That an application for the performance of a charter transporting commercial traffic for another direct air carrier or direct foreign air carrier (as provided in § 212.8(a)(4-a)) shall be filed with the Board at least 45 days in advance of the date of the commencement of the proposed flights; *And provided further,* That an application for authority to perform inclusive tour charter trips for which prior approval is required shall be filed with the Board not less than 90 days prior to the date of the commencement of the proposed flights. Upon a showing that good cause exists for failure to adhere to the above requirements and that waiver of these requirements is in the public interest, applications later submitted may be considered by the Board.

* * * * *

5. Amend § 212.6 by adding a new paragraph (b-1), the section as amended to read in pertinent part as follows:

§ 212.6 Issuance of statement of authorization.

* * * * *

(b) * * *

(b-1) Statements of Authorization to perform inclusive tour charter trips for which prior approval is required will be granted to the extent and for such periods of time as the Board deems in the public interest. In determining whether such charter trips are in the public interest the Board will consider, among other factors, whether the authority sought is covered by and consistent with the terms of a nonscheduled air services agreement or understanding between the United States and the foreign nation which is the domicile of the applicant and the terms of the applicant's foreign air carrier permit.

* * * * *

6. Amend §§ 212.8(a) and (b) by adding new subparagraphs 8 and (6), respectively, as follows:

§ 212.8 Charter flight limitations.

Charter flights (trips) shall be limited to foreign air transportation performed by a foreign air carrier holding a foreign air carrier permit issued pursuant to section 402 of the Act authorizing such carrier to engage in foreign air transportation on an individually ticketed or individually waybilled basis—

(a) * * *

(8) By a tour operator or foreign tour operator, as defined in Part 378 of this chapter, when such charter flights are performed between points in the United States and points in the foreign nation which is the domicile of the chartering carrier between which it holds authority under a foreign air carrier permit to perform single-plane scheduled service, and does in fact provide such regularly scheduled service; or, in all other cases, if authority in the form of a Statement of authorization (see § 212.4) to conduct such charter flights has been granted by the Board. For the purposes of this section a "regularly scheduled service" means service provided by a carrier between a particular pair of points on its permit with a frequency of at least one round trip per week, in either individually ticketed or individually waybilled service, in accordance with its published flight schedules which specify the times, days of the week and places between which such flights are performed.

(b) * * *

(6) By a tour operator or foreign tour operator, as defined in Part 378 of this chapter, when such charter flights are performed between points in the United States and points in the foreign nation which is the domicile of the chartering carrier between which it holds authority under a foreign air carrier permit to perform single-plane scheduled service, and does in fact provide such regularly scheduled service; or, in all other cases, if specific authority in the form of a Statement of Authorization (see § 212.4) to conduct such charter flights has been granted by the Board. The term "regularly scheduled service" shall have the meaning set forth in paragraph (a)(8) of this section:

Provided, That with respect to paragraph (b) of this section each person engaging less than the entire capacity of an aircraft shall contract and pay for 40 or more seats:

And provided further, That paragraph (b) of this section shall not be construed to apply to movements of property.

(Secs. 101(3), 204(a), 402 and 407, Federal Aviation Act of 1958, as amended, 72 Stat. 737 (as amended by 75 Stat. 467, 76 Stat. 143, 82 Stat. 867, 84 Stat. 921, 743, 757 and 766; 49 U.S.C. 1301, 1324, 1372 and 1377).)

By the Civil Aeronautics Board.

V 38 140 JUL 23 73 XUM

[Reg. SPR–70]

PART 378—INCLUSIVE TOUR CHARTERS

Miscellaneous Amendments

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., July 17, 1973.

In notice of proposed rule making, EDR–240/SPDR–31,[1] the Board proposed amendments to Parts 207 and 212 of its Economic Regulations (14 CFR Parts 207, 212) to authorize certificated route air carriers and, subject to conditions, foreign route air carriers, to perform inclusive tour charters, and related amendments to Part 378 of the Special Regulations (14 CFR Part 378). For the reasons discussed in ER–806, published contemporaneously herewith, the Board has decided to adopt the proposed amendments with several minor editorial and clarifying modifications.

Accordingly, the Civil Aeronautics Board hereby amends Part 378 of the Special Regulations (14 CFR Part 378) effective August 22, 1973, as follows:

1. Amend the title to Part 378 as set forth above:

2. Amend the Table of Contents by changing the title of § 378.19, the table as amended to read in pertinent part as follows:

Sec.
378.19 Inclusive tours operated by U.S. certificated air carriers or foreign route air carriers for foreign tour operators.

3. Amend § 378.1 to read as follows:

§ 378.1 Applicability.

This part establishes the terms and conditions governing the furnishing of inclusive tours in interstate, overseas, and foreign air transportation by supplemental air carriers, certificated route air carriers and tour operators, and in foreign air transportation by foreign route air carriers, certain foreign charter air carriers and foreign tour operators. This part also relieves tour operators from various provisions of the Act and the Board's regulations for the purpose of enabling them to provide inclusive tours to members of the general public utilizing aircraft chartered from supplemental air carriers, certificated route air carriers, foreign route air carriers, and certain foreign charter air carriers. It also sets forth the circumstances and conditions under which supplemental air carriers, certificated route air carriers, and foreign route air carriers may charter to foreign tour operators, and contains a limited declination of exercise of jurisdiction over the latter. The provisions of this regulation shall not be construed as limiting any other authority to engage in air transportation issued by the Board. Nothing contained in this part shall be construed as repealing or amending any provisions of any of the Board's regulations, unless the context so requires.

4. Amend § 378.2 by revising paragraph (a); adding new subparagraph (6) to paragraph (b); revising paragraph (d); deleting and reserving paragraph (f); and adding new paragraph (h), the section as amended to read in pertinent part as follows:

§ 378.2 Definitions.

As used in this part unless the context otherwise requires: (a) "Inclusive tour charter" means the charter of the entire capacity of an aircraft or of less than the entire capacity of an aircraft (provided that the remaining capacity of the aircraft is under charter by a person or persons authorized to charter aircraft under §§ 207.11(c), 208.6(c), or 212.8(b), respectively, of this chapter) by a tour operator or, with respect to tours which originate in a foreign country, by a foreign tour operator for the carriage by a direct air carrier of persons traveling in air transportation on inclusive tours.

* * * * *

(b) * * *

(6) The tour shall be arranged and sold by a tour operator acting solely as an independent principal with respect to the air transportation included in the inclusive tour charter and not as an agent for direct air carriers.

* * * * *

(d) "Tour operator" means any citizen of the United States, as defined in section 101(12) of the Federal Aviation Act, as amended, 49 U.S. 1301(13) (other than a direct U.S. air carrier), authorized hereunder to engage in the formation of groups for transportation on inclusive tours.

* * * * *

(f) [Reserved]

* * * * *

(h) "Direct air carrier" means (1) a route air carrier holding a certificate of public convenience and necessity issued under section 401(d)(1) of the Act; (2) a supplemental air carrier holding a certificate of public convenience and necessity issued under section 401(d)(3) of the Act to perform inclusive tour charters; (3) a foreign route air carrier holding a permit issued under section 402 of the Act authorizing it to engage in foreign air transportation on an individually ticketed or individually waybilled basis; and (4) a foreign air carrier which holds a permit issued under section 402 of the Act authorizing it to perform inclusive tour charters, but only to the extent that such tours are to be performed subject to the provisions of this regulation.

5. Amend paragraph (i) of § 378.13 to read as follows:

§ 378.13 Tour prospectus.

The prospectus shall be filed in duplicate and shall include two copies of the following: * * *

* * * * *

(i) Samples of solicitation material proposed by the tour operator or foreign tour operator (all sales advertising and solicitation materials employed by the tour operator or foreign tour operator shall state the name of the direct air carrier to be utilized).

6. Amend § 378.14 to read as follows:

§ 378.14 Charter contract.

The charter contract between the tour operator or foreign tour operator and the direct air carrier shall evidence a binding commitment on the part of the carrier to furnish the air transportation required for the tour or tours covered by the contract.

7. Amend § 378.15 to read as follows:

§ 378.15 Tariffs to be filed for charter trips.

No direct air carrier shall perform any charter trips for inclusive tours unless such carrier shall have on file with the Board a currently effective tariff showing all rates, fares, and charges for such charter trips and showing the rules, regulations, practices, and services in connection with such transportation.

8. Revise paragraphs (b) and (c), respectively, of § 378.16, the paragraphs as amended to read as follows:

§ 378.16 Surety bond.

* * * * *

(b) The direct air carrier and the prospective tour operator or foreign tour operator may elect, in lieu of furnishing a surety bond as provided under paragraph (a) of this section, to comply with the requirements of paragraphs (b) (1) and (2) of this section as follows:

(1) The tour operator or foreign tour operator shall furnish a surety bond in a minimum amount of $10,000 per flight up to a maximum amount of $200,000 for a series of 20 or more flights, for the protection of the tour participants, the bond to continue in effect until completion of the tour or series of tours: *Provided, however*, That the liability of the surety to any tour participant shall not exceed the tour price.

(2) The direct air carrier and tour operator or foreign tour operator shall enter into an agreement with a designated bank, the terms of which shall provide that all deposits by tour participants paid to tour operators or foreign tour operators and their retail travel agents shall be deposited with and maintained by the bank subject to the following conditions:

(i) On sales made to tour participants by tour operators or foreign tour operators the participant shall pay by check or money order payable to the bank; on sales made to tour participants by retail travel agents, the retail travel agent may deduct his commission and remit the balance to the designated bank by check or money order: *Provided*, That, the travel agent agrees in writing with the tour operator or foreign tour operator that if the tour is canceled, the travel agent shall remit to the bank the full amount of commission previously deducted or received within 10 days after receipt of notification of cancellation of the tour;

[1] January 9, 1973, 38 F.R. 1396, Docket 25092.

(ii) The bank shall pay the direct air carrier the charter price for the transportation not earlier than 60 days (including day of departure) prior to the scheduled day of departure of the originating or returning flight, upon certification of the departure date by the air carrier: *Provided*, That, in the case of a round-trip charter contract to be performed by one carrier, the total round-trip charter price shall be paid to the carrier not earlier than 60 days prior to the scheduled day of departure of the originating flight;

(iii) The bank shall reimburse the tour operator or foreign tour operator for refunds made by the latter to the tour participant upon written notification from the tour operator or foreign tour operator;

(iv) If the tour operator, foreign tour operator or the direct air carrier notifies the bank that a tour has been canceled, the bank shall make applicable refunds directly to the tour participants;

(v) After the charter price has been paid in full to the direct air carrier, the bank shall pay funds from the account directly to the hotels, sightseeing enterprises, or other persons or companies furnishing surface accommodations or services in connection with the tour or series of tours upon presentation to the bank of vendors' bills and upon certification by the tour operator or foreign tour operator of the amounts payable for such surface accommodations or services and the persons or companies to whom payment is to be made: *Provided, however*, That the total amounts paid by the bank pursuant to paragraphs (b)(2) (ii) and (v) of this section shall not exceed 80 percent of the total deposits received by the bank less any refunds made to tour participants pursuant to paragraphs (b)(2) (iii) and (iv) of this section;

(vi) As used in this section, the term "bank" includes a bank, savings and loan association, or other financial institution insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation;

(vii) The bank shall maintain a separate accounting for each tour;

(viii) Notwithstanding any provisions above, the amount of total deposits required to be maintained in the depository account of the bank may be reduced by one or both of the following: the amount of any surety bond in the form prescribed herein in excess of the minimum bond required by paragraph (b)(1) of this section; an escrow with the designated bank of Federal, State, or municipal bonds or other negotiable securities which are publicly traded on a securities exchange: *Provided*, That such other securities shall be substituted for cash in an amount no greater than 80 percent of their market value at time of deposit in escrow with the bank: *And provided, further*, That should the valuation of such other securities decrease in an amount in excess of 20 percent of the valuation at time of original deposit, additional securities shall be placed in escrow so as to compensate for such decrease in value below 20 percent;

(ix) Except as provided in paragraph (b)(2) (ii), (iii), (iv), (v), and (viii) of this section, the bank shall not pay out any funds from the account prior to two banking days after completion of each tour, when the balance in the account shall be paid to the tour operator or foreign tour operator, upon certification of the completion date by the direct air carrier.

(c) The bond required under paragraphs (a) and (b) of this section shall insure the financial responsibility of the tour operator or foreign tour operator and the supplying of the transportation and all other accommodations, services, and facilities in accordance with the contract between the tour operator or foreign tour operator and the tour participants, and shall be in the form set forth as Appendix A following § 378.31.[2] Such bond shall be issued by a bonding or surety company (1) whose surety bonds are accepted by the Interstate Commerce Commission under 49 CFR 1084.6; or (2) which is listed in Best's Insurance Reports (Fire and Casualty) with a general policyholders' rating of "A" or better. The bonding or surety company shall be one legally authorized to issue bonds of that type in the State in which the tour originates. For purposes of this section, the term "State" includes any territory or possession of the United States, or the District of Columbia. The bond shall be specifically identified by the issuing surety with a company bond numbering system so that the Board may identify the bond with the specific tour or tours to which it relates: *Provided, however*, That these data may be set forth in an addendum attached to the bond which addendum must be signed by the tour operator and the surety company. It shall be effective on or before the date the Tour Prospectus is filed with the Board. If the bond does not comply with the requirements of this section, or for any reason fails to provide satisfactory or adequate protection for the public, the Board will notify the direct air carrier and the tour operator or foreign tour operator, by registered or certified mail, stating the deficiencies of the bond. Unless such deficiencies are corrected within the time set forth in such notification, the subject tour or tours shall in no event be operated.

* * * * *

9. Amend the title and text of § 378.19 to read as follows:

§ 378.19 Inclusive tours operated by U.S. certificated air carriers or foreign route air carriers for foreign tour operators.

(a) At least 90 days in advance of the date of departure of the proposed tour or series of tours to be operated by a U.S. certificated air carrier or foreign route air carrier for a foreign tour operator as defined in § 378.2(d–1)(i), such carrier shall file with the Civil Aeronautics Board (Director, Bureau of Operating Rights) a Tour Prospectus which shall contain the following information:

(1) Name and address of the foreign tour operator;

(2) The proposed date and time of each flight;

(3) Equipment to be used, including the aggregate number of each type of aircraft and capacity;

(4) The tour itinerary, including hotels (name and length of stay at each), and sightseeing or other arrangements, if any;

(5) The tour price per passenger;

(6) The number of persons expected to participate in the tour;

(7) Charter price of the aircraft;

(8) The individually ticketed air fare, computed as provided in § 378.2(b)(4).

(b) A U.S. certificated air carrier or foreign route air carrier operating an inclusive tour for a foreign tour operator shall require full payment of the total charter price prior to commencement of the air transportation.

10. Amend paragraph (a) of § 378.20 to read as follows:

§ 378.20 Post-tour reporting.

(a) Within 30 days after termination of a tour or series of tours, the direct air carrier and tour operator shall jointly file with the Board (Supplementary Services Division, Bureau of Operating Rights) a post-tour report: *Provided*, That in the case of a series of tours which exceeds six months between commencement of the first tour and departure of the last tour, the direct air carrier and tour operator or foreign tour operator shall file a joint interim report within 30 days after the expiration of six months from commencement of the first tour, covering tours terminated during such six months. The post-tour and interim report shall indicate whether or not the tours authorized hereunder were, in fact, performed. To the extent that the operations differed from those described in the prospectus filed under § 378.10, such differences shall be fully detailed including the reasons therefor. However, the making of such an explanation shall not of itself operate as authority for or excuse any such deviation. The report shall be in the form attached hereto as Appendix A.[3]

* * * * *

11. Amend § 378.30 to read as follows:

§ 378.30 Waiver.

A waiver of any of the provisions of this regulation may be granted by the Board upon its own initiative, or upon the submission by a direct air carrier of written request therefor, provided that such a waiver is in the public interest and it appears to the Board that special or unusual circumstances warrant a departure from the provisions set forth herein.

(Secs. 101(3), 204(a), 401, 402, 407 and 416 (a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 737 (as amended by 75

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 130—COST OF LIVING COUNCIL PHASE III REGULATIONS

Further Modification of Food Industry Prenotification and Reporting Requirements for Pay Adjustments; Restoration of Small Business Exemption

On March 29, 1973, in connection with the temporary ceiling on meat prices, the Council issued regulations (38 FR 8505, April 3, 1973) providing that pay adjustments affecting employees in the food industry scheduled to take effect after 9 p.m., e.s.t. on that date would be required to be prenotified to the Council before being put into effect. These rules also included a removal of the Small Business Exemption with respect to such pay adjustments. On April 19, 1973, the Council concluded that a phase-in period was justified until August 1, 1973 before the prenotification rules became operative. Thus, interim rules were published April 20, 1973 (38 FR 9825) delaying the general operation of the prenotification rules until August 1, 1973.

It has now been concluded by the Council that the objectives and goals of the Economic Stabilization Program can better be served by extending the period during which the interim rules should be followed to October 31, 1973 and by delaying the general operation of the prenotification rules until November 1, 1973. Thus, for example, the operation of the prenotification rule in § 130.58a (a)(2) will be delayed in taking effect from August 1, 1973 until November 1, 1973 even with respect to prenotifications already received by the Council for pay adjustments scheduled to be put into effect between those dates. Such pay adjustments are therefore subject to the rules of § 130.58a(g)(2) exclusively. Any prenotification of such a pay adjustment already filed will, of course, be treated as a report to the extent appropriate under the interim rules in § 130.58a(g)(2), and the pay adjustments so reported need not be reported again. Accordingly, § 130.58a is amended in paragraph 2 below by deleting the July 31, 1973 and August 1, 1973 dates wherever they appear in that section and substituting October 31, 1973 and November 1, 1973, as appropriate.

The Council has also concluded that the objectives and goals of the Economic Stabilization Program call for the restoration of the Small Business Exemption to pay adjustments affecting employees in the food industry, effective September 12, 1973. The amendments to § 130.40 set forth in paragraph 1 below accomplish this result.

Because the purpose of these amendments is to provide immediate guidance as to Cost of Living Council policy, I find that publication in accordance with normal rule making procedures is impracticable and that good cause exists for making these amendments effective in less than 30 days. Interested persons may submit comments regarding these amendments. Communications should be addressed to the Office of General Counsel, Cost of Living Council, Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Public Law 92-210, 85 Stat. 743; Public Law 93-28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11723, 38 FR 15766, Cost of Living Council Order No. 14, 38 FR 1489.)

In consideration of the foregoing, §§ 130.40 and 130.58a of Title 6 of the Code of Federal Regulations are amended as set forth herein, effective July 19, 1973.

Issued in Washington, D.C. on July 19, 1973.

WILLIAM N. WALKER,
Acting Deputy Director,
Cost of Living Council.

PARAGRAPH 1. In 6 CFR Part 130, § 130.40 is amended by revising paragraphs (a)(2)(vii) and (b)(2)(viii), relating to pay adjustments in the food industry, to read as follows:

§ 130.40 Exemption of firms with 60 or fewer employees.

* * * * * * *

(a) *Applicability—firms existing on or before December 31, 1971.* * * *

(2) *Exemption not applicable.* * * *

(vii) Pay adjustments affecting employees in the food industry subject to the provisions of Subpart F of this part, with respect to work performed prior to September 12, 1973.

* * * * * * *

(b) *Applicability—firms coming into existence on or after January 1, 1972.* * * *

(2) *Exemption not applicable.* * * *

(viii) Pay adjustments affecting employees in the food industry subject to the provisions of Subpart F of this part, with respect to work performed prior to September 12, 1973.

* * * * * * *

PAR. 2. In 6 CFR 130, § 130.58a is amended (1) by deleting the date July 31, 1973 in the title to paragraph (g)(2) of that section and substituting in its place the date October 31, 1973, and (2) by deleting the date August 1, 1973 each place it appears in that section and substituting in its place the date November 1, 1973.

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

[13th Gen. Rev., Export Regs., Amdt. 65]

PART 377—SHORT SUPPLY CONTROLS

Special Licensing Provision for Soybean Oil-Cake and Meal En Route to Port or in Port for Export as of June 27, 1973

Section 377.3(b) of the Export Regulations is amended by adding a new paragraph (5) to read as set forth below.

Effective date: July 19, 1973.

RAUER H. MEYER,
Director,
Office of Export Control.

The FEDERAL REGISTER issuance of June 29, 1973, subjected soybean oil-cake and meal, (Schedule B No. 081.3030), to validated licensing. Shipments were allowed to proceed under general license *only* if they were on lighter destined for an exporting vessel or if loading aboard an exporting vessel had actually commenced. The purpose of this announcement is to permit licensing of soybean oil-cake and meal that was en route to port or in port earmarked for loading on an exporting vessel when the validated license requirement was imposed, but would not otherwise be eligible for licensing, because it is in excess of 40% of the unfilled balance of an order accepted on or before June 13, 1973.

The Office of Export Control will consider license applications for such oil-cake or meal if they are accompanied by an inland bill of lading or such other documentary evidence as may be necessary to establish that the shipment was en route to a port for export on or before June 27, 1973, or a dock receipt, warehouse receipt, or other documentary evidence that the aforementioned commodity was physically located at the port for export on or before June 27, 1973, or a sworn affidavit that such documentary evidence exists and will be furnished to the Office of Export Control within 3 working days of the date of application.

Licenses will be issued against unfilled orders accepted on or before June 13, 1973, to the extent they exceed the quantitied licensable under the 40% limitation. To this end, the exporter shall submit with each application a photocopy or certified copy of the contract of sale for export to a foreign buyer, and an affidavit as to the unfilled balance and any license issued against such balance.

Accordingly, § 377.3 of the Export Control Regulations (15 CFR Part 377) is amended by adding a new subparagraph (5) to paragraph (b) thereof to read as follows:

§ 377.3 Agricultural commodities.

* * * * * * *

(b) *Licensing system for exports of soybeans, soybean oil-cake and meal, cottonseed, and cottonseed oil-cake and meal.* * * *

(5) *Special rules for licensing exports of soybean oil-cake and meal in transit or at a port of export for export on or before June 27, 1973, against an Order accepted on or before June 13, 1973.* (i) Notwithstanding paragraph (b)(1) and (2) of this section, the Office of Export Control shall issue a validated export license for soybean oil-cake or meal against an order accepted on or before June 13 that was on or before June 27, 1973, either (i) in transit to a port for export, or (ii) at the port of export for export. A license shall be issued only to the extent that it can be established to the satisfaction of the Office of Export Control that such soybean oil-cake or meal was not previously exported or was not and could not be licensed pursuant to paragraph (b)(2) of this section.

(ii) For purposes of paragraph (b)(5)(i) of this section, the applicant must file with the Office of Export Control (Attention: 546), U.S. Department of Commerce, Washington, D.C. 20230, an application for a validated license, accompanied by a copy of the accepted order or contract for export and documentary evidence which, under all the facts and circumstances, establishes to the satisfaction of the Office of Export Control that the requirements of paragraph (b)(5)(i) of this section are fulfilled. To establish that such commodity was in transit to a port for export on or before June 27, 1973, documents demonstrating that it was enroute to the port of export, such as inland bills of lading, letters of instruction to freight forwarders, shipping instructions, or other papers, may be submitted. To establish that the commodity was located at the port of export for export on or before June 27, 1973, documents demonstrating that it was physically located within the port area and that such port was the intended port of loading for export, such as dock, warehouse, or elevator receipts, and shipping documents, or other papers, may be submitted. The applicant must also file a sworn affidavit stating the unfilled balance of the accepted order or contract for export, how much of such unfilled balance would have been or can be licensed under the provisions of subparagraph (2) of this paragraph, and giving the pertinent facts of any licenses previously issued against such balance. In any case in which necessary documents are not in the possession of the applicant at the time of filing, he may file in lieu of the documents a sworn affidavit describing the documents with particularity. Any license granted in part on the basis of such an affidavit shall be void *ab initio* if the documents, or verified copies thereof, are not placed within the possession of the Office of Export Control not later than by the close of business of the third working day following the date of filing, or if such subsequently submitted documents are not as previously described in the affidavit. An export under such a void license shall be a violation of the regulations in this part.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

PART 85—CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

Exhaust Gas Sampling System; Correction

In the miscellaneous amendments to the motor vehicle regulations published on June 28, 1973 (38 FR 17130), the incorrect diagram for Figure A74-1 was published. The preamble to those regulations, change no. 29, stated that the Optional Continuous Sampling Line was being removed from Figure A74-1 of those regulations. However, the diagram that was published erroneously included the Optional Continuous Sampling Line. Therefore, this correction is made to remove the Optional Continuous Sampling Line from Figure A74-1. Figure A75-1, in which the Optional Continuous Sampling Line was also to be removed, appeared correctly in the June 28, 1973 FEDERAL REGISTER publication.

Dated: July 17, 1973.

ROBERT L. SANSOM,
Assistant Administrator for
Air and Water Programs.

In Subpart A of Part 85, Title 40 of the Code of Federal Regulations as applicable to 1974 model year gasoline-fueled light duty vehicles, § 85.074-20, Sampling and analytical system (exhaust emissions), is revised to correct Figure A74-1. As corrected, the section reads as follows:

§ 85.074-20 Sampling and analytical system (exhaust emissions).

* * * * * * *

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Revocation of North Dakota Plan

Notice is hereby given that the State of North Dakota has withdrawn its approved State plan. Consequently, Subpart G of Title 29 Code of Federal Regulations Part 1952 is revoked.

Because of the failure of its enabling legislation, North Dakota has determined that it will be unable to meet the developmental time schedule set out in 29 CFR 1952.133. The State, therefore, in a letter from Governor Arthur Link, dated June 11, 1973, has given notice of its intention to withdraw its approved plan effective June 30, 1973. In accordance with 29 CFR 1951.25(d) the State has also decided to terminate its grant approved under section 23(g) of the Act.

This decision does not preclude the submission of another occupational safety and health plan by North Dakota under section 18 of the Act at some future time.

Subpart G—[Revoked]

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667)).

Signed at Washington, D.C. this 30th day of June 1973.

JOHN STENDER,
Assistant Secretary of Labor.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-175]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Map No.	State map repository	Local map repository	Effective date of authorization of sale of flood insurance for area
• • •	• • •	• • •	• • •	• • •	• • •	• • •
Louisiana	Lafayette Parish	Unincorporated areas.				July 20, 1973. Emergency.
Michigan	Delta	do				Do.
Ohio	Cuyahoga	Cleveland, City of				Do.

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended (secs. 408-410, Public Law 91-152, Dec. 24, 1969), 42 U.S.C. 4001-4127; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969)

Issued: July 13, 1973.

SUBCHAPTER C—FEDERAL CRIME INSURANCE PROGRAM

[Docket No. R-73-109]

PART 1930—DESCRIPTION OF PROGRAM AND OFFER TO AGENTS

Designation of Servicing Companies

The Department of Housing and Urban Development published on July 1, 1971, at 36 FR 12516, regulations with respect to the Federal Crime Insurance Program. Under the authority contained in section 306(g), 82 Stat. 540; 12 U.S.C. 1721, Section 1930.6 of the regulations is now being revised to change the listed crime insurance servicing companies.

Under a process of competitive bidding by insurance companies to act as the servicing companies for the states of Connecticut, District of Columbia, Illinois, Maryland, Massachusetts, Missouri, New York, Ohio, Pennsylvania, Rhode Island, and Tennessee, it has been determined that the Insurance Company of North America is the low bidder in each of these states. It is the purpose of this amendment to designate that company for these states for the period ending June 30, 1974.

Because this amendment merely publishes the results of previously submitted competitive bids notice and public procedure on this amendment are unnecessary. In as much as this amendment does not impose any new obligations it is being made effective July 1, 1973.

Accordingly, Part 1930 is amended by revising § 1930.6 to read as follows:

§ 1930.6 Names and addresses of servicing companies.

The following companies have been designated to act as servicing companies for the program in the States indicated for the period commencing July 1, 1973 and ending June 30, 1974:

Connecticut—Insurance Company of North America 999 Asylum Avenue, Room 500, Hartford, Connecticut 06105

District of Columbia—Insurance Company of North America 5225 Wisconsin Avenue, N.W., Washington, D.C. 20015

Illinois—Insurance Company of North America
- Chicago—10 South Riverside Plaza, Chicago, Illinois 60606
- E. St. Louis—7710 Carondelet Ave., Suite 444, Clayton, St. Louis, Missouri 63105
- Peoria—411 Hamilton Blvd., Suite 1600, Savings Bldg., Peoria, Ill. 61602

Kansas—Insurance Company of North America 911 Main Street, Kansas City, Missouri 64199 (To obtain forms only, contact INA at 445 R. H. Garvey Building, Wichita, Kansas 67202)

Maryland—Insurance Company of North America
- Baltimore—303 East Fayette Street, Baltimore, Maryland 21202
- Wash. Suburbs—5225 Wisconsin Avenue, N.W., Washington, D.C. 20015

Massachusetts—Insurance Company of North America 1 Center Plaza, Boston, Massachusetts 02108

Missouri—Insurance Company of North America 911 Main Street, Kansas City, Missouri 64199 7710 Carondelet Ave., Suite 444, Clayton, St. Louis, Missouri 63105

New Jersey—Aetna Casualty and Surety Company 494 Broad Street, Newark, New Jersey 07102

New York—Insurance Company of North America
- Albany—1510 Central Avenue, Albany, New York 12205
- Buffalo—15 Court Street, Western Building, Buffalo, New York 14202
- Long Island—100 Ring Road West, Roosevelt Field, Garden City, L.I., N.Y. 11530
- New York—79 John Street, New York, New York 10038
- Syracuse—750 James Street, Syracuse, New York 13203
- White Plains—1 North Broadway, White Plains, New York 10601

Ohio—Insurance Company of North America
- Cincinnati—1800 DuBois, Tower Building Cincinnati, Ohio 45202
- Cleveland—14701 Detroit Avenue, Lakewood, Ohio 44107

Pennsylvania—Insurance Company of North America
- Harrisburg—1300 Plaza West, 1300 Market Street, Lemoyne, Penna. 17043
- Philadelphia—625 Walnut Street, Philadelphia, Penna. 19105
- Pittsburgh—875 Green Tree Road, INA Building, Pittsburgh, Penna. 15220
- Suburban Phila.—137 West Wayne Avenue, Wayne, Penna. 19087

Rhode Island—Insurance Company of North America 1 Center Plaza, Boston, Massachusetts 02108

V 38-140 JUL 23 73 XUM

Tennessee—Insurance Company of North America 480 James Robertson Parkway, Nashville, Tennessee 37219

Effective date. This amendment shall be effective July 1, 1973.

GEORGE K. BERNSTEIN,
Federal Insurance Administrator.

[FR Doc.73-15016 Filed 7-20-73;8:45 am]

[Docket No. R-73-109]

PART 1932—PROTECTIVE DEVICE REQUIREMENTS

PART 1933—COVERAGES, RATES, AND PRESCRIBED POLICY FORMS

Pre-inspection and Inspection of Commercial Properties

The Department of Housing and Urban Development published on July 1, 1971, at 36 FR 12516, regulations with respect to the Federal Crime Insurance Program. Under the authority contained in section 306(g), 82 Stat. 540; 12 U.S.C. 1721, an amendment is now being published to provide for pre-inspection and inspection of commercial properties under the Federal Crime Insurance Program.

Because comment and public procedure prior to adoption of this amendment would impede the implementation of recently negotiated servicing company contracts and would delay procedures intended to benefit both new and existing policyholders, notice and public procedure on this amendment are impracticable and contrary to the public interest. Inasmuch as this amendment eliminates the requirement of applicant certification of compliance with applicable commercial protective device requirements, this amendment is also being made effective July 1, 1973.

Accordingly, 24 CFR, Part 1932 and Part 1933 are amended as follows:

1. A new § 1932.3a is added, to read:

§ 1932.3a Mandatory pre-inspection of commercial properties.

(a) All properties for which a commercial crime insurance application for coverage against burglary is made shall be inspected by the servicing company for the state in which the property is located to determine whether the property complies with the applicable protective device requirements.

(b) No application for a commercial crime insurance policy including coverage against burglary shall be approved until it is determined that the premises sought to be insured complies with all applicable protective device requirements.

(c) No fee for this mandatory pre-inspection shall be charged to applicants applying for coverage of any premises which has not been covered by a Federal Commercial Crime Insurance Policy including coverage against burglary at any time during the two year period immediately prior to the date of the application.

(d) All other applicants shall be charged a reasonable fee, determined by the Administrator, for this pre-inspection.

2. A new § 1932.3b is added, to read:

§ 1932.3b Optional inspection of commercial properties.

(a) An inspection of any property covered by a commercial crime insurance policy which affords protection against burglary to determine compliance with applicable protective device requirements shall be made by the servicing company for the state in which the property is located if such an inspection is requested by the insured.

(b) If the optional inspection reveals that the insured premises does not comply with the applicable protective device requirements, the insured will be given thirty days from the date on which he is notified of the deficiencies in the protective devices on his property to correct those deficiencies. During that thirty day period burglary losses covered by the terms of the policy will be paid irrespective of any deficiencies in the insured's compliance with the protective device requirements. Burglary losses occurring more than thirty days after the date the insured is notified of the results of the inspection will not be paid unless it is determined that the deficiency in the premisee's protective devices had been corrected prior to the loss.

(c) A reasonable fee, determined by the Administrator, shall be charged to the insured for each optional inspection of his property.

3. A new § 1932.3c is added, to read:

§ 1932.3c Consequences of failure to comply with protective device requirements for commercial properties.

(a) Properties previously inspected. (1) If a commercial property that has undergone either a mandatory pre-inspection or an optional inspection, and has been found in compliance with the applicable protective device requirements, suffers a burglary loss caused in whole or in part by the failure of the insured premises at the time of the loss to comply with such requirements, which failure of compliance resulted from a mechanical failure, alteration, or removal of a required protective device by or with the knowledge of the insured subsequent to the inspection, such loss is not covered by the policy.

(2) If during the course of adjusting a claim involving a premise which has been found to be in compliance with applicable protective device requirements at the time of a prior mandatory or optional inspection, the adjuster or other investigator discovers a deficiency in the required protective devices on the premises which had not previously been noted but which does not involve a mechanical failure, alteration, or removal of a required protective device subsequent to the prior inspection, the deficiency will be made known to the insured, who will be given thirty days thereafter within which to remedy the deficiency. During that thirty day period burglary losses covered by the terms of the policy will be paid irrespective of the deficiency.

(b) Properties not previously inspected. Owners of commercial property covered by commercial crime insurance policies including coverage against burglary which has not undergone either a mandatory pre-inspection or an optional inspection are subject to the following regulations:

(1) Each property owner shall be personally responsible for meeting the protective device requirements applicable to the type of property for which he has commercial crime insurance. Ignorance of these requirements shall not be deemed an excuse for any lack of compliance with the protective device requirements of this subchapter.

(2) Premises found upon investigation of a claim made under the policy to lack the required protective devices shall be deemed not to have been protected at the time insurance coverage is alleged to have commenced and no insurance coverage shall be deemed to have attached, regardless of the length of time the policy ostensibly has been in force, unless the property owner can clearly establish that a removal of the protective devices actually occurred subsequent to the date on which insurance coverage is alleged to have commenced, in which event the policy shall be deemed canceled by the insured as of the date of such removal.

(3) Premises found upon investigation of a claim made under the policy to be deficient in meeting the then currently applicable protective device requirements because of the uncorrected inadequacy, inoperability, or malfunction of existing protective devices shall, in the absence of evidence of fraud or misrepresentation be deemed to have been ineligible for coverage from the date of most recent application or renewal, whichever is applicable, and no coverage under the program shall exist with respect to such premises, regardless of the length of time the insured may have had coverage prior to such invalid application or renewal.

(c) The insured shall promptly notify the servicing company of any malfunction or breakdown of protective devices and supply it with all relevant facts at the time the deficiency occurs. If such deficiency is corrected within the time specified by the servicing company, no lapse in coverage will result.

5. Section 1932.4 is amended to read as follows:

§ 1932.4 Lack of residential protective devices voids residential policy.

(a) Each residential property owner applying for Federal Crime Insurance shall be personally responsible for meeting the protective device requirements applicable to his premises. Ignorance of such requirement shall not be deemed an excuse for any lack of compliance with the residential protective device requirements, and any person who is doubtful as to whether the protective devices existing on his premises at the time of application meet such requirements should seek competent technical advice before actually making application.

(b) Although agents and brokers are expected to assist and advise property owners as to the requirements for and adequacy of protective devices for residential premises, no agent or broker shall be authorized to approve or disapprove on behalf of the insurer the adequacy of any required protective devices, and any representation to the contrary is false and shall be void.

(c) Residential premises found upon inspection to lack the required protective devices shall be deemed to have been misrepresented at the time of application, and no insurance coverage shall be deemed to have attached, regardless of the length of time the policy ostensibly has been in force, unless the property owner can clearly establish that a removal of the protective devices actually occurred subsequent to the issuance of the policy, in which event the policy shall be deemed canceled by the insured as of the date of such removal.

(d) The insured shall promptly notify the servicing company of any malfunction or breakdown of protective devices and supply it with all relevant facts at the time the deficiency occurs. If such deficiency is corrected within the time specified by the servicing company, no lapse in coverage will result.

(e) Residential premises found upon inspection to be deficient in meeting the then currently applicable residential protective device requirements because of the uncorrected inadequacy, inoperability, or malfunction of existing protective devices shall, in the absence of evidence of fraud or misrepresentation, be deemed to have been ineligible for coverage from the date of most recent application or renewal, whichever is applicable, and no coverage under the program shall exist with respect to such residential premises regardless of the length of time the insured may have had coverage prior to such invalid application or renewal.

6. A new § 1933.25a is added, to read as follows:

§ 1933.25a Application and date of commencement of coverage.

Application for Federal commercial crime insurance shall be made only on a form supplied by the Administrator. Coverage under a policy covering burglary losses will commence at noon on the day following the date of acceptance of the application unless a later date is specified in the application. Coverage under a policy covering robbery only will commence at noon, the day following the date of application unless a later date is specified in the application.

7. Section 1933.26 is amended to read as follows:

§ 1933.26 Required commercial policy form.

The following shall constitute the policy form for the commercial crime insurance policy, and no other policy form shall be used unless otherwise provided by this § 1933.26.

(a) [Revoked]

• • • • •

Effective date. This amendment shall be effective July 1, 1973.

GEORGE K. BERNSTEIN,
Federal Insurance Administrator.

[FR Doc.73-15015 Filed 7-20-73;8:45 am]

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER E—ALCOHOL, TOBACCO AND OTHER EXCISE TAXES

[T.D. ATF-5]

PART 250—LIQUORS AND ARTICLES FROM PUERTO RICO AND THE VIRGIN ISLANDS

PART 275—IMPORTATION OF CIGARS, CIGARETTES, AND CIGARETTE PAPERS AND TUBES

Miscellaneous Amendments

The Bureau of Alcohol, Tobacco and Firearms has received a request from the government of Puerto Rico to modify its regulations governing the collection of taxes in Puerto Rico under 26 U.S.C. 7652(a). This request was granted, and at the same time it was decided to incorporate several other necessary changes into the same document. The changes made by this document are described below.

MAJOR CHANGES

Extended deferral for Puerto Rican taxpayers. Under present requirements, Puerto Rican taxpayers are given a three-day deferral period for the payment, in Puerto Rico, of taxes on alcohol and tobacco products imposed by 26 U.S.C. 7652(a). But producers in the United States are permitted to defer their taxes, for each two-week return period, until the last day of the next succeeding return period. The government of Puerto Rico has requested an amendment to the regulations to permit a similar deferral period for Puerto Rican proprietors. Accordingly, this document provides such an amendment. The current three-day deferral period is also retained as an option available to proprietors with bonds executed before the effective date of these amendments. This will ensure that no present producer will be forced to accept the higher bond premiums which may be associated with two-week deferral. But three-day deferral will eventually be phased out by requiring proprietors who subsequently acquire bonds to choose between prepayment and two-week deferral.

Sections 250.112(e), 275.114 and 275.124 are amended; §§ 250.112a and 275.114a are added.

Application for modification of Forms 52A, 52B, and 338. Regulations currently state that modifications of Forms 52A, 52B, and 338 must be approved by the Director; but the number of copies of applications for such approval is not specified. These amendments specify that applications must be submitted in triplicate to the Director, Bureau of Alcohol, Tobacco and Firearms. [Sections 250.165 and 250.274 amended]

Definitions. When the former Alcohol, Tobacco and Firearms Division of the Internal Revenue Service separated and became the independent Bureau of Alcohol, Tobacco and Firearms, the titles of certain official positions were changed. New definitions reflecting these changes have already been provided for Part 250; this document provides such definitions for Part 275. In addition, a definition of "Business Day" is provided in Part 275. [Section 275.11 amended]

Effective date. Because it is necessary to reflect the effective date of this document in text, this Treasury decision is being given an effective date of September 1, 1973.

Summary of changes subsequent to notice of proposed rule making. On March 16, 1973, a notice of proposed rulemaking to amend 26 CFR Parts 250 and 275, as described in the preceding paragraphs, was published in the FEDERAL REGISTER (38 FR 7125). In accordance with the notice, interested persons were afforded an opportunity to submit written comments or suggestions pertaining thereto. No adverse comments or requests for a public hearing were received; therefore, the amendments are hereby adopted as published in the notice of proposed rulemaking, subject to the minor changes set forth below:

1. The phrase "U.S. post office" is deleted in paragraphs A.1. and B.2., and in its place is substituted the phrase "United States Postal Service".

2. The phrase "(effective date)" is deleted in paragraphs A.2. and B.3., and in its place is substituted the phrase "September 1, 1973".

3. In paragraph B.2., at the end of § 275.114, the zip code "10008." is added.

4. In paragraph B.3., the phrases "penal sum" and "a penal sum" are deleted, and in their place are substituted respectively the word "amount" and the phrase "an amount".

This Treasury decision shall become effective on September 1, 1973.

(Sec. 7805 Internal Revenue Code, 68A Stat. 917; 26 U.S.C. 7805.)

[SEAL] JOHN L. WEST,
Acting Director Bureau of Alcohol, Tobacco and Firearms.

VERNON D. ACREE,
Commissioner of Customs.

Approved: July 13, 1973.

EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

In order to (1) permit deferral until the last day of the next succeeding return period of the filing of tax returns and payment of taxes in Puerto Rico on alcoholic and tobacco products shipped from Puerto Rico to the United States, (2) require that applications for modification of Forms 52A, 52B, and 338 be submitted in triplicate, and (3) make certain definitional changes, the regulations in 26 CFR Parts 250 and 275 are amended as follows:

PARAGRAPH A. Title 26 CFR Part 250 is amended as follows:

1. Paragraph (e) of § 250.112 is amended to provide an extended deferral

V38-140-JUL 23 73 XUM

period and to permit delay in filing returns when the last day for filing comes on a Saturday, Sunday, or legal holiday in Puerto Rico or in the District of Columbia. As amended, paragraph (e) reads as follows:

§ 250.112 Taxes to be collected by returns for semimonthly periods.

• • • • •

(e) *Filing.* The original and two copies of returns on Forms 2901, 2927, and 2929, with remittance covering the full amount of the tax, shall be filed with the Officer-in-Charge not later than the 3d business day next succeeding the last day of the return period: *Provided,* That a proprietor who is qualified for extended deferral, as provided in § 250.112a, shall file returns, with remittances, for each return period, not later than the last day of the next succeeding return period. Where the return and remittance are delivered by U.S. mail to the office of the Officer-in-Charge, the date of the official postmark of the United States Postal Service stamped on the cover in which the return and remittance were mailed shall be deemed to be the date of delivery. If the last day for filing a return under this paragraph falls on a Saturday, Sunday, or legal holiday in the District of Columbia or in the Commonwealth of Puerto Rico, the filing of such return and remittance shall be considered timely if accomplished on the next succeeding day which is not a Saturday, Sunday, or such legal holiday.

• • • • •

2. A new § 250.112a, covering qualification for extended deferral, is added immediately following § 250.112 and reads as follows:

§ 250.112a Qualification for extended deferral.

(a) *Proprietors with bonds executed before September 1, 1973.* Proprietors with bonds on Forms 2896, 2897, or 2898 executed before September 1, 1973, who desire to file returns under this subpart with benefit of the extended deferral permitted by § 250.112(e), shall file with the Officer-in-Charge a consent of surety on Form 1533 to extend the terms of the bond. Each consent on Form 1533 shall identify the particular bond to which it applies and shall contain a statement of purpose as follows:

To continue in effect said bond (including all extensions and limitations of terms and conditions previously consented to and approved), notwithstanding that the time for payment of the tax may be deferred by the extended deferral period permitted by regulations in 26 CFR 250.112(e).

If the bond on Form 2896, 2897, or 2898 is in a penal sum insufficient to cover an extended deferral period, according to the requirements of § 250.66, § 250.67, or § 250.68, as applicable, the proprietor must either file a new bond or file a strengthening bond to increase the total penal sum of the bonds then in force to a sufficient penal sum.

(b) *Proprietors with bonds executed after September 1, 1973.* Proprietors operating under original or superseding bonds executed after September 1, 1973 are automatically qualified for the extended deferral permitted by § 250.112(e) (unless found in default as provided in § 250.112(f)). Such bonds must be executed in a penal sum sufficient to cover an extended deferral period, according to the requirements of § 250.66, § 250.67, or § 250.68, as applicable.

(c) *Commencement of extended deferral.* Proprietors may file returns with benefit of extended deferral only after the applicable bonds and consents of surety required by this section have been filed with and approved by the Officer-in-Charge.

(68A Stat. 847, as amended, 907, as amended; 26 U.S.C. 7101, 7652(a))

3. Sections 250.165 and 250.274 are amended to specify the number of applications to be submitted. As amended, §§ 250.165 and 250.274 read as follows:

§ 250.165 Forms to be provided by users at own expense.

Forms 52A, 52B, and 338 shall be purchased by users from commercial printers and must be in the form prescribed: *Provided,* That upon written application, in triplicate, to the Director, Bureau of Alcohol, Tobacco and Firearms, approval may be granted to modify these forms for use in tabulating or other mechanical equipment.

(72 Stat. 1342, 1395; 26 U.S.C. 5114, 5555)

§ 250.274 Forms to be provided by users at own expense.

Forms 52A, 52B, and 338 shall be provided by users at their own expense and must be in the form prescribed: *Provided,* That upon written application, in triplicate, to the Director, Bureau of Alcohol, Tobacco and Firearms, approval may be granted to modify these forms for use in tabulating or other mechanical equipment.

(72 Stat. 1342, 1395; 26 U.S.C. 5114, 5555)

PAR. B. Title 26 CFR Part 275 is amended as follows:

1. Section 275.11 is amended by revising the definitions of "Assistant regional commissioner" and "Director"; by adding, in alphabetical order, definitions of "Regional director" and "Business day"; and by eliminating the definitions of "Commissioner" and "Regional commissioner." As amended and added these definitions read as follows:

§ 275.11 Meaning of terms.

• • • • •

Assistant regional commissioner. Wherever used in this part shall mean a regional director as defined in this section.

• • • • •

Business day. Any day, other than a Saturday, Sunday, or a legal holiday. (The term legal holiday includes all holidays in the District of Columbia and, in the case of bonded manufacturers in Puerto Rico, all legal holidays in the Commonwealth of Puerto Rico.)

• • • • •

Director. The Director, Bureau of Alcohol, Tobacco and Firearms, the Department of the Treasury, Washington, D.C.

• • • • •

Regional director. A regional director who is responsible to, and functions under the direction and supervision of, the Director.

• • • • •

2. Section 275.114 is amended to provide an extended deferral period and to permit delay in filing returns when the last day for filing comes on a Saturday, Sunday, or legal holiday in Puerto Rico or in the District of Columbia. As amended, § 275.114 reads as follows:

§ 275.114 Time of filing.

Every semimonthly tax return under this subpart shall be filed by the bonded manufacturer not later than the third business day succeeding the last calendar day of the return period: *Provided,* That if a bonded manufacturer is qualified for extended deferral, as provided in § 275.114a, he shall file returns, with remittances, for each return period, not later than the last day of the next succeeding return period. If the return and remittance are delivered by U.S. mail to the office of the Officer-in-Charge, the date of the official postmark of the United States Postal Service stamped on the cover in which the return and remittance were mailed shall be deemed to be the date of delivery. If the last day for filing a return under this section falls on a Saturday, Sunday, or legal holiday in the District of Columbia or in the Commonwealth of Puerto Rico, the filing of such return and remittance shall be considered timely if accomplished on the next succeeding day which is not a Saturday, Sunday, or such legal holiday. The Officer-in-Charge will transmit a receipted copy of the semimonthly tax return to the bonded manufacturer who filed the return and paid the tax, retain one copy, and forward one copy to the Regional Director, Bureau of Alcohol, Tobacco and Firearms, New York, N.Y. 10008.

3. A new § 275.114a, covering qualification for extended deferral, is added immediately following § 275.114 and reads as follows:

§ 275.114a Qualification for extended deferral.

(a) *Bonded manufacturers with bonds executed before September 1, 1973.* Bonded manufacturers with bonds on Form 2936 executed before September 1, 1973, who desire to file returns under this subpart with benefit of the extended deferral permitted by § 275.114 shall file with the Officer-in-Charge an extension of coverage of bond on Form 2105. Such extension of coverage shall identify the particular bond to which it applies and shall contain a statement of purpose as follows:

To continue in effect said bond (including all extensions or limitations of terms and conditions previously consented to and approved) notwithstanding that the time for payment of the tax may be deferred by the extended deferral period permitted by regulations in 26 CFR 275.114.

If the bond on Form 2986 is in an amount insufficient to cover an extended deferral period, according to the requirements of § 275.121, the bonded manufacturer must either file a new bond or file a strengthening bond to increase the total amount of the bonds then in force to a sufficient amount.

(b) *Bonded manufacturers with bonds executed after September 1, 1973.* Bonded manufacturers operating under original or superseding bonds executed after September 1, 1973, are automatically qualified for the extended deferral permitted by § 275.114 (unless found in default as provided in § 275.116). Such bonds must be executed in an amount sufficient to cover an extended deferral period, according to the requirements of § 275.121.

(c) *Commencement of extended deferral.* Bonded manufacturers may file returns with benefit of extended deferral only after the applicable bonds and extensions of coverage required by this section have been filed with and approved by the Officer-in-Charge.

(68A Stat. 847, as amended, 907, as amended; 26 U.S.C. 7101, 7652(a))

4. Section 275.124 is amended to refer to the requirements of § 275.114a regarding extensions of coverage of bonds. As amended, § 275.124 reads as follows:

§ 275.124 Extension of coverage of bond.

An extension of coverage of the bond of a bonded manufacturer shall be required (a) as provided in § 275.114a, and (b) in the case of any change in the location of the factory as set forth in the bond. Such extension of coverage of the bond shall be manifested on Form 2105 by the bonded manufacturer and by the surety on the bond with the same formality and proof of authority as required for the execution of the bond.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 989]

[Docket No. AO-375]

RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Miscellaneous Amendments

Correction

In F.R. Doc. 73-13133, appearing at page 17240 in the issue of Friday, June 29, 1973, in the fourth line under § 989.158 the letter "(d)" in the paragraph designation should read "(a)".

Animal and Plant Health Inspection Service

[9 CFR Parts 317, 381]

JAR CLOSURES FOR MEAT AND POULTRY FOOD PRODUCT

Proposed Requirement for Prevention of Filth and Insect Accumulation

Notice is hereby given that the Animal and Plant Health Inspection Service is considering amending Parts 317 and 381 by adding new §§ 317.19 and 381.143 respectively to the meat inspection regulations, and the poultry products inspection regulations, pursuant to the authority contained in the Federal Meat Inspection Act, as amended (21 U.S.C. 601 et seq.), and the Poultry Products Inspection Act, as amended (21 U.S.C. 451 et seq.).

Statement of considerations. Numerous consumer complaints have been received concerning the quick-twist, screw-on, or snap-on lids (or closures) on containers of meat food products. The complaints relate to the annular space existing between the inner edge of the lid's rim (lip or skirt) and the container itself. The space is easily accessible to insects which are attracted by food squeezed out when the lid was sealed and sometimes not subsequently removed by retorting or washing. Dead insects, insect eggs, larvae, and other filth and adulterants have been found in this annular space. When such a jar is opened, the vacuum seal is broken and the resulting puff of air carries whatever foreign material that may be in the annular space into the jar where it comes in contact with the food. The condition should be eliminated for removal of an apparent threat of contamination which could cause disease.

1. The Table of Contents to Part 317 would be amended to reflect a new section heading and the text would read as follows:

§ 317.19 Jar closures requirements.

Containers sealed with quick-twist, screw-on, or snap-on lids (or closures), which have an annular space between the inner edge of the lid's rim (lip or skirt) and the container itself, shall have such space eliminated by lid or container design and construction or be made inaccessible by sealing.

2. The Table of Contents to Part 381, Subpart N, would be amended to reflect a new section heading and the text would read as follows:

§ 381.143 Jar closures requirements.

Containers sealed with quick-twist, screw-on or snap-on lids (or closures), which have an annular space between the inner edge of the lid's rim (lip or skirt) and the container itself, shall have such space eliminated by lid or container design and construction or be made inaccessible by sealing.

Any person wishing to submit written data, views, or arguments concerning the proposed amendments may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by October 1, 1973.

Any person desiring opportunity for oral presentation of views should address such requests to Scientific Services, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for such views to be presented prior to the date specified in the preceding paragraph. A record will be made of all views orally presented.

All written submissions and records of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the Staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on July 17, 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-15045 Filed 7-20-73;8:45 am]

[9 CFR Parts 318, 381]

XANTHAN GUM

Approval for and Restrictions on Use in Various Products

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553 that the Animal and Plant Health Inspection Service is considering amending Part 318 of the Federal meat inspection regulations (9 CFR Part 318) as indicated below, pursuant to authority contained in the Federal Meat Inspection Act (34 Stat. 1260, as amended; 21 U.S.C. 601 et seq.) and Subpart O of the poultry products inspection regulations (9 CFR 381) as indicated below, pursuant to authority contained in the Poultry Products Inspection Act (71 Stat. 441, as amended; 21 U.S.C. 451 et seq.) to provide for the use of xanthan gum in various products.

Statement of considerations. The Department has been petitioned by the Kelco Company to amend the Federal meat inspection regulations and the Federal poultry products inspection regulations to provide for the use of xanthan gum in various meat and poultry products. Such products contain either meat or poultry or both as ingredients.

Xanthan gum is proposed for use in these products to serve one or more of the following functions:

1. As a viscosity contributor;
2. Suspending agent for solid particles;
3. To enhance mouthfeel and flavor release;
4. As an emulsion stabilizer where thermal breakdown during heat processing may occur;
5. As an inhibitor against moisture migration;
6. As a binder and enhancer of freeze-thaw stability.

The Department has reviewed test data submitted by the petitioner in support of the proposal and has concluded that the results substantially indicate that the use of xanthan gum in meat and poultry food products would serve useful purposes and be otherwise efficacious for the purpose for which it is to be used. Sensory test panels of the Department evaluated the desirability of this substance as an ingredient in various meat food products, such as combinations of meat and gravies or sauces; mixtures of meat and oil base dressings, fillings of frozen specialty foods consisting of meat and poultry, mixed with fruits, vegetables, binders, flavorings, or nuts, and finely emulsified products such as liver pate. The sensory panels indicated substantial preference for the products containing xanthan gum as an ingredient when compared to products in which the substance was not used. Information available to the Department indicates no reason for concern over the use of xanthan gum in meat or poultry products as proposed.

The properties imparted to products by xanthan gum suggest that the test panel's sensory evaluations of the meat food products tested would have been substantially the same for poultry products of the same general nature if used in the tests. The petitioner submitted to the Department information that outlines the characteristics of this gum. This information is on file in the Office of the Hearing Clerk and available for public inspection during regular hours of business.

Information in the petition filed with the Department indicates that xanthan gum has received considerable commercial acceptance as a functional ingredient in the general food area. Some examples follow:

Products	*Percent-Xanthan Gum Levels*
Barbecue sauces	0.15–0.3
Tomato base sauces	0.1 –0.3
Cheese sauce	0.1 –0.3
Canned poultry meat salad	0.4 –0.7
Canned chicken liver pate	0.4 –0.7
Poultry base sandwich spreads	0.09–0.3
Poultry liver spread	0.1 –0.3
Frozen chicken stew	0.1 –0.3
Frozen chicken salad	0.2 –0.6
Batter mixes	0.1 –0.4

Xanthan gum is a polysaccharide gum produced on a commercial basis from the fermentation of corn sugar by the bacterium, *Xanthomonas campestris*. This bacterium is a naturally occurring microorganism which has been isolated from cabbage plants and which has long been known to produce colonies that are viscoid or gummy in nature. Xanthan gum produced by this microorganism has been recognized as nonpathogenic and nontoxic to man or other animals and was approved by the Federal Food and Drug Administration as to safety for use in foods under § 121.1224 of the Code of Federal Regulations (21 CFR 121.1224). This approval provides for the general use of xanthan gum in foods—when used in accordance with good manufacturing practices—to serve as a stabilizer, emulsifier, thickener, suspending agent, or bodying agent where such use is not precluded by a standard of identity for a specific food. It is permitted in several classes of foods standardized under the authority of the Federal Food, Drug, and Cosmetic Act where such standards provide for the use of any safe and suitable emulsifying agent or any safe and suitable stabilizing agent.

The issuance of the food additive regulation for xanthan gum, without quantity limitation, under Section 409 of the Federal Food, Drug, and Cosmetic Act, indicates that safety is not an issue regarding the use of this substance in various products containing meat or poultry ingredients.

Data supplied by the petitioner indicate that the addition of xanthan gum is quantitatively self limiting in the production of food products. This information also indicates that when an amount is used in excess of that necessary to accomplish a desired result, consumer acceptance of such products is adversely affected. Products containing an excessive quantity of xanthan gum acquire a rubbery consistency that is objectionable in both appearance and palatability. (See Table 1 of Exhibit III).

The following information concerning this request has been placed on file in the Office of the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C.: (1) A letter dated June 28, 1971, with an Appendix A entitled "Xanthan Gum, A Natural Product"; (2) Exhibit I, "Xanthan Gum Specification"; (3) Exhibit II which is a copy of the FDA FEDERAL REGISTER notice dated March 19, 1969; and (4) an Exhibit III entitled "Effect of Xanthan Gum at High Levels in Foods."

The proposed amendments to the regulations would allow the use of xanthan gum in various categories of products that contain meat or poultry, or both, in an amount "sufficient for purpose."

Section 318.7(c)(4) of the Federal meat inspection regulations would be amended by adding to the chart in alphabetical order the following information under the heading "Binders":

§ 318.7 Approval of substances for use in the preparation of product.

* * * * * *

(c) * * *

(4) * * *

Class of substance	Substance	Purpose	Product	Amount
Binders	Xanthan gum.	To maintain: Uniform viscosity; suspension of particulate matter; emulsion stability; freeze-thaw stability.	Meat sauces, gravies or sauces and meats, canned or frozen and/or refrigerated meat salads, canned or frozen meat stews, canned chili or chili with beans, pizza topping mixes and batter or breading mixes.	Sufficient for purpose.

* * * * * *

Section 381.147(f)(3) of Subpart O of the poultry products inspection regulations would be amended by adding to the chart in alphabetical order the following information under the heading "Binders and Extenders":

§ 381.147 Restrictions on the use of substances in poultry products.

* * * * * *

(f) * * * (3) * * *

Class of substance	Substance	Purpose	Product	Amount
Binders and Extenders.	Xanthan gum.	To maintain: Uniform viscosity; suspension of particulate matter; emulsion stability; freeze-thaw stability.	Various, except uncooked products or sausages or other products with a moisture limitation established by Subpart P of this Part.	Sufficient for purpose.

* * * * * *

Any person wishing to submit written data, views, or arguments concerning the proposed amendments may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by October 1, 1973.

Any person desiring opportunity for oral presentation of views should address such requests to the Product Standards Staff, Scientific and Technical Services, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for such views to be presented prior to the date specified in the preceding paragraph. A record will be made of all views orally presented.

All written submissions and records of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the Staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[49 CFR Parts 390, 391, 392, 393, 394, 395, 396, 397]

[Docket No. MC-50; Notice No. 73-19]

LIGHTWEIGHT VEHICLE EXEMPTION

Advance Notice of Proposed Rulemaking

The Director of the Bureau of Motor Carrier Safety is in receipt of petitions seeking an exemption for certain lightweight vehicles from the accident-reporting requirements in the Motor Carrier Safety Regulations. The Director has also received a separate petition for a total exemption from the regulations for the operations of all vehicles with a gross vehicle weight rating of 10,000 pounds and under (hereinafter referred to as 10,000-pounds GVWR). The purpose of this Notice is to invite comments on the subjects of the petitions and to announce a schedule for public hearings on those subjects.

The Private Carrier Conference, Inc. of the American Trucking Associations, Inc., has filed two separate petitions. The first petition requests an exemption from the accident-reporting provisions of Part 394 of the Motor Carrier Safety Regulations for service-type vehicles with an unladen weight of 10,000 pounds or less or a laden weight of 16,000 pounds or less, when a vehicle of that weight is (a) used as a tow truck or a mechanic's truck to service or repair other vehicles, provided that the operation of such vehicle is not the primary business of the motor carrier; (b) the vehicle of a driver-salesman; or (c) a vehicle operated by a person in a service trade such as a repairman, plumber, or electrician. The Private Carrier Conference has also petitioned for rulemaking action, seeking an exemption from Parts 391–396 of the Motor Carrier Safety Regulations for the operations of all vehicles of 10,000 pounds GVWR or less, except when such vehicles are engaged in the transportation of passengers or are transporting hazardous materials which would require placarding under the provisions of 49 CFR 177.823.

The American Trucking Associations, Inc., has petitioned the Bureau requesting an amendment to the Motor Carrier Safety Regulations to exempt from the requirements of Part 394, Notification, Reporting and Recording of Accidents, vehicles having a 10,000-pound GVWR or less.

The Private Truck Council of America, Inc., has petitioned the Bureau for an amendment of the definition of reportable accident in § 394.3 to exclude (a) private motor vehicles having a gross weight, including load, of 10,000 pounds or less; and (b) other private motor vehicles operating wholly within a radius of 50 miles of their garage or terminal.

Burlington Industries, Inc., has petitioned the Bureau for a waiver of Parts 391–396 of the Motor Carrier Safety Regulations as applied to Burlington Industries' vehicles utilized in its private intercorporate courier service.

The National Industrial Traffic League has filed a petition for reconsideration supporting the aforementioned petitions filed by the Private Carrier Conference, Inc., and the Private Truck Council of America, Inc., pertaining to exemption from the accident-reporting requirements.

The petitioners, generally, urge that the exemption of lightweight vehicles from the accident-reporting requirements should be granted for the following reasons:

1. The collection of accident reports involving lightweight motor vehicles will distort the accident data base and prevent a meaningful analysis of accidents involving large and articulated motor vehicles. It is argued, for example, that in the case of a department store appliance serviceman who operates a small panel truck for only a minor portion of his time, neither he nor his vehicle would, ordinarily, be subject to the Bureau's regulations, (other than for hours of service and the reporting and recording of accidents) since they are generally confined to commercial zones. For many companies he would generally operate only in intrastate commerce and not be subject to any Motor Carrier Safety Regulations. Thus, because the rules require the reporting of accidents resulting from intrastate as well as interstate operations, the Bureau's records will become distorted, for analytical purposes, by accidents which occur in operations not subject to the Bureau's regulations other than for hours of service and reporting and recording of accidents. It is further argued that the data on service trucks, which carry little except parts, are unreliable and insignificant, and would distort cargo truck statistics. Light truck drivers may drive as little as 10 percent or less of the workday, and figures on their driving would distort the data base. The merging of statistics involving drivers not subject to qualifications under the regulations with those involving drivers who are subject to them, and data relating to small vehicles which are not comparable as to the need for driving ability with those of heavy over-the-road equipment, would produce a conglomeration of data with little or no meaning.

2. Vehicles having a weight of 10,000 pounds or less are not basically used for transportation of property but are used as incidental transportation for another primary business. For example, the primary purpose of these vehicles, which are used by carpet installers, TV and refrigerator repairmen, appliance dealers, and utility companies, is to transport one or more persons, plus their tools and equipment, to and from job sites to enable them to perform a service function which is totally unrelated to the transportation of property.

3. The Motor Carrier Safety Regulations presently provide many exemptions based on the 10,000-pound GVWR limit or on types of operations similar to those for which lightweight vehicles are used. Part 391, Qualification of Drivers, provides an exemption for passenger car operations, farm vehicles having a gross weight of 10,000 pounds or less, and a minimum-age exemption for drivers of vehicles weighing 10,000 pounds or less. Part 393, Parts and Accessories Necessary for Safe Operation, contains numerous sections which would not be applicable to lightweight motor vehicles. Part 395, Hours of Service of Drivers, exempts driver-salesmen from weekly hours limitations under certain conditions, and exempts drivers of 10,000-pound GVWR vehicles from daily hours-of-service requirements and the requirement for maintaining daily logs. It is argued that the common purpose of these existing exemptions is to avoid application of the regulations to lightweight vehicles and to vehicles engaged in short-run local operations when compliance with the rules would be unlikely to result in any contribution to safety that is either significant or commensurate with the burdens upon small and local truck operators, their employees, customers, and the Government. It is submitted that the same considerations apply with respect to accident-reporting requirements pertaining to lightweight vehicles.

4. Basically, the lightweight commercial vehicle or truck, has the same physical and operating characteristics, and requires the same driving skills, as a passenger automobile. It is argued that any differences are so minor that the Bureau will not derive data from such accident reports which will shed significant light on the cause or prevention of accidents different from what can be obtained from reports of passenger car accidents. It is also pointed out that the Bureau recently exempted 10,000-pound GVWR vehicles operating under contract with the U.S. Postal Service, and their drivers, from certain provisions of the Motor Carrier Safety Regulations, and that the National Highway Traffic Safety Administration, in its regulations, has recognized the validity of the 10,000-pound GVWR limit to distinguish vehicles having basic characteristics similar to those of passenger cars and vehicles significantly different by reason of size, weight, construction and configuration.

5. It is alleged that it will be extremely difficult, if not impossible, for the Bureau to establish contact with the tens of thousands of small businessmen who operate small trucks in interstate commerce and who have no knowledge of the Bureau's regulations. It is submitted that the resultant problems of enforcement will not be conducive to uniform and effective administration of the regulations.

6. Concern is expressed over the possibility that a substantial increase in the volume of accident reports stemming from extension of the reporting requirements to private carriers may lead to further delays in the publication of accident data by the Bureau.

In its petition for total exemption from the Motor Carrier Safety Regulations for all vehicles with a gross weight rating of 10,000 pounds or under, the Private Carrier Conference reiterates many of the arguments set forth above. In addition, the petitioner sets forth the following arguments in support of the requested exemption:

It is pointed out that the driver-salesman exemption in Part 395 gives recognition to the principle that certain occupations, although they do involve driving to some extent, are not basically "drivers" and should be regulated in a manner which differs from that of persons whose principal occupation is driving per se. The net result of the Part 395 exemptions is to already authorize the exemptions requested in the petition except for what is characterized as the illogical exception of exempting driver-salesmen from the weekly on-duty requirements while not extending this same exemption to others, even more numerous, such as service-type personnel and warehousemen who drive much fewer hours per week, on the average, than driver-salesmen.

It is submitted that the requested 10,000-pound GVWR exemption is closely allied to the commercial zone exemption, which is alleged to be artificially based. The petitioner urges that it would be more logical to relate the exemption to vehicle size. While a very high percentage of lightweight vehicles operate only within commercial zones, only a very small percentage of carriers are exempt from regulation in regard to such vehicles because they are occasionally operated under conditions making them subject to regulation. Under these circumstances, the petitioner claims, carriers are faced with the alternative of qualifying all vehicles and drivers even though many would not be subject to regulation, or selecting certain drivers and vehicles which would operate subject to regulation. It is alleged that this choice of alternatives poses an insuperable operating problem for many carriers. The petitioner is opposed to the principle of requiring operators of 10,000-pound GVWR vehicles to qualify under the Motor Carrier Safety Regulations, particularly when the operators of these vehicles are not basically drivers, but, rather, are essentially TV repairmen, upholsterers, kitchen-appliance installers or repairmen, construction workers, and other tradesmen. Of necessity, their occupations require them to drive these vehicles occasionally in interstate commerce. It is submitted that thousands of these operators have not been qualified as drivers under the regulations, that many could not qualify, and that it would be difficult, if not impossible, to replace such persons if they could not meet the requirements of the regulations.

Burlington Industries, in its petition, points out that its intercorporate courier service operates over scheduled routes in several states and New York City, serving Burlington's plant and office locations. The service handles internally throughout the company material such as: memoranda, payroll and data processing information; packages, parcels, and cartons that would generally be shipped between plant locations through a commercial parcel express company; and special items requiring quick transportation in emergency situations. All of the vehicles presently used are within the 10,000-pound GVWR limit. It is alleged that the staff assigned to operate the courier service is incurring significant administrative burdens in meeting the various requirements of the regulations, and that this burden is exacerbated in light of the fact that Burlington maintains its own internal safety procedures.

Burlington submits that its courier service is very similar to an intracity or commercial zone delivery operation. It analogizes its situation to the exemption recently granted for lightweight mail trucks, alleging that its service is an operation similar in nature to the operations of such contract mail carriers. Internal regulations have been promulgated by the company, and there is a corporate policy of motor carrier safety. It is argued that the Motor Carrier Safety Regulations are an administrative burden and do not enhance the safety of the Burlington operation.

To assist him in determining whether the Motor Carrier Safety Regulations should be amended to provide an exemption from the accident-reporting requirements for certain lightweight vehicles, an exemption from Parts 391–396 of the regulations for Burlington Industries' 10,000-pound GVWR vehicles utilized in its courier service, or an exemption for all 10,000-pound GVWR vehicles from Parts 391–396, the Director invites interested persons to submit written data, views, or arguments pertaining to the subject matter of the petitions.

The Director recognizes that there apparently is no general consistency among the various administrative exemption clauses with regard to defining what a "lightweight vehicle" is or in specifying the circumstances in which the exemption attaches. There are also some apparent inconsistencies with respect to exemptions based on geography. Therefore, the Director will review the overall picture of administrative exemptions based on vehicle size and weight, and geography of operation, for the purpose of determining whether a general policy on the subject of such exemptions can be evolved.

Interested persons are invited to submit written data, views, and arguments pertaining to these issues for consideration.

Comments, identifying the docket number and the notice number, should be submitted in three copies to the Bureau of Motor Carrier Safety, Federal Highway Administration, Washington, D.C. 20590. All comments received before the close of business on January 15, 1974 will be considered before further action is taken. Comments will be available for examination in the public docket in Room 4136, 400 Seventh Street, SW., Washington, D.C. both before and after the closing date for comments.

In order to give all interested persons an additional opportunity to state their views on the petitions and other matters covered in this Notice, the Director announces that he will hold public hearings in the following cities as indicated below:

Location	*Dates*
Washington, D.C.	September 18, 1973
San Francisco, Calif.	October 10, 1973
Kansas City, Kansas	November 1, 1973

The hearings will be informal, and will be conducted by the Administration pursuant to 49 CFR 389.27. They will not be judicial or evidentiary-type hearings. There will be no cross-examination of persons presenting statements. A member of the staff of the Federal Highway Administration will make a brief opening statement about the nature of the proceeding. Interested persons will then have an opportunity to present initial oral statements. Supplemental written statements will also be received. Statements should focus on the issues raised in this notice. After all initial statements have been completed, those persons who wish to make rebuttal statements will be given the opportunity to so do in the same order in which they made their initial statements. Additional procedures for the conduct of the hearings will be announced at a later date.

Interested persons are invited to attend the hearings and present oral or written statements on the matters set for the hearings. These statements will be made a part of the record of the hearings, the transcript of which will be a matter of public record. Any person who wishes to make an oral statement at the hearings should notify the Director of the Bureau of Motor Carrier Safety by September 7, 1973, stating the amount of time required for his initial statement. An announcement of the time and exact location of these hearings will be made in the FEDERAL REGISTER as soon as possible.

All communications concerning these hearings should be addressed to the Bureau of Motor Carrier Safety, Washington, D.C. 20590.

This notice is issued under the Authority of section 204 of the Interstate Commerce Act, as amended (49 U.S.C. 304), section 6 of the Department of Transportation Act (49 U.S.C. 1655), and the delegations of authority in §§ 1.48 and 389.4 of Title 49, CFR.

Issued on July 17, 1973.

ROBERT A. KAYE,
Director, Bureau of Motor Carrier Safety.

CIVIL AERONAUTICS BOARD

[14 CFR Part 241]

[Docket No. 25704; EDR-250]

FORM 41 SCHEDULES B-46, G-41, G-42, AND G-43

Proposed Reporting Requirements

Notice is hereby given that the Civil Aeronautics Board has under consideration proposed amendments to Part 241 of the Economic Regulations which would: (1) Revise Form 41 Schedules B-46, G-41, G-42, and G-43 of Part 241 and applicable reporting requirements; (2) extend the applicability of Schedule B-46 and certain portions of Schedule G-42 to a "person controlling an air carrier" as defined therein; and (3) add new Form 41 Schedule A-2 to Part 241 and applicable reporting requirements. The principal features of the proposed amendment are discussed in the attached Explanatory Statement, and the proposed amendment is set forth in the proposed rule. The amendment is proposed under the authority of sections 204(a), 407, and 408(d) of the Federal Aviation Act of 1958, as amended (72 Stat. 743, 766 (as amended by 83 Stat. 103), 767 (as amended by 74 Stat. 901, 83 Stat. 103); 49 U.S.C. 1324, 1377, 1378).

Interested persons may participate in the proposed rule making through submission of twelve (12) copies of written data, views, or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before August 29, 1973, will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 712, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., upon receipt thereof.

Dated: July 16, 1973.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

Explanatory statement. The increase in diversified activities of certificated air carriers has brought forth a corresponding development in the number of corporate reorganizations whereby the air carrier becomes a subsidiary or an affiliate of a controlling company. In effect, these parent-subsidiary or control relationships link the air carrier functions with those of the person controlling it in regard to debt capacity, stockholdings and corporate positions of authority. While these corporate reorganizations and mergers may have as their objective the strengthening of the combined organizations' financial base and profit potential, such control relationships can lead to the dilution of the resources of the regulated activity and thus adversely affect its potential for growth and service. Therefore, the public interest requires that the Board be kept fully informed of such relationships and activities in order that the Board may effectively discharge its regulatory responsibilities, and, in particular, take action which may be necessary to prevent the control relationships from impairing regulated air transport activities.

The Board's present reporting requirements are predicated primarily upon the concept of single entity corporate reporting, and thus tend to obscure the Board's view of the true proprietary and management functions resulting from the above-mentioned control relationships; this, in turn, hinders the Board's evaluation of the effect of such relationships on the public interest. Moreover, the present reporting requirements raise questions whether the results of the regulated air transport operations, as distinct from any unregulated activities in which the controlling person may be engaged, are being fairly presented, and whether the Board has complete information with respect to the coordination of multiple activities.

For these reasons, we are proposing herein to revise Form 41 Schedules B-46 and G-42, which, inter alia, require reports with respect to trade debt and security interests, so that they will apply to both the air carrier and the person controlling the air carrier. In addition, we are also proposing to require that all persons controlling an air carrier submit a new Form 41 Schedule A-2 (controlling person's certification) at the time they submit Schedules B-46 and G-42. However, for the purpose of these reports, we are proposing a limited definition of "control" since we think it would be sufficient here to reach only persons whom the Board has actually found to control an air carrier, or who own at least a 50-percent interest of an air carrier's outstanding voting securities, or capital, instead of attempting to reach persons owning as little as 10 percent, which is the statutory test of presumptive control, as set forth in section 408(f). A controlling person required to report on Schedules A-2, B-46 and G-42 would thus be a person who has been found to control an air carrier or who holds, directly or indirectly, 50 percent or more of the voting securities or capital of an air carrier, unless such person makes a proper showing to the Board that he does not control the carrier despite such stock ownership.[1] However, we are not proposing to require such controlling persons to report on Schedule G-42, insofar as it requires a report of compensation and expenses paid to officers and directors of the reporting entity.

In addition to the foregoing, we are proposing revisions to Schedule G-41 and certain other modifications to Schedule G-42. The revisions to Schedule G-41 relate to forms of control which can be used to influence carrier management. Under present regulations, air carriers identify, on the schedule, persons holding record ownership of 5 percent or more of their securities. In many instances, the record owner neither possesses nor exercises the right to vote the reported shares; yet such right is the one most obviously associated with control of, or the power to control, airline securities. It is, therefore, proposed that there be disclosed, on Schedule G-41, the name of any person, other than the record owner, who possesses or exercises voting rights with respect to the reported securities. This information will better enable the Board to locate and identify those persons who may be in a position to acquire control of an air carrier through control of the voting rights to a substantial block of the carrier's stock; and also to monitor the disclosure requirements which Part 245 of our regulations imposes on 5 percent shareholders of air carriers.

Turning to Schedule G-42, we believe that the emphasis of this schedule should now be directed primarily toward the security interests of an air carrier held by the officers and directors of the carrier itself or of the person controlling the air carrier. Accordingly, we propose to revise the schedule so as to require disclosure of stock options held by each of the reporting carrier's officers and directors as well as the capital stock and debt held by such individuals with respect to which reports are presently required. In addition, we believe it is desirable to decrease the present burden to carriers of reporting individually the compensation and expenses borne by the carrier for each officer and director, and reporting the aggregate of such sums paid to all general management personnel receiving $20,000 or more per calendar year. To that end, we propose to modify the compensation reporting requirements of said schedule so that: (1) Expenses of officers and directors for which reimbursement is made by the carrier will no longer be reported; (2) carriers will be required to report the individual compensation paid to each of their respective officers and directors who receive, in the case of trunkline carriers and Pan American, $50,000 or more per calendar year, or, in the case of all other carriers, who receive $35,000 or more per calendar year; (3) compensation paid annually to all officers and directors earning below the above-stated dollar minimums will be reported only in the aggregate; (4) reports will no longer be required with respect to compensation paid to general management personnel.

Our purpose in proposing the foregoing changes is to bring the reporting requirements of Schedule G-42 more closely in line with what we believe to be their appropriate informational objectives, and also to appreciably lighten the burden entailed in complying with such requirements in instances where to do so will not impair—at least to any significant extent—the Board's compensation disclosure system. Thus, we propose to delete the requirements to disclose on the schedule reimbursable expenses of officers and directors and the aggregate

[1] Consistent with an analogous provision in Part 246 with respect to reports of stock ownership of "affiliates" of air carriers, the proposed definition of "control" does not impute ownership of air carriers' stocks to brokerage firms which hold record ownership of securities merely for the convenience of the customer beneficially owning such stock.

annual compensation of general management personnel because over the years this information has proven to be of little value to us for our regulatory purposes. On the other hand, we are of the view that the Board and the public have a traditional and legitimate interest in knowing the precise amount of compensation paid annually to individuals at the highest echelons of carrier management. We believe the dollar minimums we are proposing to establish with respect to reporting individual executive compensation are low enough to enable the Board to obtain reports of remuneration paid by the carriers to their top level officer and director personnel, but, at the same time, high enough to reflect current cost levels and reduce considerably the administrative workload imposed on carriers by the present regulations.

The proposed rule also reflects our consideration of a longstanding proposal by the Corporate Accounting Committee (Committee) of the Airline Finance and Accounting Conference of the Air Transport Association of America to raise from $5,000 to $20,000 the minimum dollar reporting limitations for Schedule G-43.[2] The Committee's analysis of the Schedule G-43 reports for 1968 and 1969 indicate that the proposed increase of minimum amounts would substantially reduce the workload and size of this schedule. Our staff reviews of the carriers' records and reports have tended to substantiate the Committee's analysis in this respect, and have further indicated that, even if the present $5,000 minimum were raised to $20,000, Schedule G-43 would still cover nearly 95 percent of the dollars paid and accrued by the carriers. Therefore, we are proposing to revise Schedule G-43 as suggested.

The Board also proposes to amend Schedules G-42 and G-43 in certain other respects. We note that it is becoming increasingly common for corporate carriers to provide selected officers and directors with deferred compensation arrangements. Such agreements may take various forms, but they typically provide that payments thereunder are to be deferred until the employee's retirement or termination of employment with the air carrier. However, since Schedule G-42 presently calls for reporting on a cash basis rather than on an accrual basis, such deferred compensation is not reported, although information as to such deferred compensation is clearly desirable. We are therefore proposing to require that Schedule G-42 data be reported on an accrual basis. Moreover, since virtually all other Form 41 reporting is now done on an accrual basis, we are proposing to require that Schedule G-43 data be reported on an accrual basis. We are of the tentative view that these revisions would result in greater consistency and comparability among the various carriers' books, records, and reports.

Furthermore, in order to remove any ambiguity as to the proper prescribed classification of directors' fees in Schedule G-42, the proposed revised instructions for Schedule G-42 would clarify that directors' fees are to be reported in column 3, where bonuses and other compensation paid currently are reflected.

Finally, the proposed rule contains certain other revisions to Part 241 affecting the Form 41 schedules discussed herein; these are clarifying in nature and provide for more detailed instructions as to the data to be reported. The change in format for Schedule G-42 is being proposed to accommodate the data now being requested, and the proposed smaller size (8½'' x 14'') for this schedule and Schedule B-46 is consistent with our program to eliminate the carbon set Form 41 schedules.

Proposed rule. It is proposed to amend Part 241 of the Economic Regulations (14 CFR Part 241) as follows:

1. Amend Section 03—Definitions for Purposes of this System of Accounts and Reports, by inserting the terms "Controlling person" and "Person controlling an air carrier" as follows:

Section 03—Definitions for Purposes of This System of Accounts and Reports.

* * * * * * *

Control (including the terms Controlling, Controlled by, and Under common control). * * *

Controlling person—(See Person controlling an air carrier)

Cost—the amount of cash * * *

* * * * * * *

Passengers transported—passengers on board * * *

Person controlling an air carrier—any person, as defined in section 101(27) of the Act, whom the Board has found, in any proceeding, to control an air carrier, or who holds, directly or indirectly, the legal or beneficial ownership of more than 50 percent of the outstanding voting capital stock or capital of an air carrier, and who does not make a proper showing to the Board that he does not control the carrier despite such stock ownership, shall be deemed to be a person controlling the carrier for the purpose of this part. A brokerage firm which holds record ownership of securities merely for the convenience of the customer beneficially owning the stock shall not be deemed a person owning stock for the purposes of this part.

Premium * * *

* * * * * * *

Section 22 [Amended]

2. Amend Section 22—General Reporting Instructions, as follows:

A. By adding new Schedule A-2 and by changing the respective titles of Schedules G-42 and G-43 in the list in paragraph (a), titled "List of Schedules in CAB Form 41 Report," as follows:

LIST OF SCHEDULES IN CAB FORM 41 REPORT

Schedule No.	Schedule title	Filing frequency
* * *	* * *	* * *
A-2	Controlling Person's Certification.	Annually.
* * *	* * *	* * *
G-42	Security Interests of All Officers and Directors and Compensation Paid to Principal Officers and Directors.	Do.
G-43	Compensation and Expenses of Persons and Firms (Other than Directors, Officers, and Employees) Earning $20,000 or More During the Calendar Year.	Do.
* * *	* * *	* * *

B. By adding new Schedule A-2 to the list in paragraph (a), titled "Due Dates of Schedules in CAB Form 41 Report," as follows:

DUE DATES OF SCHEDULES IN CAB FORM 41 REPORT

Due Date[1]	Schedule Number
* * *	* * *
March 1	
March 30	A-2, B-1, B-9, B-41, B-42, B-43, B-44, B-46, P-1(a), P-41, G-41, G-42, G-43, G-44, T-1, T-7
April 30	
* * *	* * *

Section 23 [Amended]

3. Amend Section 23—Certification and Balance Sheet Elements, as follows:

A. By inserting, following the reporting instructions for Schedule A-1 and preceding the reporting instructions for Schedule B-1, reporting instructions for Schedule A-2, to read as follows:

Schedule A-2—Controlling Person's Certification.

(a) The certification of the controlling person's CAB Form 41 report shall be signed by an elective corporate officer, executive or director, or by such other person as may be authorized by the controlling person to sign the certification, provided that a written authorization disclosing the individual's name and title is submitted to the Civil Aeronautics Board. Since corrections or revisions of reported data are a part of the report of the person controlling an air carrier, all correspondence relating to such matters shall be signed only by persons authorized to sign such certifications.

(b) The certification of the controlling person's Form 41 report, embodied in Schedule A-2 thereof, shall read as follows:

[2] Compensation and Expenses of Persons and Firms (other than Directors, Officers, and Employees) Earning $20,000 or more During the Calendar Year.

V 38-140 JUL 23 73 XUM

I, the undersigned _____
_____
(Title, if any, of person signing)
of the _____
(Full name of person controlling air carrier)
do certify that Schedules B–46 and G–42 which are submitted herewith for the above-indicated period have been prepared by me or under my direction; that I have carefully examined them, and that, to the best of my knowledge and belief, they are complete and accurate statements.

B. By revising the reporting instructions for Schedule B–46 to read: *Schedule B–46—Long-Term and Short-Term Non-Trade Debt.*

(a) This schedule shall be filed by all route air carriers and all persons controlling a route air carrier, and shall reflect information pertaining to each issue of long-term debt and short-term debt (other than trade liabilities) of the air carrier or the person controlling the air carrier, as applicable, in excess of 5 percent of their respective total outstanding debt.

(b) Single but separate sets of this schedule shall be filed for the overall corporate or other legal entity comprising the air carrier or the person controlling the air carrier, as the case may be.

(c) An "x" shall be inserted in the appropriate box designated "Controlling Person" or "Air Carrier," as applicable.

(d) Column 1 shall reflect a description of each particular issue of debt, such as "Sinking Fund Debentures," "Bank Notes," "Credit Agreement," etc. This column shall also reflect for each issue a brief description of the terms of payment and, where applicable, conversion privileges, including conversion periods, rates of conversion and the securities into which convertible.

(e) Columns 2, 3 and 4 shall reflect the date of issue, date of maturity, and the interest rate per annum, respectively.

(f) Column 5 shall reflect the amount of bonds or other evidences of debt originally issued, as distinguished from the amount authorized.

(g) Column 6 shall reflect the face value or principal amount of debt securities issued or assumed which have not been retired or canceled, and are not payable within one year of the reporting date.

(h) Column 7 shall reflect the face value of all notes, drafts, acceptances or other similar evidences of indebtedness payable on demand or within one year, including the portion of long-term debt due within one year of the reporting date.

(i) For route air carriers, the totals in columns 6 and 7 shall reflect the balance outstanding as at the end of the reporting period in accounts 2210 Long-Term Debt and 2010 Current Notes Payable on Schedule B–1, respectively.

(j) Columns 8 and 9 shall reflect the name and address of each person holding more than 5 percent of the issue or $500,000, whichever is smaller, and the amount held by each such person as at December 31.

Section 26 [Amended]

4. Amend Section 26—General Corporate Elements, by revising the reporting requirements for Schedules G–41, G–42, and G–43, to read as follows:

Schedule G–41—Persons Holding More than 5 Percent of Respondent's Capital Stock or Capital.

(a) This schedule shall be filed by all route air carriers.

(b) A single set of this schedule shall be filed for the overall corporate or other legal entity comprising the air carrier.

(c) Columns 1 and 2 shall reflect the names and addresses of all persons who hold, as of the end of any month of the year, more than five (5) percent of the issued and outstanding capital stock of the air carrier or, in the case of an unincorporated business enterprise, more than five (5) percent of the total invested capital of the air carrier.

(d) Column 3, "Held for Own Account," shall reflect by either of the words "yes" or "no," whether or not the interest is held for the account of the person named in column 1. In cases where the answer is "no," the name and address of the persons for whose account the interest is held shall be reflected in the section entitled "Column 3 Data—Stock Held for Account of."

(e) Columns 4 through 7 shall pertain to the capital stock or the invested capital (exceeding 5 percent) held by the persons named in column 1. Column 4 shall reflect the class(es) of those shares held; column 5 shall reflect the maximum number of shares of each class of stock or the maximum amount of invested capital held as of the end of any month of the year; column 6 shall reflect the percent of total outstanding capital which such maximum shares or maximum invested capital represent; and column 7 shall reflect the number of such shares or amount of invested capital held at year end.

(f) Column 8 shall reflect by either of the words "yes" or "no" whether or not the voting rights were possessed and/or exercised by the person named in column 1 at the annual stockholders' meeting or at any other stockholders' meetings. In cases where the answer is "no," the name and address of the persons who possessed and/or exercised the voting rights, the class(es) and number of shares to which such rights extended and the date of the meeting(s) shall be reflected in the section entitled "Column 8 Data—Voting Rights Possessed and/or Exercised by."

Schedule G–42—Security Interests of All Officers and Directors and Compensation Paid to Principal Officers and Directors.

(a) This schedule shall be filed by all route air carriers and all persons controlling a route air carrier.

(b) Single but separate sets of this schedule shall be filed for the overall corporate or other legal entity comprising the air carrier or the person controlling the air carrier, as the case may be.

(c) An "x" shall be inserted in the appropriate box designated "Controlling Person" or "Air Carrier," as applicable.

(d) For purposes of preparing this schedule, directors are those individuals who comprise the Board of Directors of the air carrier or the controlling person, as applicable, and officers are those corporate officials who are elected or appointed by the Board of Directors of the air carrier or the controlling person, as applicable.

(e) Air carriers are required to complete columns 1 through 7 of the "Security Interests" section and columns 1 through 4 of the "Compensation" section of this schedule. Persons controlling an air carrier are required to complete only columns 1 through 7 of the "Security Interests" section.

(f) In the "Security Interests" section of this schedule, the required information shall be reported individually for each officer and director, and in the "Compensation" section, trunklines and Pan American shall report individually the compensation paid to each officer and director receiving $50,000 or more during the calendar year while all other carriers shall report individually the compensation paid to each officer and director receiving $35,000 or more per calendar year. "Compensation" includes basic salary, bonuses and deferred compensation.

(g) In the "Security Interests" section of this schedule, column 1 shall reflect the name and title of each officer and director, and columns 2 through 7 shall reflect the security interests that each officer and director of the air carrier or the controlling person, as applicable, holds in the air carrier as at December 31. Column 2 shall reflect the class of capital stock, bonds or other securities owned; column 3 shall reflect the number of shares of stock which are on record in the name of each officer and director; column 4 shall reflect the number of shares of stock owned or controlled by each officer and director which are on record in the name of another person; column 5 shall reflect the principal amount of bonds or other debt securities held in the name of, or for the account of, each officer and director; column 6 shall reflect the class(es) of stock on which any options are held; and column 7 shall reflect the number of shares of such stock which could be purchased if the options were exercised. All other security interests that each officer and director has in the air carrier shall be reported as a footnote.

(h) In the "Compensation" section of this schedule, trunkline carriers and Pan American shall report in column 1 the name and title of each officer and/or director receiving compensation of $50,000 or more during the calendar year. All other carriers shall report the name and title of each officer and/or director receiving compensation of $35,000 or more per calendar year. "Compensation" includes basic salary, bonuses and deferred compensation and shall be reported in columns 2 through 4 for each officer and/or director individually listed in column 1. Columns 2 through 4 shall also reflect the aggregate compensation paid to the remaining officers and directors not individually listed in column 1.

(i) Column 2 shall reflect the salaries earned during the year and paid currently; column 3 shall reflect all direct or indirect compensation other than salaries, such as bonuses, commissions, stock options, gifts, rewards, or directors' fees earned during the year and paid currently; and column 4 shall reflect any portion of salaries, bonuses or other compensation charged to expense during the year by the air carrier, but not paid currently because of an employment agreement or other agreements providing for future payments, i.e., deferred compensation contracts.

Schedule G–43—Compensation and Expenses of Persons and Firms (Other than Directors, Officers and Employees) Earning $20,000 or More During the Calendar Year.

(a) This schedule shall be filed by all route air carriers.

(b) A single set of this schedule shall be filed for the overall corporate or other legal entity comprising the air carrier.

(c) The indicated data shall be reported for each individual, partnership, corporation, or other legal entity (other than directors, officers, and employees of the air carrier) earning compensation, including expense reimbursements, of $20,000 or more during the calendar year.

(d) Compensation and expenses to be reported in this schedule shall include fees, retainers, gifts, commissions, contributions, allowances for expenses or any form of payments or accruals amounting in the aggregate to $20,000 or more during the year. In addition to expense reimbursements paid or to be paid directly to the recipients reflected in column 1, this schedule shall include expenses incurred by the persons or firms named in column 1 which have been paid or are to be paid directly to vendors by the air carrier. Expenses to be reported in this schedule shall encompass payments and accruals such as for legal, medical, engineering, advertising, accounting, statistical, educational, or charitable purposes, but shall exclude payments and accruals for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine physical operation or maintenance of an air carrier, such as payments and accruals for rent of buildings or property, for heat, light, power, telegraph and telephone or, as applicable, payments or amounts to be paid to other carriers for interchange of equipment or settlement of interline traffic balances.

(e) All directors, officers, and employees of the air carrier affiliated with any of the persons or firms listed on this schedule and the nature of such affiliations shall be fully disclosed in footnotes at the bottom of the schedule.

Section 32 [Amended]

5. Amend Section 32—General Reporting Instructions as follows:

A. By adding new Schedule A–2 and by changing the respective titles of G–43 in the list in paragraph (a), titled "List of Schedules in CAB Form 41 Report" as follows:

LIST OF SCHEDULES IN CAB FORM 41 REPORT

Schedule No.	Schedule Title	Filing frequency
• • •	• • •	• • •
A–1 • • •		
A–2	Controlling Person's Certification.	Annually.
B–1 • • •	• • •	• • •
G–41 • • •		
G–42	Security Interests of All Officers and Directors and Compensation Paid to Principal Officers and Directors.	Do.
G–43	Compensation and Expenses of Persons and Firms (Other than Directors, Officers, and Employees) Earning $20,000 or More During the Calendar Year.	Do.
G–44 • • •		
• • •	• • •	• • •

Section 33 [Amended]

6. Amend Section 33—Certification and Balance Sheet Elements as follows:

A. By inserting, following the reporting instructions for Schedule A–1 and preceding the reporting instructions for Schedule B–1, reporting instructions for Schedule A–2, to read as follows:

Schedule A–2—Controlling Person's Certification.

(a) The certification of the controlling person's CAB Form 41 report shall be signed by an elective corporate officer, executive or director, or such other person as may be authorized by the controlling person to sign the certification, provided that a written authorization disclosing the individual's name and title is submitted to the Civil Aeronautics Board. Since corrections or revisions of reported data are a part of the report of the person controlling an air carrier, all correspondence relating to such matters shall be signed only by persons authorized to sign such certifications.

(b) The certification of the controlling person's Form 41 report, embodied in Schedule A–2 thereof, shall read as follows:

I, the undersigned _____
_____
(Title, if any, of person signing)
of the _____
(Full name of person controlling air carrier)
do certify that Schedules B–46 and G–42 which are submitted herewith for the above-indicated period have been prepared by me or under my direction, that I have carefully examined them, and that, to the best of my knowledge and belief, they are complete and accurate statements.

B. By adding new Schedule A–2 to the list in paragraph (a) titled "Due Dates of Schedules in CAB Form 41 Report" as follows:

DUE DATES OF SCHEDULES IN CAB FORM 41 REPORT

Due Date[1]	Schedule Number
•	•
March 1 • • •	
March 30	A–2, B–11, B–41, B–43, B–44, B–46, G–41, G–42, G–43, G–44, T–3.1
April 30 • • •	
•	•

B. By revising the reporting instructions for Schedule B–46 to read: *Schedule B–46—Long-Term and Short-Term Non-Trade Debt.*

(a) This schedule shall be filed by each supplemental air carrier and each person controlling a supplemental air carrier, and shall reflect information pertaining to each issue of long-term debt and short-term debt (other than trade liabilities) of the air carrier or the person controlling the air carrier, as applicable, in excess of 5 percent of their respective total outstanding debt.

(b) Single but separate sets of this schedule shall be filed for the overall corporate or other legal entity comprising the air carrier or the person controlling the air carrier, as the case may be.

(c) An "x" shall be inserted in the appropriate box designated "Controlling Person" or "Air Carrier," as applicable.

(d) Column 1 shall reflect a description of each particular issue of debt, such as "Sinking Fund Debentures," "Bank Notes," "Credit Agreement," etc. This column shall also reflect for each issue a brief description of the terms of payment and, where applicable, conversion privileges, including conversion periods, rates of conversion and the securities into which convertible.

(e) Columns 2, 3 and 4 shall reflect the date of issue, date of maturity, and the interest rate per annum, respectively.

(f) Column 5 shall reflect the amount of bonds or other evidences of debt originally issued, as distinguished from the amount authorized.

(g) Column 6 shall reflect the face value or principal amount of debt securities issued or assumed which have not been retired or cancelled, and are not payable within one year of the reporting date.

(h) Column 7 shall reflect the face value of all notes, drafts, acceptances or other similar evidences of indebtedness payable on demand or within one year, including the portion of long-term debt due within one year of the reporting date.

(i) For supplemental air carriers, the totals in columns 6 and 7 shall reflect the balances outstanding as at the end of the reporting period in accounts 2210 Long-Term Debt and 2010 Current Notes Payable on Schedule B–1, respectively.

(j) Columns 8 and 9 shall reflect the name and address of each person holding more than 5 percent of the issue or $500,000, whichever is smaller, and the amount held by each such person as at December 31.

Section 36 [Amended]

7. Amend Section 36—General Corporate Elements, by revising the reporting

V 38-140 JUL 23 73 XUM

requirements for Schedules G–41, G–42, and G–43 to read as follows:

Schedule G–41—Persons Holding More than 5 Percent of Respondent's Capital Stock or Capital.

(a) This schedule shall be filed by each supplemental air carrier.

(b) A single set of this schedule shall be filed for the overall corporate or other legal entity comprising the air carrier.

(c) Columns 1 and 2 shall reflect the names and addresses of all persons who hold, as of the end of any month of the year, more than five (5) percent of the issued and outstanding capital stock of the air carrier or, in the case of an unincorporated business enterprise, more than five (5) percent of the total invested capital of the air carrier.

(d) Column 3, "Held for Own Account," shall reflect by either of the words "yes" or "no," whether or not the interest is held for the account of the person named in column 1. In cases where the answer is "no" the name and address of the persons for whose account the interest is held shall be reflected in the section entitled "Column 3 Data—Stock Held for Account of."

(e) Columns 4 through 7 shall pertain to the capital stock or the invested capital (exceeding 5 percent) held by the persons named in column 1. Column 4 shall reflect the classs(es) of those shares held; column 5 shall reflect the maximum number of shares of each class of stock or the maximum amount of invested capital held as of the end of any month of the year; column 6 shall reflect the percent of total outstanding capital which such maximum shares or maximum invested capital represent; and column 7 shall reflect the number of such shares or amount of invested capital held at year end.

(f) Column 8 shall reflect by either of the words "yes" or "no" whether or not the voting rights were possessed and/or exercised by the person named in column 1 at the annual stockholders' meeting or at any other stockholders' meetings. In cases where the answer is "no," the name and address of the persons who possessed and/or exercised the voting rights, the class(es) and number of shares to which such rights extended and the date of the meeting(s) shall be reflected in the section entitled "Column 8 Data—Voting Rights Possessed and/or Exercised by."

Schedule G–42—Security Interests of All Officers and Directors and Compensation Paid to Principal Offiers and Directors.

(a) This schedule shall be filed by each supplemental air carrier and each person controlling a supplemental air carrier.

(b) Single but separate sets of this schedule shall be filed for the overall corporate or other legal entity comprising the air carrier or the person controlling the air carrier, as the case may be.

(c) An "x" shall be inserted in the appropriate box designated "Controlling Person" or "Air Carrier," as applicable.

(d) For purposes of preparing this schedule, directors are those individuals who comprise the Board of Directors of the air carrier or the controlling person, as applicable, and officers are those corporate officials who are elected or appointed by the Board of Directors of the air carrier or the controlling person, as appropriate.

(e) Air carriers are required to complete columns 1 through 7 of the "Security Interests" section and columns 1 through 4 of the "Compensation" section of this schedule. Persons controlling an air carrier are required to complete only columns 1 through 7 of the "Security Interests" section.

(f) In the "Security Interests" section of this schedule, the required information shall be reported individually for each officer and director, and in the "Compensation" section of this schedule, the required information shall be reported individually for each officer receiving compensation of $35,000 or more per calendar year. "Compensation" includes basic salary, bonuses and deferred compensation.

(g) In the "Security Interests" section of this schedule, column 1 shall reflect the name and title of each officer and director, and columns 2 through 7 shall reflect the security interests that each officer and director of the air carrier or the controlling person, as applicable, holds in the air carrier as at December 31. Column 2 shall reflect the class of capital stock, bonds, or other securities owned; column 3 shall reflect the number of shares of stock which are on record in the name of each officer and director; column 4 shall reflect the number of shares of stock owned or controlled by each officer and director which are on record in the name of another person; column 5 shall reflect the principal amount of bonds or other debt securities held in the name of, or for the account of, each officer and director; column 6 shall reflect the class(es) of stock on which any options are held; and column 7 shall reflect the number of shares of such stock which could be purchased if the options were exercised. All other security interests that each officer and director has in the air carrier shall be reported as a footnote.

(h) In the "Compensation" section of this schedule, supplemental carriers shall report in column 1 the name and title of each officer and/or director receiving compensation of $35,000 or more per calendar year. "Compensation" includes basic salary, bonuses and deferred compensation and shall be reported in columns 2 through 4 for each officer and/or director individually listed in column 1. Columns 2 through 4 shall also reflect the aggregate compensation paid to the remaining officers and directors not individually listed in column 1.

(i) Column 2 shall reflect the salaries earned during the year and paid currently; column 3 shall reflect all direct or indirect compensation other than salaries, such as bonuses, commissions, stock options, gifts, rewards, or directors' fees earned during the year and paid currently; and column 4 shall reflect any portion of salaries, bonuses or other compensation charged to expense during the year by the air carrier, but not paid currently because of an employment agreement or other agreements providing for future payments, i.e., deferred compensation contracts.

Schedule G–43—Compensation and Expenses of Persons and Firms (Other than Directors, Officers and Employees) Earning $20,000 or More During the Calendar Year.

(a) This schedule shall be filed by each supplemental air carrier.

(b) A single set of this schedule shall be filed for the overall corporate or other legal entity comprising the air carrier.

(c) The indicated data shall be reported for each individual, partnership, corporation, or other legal entity (other than directors, officers, and employees of the air carrier) earning compensation, including expense reimbursements, of $20,000 or more during the calendar year.

(d) Compensation and expenses to be reported in this schedule shall include fees, retainers, gifts, commissions, contributions, allowances for expenses or any other form of payments or accruals amounting in the aggregate to $20,000 or more during the year. In addition to expense reimbursements paid or to be paid directly to the recipients reflected in column 1, this schedule shall include expenses incurred by the persons or firms named in column 1 which have been paid or are to be paid directly to vendors by the air carrier. Expenses to be reported in this schedule shall encompass payments and accurals such as for legal, medical, engineering, advertising, accounting, statistical, educational, or charitable purposes, but shall exclude payments and accruals for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine physical operation or maintenance of an air carrier, such as payments and accruals for rent of buildings or property, for heat, light, power, telegraph and telephone or, as applicable, payments or amounts to be paid to other carriers for interchange of equipment or settlement of interline traffic balances.

(e) All directors, officers, and employees of the air carrier affiliated with any of the persons or firms listed on this schedule and the nature of such affiliations shall be fully disclosed in footnotes at the bottom of the schedule.

8. Amend CAB Form 41 by adding new Schedule A–2, and by revising Schedules B–46, G–41, G–42, and G–43 as shown in Exhibits A, B, C, D, and E attached hereto[3] and incorporated herein as

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 180]

PARATHION OR ITS METHYL HOMOLOG

Proposed Tolerances

Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick, NJ 08903, on behalf of the IR–4 Technical Committee and the Agricultural Experiment Station of California submitted a petition (PP 3E1302) proposing establishment of tolerances for residues of the insecticide parathion (*O,O*-diethyl *O*-*p*-nitrophenyl) phosphorothioate) or its methyl homolog (*O,O*-dimethyl *O*-(*p*-nitrophenyl) phosphorothioate) in or on mustard seed and rape seed at 0.75 part per million.

Subsequently, the petitioner amended the petition by reducing the proposed tolerances to 0.2 part per million.

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. The insecticide is useful for the purposes for which the tolerances are proposed.

2. There is no reasonable expectation of residues in eggs, meat, milk, or poultry, and § 180.6(a) (3) applies.

3. The proposed tolerances will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), it is proposed that § 180.121 be amended by revising the paragraph "0.2 part per million * * *" to read as follows:

§ 180.121 Parathion or its methyl homolog; tolerances for residues.

* * * * *

0.2 part per million in or on mustard seed, sunflower seed, and rape seed.

* * * * *

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, on or before August 22, 1973, that this proposal be referred to an advisory committee in accordance with section 408 (e) of the act.

Interested persons may, on or before August 22, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets, SW., Waterside Mall, Washington, D.C. 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. All written submissions made pursuant to this proposal will be made available for public inspection at the office of the Hearing Clerk.

Dated: July 18, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticides Programs.

[T.D. 73-198]

TERM BONDS

List of Approved Riders

In order to be placed in the Automated Bond Information System (T.D. 73-197), the riders to be used to add conditions to term bonds have been set forth below in the form to be used and have been identified by alphabetical designations. These designations will enable Customs to incorporate the riders into the Automated Bond Information System. No other rider may be used in this system without obtaining an alphabetical designation from the Bureau of Customs in Washington. Additional riders, upon approval, will be assigned alphabetical designations and published in the FEDERAL REGISTER and Customs Bulletin.

[SEAL] G. R. DICKERSON,
Acting Commissioner of Customs.

A—Agreement to account for articles, wastes, and irrecoverable losses incurred in manufacture or production under item 864.05, Tariff Schedules of the United States—to be added to Customs Forms 7563-A and 7595

In addition to the conditions appearing in the bond dated _____, in the amount of _____, executed by _____ _____, as principal, and _____, as surety, to which this stipulation relates, it is hereby expressly agreed by the principal and surety thereon that the following additional condition shall apply:

And if, in the case of merchandise imported for the purpose of being subjected to processes which result in articles manufactured or produced in the United States, the above-bounden principal shall completely account to the district director of customs for all articles, wastes, and irrecoverable losses resulting from such processing by the submission of such reports, proofs, abstracts, and other evidence as may be required, and shall, within one (1) year from the date of importation, or any lawful extension thereof, export or destroy under Customs supervision all the articles and valuable wastes resulting from the manufacture or production of the imported merchandise; or in default thereof the obligors shall pay to the district director of customs such amounts as liquidated damages, as may be demanded by him in accordance with law and regulations, not exceeding the amount of this obligation.

B—Deferred payment of internal revenue taxes—to be added to Customs Forms 7553 and 7595

In addition to the conditions appearing in the bond dated _____, in the amount of _____, executed by _____ _____, as principal, and _____, as surety, to which this stipulation relates, it is hereby expressly agreed by the principal and surety thereon that the following additional condition shall apply:

Whereas the above-bounden principal may apply to the district director of customs for permission to defer in accordance with the Customs Regulations, as amended, the deposit of internal revenue taxes estimated to be due on imported alcoholic beverages upon entry or withdrawal for consumption;

And if the principal shall apply to the district director of customs to make deferred tax payments in accordance with the Customs Regulations, as amended, and such application is approved by the district director of customs, the above-bounden principal shall, in consideration therefor, remain bound for the payment of such deferred taxes in accordance with other conditions of this bond unless on or before the last day of the deferred payment period, in which the bill for deferred taxes is submitted, which is the last day of the month for taxes deferred during the period from the 1st to the 15th of that month and is the 15th day of the month for taxes deferred during the period from the 16th to the last day of the previous month, he shall pay all deferred estimated taxes due on entries or withdrawals made in accordance with the Customs Regulations, as amended.

E—Withdrawals of rewarehoused products of a class 6 warehouse—to be added to Customs Form 7595

In addition to the conditions appearing in the bond dated _____, in the amount of _____, executed by _____ _____, as principal, and _____, as surety, to which this stipulation relates, it is hereby expressly agreed by the principal and surety thereon that the following additional conditions shall apply:

If articles which are the product of a bonded manufacturing warehouse, class 6, are rewarehoused at an exterior port for the sole purpose of immediate export or withdrawal pursuant to section 309(a) of the Tariff Act, as amended, the following condition of this bond shall apply to such rewarehoused entries:

And if said articles shall be exported or withdrawn in accordance with the provisions of section 311 or 309(a), Tariff Act of 1930, as amended, in the manner prescribed by the regulations; or, in default thereof, if the obligors shall pay to the district director of customs as liquidated damages an amount equal to the aggregate sum of double the duties assessable on such part of the shipment as shall not have been so exported or withdrawn, plus the amount of any internal revenue tax assessable thereon.

F—Withdrawals from warehouse under authority of section 5066(b) and (c) of the Internal Revenue Code—to be added to Customs Form 7595

In addition to the conditions appearing in the bond dated _____, in the amount of _____, executed by _____ _____, as principal, and _____, as surety, to which this stipulation relates, it is hereby expressly agreed by the principal and surety thereon that the following additional conditions shall apply:

If distilled spirits are entered into Customs bonded warehouses in accordance with section 5066(a), Internal Revenue Code, as amended, and section 8.30 of the Customs Regulations, the following condition of this bond shall apply to such entries:

And if said articles shall be withdrawn in accordance with the provisions of section 5066(b) and (c) of the Internal Revenue Code, as amended; or in default thereof, if the obligors shall pay to the district director of customs as liquidated damages an amount equal to the aggregate sum of double the duties assessable on such part of the shipment as shall not have been so withdrawn, plus the amount of any internal revenue tax assessable thereon.

If domestic distilled spirits are transferred to a Customs bonded storage warehouse from a bonded manufacturing warehouse, class 6, in accordance with section 5066(b), Internal Revenue Code, as amended, and section 19.15 (g) of the Customs Regulations, the following condition of this bond shall apply to such rewarehouse entries:

And if said articles shall be withdrawn in accordance with section 5066(b) of the Internal Revenue Code, as amended; or in default thereof, if the obligors shall pay to the district director of customs as liquidated damages an amount equal to the aggregate sum of double the duties assessable on such part of the shipment as shall not have been so withdrawn, plus the amount of any internal revenue tax assessable thereon.

G—Transfer of unentered bulk shipments arriving on another carrier, consigned to the principal on a vessel, vehicle, or aircraft bond—to be added to Customs Form 7569

In addition to the condition appearing in the bond dated _____, in the amount of _____, executed by _____ _____, as principal, and _____, as surety, to which this stipulation relates, it is hereby expressly agreed by the principal and surety thereon that the following additional condition shall apply:

In consideration for granting the principal hereon permission to transfer unentered bulk (consolidated) shipments consigned to the principal, arriving on another carrier, from the airport facilities of the carrier to the facilities of the principal, at the same airport, the principal stipulates with concurrence of the surety hereon that he will furnish the carrier at the foreign point of lading with two copies of a complete manifest covering the shipment and that he will receipt for the shipment on a copy of the manifest and will effect transfer of the shipment with a truck of the principal. It is further stipulated with the concurrence of the surety that the principal shall be fully responsible on the bond mentioned above for the shipments from the time they are receipted for by the driver of the aforementioned truck.

PROPOSED WARM SPRINGS NATIONAL FISH HATCHERY, WASCO COUNTY, OREGON

[INT FES 73–37]

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Public Law 91–190, the Department of the Interior has prepared a final environmental statement for the Warm Springs National Fish Hatchery, Oregon.

The project will include the construction and operation of a large, modern hatchery to augment existing stocks of chinook salmon and steelhead trout in the Columbia River drainage system and to provide rainbow trout for expanded Federal stocking programs on the Warm Springs and Umatilla Indian Reservations. Water affected will be lakes and streams on the Indian Reservations, Warm Springs, Deschutes, and Columbia Rivers, and the Pacific northwest coastal waters.

Copies of the final statement are available for inspection at the following locations:

Bureau of Sport Fisheries and Wildlife
1500 N.E. Irving Street
Portland, Oregon 97208

Bureau of Sport Fisheries and Wildlife
Office of Environmental Quality
Department of the Interior
Room 2246
18th and C Streets, NW
Washington, D.C. 20240

Single copies may be obtained by writing the Chief, Office of Environmental Quality, Bureau of Sport Fisheries and Wildlife, Department of the Interior, Washington, D.C. 20240. Comments concerning the proposed action should be addressed to the Chief, Office of Environmental Quality. Please refer to the statement number above.

Dated: July 17, 1973.

LAURENCE E. LYNN JR.,
Assistant Secretary, Program Development and Budget.

[INT DES 73–39]

PROPOSED DEREGULATION OF NATURAL GAS PRICES

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for proposed legislation to deregulate natural gas prices and invites written comments on or before September 6, 1973.

Deregulation of the price of "new" gas (essentially that not under existing contract) is designed to elicit greater supplies of natural gas, and to ensure a more appropriate allocation of available supplies.

Copies of the statement are available for inspection at the following locations:

Office of Communications, Room 7218, Department of the Interior, Washington, D.C. 20240, telephone (202) 343–3171;
Office of Economic Analysis, Room 5138, Department of the Interior, Washington, D.C. 20240, telephone (202) 343–6007.

Single copies may be obtained by writing the office of Economic Analysis.

Dated: July 17, 1973.

LAURENCE E. LYNN JR.,
Assistant Secretary of the Interior.

[INT DES 73–40]

PROPOSED RICE LAKE & MILLE LACS ISLANDS WILDERNESS AREAS, MINNESOTA

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Public Law 91–190, the Department of the Interior has prepared a draft environmental statement recommending 1,406 acres of the Rice Lake National Wildlife Refuge, Aitkin County, Minnesota, and .6 acre Mille Lacs National Wildlife Refuge (two small islands) in Mille Lacs County, Minnesota, be designated as wilderness within the National Wilderness Preservation System. Written comments are invited on or before September 6, 1973.

Copies are available for inspection at the following locations:

Bureau of Sport Fisheries and Wildlife
Room 630
Federal Building—Fort Snelling
Twin Cities, Minnesota 55111

Headquarters
Rice Lake & Mille Lacs Islands
McGregor, Minnesota 55760

Bureau of Sport Fisheries and Wildlife
Office of Environmental Quality
Department of the Interior, Room 2245
18th and "C" Streets, NW.
Washington, D.C. 20240

Single copies may be obtained by writing the Chief, Office of Environmental Quality, Bureau of Sport Fisheries and Wildlife, Department of the Interior, Washington, D.C. 20240. Comments concerning the proposed action should also be addressed to the Chief, Office of Environmental Quality. Please refer to the statement number above.

LAURENCE E. LYNN, JR.,
Assistant Secretary, Program Development and Budget.

SUPERIOR NATIONAL FOREST ADVISORY COMMITTEE

Notice of Determination

JULY 17, 1973.

Notice is hereby given that the Secretary of Agriculture will again establish the Superior National Forest Advisory Committee of the Forest Service for a two-year period. The Secretary has determined that establishment of this committee is in the public interest in connection with the duties imposed on the Department by law.

The purpose of this committee is to advise the Forest Supervisor on the complex natural resource management of the Superior National Forest and the Boundary Waters Canoe Area. The committee will be composed of twelve members representing a cross section of environmental, social, and economic interests and be chaired by the Forest Supervisor.

This notice is given in compliance with Public Law 92–463. Views and comments of interested persons may be submitted to the Forest Supervisor, Superior National Forest, Post Office Box 338, Duluth, MN 55801, no later than August 10, 1973. All written submissions made pursuant to this notice will be available for public inspection at the Forest Supervisor's office during regular business hours (7 CFR 1.27(b)).

JOSEPH R. WRIGHT, JR.
Assistant Secretary for Administration.

DEPARTMENT OF AGRICULTURE

Forest Service

LAND USE PLAN AQUARIUS PLANNING UNIT DIXIE NATIONAL FOREST, UTAH

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the purpose of identifying and evaluating the effects of implementing the proposed plan for the Aquarius Planning Unit, Dixie National Forest, Utah. The Forest Service report number is USDA–FS–DES(adm) 73–86.

The environmental statement applies to the management of 252,000 acres of National Forest lands. Proposed management includes timber harvesting, construction of temporary and permanent roads, range management improvements, (fencing, water developments, and chaining of pinyon-juniper trees), controlling off-road vehicle use, protection of wilderness resource, protection of the Utah prairie dog, and watershed improvement practices.

The draft environmental statement was filed with CEQ on July 9, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
500 South Main Street
Cedar City, Utah 84720

USDA, Forest Service
Escalante, Utah 84726

USDA, Forest Service
Federal Office Bldg., Room 2025
324 25th Street
Ogden, Utah 84401

USDA, Forest Service
Teasdale, Utah 84773

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave., SW.
Washington, D.C. 20250.

A limited number of single copies are available upon request from Forest Supervisor, Dixie National Forest, 500 South Main Street, Cedar City, Utah 84720.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State and local agencies as outlined in the Council on Environmental Quality Guidelines.

V 38-140 JUL 23 73 XUM

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal Agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed actions and requests for additional information should be addressed to Forest Supervisor, Dixie National Forest, 500 South Main Street, Cedar City, Utah 84720. Comments must be received by August 22, 1973 in order to be considered in the preparation of the final environmental statement.

ADRIAN M. GILBERT,
Acting Deputy Chief,
Forest Service.

WILD FREE-ROAMING HORSES AND BURROS

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Secretary of Agriculture's proposed regulation relating to the protection, management, and control of wild free-roaming horses and burros USDA–FS–FES(Adm)73–40.

The statement concerns a proposed addition to the Code of Federal regulations (36 CFR Part 321.11). This addition would provide specific implementation of the Wild Free-Roaming Horses and Burros Act of December 15, 1971 (85 Stat. 649, 16 U.S.C. 1331–1340), on lands administered by the Secretary of Agriculture through the Forest Service.

This final environmental statement was filed with the Council on Environmental Quality on July 6, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Building, Room 3230
14th St. & Independence Ave., SW.
Washington, D.C. 20250

YALE UNIVERSITY ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the Federal Register.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the Federal Register, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73–00583–33–46040. Applicant: Yale University, Purchasing Department, 260 Whitney Avenue, New Haven, Connecticut 06520. Article: Electron Microscope, Model ELmiskope 101. Manufacturer: Siemens AG, West Germany. Intended use of article: The article will be used primarily for biomedical research involving animal (including human) tissues, cells and subcellular components. The phenomena under investigation will include: (1) Secretory activity of glandular cells, both exocrine and endocrine; (2) Role of different subcellular components in the production, processing, storage and discharge of secretory proteins; (3) Structural and functional characteristics of different types of cellular membranes; and (4) Survey of cell fractionation procedures. The experiments to be conducted are devised to give insight into each of these phenomena with a view toward fully understanding the functioning of various types of cells (especially cells of exocrine and endocrine glands) under normal conditions as well as in certain diseases.

The article will be used only in part in advanced training in research at the postdoctoral fellow and research associate level. Application received by Commissioner of Customs: June 18, 1973.

Docket Number: 73–00584–98–42900. Applicant: University of Chicago, Operator of Argonne National Laboratory, 9700 South Cass Avenue, Argonne, Illinois 60439. Article: 100 kOe superconducting magnet, 5'' OD, 1½'' ID, homogeniety<1% in 1'' DSV, with magnetoresistive field probe. Manufacturer: Canada Superconductor and Cryogenics Company Limited, Canada. Intended use of article: The foreign article will be used in a number of studies concerning the electronic properties of solid materials. Experiments currently planned include (1) studies of the magnetic properties of rare earth and actinide compounds using the Mossbauer effect technique and (2) studies of doped alkali halide materials by means of Fluorescence measurements. Application received by Commissioner of Customs: June 28, 1973.

Docket Number: 74–00001–33–02300. Applicant: Idaho State University, Purchasing Services, P.O. Box 219, Pocatello, Idaho 83201. Article: Longworth Small Mammal Trap. Manufacturer: Longworth Scientific Instrument Co., Ltd., United Kingdom. Intended use of article: The foreign article is intended to be used to capture rodents for analysis in studies of population ecology of microtine rodents in semidesert habitat. The studies involve successive capture and release of these rodents which allows assessment of population size, survival rates, dilution rates, growth rates, reproductive changes on a seasonal basis and movement and home range patterns. Application received by Commissioner of Customs: June 29, 1973.

Docket Number: 74–00002–25–26000. Applicant: University of Portland, Multnomat School of Engineering, 5000 N. Willamette Blvd., Portland, Oregon 97203. Article: Type 854 Universal SCR Converter Units (AC–DC). Manufacturer: Robinson Electronic Instruments, United Kingdom. Intended use of article: The foreign article is intended to be used in teaching courses in DC transmission, Energy Conversion, and other electrical power courses. The article will also be used to demonstrate AC–DC and DC–AC electrical power conversion. Application received by Commissioner of Customs: June 29, 1973.

Docket Number: 74–00003–33–45300. Applicant: Harvard Medical School, 45 Shattuck Street, Boston, Mass. 02115. Article: X-Ray Microanalyzer, CAMECA Model MS 46. Manufacturer: CAMECA, France. Intended use of article: The article is intended to be used for the following general purposes:

1. To establish techniques for preparation and analysis of liquid samples of less than 0.1 nanoliters.

2. To establish techniques for preparation and analysis of tissue samples which preserve the subcellular localization of endogeneous soluble compounds and ionic species.

3. To establish techniques for identification and quantification of histochemical reaction products and electron dense materials produced by both new and conventional techniques.

4. To establish a "cold-tracer" methodology, analyzing the distribution within tissues of typical biological compounds bearing elemental labels.

5. To determine the instrumental requirements unique to biomedical electron probe work through experience, and to achieve these through equipment modification and development of specifications.

6. To speed the introduction of even newer microanalytical methods, such as direct-imaging mass spectroscopy (the "ion probe") and nonionic imaging devices, by serving as a link between medical scientists and instrumental research programs at MIT and elsewhere.

Specifically the article is intended to be used within the general purposes for programs involving

(1) electron probe microanalysis of kidney function;

(2) ions and early mammalian development;

(3) a feasibility study of the ionic composition of sperm in the testis and epididymis.

(4) electron probe analysis of material in taste bud pores.

(5) electron microprobe analysis of K+, Na+, and Cl− in mouse gastric mucosa

(6) zinc content in the prostate glands from normal and deficient diets.

(7) surface immunoglobulins and other surface markers of certain classes of lymphocytes.

(8) Identification and localization of barium sulfate and of lanthenum in intercellular spaces of the toad bladder.

Application received by Commissioner of Customs: June 27, 1973.

Docket Number: 74–00004–33–46040. Applicant: University of Washington, Department of Microbiology, F304 Health Science Bldg., Seattle, Washington 98195. Article: Electron Microscope, Model JEM 100B. Manufacturer: JEOL Ltd., Japan. Intended use of article: The foreign article will be used in research studies on biological specimens ranging from viruses to human tissue. Specific uses will involve the morphology of aquatic bacteria, tumor allograft rejection, cytophagocytosis of viable Sal cells by immune macrophages, direct phase counting procedures for enumerating microorganisms in lacustrine habitats, host parasite relationships in syphilis, molecular structure of Polyoma DNA and the evaluation Bacterial Plasmids. Application received by Commissioner of Customs: July 2, 1973.

Docket Number: 74–00005–33–46040. Applicant: University of Southern California, School of Medicine, 2025 Zonal Avenue, Los Angeles, California 90033. Article: Electron Microscope, model HU–12A. Manufacturer: Hitachi Ltd., Japan. Intended use of article: The foreign article will be used in research studies of human and animal pituitary glands that have been treated with various chemical agents to reveal cellular location of divalent cations (calcium). The studies will also require high resolution observation of thin sectioned tissue. Application received by Commissioner of Customs: July 2, 1973.

Docket Number: 74–00006–33–46500. Applicant: Long Island Jewish-Hillside Medical Center, 270–05 76 Avenue, New Hyde Park, N.Y. 11040. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use or article: The article is intended to be used in the ultrastructural investigation of a variety of normal and pathological cells of both animals and human tissues, especially those changes involving the fine structural enzymatic localization and biochemical interrelationships between cellular organelles. The tissues studied will range from tough human bone tumors and brittle structure (melanin granules of human melanomas) to extremely soft and delicate tissue (soft tissue tumors). Application received by Commissioner of Customs: July 2, 1973.

Docket Number: 74–00007–33–46500. Applicant: McGuire Veterans Administration Hospital, 1201 Broad Rock Road, Richmond, Virginia 23249. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in research to trace the pathway from billary ducts into the lymphatic system. The tissue to be examined will be primarily rat liver in attempting to establish the fine lymphatic connections to the portal areas. Application received by Commissioner of Customs: July 2, 1973.

Docket Number: 74–00008–33–46500. Applicant: University of Texas Medical Branch, 8th and Mechanic, Galveston, Texas 77550. Article: Ultramicrotome, Model LKB 8800A–NM. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article will be used in studies of tissues derived from both humans and animals which exhibit both normal and pathologic structure to reveal at the ultrastructural level the structural basis of impaired renal function. Application received by Commissioner of Customs: July 2, 1973.

Docket Number: 74–00009–33–46500. Applicant: Veterans Administration Hospital, 13000 North 30th Street, Tampa, Florida 33612. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in research on plastic-embedded tissues from various sources including human and animal skin and monolayer cultures of fibroblasts and chondrocytes. Specific experiments include:

(a) Demonstration of the site of antibody binding to human keratinocytes in pemiphigus as well as histochemical staining of the cell surface coat using ferritin-conjugated agglutinins.

(b) Study of ultrastructural alterations in certain human tumors and genetically inherited diseases.

(c) Study of the effects of various drugs, including anti-cancer agents on tissue cultures of human and animal tissues.

(d) Identification of the site of localization of intercellular viruses in infected chondrocytes *in vivo* and *in vitro*.

(e) Examination of skin biopsies from patients with collagen-vascular diseases for the presence of virus-like inclusions. The article will also be used in advance research training courses for dermatology and rheumatology residents and fellows. Application received by Commissioner of Customs: July 2, 1973.

Docket Number: 74–00010–33–46040. Applicant: Health Research Inc., 666 Elm Street, Buffalo, New York 14203. Article: Electron Microscope, Model Elmiskop 101B. Manufacturer: Siemens AG, West Germany. Intended use of article: The foreign article will be utilized in a laboratory established to provide both a service and research function of a wide scope dealing mainly with ultrastructural changes produced in tissues including tumors following their exposure to various drugs and antitumor therapies, including hormones, new compounds, immunotherapy, dietary and pathological manipulations. Representative studies include localization of pathological changes in organelles (e.g., mitochondrion, lysosomes) of specific tissues following acute and chronic treatment of several animal species with antitumor agents, the effects of certain drugs, including carcinogenic agents, on the structure of ribosomes, mitochondrion, lysosomes and cell membrane, and localization of certain hormones and drugs in the cell by combination of histochemistry or radioautography with electron microscopy.

V38-140
JUL 23 73
XUM

The article is also expected to be used for training graduate students for a PH.D. in experimental Pathology. Application received by Commissioner of Customs: June 28, 1973.

Docket Number: 74-00011-01-77040. Applicant: University of Utah, Purchasing Department, Salt Lake City, Utah 84112. Article: Mass Spectrometer, Model CH-7. Manufacturer: Varian MAT, GmbH, West Germany. Intended use of article: The article will be used as an integral component of new instrumentation being constructed for the specific purpose of analysis of peptides, peptide derivatives and other molecules of biological interest. It will undergo extensive modifications for incorporation into a combined gas chromatograph/chemical ionization ion source/mass spectrometer/dedicated computer package. Application received by Commissioner of Customs: June 29, 1973.

Docket Number: 73-00473-00-61800. Applicant: Columbia Museum of Art Commission, 1519 Senate Street, Columbia, SC 29201. Article: Planetarium projector, Model MS-10. Manufacturer: Minolta Camera Co., Japan. Intended use of article: The article is intended to be used together with the control console to demonstrate astronomical phenomena (related to astronomical and for navigational sciences as the course subject may require) and also allow student participation and involvement. The curriculum oriented program and teacher training will include: Astronomy III, Astronomy 112, Physical Science 22, planetarium classes grades 1 through 12, enrichment classes for junior and senior high school students, and astronomy workshops for teachers. In addition, the article will be used in the implementation of regular scheduled public demonstrations and community astronomy classes. Application received by Commissioner of Customs: April 12, 1973.

Docket Number: 74-00012-75-42800. Applicant: University of Chicago, Operator of Argonne National Laboratory, 9700 South Cass Avenue, Argonne, Illinois 60439. Article: Ferrite Blocks. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended use of article: The foreign article is required for the fabrication of two kicker (fast bending) magnets for injecting the protron beam from the applicant's 200 MeV Booster into the Zero Gradient Synchrotran (ZGS). The protron beam is then accelerated to 12.5 BeV in energy where it is extracted and used in atomic structure experiments. Application received by Commissioner of Customs: June 29, 1973.

Docket Number: 74-00013-33-46040. Applicant: Montefiore Hospital and Medical Center, 111 East 210 Street, Bronx, New York 10467. Article: Electron Microscope, Model Elmiskop 101. Manufacturer: Siemens AG, West Germany. Intended use of article: The foreign article will be used to study the structural changes that occur in specific biological tissues accompanying either disease processes, experimental manipulation or normal development. Some of the studies planned involve (1) examination of the development of synaptic contacts in the brains of several mutant mice which show neurological symptoms to further understanding of human disease in which similar changes are observed, (2) study of the effects of various antibodies on the aggregation of human red cells to obtain an understanding of the mechanism of antibody action and as an aid in the design of laboratory methods for the detection of antibodies, (3) examination of surgically removed diseased tissue, or tissue obtained at autopsy, to obtain an understanding of the changes that accompany various disease processes, and as an aid in the diagnosis of certain conditions, and (4) continued investigation of the effect of various environmental pollutants on the central nervous system in the developing as well as the adult animal in the hope that these investigations will not only elucidate the effects of the pollutants but will also offer clues toward methods most suited to reverse or prevent these effects. Application received by Commissioner of Customs: June 14, 1973.

A. H. STUART,
Director,
Special Import Programs Division.

Maritime Administration

[Docket No. S-368]

TANKERS HOLDING, INC.

Notice of Application

Notice is hereby given that Tankers Holding, Inc., has filed an application for operating-differential subsidy on two (2) ore/bulk/oil carriers (to be constructed) of approximately 80,500 deadweight tons each. Said vessels will be operated in worldwide trade, primarily in the foreign commerce of the United States, in the carriage of liquid bulk cargoes and dry bulk cargoes not subject to the cargo preference statutes including 10 U.S.C. 2631, 46 U.S.C. 1241, and 15 U.S.C. 616a.

Any party having an interest in such application and who would contest a finding of the Board that the service now provided by vessels of United States registry for the worldwide carriage of liquid and dry bulk cargoes, not subject to the cargo preference statutes, moving in the foreign commerce of the United States or in any particular trade in the foreign commerce of the United States is inadequate, must, on or before July 30, 1973, notify the Secretary in writing of his interest and of his position and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Merchant Marine Act, 1936, as amended, and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing.

In the event that a section 605(c) hearing is ordered to be held, the purpose of such hearing will be to receive evidence relevant to whether the service already provided by vessels of U.S. registry for the worldwide movement of liquid and dry bulk cargoes in the foreign ocean-borne commerce of the United States is inadequate and whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated in such service.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Maritime Subsidy Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Maritime Subsidy Board will take such action as may be deemed appropriate.

Dated: July 19, 1973.

By order of the Martime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.73-15179 Filed 7-20-73;8:45 am]

[Docket No. S-369]

WATERMAN STEAMSHIP CORP.

Notice of Application

Notice is hereby given that Waterman Steamship Corporation has applied for permission to annually make twelve (12) calls inbound and outbound at United States Atlantic Coast ports with its subsidized vessels serving Trade Route No. 21 between United States Gulf ports and ports in the United Kingdom, Republic of Ireland and Continental Europe from the northern border of Portugal to the southern border of Denmark under Contract No. MA/MSB-253, which contract is effective for at least calendar years 1973 and 1974 but not in excess of 3 years.

Any person, firm or corporation having any interest in such application and desiring a hearing on issues pertinent to Section 605(c) of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1175), should by the close of business on July 30, 1973, notify the Secretary, Maritime Subsidy Board in writing, in triplicate, and file petition for leave to intervene in accordance with the rules of practice and procedure of the Maritime Subsidy Board.

In the event a section 605(c) hearing is ordered to be held, the purpose thereof will be to receive evidence relevant to (1) whether the application is one with respect to vessels to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of United States registry in such essential service is inadequate, and (2) whether in the

accomplishment of the purpose and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Maritime Subsidy Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Maritime Subsidy Board will take such action as may be deemed appropriate.

By order of the Maritime Subsidy Board/Maritime Administration.

Dated: July 19, 1973.

JAMES S. DAWSON, Jr.,
Secretary.

National Bureau of Standards

FEDERAL INFORMATION PROCESSING STANDARDS TASK GROUP 12 SIGNIFICANCE AND IMPACT OF ASCII AS A FEDERAL STANDARD

Notice of Meeting

Pursuant to Public Law 92-463 and Executive Order 11686, notice is hereby given that the Federal Information Processing Standards Task Group 12—Significance and Impact of ASCII as a Federal Standard will hold a meeting from 11:00 a.m. to 4:00 p.m. on Thursday, August 2, 1973, in Lecture Room D, Building 101 of the National Bureau of Standards in Gaithersburg, Maryland.

The purpose of the meeting is to review preliminary results obtained from ASCII questionnaires, to review other proposed ASCII questionnaires and to consider matters related to their processing.

The public will be permitted to attend, to file written statements, and, to the extent that time permits, to present oral statements. Persons planning to attend should notify the Office of Information Processing Standards, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234 (Phone 301-921-3551).

Date: July 17, 1973.

Office of the Secretary

ASSISTANT SECRETARY OF COMMERCE FOR ADMINISTRATION

Delegation to Certify Records

Pursuant to the authority delegated to the Assistant Secretary of Commerce for Administration by Department Administrative Order 201-17, the following officials of the National Oceanic and Atmospheric Administration are hereby authorized to sign as certifying officers, certification as to the official nature of copies of correspondence and records from the files, publications and other documents of the Department and to affix the Seal of the Department to such certifications or documents for all purposes, including the purposes authorized by 28 U.S.C. 1733(b).

Director, Northwest Administrative Services Office, Seattle, Washington
Director, National Geophysical and Solar Terrestrial Data Center, Boulder, Colorado
Associate Director for Climatology, Environmental Data Service, Washington, D.C.
Associate Director for Marine Sciences, Environmental Data Service, Washington, D.C.
Associate Director for Geophysics, Environmental Data Service, Boulder, Colorado.

This delegation of authority shall be effective as of the date hereof.

Dated: July 16, 1973.

HENRY B. TURNER,
Assistant Secretary for Administration.

[FR Doc.73-15018 Filed 7-20-73;8:45 am]

[Organization Order 10-8]

ASSISTANT SECRETARY FOR MARITIME AFFAIRS

Delegation of Authority and Organization and Functions

This order effective July 5, 1973, supersedes the material appearing at 37 FR 15179 of July 28, 1972 and 37 FR 15946 of August 8, 1972.

SECTION 1. *Purpose.* .01 This order delegates authority to the Assistant Secretary for Maritime Affairs and to the Maritime Subsidy Board and prescribes the general functions of the Maritime Administration.

.02 This revision reflects elimination of the position of Deputy Assistant Secretary for International Planning (section 2) and incorporates recent legislative changes in the delegation of authority (section 3) and statement of functions (section 4).

SEC. 2. *Status and line of authority.* .01 The Maritime Administration, established in the Department of Commerce by Reorganization Plan No. 21 of 1950, effective May 24, 1950, as affected by Reorganization Plan No. 7 of 1961, effective August 12, 1961, is continued as a primary operating unit of the Department of Commerce.

.02 By effect of Section 38 of the Merchant Marine Act of 1970 (Public Law 91-469 of October 21, 1970), the Assistant Secretary for Maritime Affairs (the "Assistant Secretary"), who is ex officio Maritime Administrator, is the head of the Maritime Administration. The Assistant Secretary is appointed by the President by and with the advice and consent of the Senate. He shall report and be responsible to the Secretary of Commerce.

.03 The Assistant Secretary shall be assisted in his duties by a Deputy Assistant Secretary for Maritime Affairs (ex officio Deputy Maritime Administrator) who shall perform such duties as the Assistant Secretary shall assign. In addition, he shall assume the duties of the Assistant Secretary in his absence or during a vacancy in the office, unless the Secretary shall designate another person.

.04 The Assistant Secretary is also designated Commandant of the United States Maritime Service.

SEC. 3. *Delegation of authority to the Assistant Secretary.* .01 Pursuant to the authority vested in the Secretary of Commerce by Reorganization Plan No. 21 of 1950, as affected by Reorganization Plan No. 7 of 1961, and Reorganization Plan No. 5 of 1950, and otherwise by law, the Assistant Secretary is hereby delegated the authority vested in the Secretary of Commerce under:

a. Reorganization Plan No. 21 of 1950 (64 Stat. 1273) and Section 202 of Reorganization Plan No. 7 of 1961 (75 Stat. 840), except the authority delegated to the Maritime Subsidy Board by section 6 of this Order. This delegation includes but is not limited to the authority vested in the Secretary of Commerce by:

(1) The Shipping Act, 1916, as amended (46 U.S.C. 801 et seq.);

(2) The Merchant Marine Act, 1920, as amended (46 U.S.C. 861 et seq.), including the Ship Mortgage Act, 1920, as amended (46 U.S.C. 921 et seq.);

(3) The Merchant Marine Act, 1928, as amended (46 U.S.C. 891 et seq.);

(4) The Intercoastal Shipping Act, 1933, as amended (46 U.S.C. 843 et seq.);

(5) The Merchant Marine Act, 1936, as amended (46 U.S.C. 1101 et seq.); except the authority delegated to the Administrator of the National Oceanic and Atmospheric Administration relating to the establishment of capital construction fund agreements under Section 607 thereof and the granting of financing guarantees under Title XI thereof, with respect to vessels in the fishing trade or industry; and

(6) The Merchant Ship Sales Act of 1946, as amended (50 U.S.C. App. 1735 et seq.).

b. The Suits in Admiralty Act (1920), as amended (46 U.S.C. 741 et seq.), except in relation to the arbitration, compromise or settlement of any claim in the amount of $5,000 or less involving a vessel operated by the National Oceanic and Atmospheric Administration;

c. The Civilian Nautical School Act, 1940 (46 U.S.C. 1331 et seq.);

d. The Act of June 2, 1951 (46 U.S.C. 1241a) regarding the "Vessel Operations Revolving Fund;"

e. The Act of August 9, 1954 (50 U.S.C. 196 et seq.) commonly called the Emergency Foreign Vessels Acquisition Act;

f. The Act of July 24, 1956 (46 U.S.C. 249 et seq.) commonly called the Merchant Marine Medals Act of 1956;

g. The Maritime Academy Act of 1958, as amended (46 U.S.C. 1381 et seq.);

h. Title VI of the Civil Rights Act of 1964, which is applicable to the Assistant Secretary, as provided in Department Administrative Order 201-7 and the regulations referred to therein;

i. Executive Order 10480, as amended, and Executive Order 11490, with respect to defense mobilization and emergency preparedness of coastwise, intercoastal,

V 38 140 JUL 23 73 XUM

and overseas shipping and ports and port facilities;

j. The Act of May 16, 1972 (86 Stat. 140), authorizing sale or purchase of certain passenger vessels;

k. The Act of August 22, 1972 (86 Stat. 618), authorizing sale of Liberty ships for use as artificial reefs; and

l. Section 717 of the Act of October 26, 1972 (86 Stat. 1184), commonly known as the Department of Defense Appropriations Act, 1973, with respect to transferring or otherwise making available vessels under the jurisdiction of the Maritime Administration to another Federal agency or, similarly, accepting vessels from another Federal agency.

.02 The Assistant Secretary is also hereby vested with the authorities of the Director, National Shipping Authority, which was established by the Secretary of Commerce effective March 13, 1951.

.03 Pursuant to the authority delegated to the Secretary of Commerce by the Administrator of the General Services Administration, dated August 15, 1967, the Assistant Secretary is hereby delegated authority to appoint uniformed guards as special policemen, with such powers as are conferred in the Act of June 1, 1948 (62 Stat. 281), as amended, for protection duties on those parcels of property at the United States Merchant Marine Academy, Kings Point, New York, which are not protected by General Services Administration guards, and over which the Federal Government has exclusive or concurrent jurisdiction. This authority shall be exercised in accordance with the limitations and requirements of the above cited Act, and policies, procedures, and controls prescribed by the General Services Administration.

.04 The Assistant Secretary may exercise other authorities of the Secretary as applicable to performing the functions assigned in this Order.

.05 The Assistant Secretary may redelegate his authority to officials of the Maritime Administration subject to such limitations in the exercise of such authority as he may prescribe.

SEC. 4. *Functions.* .01 The Maritime Administration, in accordance with the declaration of policy stated in Title I of the Merchant Marine Act of 1936, as amended, shall be responsible for fostering the development and maintenance of an American merchant marine sufficient to meet the needs of the national security and of the domestic and foreign commerce of the United States. In carrying out these responsibilities, the Maritime Administration shall:

a. Award and administer construction-differential subsidy contracts and operating-differential subsidy contracts to aid the American merchant marine and trade-in allowances for new ship construction;

b. Enter into and administer agreements for capital construction funds and construction reserve funds;

c. Provide insurance on construction loans and ship mortgages or guarantees on ship financing obtained from private sources for ship construction and reconstruction;

d. Provide assistance to the shipping industry to generate increased trade and cargo shipments on U.S.-flag ships;

e. Promote development of ports and intermodal transportation systems;

f. Promote development of the domestic waterborne commerce of the United States;

g. Oversee the administration of cargo preference statutes;

h. Administer charters and general agency agreements for operation of Government-owned ships;

i. Maintain custody of, and preserve ships in the National Defense Reserve Fleet;

j. Conduct sales of ships;

k. Supervise design and construction of ships for Government account;

l. Furnish war risk insurance on privately-owned merchant ships;

m. Train merchant marine officers;

n. Conduct a research and development program in the maritime field; and

o. Issue rules and regulations with respect to the foregoing functions.

.02 In carrying out its responsibilities, the Maritime Administration shall also coordinate and provide leadership to the Department's overall effort to reduce, simplify and otherwise facilitate the use of documents required for trade, travel and transport purposes.

SEC. 5. *Maritime Subsidy Board.* .01 The Maritime Subsidy Board (the "Board") is continued within the Maritime Administration. The Board shall be composed of the Assistant Secretary, the Deputy Assistant Secretary for Maritime Affairs and the General Counsel of the Maritime Administration, and during a vacancy in any one of those offices, the person acting in such capacity shall be a member of the Board, unless the Secretary of Commerce designates another person. In case there still is a vacancy in the Board or in the absence or disability of one of its members, the Secretary of the Maritime Administration and Maritime Subsidy Board, or any other persons designated by the Secretary of Commerce, shall act as a member or members of the Board. Each member of the Board, while serving in that capacity, shall act pursuant to direct authority from the Secretary of Commerce and exercise judgment independently of authority otherwise delegated to the Assistant Secretary. The Assistant Secretary or the Acting Assistant Secretary serves as Chairman of the Board. The concurring votes of two members shall be sufficient for the disposition of any matter which may come before the Board.

.02 The Chairman of the Maritime Subsidy Board may make use of officers and employees of the Maritime Administration to perform activities for the Maritime Subsidy Board. Employees of the Maritime Administration may be designated as the Secretary or Assistant Secretaries of the Board.

SEC. 6. *Delegations of authority to the Maritime Subsidy Board.* .01 Pursuant to the authority vested in the Secretary of Commerce by Reorganization Plan No. 21 of 1950, as affected by Reorganization Plan No. 7 of 1961, and Reorganization Plan No. 5 of 1950, and otherwise by law, the Maritime Subsidy Board is hereby delegated authority to perform the following functions vested in the Secretary of Commerce:

a. All functions previously vested in the Federal Maritime Board pursuant to section 105(1) (except the last proviso thereto), section 105(2), and, insofar as applicable to these functions, section 105(3) of Reorganization Plan No. 21 of 1950, as the same have been transferred to the Secretary of Commerce by section 202(b)(1) of Reorganization Plan No. 7 of 1961, except investigations, hearings and determinations, including changes in determinations, with respect to minimum manning scales, minimum wage scales and minimum working conditions referred to in section 301(a) of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1101 et seq.).

b. All functions previously vested in the Federal Maritime Board pursuant to Section 103(e) of Reorganization Plan No. 21 of 1950, as the same have been transferred to the Secretary of Commerce by Section 202(b)(2) (except requiring the filing of reports, accounts, records, rates, charges, and memoranda under Section 21 of the Shipping Act, 1916, as amended, and making reports and recommendations to Congress) and section 202(b)(3) of Reorganization Plan No. 7 of 1961, insofar as said functions relate to the functions described in subparagraph a. of this paragraph.

c. All functions under Title VI of the Civil Rights Act of 1964, which are applicable to the Maritime Subsidy Board, as provided in Department Administrative Order 201-7 and the regulations referred to therein, which delegated authority shall be performed in accord with the provisions of said Department Administrative Order and regulations, and shall be exempted from review under section 7 of this Order.

.02 The Maritime Subsidy Board may exercise other authorities of the Secretary of Commerce as applicable to performing the functions assigned to the Board in this order.

.03 Any member of the Maritime Subsidy Board or the Secretary or an Assistand Secretary of the Maritime Subsidy Board is authorized to execute and sign contracts and other documents authorized or approved pursuant to sections 6 or 7 of this order. The execution of such contracts or documents may be attested, under the seal of the Maritime Administration, by the Secretary or an Assistant Secretary of the Maritime Subsidy Board.

.04 The Maritime Subsidy Board may, with the approval of the Secretary of Commerce, redelegate its authority and prescribe necessary limitations, restrictions and conditions on the exercise of such authority. Action taken by any redelegatee shall be exempt from the provisions of section 7 of this order.

SEC. 7. *Review and finality of actions by Maritime Subsidy Board.* .01 The Secretary of Commerce (hereinafter referred to as the "Secretary") may on his own motion or on the basis of a petition filed as hereinafter provided, review any decision, report and/or order of the Maritime Subsidy Board based on a hearing held pursuant to (a) statutory requirements or (b) Board order, by entering a written order stating that he elects to review the action of the Board. Copies of all orders for review shall be served on all parties of record. Petitions for review under this paragraph may be filed by parties of record, shall be in writing, and shall state the grounds upon which petitioner relies. Ten (10) copies of such petitions for review, together with proof of service thereof on all parties of record, shall be filed with the Secretary within fifteen (15) days after the date of the service of the Board's decision, report or order. Parties of record may file answers in writing thereto. Ten (10) copies of such answers, together with proof of service thereof on the petitioner and all other parties of record, shall be filed with the Secretary within ten (10) days after the date the petition for review is timely filed. Petitions for review and answers thereto shall be limited to the record before the Board. If a petition for review is filed within the time prescribed, a decision, report or order of the Board shall be final fifteen (15) days after expiration of the time prescribed for filing answer thereto unless the Secretary, prior to expiration of the fifteen (15) days, enters a written order granting the petition for review. If no petition for review is filed within the time prescribed, a decision, report or order of the Board shall be final twenty (20) days after the date of service of the decision unless the Secretary, prior to expiration of the twenty (20) days, enters a written order stating that he elects to review the action of the Board. If upon any review the decision of the Secretary rests on official notice of a material fact not appearing in the evidence in the record, any party of record shall, if request is made within ten (10) days after the date of service of the Secretary's decision on said party, be afforded an opportunity to show the contrary. The said ten (10) days shall constitute the period for a "timely request" within the meaning of the provisions of 5 U.S.C. 556(e). A copy of all orders for review, petitions for review, answers to petitions for review, and decisions of the Secretary shall be filed with the Secretary of the Board concurrent with service upon all parties of record.

.02 The Secretary may on his own motion review all actions of the Maritime Subsidy Board other than those referred to in paragraph .01 of this section by entering a written order stating that he elects to review the action of the Board. Any person having an interest in any action of the Board under this paragraph shall have the privilege of submitting to the Secretary, within ten (10) days after the date of such Board action, a request that the Secretary undertake such review. Such request shall be in writing and shall state the grounds upon which the person submitting the same relies and his interest in the action for which review is requested. Ten (10) copies of such requests shall be submitted to the Secretary. Any other person having an interest in such matter shall have the privilege of submitting within fifteen (15) days after the date of the Board's action, a written request that the Secretary not exercise such review. Copies of requests that the Secretary undertake or not exercise review will be open for public inspection at the office of the Secretary of the Board. If either a request that the Secretary undertake review or a request that he not exercise review is submitted within the time prescribed, an action of the Board shall be final in ten (10) days, after expiration of the time prescribed for submission of a request that review not be exercised unless the Secretary, prior to the expiration of the ten (10) days, enters a written order stating that he elects to review the action of the Board. If neither a request that the Secretary undertake review nor a request that he not exercise review is submitted within the time prescribed, an action of the Board shall be final in twenty (20) days after the date of such action unless the Secretary, prior to expiration of the twenty (20) days, enters a written order stating that he elects to review the action of the Board. Copies of all orders for review shall be filed with the Board, and served upon all persons filing requests as herein described.

.03 If a timely petition for reopening is filed under the rules prescribed by the Board, the time for filing a petition or request for review by the Secretary under paragraphs .01 and .02 of this section, respectively, or the entry of an order by the Secretary on his own motion electing to review an action of the Board under paragraphs .01 and .02 of this section, shall, in the case of actions under paragraph .01 of this section run from the date of service of the Board's action and, in the case of actions under paragraph .02 of this section, run from the date of the Board's action, finally disposing of the issues presented by the petition for reopening.

.04 In computing any period of time under this section, the time begins with the day following the act, event, or default, and includes the last day of the period unless it is Saturday, Sunday, or national legal holiday, in which event the period runs until the end of the next day which is not a Saturday, Sunday, or such holiday. The prescribed time for action by the Secretary in a proceeding in which additional days have been added pursuant to the provisions of this paragraph shall be extended by the total of such additional days.

.05 Petitions and requests for review by the Secretary shall not be filed:

a. Unless the petitioner shall have first exhausted his administrative remedies (other than a petition for reopening) before the Maritime Subsidy Board; or

b. With respect to interlocutory decisions of the Maritime Subsidy Board in actions or proceedings referred to in paragraphs .01 and .02 of this section.

.06 The Secretary may, for good cause and/or in order to prevent undue hardship in any particular case, waive or modify any procedural provision of this section by written order.

SEC. 8. *Savings provision.*

All orders, determinations, rules, regulations, permissions, delegations, approvals, agreements, rulings, certificates, directives and other actions heretofore issued or taken by or relating to the Federal Maritime Board, Maritime Administration, Maritime Subsidy Board, National Shipping Authority and their predecessor agencies, and in effect on the effective date of this order shall, insofar as they relate to the functions referred to herein and are not inconsistent herewith, remain in full force and effect until hereafter suspended, amended or revoked under appropriate authority.

All actions, proceedings, hearings or investigations pending on the effective date of this order before the Maritime Administration or the Maritime Subsidy Board in respect to the functions referred to in this order shall be continued before the Maritime Administration or the Maritime Subsidy Board, as the case may be, in accordance with the delegations made pursuant to this order.

HENRY B. TURNER,
Assistant Secretary for Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

NATIONAL ADVISORY COUNCIL ON INDIAN EDUCATION

Notice of Public Meeting

Notice was given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463) and published in 38 FR 1A478, Volume 133, Wednesday, July 11, 1973, that the National Advisory Council on Indian Education will hold two meetings in July, 1973. That notice is hereby amended. Firstly, the National Council Search Committee will meet at the San Francisco Hilton Hotel, Mason and O'Farrell, San Francisco, California, on Wednesday, July 25 from 1:00 p.m. to 5:00 p.m. local time, and Thursday, July 26 from 8:00 a.m. to 5:00 p.m. local time. Secondly, the full membership of the National Advisory Council will meet in the same location, on 27, 28 and 29 of July, from 8:00 a.m. to 7:00 p.m. daily, local time.

This Council was established on June 23, 1972, by the Indian Education Act, Title IV, section 442(a) of Public Law 92-318, the Education Amendments of

V 38 140 JUL 23 73 XUM

1572. The Council is to advise the Commissioner of Education with respect to the administration of any programs in which Indian children or adults participate or from which they can benefit; review applications for assistance and make recommendations to the Commissioner with respect to their approval; evaluate programs and projects carried out under any program of the Department of Health, Education and Welfare in which Indian children or adults can participate or from which they can benefit, and disseminate the results of such evaluation; provide technical assistance to local educational agencies and to Indian educational agencies, institutions, and organizations; assist the Commissioner in developing criteria and regulations for the administration and evaluation of grants; and submit to the Congress an annual report of its activities.

The meeting of the Council or subcommittees thereunder, shall be open to the public. The agenda for the proposed meeting of the Search Committee involves the reviewing of applications and interviewing candidates for the position of Executive Director to the Council; and also setting up procedures for selecting a list of nominees for the position of Deputy Commissioner of Indian Education preparatory to the Council forwarding its list of nominees to the U.S. Commissioner of Education for this position.

The agenda of the National Council meeting involves reports of the Search Committee, Budget Committee, Legislative Committee on 1974 funding, location of the National Council Headquarters and an overall Council review of the system for reviewing proposals by Council members.

Because of limited space for the meeting, all persons wishing to attend should request reservations from the National Advisory Council on Indian Education, 400 L'Enfant Plaza East, S.W., Washington, D.C. 20202 phone 554-2350.

Records shall be kept of all Council proceedings and shall be available for public inspection at the office of the National Advisory Council address above.

Signed at Washington, D.C. on July 18, 1973.

FRANK B. MCGETTRICK,
Acting Deputy Commissioner for Indian Education.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50-440, 50-441]

DUQUESNE LIGHT CO ET AL.

Notice of Receipt of Application for Construction Permits and Facility Licenses and Applicants' Environmental Report; Time for Submission of Views on Antitrust Matter

Duquesne Light Company, 435 Sixth Avenue, Pittsburgh, Pennsylvania 15219, Ohio Edison Company, 47 North Main Street, Akron, Ohio 44308, Pennsylvania Power Company, One East Washington Street, New Castle, Pennsylvania 16103, The Cleveland Electric Illuminating Company, P.O. Box 5000, Cleveland, Ohio 44101, and Toledo Edison Company, 300 Madison Avenue, Toledo, Ohio 43652 (the applicants), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, have filed an application which was docketed on June 25, 1973, for authorization to construct and operate two single-cycle, forced circulation, boiling water nuclear reactors. The application was tendered on March 28, 1973. Following a preliminary review for completeness, it was rejected on May 2, 1973, for lack of sufficient information. The applicants submitted additional information on June 6, 1973 and the application was accepted for docketing.

The proposed nuclear facility, designated by the applicants as the Perry Nuclear Power Plant, Units 1 & 2 is located near Lake Erie in Lake County, Ohio, approximately 35 miles northeast of Cleveland, Ohio and is designated for initial operation at approximately 3579 megawatts (thermal) with a net electrical output of approximately 1205 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before September 7, 1973. The request should be filed in connection with Docket 50-440A & 50-441A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and at the Perry Public Library, 3753 Main Street, Perry Township, Ohio 44081.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, an environmental report dated March 28, 1973. The report has been made available for public inspection at the aforementioned locations. The report, which discusses environmental considerations related to the proposed construction of the Perry Nuclear Power Plant, Units 1 & 2 is also being made available at the Office of the Governor, State Clearinghouse, 62 East Broad Street—2nd Floor, Columbus, Ohio 43215 and at the Northeast Ohio Areawide Coordinating Agency, 439 The Arcade, Cleveland, Ohio 44114.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, requesting comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials thereon will be made available when received.

Dated at Bethesda, Md., this 28th day of June 1973.

For the Atomic Energy Commission.

WALTER R. BUTLER,
Chief, Boiling Water Reactors, Branch 1, Directorate of Licensing

[FR Doc 73-13656 Filed 7-5-73;8:45 am]

[Docket Nos. 50-354, 50-355]

PUBLIC SERVICE ELECTRIC & GAS CO.

Availability of AEC's Draft Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the U.S. Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a Draft Environmental Statement prepared by the Commission's Directorate of Licensing related to the proposed issuance of a construction permit to the Public Service Electric & Gas Company for its Newbold Island Nuclear Generating Station, Units 1 and 2, to be located in the Township of Bordentown, Burlington County, New Jersey, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. 20545, and in the Trenton Free Public Library, 120 Academy Street, Trenton, New Jersey 08608. The Draft Environmental Statement is also being made available at the Division of State and Regional Planning, Department of Community Affairs, P.O. Box 2768, Trenton, New Jersey 08625, and at the Delaware Valley Regional Planning Commission, 1317 Filbert Street, Philadelphia, Pennsylvania 19107.

Copies of the Commission's Draft Environmental Statement may be obtained by request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

This Draft Environmental Statement incorporates recent information related to the consequences of the consumptive use of Delaware River water for plant operation and includes consideration of comments received on the December 1972 Draft Environmental Statement. The notice of availability of the Draft Environmental Statement dated December 1972 was published in the FEDERAL REGISTER on December 21, 1972 (37 FR 28204).

Pursuant to Appendix D, 10 CFR Part 50, interested persons may, on or before August 22, 1973, submit comments on the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Draft Environmental Statement (local agencies may obtain this document upon request). When comments thereon by Federal, State and local officials are received by the Commission, such comments will be made available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Trenton Free Public Library, 120 Academy Street, Trenton, New Jersey.

Comments on the AEC's Draft Environmental Statement from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland, this 16th day of July 1973.

For the Atomic Energy Commission.

B. J. YOUNGBLOOD,
Chief, Environmental Projects Branch No. 3, Directorate of Licensing.

[FR Doc 73-14797 Filed 7-20-73;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS WORKING GROUP ON PEAKING FACTORS

Notice of Meeting

JULY 19, 1973.

In accordance with the purposes of Sections 29 and 182 b. of the Atomic Energy Act (42 USC 2039, 2232 b.), the Advisory Committee on Reactor Safeguards Working Group on Peaking Factors will hold a meeting on August 8, 1973, in Room 1046, at 1717 H Street, NW., Washington, D.C. The purpose of this meeting will be to discuss calculational techniques and plant operating conditions related to peaking factors, with reference to nuclear reactors designed by the Babcock and Wilcox Company.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

Wednesday, August 8, 1973, 9:30 a.m.–4:00 p.m.—Discussion with the AEC Regulatory Staff and the Babcock and Wilcox Company.

In connection with the above agenda item, the Subcommittee will hold an executive session at 8:30 a.m., which will involve discussion of its preliminary views, and an executive session at approximately 4:30 p.m. to exchange opinions and formulate recommendations to the ACRS. In addition, prior to the executive session at the end of the day, the Subcommittee may hold a closed session with the Regulatory Staff and Applicant to discuss privileged information relating to nuclear fuel design, calculational techniques and plant operating conditions related to peaking factors, if necessary.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the executive sessions at the beginning and end of the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b); and that a closed session may be held, if necessary, to discuss certain documents which are privileged, and fall within exemption (4) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and to avoid undue interference with Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than August 1, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon B&W topical reports and various other related documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1 p.m. and 3 p.m. on the day of the meeting.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been canceled or rescheduled, and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on August 6, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5651) between 8:30 a.m. and 5:15 p.m., Eastern Daylight Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545. On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 on or after October 8, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Acting Advisory Committee Management Officer.

ENVIRONMENTAL PROTECTION AGENCY

[Dockets No. 145 et al.]

REGISTRATIONS AND TOLERANCES OF PESTICIDES ALDRIN AND DIELDRIN

Supplemental Notice of Hearing

A notice was issued July 6, 1973 (38 FR 18484) of a public hearing to begin August 7, 1973, in Davenport, Iowa, in consolidated proceedings under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 135 *et seq.*), as amended by the Federal Environmental Pesticide Control Act of 1972 (86 Stat. 973), involving the cancellation of registrations of pesticides containing aldrin and dieldrin and under sections 406 and 408 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346 and 346a) involving tolerances therefor, with the hearing to move to additional places.

Notice is hereby given that hearing sessions will begin as follows:

(1) On Tuesday, August 7, 1973, at 9:30 a.m., local time, in the Court Room, Room 242, Federal Building, 131 East 4th Street, Davenport, Iowa;

(2) On Tuesday, August 21, 1973, at 9:30 a.m., local time, in the Southeast Meeting Room, Indiana World War Memorial Building, 431 N. Meridian Street, Indianapolis, Indiana;

(3) On Tuesday, August 28, 1973, at 9:30 a.m., local time, in EPA Hearing Room, Room 214, 1735 Baltimore Street, Kansas City, Missouri;

(4) On Wednesday, September 5, 1973, at 9:30 a.m., local time, in the EPA Hearing Room, Room 3906, Waterside Mall, 401 M Street, SW., Washington, D.C.;

(5) On Tuesday, September 11, 1973, at 9:30 a.m., local time, in the County Agricultural Agent Office, 2350 E. Michigan Street, Orlando, Florida;

(6) On Tuesday, September 18, 1973, at 9:30 a.m., local time, in Lubbock County Courthouse, 904 Broadway, Lubbock, Texas;

(7) On Tuesday, October 2, 1973, at 9:30 a.m., local time, in the EPA Hearing Room, Room 3906, Waterside Mall, 401 M Street, SW., Washington, D.C.

Subsequently, the hearing may be moved to a different place and may be continued from day to day or recessed to a later day without other notice than announcement thereof at the hearing.

For information concerning the issues involved and other details of these proceedings, interested persons are referred to the dockets of these proceedings on file with the Hearing Clerk, Environmental Protection Agency, Room E-1019, Waterside Mall, 401 M Street, SW., Washington, D.C. 20460.

HERBERT L. PERLMAN,
Chief Administrative Law Judge.

FEDERAL MARITIME COMMISSION

PORT OF SAN FRANCISCO AND STATES STEAMSHIP CO.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, N.W., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before August 13, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Miriam E. Wolff, Port Director, Port of San Francisco, Ferry Building, San Francisco, California 94111.

Agreement No. T-2227-2 between the Port of San Francisco (Port) and States Steamship Company (States) modifies the basic agreement which provides for the 10-year lease of a portion of the Port's Army Street Terminal. The purpose of the modification is to: (1) provide for certain improvements to the premises by the Port; (2) increase the area of the leased premises by approximately 13.68 acres; and (3) increase the minimum annual rental for the premises to $400,000 as set forth in detail in the agreement. In addition, States has the option of leasing an additional 20,000 square feet of space at $.20 per square foot per month, exclusive of the original lease charges.

By Order of the Federal Maritime Commission.

Dated: July 17, 1973.

FRANCIS C. HURNEY,
Secretary.

PORT OF SEATTLE AND AMERICAN MAIL LINE, LTD

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before August 13, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Wade Thompson,
Director,
Department of Real Estate,
Port of Seattle,
P.O. Box 1209,
Seattle, Washington 98111.

Agreement No. T-2671-1, between the Port of Seattle (Port) and American Mail Line, Ltd. (AML), modifies the basic agreement which provides for the month-to-month lease of certain office space, storage, and transit shed area located at Pier 28, Seattle, Washington, to be used for offices, storage and transit shed operation. The purpose of the modification is to enlarge the leased premises by 462 square feet and increase the monthly rental by $173.25.

By Order of the Federal Maritime Commission

Dated July 17, 1973.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.73-15031 Filed 7-20-73;8:45 am]

FEDERAL RESERVE SYSTEM

FEDERAL OPEN MARKET COMMITTEE

Domestic Policy Directive of April 17, 1973

In accordance with section 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on April 17, 1973.[1]

The information reviewed at this meeting suggests continued rapid growth in real output of goods and services in the first quarter, spurred by an extraordinary increase in consumption expenditures. Over the first 3 months of this year, employment rose strongly but the unemployment rate remained about 5 per cent. The recent advance in wage rates has been more moderate than in the latter part of 1972, but the increase in social security taxes in January added significantly to payroll costs. The rate of increase in prices stepped up very sharply in the first quarter. Prices of foods have continued to rise at wholesale and retail, and in both February and March increases in wholesale prices of industrial commodities were large and widespread. Foreign exchange markets have been relatively quiet since mid-March, and there has been a moderate reflow into dollars. The U.S. merchandise trade balance improved a little in January-February, when both exports and imports were sharply higher than in the fourth quarter of 1972.

Growth in both the narrowly and more broadly defined money stock slowed markedly in the first quarter following a bulge toward the close of last year. However, in the face of strong loan demand—especially from businesses—banks sharply increased their issuance of large-denomination CD's, and the bank credit proxy expanded very rapidly. Short-term market interest rates continued to rise until the beginning of April, but since then some rates—particularly those on Treasury bills—have declined. Rates on long-term market securities have moved down on balance in recent weeks.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions conducive to abatement of inflationary pressures, a more sustainable rate of advance in economic activity, and progress toward equilibrium in the country's balance of payments.

To implement this policy, while taking account of forthcoming Treasury financing, the Committee seeks to achieve bank reserve and money market conditions consistent with moderate growth in monetary aggregates over the months ahead.

By order of the Federal Open Market Committee, July 10, 1973.

ARTHUR L. BROIDA,
Secretary.

JULY 16, 1973.

[FR Doc.73-14977 Filed 7-20-73;8:45 am]

ALFRED I. DUPONT TRUST

Preliminary Determination of Control Over Florida National Banks of Florida

Section 2(a)(1) of the Bank Holding Company Act (12 U.S.C. 1841(a)(1))

[1] The Record of Policy Actions of the Committee for the meeting of April 17, 1973, is filed as part of the original document. Copies are available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

V 38 140 JUL 23 73 XUM

provides that "bank holding company" means any company which has control over any bank or over any company that is or becomes a bank holding company by virtue of this Act. Sections 2(a)(2)(A) and (B) and section 2(g)(1) and (2) establish conclusive presumptions that a company controls a bank or other company. Section 2(a)(2)(C) of the Act provides that a company has control over a bank or over any company if the Board determines, after notice and opportunity for hearing, that the company directly or indirectly exercises a controlling influence over the management or policies of a bank or company.

The Board's Regulation Y (12 CFR 225.2(b)) provides rebuttable presumptions of control, in addition to presumptions established by the Act, to be used by the Board in determining that a company controls a bank or other company. Paragraph (c) of § 225.2 of Regulation Y sets forth procedures for determining control in any case in which a presumption established by paragraph (b) of that section applies, or in any other case where it appears to the Board that a company exercises a controlling influence over the management or policies of a bank or other company, and the company has not complied with the provisions of the Act.

Pursuant to the provisions of section 2 of the Act and Regulation Y (12 CFR 225.2(c)) and in accordance with the expressed intention of Congress which in 1966 amended the Bank Holding Company Act and thereby removed the Alfred I. duPont Trust's exempt status under the Act and required the Trust to divest itself of its nonbanking interests or cease to be a bank holding company by July 1, 1971, the Board has reviewed the relationship of the Alfred I. duPont Trust with Florida National Banks of Florida, Jacksonville, Florida, and its subsidiary banks.

Based upon facts available to it, the Board has concluded that there exists a question as to the effectiveness of the Alfred I. duPont Trust's action directed toward divestiture of control of the banks in the Florida National Group as required under the Act. Circumstances involving the Trust-Florida National relationship fall within the rebuttable presumptions of control of Regulation Y (12 CFR 225.2(b)). One section (225.2(b)(2)) relates to the Trust's ownership of at least 24.7 percent of the stock of Florida National coupled with ownership of an additional 6 per cent of the stock of Florida National by a trustee of the Trust. In addition, facts available to the Board indicate also the possible applicability of other presumptions of control such as § 225.2(b)(1) of Regulation Y and of section 2(g)(3) of the Act.

Based on the foregoing and other factors considered, including, the power of individuals who serve as trustees of the Alfred I. duPont Trust to vote an additional 4.5 percent of the shares of Florida National Banks of Florida by virtue of their being executors of the estate of the widow of Alfred I. duPont, the Board has made a preliminary determination, pursuant to Regulation Y (12 CFR 225.2(c)) that the Trust created by the Last Will and Testament of Alfred I. duPont, exercises control and/or a controlling influence over the management or policies of Florida National Banks of Florida and/or its subsidiary banks within the meaning of section 2 of the Bank Holding Company Act of 1956, as amended.

As prescribed by § 225.2(c) of Regulation Y, within 30 days from the effective date of the Board's determination, the Trust may either (1) indicate its willingness to terminate a control relationship which the Board has by preliminary determination found to exist and submit a plan to effect termination of control, or (2) set forth facts and circumstances in support of a contention that the Trust does not exercise control or a controlling influence over the management or policies of Florida National or its subsidiary banks. The Trust may request a hearing to contest the Board's preliminary determination of control at which representatives of the Trust may present evidence to rebut the facts and presumptions herein referred to and otherwise support a contention that no control relationship or controlling influence exists.

By determination of the Board of Governors, effective July 5, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-14978 Filed 7-20-73;8:45 am]

BERKSHIRE BANCORP INC.

Order Approving Acquisition of Bank

Berkshire Bancorp Inc., Pittsfield, Massachusetts, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares (less directors' qualifying shares) of Guaranty Bank & Trust Company, Worcester, Massachusetts ("Guaranty Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant,[1] the 21st largest commercial banking organization in Massachusetts, controls one bank, Berkshire Bank & Trust Company ("Berkshire Bank"), with deposits of about $65 million, representing approximately 0.6 per cent of total bank deposits in the State.[2] Guaranty Bank is the 10th largest banking organization in the State with deposits of $176 million, accounting for 1.6 per cent of total statewide commercial bank deposits. Consummation of the proposal would result in Applicant controlling 2.2 per cent of total commercial bank deposits in Massachusetts, and it would become the eighth largest banking organization and bank holding company in the State. Consummation of the transaction would not result in a significant increase in the concentration of banking resources in Massachusetts.

Guaranty Bank is the second largest of seven banks competing in the Worcester SMSA,[3] with about 24 per cent of market deposits. The largest bank in the market, Worcester County National Bank, a subsidiary of the State's seventh largest commercial banking organization, controls approximately 47 per cent of market deposits. The State's sixth largest banking organization also controls a subsidiary in the market.

Consummation of the proposal would eliminate no significant existing competition between Berkshire Bank and Guaranty Bank. Since the banks are 65 miles apart, with three counties and numerous banks intervening and in view of Massachusetts' restrictive branching laws, it is unlikely that competition between Berkshire Bank and Guaranty Bank would develop in the future. Consummation of the proposal would have no adverse effects on existing or potential competition and should be procompetitive by creating an alternative to the larger Boston based holding companies.

The financial condition, managerial resources, and prospects of Applicant, its subsidiary bank, and Guaranty Bank, are regarded as satisfactory and consistent with approval. Both banks' customers should benefit from the affiliation as a result of the capability to offer increased services in the respective service areas, which are presently unavailable from the banks in view of their limited resources. It is the Board's judgment that the proposed acquisition is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Boston pursuant to delegated authority.

By order of the Board of Governors,[4] effective July 16, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-14979 Filed 7-20-73;8:45 am]

[1] Applicant has pending a section 4(c)(8) application to retain O-T-C Investor Service Corporation, Pittsfield, Massachusetts and New York, New York, a company engaged in making loans to investors secured by stock of limited marketability.

[2] Except as otherwise indicated, banking data are as of June 30, 1972, and reflect bank holding company formations and acquisitions approved by the Board through May 31, 1973.

[3] Deposit date for the Worcester SMSA market are as of June 30, 1970.

[4] Voting for this action: Vice Chairman Mitchell and Governors Daane, Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Chairman Burns.

FARMERS STATE CORPORATION

Formation of Bank Holding Company

Farmers State Corporation, Zionsville, Indiana, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 per cent (less directors' qualifying shares) of the voting shares of Farmers State Bank, Zionsville, Indiana. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 8, 1973.

Board of Governors of the Federal Reserve System, July 13, 1973.

FIRST CHICAGO CORPORATION

Order Approving Acquisition of AFSA Data Corporation

First Chicago Corporation, Chicago, Illinois, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and section 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of AFSA Data Corporation, Hawthorne, California ("AFSA"), a company that engages in the activity of servicing student loans and other extensions of credit. Such activity has been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(3)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FEDERAL REGISTER 13062). The time for filing comments and views has expired, and none has been timely received.

Applicant controls one banking subsidiary, The First National Bank of Chicago ("Bank"), which is the second largest bank in Chicago and in the State of Illinois controlling deposits of $5.2 billion, representing approximately 13 per cent of total deposits in commercial banks in the State. (All banking data are as of June 30, 1972.) Applicant also has several nonbanking subsidiaries, including First Chicago University Finance Corporation ("University Finance") which has been granted permission[1] to make or acquire, for its own account or for the account of others, loans and other extensions of credit primarily related to the financing of post secondary education, and servicing such loans or extensions of credit.

AFSA was incorporated in August, 1967, in California, to conduct business as a servicer of student loans. AFSA has total assets of $195,000, and presently services a loan portfolio of approximately 141,000 accounts in 19 states, although almost 70 per cent of the accounts are located in three states, California, New York and Pennsylvania. Corporate headquarters are located in Hawthorne, California, and a service office is located in New York City, New York.

Although University Finance was granted permission to engage in the servicing of loans or extensions of credit, Applicant has stated in this application that University Finance would not develop the capability to service student loans but would subcontract this servicing to an agent. If this application is approved, Applicant intends that AFSA be the recipient of most of the servicing business obtained by University Finance. Although Bank provides servicing for its student loan accounts, it cannot be considered a significant competitor in the student loan servicing field since Bank's servicing operations are performed manually and solely for its own accounts, whereas other student loan servicers are highly computerized. Accordingly, consummation of the acquisition would not appear to have a significant effect on existing competition. Applicant could enter the student loan servicing business de novo, and thus, Applicant's acquisition of AFSA could be considered an adverse factor. However, this situation is mitigated by the low barriers to entry in this activity and the numerous servicers already in the field, including Federally Insured Student Loan (FISL) lenders, educational institutions, regional services, and local and regional data processing companies. Further, AFSA is in need of additional capital, and approval of the acquisition would improve AFSA's competitive capability vis-a-vis other national servicing organizations which are affiliated with financial institutions. The Board concludes that the competitive considerations are consistent with, and the public interest factors lend some weight to, approval of the application.

There is no evidence in the record indicating that consummation of the proposed acquisition would result in undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[2] effective July 12, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

V38-140 JUL 23 73 XUM

FIRST INTERNATIONAL BANCSHARES, INC.

Order Approving Acquisition of Bank

First International Bancshares, Inc., Dallas, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)), to acquire the successor by merger to Park Cities Bank & Trust Company, Highland Park (Dallas), Texas ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of voting shares of Bank. Accordingly, the proposed acquisition is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the application and those received have been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

By Order dated November 30, 1972, the Board approved the formation of Applicant[1] and stated:

First National [Bank in Dallas, Applicant's lead bank] now holds certain minority interests in fourteen banks ("Other Banks") located in Dallas County, Texas, as follows: 24 per cent of the shares of American Bank and Trust Company; 21.34 per cent of the shares of Citizens State Bank, Irving; 20 per cent of the shares of The Dallas County State Bank, Carrollton; 24.76 per cent of the shares of DeSoto State Bank; 24.52 per cent of the shares of East Dallas Bank & Trust Company; 24 per cent of the shares of First National Bank of Richardson; 24 per cent of the shares of Grove State Bank; 22.42 per cent of the shares of North Dallas Bank and Trust Company; 24.9 per cent of the shares of Northpark National Bank; 19.47 per cent of the shares of Park City's Bank and Trust Company; 24.5 per cent of the shares of Southwest Bank and Trust Company, Irving; 24 per cent of the shares of Texas National Bank; 10.67 per cent of the shares of White Rock National Bank; and 26.41 per cent of the shares of Guaranty Bank, formerly South Oak Cliff Bank.

Board approval of Applicant's proposal to become a bank holding company does not signify Board approval of the retention or acquisition of the above-referred to minority interests in Other Banks. It is the Board's understanding, from representations by Applicant, that Applicant will file separate applications for prior approval by the Board for each of such minority holdings it seeks to retain and cause its minority interests in all Other Banks, other than those for which such applications are filed, to be completely and permanently divested by it. It is further understood that in this manner any such applications so filed by Applicant will be subject to the ordinary regulatory and legal process, subject to statutory standards as set forth in both section 3 of the Bank Holding Company Act and section 7 of the Clayton Act.

This application has been filed pursuant to that understanding but encompasses all of the voting shares of Bank rather than Applicant's presently existing minority interest in Bank. Similar applications have been filed to acquire shares of Grove State Bank, American Bank & Trust Company, and Southwest Bank & Trust Company. The Board understands that an application will be filed promptly, but, in any event, not later than August 1, 1973, for shares of the Dallas County State Bank and further understands that Applicant's indirect minority interest in Guaranty Bank, formerly South Oak Cliff Bank, was completely and permanently divested by sale on January 9, 1973. The Board further understands and expects that Applicant's indirect minority interests in the eight other banks mentioned above will be completely and permanently divested as noted in the Board's earlier statement.

Applicant controls two banks with deposits of $1.7 billion, representing 5.6 per cent of the deposits in commercial banks in Texas.[2] Acquisition of Bank (deposits of $195 million) would not result in a significant increase in the concentration of banking resources in Texas.

Bank is the twenty-sixth largest of 110 banks located in the Dallas banking market, and controls 0.5 per cent of total deposits in that market.[3] Applicant presently has one banking subsidiary in the Dallas banking market, First National Bank in Dallas, Dallas, Texas ("Dallas Bank"), which is the second largest bank in the market with deposits of $1.5 billion and a market share of 23.4 per cent. Upon consummation of the four pending acquisitions referred to above, Applicant's subsidiaries would hold 25.5 per cent of the total deposits in commercial banks in the Dallas market. Should the Board approve the forthcoming application by Applicant to acquire shares of Dallas County State Bank, Applicant would control 25.9 per cent of total deposits in that market. The eight banks in which Applicant's minority interests will be divested, have a combined market share of 1.7 per cent. Several directors of Dallas Bank were among the organizers of Bank in 1958. Applicant presently controls 19.5 per cent of the shares of Bank and certain of its shareholders hold an additional 12.1 per cent of Bank's shares. Irrespective of the affiliation of Bank with Applicant, consummation of the proposed transaction is unlikely to have a significant adverse effect on existing or future competition in the Dallas market in view of the small size of Bank's market share and the difference in principal functions between Bank and Applicant's lead bank, the former serving primarily as a source of individual or retail banking services, the latter as a source of corporate or wholesale banking services. No meaningful competition apparently exists between Bank and Dallas Bank. Consummation of the proposed transaction would not have a significant adverse effect on competition in commercial banking in the Dallas banking market.

The financial and managerial resources and future prospects of Applicant, its subsidiary banks, and Bank are generally satisfactory and consistent with approval. Considerations relating to the convenience and needs of the community to be served are also consistent with approval of the application. It is the Board's judgment that the proposed acquisition is in the public interest and the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order, or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas, pursuant to delegated authority.

By order of the Board of Governors,[4] effective July 13, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

ISHAM MANAGEMENT CO.

Formation of Bank Holding Company

Isham Management Co., Gordon, Nebraska, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 95.8 per cent or more of the voting shares of The First National Bank of Gordon, Gordon, Nebraska. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank, to be received not later than August 2, 1973.

Board of Governors of the Federal Reserve System, July 16, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

[FR Doc.73-14985 Filed 7-20-73;8:45 am]

THE MOODY FOUNDATION

Order Approving Exemption of Nonbanking Activities of Bank Holding Company

The Moody Foundation, Galveston, Texas, a bank holding company within the meaning of the Bank Holding Company Act by virtue of ownership of 51 per cent of the voting shares of the Moody National Bank of Galveston, Galveston, Texas, has applied to the Board of Governors, pursuant to section 4(d) of the Act (12 U.S.C. 1843(d)), for an exemption from the prohibitions of section 4 of the Act (relating to nonbanking activities of, and acquisitions by, a bank holding company).

Notice of receipt of the application was published in the FEDERAL REGISTER on December 2, 1972 (37 FR 26473), providing an opportunity for interested persons to submit comments and views with respect to the application. Time for filing comments and views has expired and all those received have been considered. No request for a hearing has been received.

Section 4(d) of the Act provides that, to the extent such action would not be substantially at variance with the purposes of the Act and subject to such conditions as the Board considers necessary to protect the public interest, the Board may grant an exemption from the prohibitions in section 4 of the Act to a bank holding company that controlled one bank prior to July 1, 1968, and has not thereafter acquired the control of any other bank, in order (1) to avoid disrupting business relationships that have existed over a long period of years without adversely affecting the banks or communities involved, (2) to avoid forced sales of small locally owned banks to purchasers not similarly representative of community interests, or (3) to allow retention of banks that are so small in relation to the holding company's total interests and so small in relation to the banking market to be served as to minimize the likelihood that the bank's powers to grant or deny credit may be influenced by a desire to further the holding company's other interests.

The Board has considered the application in light of the factors set forth in section 4(d) of the Act, and finds that:

Applicant is a charitable foundation established in 1942 by W. L. Moody, Jr., and his wife Libbie Shearn Moody, with the stated purpose to assist in supporting activities that are directed toward improving the general well being of the people who live in Texas. Applicant has investment interests in several nonbank companies, but its principal investments are (a) its 35 per cent interest in the American National Financial Corporation, a Delaware corporation, owning 100 per cent of the shares of American National Insurance Company, and (b) 51 per cent of the voting shares of The Moody National Bank of Galveston ("Bank"), Galveston, Texas. American National Insurance Company ranks (as of December 31, 1971) as the ninth largest in size (in terms of insurance in force) and eleventh largest in size (with assets of $1.5 billion as of December 31, 1971) among stock life insurance companies in the United States.

Bank was founded by W. L. Moody, Jr., in 1907, and continued to be controlled by Mr. Moody until his death in 1954. Upon his death, the control of Bank passed through his estate to Applicant, the estate being settled in 1959. With deposits of approximately $38 million as of June 30, 1972, Bank is the third largest of the fourteen banks located in the Galveston Standard Metropolitan Statistical Area, and holds about 12 per cent of the aggregate deposits in commercial banks in that market. Bank appears to be in generally satisfactory condition, its management capable, and its prospects good.

The Board has found no evidence that the ownership and control of Bank by W. L. Moody, Jr., or the Moody Foundation has had an adverse effect on the Bank or the communities involved. Rather it appears that the charitable endeavors of Applicant in the areas of education, health, welfare, etc., have had a beneficial effect on the people of Texas. Since 1960, Applicant has made charitable grants totaling more than $55 million. There is no evidence of any misuse of Bank by Applicant, nor any evidence to suggest that the continued ownership of Bank by Applicant will jeopardize the financial soundness of Bank. American National maintains a payroll account for its home office at Bank. Apparently, neither American National nor any of Applicant's other subsidiaries has borrowed from Bank.

Although Applicant's income is derived from several sources, about 62 per cent of its gross revenues were derived (during 1971) from dividends from American National. During the same period, income from Bank accounted for only about 1 per cent of Applicant's total revenues. In addition, the total assets of the Bank ($46 million) constitute (as of December 31, 1971) 2.9 per cent of the total assets ($1.58 billion) of the companies in the holding company system.

On the basis of the entire record, the Board concludes that the business relationships between The Moody Foundation and Bank have existed over a long period of years without adversely affecting the banks or communities involved; Bank is small in relation to the total interests of The Moody Foundation and it appears unlikely that Bank's powers to grant or deny credit would be influenced by a desire to further Applicant's other interests. Granting an exemption to Applicant would not be substantially at variance with the purposes of the Act nor adverse to the public interest; and an exemption is warranted under the provisions of section 4(d) of the Act. Accordingly, an exemption pursuant to section 4(d) of the Act is hereby granted subject to the condition that this determination may be revoked if the facts upon which it is based change in any material respect. Further, the provision of any credit, property, or service by the Registrant or any subsidiary thereof shall not be subject to any condition which, if imposed by a bank, would constitute an unlawful tie-in arrangement under section 106 of the Bank Holding Company Act Amendments of 1970. The determination herein is subject to the Board's authority to require modification or termination of the activities of Applicant or any of its nonbanking subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

By order of the Board of Governors,[1] effective July 12, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

THE REPUBLIC NATIONAL BANK OF DALLAS

"Grandfather" Privileges Under Bank Holding Company Act

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges ("grandfather" privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 Amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such a company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, *inter alia*, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent an undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. With respect to a company that controls a bank with assets in excess of $60 million on or after December 31, 1970, the Board is required to make such a determination within a two year period.

Notice of the Board's proposed review of grandfather privileges of The Republic National Bank of Dallas, Dallas, Texas, and an opportunity for interested persons to submit comments and views or request a hearing, has been given (37 FR 22414). The time for filing comments, views, and requests has expired, and all those received have been considered by the Board in light of the factors set forth in section 4(a)(2) of the Act.

On the evidence before it, the Board makes the following findings. The Republic National Bank of Dallas,

[1] Voting for this action: Vice Chairman Mitchell and Governors Daane, Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Chairman Burns.

V 38 140 JUL 23 73 XUM

("Registrant"), Dallas, Texas, became a bank holding company on December 31, 1970, as a result of the 1970 Amendments to the Act,[1] by virtue of Registrant's indirect ownership of 30 per cent of the voting shares of Oak Cliff Bank and Trust Company ("Bank"), Dallas, Texas (assets of about $96 million, as of December 31, 1970). Bank, control of which was acquired by Registrant in 1929 had total deposits of approximately $94 million as of December 31, 1971, representing less than 2 per cent of the total deposits in commercial banks in the Dallas banking market, and is the seventh largest bank in that market. Bank's management, financial condition, and prospects are regarded as satisfactory, and the Board has found no evidence of unsound banking practices.

Registrant, a national bank with total assets of $2.6 billion as of December 31, 1970, is the largest banking organization in Texas, and the largest of 118 banks in the Dallas banking market. Registrant has deposits of $1.8 billion, representing about 28 per cent of the deposits in commercial banks in the Dallas market and about 6 per cent of such deposits in the State.[2] Together with its banking subsidiary, Registrant controls deposits of $1.9 billion, representing about 29 per cent of the deposits in Dallas, and 6.3 per cent of the total deposits in the State.

Registrant has six wholly-owned nonbanking subsidiaries: (1) Republic International Company, Dallas, Texas, an Edge Act Corporation acquired in May, 1968; (2) Republic Computer Corporation, Dallas, Texas, a company that apparently was acquired in March, 1969 and provides data processing services to commercial banks; (3) Republic National Corporation, Wilmington, Delaware, a company that was acquired in February, 1964 and owns Registrant's banking premises; (4) Medipark, Inc., Dallas, Texas, a company that was acquired in August, 1969 and owns and operates a parking garage for Registrant's employees and customers; (5) Republic Small Business Investment Company, Dallas, Texas, a small business investment company acquired in May, 1961; and (6) Livingston, Inc., Dallas, Texas, a company that was acquired in April, 1955 and owns title to a building adjoining Registrant's offices. A subsidiary that was acquired after June 30, 1968, does not provide a basis for entitlement to grandfather benefits. However, each of the six subsidiaries is directly owned by Registrant, a national bank. Accordingly, on the basis of section 4(c)(5) of the Act and § 225.4(e) of the Board's Regulation Y,[3] Registrant need not rely on grandfather privileges under the proviso in section 4(a)(2) for authority to continue the activities of the six direct subsidiaries.

In addition to its direct subsidiaries, Registrant is deemed to control, by virtue of section 2(g)(2) of the Act, the Howard Corporation, a trusteed affiliate of Registrant. Through the Howard Corporation, Registrant is reportedly engaged in dealing in securities; in activity involving oil, gas, and mineral exploration and development; and in certain real estate activity. The Board has currently under consideration and review the question of Registrant's entitlement to grandfather privileges with respect to these activities and whether termination should be required under the criteria set forth in section 4(a)(2) of the Act, and a determination on that question will be issued in the future.

On the basis of the foregoing and the facts before the Board, it appears that Registrant is authorized to continue to engage in the activities of its six direct subsidiaries described herein.

Board of Governors of the Federal Reserve System,[4] July 13, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

SOUTHWEST BANCSHARES, INC.

Acquisition of Bank

Southwest Bancshares, Inc., Houston, Texas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares (less directors' qualifying shares) of Houston State Bank, Houston, Texas, a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than August 6, 1973.

Board of Governors of the Federal Reserve System, July 13, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-14989 Filed 7-20-73;8:45 am]

UNION BANCORP, INC.

Formation of Bank Holding Company Proposed Acquisitions of Unionamerica Leasing Corporation and Unionamerica Computer Corporation

Union Bancorp, Inc., Los Angeles, California, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 per cent of the voting shares of Union Bank, Los Angeles, California. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

At the same time Union Bancorp, Inc., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Unionamerica Leasing Corporation and Unionamerica Computer Corporation, both of Los Angeles, California. Notice of each application was published on June 15, 1973, in the Los Angeles Times, a newspaper circulated in Los Angeles, California.

Applicant states that Unionamerica Leasing Corporation would engage in the activity of leasing personal property and equipment and acting as agent, broker, or adviser in leasing of such property.

Applicant states that Unionamerica Computer Corporation would engage in the following activities: 1) Electronically processing banking, financial and related economic data, including the development of computer programs therefor; 2) Making excess computer time available by furnishing its data processing facility and necessary operating personnel to persons who wish to utilize such time; 3) Selling byproducts resulting from the development of programs pertaining to the processing of banking, financial and related economic data; and 4) Providing any data processing service upon request of a customer if such service is not otherwise reasonably available in the relevant market area.

Applicant states that such leasing and data processing activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposals under section 4(c)(8) can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The applications may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of San Francisco.

Any views on the applications or requests for hearing on the section 4(c)(8) applications should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 8, 1973.

Board of Governors of the Federal Reserve System, July 13, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-14990 Filed 7-20-73;8:45 am]

UNITED CAROLINA BANCSHARES CORPORATION

Order Approving Acquisition of Prudential Credit Corporation of Sanford

United Carolina Bancshares Corporation, Whiteville, North Carolina, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire indirectly through its wholly-owned subsidiary, First Credit Corporation, Shallotte, North Carolina ("First Credit"), all of the assets of Prudential Credit Corporation of Sanford, Sanford, North Carolina ("Prudential"). Prudential is a consumer finance company that engages in the activities of making loans with a cash advance of $900 or less and acting as agent with respect to credit life and accident and health insurance directly related to an extension of credit. Such activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(1) and (9)(ii)(a)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FEDERAL REGISTER 14799). The time for filing comments and views has expired, and none has been timely received.

Applicant, the eighth largest banking organization in North Carolina, controls three banks with aggregate deposits of $283 million, representing 2.8 percent of the total deposits of commercial banks in the State.[1] Applicant also controls four nonbanking subsidiaries one of which, First Credit, is presently engaged in consumer finance company activities. First Credit (total assets of $769 thousand) is licensed under State law to make consumer loans with cash advances not exceeding $900. It operates as a direct subsidiary of Applicant with offices in Shallotte and Wilmington, North Carolina.[2]

Prudential (with total assets of $363 thousand) is a consumer finance company doing business through two offices located in Sanford, North Carolina. Most of Prudential's business is derived from Lee County, North Carolina, although a slight amount of business is obtained from the three adjoining counties. Four other finance companies compete in the Sanford market; Prudential controls but 12 percent of the combined total assets of the finance companies in this market.

Neither Applicant's banking subsidiaries nor First Credit are located in the Sanford area, and it does not appear that consummation of this transaction will eliminate any present competition. Due to the distance involved between Applicant's subsidiaries and Prudential, it is doubtful that any future competition will be foreclosed. Moreover, the presence of four other finance companies operating in Sanford makes *de novo* entry into the market unlikely.

Prudential also sells credit life insurance and accident and health insurance directly related to the loans it originates. Due to the limited nature of its insurance activities, it does not appear that Applicant's acquisition of Prudential's insurance activities would have any significant effect on either existing or potential competition.

The financial condition of Applicant is satisfactory, but the capital structure of First Credit is still inadequate. All of its debt, however, is due to Applicant which has adequate resources to manage it. Moreover, First Credit has operated at a profit for the past two years; and this acquisition represents an attempt by Applicant to strengthen the financial condition and enhance the prospects of First Credit. Considerations relating to the financial and managerial resources of Applicant and its subsidiaries are consistent with approval of the application.

Affiliation of Prudential with First Credit will likely increase the potential volume of loanable funds available to the public and should enable Prudential to compete more effectively with other finance companies. Consequently, factors relating to convenience and needs are consistent with approval.

Based upon the foregoing and other considerations reflected in the record,[3] the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[4] effective July 13, 1973.

CHESTER B. FELDBERG,
Secretary of the Board.

UNITED VIRGINIA BANKSHARES INCORPORATED

Acquisition of Bank

United Virginia Bankshares Incorporated, Richmond, Virginia, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent or more of the voting shares of United Virginia Bank of Charlottesville, Charlottesville, Virginia, a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Richmond. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than August 3, 1973.

Board of Governors of the Federal Reserve System, July 13, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (73-55)]

DRAFT ENVIRONMENTAL IMPACT STATEMENT

Public Notice Regarding Availability

Notice is hereby given of the public availability of the draft Environmental

[1] The Board's action herein is based on Registrant's claim that it controlled only one bank on June 30, 1968, and therefore became a bank holding company covered by the Bank Holding Company Act as a result of the enactment of the 1970 Amendments to the Act. The record shows that Registrant has interests in each of 21 other banks ("minority" banks), interests ranging from 6 to 24.98 per cent. The action herein does not constitute a determination by the Board that any of the minority banks is or is not, or may become a subsidiary of Registrant. Nor does the action herein indicate that the Board would in the future permit Registrant to acquire, directly or indirectly, any additional shares of any of said minority banks. Moreover the action herein does not preclude the Board from determining that Applicant exercises control of, or a controlling influence over the management or policies of, any of said banks within the meaning of section 2(a) of the Act.

[2] Deposit data are as of December 31, 1971, unless otherwise indicated.

[3] Section 4(c)(5) of the Act permits a bank holding company to acquire "shares which are of the kinds and amount eligible for investment by national banking associations under the provisions of section 5136 of the Revised Statutes;". Pursuant to § 225.4(e) of Regulation Y, a national bank that is a bank holding company may acquire or retain shares on the basis of section 4(c)(5) in accordance with the rules and regulations of the Comptroller of the Currency.

[4] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Brimmer, Sheehan, Bucher, and Holland.

[1] Banking data are as of December 31, 1972, and do not include Applicant's 49 percent interest in a recently opened *de novo* bank, Capitol National Bank of Raleigh. See Board Order of October 24, 1972, 37 Federal Register 23296.

[2] See Board Order of November 20, 1972, approving transfer of First Credit from Applicant's subsidiary bank to Applicant, (37 FEDERAL REGISTER 25204).

[3] Dissenting Statement of Governor Brimmer filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Richmond.

[4] Voting for this action: Vice Chairman Mitchell and Governors Daane, Sheehan, Bucher, and Holland. Voting against this action: Governor Brimmer. Absent and not voting: Chairman Burns.

V 38 140 JUL 23 73 XUM

Impact Statement for the Viking 1975 Project.

The Viking Program is part of an overall NASA program designed to explore the planet Mars with automated spacecraft. The first automated spacecraft exploration of Mars was performed by a flyby Mariner spacecraft in 1964. In 1969, two more Mariner type spacecraft performed flyby investigations of that planet. In 1971, a more extensively modified Mariner spacecraft was placed in orbit about the planet to perform extended scientific investigations. In 1975, two Viking spacecraft, each consisting of a Lander Capsule and Orbiter, will be launched from the Air Force Eastern Test Range by Titan/Centaur launch vehicles to conduct orbital, upper atmospheric, and surface investigations of Mars.

The potential for adverse environmental impact is small; such impacts as are foreseen will be localized, short in duration, controllable, and environmentally acceptable.

Comments on the draft Environmental Statement and on matters set forth therein are solicited from and may be submitted by State and local agencies and members of the public. Such comments should be submitted to the Associate Administrator, National Aeronautics and Space Administration, Washington, DC 20546. All comments must be received on or before September 21, 1973 in order to be considered in the preparation of the final Environmental Statement.

Copies of the draft statement may be obtained or examined at any of the following locations:

(a) National Aeronautics and Space Administration, Public Documents Room (Room 126), 600 Independence Avenue, SW, Washington, DC 20546.

(b) Ames Research Center, NASA (Building 201, Room 17), Moffett Field, CA 94035.

(c) Flight Research Center, NASA (Building 4800, Room 1017), P.O. Box 273, Edwards, CA 93523.

(d) Goddard Space Flight Center, NASA (Building 8, Room 150), Greenbelt, MD 20771.

(e) Johnson Space Center, NASA (Building 1, Room 136), Houston, TX 77058.

NATIONAL ENDOWMENT FOR HUMANITIES

ADVISORY COMMITTEE FELLOWSHIPS PANEL

Notice of Meeting

JULY 17, 1973.

Pursuant to Public Law 92–463, the Federal Advisory Committee Act, notice is hereby given that a meeting of the Fellowships for the Professions Panel will take place in Washington, D.C. on July 25, 1973.

The purpose of the meeting is to examine dossiers of individuals recommended to the Endowment as possible seminar directors in the Program of Fellowships for Medical Practitioners.

Based on section b (4) and (6) of 5 U.S.C. 552, the meeting will not be open to public participation. It is suggested that those desiring more specific information contact the Advisory Committee Management Officer Mr. John W. Jordan, 806 15th Street, NW., Washington, D.C. 20506, or call Area Code 202–382–2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

ADVISORY COMMITTEE PUBLIC PROGRAMS PANEL

Notice of Meeting

JULY 5, 1973.

Pursuant to Public Law 92–463, the Federal Advisory Committee Act, notice is hereby given that a meeting of the Public Programs Panel will take place in New York, N.Y. on August 1, 1973.

The purpose of the meeting is to review a film/tv proposal and development grant proposal that has been submitted to the Endowment for possible grant funding.

Based on section b(4) and (6) of 5 U.S.C. 552, the meeting will not be open to public participation. It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street, N.W., Washington, D.C. 20506, or call area code 202 382–2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[V–73–15]

ALLIED CHEMICAL CORP.

Notice of Application for Variance and Interim Order; Grant of Interim Order

I. *Notice of application.* Notice is hereby given that Allied Chemical Corporation, Columbia Road and Park Avenue, Morristown, New Jersey has made application pursuant to section 6(b)(6)(A) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1594) and 29 CFR 1905.10 for a variance, and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.93c (d) Carcinogens, access to controlled areas.

The addresses of the places of employment that will be affected by the application are as follows:

Haledon Works
Specialty Chemicals Division
550 Belmont Avenue
Haledon, New Jersey 07507
Buffalo Dye Plant
Specialty Chemicals Division
Box 1069
Buffalo, New York 14240

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

A. *Haledon Works.* At the Haledon Works, 3,3'-Dichlorobenzidine is handled for about an hour a day. The applicant states that it is unable to comply with the standard by its effective date because of the time needed to do the architectural planning, ordering of materials, removal of existing equipment, and construction of facilities necessary to come into compliance with the standard. In order to safeguard employees, applicant has taken the following steps:

The employees change into clean clothes in a locker room before entering the controlled area. They then proceed to the controlled area (which is physically separate from the locker room) where they put on impervious suits, rubber gloves, rubber boots, and air-supplied hoods. Prior to leaving the controlled area, the employees take decontamination showers while fully suited, and then remove the protective equipment. They then put on other footwear which has been stored in a plastic bag, return to the locker room, remove all clothing which is then segregated, take full showers, and put on clean uniforms.

Applicant's timetable for compliance calls for plans and specifications for

shower and change rooms that fully comply with the standard to be completed by November 15, 1973. Construction will begin by December 1, 1973, and will be completed by June 1, 1974.

B. *Buffalo Dye Plant.* At the Buffalo Dye Plant benzidine sulfate is used in a closed system with no employee exposure. Applicant states that it is unable to comply with the standard by its effective date because of the time needed to do the architectural planning, ordering of materials, removal of existing equipment, and construction of facilities necessary to come into compliance with the standard. In order to safeguard the employees against possible exposure to benzidine sulfate, applicant has taken the following steps:

The employees put on clean underclothing, impervious outer clothing, gloves, hard hats, and shoe coverings before entering the controlled area. Prior to leaving the controlled area, the employees take decontamination showers while fully suited, and then remove the protective equipment. They then put on outer footwear which has been stored in a plastic bag, return to the locker room, remove outer clothing which is then segregated, take full showers, and put on clean uniforms.

Applicant's timetable for compliance calls for the letting of contracts for construction of shower and change rooms by July 1, 1973. Construction will begin by August 1, 1973, and will be completed by December 1, 1973.

A copy of the application will be made available for inspection and copying upon request at the Office of Safety and Health Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Room 504, Washington, D.C. 20210, and at the following Regional and Area Offices.

Regional Office

U.S. Department of Labor
Occupational Safety and Health Administration
1515 Broadway (1 Astor Plaza)
New York, New York 10036

Area Offices

U.S. Department of Labor
Occupational Safety and Health Administration
Room 203—Midtown Plaza
700 East Water Street
Syracuse, New York 13210

U.S. Department of Labor
Occupational Safety and Health Administration
970 Broad Street—Room 635
Federal Office Building
Newark, New Jersey 07102

Interested persons, including affected employers and employees, are invited to submit written data, views, and arguments regarding the application for a variance, on or before August 22, 1973. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application for a variance on or before August 22, 1973, in conformity with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing shall be in quadruplicate, and shall be addressed to the Office of Safety and Health Standards at the above address.

II. *Interim order.* It appears from the application for a variance and interim order, that an interim order is necessary to prevent undue hardship pending the decision on the variance. Therefore it is ordered, pursuant to authority in section 6(b)(6)(A) of the Williams-Steiger Occupational Safety and Health Act of 1970, and 29 CFR 1905.10(c) that Allied Chemical Corporation be, and is hereby authorized to continue its operations according to the procedures and with the safety measures described in its application.

Allied Chemical Corporation shall give notice of this interim order to employees affected thereby, by the same means required to be used to inform them of the application for a variance.

Effective date. This interim order shall be effective as of August 22, 1973, and shall remain in effect until a decision is rendered on the application for variance by Allied Chemical Corporation.

Signed at Washington, D.C. this 18th day of July 1973.

JOHN STENDER,
Assistant Secretary of Labor.

Wage and Hour Division

CERTIFICATES AUTHORIZING THE EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM WAGES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), and Administrative Order No. 621 (36 F.R. 12819) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minmum wage rates otherwise applicable under section 6 of the Act. For each certificate, the effective and expiration dates, number or proportion of learners and the principal product manufactured by the establishment are as indicated. Conditions on occupations, wage rates, and learning periods which are provided in certificates issued under the supplemental industry regulations cited in the captions below are as established in those regulations; such conditions in certificates not issued under the supplemental industry regulations are as listed.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.20 to 522.25, as amended).

The following normal labor turnover certificates authorize 10 percent of the total number of factory production workers except as otherwise indicated.

Aalfs Mfg. Co., Spencer, IA; 6–18–73 to 6–17–74. (Men's pants)

Altamont Shirt Corp., Altamont, TN; 6–18–73 to 6–17–74. (Men's and boys' shirts)

Blackwelder Mfg. Co., Inc., Mocksville, NC; 6–14–73 to 6–13–74. (Men's and boys' shirts)

Brunswick Mfg. Co., Brunswick, GA; 5–20–73 to 5–19–74. (Women's and children's outerwear jackets and coats)

Carolina Girls Wear, Inc., St. George, SC; 6–18–73 to 6–17–74. (Children's dresses)

Crane Mfg. Co., Republic, Mo; 6–5–73 to 6–4–74. (Men's and boys' pants)

Dover Mills, Inc., Pisgah, AL; 5–14–73 to 5–13–74. (Children's pants and shirts)

Elder Mfg. Co., Carl Junction, MO; 5–5–73 to 5–4–74. (Children's shirts)

Freeland Sportswear Co., Inc., Freeland, PA; 5–27–73 to 5–26–74; 10 learners. (Men's outerwear jackets)

G. B. Mfrs., Inc., Chetopa, KS; 5–7–73 to 5–6–74; 10 learners. (Men's pants)

G–B Mfrs., Inc., Crane, MO; 6–1–73 to 5–31–74. (Men's pants)

Greenway Mfg. Co., Nemacolin, PA; 6–4–73 to 6–3–74; 10 learners. (Children's pants)

Kenrose Mfg. Co., Barnardsville, NC; 6–18–73 to 6–17–74. (Women's dresses)

Mode O'Day Co., Salt Lake City, UT; 6–19–73 to 6–18–74. (Women's dresses)

Piedmont Industries, Inc., Greenville, SC; 6–3–73 to 6–2–74. (Men's and boys' shirts)

Portland Mfg. Corp., Portland, TN; 5–1–73 to 4–30–74. (Women's and girls' blouses)

Sherman Mfg. Co., Darlington, SC; 5–7–73 to 5–6–74; 10 learners. (Women's dresses)

Sportcraft, Inc., McAdoo, PA; 5–21–73 to 5–20–74. (Women's and girls' slacks and girls' blazers)

Sweet-Orr & Co., Inc., Dawsonville, GA; 5–28–73 to 5–27–74. (Boys' shirts)

Wilgree Mfg. Co., Inc., Camilla, CA; 5–15–73 to 5–14–74. (Men's shirts)

The following plant expansion certificates were issued authorizing the number of learners indicated.

Glamorise Foundations, Inc., Dermott, AR; 5–29–73 to 11–28–73; 20 learners. (Brassieres)

Greenway Mfg. Co., Waynesburg, PA; 5–29–73 to 11–28–73; 30 learners. (Boys' and infants' shirts)

Lisa's, Inc., Grifton, NC; 6–18–73 to 12–17–73; 20 learners. (Children's jackets)

Toxeco Mfg. Corp., Toxey, AL; 5–14–73 to 11–13–73; 20 learners. (Men's shirts and women's blouses)

Glove Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.60 to 522.65, as amended)

N. Churchill Mfg. Co., Inc., Centralia, WA; 6–4–73 to 6–3–74; 10 learners for normal labor turnover purposes. (Work gloves)

Jomac Products, Inc., Winnfield, LA; 5–21–73 to 11–20–73; 45 learners for plant expansion purposes. (Work gloves)

Co-op Glove Mfg., Inc., Shuqualak, MS; 6–6–73 to 11–5–73; 20 learners for plant expansion purposes. (Work gloves)

Wells Lamont Corp., Philadelphia, MS; 5–30–73 to 5–29–74; 10 percent of the total number of machine stitchers for normal labor turnover purposes. (Work gloves)

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended and 29 CFR 522.30 to 522.35, as amended)

Barad & Co., Rolla, MO; 6–11–73 to 12–10–73; 20 learners for plant expansion purposes. (Women's sleepwear)

Louis Gallet, Inc., Uniontown, PA; 5–29–73 to 5–28–74; 5 learners for normal labor turnover purposes. (Men's shirts and sweaters)

The following learner certificate was issued in Puerto Rico to the company hereinafter named. The effective and expiration date, learner rates, occupations, learning periods, and the number of learners authorized to be employed, are indicated.

Randy Knitting Mills, Inc., Quebradillas, PR; 5–8–73 to 5–7–74; 29 learners for normal labor turnover purposes in the occupation of: (1) Sweater knitting, for a learning period of 480 hours at the rates of $1.27 an hour for the first 240 hours and $1.44 an hour for the remaining 240 hours; and (2) Machine stitching-seaming, for a learning period of

V 38 140 JUL 23 73 XUM

320 hours at the rates of $1.27 an hour for the first 160 hours and $1.44 an hour for the remaining 160 hours. (Full-fashioned sweaters)

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in 29 CFR, Part 528. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before August 7, 1973.

Signed at Washington, D.C., this 13th day of July 1973.

DONALD T. CRUMBACK,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice No. 301]

ASSIGNMENT OF HEARINGS

JULY 18, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC-F-11318, Superior Trucking Co., Inc.,—Purchase—(Portion) Daniel Hamm Drayage Co., MC-F-11631, Ace Doran Hauling & Rigging Company—Purchase (Portion)—Daniel Hamm Drayage Company, & MC-F-11742, Ace Doran Hauling & Rigging Company—Control—Daniel Hamm Drayage Company, now assigned July 23, 1973, at St. Louis, Mo., is postponed indefinitely.

MC 51146 Sub 300, Schneider Transport, Inc., now assigned July 24, 1973, at Washington, D.C., is cancelled and transferred to modified procedure.

MC 124048 Sub 239, Diamond Transportation System, Inc., now assigned July 24, 1973, at Washington, D.C., is cancelled and transfered to modified procedure.

MC 112304 Sub 63, Ace Doran Hauling & Rigging Co., now assigned August 23, 1973, at Detroit, Mich., is cancelled and transfered to modified procedure.

MC 136839, Josephine Koffman and Nancy J. Nimmo, dba Bergen Limousine Rental Service, now being assigned hearing September 10, 1973, (2 days), at New York, N.Y., in a hearing room to be later designated.

[SEAL] ROBERT L. OSWALD,
Secretary.

[No. 35850]

CULLIGAN USA

Petition for Declaratory Order; Salt Pots

JULY 11, 1973.

Notice is hereby given that, by petition filed on May 29, 1973, Culligan USA (a division of Culligan International Company) seeks, pursuant to section 554(e) of the Administrative Procedure Act, 5 U.S.C. § 554(e), a declaratory order determining the proper rating under the National Motor Freight Classification of a commodity identified as "salt pots."

Petitioner is manufacturer of water softeners, its equipment consisting of a galvanized steel tank (in which the water softening process occurs), a salt pot (which holds the required salt and brining solution used in the regenerating process of the water softener), and detachable mechanisms (which regulate the softening and regenerating processes). The salt pots are made of heavy-duty plastic. The equipment is transported in two boxes—one for the softening tank and its mechanism, and the other for the salt pot and its mechanism. The softening process cannot take place for any appreciable period of time without the regenerative effective of the salt pot.

Traditionally, the equipment has been rated under the classification description "water softeners, n.o.i." More recently, however, certain motor carriers have attempted to rate the salt pots at the higher "plastics articles" basis. The controversy relates only to salt pots when shipped with the same number of water softener tanks as part and parcel of water softeners; and petitioner concedes that, when shipped individually, the salt pots are properly rated as plastic articles.

The classification description for water softeners, n.o.i. is contained in Item 121150 of National Motor Freight Classification A-13, MF-I.C.C. No. 15. The classification description of plastic articles is contained in item 156600 thereof. And the "parts and pieces" rule mentioned below is contained in Rule 424 of the Classification.

Petitioner contends that it is improper to classify the salt pots as plastic articles when they are shipped as part and parcel of water softeners along with a corresponding number of water softener tanks. It relies on the parts-and-pieces rule for the proposition that the rating applicable to the entire product should apply to all of its parts and pieces.

Any person interested in the matter which is the subject of the petition and who wishes to actively participate in any further proceedings herein shall notify this Commission, by filing with the Office of Proceedings, Room 5342, 12th Street and Constitution Avenue, N.W., Washington, D.C., 20423, on or before August 27th, 1973, an original and one copy of a statement of his intention to participate. Thereafter, the nature of further proceedings herein, if any, will be designated. The petition and statements of intent to participate, if any, will be available for public inspection at the offices of the Commission during regular business hours.

A copy of this notice will be served upon the petitioner, and notice of the filing of the petition will be given to the general public by depositing a copy of this notice in the office of the Commission's Secretary at Washington, D.C., and by delivering a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.73-15033 Filed 7-20-73;8:45 am]

[Notice No. 317]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 C.F.R. Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 13, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petition with particularity.

No. MC-FC-74225. By order entered July 10, 1973, the Motor Carrier Board approved the transfer to Barbee Hauling, Inc., Mitchellville, Md., of the operating rights set forth in Permit No. MC-101791, issued May 6, 1960, to J. V. Vozzolo, Inc., Annandale, Va., authorizing the transportation of building block, brick, fire clay, flue lining, gravel, pipe, sand, terra cotta, tile, wall coping, clay products, concrete blocks, cement building products, cinder blocks, cement and masonry mortar, roofing materials, asbestos building products, asphalt building products, insulation materials, plastering material, metal laths, lime and lime building material, glass products, and gypsum products, from and to points in Maryland, Virginia, and the District of Columbia. Edward G. Villalon, 1032 Pennsylvania Bldg., Pennsylvania Ave. & 13th St., N.W., Washington, D.C. 20004, attorney for applicants.

No. MC-FC-74361. By order of July 13, 1973, the Motor Carrier Board approved the transfer to Western States Construction, Inc., Indio, Calif., of Certificate of Registration No. MC-96853 (Sub-No. 1) issued July 3, 1969, to Desert Belt Transportation Co., A Corporation, Indio, Calif., evidencing a right to engage in transportation in interstate commerce as described in certificate No. 55251, dated July 9, 1957, and transferred by No. 74257 dated June 18, 1968, issued by the California Public Utilities Commission.
J. John Anderholt, 81-711 Highway 111, Indio, Calif. 92201 Attorney for applicants.

No. MC-FC-74368. By order of July 13, 1973, the Motor Carrier Board approved the transfer to George A. Payne, Inc., Canandagula, N.Y., of a portion of Certificate No. MC 14063 issued to Payne Trucking, Inc., Shortsville, N.Y., authorizing the transportation of: Unboxed and uncrated and new pianos, and parts therefore, Between Phila., Pa., and East Rochester, N.Y.
S. Michael Richards, Practitioner, 44 North Ave., Webster, N.Y. 14580

No. MC-FC-74376. By order of July 16, 1973, the Motor Carrier Board approved the transfer to West Coast Hauling Co., A Corporation, Chiefland, Fla., of the operating rights in Certificate No. MC-134247 (Sub-No. 4) issued September 7, 1971, to Charles Severance, doing business as Severance Truck Lines, Lake City, Fla., authorizing the transportation of wood chips, from points in Dixie and Levy Counties, Fla., to Clattville, Ga.
Sol H. Proctor, 2501 Gulf Life Tower, Jacksonville, Fla. 32207 Attorney for applicants.

No. MC-FC-74526. By order entered July 12, 1973, the Motor Carrier Board approved the transfer to Hunt Trucking Inc., Idaho Falls, Idaho, of the operating rights set forth in Certificate No. MC-123310 (Sub-No. 11), issued August 21, 1970, to Vernon L. Hunt, doing business as Hunt Trucking, Cheyenne, Wyoming, authorizing the transportation of lumber, from points in Clearwater, Idaho, Latah, Nez Perce, and Lewis Counties, Idaho, to points in Colorado. F. L. Sigloh, P.O. Box 7651, Boise, Idaho 83707, representative for applicants.

No. MC-FC-74558. By order of July 16, 1973, the Motor Carrier Board approved the transfer to Jo-Ett Trucking Co., Inc., Bronx, N.Y., of Certificate No. MC-108302 issued June 28, 1950, to G & S City Trucking Co., Inc., Bayside, New York, authorizing the transportation of garment materials and trimmings from New York, N.Y., and points in Hudson and Bergen Counties, N.J., to points in Rockland and Westchester Counties, N.Y., and finished garments on return. Abraham Melamed, 295 Madison Avenue, New York, N.Y. 10017, and Edward M. Alfano, 2 West 45th St., New York, N.Y. 10036, Attorneys for Applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COTTON, WOOL, MAN-MADE FIBER TEXTILES AND TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF KOREA

Entry or Withdrawal from Warehouse for Consumption

JULY 18, 1973.

On May 25, 1972, there was published in the FEDERAL REGISTER (37 FR 10605) a letter of May 19, 1972, from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs announcing implementation of an administrative mechanism intended to preclude circumvention of the licensing system for exports to the United States of cotton, wool, and man-made fiber textiles and textile products produced or manufactured in the Republic of Korea. The purpose of this notice is to announce amendment of the administrative mechanism.

This amendment provides that, effective as soon as possible and until further notice, entry or withdrawal from warehouse for consumption of any shipment of cotton, wool or man-made fiber textiles and textile products produced or manufactured in the Republic of Korea and exported to the United States will be prohibited if any discrepancy exists between the category of the shipment and the category indicated on the accompanying visa.

There is published below a letter of July 18, 1973 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs implementing this amendment.

In lieu of securing a corrected visa, importers whose shipments are prohibited entry pursuant to this directive may seek assistance from the Commercial Section, Embassy of Korea, 2320 Massachusetts Avenue, N.W., Washington, D.C. 20008, Area Code 202, telephone 483-7383. The following information concerning the shipment may be required:

Intended Port of Entry
Exporter
Importer
Broker and Telephone Number
Category, as determined by U.S. Customs and as indicated on the visa
Quantity in Proper Units
General Order or Warehouse Numbers, if any

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229.

JULY 18, 1973.

DEAR MR. COMMISSIONER: This directive further amends, but does not cancel, the directive of May 19, 1972 from the Chairman, Committee for the Implementation of Textile Agreements, which directed you to prohibit, effective on the date of publication and until further notice, entry into the United States for consumption, or withdrawal from warehouse for consumption, of cotton textiles and cotton textile products in Categories 1-64; wool textile products in Categories 101-126, 128, and 131-132; and man-made fiber textile products in Categories 200-243, produced or manufactured in the Republic of Korea, for which the Republic of Korea had not issued an appropriate visa. The directive of May 19, 1972 was previously amended on December 21, 1972 and July 17, 1973.

Under the provisions of the Bilateral Cotton Textile Agreement of December 30, 1971 and the Bilateral Wool and Man-Made Fiber Textile Agreement of January 4, 1972, between the Governments of the United States and the Republic of Korea, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, effective as soon as possible and until further notice, the directive of May 19, 1972 is further amended by changing the first sentence of the third paragraph to read:

The Visa will be a stamp on the original copy of the invoice (Special Customs Invoice Form 5515 or other successor document, or commercial invoice when such form is used); and will indicate the quantity of cotton, wool, or man-made fiber textiles and/or textile products involved in the appropriate unit or units of measure, the correct category or categories corresponding to the merchandise, and the authorized signature of the official issuing the Visa.

This amendment provides that, effective as soon as possible and until further notice, if the category of the merchandise is found by U.S. Customs to differ from the category indicated on the visa, the shipment will be denied entry.

In lieu of securing a corrected visa from the Government of the Republic of Korea, importers whose shipments are prohibited entry pursuant to this directive may seek assistance from the Commercial Section, Embassy of Korea, 2320 Massachusetts Avenue, N.W., Washington, D.C. 20008; Area Code 202, Telephone 483-7383. The following information concerning the shipment may be required:

Intended Port of Entry
Exporter
Importer
Broker and Telephone Number
Category, as determined by U.S. Customs and as indicated on the visa
Quantity in Proper Units

General Order or Warehouse Numbers, if any

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of cotton, wool and man-made fiber textiles and textile products from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

GEOTHERMAL RESOURCES

Leasing on Public, Acquired and Withdrawn Lands; Revision of Proposed Rule

V 38 - 140 JUL 23 73 XUM

DEPARTMENT OF THE INTERIOR
Bureau of Land Management
[43 CFR Parts 3000, 3200]
GEOTHERMAL RESOURCES
Leasing on Public, Acquired and Withdrawn Lands; Revision of Proposed Rule

The purpose of the revision in the proposed rule making for implementing the Geothermal Steam Act of December 24, 1970 (30 U.S.C. 1001–1025), is to provide the public with the revisions to the leasing regulations planned as a result of the public hearings and comments received on the Draft Environmental Statement and previously published proposed rules (36 FR 13722 and 37 FR 25282). The Act provides for the leasing of public lands for the purpose of geothermal resource exploration, development and production. The changes in these regulations, since the last publication on November 29, 1972, are primarily administrative and procedural in nature and the environmental impact of these regulations is not believed to be significantly different from the impact of the regulations previously published.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested parties may submit written comments, suggestions, or objections with respect to the proposed regulations to the Geothermal Coordinator, Department of the Interior, Washington, DC 20240, on or before August 22, 1973.

A Final Environmental Statement will be issued in accordance with the provisions of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) prior to promulgation of any leasing regulations.

1. Section 3000.0–5 of Subpart 3000, Chapter II, Title 43 of the Code of Federal Regulations is revised to read as follows:

§ 3000.0–5 Definitions.

As used in this subchapter:

(a) "Leasable minerals" means oil and gas. (1) Gas means any fluid, either combustible or noncombustible, which is produced in a natural state from the earth and which maintains a gaseous or rarefied state at ordinary temperature and pressure conditions. (2) Oil or crude oil means any liquid hydrocarbon substance which occurs naturally in the earth, including drip gasoline or other natural condensates recovered from gas, without resort to manufacturing process.

(b) "Other leasable minerals" means (1) Coal, chlorides, sulphates, carbonates, borates, silicates, or nitrates of potassium and sodium; sulphur in the States of Louisiana and New Mexico; phosphate; and native asphalt, solid and semisolid bitumen and bituminous rock (including oil impregnated rock or sands from which oil is recoverable only by special treatment after the deposit is mined or quarried). (2) Solid (hardrock) minerals; minerals in acquired lands which would be subject to location under the U.S. mining laws if located in the public domain lands.

(c) "Secretary" means the Secretary of the Interior or any person duly authorized to exercise the powers vested in that officer.

(d) "Director" means the Director of the Bureau of Land Management or any person duly authorized to exercise the powers vested in that officer.

(e) "State Director" means the Director of a Bureau of Land Management State office.

(f) "Authorized officer" means any person authorized by law or by lawful delegation of authority in the Bureau of Land Management to perform the duties described.

(g) "Proper BLM office" means the Bureau of Land Management office having jurisdiction over the leased lands or lands subject to lease.

(h) "Commercial quantities" means quantities sufficient to provide a return after all variable costs of production have been met.

(i) "Public domain lands" means original public domain lands which have never left Federal ownership; also, lands in Federal ownership which were obtained by the Government in exchange for public lands or for timber on such lands; also original public domain lands which have reverted to Federal ownership through operation of the public land laws.

(j) "Acquired lands" means lands which the United States obtains by deed through purchase or gift, or through condemnation proceedings. They are distinguished from public domain lands in that acquired lands may or may not have been originally owned by the Government. If originally owned by the Government such lands have been disposed of (patented) under the public land laws and thereafter reacquired by the United States.

(k) "Other lands" (1) "Withdrawn lands." Lands which have been withdrawn and dedicated to public purposes. (2) "Reserved lands." Lands which have been withdrawn from disposal and dedicated to a specific public purpose. (3) "Segregated lands." Lands included in a withdrawal, or in an application or entry or in a proper classification which segregates them from operation of the public land laws.

2. Section 3000.4 of Subpart 3000, Chapter II, Title 43 of the Code of Federal Regulations is revised to read as follows:

§ 3000.4 Appeals.

Any party to a case who is adversely affected by any official action or decision of an officer of the Bureau of Land Management or of an Administrative Law Judge, except a decision which has been approved by the Secretary, shall have a right of appeal to the Board of Land Appeals in the Office of Hearings and Appeals, Office of the Secretary. All appeals shall be governed by the rules of practice in Subpart E of Part 4 of this title. Nothing in this group shall be construed to prevent any interested party from seeking judicial review as authorized by law.

3. A new Group 3200 is added to Chapter II, Title 43 of the Code of Federal Regulations to read as follows:

Group 3200—Geothermal Resources Leasing

PART 3200—GEOTHERMAL RESOURCES LEASING; GENERAL

Subpart 3200—Geothermal Resources Leasing; General

Sec.
3200.0–3 Authority.
3200.0–5 Definitions.
3200.0–6 Preleasing procedures.
3200.0–7 Cross reference.
3200.0–8 Use of surface.

Subpart 3201—Available Lands; Limitations; Unit Agreements

Sec.
3201.1 Lands subject to geothermal leasing.
3201.1–1 General.
3201.1–2 Department of the Interior.
3201.1–3 Department of Agriculture.
3201.1–4 Federal Power Commission.
3201.1–5 Patented lands.
3201.1–6 Excepted areas.
3201.2 Acreage limitations.
3201.3 Leases within unit areas.

Subpart 3202—Qualifications of Lessees

3202.1 Who may hold leases.
3202.2 Statements required to be submitted.
3202.2–1 General.
3202.2–2 Guardian or trustee.
3202.2–3 Attorney-in-fact.
3202.2–4 Statements previously filed.
3202.2–5 Showing as to sole party in interest.
3202.2–6 Heirs and devisees (estates).
3202.2–7 Fractional present interests.

Subpart 3203—Leasing Terms

3203.1 Primary and additional term.
3203.1–1 Dating of leases.
3203.1–2 Primary term.
3203.1–3 Additional term.
3203.1–4 Extensions.
3203.1–5 Segregation of leases on contraction of cooperative or unit plan or communitization agreement.
3203.1–6 Conversion to mineral leases or mining claims.
3203.2 Lease acreage limitation.
3203.3 Consolidation of leases.
3203.4 Description of lands.
3203.5 Diligent exploration.

Subpart 3204—Surface Management Requirements; Special Requirements

3204.1 General.
3204.2 Waste prevention.
3204.3 Readjustment of terms and conditions.
3204.4 Reservation to the United States of oil, hydrocarbon gas, and helium.
3204.5 Compensation for drainage; compensatory royalty.
3204.6 Patented lands.

Subpart 3205—Service Charges, Rentals and Royalties

3205.1 Payments.
3205.1–1 Form of remittance.
3205.1–2 Where submitted.

Sec.
3205.2 Service charges.
3205.3 Rentals and royalties.
3205.3–1 Payment with application.
3205.3–2 Payment of annual rental.
3205.3–3 Escalating rental rates.
3205.3–4 Fractional interest.
3205.3–5 Royalty on production.
3205.3–6 Royalty on commercially demineralized water.
3205.3–7 Waiver, suspension or reduction of rental or royalty.
3205.3–8 Application for and effect of suspension of operations and production.
3205.3–9 Readjustments.
3205.4 Rental and minimum royalty liability of lands committed to cooperative or unit plans.
3205.4–1 Prior to production.
3205.4–2 After production.

Subpart 3206—Lease Bonds

3206.1 Types of bonds and filing.
3206.1–1 Types of bonds.
3206.1–2 Filing of bonds.
3206.2 Termination of period of liability.
3206.3 Operators bond.
3206.4 Qualified corporate sureties.
3206.5 Nationwide bond.
3206.6 Statewide bond.
3206.7 Default.
3206.7–1 Payment by surety.
3206.7–2 Penalty.
3206.8 Applicability of provisions to existing bonds.

Subpart 3207—[Reserved]

Subpart 3208—[Reserved]

Subpart 3209—Geothermal Resources Exploration Operations

Sec.
3209.0–1 Purposes.
3209.0–2 Objectives.
3209.0–5 Definitions.
3209.1 Notice of intent and permit to conduct exploration operations (Geothermal resources).
3209.1–1 Application.
3209.1–2 Review of notice of intent.
3209.2 Exploration operations.
3209.3 Completion of operations.
3209.4 Bond requirements.
3209.4–1 General.
3209.4–2 Riders to existing bond forms.
3209.4–3 Termination of period of liability.

Subpart 3200—Geothermal Resources Leasing; General

§ 3200.0–3 Authority.

These regulations are issued pursuant to the Geothermal Steam Act of 1970 (84 Stat. 1566; 30 U.S.C. 1001–1025) and rights to develop and utilize geothermal resources in land subject to these regulations may be acquired only in accordance with these regulations.

§ 3200.0–5 Definitions.

As used in Group 3200, the term:

(a) "The Act" means the Geothermal Steam Act of 1970.

(b) "Geothermal lease" means a lease issued under authority of the Act; and unless the context indicates otherwise, "lease" means a "geothermal lease".

(c) "Geothermal resources" means geothermal steam and associated geothermal resources which include: (1) All products of geothermal processes, embracing indigenous steam, hot water and hot brines; (2) steam and other gases, hot water and hot brines resulting from water, gas, or other fluids artificially introduced into geothermal formations; (3) heat or other associated energy found in geothermal formations; and (4) any byproducts derived from them.

(d) "Byproduct" means (1) any mineral or minerals (exclusive of oil, hydrocarbon gas, and helium) which are found in solution or in association with geothermal steam and which have a value of less than 75 per centum of the value of the geothermal steam or are not, because of quantity, quality, or technical difficulties in extraction and production, of sufficient value to warrant extraction and production by themselves, and (2) commercially demineralized water.

(e) "Sole party in interest" means a party who is and will be vested with all legal and equitable rights under the lease. No one is, or shall be deemed to be, a sole party in interest with respect to a lease in which any other party has any interest in the lease.

(f) "Interest in the lease" means any interest whatever in a geothermal lease, including, but not limited to: A record title interest; a working interest; an operating right; an overriding royalty interest; a claim to any prospective or future advantage or benefit from a lease; a participation in any increment, issue, or profit which may be derived, or accrue in any manner, from the lease based upon, or pursuant to, any agreement or understanding in existence at the time when the offer is filed; and an agreement pertaining to any of the foregoing.

(g) "Supervisor" means a representative of the Secretary, subject to the direction and supervisory authority of the Director, the Chief, Conservation Division, Geological Survey and the appropriate Regional Conservation Manager, Conservation Division, Geological Survey, authorized and empowered to regulate operations and to perform other duties prescribed in the regulations in this part or any subordinate of such representative acting under his direction.

(h) "Primary term" means the first 10 years in the life of the lease, exclusive of any period of suspension of operations or production, or both.

(i) "Area of operation" means that area of the leased lands which is required for exploration, development and producing operations, and which is delineated on a map or plat which is made a part of the approved plan of operations. It encompasses the area generally needed for wells, flow lines, separators, surge tanks, drill pads, mud pits, workshops, and other such facilites used for on-project geothermal resources field exploration, development and production operations.

(j) "Geothermal resource province" means an area in which higher than normal temperatures are likely to occur with depth and there is a reasonable possibility of finding reservoir rocks that will yield steam or heated fluids to wells. The classification of such a province is based on geologic inference and a determination that the area possesses one or more of the following characteristics:

(1) Volcanism of late Tertiary or Quaternary age—especially caldera structures, cones, and volcanic vents;

(2) geysers, fumaroles, mud volcanoes, or thermal springs at least 40° F. higher than average ambient temperature; and

(3) subsurface geothermal gradients generally in excess of two times normal, as reflected in deep water wells, oil well tests, and other test holes.

(k) "Known geothermal resource area" or "KGRA" means an area in which the geology, nearby discoveries, competitive interests, or other indicia would, in the opinion of the Secretary, engender a belief in men who are experienced in the subject matter that the prospects for extraction of geothermal steam or associated geothermal resources are good enough to warrant expenditures of money for that purpose.

(l) In determining whether the geology of an area is of such a nature that the area should be designated a KGRA the Director, Geological Survey, acting for the Secretary, shall use such geologic and technical evidence as he shall deem appropriate, including the following:

(i) The existence of siliceous sinter and natural geysers;

(ii) The temperatures of fumaroles, thermal springs, and mud volcanoes;

(iii) The SiO_2 content of spring water;

(iv) The Na/K ratio in spring waters of hot-water systems;

(v) The existence of volcanoes and calderas of late Teirtary or Quaternary age;

(vi) Conductive heat flows and geothermal gradient;

(vii) The porosity and the permeability of a potential reservoir;

(viii) The results of electrical resistivity surveys;

(ix) The results of magnetic, gravity, and airborne infrared geophysical surveys; and

(x) The information obtained through other geophysical methods such as microseismic, seismic ground noise, electromagnetic, and telluric surveys if such methods prove to have significant use in evaluation.

(2) For purposes of KGRA classification, a "discovery" or "discoveries" will be considered to be any well deemed by the Director, Geological Survey, to be capable of producing geothermal resources in commercial quantities and, where the geological structure is not known, "nearby" will be considered to be five miles or less from any such discovery. Lands nearby a discovery will be classified as KGRA unless the Geological Survey determines that the lands are on a different geologic structure from the discovery. Where the Geological Survey has determined the extent of a structure on which a discovery has been made, all land in that structural area contributing geothermal resources to that discovery will be deemed a KGRA regardless of the distance from the discovery.

(3) "Competitive interest" shall exist in the entire area covered by an appli-

V 38 140 JUL 23 73 XUM

cation for a geothermal lease if at least one-half of the lands covered by that application are also covered by another application which was filed during the same application filing period, whether or not that other application is subsequently withdrawn. Competitive interest shall not be deemed to exist in the entire area covered by an application because of an overlapping application, if less than one-half of the lands subject to the first application are covered by any other single application filed during the same application filing period; however, some of the lands subject to the first application may be determined to be KGRA pursuant to the first sentence of this subparagraph (3).

(l) "Primarily valuable" means the principal mineral value for which the leasehold is being produced.

§ 3200.0–6 Preleasing procedures.

(a) When an area is initially considered for geothermal leasing or when the need arises, the Director shall request other interested Bureaus and Federal agencies to prepare reports describing, to the extent known, resources contained within the general area and the potential effect of geothermal resources operations upon the resources of the area and its total environment.

(b) Prior to the final selection of tracts for leasing, the Director, or the head of the agency charged with the administration of the surface, when requested by the Director, shall evaluate fully the potential effect of the leasing program on the total environment, fish and other aquatic resources, wildlife habitat and populations, aesthetics, recreation, and other resources in the entire area during exploratory, developmental, and operational phases. This evaluation will consider the potential impact of the possible development and utilization of the geothermal resources including the construction of power generating plants and transmission facilities on lands which may or may not be included in a geothermal lease. To aid him in his evaluation and selection of tracts the Director may request and consider the views and recommendations of appropriate Federal agencies, may hold public hearings after appropriate notice, and may consult with State agencies, organizations, industries, and individuals, and shall consider all other potential uses of the land and its natural resources. If the Director determines that the issuance of leases in an area would be a major Federal action significantly affecting the quality of the human environment, he shall issue no leases in that area unless an environmental impact statement under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) has been issued. The Director shall develop special terms and conditions to be included in leases when they are needed to protect the environment, to permit use of the land for other purposes, and to protect other natural resources. If tracts are offered for competitive leasing, any terms and conditions to be included in leases for such tracts shall be published in the notice announcing the availability of the land for leasing.

§ 3200.0–7 Cross reference.

(a) The regulations governing operations under geothermal leases are found in 30 CFR Part 270 .

(b) The regulations setting forth the basic policies for management of the public lands are found in Part 1725 of this chapter.

§ 3200.0–8 Use of surface.

(a) A lessee shall be entitled to use for the production, utilization, and conservation of geothermal resources only so much of the surface of the leased Federal lands as is deemed necessary for such purposes. The lessee shall have the right to use so much of the leased lands as may be deemed necessary for a power generation plant or a commercial or industrial facility, and may apply for the right to use so much of other Federal lands as may be deemed necessary for such purposes; however, any use of the leased lands or other Federal lands for a power generation plant or a commercial or industrial facility will be authorized only under a separate permit issued by the appropriate agency for that specific use and subject to all terms and conditions which it may include in that permit. The uses of the lands within the area of operation are subject to the supervision of the supervisor, and the uses of the remaining leased lands or other Federal lands are subject to the supervision of the appropriate surface management agency. The lessee shall not be entitled to use any mineral materials subject to the Materials Act except as provided by Part 3600 of this chapter.

(b) Operations under other leases or uses on the same lands shall not unreasonably interfere with or endanger operations under leases issued under these regulations nor shall operations under these regulations unreasonably interfere with or endanger operations under any lease, license, claim, permit, or other authorized use pursuant to the provisions of any other Act.

Subpart 3201—Available Lands; Limitations, Unit Agreements

§ 3201.1 Lands subject to geothermal leasing.

§ 3201.1–1 General.

Subject to the exceptions listed below, geothermal leases may be issued in combination or separately for (a) lands administered by the Secretary of the Interior; (b) national forest lands or other lands administered by the Department of Agriculture through the Forest Service; and (c) geothermal resources in lands which have been conveyed by the United States subject to a reservation to the United States of geothermal resources.

§ 3201.1–2 Department of the Interior.

(a) Except as provided in this section, leases may be issued in accordance with the regulations in this part for withdrawn lands, for acquired lands, and for geothermal resources in lands which have passed from Federal ownership subject to a reservation to the United States of the geothermal resources therein where such lands or resources are administered by the Secretary of the Interior.

(b) Notwithstanding any other provision in these regulations, geothermal leases shall not be issued for: (1) Lands which the Secretary has identified or may identify as being necessary to the performance of his or any other Federal agency's authorized functions, and on which geothermal resource development would in his judgment interfere with such functions; or (2) lands respecting which the Secretary has made or may make a finding that the issuance of geothermal leases would be contrary to the public interest. Upon receipt of an application for a geothermal lease affecting lands withdrawn under section 3 of the Reclamation Act of 1902 (43 U.S.C. 416) or any other appropriate authority, notice thereof and an opportunity to comment thereon shall be given to the head of the agency for whose benefit the withdrawal was made. No geothermal lease affecting lands withdrawn for any agency outside the Department of the Interior shall be leased without the consent of the head of the agency for which the lands are withdrawn. Where leases are issued under Part 3210, 3211, or 3220 for lands neighboring such reserved lands, the lessees shall be required to perform such lease operations and take such measures as are prescribed by the Secretary for the protection of the Federal interests therein.

§ 3201.1–3 Department of Agriculture.

Leases for lands withdrawn or acquired in aid of functions of the Department of Agriculture, for example, lands administered by the Forest Service, may be issued by the Secretary of the Interior only with the consent of, and subject to such terms and conditions as may be prescribed by, the head of that Department to insure adequate utilization of the lands for the purpose for which they were withdrawn or acquired.

§ 3201.1–4 Federal Power Commission.

Leases for lands to which section 24 of the Federal Power Act, as amended (16 U.S.C. 818), is applicable, may be issued by the Secretary of the Interior only with the consent of, and subject to, such terms and conditions as the Federal Power Commission may prescribe to insure adequate utilization of such lands for power and related purposes.

§ 3201.1–5 Patented lands.

(a) Geothermal resources in lands which have passed from Federal ownership subject to a reservation to the United States of geothermal resources therein may be leased under the regulations in this group subject to the provisions in this part and to such terms and conditions as may be prescribed by the authorized officer to insure adequate protection of the patented lands and any improvements thereon.

(b) Geothermal resources in lands the surface of which has passed from Federal ownership but in which the minerals have been reserved to the United States shall not be developed or produced except under terms and conditions prescribed by the Secretary and pursuant to any agreements made therefor while the question of the title to such resources is being resolved pursuant to the provisions of section 21(b) of the Act.

§ 3201.1–6 Excepted areas.

Leases shall not be issued for lands which are: (a) Administered under the National Park System; (b) within a national recreation area; (c) in a fish hatchery administered by the Secretary, wildlife refuge, wildlife range, game range, wildlife management area, or waterfowl production area, or for lands acquired or reserved for the protection and conservation of fish and wildlife which are threatened with extinction; or (d) tribally or individually owned Indian trust or restricted lands, within or without the boundaries of Indian reservations.

§ 3201.2 Acreage limitations.

(a) *Maximum holdings.* No citizen, association, corporation, or governmental unit shall take, hold, own, or control at one time, whether acquired directly from the Secretary or otherwise, any direct or indirect interest in Federal leases and in applications for Federal leases in any one State exceeding 20,480 acres. Nor may any citizen, association, or corporation be permitted to convert mineral leases, permits, applications therefor, or mining claims, pursuant to the provisions of section 4 (a)–(f) of the Act into geothermal leases for more than 10,240 acres. No citizen, association, corporation, or governmental unit shall be charged with the acreage embraced in an application for a lease until that application has been given priority over all other applications for lease for all or some of the land embraced in that application.

(b) *Computation.* In computing acreage holdings or control, the accountable acreage of a party owning an undivided interest in a lease shall be that party's proportionate part of the total lease acreage. Likewise, the accountable acreage of a party owning an interest in a corporation or association shall be his proportionate part of the corporation's or association's accountable acreage except that no person shall be charged with his pro rata share of any acreage holdings of any association or corporation unless he is the beneficial owner of more than 20 per centum of the stock or other instruments of ownership or control of that association or corporation. Parties owning a royalty or other interest determined by or payable out of a percentage of production from a lease will be charged with a similar percentage of the total lease acreage.

(1) An association shall not be deemed to exist between the parties to a contract for development of leased lands, whether or not coupled with an interest in the lease, nor between colessees, but each party to any such contract or each colessee will be charged with his proportionate interest in the lease. No holding of acreage in common by the same persons in excess of the maximum acreage specified in the law for any one lessee will be permitted.

(2) Lessees holding acreage in common shall be considered a single entity and cannot hold acreage in excess of the maximum specified in the law for any one lessee.

(c) *Excepted acreage.* Leases or applications for leases committed to any unit or cooperative plan approved or prescribed by the Secretary of the Interior shall not be included in computing accountable acreage. Leases or applications for leases subject to an operating, drilling or development contract approved by the Secretary of the Interior pursuant to section 18 of the act, other than communization agreements, shall be excepted in determining the accountable acreage of the lessees or operators.

(d) *Excess acreage.* (1) Where, as the result of the termination of contraction of a unit or cooperative plan, or the elimination of a lease from operating, drilling, or development plan, a party holds or controls excess accountable acreage, such party shall have 90 days from such termination or contraction or elimination in which to reduce his holdings to the prescribed limitation and to file proof of such reduction in the proper BLM office.

(2) If any person holding or controlling only leases or interests in leases if found to hold accountable acreage in violation of the provisions of this section and of the act, the last lease or leases or interest or interests acquired by him which created the excess acreage holdings shall be canceled or forfeited in their entirety, even though only part of the acreage in the lease or interest constitutes excess holdings, unless it can be shown to the satisfaction of the Director of the Bureau of Land Management that the holding or control of the excess acreage is not the result of negligence or willful intent in which event the lease or leases shall be canceled only to the extent of the excess acreage.

(3) Any person holding or controlling leases or interests in leases only, or applications for leases only, or both leases or interests in leases and applications for leases below the acreage limitation provided in this section, shall be subject to these rules:

(i) If he files an application which causes him to exceed the acreage limitation, that application will be rejected. (ii) For tracts not subject to the simultaneous filing procedures of subpart 3211, if he files a group of applications at the same time, any one of which causes him to exceed the acreage limitations, the entire group of applications will be rejected. (iii) If he files an application in the drawing procedures under subpart 3211, he shall be charged with the acreage thereof only if his application is the only application filed or his application is successfully drawn so that his application has first priority. If that application causes him to exceed the acreage limitation, the application will be rejected. If he files at the same time a group of applications for tracts subject to the drawing procedures under subpart 3211, any offer which is successfully drawn after he reaches the acreage limitation shall be rejected.

(4) If any person holding or controlling both leases or interests in leases and applications for leases, or only applications for leases below the acreage limitation provided in this section, acquires a lease or leases, or an interest or interests therein, which cause him to exceed the acreage limitation, his most recently filed application for lease or applications for leases then containing acreage in excess of the limitation provided in this section will be rejected in its or their entirety. For the purpose of this subparagraph, time of filing shall be determined by the time of filing marked on the application, or, if the same time is marked on two or more applications, by the serial number of the applications.

(5) The provisions of this paragraph shall not limit any action which the Department may take with respect to excess acreage holdings in cases not otherwise covered by this paragraph.

(e) *Showing required.* No lease will be issued and no transfer or operating agreement will be approved until it has been shown that the applicant, operator, or transferee is entitled to hold the acreage or obtain the operating rights. At any time upon request by the authorized officer, the record title holder of any lease or a lease operator or a lease applicant may be required to file in the proper BLM office a statement, showing as of a specified date the serial number and the date of each lease of which he is the record holder, or under which he holds operating rights, and each application for lease held or filed by him in the particular State setting forth the acreage covered thereby, and the nature, extent and acreage interest, including royalty interests held by him in any geothermal lease of which the reporting party is not the lessee of record, whether by corporate stock ownership, interest in unincorporated associations and partnerships, or in any other manner.

§ 3201.3 Leases within unit areas.

Before issuance of a geothermal lease for lands within an approved unit agreement, the lease applicant or successful bidder will be required to file evidence that he has entered into an agreement with the unit operator for the development and operation of the lands in a lease if issued to him under and pursuant to the terms and provisions of the approved unit agreement, or a statement giving satisfactory reasons for the failure to enter into such agreement. If such statement is acceptable, he will be permitted to operate independently but will be required to perform his operations in a manner which the Supervisor deems to be consistent with the unit operations.

V 38-140 JUL 23 73 XUM

Subpart 3202—Qualifications of Lessees

§ 3202.1 Who may hold leases.

Leases may be issued only to: (a) Citizens of the United States who have reached the age of majority; (b) associations of such citizens; (c) corporations organized under the laws of the United States, any state or the District of Columbia; or (d) governmental units, including, without limitation, municipalities. The term "association" includes a partnership.

§ 3202.2 Statements required to be submitted.

§ 3202.2–1 General.

(a) Each applicant for a lease is required to submit with his application a statement that his interests, direct and indirect, in Federal geothermal leases and applications, do not exceed the acreage limitations prescribed in § 3201.2, together with a statement of his citizenship.

(b) If the applicant is an association or corporation the application must be accompanied by: (1) A statement showing that it is authorized to hold geothermal leases; (2) a statement that the officer executing the application is authorized to act on behalf of the association or corporation; (3) a statement setting forth the State in which it was incorporated or formed and the names and addresses of all members or stockholders holding more than 20 percent of the association or corporation; and (4) a statement from each person owning or controlling more than 20 percent of the association or corporation setting forth his citizenship and his holdings.

(c) If the applicant is a municipality, or governmental unit, the application must be accompanied by: (1) A statement showing that it is authorized to hold geothermal leases; (2) a statement that the officer executing the application is authorized to act on behalf of the municipality or governmental unit, and (3) a copy of its governing body's resolution authorizing such action.

§ 3202.2–2 Guardian or trustee.

(a) *Guardian.* If the application is made by a guardian, he must submit: (1) A certified copy of the court order authorizing him to act as guardian and, in behalf of his ward, to enter into contractual agreements and to fulfill all obligations arising under the lease; and (2) statements as to the citizenship and holdings under the Act of himself and of each person under his guardianship for whom the application is made.

(b) *Trustee.* If the application is made by a trustee, he must submit a copy of the instrument establishing the trust or a certified copy of the court order authorizing him to act as trustee, in behalf of the beneficiary, as to all obligations arising under the lease; and statements as to the citizenship and holdings under the Act of himself and of each beneficiary.

§ 3202.2–3 Attorney-in-fact.

If an application is filed by an attorney-in-fact, it must be accompanied by a statement as to his authority to act.

§ 3202.2–4 Statements previously filed.

Where the statements required by § 3202.2 have been previously filed a reference by serial number to the record in which they have been filed, together with a statement as to any amendments will be accepted.

§ 3202.2–5 Showing as to sole party in interest.

Each application must be accompanied either by a signed statement by the applicant that he is the sole party in interest, or by a signed statement by the applicant setting forth the names of all other persons who have an interest in the lease and their qualifications to hold a lease. Where the applicant is not the sole party in interest, separate statements must be signed by each of the parties and by the applicant setting forth the nature of the agreement between them. All interested parties must furnish evidence of their qualifications to hold such lease interest. These separate statements must be filed in the proper BLM office not later than 15 days after the filing of the application.

§ 3202.2–6 Heirs and devisees (estates).

If an applicant or a successful bidder dies before the lease is issued, the lease will be issued to the executor or administrator of the estate if probate of the estate has not been completed, and if probate has been completed, or is not required, to the heirs or devisees, provided there is filed in all cases an application to lease in compliance with the requirements of this section which will be effective as of the effective date of the original application filed by the deceased. If there are any minor heirs or devisees, the application can only be made by their legal guardian or trustee in his name. Each such application must be accompanied by the following information:

(a) Where probate of the estate has not been completed:

(1) Evidence that the person who as executor or administrator submits the application, and bond form if a bond is required, has authority to act in that capacity and to sign the application and bond forms.

(2) A statement over the signature of each heir or devisee or, if the heir or devisee is a minor, over the signature of his legal guardian or trustee, concerning citizenship and holdings.

(3) Evidence that the heirs or devisees are the heirs or devisees of the deceased applicant or successful bidder and are the only heirs or devisees of the deceased.

(b) Where the executor or administrator has been discharged or no probate proceedings are required:

(1) A certified copy of the will or decree of distribution, if any, and if not, a statement signed by the heirs that they are the only heirs of the applicant or successful bidder and the provisions of the law of the deceased's last domicile showing that no probate is required.

(2) A statement over the signature of each of the heirs or devisees with reference to holdings and citizenship. If the heir or devisee is a minor, the statement must be over the signature of the guardian or trustee.

§ 3202.2–7 Fractional present interests.

(a) An application for a fractional present interest noncompetitive lease must be executed on a form approved by the Director and it must be accompanied by a statement showing the extent of the applicant's ownership of the operating rights to the fractional geothermal resources interest not owned by the United States in each tract covered by the application to lease. Ordinarily, the issuance of a lease to one who, upon such issuance, would own less than 50 percent of the operating rights in any such tract, will not be regarded as in the public interest, and an application leading to such results will be rejected.

(b) Geothermal resources in lands which have passed from Federal ownership but which lands have been purchased by the Federal Government with a fractional interest in the geothermal resources shall not be developed or produced, except under prescribed terms and conditions and pursuant to any agreement made between the parties of interest prior to the resolution of the question of ownership of the geothermal resources.

Subpart 3203—Leasing Terms

§ 3203.1 Primary and additional term.

§ 3203.1–1 Dating of leases.

All geothermal leases will be dated as of the first day of the month following the date on which the leases are signed on behalf of the lessor except that, where prior written request has been made, a lease may be dated as of the first day of the month within which it is so signed. A renewal lease will be dated from the termination of the original lease.

§ 3203.1–2 Primary term.

All leases shall be for a primary term of 10 years.

§ 3203.1–3 Additional term.

(a) If geothermal steam is produced or utilized in commercial quantities within the primary term of a lease, that lease shall continue for so long thereafter as geothermal steam is produced or utilized in commercial quantities, but the lease shall in no event continue for more than 40 years after the end of the primary term except that the lessee shall have a preferential right to a renewal of his lease for a second 40-year term upon such terms and conditions as the authorized officer deems appropriate, if at the end of the first 40-year term the lands are not needed for another purpose and geothermal steam is produced or utilized in commercial quantities. Production or utilization of geothermal steam in commercial quantites shall be deemed to include the completion of one or more wells producing or capable of producing geothermal steam in commercial quantities and a bona fide sale of such geothermal steam for delivery to or utilization by a facility or facilities not yet installed but scheduled for installation not later than 15 years from the date of commencement of the primary term of the lease.

§ 3203.1–4 Extensions.

(a) A lease which has been extended by reason of production, or on which geothermal steam has been produced, and which has been determined by the Secretary to be incapable of further commercial production and utilization of geothermal steam may be further extended so long as one or more valuable byproducts are produced in commercial quantities but for not more than 5 years.

(b) Where the lessee commenced actual drilling operations prior to the end of the primary term and those operations are being diligently prosecuted at that time, a lease may also be extended for a period of five years and so long thereafter as geothermal steam is produced or utilized in commercial quantities (but for not more than 35 years).

(c) A lease committed to a cooperative plan, communitization agreement or a unit plan under or for which actual drilling operations were commenced prior to the end of the primary term of the lease, shall, if such operations are being diligently prosecuted at that time be extended for a period of five years and so long thereafter as geothermal steam is produced or utilized in commercial quantities (but for not more than thirty five years).

(d) Any lease on which there has been a suspension of operations or production, or both, under 30 CFR 270.17 shall continue in effect for the life of the suspension and, at the end of the suspension, shall be extended for a period equal to that portion of the primary term during which the suspension was in effect.

(e) If, at the end of 40 years after the conclusion of the primary term, steam is being produced or utilized in commercial quantities and the lands are not needed for other purposes, the lessee shall have a right to a renewal of the lease for a second 40-year term on such terms and conditions as the Secretary deems appropriate.

§ 3203.1–5 Segregation of leases on commitment to, or contraction of, cooperative or unit plan or communitization agreement.

(a) Any lease committed to any cooperative plan, communization agreement, or unit plan, which covers lands within and lands outside the area covered by the plan or agreement, shall be segregated, as of the effective date of that plan or agreement, into separate leases, one covering the lands committed to that plan or agreement and the other as to the lands not so committed. The segregated lease covering the portion of the lands not subject to that plan or agreement shall not be entitled to an extension by reason of the segregation, but the term of the lease of such segregated lands shall be as provided in the original lease.

(b) When only part of the land subject to a lease included in a cooperative plan, a communitization agreement, or a unit plan is excluded from that plan or agreement because of the contraction of the area subject to that plan or agreement, the part of the lease which is excluded and the part which remains subject to the plan or agreement shall be segregated into separate leases. The term of the segregated lease composed of the excluded land shall not be extended because of production in commercial quantities or the existence of a producible well on the segregated lease remaining subject to the cooperative or unit plan or the communitization agreement or because actual drilling operations were at the time of contraction being conducted on that other lease, but the term of the lease composed of the excluded land shall be as provided in the original lease.

§ 3203.1–6 Conversion to mineral leases or mining claims.

(a) If the byproducts capable of being produced in commercial quantities are leasable under the Mineral Leasing Act of February 25, 1920 as amended and supplemented (30 U.S.C. sections 181–287), or under the Mineral Leasing Act for Acquired Lands (30 U.S.C. sections 351–359), and the leasehold is primarily valuable for the production thereof, the lessee shall be intitled to convert his geothermal lease to a mineral lease under and subject to all the terms and conditions of the appropriate Act upon application at any time before expiration of the lease extension by reason of byproduct production.

(b) The lessee shall be entitled to locate under the mining laws all minerals which are not leasable and which would constitute a byproduct if commercial production or utilization of geothermal steam continued. The lessee, in order to acquire the rights herein granted him, shall complete the location of mineral claims within 90 days after the termination of the goethermal lease.

(c) Any lease converted under paragraph (a) of this section or under paragraph (b) of this section affecting lands withdrawn or acquired in aid of a function of a Federal department or agency, including the Department of the Interior, shall be subject to such additional terms and conditions as may be prescribed by that department or agency with respect to the additional operations or affects resulting from such conversion upon the utilization of the lands for the purpose for which they are administered.

§ 3203.2 Lease acreage limitation.

A geothermal lease may not embrace more than 2,560 acres in a reasonably compact area, except where a departure is occasioned by an irregular subdivision or subdivisions, entirely within an area of six miles square or within an area not exceeding six surveyed or protracted sections in length or width measured in cardinal directions. Where a departure is occasioned by an irregular subdivision, the leased acreage may exceed 2,560 acres by an amount which is smaller than the amount by which the area would be less than 2,560 acres if the irregular subdivision were excluded. No lease will be issued for less than 640 acres, except at the discretion of the Secretary, or where a departure is occasioned by an irregular subdivision, or as provided for in Subpart 3230 of this chapter. In event of a departure, the leased acreage may be less than 640 acres by amount which is smaller than the amount by which the area would be more than 640 acres if the irregular subdivision were added.

§ 3203.3 Consolidation of leases.

Two or more contiguous leases issued to the same lessee may be consolidated if the total combined acreage does not exceed 2,560 acres. Except where a deexceed 2,560 acres, except where a larger acreage is caused by an irregular subdivision or subdivisions as stated in § 3203.2.

§ 3203.4 Description of lands.

Applications and nominations shall include a description of the lands sought to be included in a geothermal lease. If the lands have been surveyed under the public land rectangular system, each application or nomination shall describe the lands by legal subdivision, section, township, and range. If the lands have not been so surveyed, each application shall describe the lands by metes and bounds, giving courses and distances between the successive angle points on the boundary of the tract, and connected by courses and distances to a monument or to a prominent topographic feature. When protracted surveys have been approved and the effective date thereof published in the FEDERAL REGISTER, each application or nomination for lands shown on such protracted surveys, filed on or after such effective date, shall describe the lands according to the legal subdivision, section, township, and range shown on the approved protracted surveys.

§ 3203.5 Diligent exploration.

Each geothermal lease will include provisions for the diligent exploration of the leased resources until there is production in commercial quantities applicable to the lands subject to the lease, and failure to perform such exploration may subject the lease to termination. Diligent exploration means exploration operations (subsequent to the issuance of the lease) on, or related to the leased lands, including, but not limited to, operations such as geochemical surveys, heat flow measurements, core drilling, or drilling of a test well. Exploration operations, in order to qualify as diligent exploration, must be approved by the Supervisor, and evidence of all expendi-

V 38 140 JUL 23 73 XUM

tures therefor and the results thereof must be submitted annually to the Supervisor in compliance with applicable regulations and Geothermal Resources Operational Orders or upon his request. Moreover, after the fifth year of the primary lease term, exploration operations, in order to qualify as diligent exploration for a year, must entail expenditures during that year equal to at least two times the sum of (a) the minimum annual rental required by statute, and (b) the amount of rental for that year in excess of the fifth year's rental, but in no event shall the required expenditures exceed twice the rental for the 10th year. However, any expenditures for diligent operations during the first 5 years of the lease and any expenditures for diligent operations during any subsequent year in excess of the minimum required expenditures for that year may be credited, in such proportions as the lessee may designate, against (1) expenditures needed to qualify exploration operations as diligent operations for future years, or (2) any rental requirement for that or any future years in excess of the fifth year's rental pursuant to § 3205.3–3.

Subpart 3204—Surface Management Requirements, Special Requirements

§ 3204.1 General.

A lessee shall comply with and be bound by the following general terms and conditions, the specific requirements contained in the lease stipulations and any GRO orders that may be issued pursuant to 30 CFR 270.11. Assuring compliance with the requirements of this section is the responsibility of the Supervisor as to the lands within the area of operations and is the responsibility of the appropriate land management agency as to the remaining lands in the lease.

(a) *Equal employment opportunity.* The lessee shall comply with Executive Order 11246, as amended, 30 F.R. 12319 (1965), and regulations issued pursuant thereto, 41 CFR Chapter 60 and Part 17 of this chapter.

(b) *Public access.* (1) The lessee shall permit free and unrestricted public access to and upon the leased lands for all lawful and proper purposes except in areas where such access would unduly interfere with operations under the lease or would constitute a hazard to health and safety. Restrictions on access will not be allowed without prior approval.

(2) During construction, the lessee shall regulate public access and vehicular traffic to protect the public, wildlife, and livestock from hazards associated with the project. For this purpose, the lessee shall provide warnings, fencing, flag men, barricades, and other safety measures as appropriate.

(c) *Pollution abatement.* The lessee shall comply with all Federal and State standards with respect to the control of all forms of air, land, water, and noise pollution, including, but not limited to, the control of erosion and the disposal of liquid, solid, and gaseous wastes. The Supervisor may, in his discretion, establish additional and more stringent standards, and, if he does so, the lessee shall comply with those standards. The lessee, in addition to any other action required by those standards, shall take the following specific actions:

(1) *Pesticides and herbicides.* The lessee shall comply with all rules issued by the Department of the Interior and the Environmental Protection Agency pertaining to the use of poisonous substances on public lands.

(2) *Water pollution.* The lessee shall conduct lease operations and maintenance in a manner consistent with Federal and State water quality standards and public health and safety standards. Toxic materials shall not be released into any surface waters or underground waters. Reinjection of waste geothermal fluids into geothermal or other suitable aquifers may be permitted when approved by the Supervisor.

(3) *Air pollution.* The lessee shall control emissions from operations in accordance with Federal and State air quality standards.

(4) *Erosion control.* The lessee shall minimize disturbance to vegetation, drainage channels, and streambanks. The lessee shall employ such soil and resource conservation and protection measures on the leased lands as the Supervisor deems necessary.

(5) *Noise control.* The lessee shall control noise emissions from operations.

(d) *Sanitation and waste disposal.* The lessee shall remove or dispose of all waste generated in connection with the operation in a manner acceptable to the Supervisor. The term "waste" as used in this stipulation means all discarded matter, including but not limited to human waste, trash, garbage, refuse, petroleum products, and waste material resulting from the extraction and processing operation.

(e) *Land subsidence, seismic activity.* The lessee shall take precautions necessary to minimize land subsidence or seismic activity which could result from production of geothermal resources and the disposal of waste fluid where such activity could damage or curtail the use of the geothermal resources or other resources, or other uses of the land and take such measures as stipulated to: (1) monitor operations for land subsidence and for seismic activity; and (2) maintain, and when requested, make available to the lessor, records of all monitoring activities.

(f) *Aesthetics.* The lessee shall take aesthetics into account in the planning, design, and construction of facilities on the leased premises.

(g) *Fish and wildlife.* The lessee shall employ such measures as are deemed necessary to protect fish and wildlife and their habitat.

(h) *Antiquities and historical sites.* The lessee shall conduct activities on discovered, known or suspected archeological, paleontological, or historical sites in accordance with lease terms or specific instructions.

(i) *Restoration.* The lessee shall provide for the restoration of all disturbed lands in an approved manner.

(j) The lessee shall submit semi-annual reports to the authorized officer on compliance with the requirements of paragraphs (b)–(i) of this section and on any significant environmental damage suffered by the lands subject to his lease. However, if, after operations have begun, the lessee is required to submit a similar report under 30 CFR 270.76, he may fulfill the requirement of this subsection by submitting to the authorized officer a copy of that report.

§ 3204.2 Waste prevention.

All leases shall be subject to the condition that the lessee will, in conducting his exploration, development, and operations, use all reasonable precautions to prevent waste of geothermal resources and other resources found or developed in the leased lands.

§ 3204.3 Readjustment of terms and conditions.

(a) (1) Except as otherwise provided by law, the terms and conditions of any geothermal lease may be readjusted as determined by the authorized officer at not less than 10-year intervals beginning 10 years after the date geothermal steam is produced. Each lease shall provide for such readjustments.

(2) The authorized officer shall give notice to the lessee of any proposed readjustment of the terms and conditions of the lease and the nature thereof, and unless the lessee files with the authorized officer an objection to the proposed terms and conditions or relinquishes the lease within 30 days after receipt of such notice, the lessee shall be deemed conclusively to have agreed to such terms and conditions. If the lessee files objections, and agreement cannot be reached between the authorized officer and the lessee within a period of 60 days, the lease may be terminated by either party, subject to the provisions of § 3000.4 of this chapter. If the lessee files objections to the proposed readjusted terms and conditions, the existing terms and conditions, except for those concerning rental and royalty rates, will remain in effect until there has been an agreement between the authorized officer and the lessee on the new terms and conditions to be applied to the lease or until the lease is terminated. The readjustment of any terms concerning rental and royalty rates will be subject to § 3205.3.

(b) Any readjustment of the terms and conditions of any lease of lands withdrawn or acquired in aid of a function of a Federal department or agency may be made only with the approval of that other agency.

§ 3204.4 Reservation to the United States of oil, hydrocarbon gas, and helium.

The United States reserves the ownership of and the right to extract oil, hydrocarbon gas, and helium from all geothermal resources produced from lands leased under the Act. Whenever the right to extract oil, hydrocarbon gas, and helium, from geothermal resources produced from such lands is exercised, it shall be exercised so as to cause no substantial interference with the production of geothermal resources from such lands.

§ 3204.5 Compensation for drainage; compensatory royalty.

(a) Upon a determination by the Supervisor that lands owned by the United States are being drained of geothermal resources by wells drilled on adjacent or cornering lands, the authorized officer may execute agreements with the owners of adjacent or cornering lands whereby the United States, or the United States and its lessees, shall be compensated for such drainage, such agreements to be made with the consent of any lessee affected thereby. The precise nature of any agreement will depend on the conditions and circumstances involved in the particular case.

(b) Where land in any lease is being drained of its geothermal resources by a well either on a Federal lease issued at a lower rate of royalty or on land not the property of the United States, the lessee must drill and produce all wells necessary to protect the leased lands from drainage. In lieu of drilling such wells, the lessee may, with the consent of the Supervisor, pay compensatory royalty in the amount determined in accordance with 30 CFR Part 270.

§ 3204.6 Patented lands.

The terms and conditions of any geothermal resource lease for lands conveyed by the United States subject to a reservation to the United States of geothermal resources may be readjusted upon notification to the surface owner.

Subpart 3205—Service Charges, Rentals and Royalties.

§ 3205.1 Payments.

§ 3205.1–1 Form of remittance.

Remittances required under these regulations may be made by cash payment, check, certified check, bank draft, bank cashier's check, or money order. All remittances will be deposited as received.

§ 3205.1–2 Where submitted.

(a) *Rentals on nonproducing leases.* Rentals under all nonproducing leases issued shall be paid at the proper BLM office. All remittances to the Bureau of Land Management shall be made payable to the Bureau of Land Management.

(b) *Other payments.* All royalties on producing leases, communitized leases in producing well units, unitized leases in producing unit areas, leases on which compensatory royalty is payable and all payments under easements for directional drilling are to be paid to the Supervisor. All remittances to the Supervisor shall be made payable to the U.S. Geological Survey.

§ 3205.2 Service charges.

(a) *Competitive lease applications.* No service charge is required.

(b) *Noncompetitive lease applications.* Applications for noncompetitive leases must be accompanied by a nonrefundable service charge of $50 for each application.

(c) *Assignments.* Applications for approval of an assignment of a lease or interest therein must be accompanied by a nonrefundable service charge of $50 for each application.

(d) *Nominations.* No service charge is required.

§ 3205.3 Rentals and royalties.

§ 3205.3–1 Payment with application.

Each application, except an application filed pursuant to Subpart 3221, of this part, must be accompanied by payment of the first year's rental of not less than $1 per acre or fraction thereof based on the total acreage included in the application. An application accompanied by a payment of the first year's rental which is deficient by not more than 10 percent will be approved by the authorized officer provided all other requirements are met, but, if the additional rental is not paid within 30 days from notice, the application or the lease, if issued, will be canceled.

§ 3205.3–2 Payment of annual rental.

(a) Annual rental in the amount specified in the lease which shall be not less than $1 per acre or fraction thereof must be paid in advance and must be received by the proper BLM office on or before the anniversary date of the lease. If there is no well on the leased lands capable of producing geothermal resources in commercial quantities, the failure to pay rental on or before the anniversary date shall terminate the lease by operation of law, except as provided by § 3245.2.

(b) If, on the anniversary date of the lease, less than a full year remains in the lease term, the rentals shall be payable in the same proportion as the period remaining in the lease term is to a full year. The rentals shall be prorated on a monthly basis for the full months, and on a daily basis for the fractional month remaining in the lease term. For the purpose of prorating rentals for a fractional month, each month will be deemed to consist of 30 days.

(c) If the term of a lease for which prorated rentals have been paid is further extended to or beyond the next anniversary date of the lease, rentals for the balance of the lease year shall be due and payable on the 1st day of the first month following the date through which the prorated rentals were paid. If the rentals are not paid for the balance of the lease year, the lease will be subject to cancellation. However, if the anniversary date occurs before the end of the notice period, the rental for the following lease year shall nevertheless be due on the anniversary date and failure to pay the full rental for that year on or before that date shall cause the lease to terminate automatically by operation of law except as provided by § 3245.2. The lessee shall not be relieved of liability for rental due for the balance of the previous lease year.

(d) If the payment is due on a day in which the proper BLM office to receive payment is not open, payment received on the next official working day will be deemed to be timely.

§ 3205.3–3 Escalating rental rates.

To encourage the orderly and timely development of geothermal leases, all leases issued pursuant to the regulations in this Group will provide that, beginning with the sixth year and for each year thereafter until the lease year beginning on or after the commencement of production of geothermal resources in commercial quantities, the rental will be set by the authorized officer as the amount of rental for the preceding year plus an additional rental of $1 per acre, but the authorized officer may, upon a showing of sufficient justification by the lessee, waive the payment of all or any portion of the additional rental.

§ 3205.3–4 Fractional interests.

Rentals, minimum royalties, and royalties payable for lands in which the United States owns an undivided fractional interest shall be in the same proportion to the rentals, minimum royalties, and royalties provided for in § 3205.3, as the undivided fractional interest of the United States in the geothermal resources is to the full geothermal resources interest.

§ 3205.3–5 Royalty on production.

Royalty shall be paid at the following rates on geothermal resources:

(a) A royalty, as set forth in the lease, of not less than 10 per centum and not more than 15 per centum of the amount or value of steam, or any other form of heat or energy derived from production under the lease and sold or utilized by the lessee or reasonably susceptible to sale or utilization by the lessee; (b) a royalty, as set forth in the lease, of not more than 5 per centum of any byproduct derived from production under the lease and sold or utilized or reasonably susceptible of sale or utilization by the lessee, except that as to any byproduct which is a mineral named in section 1 of the Mineral Leasing Act of February 25, 1920, as amended (30 U.S.C. 181), the rate of royalty for such mineral shall be the same as that provided in that Act and the maximum rate of royalty for such mineral shall not exceed the maximum royalty applicable under that Act; (c) In no event shall the royalty on any producing lease for any lease year, commencing with the lease year beginning on or after the commencement of production in commercial quantities, be less than $2 per acre or fraction thereof, and this minimum royalty, in lieu of rental, shall be payable at the expiration of each lease year.

§ 3205.3–6 Royalty on commercially demineralized water.

All geothermal leases issued pursuant to the provisions of this group shall provide for the payment to the lessor of a royalty on commercially demineralized water at a rate to be specified in the

V 38-140 JUL 23 73 XUM

lease of not more than 5 per centum of the value of such commercially demineralized water that has been sold or utilized by the lessee or is reasonably susceptible of sale or utilization by the lessee, except that no payment of a royalty will be required on such water if it is used in plant operation for cooling or in the generation of electric energy or otherwise.

§ 3205.3–7 Waiver, suspension or reduction of rental or royalty.

(a) The authorized officer may waive, suspend, or reduce the rental or royalty for any lease or portion thereof in the interests of conservation and to encourage the greatest ultimate recovery of geothermal resources if he determines that this is necessary to promote development or that the lease cannot be successfully operated under the lease terms. No waiver, suspension or reduction of rental or royalty will be granted where the only reason for the request for such relief is the unavailability of power generating facilities to utilize the geothermal steam.

(b) An application hereunder shall be filed in triplicate with the Supervisor, and must: (1) Contain the serial number of the leases and the names of the lessee and operator; (2) show the number, location, and status of each well that has been drilled, a tabulated statement for each month covering a period of not less than 6 months prior to the date of filing the application of the aggregate amount of production subject to royalty computed in accordance with the operating regulations, the number of wells counted as producing each month, and the average production per well per day; (3) contain a detailed statement of expenses and costs of operating the lease, the income from the sale of any leased products and all facts tending to show whether the wells can be successfully operated using the royalty or rental fixed in the lease; and (4) where the application is for a reduction in royalty, furnish full information as to whether royalties or payments out of production are paid to others than to the United States, the amounts so paid, and the efforts made to reduce them. The applicant must also file agreements of the holders to a comparable reduction of all other royalties from the leasehold to an aggregate not in excess of one-half the Government royalties.

§ 3205.3–8 Application for and effect of suspension of operations and production.

(a) Applications by lessees for suspensions of operations or production, or both, under a producing geothermal lease (or for relief from any drilling or producing requirements of such a lease) shall be filed in triplicate with the Supervisor, who is authorized to act on applications filed pursuant to this section and to terminate suspensions which have been or may be granted. Complete information must be furnished showing the necessity of the relief sought.

(b) A suspension shall take effect as of the time specified in the order of the Supervisor. Rental or minimum royalty payments will be suspended during any period of suspension of all operations and production directed, or assented to, by the Supervisor, beginning with the first day of the lease month in which the suspension of operations and production becomes effective or, if the suspension of operations and production becomes effective on any date other than the first day of a lease month, beginning with the first day of the lease month following such effective date. The suspension of rental or minimum royalty payments shall end on the first day of the lease month in which operations or production is resumed. Where rentals are creditable against royalties and have been paid in advance, proper credit will be allowed on the next rental or royalty due under the lease.

(c) No lease shall be deemed to expire by reason of a suspension of either operations or production, pursuant to any order or assent of the Supervisor.

(d) If there is a well on the leased premises capable of producing geothermal resources and all operations and production are suspended pursuant to any order of the Supervisor, approval of recommencement of drilling operations will terminate the suspension as to operations but not as to production, and will terminate both the period of suspension of rental and minimum royalty payments provided in paragraph (b) of this section and the period of suspension for which an equivalent extension will be granted. However, as provided in paragraph (c) of this section, the lease will not be deemed to expire so long as the suspension of operations or production remains in effect.

(e) The relief authorized under this section may also be obtained for any leases included within an approved unit or cooperative plan of development and operation.

(f) See 30 CFR 270.17 for regulations concerning action of the Supervisor on applications filed pursuant to this section.

§ 3205.3–9 Readjustments.

The rentals and royalties of any geothermal lease may be readjusted at not less than 20-year intervals beginning 35 years after the date geothermal steam is produced as determined by the Supervisor. In the event of any such readjustment neither the rental nor royalty paid during the preceding period shall be increased by more than 50 per centum, and in no event shall the royalty payable exceed 22½ per centum. Each geothermal lease shall provide for such readjustment. The Supervisor will give notice of any proposed readjustment of rental or royalties. Unless the lessee relinquishes the lease within 30 days after receipt of such notice, he shall conclusively be deemed to have agreed to such terms and conditions. If the lessee files a protest, and no agreement can be reached between the authorized officer and the lessee within a period of 60 days, the lease may be terminated by either party, subject to the provisions of § 3000.4 of this chapter. If the lessee files a protest to the proposed readjusted terms and conditions, the existing terms and conditions will remain in effect until there has been an agreement between the authorized officer and the lessee on the new terms and conditions to be applied to the lease or until the lease is terminated, except payments of any proposed readjusted rentals and royalties must be paid in the timely manner prescribed in these regulations and may be paid under protest. The readjusted terms and conditions will be effective as of the end of the term being adjusted.

§ 3205.4 Rental and minimum royalty liability of lands committed to cooperative or unit plans.

§ 3205.4–1 Prior to production.

All lands within any lease committed to an approved cooperative or unit plan shall at all times prior to production on any of the lands so committed remain liable for rental in accordance with § 3205.3–3.

§ 3205.4–2 After production.

As soon as production is obtained on or for any lands included in an approved cooperative or unit plan those lands which are included within the participating area of the producing well shall become liable for royalties in accordance with Subpart 3205. All other unitized lands, shall remain liable for rental in accordance with § 3205.3–3.

Subpart 3206—Lease Bonds

§ 3206.1 Types of bonds and filing.

§ 3206.1–1 Types of bonds.

(a) Bonds shall be either corporate surety bonds or personal bonds except that bonds with individual sureties may be furnished for the protection of the entryman or owner of the surface rights.

(b) Lease compliance bond. The applicant for a noncompetitive lease or the successful bidder for a competitive lease must furnish, prior to the issuance of the lease, and thereafter maintain a corporate surety bond of not less than $10,000 conditioned on compliance with all the terms of the lease.

(c) Protection bond. A lessee will be required prior to entry on the leased lands to furnish and maintain a bond of not less than $5,000 for indemnification for all damages occasioned to persons or property as the result of lease operations.

§ 3206.1–2 Filing of bonds.

A single original copy of the bond on forms approved by the Director must be filed in the proper BLM office. Bonds may be filed with a noncompetitive lease application to expedite action thereon, or within 30 days after receipt of notice by the applicant of the bond requirement, or as required and directed by the authorized officer. For unit bond forms see 30 CFR Part 271.

§ 3206.2 Termination of period of liability.

The period of liability of any bond will not be terminated until all lease terms and conditions have been fulfilled.

§ 3206.3 Operators bond.

An operator, or, if there are more than one for different portions of the lease, each operator, shall furnish a corporate surety bond or bonds in an amount prescribed by the Supervisor.

§ 3206.4 Qualified corporate sureties.

Treasury lists. A list of companies holding certificates of authority from the Secretary of the Treasury under the Act of July 30, 1947 (6 U.S.C. 6–13), as acceptable sureties on Federal bonds is published in the FEDERAL REGISTER annually.

§ 3206.5 Nationwide bond.

In lieu of bonds required under any of the preceding paragraphs, the holder of leases or of operating agreements approved by the Department or holder of operating rights by virtue of being designated operator or agent by the lessee pending departmental approval of operating agreements may furnish a bond in an the amount of which must be not less than for $150,000 for full nationwide coverage for all geothermal leases.

§ 3206.6 Statewide bond.

In lieu of any of the bonds required by the preceding paragraphs, the holder of leases or of operating agreements approved by the Department or holder of operating rights by virtue of being designated operator or agent by the lessee pending departmental approval of operating agreements, may furnish a statewide bond, applicable to the State in which the leases are situated, the amount of which must be at the rate of not less than $50,000 for each unit of coverage.

§ 3206.7 Default.

§ 3206.7–1 Payment by surety.

Where upon a default the surety makes payment to the Government of any indebtedness due under a lease, the face amount of the surety bond and the surety's liability thereunder shall be reduced by the amount of such payment.

§ 3206.7–2 Penalty.

Thereafter, upon penalty of cancellation of all of the leases covered by that bond, the principal shall post a new nationwide bond in the amount of $150,000 or a unit bond, as the case may be, within 6 months after notice, or within such shorter period as the authorized officer may fix. However, in lieu thereof, the principal may within that time file separate bonds for each lease.

§ 3206.8 Applicability of provisions to existing bonds.

The provisions of these regulations may be made applicable to any oil and gas nationwide or statewide bond in force at the effective date of these regulations by filing in the proper BLM office a written consent to that effect and an agreement to be bound by the provisions hereof executed by the principal and the surety. Upon receipt thereof the bond will be deemed to be subject to the provisions of these regulations.

Subpart 3207—[Reserved]

Subpart 3208—[Reserved]

Subpart 3209—Geothermal Resources Exploration Operations

§ 3209.0–1 Purposes.

(a) The purpose of the regulations in this Subpart 3209 is to establish procedures to be followed in conducting exploration operations on the public land for geothermal resources. The regulations in this subpart are not applicable to exploration operations conducted pursuant to a geothermal resources lease.

(b) The rights obtained under this subpart do not include an exclusive right to prospect for geothermal resources on the land described in a Notice of Intent or any preference right to a geothermal resources lease.

§ 3209.0–2 Objectives.

The objectives of the regulations in this Subpart 3209 are to encourage exploration of the public lands for geothermal resources in a manner that is consistent with the management policy set forth in § 1725.3 of this chapter. No exploration operations will be allowed if the authorized officer determines that such exploration operations would be inconsistent with that policy. The authorized officer may suspend or terminate exploration operations upon due notice to the operator at any time if he determines that there is non-compliance with the terms and conditions of the notice of intent.

§ 3209.0–5 Definitions.

As used in this subpart:

(a) "Exploration operations" means any activity relating to the search for evidence of geothermal resources which requires physical presence upon public lands and which may result in damage to public lands or resources thereon. It includes, but is not limited to, geophysical operations, drilling of shallow temperature gradient wells, construction of roads and trails, and cross-country transit by vehicle over public lands. It does not include the casual use of public lands for geothermal resources exploration. It does not include core drilling for subsurface geologic information, except drilling of shallow temperature gradient wells, or drilling for geothermal resources; these activities will be authorized only by the issuance of a geothermal resources lease. The regulations in this Subpart, however, are not intended to prevent drilling operations necessary for placing explosive charges for seismic exploration, nor do they affect the exclusive right of a lessee to drill for geothermal resources upon the land subject to his lease.

(b) "Notice of Intent" means a "Notice of Intent and Permit to Conduct Exploration Operations (Geothermal Resources)."

(c) "Public lands" means lands owned by the United States and administered by the Bureau of Land Management, including retained mineral interest in lands, title to which has passed from the United States.

(d) "Casual use" means activities that involve practices which do not ordinarily lead to any appreciable disturbance or damage to lands, resources, and improvements. For example, activities which do not involve use of heavy equipment or explosives and which do not involve vehicle movement except over established roads and trails are "casual use."

§ 3209.1 Notice of intent and permit to conduct exploration operations (Geothermal Resources).

§ 3209.1–1 Application.

(a) *Forms and where filed.* Any persons desiring to conduct exploration operations under the regulations of this subpart shall, prior to entry upon the lands, file for approval with the authorized officer for the district in which the public lands are located a Notice of Intent on a form approved by the Director.

(b) *Requirements.* The Notice of Intent will contain the following:

(1) The name and address, including zip code, both of the person, association, or corporation for whom the operations will be conducted and of the person who will be in charge of the actual exploration activities;

(2) A statement that the signers agree that exploration operations will be conducted pursuant to the terms and conditions listed on the approved form;

(3) A brief description of the type of operations which will be undertaken;

(4) A description of the lands to be explored by township;

(5) A map or maps, available from state or Federal sources, showing the lands to be entered or disturbed by the proposed exploration operations; and

(6) The approximate dates of the commencement and termination of exploration operations.

§ 3209.1–2 Review of Notice of Intent.

The authorized officer will either approve or disapprove a Notice of Intent as promptly as practicable, but in any event within 30 calendar days after the date of the filing of the Notice of Intent. If the authorized officer shall disapprove a Notice of Intent, he shall explain in writing to the applicant the reasons for disapproval.

§ 3209.2 Exploration operations.

No exploration operations will be conducted on public lands except pursuant to the terms of a Notice of Intent which has been approved by the authorized officer.

§ 3209.3 Completion of operations.

Upon completion of the exploratory operations, there shall be filed with the authorized officer a "Notice of Completion of Exploration Operations." Within 90 days after the filing of such "Notice of Completion," the authorized officer shall notify the party who had conducted

V 38 140 JUL 23 73 XUM

the operations whether there has been compliance with all of the terms and conditions set out by the regulations in this Subpart and in the Notice of Intent, or whether any additional measures must be taken to rectify any damage to the land, specifying the nature and extent thereof.

§ 3209.4 Bond requirement.

§ 3209.4–1 General.

(a) Simultaneously with the filing of the Notice of Intent, and before the entry is made on the land; the party or parties filing the Notice of Intent must file with the authorized officer a surety company bond for each exploration operation in the amount of not less than $5,000, conditioned upon the full and faithful compliance with all of the terms and conditions of the regulations in this Subpart and of that Notice of Intent.

(b) A party will be excused from compliance with the requirements of paragraph (a) of this section if he possesses either a nationwide bond in the amount of not less than $50,000 covering all exploration operations or a statewide bond in the amount of not less than $25,000 covering all exploration operations in the State in which the lands on which he has filed the "Notice of Intent" are situated.

(c) In addition to the bond required by paragraph (a), before entry is made on the land, the party or parties filing the "Notice of Intent" must furnish and maintain bonds in the amount of not less than $1,000 for the protection of each owner or holder of surface rights or rights to surface resources.

§ 3209.4–2 Riders to existing bond forms.

Nationwide and statewide bonds. Holders of nationwide and statewide oil and gas exploration bonds shall be permitted, in lieu of furnishing additional bonds other than those required by § 3209.4–1(c), to amend their bonds to include geothermal resources exploration operations.

§ 3209.4–3 Termination of period of liability.

The authorized officer will not give his consent to the cancellation of the bond if an individual bond was submitted or to the termination of the period of liability if a State or nationwide bond was submitted, unless and until there has been compliance with all of the terms and conditions of the Notice of Intent. Should the authorized officer fail to notify the party within 90 days from the filing of "Notice of Completion" that all terms and conditions have been complied with or that additional corrective measures must be taken to rehabilitate the land, the period of liability under an individual bond or the period of liability for a particular exploration operation under a State or nationwide bond shall automatically terminate on the 91st day.

PART 3210—NONCOMPETITIVE LEASES

Subpart 3210—Noncompetitive Leases; General

Sec.
3210.1 Availability of land.
3210.2–1 Application.
3210.2–2 Submission of applications.
3210.2–3 Withdrawal of application.
3210.2–4 Amendment to lease.
3210.3 Determination of priorities.
3210.4 Rejections.

Subpart 3211—Bureau Motion, Lands Previously Leased for Geothermal Resources

3211.1 Releasing of formerly leased lands.
3211.2 Applications during simultaneous filing periods.
3211.3 Insurance of leases for unit on posted list.

Subpart 3210—Noncompetitive Leases; General

§ 3210.1 Availability of land.

(a) Applications to lease, except for those filed pursuant to Part 3230, of this chapter, filed prior to the effective date of these regulations are unacceptable and will be returned summarily without earning any priority.

(b) Lands and deposits subject to disposition under this part which are not within any KGRA will be available for leasing after the effective date of these regulations. Lands which are available for noncompetitive leasing and which were included in cancelled, relinquished, expired, or terminated leases shall be available for leasing only subject to the provisions of Subpart 3211. All other lands available for noncompetitive leasing will be available for leasing only subject to the provisions of this Subpart 3210. All applications to lease the same lands which are filed between the effective date of these regulations and 30 days following that time will be considered to have been filed simultaneously, and the respective priority of the various applications will be determined in accordance with § 3210.3. In other respects the first 30 days after the effective date of these regulations shall be treated as an application filing period as provided in § 3210.2–2.

(c) Final action will not be taken on any application filed after the initial 30-day period until final action has been taken on all applications filed during that period.

§ 3210.2–1 Application.

An application for a lease must be filed on a form approved by the Director in the proper BLM office in duplicate for public lands and in triplicate for acquired lands. The application must be submitted in a sealed envelope marked "Application for lease pursuant to 43 CFR 3210". An application will be considered filed when it is received in the proper office during business hours. The application must include the following:

(a) The applicant's name and address;

(b) A statement of applicant's citizenship and qualifications;

(c) A complete and accurate description of the lands applied for, which must include all available lands, including reserved geothermal resources, within a surveyed or protracted section;

(d) A proposed plan which shall include: (1) A map, or maps, available from State or Federal sources, showing the topography of the land applied for, on which the applicant shall show drainage patterns, present road and trail locations, present utility systems, proposed road and trail location, proposed well locations and potential surface disturbance, and (2) a narrative statement setting forth his proposed plan and methods for diligent exploration. Such plan shall provide for a program of diligent exploration as defined in § 3203.5 of this subchapter.

The narrative statement shall also describe the measures proposed to be taken to prevent or control fire, soil erosion, pollution of surface and ground water, damage to fish and wildlife or other natural resources, air and noise pollution and hazards to public health and safety during lease activities. However, the proposed plan required by this paragraph need not be submitted with the application during the initial 30-day simultaneous filing period provided by § 3210.1(b) or during any application filing period pursuant to § 3210.2–2, but must be submitted when required by the authorized officer; and

(e) A statement of interest, direct or indirect, in other Federal geothermal leases or applications in the same State. Such total interest may not exceed 20,480 acres.

§ 3210.2–2 Submission of applications.

Except for applications filed during the first 30 days after the effective date of these regulations, applications for leases pursuant to this Part 3210 shall be submitted only during application filing periods. An application filing period shall begin on the first working day of each month and shall end at the close of business on the last working day of that month. The first application filing period shall begin on the first working day of the month following the conclusion of the initial 30 day filing period provided in § 3210.1(b). No applicant shall file during the same application filing period a second application which overlaps any of the land covered by his first application. When an application is filed with the authorized officer, the date and time of filing shall be stamped on the envelope. The envelope containing the application shall remain sealed until the end of the application filing period during which the application is filed. On the first working day following the end of the application filing period all applications shall be opened, and it will be determined which applications are for lands included in a KGRA. In determining whether land included in an application is a KGRA because of competitive interest, no application submitted during any subsequent application filing period will be considered. Applications for land determined to be KGRA will be rejected. All other applications will be assigned priority according to the date and time of filing. If any application covers both land within a KGRA and land outside a KGRA, the applicant will be granted the opportunity to amend his application to exclude the portion included in a KGRA, and his amended application will be assigned priority according to the date and time of filing of his original application, but must comply with all other requirements of these regulations.

§ 3210.2–3 Withdrawal of application

An application may not be withdrawn, either in whole or in part, unless the request is received by the proper BLM office before the lease or an amendment of the lease, whichever covers the land described in the withdrawal, has been signed on behalf of the United States even though the effective date of the lease is subsequent to the date of filing of the withdrawal, except where a separate conflicting lease has been signed on behalf of the United States covering the land described in the withdrawal.

§ 3210.2–4 Amendment to lease.

If any of the land applied for was open to filing when the application was filed but is omitted from the lease for any reason and thereafter becomes available for noncompetitive leasing, the original lease will be amended to include the omitted land unless, before the issuance of the amendment, the proper BLM office receives a withdrawal of the lessee's application with respect to such land or such omitted lands have been determined to be within a KGRA. The lease term for the land added by such an amendment shall be the same as if the land had been included in the original lease when it was issued.

§ 3210.3 Determination of priorities.

(a) No lease shall be issued before final action has been taken on (1) any prior application to lease the land, (2) any subsequent application to lease the land that is based upon a claimed preferential right, and (3) any petition for the renewal or reinstatement of an existing or former lease on the land.

(b) Where a lease is issued before final action has been taken on such applications and petitions, it shall be canceled, and the advance rental returned, after due notice to the lessee, where the applicant or petitioner is found to be qualified and entitled to receive a lease of the land.

(c) Applications for lease received in the mail or delivered on the same day will be deemed to have been simultaneously filed, and the right of priority and the order of processing will be determined by a public drawing.

(d) Prior to the issuance of any lease, a determination shall be made as to whether or not the lands are within a KGRA. Applications for lands determined to be within any KGRA will be rejected.

§ 3210.4 Rejections.

If, after the filing of an application for a noncompetitive lease and before the issuance of a lease, or amendment thereto, pursuant to that application, the land embraced in the application becomes included within a KGRA, the application will be rejected as to such KGRA lands. The authorized officer retains discretion to reject an application for a noncompetitive lease even though the tract for which application is made is not determined to be within a KGRA.

Subpart 3211—Bureau Motion—Land Previously Leased for Geothermal Resources

§ 3211.1 Releasing of formerly leased lands.

Lands available for noncompetitive leasing in canceled or relinquished leases or in leases which expire by operation of law at the end of their primary or extended terms or in leases which terminate by operation of law for nonpayment of rental pursuant to 30 U.S.C. sec. 1004, shall be subject to further leasing only in accordance with the provisions of this section. From time to time the authorized officer will publish in the FEDERAL REGISTER, post in each proper BLM office, and provide appropriate news coverage of:

(a) A list of leasing units composed of lands which are available for noncompetitive leasing and which were in canceled, expired, relinquished, or terminated leases.

(b) An announcement that applications for leases on such lands will be received after a specific hour and date and that any applications filed during a specified simultaneous filing period beginning at that time will be regarded as simultaneously filed;

(c) The address of the proper BLM office where applications must be filed and where the terms and conditions under which the lease will be issued are available; and

(d) Requirements for a complete application, indicating that the proposed plan of operation, as required by § 3210.–2–1(d), will not be required until there has been a drawing and a consequent determination of priority, but must be filed before a lease can be issued.

§ 3211.2 Applications during simultaneous filing periods.

(a) An application shall conform to the requirements of 43 CFR 3210.2–1, except as provided below.

(b) Only one complete leasing unit, identified by unit number, may be included in an application. Lands not on the published list may not be included in the application.

(c) An applicant is permitted to file only one application for each numbered unit on the posted list. Submission of more than one application by or on behalf of the applicant for any unit on the posted list will result in the disqualification of all applications submitted by that applicant for the drawing to be held for that particular unit.

(d) The application must be accompanied by a signed statement that the applicant will furnish the information required by these regulations within 15 days after notification that his application is the only one for the tract, or that he is the successful drawee.

(e) Each application filed during a simultaneous filing period must be submitted in a sealed envelope marked "Application for a lease pursuant to 43 CFR subpart 3211". The envelope will remain sealed until the end of the 30-day simultaneous filing period, at which time the application will be time-stamped simultaneously and serialized. A public drawing of all applications received during the simultaneous 30-day period will be held to determine respective priorities and order of processing.

(f) Applications filed during a simultaneous filing period are subject to the classification criteria established in § 3200.0–5(k) and will be considered as all filed the same day.

(g) The requirements of § 3210.2–1(d) need not be satisfied for a complete application during the 30-day simultaneous filing period or during any future designated simultaneous filing period. Such data must be submitted by the successful drawee when requested by the authorized officer.

(h) Each application must be accompanied by the service charge of $50. The first year's advance rental need not be submitted with the application. A lease will be issued to the first drawee qualified to receive a lease upon payment of the first year's rental. Rental must be received in the proper BLM office within fifteen days from the date of receipt of notice that such rental is due. The drawee failing to submit the rental payment within the time allowed will be automatically disqualified to receive the lease, and consideration will be given to the application of the drawee having the next highest priority in the drawing.

§ 3211.3 Issuance of leases for units on posted list.

(a) If more than one application is received during the simultaneous filing period for the same unit on the list posted pursuant to § 3211.1(a), all applications on that unit filed during that period will be considered simultaneously filed. Priority of filing for such units will be determined by a public drawing. Three applications will be drawn for each unit.

If the lands are determined not to be within any KGRA, a lease may be issued to the successful drawee upon his compliance with all applicable regulations, including those in Subpart 3210 of this part.

(b) If only one application is filed during the simultaneous filing period on a unit on the list posted pursuant to § 3211.1(a), a lease on that unit, if the land is not included within any KGRA, may be issued to the applicant, upon his compliance with all applicable regulations, including those in Subpart 3210 of this part.

(c) If no application is filed on a unit on the list posted pursuant to § 3211.1

V 38-140 JUL 23 73 XUM

(a) within the prescribed simultaneous filing period, the land in that unit, if not with a KGRA, will become available for leasing in accordance with Subpart 3210 of this part.

PART 3220—COMPETITIVE LEASES

Subpart 3220—Competitive Leases; General

Sec.
3220.1 General.
3220.2 Nominations.
3220.3 Publication of notice of lease sale.
3220.4 Contents of notice of lease sale.
3220.5 Bidding requirements.
3220.6 Award of lease.

Subpart 3220—Competitive Leases; General

§ 3220.1 General.

(a) Lands within a KGRA, except as provided under § 3201.1, will be available for leasing on the effective date of these regulations.

(b) The authorized officer will accept nominations to lease, or may on his own motion from time to time call for nominations to lease. Nominations may be withdrawn at any time.

§ 3220.2 Nominations.

(a) Nominations will be submitted on a card approved by the Director.

(b) A nomination must be filed in the proper BLM office in duplicate for public lands and triplicate for acquired lands and must include the following:

(1) The nominator's name and address;

(2) A statement of citizenship and qualifications for lease;

(3) A description of the lands; and

(4) A statement of the interests, direct or indirect, held in other Federal geothermal leases or applications in the same State.

§ 3220.3 Publication of notice of lease sale.

Where the Secretary determines to offer lands for competitive leasing he will publish a notice of lease sale in a newspaper of general circulation in the area in which the lands to be leased are located once a week for 4 consecutive weeks, or for such other period as he may direct.

§ 3220.4 Contents of notice of lease sale.

The notice will specify the time and place of sale, the manner in which bids may be submitted, the description of the lands, and the terms and conditions of the sale, including royalty and rental rates.

The notice will indicate the proper BLM office where the terms and conditions under which the lease will be issued are available. The notice will also indicate that the proposed plan of operation, as required by § 3210.2–1(d), must be filed before a lease can be issued.

§ 3220.5 Bidding requirements.

(a) A separate identified sealed bid must be submitted for each lease unit. Each bidder must submit with his bid a certified or cashier's check, bank draft, money order or cash in the amount of one-half of the amount bid together with proof of qualifications as required by these regulations.

(b) All bidders are warned against violation of the provisions of Title 18 U.S.C. section 1860 prohibiting unlawful combination or intimidation of bidders.

§ 3220.6 Award of lease.

(a) All sealed bids shall be opened at the place, date, and hour specified in the notice. No bids will be accepted or rejected at that time.

(b) Leases will be awarded to the highest responsible qualified bidder, except as required under Part 3230.

(c) The right to reject any and all bids is reserved. If the authorized officer fails to accept the highest bid for a lease within 30 days after the date on which the bids are opened (or such longer period as may be needed to comply with § 3230.1–6), all bids for that lease will be considered rejected. Deposits on rejected bids will be returned.

(d) If the lease is awarded, three copies of the lease will be sent to the successful bidder who shall be required to execute them within 30 days from receipt thereof, to pay the first year's rental, the balance of the bonus bid, file the required bond or bonds, and submit the proposed plan of operation as required by § 3210.–2–1(d). When the three copies of the lease are executed by the successful bidder and returned to the authorized officer, the lease will be executed by the authorized officer and a copy will be mailed to the successful bidder.

(e) If the successful bidder fails to execute the lease or otherwise comply with the applicable regulations, his deposit will be forfeited and disposed of as provided in section 20 of the Act. In this event the lands will be reoffered when it is determined, in the opinion of the Secretary, that sufficient interest exists to justify a competitive lease sale.

PART 3230—RIGHTS TO CONVERSION TO GEOTHERMAL LEASES OR APPLICATION FOR GEOTHERMAL LEASES

Subpart 3230—Rights to Conversion to Geothermal Leases or Application for Geothermal Leases; General

Sec.
3230.1 General.
3230.1–1 Rights to conversion to geothermal leases.
3230.1–2 Rights to conversion to applications for geothermal leases.
3230.1–3 Land in which minerals are reserved to the United States.
3230.1–4 Conflicting claims of rights to conversion to geothermal leases, or to applications for geothermal leases.
3230.1–5 [Reserved]
3230.1–6 Method of leasing to owners of conversion rights to geothermal leases, or to applications for geothermal leases.
3230.1–7 Acreage limitation.
3230.2 Qualifications.
3230.3 Applications.
3230.3–1 Filing of application.
3230.3–2 Statements required.
3230.4 Conversion to geothermal leases or to applications for geothermal leases.
3230.4–1 Processing and adjudicating applications.
3230.4–2 Approval.

Subpart 3230—Rights to Conversion to Geothermal Leases or Application for Geothermal Leases

§ 3230.1 General.

§ 3230.1–1 Rights to conversion to geothermal leases.

Where lands were on September 7, 1965, subject to valid leases or permits issued under the Mineral Leasing Act of 1920, as amended and supplemented (30 U.S.C. 181–287), or the Mineral Leasing Act for Acquired Lands, as amended (30 U.S.C. 351–358), or subject to existing mining claims located on or prior to September 7, 1965, the lessees, permittees, or claimants, or their successors in interest, if qualified to hold geothermal leases, shall have the right, subject to certain limitations as hereinafter provided, to convert such leases, permits or claims to geothermal leases covering the same lands.

§ 3230.1–2 Rights to conversion to applications for geothermal leases.

Where lands were subject to application for leases or permits under the mineral leasing laws referred to in § 3230.1–1 on September 7, 1965, the applicants may, subject to certain limitations as hereinafter provided, convert their applications to applications for geothermal leases having priorities dating from the time of filing such applications under said mineral leasing laws.

§ 3230.1–3 Land in which minerals are reserved to the United States.

Where a right to one of the forms of conversion referred to in § 3230.1–1 or § 3230.1–2 is claimed as to lands the surface of which has passed from Federal ownership but in which the minerals have been reserved to the United States, final action on any claim to conversion rights under section 4 of the Act shall be held in abeyance until such time as the question of title to the geothermal resources in such lands has been resolved pursuant to the provisions of section 21(b) of the Act, unless the Secretary determines that it is in the public interest to make a determination of such claims at an earlier time, subject to the rights, if any, of non-Federal owners.

§ 3230.1–4 Conflicting claims of rights to conversion to geothermal leases, or to applications for geothermal leases.

(a) Where there are conflicting claims of rights to conversion to geothermal leases based upon mineral leases, mineral permits, or mining claims embracing the same land, the date of issuance of the permit or lease or of recordation of the claim shall determine priority.

(b) Where there are rights to conversion to applications for geothermal leases based on applications for mineral leases or permits in conflict wth rights to conversion to geothermal leases based upon mining claims embracing the same lands, the date of filing the application or the date of recordation of the mining claim shall determine priority.

§ 3230.1–6 Method of leasing to owners of conversion rights to geothermal leases, or to applications for geothermal leases.

(a) *Lands included within any KGRA*—(1) *Competitive lease.* Where lands have been included within any KGRA prior to the issuance of a lease, the owner of a conversion right to a geothermal lease for such lands shall be entitled to the issuance of a competitive lease only in accordance with the provisions of subparagraph (2) of this paragraph. If the lands subject to a conversion right to a geothermal lease are in part within a KGRA and in part outside a KGRA, the holder of that conversion right shall have the right to divide his conversion rights into two separate conversion rights so that he may receive a geothermal lease to the lands within the KGRA only subject to subparagraph (2) of this paragraph and a geothermal lease to the lands not within a KGRA subject to paragraph (b) of this section.

(2) *Preference right.* (i) Lands which have been included within any KGRA shall be leased only by competitive bidding in the manner prescribed in Subpart 3220 of this chapter, except that, in addition, the name and address of the owner of any conversion right to a geothermal lease will be set forth in the lease sale notice.

(ii) The person owning the right to conversion to a geothermal lease shall be informed by written notice of the highest bona fide bid submitted for the lease at the sale. If within thirty (30) days after he has received that written notice, the person owning the right to conversion to a geothermal lease shall inform the authorized officer that he wishes such a lease, pay an amount equal to the highest bona fide bid submitted, pay the rental for the first year, file the required bond or bonds, and submit the data required by § 3210.2–1(d) and (e), a lease will be issued to him.

(iii) Failure of the owner of the right to conversion to a geothermal lease to inform the authorized officer timely will constitute a forfeiture of his conversion rights without further notice to him. In this event, the lease will be offered to the highest bona fide bidder, if otherwise qualified.

(b) *Lands not included within any KGRA—Noncompetitive lease.* Where lands have not been included within any KGRA prior to the issuance of a lease, the owner of a conversion right to a geothermal lease for such lands, if otherwise qualified, shall be entitled to the issuance of a noncompetitive lease for such lands.

(c) *Lands included within a KGRA*—(1) *Application for a lease.* Where lands have been included within a KGRA prior to the issuance of a lease, the owner of a conversion right to an application for a geothermal lease to those lands shall be entitled to receive a competitive geothermal lease only in accordance with the provisions of Subpart 3220 of this part. If the lands subject to a conversion right to a geothermal application are in part within a KGRA and in part outside a KGRA, the holder of that conversion right may amend his application to cover only the land outside the KGRA.

(2) *Preference right.* The owner of a conversion right to an application for a geothermal lease where the lands have been included within a KGEA shall receive no preference right to meet the highest bona fide bid.

(d) *Lands not included within any KGRA*—(1) *Application for a lease.* Where lands have not been included within a KGRA, the owner of a conversion right to an application for a geothermal lease, if otherwise qualified, shall be entitled to convert his right into an application for a non-competitive lease.

(2) *Preference right.* The owner of a conversion right to an application for a geothermal lease where the lands have not been included within a KGRA, if otherwise qualified, shall be entitled to the issuance of a non-competitive geothermal lease for such lands in accordance with Subpart 3210 of this part.

§ 3230.1–7 Acreage limitation.

No person shall be permitted to obtain, through conversion of mineral leases or prospecting permits, or applications therefor, or mining claims, leases for more than 10,240 acres, or a lease to any land not included in the lease, permit, application or claim converted, except that any such geothermal lease issued may include some lands not embraced in the lease, permit, application or claim on which the conversion right is based, where a metes and bounds description was used to describe lands in issued leases or permits or in filed applications or mining claim locations. In such event, the metes and bounds description will be conformed by the authorized office to a legal subdivision, to the extent possible.

§ 3230.2 Qualifications.

Persons who believe they are qualified under the Act to convert mineral leases or permits or existing mining claims to geothermal leases and persons who believe they are entitled to convert applications for mineral leases and permits to applications for geothermal leases shall comply with the procedures set forth below.

§ 3230.3 Applications.

§ 3230.3–1 Filing of application.

(a) A written application shall have been filed with the proper BLM office on or before June 22, 1971, pursuant to the notice published in the FEDERAL REGISTER of January 15, 1971, 36 FR 623. If such an application has been filed and does not contain the information specified in § 3230.3–2 hereof, such information must be supplied by the applicant within 60 days of the effective date of these regulations.

(b) Failure to have filed a conversion right application on or before June 22, 1971, will result in the loss of any such rights so claimed.

§ 3230.3–2 Statements required.

(a) An application based on a valid lease or permit referred to in section 3230.1–1 hereof shall include the date of issuance, the State in which the lands are located, and the serial number of the lease or permit. An application based on a mining claim referred to in § 3230.1–1 shall include the name, location, legal description or reference sufficient to identify the lands on the ground, date of location and date and place of recordation of the mining claim (including volume and page), which the applicant seeks to convert to a geothermal lease. An application based on an application for a mineral lease or permit referred to in § 3230.1–1 shall include the date the application for the lease or permit was filed with the Bureau of Land Management and the location of the proper BLM office where the application was filed, and should indicate the serial number assigned to the application.

(b) An application shall include a description of the lands sought to be included in a geothermal lease. If the lands have been surveyed under the public land rectangular survey system, each application shall describe the lands by legal subdivision, section, township, and range. If otherwise officially surveyed, the lands shall be described by the legal description, mining claim survey, or irregular tracts. If the lands have not been so surveyed, but protracted surveys for those lands have been approved and the effective date thereof published in the FEDERAL REGISTER, each application for lands shown on such protracted surveys, filed on or after such effective date, shall describe the lands according to the legal subdivision, section, township, and range shown on the approved protracted surveys. If the lands have not been so surveyed, or included within approved protracted surveys, or it is otherwise appropriate, each application shall describe the lands by metes and bounds, giving courses and distances between the successive angle points on the boundary of the tract, and connected by courses and distances to a monument or to a prominent topographic feature.

(c) An application shall be accompanied by a detailed statement showing: (1) The expenditures made for the exploration, development, or production of geothermal steam by the applicant on lands for which a geothermal lease is sought or on adjoining, adjacent or nearby Federal or non-Federal lands and the date or dates such expenditures were made, (2) the names and current addresses of the persons who actually performed the aforesaid exploration, development, or production work, (3) the geological, geophysical, and engineering data acquired in such exploration, development, and production which

V 38-140 JUL 23 73 XUM

demonstrates, or tends to demonstrate the expenditures claimed, (4) a map showing the location where the expenditures and improvements were made, (5) a proposed plan as required by § 3210.2–1 (e), and (6) a statement that he will be bound by the terms and conditions of a lease, if issued. The applicant shall file such additional information with respect to the application as requested by the authorized officer.

§ 3230.4 Conversion to geothermal leases or to applications for geothermal leases.

§ 3230.4–1 Processing and adjudicating applications.

Application for conversion to geothermal leases or to applications for geothermal leases together with all information and data submitted or requested by the authorized officer pursuant to § 3230.3–2 hereof and any other pertinent available information or data shall be reviewed by the authorized officer for the purpose of determining whether the required showing has been made, and thereafter the authorized officer shall prepare a proposed determination which shall be submitted to the Secretary.

§ 3230.4–2 Approval.

The authorized officer will make a determination that the applicant has or has not satisfactorily shown that he is entitled to receive the grant of a geothermal lease, or application for a geothermal lease.

PART 3240—RULES GOVERNING LEASES

Subpart 3240—Rules Governing Leases

Subpart 3241—Assignments and Transfers

Sec.
- 3241.1 Assignments, transfers, interests, qualifications.
- 3241.1–1 Record title assignments or transfers of leases or undivided lease interests.
- 3241.1–2 Qualifications.
- 3241.2 Requirements for filing of assignments or transfers.
- 3241.2–1 Place of filing and service charge.
- 3241.2–2 Number of copies required.
- 3241.2–3 Time of filing assignments, transfers of leases, or undivided lease interests.
- 3241.2–4 Forms and statements.
- 3241.2–5 Description of lands.
- 3241.3 Bonds.
- 3241.4 Approval.
- 3241.5 Continuing responsibility.
- 3241.6 Production payments.
- 3241.7 Overriding royalty interests.
- 3241.7–1 General.
- 3241.7–2 Limitation of overriding royalties.
- 3241.8 Lease account status; requirement.
- 3241.9 Effect of assignment.

Subpart 3242—Production and Use of Byproducts

- 3242.1 General.
- 3242.2 Production and use of commercially demineralized water as a byproduct, production and use of other sources of water.
- 3242.2–1 General.
- 3242.2–2 Prohibition on production of commercially demineralized water.
- 3242.2–3 Water wells on geothermal areas.
- 3242.2–4 State water laws.

Subpart 3243—Cooperative Conservation Provisions

- 3243.1 Cooperative or unit plans.
- 3243.2 Acreage chargeability.
- 3243.3 Communitization or drilling agreements.
- 3243.3–1 Approval.
- 3243.3–2 Requirements.
- 3243.4 Operating drilling, or development contracts or a combination for joint operations.
- 3243.4–1 Approval.
- 3243.4–2 Requirements.
- 3243.4–3 Acreage chargeability.

Subpart 3244—Terminations and Expirations

- 3244.1 Relinquishments.
- 3244.2 Automatic terminations and reinstatements.
- 3244.2–1 General.
- 3244.2–2 Exceptions.
- 3244.3 Termination of lease for noncompliance with regulations or lease terms; notice; hearing.
- 3244.4 Expiration by operation of law.
- 3244.5 Removal of material and supplies upon termination of lease.

Subpart 3241—Assignments and Transfers

§ 3241.1 Assignments, transfers, interests, qualifications.

§ 3241.1–1 Record title assignments or transfers of leases or undivided lease interests.

(a) The record title of leases may be assigned as to all or part of the leased acreage, except that no assignment will be approved where (1) either the assigned or retained portions created by the assignment would be less than 640 acres, unless the total acreage in the lease being partially assigned is less than 1,280 acres occasioned by includes an irregular subdivision, as provided in § 3203.2 of this part, in which case the assigned and retained portions may be less than 640 acres by an amount which is smaller than the amount by which the area would be more than 640 acres if the irregular subdivision were added, or (2) an undivided interest is created by assignment of a lease containing less than 640 acres, or (3) where the lease being assigned contains 640 acres or more, an undivided interest of less than 10 percent would be created in the leased acreage. An exception to the minimum acreage provision of this section may be made by the Secretary where he finds such exception is necessary in the interest of conservation of the resources.

(b) A working interest or operating right may be assigned, in accordance with this section, *Provided* That the assigned interest or right, divided or undivided, vests in the holder only the right to explore, develop and produce geothermal resources from the leased lands to the extent of not less than the interest assigned.

(c) All requests for approval of any assignment will be reviewed, prior to approval, to adjust environmental terms and conditions where necessary.

§ 3241.1–2 Qualifications.

(a) No assignment will be approved (1) if the assignee or any other party in interest is not qualified to take and hold a lease; (2) if a required bond is not filed; or (3) if the statement of interest required under § 3202.2–1(a) is not filed.

(b) an assignment to a minor other than an heir or devisee of a lessee will not be approved.

(c) The assignment must be accompanied by a signed statement by the assignee either (1) that he is the sole party in interest in the assignment, or (2) setting forth the names and qualifications of the other parties holding interests in the lease. Where the assignee is not the sole party in interest, separate statements must be signed by each of the other parties and by the assignee setting forth the nature and extent of the interest of each party and the nature of the agreement between them. These separate statements must be filed in the proper BLM office not later than 15 days after the filing of assignment.

(d) Where an attorney-in-fact or agent signs, on behalf of the assignor or assignee, the instrument of transfer or the application for approval, evidence of the authority of the attorney-in-fact or agent to sign such assignment or application must be furnished to the authorized officer.

(e) In order for the heir or devisee of the deceased holder of a lease, an operating agreement, or an overriding royalty interest in a producing lease, to be recognized by the authorized officer as the holder of that lease, agreement or interest, the appropriate showing required under the regulations in § 3202.2–6 must be furnished to the authorized officer.

§ 3241.2 Requirements for filing of assignments or transfers.

§ 3241.2–1 Place of filing and service charge.

A request for approval of any assignment or other instrument of transfer of a lease or interest therein must be filed in the proper BLM office and accompanied by a nonrefundable service charge of $50. An application request not accompanied by payment of such a service charge will not be accepted for filing.

§ 3241.2–2 Number of copies required.

Three copies of all instruments of assignment or transfer, and a single copy of any additional information required by § 3202.2. Relating to citizenship or qualifications of corporations must be filed in the proper BLM office.

§ 3241.2–3 Time of filing assignments, transfers of leases, or undivided lease interests.

(a) Any instrument of transfer of a lease or of an interest therein, including an assignment of working interests, operating agreements, and operating rights, must be filed in the proper BLM office for approval within 90 days from the date of execution of that instrument and must contain all of the terms and conditions agreed upon by the parties thereto, together with evidence and statements similar to that required of an applicant under these regulations in this group.

(b) A separate instrument of assignment must be filed in the proper BLM office for each geothermal lease involving transfers of record title. When transfers to the same person, association, including partnerships, or corporation involve more than one geothermal lease, one request for approval and one showing as to the qualifications of the assignee will be sufficient.

§ 3241.2–4 Forms and statements.

A form approved by the Director, or unofficial copies of that form in current use, must be used for transfers and requests for approval referred to in this section and must be filed in duplicate for public lands and in triplicate where acquired lands are involved. The approved form may be used for an assignment which affects a transfer of the record title to all or part of a geothermal lease, but it is not to be used for any other type of transfer. The application for assignment shall be deemed to be approved upon execution by the authorized officer.

§ 3241.2–5 Description of lands.

Each instrument of transfer must describe the lands involved in the same manner as described in the lease.

§ 3241.3 Bonds.

Where an assignment does not create separate leases, the assignee, if the assignment so provides, may become a joint principal on the bond with the assignor. Any assignment which does not convey the assignor's record title in all of the lands in the lease must also be accompanied by consent of his surety to remain bound under the bond of record as to the lease retained by said assignor, if the bond, by its terms, does not contain such consent. If a party to the assignment has previously furnished a nationwide or statewide bond, no additional showing by such party is necessary as to the bond requirement.

§ 3241.4 Approval.

Upon approval, an assignment shall be effective as of the first day of the lease month following the date of filing of the assignment required by this Subpart in the proper BLM office.

§ 3241.5 Continuing responsibility.

(a) The assignor and his surety will continue to be responsible for the performance of any obligation under the lease until the assignment is approved.

(b) Upon approval, the assignee and his surety shall be responsible for the performance of all lease obligations notwithstanding any terms in the assignment to the contrary.

§ 3241.6 Production payments.

If payments out of production are reserved, a statement must be submitted stating the details as to the amount, method of payment, and other pertinent items.

§ 3241.7 Overriding royalty interests.

§ 3241.7–1 General.

(a) Overriding royalty interests in geothermal leases constitute accountable acreage holdings under these regulations.

(b) If an overriding royalty interest is created which is not shown in the instrument of assignment or transfer, a statement must be filed in the proper BLM office describing the interest.

(c) Any such assignment will be deemed valid if accompanied by a statement over the assignee's signature that the assignee is a citizen of the United States, an association of such citizens, or a corporation organized under the laws of the United States or of one of the States or the District of Columbia, and that his interests in geothermal leases do not exceed the acreage limitations provided in these regulations.

(d) All assignments of overriding royalty interests must be filed for record in the proper BLM office within 90 days from the date of execution. Such interests will not receive formal approval.

§ 3241.7–2 Limitation of overriding royalties.

(a) Except as herein provided, an overriding royalty on the value of the output of all geothermal resources, or any of them, at the point of shipment to market may be created by assignment or otherwise: *Provided*, That, (1) the overriding royalty is not for less than one-fourth (¼) of 1 percent of the value of such output, and does not exceed 50 percent of the rate of royalty due to the United States as specified in the geothermal lease, or as reduced pursuant to such lease, and (2) the overriding royalty, when added to overriding royalties previously created, does not exceed the maximum rate established herein.

(b) The creation of an overriding royalty interest that does not conform to the requirements of paragraph (a) of this section shall be deemed a violation of the lease terms, unless the agreement creating overriding royalties provides (1) for a prorated reduction of all overriding royalties so that the aggregate rate of royalties does not exceed the maximum rate established in paragraph (a) of this section and (2) for the suspension of an overriding royalty during any period when the royalties due to the United States have been suspended pursuant to the terms of the geothermal lease.

§ 3241.8 Lease account status; requirements.

Unless the lease account is in good financial standing as to the area covered by an assignment at the time the assignment and bond are filed, or is placed in good standing before the assignment is reached for action, the request for approval of the assignment will be denied, and the lease shall be subject to termination in accordance with these regulations.

§ 3241.9 Effect of assignment.

An assignment of the record title of the complete interest in a portion of the lands in a lease shall segregate the assigned and retained portions into separate and distinct leases. An assignment of an undivided interest in the entire leasehold shall not segregate the lease into separate or distinct leases.

Subpart 3242—Production and Use of Byproducts

§ 3242.1 General.

Where the Supervisor determines that production, use, or conversion of geothermal steam under a geothermal lease is susceptible of producing a valuable byproduct or byproducts, including commercially demineralized water contained in or derived from such geothermal steam for beneficial use in accordance with applicable State water laws, the authorized officer shall require substantial beneficial production or use thereof, except where he determines that:

(a) Beneficial production or use is not in the interest of conservation of natural resources;

(b) Beneficial production or use would not be economically feasible; or

(c) Beneficial production and use should not be required for other reasons satisfactory to him.

§ 3242.2 Production and use of commercially demineralized water as a byproduct, production, and use of other sources of water.

§ 3242.2–1 General.

Except as provided in these regulations, or the lease, the lessee shall have the right to process fluids, including brine, condensate, and other fluids, which are associated with geothermal steam within lands subject to the geothermal lease for the purpose of developing, producing, and utilizing the commercially demineralized water recovered as a result of such processing.

§ 3242.2–2 Prohibition on production of commercially demineralized water.

The lessee shall not be authorized to engage in the primary production of commercially demineralized water from the produced fluids contained in or derived from geothermal steam referred to in § 3243.3–1, where such use would result in the undue waste of geothermal energy.

§ 3242.2–3 Water wells on geothermal areas.

All leases issued under these regulations shall be subject to the condition that, where the lessee finds only potable water in any well drilled for production of geothermal resources, the Secretary may, when the water is of such quality and quantity as to be valuable and useable for agricultural, domestic, or other purpose, acquire the well with casing installed in the well at the fair market value of the casing.

§ 3242.2–4 State water laws.

Nothing in these regulations shall constitute an express or implied claim or

V 38-140 JUL 23 73 XUM

denial on the part of the Federal Government as to its exemption from State water laws.

Subpart 3243—Cooperative Conservation Provisions

§ 3243.1 Cooperative or unit plans.

For the purpose of more properly conserving the natural resources of any geothermal pool, field or like area, lessees and their representatives may unite with each other or jointly or separately with others, in collectively adopting and operating under a cooperative or unit plan of development or operation of any geothermal resource area, or any part thereof (whether or not any part of that geothermal resource area is then subject to any cooperative or unit plan of development or operation). Applications to unitize shall be filed with the Supervisor who shall certify whether such plan is necessary or advisable in the public interest. The procedure in obtaining approval of a cooperative or unit plan of development, the provisions for the supervision of the cooperative or unit plan, and a suggested text of an agreement, are contained in 30 CFR Part 271.

§ 3243.2 Acreage chargeability.

All leases committed to any unit or cooperative plan approved or prescribed by the Supervisor shall be excepted in determining holdings or control for purposes of acreage chargeability. For the extension of leases committed to a unit plan, see Subpart 3203 of this part.

§ 3243.3 Communitization or drilling agreements.

§ 3243.3–1 Approval.

(a) The Supervisor is authorized, when separate tracts under lease cannot be independently developed and operated in conformity with an established well-spacing or well-development program, to approve, or to require lessees to enter into, communitization or drilling agreements providing for the apportionment of production or royalties among the separate tracts of land comprising the drilling or spacing unit for the lease, or any portion thereof, with other lands, whether or not owned by the United States, when in the public interest. Operations or production pursuant to such an agreement shall be deemed to be operations or production as to each lease committed thereto.

(b) Preliminary requests to communitize separate tracts shall be filed in triplicate with the Supervisor.

(c) Executed agreements shall be submitted to the Supervisor in sufficient number to permit retention of five copies after approval.

§ 3243.3–2 Requirements.

The agreement shall describe the separate tracts comprising the drilling or spacing unit, disclose the apportionment of the production or royalties to the several parties and the name of the operator, and shall contain adequate provisions for the protection of the interests of all parties, including the United States. The agreement must be signed by or in behalf of all interested necessary parties and will be effective only after approval by the Supervisor.

§ 3243.4 Operating, drilling, development contracts or a combination for joint operations.

§ 3243.4–1 Approval.

(a) The Secretary may on such conditions as he may prescribe, approve operating, drilling, or development contracts made by one or more geothermal lessees, with one or more persons, associations, including partnerships, or corporation whenever he shall determine that such contracts are required for the conservation of natural resources or in the best interest of the United States.

(c) Contracts submitted for approval under this section should be filed with the Supervisor together with enough copies to permit retention of five copies after approval.

(d) The authority of the Secretary to approve operating, drilling, or development contracts without regard to acreage limitations ordinarily will be exercised only to permit operators to enter into contracts with a number of lessees sufficient to justify operations on a large scale for the discovery, development, production, or transmission, transportation, or utilization of geothermal resources, and to finance the same.

§ 3243.4–2 Requirements.

(a) The contract must be accompanied by a statement showing all the interests held by the contractor in the area or field and the proposed or agreed plan of operation or development of the field. All the contracts held by the same contractor in the area or field should be submitted for approval at the same time, and full disclosure of the project made. Complete details must be furnished in order that the Secretary may have facts upon which to make a definite determination in accordance herewith and to prescribe the conditions on which approval of the contracts shall be made.

(b) The application must show a reasonable need for the contract and that it will not result in any concentration of control over the production or sale of geothermal resources which would be inconsistent with the antimonopoly provisions of law.

§ 3243.4–3 Acreage chargeability.

All leases operated under approved operating, drilling or development contracts or a combination for joint operations and interests thereunder, shall be excepted in determining holdings or control for purposes of acreage chargeability.

Subpart 3244—Terminations and Expirations

§ 3244.1 Relinquishments.

(a) A lease, or any legal subdivision of the area covered by such lease, may be surrendered by the record title holder by filing a written relinquishment in triplicate in the proper BLM office, provided the partial relinquishment does not reduce the remaining acreage in the lease to less than 640 acres, except where a departure is occasioned by an irregular subdivision in which case the remaining leased acreage may be less than 640 acres by an amount which is smaller than the amount by which the area would be more than 640 acres if the irregular subdivision were added, and except that the minimum acreage provision of this section may be waived by the Secretary where he finds such exception is justified on the basis of exploratory and development data derived from activity on the leasehold. The relinquishment must: (1) describe the lands to be relinquished as described in the lease; (2) include a statement as to whether the relinquished lands had been disturbed and if so whether they were restored as prescribed by the terms of the lease; (3) state whether wells had been drilled on the lands and if so whether they had been placed in condition for abandonment; and (4) furnish a statement that all moneys due and payable to workmen employed on the leased premises have been paid.

(b) A relinquishment shall take effect on the date it is filed, subject to the continued obligation of the lessee and his surety: (1) To make payments of all accrued rentals and royalties; (2) to place all wells on the land to be relinquished in condition for suspension of operations or abandonment; (3) to restore the surface resources in accordance with all regulations and the terms of the lease; and (4) to comply with all other environmental stipulations provided for by such regulations or lease. A statement must be furnished that all moneys due and payable to workmen employed on the leased premises have been paid.

§ 3244.2 Automatic terminations and reinstatements.

§ 3244.2–1 General.

Except as provided in § 3245.2–2 any lease will automatically terminate by operation of law if the lessee fails to pay the rental on or before the anniversary date of such lease. However, if the time for payment falls upon any day in which the proper office to receive payment is not open, payment received on the next official working day shall be deemed to be timely. The termination of the lease for failure to pay the rental must be noted on the official records of the proper BLM office. Upon such notation the lands included in such lease will become subject to leasing as provided for in Subpart 3211 of this part.

§ 3244.2–2 Exceptions.

(a) *Nominal deficiency.* If the rental payment due under a lease is paid on or before its anniversary date but the amount of the payment is deficient and the deficiency is nominal, the lease shall not have automatically terminated unless the lessee fails to pay the deficiency within the period prescribed in a Notice of Deficiency, or by the due date, whichever is later. A deficiency is nominal if it is not more than $10 or one percentum (1%) of the total payment due, whichever is more. The authorized officer shall send a Notice of Deficiency to the lessee on an approved form. The Notice shall be sent by certified mail, return receipt requested, and shall allow the lessee 15 days from the date of receipt to submit the full balance due to the proper BLM office. If the payment called for in the notice is not made within the time allowed, the lease will have terminated by operation of law as of its anniversary date.

(b) *Reinstatements.* (1) Except as hereinafter provided, the authorized officer may reinstate a lease which has terminated automatically for failure to pay the full amount of rental due on or before the anniversary date, if it is shown to his satisfaction that such failure was either justifiable or not due to a lack of reasonable diligence on the part of the lessee; and a petition for reinstatement, together with the required rental, including any back rental which has accrued from the date of termination of the lease, is filed with the proper BLM office.

(2) The burden of showing that the failure to pay on or before the anniversary date was justifiable or not due to lack of reasonable diligence will be on the lessee. Reasonable diligence normally requires sending or delivering payments sufficiently in advance of the anniversary date to account for normal delays in the collection, transmittal, and delivery of the payment. The authorized officer may require evidence, such as post office receipts, of the time of sending or delivery of payments.

(3) Under no conditions will a lease be reinstated if (i) a valid lease has been issued prior to the filing of a petition for reinstatement affecting any of the lands covered by the terminated lease, or (ii) the interest in the lands has been withdrawn, disposed of, or has otherwise become unavailable for leasing. However, the authorized officer will not issue a new lease for lands covered by a lease which terminated automatically until 90 days after the date of termination.

(4) Reinstatement of terminated leases is discretionary with the Secretary. The basic criterion in accordance with which this discretion will be exercised is whether the Secretary would be willing to issue a lease if a new lease offer for the same land were under consideration.

§ 3244.3 Termination of lease for noncompliance with regulations or lease terms; notice; hearing.

A lease may be terminated by the authorized officer for any violation of these regulations, the regulations in 30 CFR Part 270, or the lease terms, 30 days after receipt by the lessee of notice from the authorized officer of the violation, unless (a) the violation has been corrected, or (b) the violation is one that cannot be corrected within the notice period and the lessee has in good faith commenced within the notice period to correct the violation and thereafter proceeds diligently to complete the correction. A lessee shall be entitled to a hearing on the matter of any such claimed violation or proposed termination of lease if a request for a hearing is made to the authorized officer within the 30-day period after notice. The procedures with respect to notice of such hearing and the conduct thereof, and with respect to appeals from decisions of hearing examiners upon such hearings, shall follow insofar as practicable the procedural rules applicable to hearings and appeals in public lands cases within the jurisdiction of the Board of Land Appeals, Office of Hearings and Appeals, contained in Department Hearings and Appeals Procedures, Part 4 of this title. The period for correction of violation or commencement to correct a violation of regulations or of lease terms, as aforesaid, shall be extended to 30 days after the lessee's receipt of the hearing examiner's decision upon such a hearing if the hearing examiner shall find that a violation exists.

§ 3244.4 Expiration by operation of law.

Any lease for land on which, or for which under an approved cooperative or unit plan of development or operation, there is no production in commercial quantities, or a producing well, or actual drilling operations being diligently prosecuted, will expire at the end of its primary term without notice to the lessee. Notation of such expiration need not be made on the official records, but the lands previously covered by that expired lease will be subject to the filing of new applications or nominations for leases only as provided in these regulations.

§ 3244.5 Removal of materials and supplies upon termination of lease.

Upon the expiration of the lease, or the earlier termination thereof pursuant to this subpart, the lessee shall have the privilege at any time within a period of ninety (90) days thereafter of removing from the premises any materials, tools, appliances, machinery, structures, and equipment other than improvements needed for producing wells. Any materials, tools, appliances, machinery, structures, and equipment subject to removal, but not removed within the 90-day period, or any extension thereof that may be granted because of adverse climatic conditions during that period, shall, at the option of the Supervisor, become property of the lessor, but the lessee shall remove any or all such property where so directed by the lessor.

Dated July 18, 1973.

WILLIAM W. LYON,
Deputy Under Secretary of the Interior.

Geological Survey

[30 CFR Parts 270, 271]

GEOTHERMAL RESOURCES OPERATIONS ON PUBLIC, ACQUIRED AND WITHDRAWN LANDS AND GEOTHERMAL RESOURCES UNIT PLAN REGULATIONS (including suggested forms)

Notice of Proposed Rulemaking

The purpose of this revision in the proposed rulemaking for implementing the Geothermal Steam Act of December 24, 1970 (30 U.S.C. 1001–1025), is to provide the public with revisions planned as a result of the public hearings and comments received on the Draft Environmental Statement and previously published proposed rulemaking on operations and units (36 F.R. 13722, 8994, and 37 FR 25300). The Act provides for the leasing of public lands for the purpose of geothermal resource exploration, development and production. The changes in these regulations, since the last publication on November 29, 1972, are primarily administrative and procedural in nature and the environmental impact of these regulations is not believed to be significantly different from the impact of the regulations previously published.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested parties may submit written comments, suggestions, or objections with respect to the proposed regulations to the Geothermal Coordinator, Department of the Interior, Washington, D.C. 20240, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

A Final Environmental Statement will be issued in accordance with the provisions of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) prior to promulgation of any operating and unit regulations.

PART 270—GEOTHERMAL RESOURCES OPERATIONS ON PUBLIC, ACQUIRED, AND WITHDRAWN LANDS

GENERAL PROVISIONS

Sec.
270.1 Purpose and authority.
270.2 Definitions.

JURISDICTION AND FUNCTIONS OF SUPERVISOR

270.10 Jurisdiction.
270.11 General functions.
270.12 Regulation of operations.
270.13 Required samples, tests, and surveys.
270.14 Drilling and abandonment of wells.
270.15 Well spacing and well casing.
270.16 Values and payment for losses.
270.17 Suspension of operations and production.

REQUIREMENTS FOR LESSEES

270.30 Lease terms, regulations, waste, damage, and safety.
270.31 Designation of operator or agent.
270.32 Local agent.
270.33 Drilling and producing obligations.

270.41 Pollution.
270.42 Noise abatement.
270.43 Land subsidence and seismic activity.
270.44 Pits or sumps.
270.45 Well abandonment.
270.46 Accidents.
270.47 Workmanlike operations.
270.48 Departure from orders.
270.49 Sales contracts.
270.50 Royalty payments.

MEASUREMENT OF PRODUCTION AND COMPUTATION OF ROYALTIES

270.60 Measurement of geothermal resources.
270.61 Determination of content of by-products.
270.62 Value of geothermal production for computing royalties.
270.63 Computation of royalties.
270.64 Commingling production.

REPORTS TO BE MADE BY ALL LESSEES (INCLUDING OPERATORS)

270.70 General requirements.
270.71 Applications for permits to drill, redrill, deepen, or plug-back.
270.72 Sundry notices and reports on wells.
270.73 Log and history of well.
270.74 Monthly report of operations.
270.75 Monthly report of sales and royalty.
270.76 Annual report of compliance with environmental protection requirements.
270.77 Annual report of expenditures for diligent exploration operations.
270.78 Forms or reports.
270.79 Public inspection of records.

PROCEDURE IN CASE OF VIOLATION OF THE REGULATIONS OR LEASE TERMS

270.80 Noncompliance with regulations or lease terms.

APPEALS

270.90 Appeals.

GENERAL PROVISIONS

§ 270.1 Purpose and authority.

The Geothermal Steam Act enacted on December 24, 1970 (84 Stat. 1566) referred to in this part as "the Act", authorizes the Secretary of the Interior to prescribe rules and regulations applicable to operations conducted under a lease granted pursuant to that Act, and for the development and conservation of geothermal steam and associated geothermal resources, the prevention of waste, the protection of the public interest, and the protection of water quality, and other environmental qualities. The regulations in this part shall be administered by the Director through the Chief, Conservation Division, or his duly appointed representative.

§ 270.2 Definitions.

As used in the regulations in this part, the term:

(a) "Secretary" means the Secretary of the Interior or any person duly authorized to exercise the powers vested in that officer.

(b) "Director" means the Director of the Geological Survey.

(c) "Supervisor" means a representative of the Secretary, subject to the direction and supervisory authority of the Director, the Chief, Conservation Division, Geological Survey, and the appropriate Regional Conservation Manager, Conservation Division, Geological Survey, authorized and empowered to regulate operations and to perform other duties prescribed in the regulations in this part or any subordinate of such a representative acting under his direction.

(d) "Geothermal lease" means a lease issued under 43 CFR Group 3200.

(e) "Lessee" means the individual, corporation, association, or municipality to which a geothermal lease has been issued and its successor in interest or assignee. It also means any agent of the lessee or an operator holding authority by or through the lessee.

(f) "Operator" means the individual, corporation, or association having control or management of operations on the leased lands or a portion thereof. The operator may be the lessee, designated operator, or agent of the lessee, or holder of rights under an approved operating agreement.

(g) "Geothermal resources" means (1) all products of geothermal processes, embracing indigenous steam, hot water, and hot brines; (2) steam and other gases, hot water, and hot brines, resulting from water, gas, or other fluids artificially introduced into geothermal formations; (3) heat or other associated energy found in geothermal formations; and (4) any byproduct derived therefrom.

(h) "Byproduct" means (1) any mineral or minerals (exclusive of oil, hydrocarbon gas, and helium), which are found in solution or developed in association with geothermal steam and which have a value of less than 75 per centum of the value of the geothermal steam or are not, because of quantity, quality, or technical difficulties in extraction and production, of sufficient value to warrant extraction and production by themselves, and (2) commercially demineralized water.

(i) "Participating area" means that part of the unit area which is deemed to be productive from a horizon or deposit and to which production would be allocated in the manner described in the unit agreement assuming that all lands are committed to the unit agreement.

(j) "Waste" means (1) physical waste, as that term is generally understood; (2) waste of reservoir energy through inefficiency, improper use of or unnecessary dissipation of reservoir energy; (3) the location, spacing, drilling, equipping, operating, or producing of any geothermal well or wells in a manner which causes or tends to cause reduction in the quantity of geothermal energy ultimately recoverable from a reservoir under prudent and workmanlike operations or which tends to cause unnecessary or excessive surface or subsurface loss or destruction of geothermal energy; and (4) the inefficient transmission of geothermal energy from the source (wellhead) to point of utilization.

(k) "Directionally drilled well" means the deviation of a well bore from the vertical or from its normal course in an intended predetermined direction or course with respect to the points of the compass. Directionally drilled well shall not include a well deviated for the purpose of straightening a hole that has become crooked in the normal course of drilling or holes deviated at random without regard to compass direction in an attempt to sidetrack a portion of the hole on account of mechanical difficulty in drilling.

(l) "Geothermal resources operational order" or "GRO order" means a formal numbered order, issued by the Supervisor, with the prior approval of the Chief, Conservation Division, Geological Survey, which implements the regulations in this part and applies to operations in an area, region, or any significant portion thereof.

(m) "Producible well" means a well which is capable of producing geothermal resources in commercial quantities.

(n) "Commercial quantities" means quantities sufficient to pay a profit after all costs of production have been met.

(o) "Area of operations" means that area of the leased lands which is required for exploration, development, and producing operations, and which is delineated on a map or plat which is made a part of the approved plan of operations. It encompasses the area generally needed for wells, flow lines, separators, surge tanks, drill pads, mud pits, workshops, and other such facilities used for on-project geothermal resources field exploration, development, and production operations.

JURISDICTION AND FUNCTIONS OF SUPERVISOR

§ 270.10 Jurisdiction.

Drilling and production operations, handling and measurement of production, determination and collection of royalty and, in general, all operations conducted on a geothermal lease are subject to the regulations in this part and the applicable regulations contained in 43 CFR Group 3200, and are under the jurisdiction of the Supervisor for the region in which the leased land is situated, subject to the supervisory authority of the Secretary and the Director.

§ 270.11 General functions.

The Supervisor is authorized and directed to carry out the provisions of this part. He will require compliance with the terms of geothermal leases, with the regulations in this part and the applicable regulations in 43 CFR Group 3200, and with the applicable statutes. He shall act on all applications, requests, and notices required in this part. In executing his functions under this part the Supervisor shall ensure that all operations, within the area of operations, will conform to the best practice and are conducted in such manner as

to protect the deposits of the leased lands and to result in the maximum ultimate recovery of geothermal resources, with minimum waste, and are consistent with the principles of the use of the land for other purposes and of the protection of the environment. Inasmuch as conditions in one area may vary widely from conditions in another area, the regulations in this part are intended to be general in nature. Detailed procedures hereunder in any particular area will be covered by GRO orders. The requirements to be set forth in GRO orders relating to surface resources or uses will be coordinated with the appropriate land management agency. The Supervisor may issue oral orders to govern lease operations, but such orders shall be confirmed in writing by the Supervisor as promptly as possible. The Supervisor may issue other orders and rules to govern the development and method for production of a deposit, field, or area. Prior to the issuance of GRO orders and other orders and rules and the approval of any plan of operations or any plan of development, the Supervisor shall, as appropriate, consult with, and receive comments from Federal and State agencies, lessees, operators, or interested parties. Before permitting other operations on the leased land, the Supervisor shall determine if the lease is in good standing, whether the lessee is authorized to conduct operations, has filed an acceptable bond, and has an approved plan of operations.

§ 270.12 Regulation of operations.

The Supervisor shall inspect and supervise operations performed under the regulations in this part to: (a) Prevent waste and damage to formations or deposits containing geothermal resources; (b) prevent unnecessary damage to other natural resources; (c) prevent degradation of the water quality; (d) protect air quality, water quality, and other environmental qualities; and (e) prevent injury to life or property. The Supervisor shall issue such GRO orders as are necessary to accomplish these purposes.

§ 270.13 Required samples, tests, and surveys.

When necessary or advisable, the Supervisor shall require that adequate samples be taken and tests or surveys be made using acceptable techniques, without cost to the lessor, to determine the identity and character of formations; the presence of geothermal resources, water, or reservoir energy; the quantity and quality of geothermal resources, water or reservoir energy; the amount and direction of deviation of any well from the vertical; formation, casing, and tubing pressures, temperatures, rate of heat and fluid flow, and whether operations are conducted in a manner looking to the protection of the interests of the lessor.

§ 270.14 Drilling and abandonment of wells.

The Supervisor shall require that drilling be conducted in accordance with the terms of the lease, GRO orders, and the regulations in this part and 43 CFR Group 3200; and shall require plugging and abandonment of any well or wells no longer necessary for operations in accordance with plans approved or prescribed by him. Upon the failure of a lessee to comply with any requirement under this section, the Supervisor is authorized to perform the work at the expense of the lessee and the surety.

§ 270.15 Well spacing and well casing.

The Supervisor shall approve proposed well-spacing and well-casing programs or prescribe such modifications to the programs as he determines necessary for proper development, giving consideration to such factors as: (a) Topographic characteristics of the area; (b) hydrologic, geologic and reservoir characteristics of the field; (c) the number of wells that can be economically drilled to provide the necessary volume of geothermal resources for the intended use; (d) protection of correlative rights; (e) minimizing well interference; (f) unreasonable interference with multiple use of lands; and (g) protection of the environment, including ground water quality.

§ 270.16 Values and payment for losses.

The Supervisor shall determine the value of production accruing to the lessor where there is loss through waste or failure to drill and produce protection wells on the lease, and the compensation due to the lessor as reimbursement for such loss. Payment for such losses will be paid when billed.

§ 270.17 Suspension of operations and production.

(a) On receipt of an application filed in accordance with 43 CFR 3205.3–8 for suspension of operations or production, or both, under a producing geothermal lease (or for relief from any drilling or producing requirements of such a lease), the Supervisor may, if he deems the suspension or relief warranted, approve the application.

(b) In the interest of conservation, the Supervisor may, on his own motion, suspend operations or production, or both, on any geothermal lease.

(c) Where operations or production, or both, under a lease, have been suspended, the Supervisor may approve resumption of operations or production either on his own motion or upon written request by the lessee or his agent.

(d) Whenever it appears from facts adduced by or furnished to the Supervisor that the interest of the lessor requires additional drilling or producing operations, he may, by written notice, order the beginning or resumption of such operations.

(e) Any action of the Supervisor under this Section shall be subject to the right of appeal under § 270.90.

(f) See 43 CFR 3205.3–7 and 3205.3–8 for regulations concerning requests to waive, suspend, or reduce payments of rental or royalty, and extensions of leases on which operations or production have been suspended.

REQUIREMENTS FOR LESSEES (INCLUDING OPERATORS)

§ 270.30 Lease terms, regulations, waste, damage, and safety.

(a) The lessee shall comply with the lease terms, lease stipulations, applicable laws and regulations and any amendments thereof, GRO orders, and other written or oral orders of the Supervisor. All oral orders (to be confirmed in writing as provided in § 270.11) are effective when issued unless otherwise specified.

(b) The lessee shall take all reasonable precautions to prevent: (1) Waste; (2) damage to any natural resource including trees and other vegetation, fish and wildlife and their habitat; (3) injury or damage to persons, real or personal property; and (4) any environmental pollution or damage.

(c) Any significant effect on the environment created by the lessee's operations or failure to comply with environmental standards shall be reported to the Supervisor within 24 hours and confirmed in writing within 30 days.

§ 270.31 Designation of operator or agent.

In all cases where operations are not conducted by the lessee but are to be conducted under authority of an unapproved operating agreement, assignment or other arrangement, a "designation of operator" shall be submitted to the Supervisor, in a manner and form approved by him, prior to commencement of operations. Such a designation will be accepted as authority of the operator or his local representative to act for the lessee and to sign any papers or reports required under the regulations in this part. All changes of address and any termination of the authority of the operator shall be immediately reported, in writing, to the Supervisor.

§ 270.32 Local agent.

When required by the Supervisor, the lessee shall designate a local representative empowered to receive notices and comply with orders of the Supervisor issued pursuant to the regulations in this part.

§ 270.33 Drilling and producing obligations.

(a) The lessee shall diligently drill and produce such wells as are necessary to protect the lessor from loss by reason of production on other properties, or in lieu thereof, with the consent of the Supervisor, shall pay a sum determined by the Supervisor as adequate to compensate the lessor for failure to drill and produce any such well.

(b) The lessee shall promptly drill and produce such other wells as the Supervisor may require in order that the lease be developed and produced in accordance with good operating practices. (See 43 CFR 3204.5.)

§ 270.34 Plan of operation.

Prior to commencing any operations on the leased lands or on any lands covered by a unit or cooperative agreement, the lessee shall submit and obtain the approval of the Supervisor and the ap-

V 38 I 140 L
JUL 23 73
XUM

propriate land management agency of a plan of operation for the area. Such plan shall include:

(a) The proposed location of each well including a layout showing the position of the mud tanks, reserve pits, cooling towers, pipe racks, etc.;

(b) Existing and planned access and lateral roads;

(c) Location and source of water supply and road building material;

(d) Location of camp sites, air-strips, and other supporting facilities;

(e) Methods for disposing of waste material; and for protection of the environment;

(f) All pertinent information or data which the Supervisor may require to support the plan of operations for the utilization of geothermal resources and the protection of the environment.

(g) Provisions for monitoring deemed necessary by the Supervisor to ensure compliance with these regulations for the operations under the plan; and

(h) A requirement for the collection of data concerning the existing air and water quality, noise, seismic and land subsidence activities, and ecological system of the leased lands for at least one year prior to the submission of a plan for production.

§ 270.35 Subsequent well operations.

After completion of all operations authorized under any previously approved notice or plan, the lessee shall not begin to redrill, repair, deepen, plug back, shoot, or plug and abandon any well, make casing tests, alter the casing or liner, stimulate production, change the method of recovering production, or use any formation or well for brine or fluid injection until he has submitted to the Supervisor in writing a new plan of operations and has received written approval from him. However, in an emergency a lessee may take action to prevent damage without receiving prior approval from the Supervisor, but in such cases the lessee shall report his action to the Supervisor as soon as possible.

§ 270.36 Well designations.

The lessee shall mark each derrick upon commencement of drilling operations and each producing or suspended well in a conspicuous place with his name or the name of the operator, the serial number of the lease, the number and location of the well. Whenever possible, the well location shall be described by section or tract, township, range, and by quarter-quarter section or lot. The lessee shall take all necessary means and precautions to preserve these markings.

§ 270.37 Well records.

(a) The lessee shall keep for each well at his field headquarters or at other locations conveniently available to the Supervisor, accurate and complete records of all well operations including production, drilling, logging, directional well surveys, casing, perforation, safety devices, redrilling, deepening, repairing, cementing, alterations to casing, plugging, and abandoning. The records shall contain a description of any unusual malfunction, condition or problem; all the formations penetrated; the content and character of mineral deposits and water in each formation; thermal gradients, temperatures, pressures, analyses of geothermal waters, the kind, weight, size, grade, and setting depth of casing; and any other pertinent information.

(b) The lessee shall, within 30 days after completion of any well, transmit to the Supervisor copies of the records of all operations in a form prescribed by the Supervisor.

(c) Upon request of the Supervisor, the lessee will furnish (1) legible, exact copies of service company reports on cementing, perforating, acidizing, analyses of cores, electrical, and temperature logs, chemical analyses of steam and waters, or other similar services; (2) other reports and records of operations in the manner and form prescribed by the Supervisor.

§ 270.38 Samples, tests, and surveys.

(a) The lessee, when required by the Supervisor, will make adequate sampling, tests and/or surveys using acceptable techniques, to determine the presence, quantity, quality, and potential of geothermal resources, mineral deposits, or water; the amount and direction of deviation of any well from the vertical; and/or formation temperatures and pressures, casing, tubing, or other pressures and such other facts as the Supervisor may require. Such tests or surveys shall be made without cost to the lessor.

(b) The lessee shall, without cost to the lessor, take such formation samples or cores to determine the identity and character of any formation as are required and prescribed by the Supervisor.

§ 270.39 Directional survey.

The Supervisor may require an angular deviation and directional survey to be made of the finished hole of each directionally drilled well. The survey shall be made at the risk and expense of the lessee unless requested by an offset lessee, and then, at the risk and expense of the offset lessee. A copy of the survey shall be furnished the Supervisor.

§ 270.40 Well control.

The lessee or operator shall: (a) Take all necessary precautions to keep all wells under control at all times; (b) utilize trained and competent personnel; (c) utilize properly maintained equipment and materials; and (d) use operating practices which insure the safety of life and property. The selection of the types and weights of drilling fluids and provisions for controlling fluid temperatures, blowout preventers, and other surface control equipment and materials, casing and cementing programs, etc., to be used shall be based on sound engineering principles and shall take into account apparent geothermal gradients, depths and pressures of the various formations to be penetrated and other pertinent geologic and engineering data and information about the area.

§ 270.41 Pollution.

The lessee shall comply with all Federal and State standards with respect to the control of all forms of air, land, water, and noise pollution, including, but not limited to, the control of erosion and the disposal of liquid, solid, and gaseous wastes. The Supervisor may, in his discretion, establish additional and more stringent standards, and, if he does so, the lessee shall comply with those standards. Plans for disposal of well effluents must take into account effects on surface and subsurface waters, plants, fish and wildlife and their habitats, atmosphere, or any other effects which may cause or contribute to pollution, and such plans must be approved by the Supervisor before action is taken under them.

§ 270.42 Noise abatement.

The lessee shall minimize noise during exploration, development and production activities. Welfare of the operating personnel and the public must not be affected as a consequence of the noise created by the expanding gases. The method and degree of noise abatement shall be as approved by the Supervisor.

§ 270.43 Land subsidence and seismic activity.

In the event subsidence or seismic activity results from the production of geothermal resources, as determined by monitoring activities by the lessee or a government body, the lessee shall take such action as required by the lease or by the Supervisor.

§ 270.44 Pits and sumps.

The lessee shall provide and use pits and sumps of adequate capacity and design to retain all materials and fluids necessary to drilling, production, or other operations unless otherwise specified by the Supervisor. In no event shall the contents of a pit or sump be allowed to: (a) Contaminate streams, artificial canals or waterways, ground waters, lakes or rivers; (b) adversely affect environment, persons, plants, fish and wildlife and their habitats; or (c) damage the aesthetic values of the property or adjacent properties. When no longer needed, pits and sumps are to be filled and covered and the premises restored to a near natural state, as prescribed by the Supervisor.

§ 270.45 Well abandonment.

The lessee shall promptly plug and abandon any well on the leased land that is not used or useful. No well shall be abandoned until its lack of capacity for further profitable production of geothermal resources has been demonstrated to the satisfaction of the Supervisor. Before abandoning a producible well, the lessee shall submit to the Supervisor a statement of reasons for abandonment and his detailed plans for carrying on the necessary work. The detailed plans shall provide for the preservation of fresh water aquifers and for the prevention of intrusion into such aquifers of saline or polluted waters. A producible well may be abandoned only after receipt of written approval by the Supervisor. No well shall be plugged and abandoned until the manner and method of plugging have been approved or prescribed by the Supervisor. Equipment shall be removed, and premises at the well site shall be restored as near as reasonably possible to its original condition immediately after plugging operations are completed on any well except as otherwise authorized by the Supervisor. Drilling equipment shall not be removed from any suspended drilling well without taking adequate measures to close the well and protect the subsurface resources.

§ 270.46 Accidents.

The lessee shall take all reasonable precautions to prevent accidents and shall notify the Supervisor within 24 hours of all accidents on the leased land, and shall submit a full report thereon within 15 days.

§ 270.47 Workmanlike operations.

The lessee shall carry on all operations and maintain the property at all times in a workmanlike manner, having due regard for the conservation of the property and the environment and for the health and safety of employees. The lessee shall remove from the property or store, in an orderly manner, all scrap or other materials not in use.

§ 270.48 Departure from orders.

The Supervisor may prescribe or approve either in writing or orally, with prompt written confirmation, variances from the requirements of GRO orders and other orders issued pursuant to these regulations, when such variances are necessary for the proper control of a well, conservation of natural resources, protection of human health and safety, property, or the environment. The Supervisor shall inform other Federal and State agencies, as appropriate, of any action taken under this section.

§ 270.49 Sales contracts.

The lessee shall file with the Supervisor within 30 days after the effective date of the sales contract a copy of any contract for the disposal of geothermal resources from the lease.

§ 270.50 Royalty payments.

The lessee shall pay all royalties as due under the terms of the lease. Payments of royalties are due not later than the last day of the month following the month in which the resource is sold or utilized, and shall be by check, bank draft, or money order, drawn to the order of the United States Geological Survey.

MEASUREMENT OF PRODUCTION AND COMPUTATION OF ROYALTIES

§ 270.60 Measurement of geothermal resources.

The lessee shall measure or gauge all production in accordance with methods approved by the Supervisor. The quantity and quality of all production shall be determined in accordance with the standard practices, procedures, and specifications generally used in industry. All measuring equipment shall be tested periodically and, if found defective, the Supervisor will determine the quantity and quality of production from the best evidence available.

§ 270.61 Determination of content of byproducts.

The lessee shall periodically furnish the Supervisor the results of periodic tests showing the content of byproducts in the produced geothermal fluid and gases. Such tests shall be taken as specified by the Supervisor and by the method of testing approved by him.

§ 270.62 Value of geothermal production for computing royalties.

(a) The value of geothermal production from the leased premises for the purpose of computing royalties shall be the reasonable value of the energy and the byproducts attributable to the lease as determined by the Supervisor. In determining the reasonable value of the energy and the byproducts the Supervisor shall consider:

(1) The highest price paid for a majority of the production of like quality in the same field or area;

(2) The total consideration accruing to the lessee from any disposition of the geothermal production;

(3) The value of the geothermal production used by the lessee;

(4) The value and cost of alternate available energy sources and byproducts;

(5) The cost of exploration and production, exclusive of taxes;

(6) The economic value of the resource in terms of its ultimate utilization;

(7) Production agreements between producer and purchaser; and

(8) Any other matters which he may consider relevant.

(b) Under no circumstances shall the value of any geothermal production for the purposes of computing royalties be less than:

(1) The total consideration accruing to the lessee from the sale thereof in cases where geothermal resources are sold by the lessee to another party;

(2) That amount which is the value of the end product attributable to the geothermal resource produced from a particular lease where geothermal resources are not sold by the lessee before being utilized, but are instead directly used in manufacturing, power production, or other industrial activity; or

(3) When a part of the resource only is utilized by the lessee and the remainder sold, the sum of the value of the end product attributable to the geothermal resource and the sales price received for the geothermal resources

§ 270.63 Computation of royalties.

(a) The value of geothermal production from a particular lease as determined pursuant to § 270.62 hereof, shall be apportioned between geothermal steam, heat, and other forms of energy and the byproducts.

(b) The royalties payable shall be the sum of (1) the amount resulting from the multiplication of the value attributable to the geothermal steam, heat, and other forms of energy by the royalty rate set for such forms of geothermal energy in the lease and (2) the amount resulting from the multiplication of the value attributable to byproducts by the royalty rate for byproducts set in the lease.

§ 270.64 Commingling production.

The supervisor may authorize a lessee to commingle production from wells on his lease with production from other leases held by him or by other lessees subjects to such conditions as he may prescribe.

REPORTS TO BE MADE BY ALL LESSEES (INCLUDING OPERATORS)

§ 270.70 General requirements.

Information required to be submitted in accordance with the regulations in this part shall be furnished as directed by the Supervisor. Copies of forms can be obtained from the Supervisor and must be filed with that official within the time limit prescribed.

§ 270.71 Application for permit to drill, redrill, deepen, or plug-back.

(a) A permit to drill, redrill, deepen, or plug-back a well on Federal lands must be obtained from the Supervisor before the work is begun. The application for the permit, which shall be filed in triplicate with the Supervisor, shall state the location of the well in feet, and direction from the nearest section or tract lines as shown on the official plat of survey or protracted surveys; the altitude of the ground and derrick floor above sea level and how it was determined, and should be accompanied by a proposed plan of operations as required by these regulations.

(b) The proposed drilling and casing plan shall be outlined in detail under the heading "Details of Work" in the applications referred to herein, and shall describe the type of tools and equipment to be used, the proposed depth to which the well will be drilled, the estimated depths to the top of important markers, the estimated depths at which water, geothermal resources, or other mineral resources are expected, the proposed casing program (including the size and weight of casing), the depth at which each string is to be set, and the amount of cement and mud to be used, the drilling method and type of circulating media (water, mud, foam, air or combinations thereof), the type of blowout prevention equipment to be used, the proposed coring, logging, or other program (such as drilling time log and sample description) to be used to determine the formations penetrated and the proposed program for determining geothermal gradients and the sampling and analysis of geothermal resources.

(c) Each application shall be accompanied by a plat showing the surface and expected bottomhole locations and

V 38 140 JUL 23 73 XUM

the distances from the nearest section or tract lines as shown on the official plat of survey or protracted surveys. The scale shall not be less than 2,000 feet to 1 inch.

(d) Each application should be accompanied by supporting structural and hydrologic information based on available geologic and geophysical data.

§ 270.72 Sundry notices and reports on wells.

(a) Any written notice of intention to do work or to change plans previously approved must be filed with the Supervisor in triplicate, unless otherwise directed, and must be approved by him before the work is begun. If, in case of emergency, any notice is given orally or by wire, and approval is obtained, the transaction shall be confirmed in writing. A subsequent report of the work performed must also be filed with the Supervisor.

(b) Casing test: Notice shall be given in advance to the Supervisor or his representative of the date and time when the operator expects to make a casing test. Later, by agreement, the exact time shall be fixed. In the event of casing failure during the test, the casing must be repaired or replaced or recemented as required by the Supervisor or his representative. The results of the test must be reported within 30 days after making a casing test. The report must describe the test completely and state the amount of mud and cement used, the lapse of time between running and cementing the casing and making the test, and the method of testing.

(c) Repairs or conditioning of well: Before the repairing or conditioning of a well, a notice setting forth in detail the plan of work must be filed with, and approved by, the Supervisor. A detailed report of the work accomplished and the methods employed, including all dates, and the results of such work must be filed within 30 days after completion of the repair work.

(d) Well stimulation: Before the lessee commences stimulation of a well by any means, a notice, setting forth in detail the plan of work, must be filed with and approved by the Supervisor. The notice shall name the type of stimulant and the amount to be used. A report showing the amount of stimulant used and the production rate before and after stimulation must be filed within 30 days from completion of the work.

(e) Altering casing in a well: Notice of intention to run a liner or to alter the casing by pulling or perforating by any means must be filed with and approved by the Supervisor before the work is started. This notice shall set forth in detail the plan of work. A report must be filed within 30 days after completion of the work stating exactly what was done and the results obtained.

(f) Notice of intention to abandon well: Before abandonment work is begun on any well, whether a drilling well, geothermal resources well, water well, or so-called dry hole, notice of intention to abandon shall be filed with, and approved by, the Supervisor. The notice must be accompanied by a complete log, in duplicate, of the well to date, provided the complete log has not been filed previously, and must give a detailed statement of the proposed work, including such information as kind, location, and length of plugs (by depths), plans for mudding, cementing, shooting, testing, and removing casing, and any other pertinent information.

(g) Subsequent report of abandonment: After a well is abandoned or plugged, a subsequent record of work done must be filed with the Supervisor. This report shall be filed separately within 30 days after the work is done. The report shall give a detailed account of the manner in which the abandonment or plugging work was carried out, including the nature and quantities of materials used in plugging and the location and extent (by depths) of the plugs of different materials; records of any tests or measurements made, and of the amount, size, and location (by depths) of casing left in the well; and a detailed statement of the volume of mud fluid used, and the pressure attained in mudding. If an attempt was made to part any casing, a complete report of the methods used and results obtained must be included.

§ 270.73 Log and history of well.

The lessee shall furnish in duplicate to the Supervisor, not later than 30 days after the completion of each well, a complete and accurate log and history, in chronological order, of all operations conducted on the well. A log shall be compiled for geologic information from cores or formations samples and duplicate copies of such log shall be filed. Duplicate copies of all electric logs, temperature surveys, water and steam analyses, hydrologic or heat flow tests, or direction surveys, if run, shall be furnished.

§ 270.74 Monthly report of operations.

A report of operations for each lease must be made for each calendar month, beginning with the month in which drilling operations are initiated. The report must be filed in duplicate with the Supervisor on or before the last day of the month following the month for which the report is filed unless an extension of time for the filing of the report is granted by the Supervisor. The report shall disclose accurately all operations conducted on each well during the month, the status of operations on the last day of the month, and a general summary of the status of operations on the leased lands. The report must be submitted each month until the lease is terminated or until omission of the report is authorized by the Supervisor. The report shall show for each calendar month:

(a) The lease serial number or the unit or communitization agreement number which shall be inserted in the upper right corner;

(b) Each well listed separately by number, and its location by 40-acre subdivision (quarter-quarter section or lot), section number, township, range, and meridian;

(c) The number of days each well was produced, whether steam or hot water or both were produced, and the number of days each input well was in operation, if any;

(d) The quantity of production and any byproducts obtained from each well, if any are recovered;

(e) The depth of each active or suspended well, and the name, character, and depth of each formation drilled during the month, the date and reason for every shutdown, the names and depths of important formation changes, the amount and size of any casing run since the last report, the dates and results of any tests or environmental monitoring conducted, and any other noteworthy information on operations not specifically provided for in the form.

(f) The footnote must be completely filled out as required by the Supervisor. If no sales were made during the calendar month, the report must so state.

§ 270.75 Monthly report of sales and royalty.

A report of sales and royalty for each productive lease must be filed each month once sales of production are made even though sales may be intermittent, unless otherwise authorized by the Supervisor. Total volumes of geothermal resources produced and sold, the value of production, and the royalty due the lessor must be shown. If byproducts are being recovered, the same requirement shall be applicable. This report is due on or before the last day of the month following the month in which production was obtained and sold or utilized, together with the royalties due the United States. Payment or royalty is to be made pursuant to § 270.50 unless otherwise authorized by the Supervisor.

§ 270.76 Annual report of compliance with environmental protection requirements.

The lessee shall submit annually a report giving a full account of the actions taken to comply with the appropriate Federal and State regulations or requirements of the Supervisor pertaining to the protection of the surface and subsurface environment. This report shall include but is not limited to such matters as:

(a) Noise abatement;
(b) Water quality;
(c) Air quality;
(d) Erosion control;
(e) Subsidence and seismic activity;
(f) Rehabilitation activities;
(g) Waste disposal; and
(h) Environmental effects on flora and fauna.

§ 270.77 Annual report of expenditures for diligent exploration operations.

A report of expenditures for exploration operations conducted during a lease year must be submitted annually to the Supervisor in order that such expenditures may be considered for qualification as diligent exploration pursuant to 43 CFR 3203.5.

§ 270.78 Forms or reports.

When forms or reports other than those referred to in the regulations in this part may be necessary, instructions for the filing of such forms or reports will be given by the Supervisor.

§ 270.79 Public inspection of records.

Geologic and geophysical interpretations, maps, and data required to be submitted under this part shall not be available for public inspection without the consent of the lessee so long as the lease remains in effect.

PROCEDURE IN CASE OF VIOLATION OF THE REGULATIONS OR LEASE TERMS

§ 270.80 Noncompliance with regulations or lease terms.

Whenever a lessee or anyone acting under his authority fails to comply with the provisions of the regulations or lease terms, the Supervisor shall give the lessee notice to remedy any defaults or violations. The Supervisor is authorized to shut down any operations which he determines are unsafe or are causing or can cause pollution. Failure by the lessee to perform or commence the necessary remedial action pursuant to the notice will result in a shut down of operations and may result in referral of the matter to the authorized officer of the Bureau of Land Management for action pursuant to 43 CFR 3245.3.

APPEALS

§ 270.90 Appeals.

(a) Any party to a case adversely affected by a final order or decision of an officer of the Conservation Division of the Geological Survey shall have a right to appeal to the Director, unless the order or decision was approved by the Secretary or the Director prior to promulgation.

(b) An appeal to the Director may be taken by filing a notice of appeal in the office of the official who issued the order or decision within 30 days from service of the order or decision. The notice of appeal shall incorporate, or be accompanied by, such written showing and argument on the facts and the law as the appellant may deem adequate to justify reversal or modification of the order or decision. Within the same 30-day period, the appellant will be permitted to file in the office of the officer who issued the order or decision additional statements of reasons and written arguments or briefs. The officer with whom the appeal is filed shall transmit the appeal and accompanying papers to the Director with a full report and his recommendation on the appeal. The Director will review the record and render a decision in the case.

(c) Oral argument in any case pending before the Director will be allowed on motion in the discretion of such officer and at a time to be fixed by him.

(d) With the exception of the time fixed for filing a notice of appeal, the time for filing any document in connection with an appeal may be extended by the Director. A request for an extension of time must be filed within the time allowed for filing of the document and must be filed in the same office in which the document in connection with which the extension is requested must be filed.

(e) Any party to a case adversely affected by a decision of the Director under this part shall have a right of appeal to the Board of Land Appeals in the Office of Hearings and Appeals, Office of the Secretary, in accordance with the procedures provided in 43 CFR Part 4, Department Hearings and Appeals Procedures.

PART 271—GEOTHERMAL RESOURCES UNIT PLAN REGULATIONS (INCLUDING SUGGESTED FORMS)

GENERAL PROVISIONS

Sec.
271.1 Introduction.
271.2 Definitions.
271.3 Designation of area.
271.4 Preliminary consideration of agreements.
271.5 State land.
271.6 Qualifications of unit operator.
271.7 Parties to unit or cooperative agreements.
271.8 Approval of an executed unit or cooperative agreement.
271.9 Filing of papers and number of counterparts.
271.10 Bonds.
271.11 Appeals.
271.12 Form of unit agreement for unproved areas.
271.13 Sample form of Exhibit A of unit agreement.
271.14 Sample form of Exhibit B of unit agreement.
271.15 Form of collective bond.
271.16 Form of designation of successor unit operator by working interest owners.
271.17 Form of change in unit operator by assignment.

AUTHORITY: The provisions of this Part 271 issued under section 18 of the Geothermal Steam Act of 1970 (84 Stat. 1566) (see 43 CFR Subpart 3244).

§ 271.1 Introduction.

The regulations in this part prescribe the procedure to be followed and the requirements to be met by holders of Federal geothermal leases (see § 271.2d) and their representatives who wish to unite with each other, or jointly or separately with others, in collectively adopting and operating under a cooperative or unit plan for the development of any geothermal resources pool, field, or like area, or any part thereof. Such agreements may be initiated by lessees, or where in the interest of conserving natural resources they are deemed necessary they may be required by the Director.

§ 271.2 Definitions.

The following terms, as used in this part or in any agreement approved under the regulations in this part, shall have the meanings here indicated unless otherwise defined in such agreement:

(a) *Unit agreement.* An agreement or plan of development and operation for the production and utilization of separately owned interests in the geothermal resources made subject thereto as a single consolidated unit without regard to separate ownerships and which provides for the allocation of costs and benefits on a basis defined in the agreement or plan.

(b) *Cooperative agreement.* An agreement or plan of development and operations for the production and utilization of geothermal resources made subject thereto in which separate ownership units are independently operated without allocation of production.

(c) *Agreement.* For convenience, the term "agreement" as used in the regulations in this part refers to either a unit or a cooperative agreement as defined in paragraphs (a) and (b) of this section unless otherwise indicated.

(d *Geothermal lease.* A lease issued under the act of December 24, 1970 (84 Stat. 1566), pursuant to the leasing regulations contained in 43 CFR Part 3200, and, unless the context indicates otherwise, "lease" means a geothermal lease.

(e) *Unit area.* The area described in a unit agreement as constituting the land logically subject to development under such agreement.

(f) *Unitized land.* The part of a unit area committed to a unit agreement.

(g) *Unitized substances.* Deposits of geothermal resources recovered from unitized land by operation under and pursuant to a unit agreement.

(h) *Unit operator.* The person, association, partnership, corporation, or other business entity designated under a unit agreement to conduct operations on unitized land as specified in such agreement.

(i) *Participating area.* That part of the Unit Area which is deemed to be productive from a horizon or deposit and to which production would be allocated in the manner described in the unit agreement assuming that all lands are committed to the unit agreement.

(j) *Working interest.* The interest held in geothermal resources or in lands containing the same by virtue of a lease, operating agreement, fee title, or otherwise, under which, except as otherwise provided in a unit or cooperative agreement, the owner of such interest is vested with the right to explore for, develop, produce, and utilize such resources. The right delegated to the unit operator as such by the unit agreement is not to be regarded as a working interest.

(k) *Secretary.* The Secretary of the Interior or any person duly authorized to exercise powers vested in that officer.

(l) *Director.* The Director of the U.S. Geological Survey.

(m) *Supervisor.* A representative of the Secretary, subject to the direction and supervisory authority of the Director, the Chief, Conservation Division, Geological Survey, and the appropriate Regional Conservation Manager, Conservation Division, Geological Survey, authorized and empowered to regulate operations and to perform other duties prescribed in the regulations in this part or any subordinate of such representative acting under his direction.

§ 271.3 Designation of area.

An application for designation of an area as logically subject to development

V 38 1140 JUL 23 73 XUM

and/or operation under a unit or cooperative agreement may be filed, in triplicate, by any proponent of such an agreement through the Supervisor. Each copy of the application shall be accompanied by a map or diagram on a scale of not less than 1 inch to 1 mile, outlining the area sought to be designated under this section. The Federal, State, and privately owned land should be indicated on said map by distinctive symbols or colors and Federal geothermal leases and lease applications should be identified by serial number. Geological information, including the results of geophysical surveys, and such other information as may tend to show that unitization is necessary and advisable in the public interest should be furnished in triplicate. Geological and geophysical information and data so furnished will not be available for public inspection, as provided by 5 U.S.C. section 552(b), without the consent of the proponent. The application and supporting data will be considered by the Director and the applicant will be informed of the decision reached. The designation of an area, pursuant to an application filed under this section, shall not create an exclusive right to submit an executed agreement for such area, nor preclude the inclusion of such area or any part thereof in another unit area.

§ 271.4 Preliminary consideration of agreements.

The form of unit agreement set forth in § 271.12 is acceptable for use in unproved areas. The use of this form is not mandatory, but any proposed departure therefrom should be submitted with the application submitted under § 271.3 for preliminary consideration and for such revision as may be deemed necessary. In areas proposed for unitization in which a discovery of geothermal resources has been made, or where a cooperative agreement is contemplated, the proposed agreement should be submitted with the application submitted under § 271.3 for preliminary consideration and for such revision as may be deemed necessary. The proposed form of agreement should be submitted in triplicate and should be plainly marked to identify the proposed variances from the form of agreement set forth in § 271.12.

§ 271.5 State land.

Where State-owned land is to be included in the unit, approval of the agreement by appropriate State officials should be obtained prior to its submission to the Department for approval of the executed agreement. When authorized by the laws of the State in which the unitized land is situated, provisions may be made in the agreement accepting State law, to the extent that they are applicable to non-Federal unitized land.

§ 271.6 Qualifications of unit operator.

A unit operator must qualify as to citizenship in the same manner as those holding interests in geothermal leases issued under the Geothermal Steam Act of 1970. The unit operator may be an owner of a working interest in the unit area or such other party as may be selected by the owners of working interests and approved by the Supervisor. The unit operator shall execute an acceptance of the duties and obligations imposed by the agreement. No designation of, or change in, a unit operator will become effective unless and until approved by the Supervisor, and no such approval will be granted unless the unit operator is deemed qualified to fulfill the duties and obligations prescribed in the agreement.

§ 271.7 Parties to unit or cooperative agreement.

The owners of any rights, title, or interest in the geothermal resources deposits to be developed and operated under an agreement can be regarded as proper parties to a proposed agreement. All such owners must be invited to join as parties to the agreement. If any owner fails or refuses to join the agreement, the proponent of the agreement should declare this to the Supervisor and should submit evidence of efforts made to obtain joinder of such owner and the reasons for nonjoinder.

§ 271.8 Approval of an executed unit or cooperative agreement.

(a) A duly executed unit or cooperative agreement will be approved by the Secretary, or his duly authorized representative, upon a determination that such agreement is necessary or advisable in the public interest and is for the purpose of properly conserving the natural resources. Taking into account the environmental consequences of the action. Such approval will be incorporated in a certificate appended to the agreement. No such agreement will be approved unless at least one of the parties is a holder of a Federal lease embracing lands being committed to the agreement and unless the parties signatory to the agreement hold sufficient interests in the area to give effective control of operations therein.

(b) Where a duly executed agreement is submitted for Departmental approval, a minimum of six signed counterparts should be filed. The same number of counterparts should be filed for documents supplementing, modifying, or amending an agreement, including change of operator, designation of new operator, and notice of surrender, relinquishment, or termination.

(c) The address of each signatory party to the agreement should be inserted below the party's signature. Each signature should be attested by at least one witness, if not notarized. Corporate or other signatures made in a representative capacity must be accompanied by evidence of the authority of the signatories to act unless such evidence is already a matter of record in the United States Geological Survey. (The parties may execute any number of counterparts of the agreement with the same force and effect as if all parties signed the same document, or may execute a ratification or consent in a separate instrument with like force and effect.).

(d) Any modification of an approved agreement will require approval of the Secretary or his duly authorized representative under procedures similar to those cited in paragraph (a) of this section.

§ 271.9 Filing of papers and number of counterparts.

(a) All proposals and supporting papers, instruments, and documents submitted under this part should be filed with the Supervisor, unless otherwise provided in this part or otherwise instructed by the Director.

(b) Plans of development and operation, plans of further development and operation, and proposed participating areas and revisions thereof should be submitted in quadruplicate.

(c) Each application for approval of a participating area, or revision thereof, should be accompanied by three copies of a substantiating geologic and engineering report, structure contour map or maps, cross-section or other pertinent data.

(d) Other instruments or documents submitted for approval should be submitted for approval in sufficient number to permit the approving official to return at least one approved counterpart.

§ 271.10 Bonds.

In lieu of separate bonds required for each Federal lease committed to a unit agreement, the unit operator may furnish and maintain a collective corporate surety bond or a personal bond conditioned upon faithful performance of the duties and obligations of the agreement and the terms of the leases subject thereto. Personal bonds shall be accompanied by a deposit of negotiable Federal securities in a sum equal at their par value to the amount of the bond and by a proper conveyance to the Secretary of full authority to sell such securities in case of default in the performance of the obligations assumed. The liability under the bond shall be for such amount as the Supervisor shall determine to be adequate to protect the interests of the United States. Additional bond coverage may be required whenever deemed necessary by the Supervisor. The bond must be filed with and accepted by the Bureau of Land Management before operations will be approved. A form of corporate surety bond is set forth in § 271.15. In case of changes of unit operator, a new bond must be filed or a consent of surety to the change in principal under the existing bond must be furnished.

§ 271.11 Appeals.

Appeals may be taken in the manner provided in § 270.90 of this chapter from any decision or order issued under the regulations in this part, unless such decision or order was approved by the Secretary prior to promulgation.

§ 271.12 Form of unit agreement for unproved areas.

_____ UNIT AGREEMENT
_____ COUNTY _____

This Agreement entered into as of the _____ day of _____, 19__, by and between the parties subscribing, ratifying, or consenting hereto, and herein referred to as the "parties hereto".

WITNESSETH: Whereas the parties hereto are the owners of working, royalty, or other geothermal resources interests in land subject to this Agreement; and

Whereas the Geothermal Steam Act of 1970 (84 Stat. 1566), hereinafter referred to as the "Act", authorizes Federal lessees and their representatives to unite with each other, or jointly or separately with others, in collectively adopting and operating under a cooperative or unit plan of development or operation of any geothermal resources pool, field, or like area, or any part thereof, for the purpose of more properly conserving the natural resources thereof, whenever determined and certified by the Secretary of the Interior to be necessary or advisable in the public interest; and

Whereas the parties hereto hold sufficient interest in the _____ Unit Area covering the land herein described to effectively control operations therein; and

Whereas, it is the purpose of the parties hereto to conserve natural resources, prevent waste, and secure other benefits obtainable through development and operations of the area subject to this Agreement under the terms, conditions, and limitations herein set forth;

Now, therefore, in consideration of the premises and the promises herein contained, the parties hereto commit to this agreement their respective interests in the below-defined Unit Area, and agree severally among themselves as follows:

ARTICLE I—ENABLING ACT AND REGULATIONS

1.1 The Act and all valid pertinent regulations, including operating and unit plan regulations, heretofore or hereafter issued thereunder are accepted and made a part of this agreement as to Federal lands.

1.2 As to non-Federal lands, the geothermal resources operating regulations in effect as of the effective date hereof governing drilling and producing operations, not inconsistent with the laws of the State in which the non-Federal land is located, are hereby accepted and made a part of this agreement.

ARTICLE II—DEFINITIONS

2.1 The following terms shall have the meanings here indicated:

(a) *Geothermal lease.* A lease issued under the act of December 24, 1970 (84 Stat. 1566), pursuant to the leasing regulations contained in 43 CFR Group 3200 and, unless the context indicates otherwise, "lease" shall mean a geothermal lease.

(b) *Unit area.* The area described in Article III of this Agreement.

(c) *Unit Operator.* The person, association, partnership, corporation, or other business entity designated under this Agreement to conduct operations on Unitized Land as specified herein.

(d) *Participating area.* That part of the Unit Area which is deemed to be productive from a horizon or deposit and to which production would be allocated in the manner described in the unit agreement assuming that all lands are committed to the unit agreement.

(e) *Working interest.* The interest held in geothermal resources or in lands containing the same by virtue of a lease, operating agreement, fee title, or otherwise, under which, except as otherwise provided in this Agreement, the owner of such interest is vested with the right to explore for, develop, produce and utilize such resources. The right delegated to the Unit Operator as such by this Agreement is not to be regarded as a Working Interest.

(f) *Secretary.* The Secretary of the Interior or any person duly authorized to exercise powers vested in that officer.

(g) *Director.* The Director of the U.S. Geological Survey.

(h) *Supervisor.* A representative of the Secretary, subject to the direction and supervisory authority of the Director, the Chief, Conservation Division, Geological Survey, and the appropriate Regional Conservation Manager, Conservation Division, Geological Survey, authorized and empowered to regulate operations and to perform other duties prescribed in the regulations in this part or any subordinate of such representative acting under his direction.

ARTICLE III—UNIT AREA AND EXHIBITS

3.1 The area specified on the map attached hereto marked "Exhibit A" is hereby designated and recognized as constituting the Unit Area, containing _____ acres, more or less.

The above-described Unit Area shall when practicable be expanded to include therein any additional lands or shall be contracted to exclude lands whenever such expansion or contraction is deemed to be necessary or advisable to conform with the purposes of this Agreement.

3.2 Exhibit A attached hereto and made a part hereof is a map showing the boundary of the Unit Area, the boundaries and identity of tracts and leases in said area to the extent known to the Unit Operator.

3.3 Exhibit B attached hereto and made a part hereof is a schedule showing to the extent known to the Unit Operator the acreage, percentage, and kind of ownership of geothermal resources interests in all lands in the Unit Area.

3.4 Exhibits A and B shall be revised by the Unit Operator whenever changes in the Unit Area render such revision necessary, or when requested by the Supervisor, and not less than five copies of the revised Exhibits shall be filed with the Supervisor.

ARTICLE IV—CONTRACTION AND EXPANSION OF UNIT AREA

4.1 Unless otherwise specified herein, the expansion and/or contraction of the Unit Area contemplated in Article 3.1 hereof shall be effected in the following manner:

(a) Unit Operator either on demand of the Director or on its own motion and after prior concurrence by the Director, shall prepare a notice of proposed expansion or contraction describing the contemplated changes in the boundaries of the Unit Area, the reasons therefore, and the proposed effective date thereof, preferably the first day of a month subsequent to the date of notice.

(b) Said notice shall be delivered to the Supervisor, and copies thereof mailed to the last known address of each Working Interest Owner, Lessee, and Lessor whose interests are affected, advising that 30 days will be allowed for submission to the Unit Operator of any objections.

(c) Upon expiration of the 30-day period provided in the preceding item (b) hereof, Unit Operator shall file with the Supervisor evidence of mailing of the notice of expansion or contraction and a copy of any objections thereto which have been filed with the Unit Operator, together with an application in sufficient number, for approval of such expansion or contraction and with appropriate joinders.

(d) After due consideration of all pertinent information, the expansion or contraction shall, upon approval by the Supervisor, become effective as of the date prescribed in the notice thereof.

4.2 Unitized Leases, insofar as they cover any lands which are excluded from the Unit Area under any of the provisions of this Article IV may be maintained and continued in force and effect in accordance with the terms, provisions, and conditions contained in the Act, and the lease or leases and amendments thereto, except that operations and/or production under this Unit Agreement shall not serve to maintain or continue the excluded portion of any lease.

4.3 All legal subdivisions of unitized lands (i.e., 40 acres by Governmental survey or its nearest lot or tract equivalent in instances of irregular surveys), no part of which is entitled to be within a Participating Area on the fifth anniversary of the effective date of the initial Participating Area established under this Agreement, shall be eliminated automatically from this Agreement effective as of said fifth anniversary and such lands shall no longer be a part of the Unit Area and shall no longer be subject to this Agreement unless diligent drilling operations are in progress on an exploratory well on said fifth anniversary, in which event such lands shall not be eliminated from the Unit Area for as long as exploratory drilling operations are continued diligently with not more than four (4) months time elapsing between the completion of one exploratory well and the commencement of the next exploratory well.

4.4 An exploratory well, for the purposes of this Article IV is defined as any well, regardless of surface location, projected for com-

V 38-140 JUL 23 73 XUM

pletion in a zone or deposit below any zone or deposit for which a Participating Area has been established and is in effect, or any well, regardless of surface location, projected for completion at a subsurface location under Unitized Lands not entitled to be within a Participating Area.

4.5 In the event an exploratory well is completed during the four (4) months immediately preceding the fifth anniversary of the initial Participating Area established under this Agreement, lands not entitled to be within a Participating Area shall not be eliminated from this Agreement on said fifth anniversary, provided the drilling of another exploratory well is commenced under an approved Plan of Operation within four (4) months after the completion of said well. In such event, the land not entitled to be in participation shall not be eliminated from the Unit Area so long as exploratory drilling operations are continued diligently with not more than four (4) months time elapsing between the completion of one exploratory well and the commencement of the next exploratory well.

4.6 With prior approval of the Supervisor, a period of time in excess of four (4) months may be allowed to elapse between the completion of one well and the commencement of the next well without the automatic elimination of nonparticipating acreage.

4.7 Unitized lands proved productive by drilling operations which serve to delay automatic elimination of lands under this Article IV shall be incorporated into a Participating Area (or Areas) in the same manner as such lands would have been incorporated in such areas had such lands been proven productive during the year preceding said fifth anniversary.

4.8 In the event nonparticipating lands are retained under this Agreement after the fifth anniversary of the initial Participating Area as a result of exploratory drilling operations, all legal subdivisions of unitized land (i.e., 40 acres by Government survey or its nearest lot or tract equivalent in instances of irregular Surveys), no part of which is entitled to be within a Participating Area shall be eliminated automatically as of the 121 day, or such later date as may be established by the Supervisor, following the completion of the last well recognized as delaying such automatic elimination beyond the fifth anniversary of the initial Participating Area established under this Agreement.

ARTICLE V—UNITIZED LAND AND UNITIZED SUBSTANCES

5.1 All land committed to this Agreement shall constitute land referred to herein as "Unitized Land". All geothermal resources in and produced from any and all formations of the Unitized Land are unitized under the terms of this agreement and herein are called "Unitized Substances."

ARTICLE VI—UNIT OPERATOR

6.1 _____ is hereby designated as Unit Operator and by signature hereto as Unit Operator agrees and consents to accept the duties and obligations of Unit Operator for the discovery, development, production, distribution and utilization of Unitized Substances as herein provided. Whenever reference is made herein to the Unit Operator, such reference means the Unit Operator acting in that capacity and not as an owner of interest in Unitized Substances, and the term "Working Interest Owner" when used herein shall include or refer to Unit Operator as the owner of a Working Interest when such an interest is owned by it.

ARTICLE VII—RESIGNATION OR REMOVAL OF UNIT OPERATOR

7.1 Prior to the establishment of a Participating Area, hereunder, Unit Operator shall have the right to resign. Such resignation shall not become effective so as to release Unit Operator from the duties and obligations of Unit Operator or terminate Unit Operators rights, as such, for a period of six (6) months after notice of its intention to resign has been served by Unit Operator on all Working Interest Owners and the Supervisor, nor until all wells then drilled hereunder are placed in a satisfactory condition for suspension or abandonment whichever is required by the Supervisor, unless a new Unit Operator shall have been selected and approved and shall have taken over and assumed the duties and obligations of Unit Operator prior to the expiration of said period.

7.2 After the establishment of a Participating Area hereunder Unit Operator shall have the right to resign in the manner and subject to the limitations provided in 7.1 above.

7.3 The Unit Operator may, upon default or failure in the performance of its duties or obligations hereunder, be subject to removal by the same percentage vote of the owners of Working Interests as herein provided for the selection of a new Unit Operator. Such removal shall be effective upon notice thereof to the Supervisor.

7.4 The resignation or removal of Unit Operator under this Agreement shall not terminate its right, title, or interest as the owner of a Working Interest or other interest in Unitized Substances, but upon the resignation or removal of Unit Operator becoming effective, such Unit Operator shall deliver possession of all wells, equipment, material, and appurtenances used in conducting the unit operations to the new duly qualified successor Unit Operator or, if no such new unit operator is elected, to the common agent appointed to represent the Working Interest Owners in any action taken hereunder to be used for the purpose of conducting operations hereunder.

7.5 In all instances of resignation or removal, until a successor Unit Operator is selected and approved as hereinafter provided, the Working Interest Owners shall be jointly responsible for performance of the duties and obligations of Unit Operator, and shall not later than 30 days before such resignation or removal becomes effective appoint a common agent to represent them in any action to be taken hereunder.

7.6 The resignation of Unit Operator shall not release Unit Operator from any liability for any default by it hereunder occurring prior to the effective date of its resignation.

ARTICLE VIII—SUCCESSOR UNIT OPERATOR

8.1 If, prior to the establishment of a Participating Area hereunder, the Unit Operator shall resign as Operator, or shall be removed as provided in Article VII, a successor Unit Operator may be selected by vote of the owners of a majority of the Working Interests in Unitized Substances, based on their respective shares, on an acreage basis, in the Unitized Land.

8.2 If, after the establishment of a Participating Area hereunder, the Unit Operator shall resign as Unit Operator, or shall be removed as provided in Article VII, a successor Unit Operator may be selected by vote of the owners of a majority of the Working Interests in Unitized Substances, based on their respective shares, on a participating acreage basis. Provided, that, if a majority but less than 60 percent of the Working Interest in the Participating Lands is owned by the party to this agreement, a concurring vote of one or more additional Working Interest Owners owning 10 percent or more of the Working Interest in the participating land shall be required to select a new Unit Operator.

8.3 The selection of a successor Unit Operator shall not become effective until

(a) The Unit Operator so selected shall accept in writing the duties, obligations and responsibilities of the Unit Operator, and

(b) The selection shall have been approved by the Supervisor.

8.4 If no successor Unit Operator is selected and qualified as herein provided, the Director at his election may declare this Agreement terminated.

ARTICLE IX—ACCOUNTING PROVISIONS AND UNIT OPERATING AGREEMENT

9.1 Costs and expenses incurred by Unit Operator in conducting unit operations hereunder shall be paid and apportioned among and borne by the owners of Working Interests; all in accordance with the agreement or agreements entered into by and between the Unit Operator and the owners of Working Interests, whether one or more, separately or collectively.

9.2 Any agreement or agreements entered into between the Working Interest Owners and the Unit Operator as provided in this Article, whether one or more, are herein referred to as the "Unit Operating Agreement".

9.3 The Unit Operating Agreement shall provide the manner in which the Working Interest Owners shall be entitled to receive their respective share of the benefits accruing hereto in conformity with their underlying operating agreements, leases, or other contracts, and such other rights and obligations, as between Unit Operator and the Working Interest Owners.

9.4 Neither the Unit Operating Agreement nor any amendment thereto shall be deemed either to modify any of the terms and conditions of this Agreement or to relieve the Unit Operator of any right or obligation established under this Agreement.

9.5 In case of any inconsistency or conflict between this Agreement and the Unit Operating Agreement, this Agreement shall govern.

9.6 Three true copies of any Unit Operating Agreement executed pursuant to this Article IX shall be filed with the Supervisor prior to approval of this Agreement.

ARTICLE X—RIGHTS AND OBLIGATIONS OF UNIT OPERATOR

10.1 The right, privilege, and duty of exercising any and all rights of the parties hereto which are necessary or convenient for prospecting, producing, distributing or utilizing Unitized Substances are hereby delegated to and shall be exercised by the Unit Operator as provided in this Agreement in accordance with a Plan of Operations approved by the Supervisor.

10.2 Upon request by Unit Operator, acceptable evidence of title to geothermal resources interests in the Unitized Land shall be deposited with the Unit Operator, and together with this Agreement shall constitute and define the rights, privileges, and obligations of Unit Operator.

10.3 Nothing in this Agreement shall be construed to transfer title to any land or to any lease or operating agreement, it being understood that the Unit Operator, in its capacity as Unit Operator shall exercise the rights of possession and use vested in the parties hereto only for the purposes specified in this Agreement.

10.4 The Unit Operator shall take such measures as the Supervisor deems appropriate and adequate to prevent drainage of Unitized Substances from Unitized Land by wells on land not subject to this Agreement.

10.5 The Director is hereby vested with authority to alter or modify from time to time, in his discretion, the rate of prospecting and development and the quantity and rate of production under this Agreement.

ARTICLE XI—PLAN OF OPERATION

11.1 Concurrently with the submission of this Agreement for approval, Unit Operator shall submit an acceptable initial Plan of Operation. Said plan shall be as complete and adequate as the Supervisor may determine to be necessary for timely exploration and/or development and to insure proper protection of the environment and conservation of the natural resources of the Unit Area.

11.2 Prior to the expiration of the initial Plan of Operation, or any subsequent Plan of Operation, Unit Operator shall submit for approval of the Supervisor an acceptable subsequent Plan of Operation for the Unit Area which, when approved by the Supervisor, shall constitute the exploratory and/or development drilling and operating obligations of Unit Operators under this Agreement for the period specified therein.

11.3 Any plan of Operation submitted hereunder shall

(a) Specify the number and locations of any wells to be drilled and the proposed order and time for such drilling, and

(b) To the extent practicable, specify the operating practices regarded as necessary and advisable for proper conservation of natural resources and protection of the environment in compliance with section 1.1.

11.4 The Plan of Operation submitted concurrently with this Agreement for approval shall prescribe that within six (6) months after the effective date hereof, the Unit Operator shall begin to drill an adequate test well at a location approved by the Supervisor, unless on such effective date a well is being drilled conformably with the terms, hereof, and thereafter continue such drilling diligently until the _____ formation has been tested or until at a lesser depth unitized substances shall be discovered which can be produced in paying quantities (i.e., quantities sufficient to repay the costs of drilling, completing, and producing operations, with a reasonable profit) or the Unit Operator shall at any time establish to the satisfaction of the Supervisor that further drilling of said well would be unwarranted or impracticable, provided, however, that Unit Operator shall not in any event be required to drill said well to a depth in excess of _____ feet.

11.5 The initial Plan of Operation and/or subsequent Plans of Operation submitted under this article shall provide that the Unit Operator shall initiate a continuous drilling program providing for drilling of no less than one well at a time, and allowing no more than six (6) months time to elapse between completion of one well and the beginning of the next well, until a well capable of producing Unitized Substances in paying quantities is completed to the satisfaction of the Supervisor or until it is reasonably proved that the Unitized Land is incapable of producing Unitized Substances in paying quantities in the formations drilled under this Agreement.

11.6 When warranted by unforeseen circumstances, the Supervisor may grant a single extension of any or all of the critical dates for exploratory drilling operations cited in the initial or subsequent Plans of Operation. No such extension shall exceed a period of four (4) months for each well, required by the initial Plan of Operation.

11.7 Until there is actual production of Unitized Substances, the failure of Unit Operator to timely drill any of the wells provided for in Plans of Operation required under this Article XI or to timely submit an acceptable subsequent Plan of Operations, shall, after notice of default or notice of prospective default to Unit Operator by the Supervisor and after failure of Unit Operator to remedy any actual default within a reasonable time (as determined by the Supervisor), result in automatic termination of this Agreement effective as of the date of the default, as determined by the Supervisor.

11.8 Separate Plans of Operations may be submitted for separate productive zones, subject to the approval of the Supervisor. Also subject to the approval of the Supervisor, Plans of Operation shall be modified or supplemented when necessary to meet changes in conditions or to protect the interest of all parties to this Agreement.

ARTICLE XII—PARTICIPATING AREAS

12.1 Prior to the commencement of production of Unitized Substances, the Unit Operator shall submit for approval by the Supervisor a schedule (or schedules) of all land then regarded as reasonably proved to be productive from a pool or deposit discovered or developed; all lands in said schedule (or schedules), on approval of the Supervisor, will constitute a Participating Area (or Areas) effective as of the date production commences or the effective date of this Unit Agreement, whichever is later. Said schedule (or schedules) shall also set forth the percentage of Unitized Substances to be allocated, as herein provided, to each tract in the Participating Area (or Areas) so established and shall govern the allocation of production commencing with the effective date of the Participating Area.

12.2 A separate Participating Area shall be established for each separate pool or deposit of Unitized Substances or for any group thereof which is produced as a single pool or deposit and any two or more Participating Areas so established may be combined into one, on approval of the Supervisor. The effective date of any Participating Area established after the commencement of actual production of Unitized Substances shall be the first of the month in which is obtained the knowledge or information on which the establishment of said Participating Area is based, unless a more appropriate effective date is proposed by the Unit Operator and approved by the Supervisor.

12.3 Any Participating Area (or Areas) established under 12.1 or 12.2 above shall, subject to the approval of the Supervisor, be revised from time to time to include additional land then regarded as reasonably proved to be productive from the pool or deposit for which the Participating Area was established or to include lands necessary to unit operations, or to exclude land then regarded as reasonably proved not to be productive from the pool or deposit for which the Participating Area was established or to exclude land not necessary to unit operations and the schedule (or schedules) of allocation percentages shall be revised accordingly.

12.4 Subject to the limitation cited in 12.1 hereof, the effective date of any revision of a Participating Area established under Articles 12.1 or 12.2 shall be the first of the month in which is obtained the knowledge or information on which such revision is predicated, provided, however, that a more appropriate effective date may be used if justified by the Unit Operator and approved by the Supervisor.

12.5 No land shall be excluded from a Participating Area on account of depletion of the Unitized Substances, except that any Participating Area established under the provisions of this Article XII shall terminate automatically whenever all operations are abandoned in the pool or deposit for which the Participating Area was established.

12.6 Nothing herein contained shall be construed as requiring any retroactive adjustment for production obtained prior to the effective date of the revision of a Participating Area.

ARTICLE XIII—ALLOCATION OF UNITIZED SUBSTANCES

13.1 All Unitized Substances produced from a Participating Area, established under this Agreement, shall be deemed to be produced equally on an acreage basis from the several tracts of Unitized Land within the Participating Area established for such production.

13.2 For the purpose of determining any benefits accruing under this Agreement, each Tract of Unitized Land shall have allocated to it such percentage of said production as the number of acres in the Tract included in the Participating Area bears to the total number of acres of Unitized Land in said Participating Area.

13.3 Allocation of production hereunder for purposes other than for settlement of the royalty obligations of the respective Working Interest Owners, shall be on the basis prescribed in the Unit Operating Agreement whether in conformity with the basis of allocation set forth above or otherwise.

13.4 The Unitized Substances produced from a Participating Area shall be allocated as provided herein regardless of whether any wells are drilled on any particular part or tract of said Participating Area.

ARTICLE XIV—RELINQUISHMENT OF LEASES

14.1 Pursuant to the provisions of the Federal leases and 43 CFR 3245.1, a lessee of record shall, subject to the provisions of the Unit Operating Agreement, have the right to relinquish any of its interests in leases committed hereto, in whole or in part; provided, that no relinquishment shall be made of interests in land within a Participating Area without the prior approval of the Director.

14.2 A Working Interest Owner may exercise the right to surrender, when such right is vested in it by any non-Federal lease, sublease, or operating agreement, provided that each party who will or might acquire the Working Interest in such lease by such surrender or by forfeiture is bound by the terms of this Agreement, and further provided that no relinquishment shall be made of such land within a Participating Area without the prior written consent of the non-Federal Lessor.

14.3 If as the result of relinquishment, surrender, or forfeiture the Working Interests become vested in the fee owner or lessor of the Unitized Substances, such owner may:

(1) Accept those Working Interest rights and obligations subject to this Agreement and the Unit Operating Agreement; or

(2) Lease the portion of such land as is included in a Participating Area established hereunder, subject to this Agreement and the Unit Operating Agreement; and provide for the independent operation of any part of such land that is not then included within a Participating Area established hereunder.

14.4 If the fee owner or lessor of the Unitized Substances does not, (1) accept the Working Interest rights and obligations subject to this Agreement and the Unit Operating Agreement, or (2) lease such lands as provided in 14.3 above within six (6) months after the relinquished, surrendered, or forfeited Working Interest becomes vested in said fee owner or lessor, the Working Interest benefits and obligations accruing to such land under this Agreement and the Unit Operating Agreement shall be shared by the owners of the remaining unitized Working Interests in accordance with their respective Working Interest ownerships, and such owners of Working Interests shall compensate the fee owner or lessor of Unitized Substances in such lands by paying sums equal to the rentals, minimum royalties, and royal-

V 38-140 JUL 23 73 XUM

ties applicable to such lands under the lease or leases in effect when the Working Interests were relinquished, surrendered, or forfeited.

14.5 Subject to the provisions of 14.4 above, an appropriate accounting and settlement shall be made for all benefits accruing to or payments and expenditures made or incurred on behalf of any surrendered or forfeited Working Interest subsequent to the date of surrender or forfeiture, and payment of any moneys found to be owing by such an accounting shall be made as between the parties within thirty (30) days.

14.6 In the event no Unit Operating Agreement is in existence and a mutually acceptable agreement cannot be consummated between the proper parties, the Supervisor may prescribe such reasonable and equitable conditions of agreement as he deems warranted under the circumstances.

14.7 The exercise of any right vested in a Working Interest Owner to reassign such Working Interest to the party from whom obtained shall be subject to the same conditions as set forth in this Article XIV in regard to the exercise of a right to surrender.

ARTICLE XV—RENTALS AND MINIMUM ROYALTIES

15.1 Any unitized lease on non-Federal land containing provisions which would terminate such lease unless drilling operations are commenced upon the land covered thereby within the time therein specified or rentals are paid for the privilege of deferring such drilling operations, the rentals required thereby shall, notwithstanding any other provisions of this Agreement, be deemed to accrue as to the portion of the lease not included within a Participating Area and become payable during the term thereof as extended by this Agreement, and until the required drillings are commenced upon the land covered thereby.

15.2 Rentals are payable on Federal leases on or before the anniversary date of each lease year; minimum royalties accrue from the anniversary date of each lease year and are payable at the end of the lease year.

15.3 Beginning with the lease year commencing on or after _____ and for each lease year thereafter, rental or minimum royalty for lands of the United States subject to this Agreement shall be made on the following basis:

(a) An advance annual rental in the amount prescribed in unitized Federal leases, in no event creditable against production royalties, shall be paid for each acre or fraction thereof which is not within a Participating Area.

(b) A minimum royalty shall be charged at the beginning of each lease year (such minimum royalty to be due as of the last day of the lease year and payable within thirty (30) days thereafter) of $2 an acre or fraction thereof, for all Unitized Acreage within a Participating Area as of the beginning of the lease year. If there is production during the lease year the deficit, if any, between the actual royalty paid and the minimum royalty prescribed herein shall be paid.

15.4 Rental or minimum royalties due on leases committed hereto shall be paid by Working Interest Owners responsible therefor under existing contracts, laws, and regulations, or by the Unit Operator.

15.5 Settlement for royalty interest shall be made by Working Interest Owners responsible therefor under existing contracts, laws, and regulations, or by the Unit Operator, on or before the last day of each month for Unitized Substances produced during the preceding calendar month.

15.6 Royalty due the United States shall be computed as provided in the operating regulations and paid in value as to all Unitized Substances on the basis of the amounts thereof allocated to unitized Federal land as provided herein at the royalty rate or rates specified in the respective Federal leases.

15.7 Nothing herein contained shall operate to relieve the lessees of any land from their respective lease obligations for the payment of any rental, minimum royalty, or royalty due under their leases.

ARTICLE XVI—OPERATIONS ON NONPARTICIPATING LAND

16.1 Any party hereto owning or controlling the Working Interest in any Unitized Land having thereon a regular well location may, with the approval of the Supervisor and at such party's sole risk, costs, and expense, drill a well to test any formation of deposit for which a Participating Area has not been established or to test any formation or deposit for which a Participating Area has been established if such location is not within said Participating Area, unless within 30 days of receipt of notice from said party of his intention to drill the well, the Unit Operator elects and commences to drill such a well in like manner as other wells are drilled by the Unit Operator under this Agreement.

16.2 If any well drilled by a Working Interest Owner other than the Unit Operator proves that the land upon which said well is situated may properly be included in a Participating Area, such Participating Area shall be established or enlarged as provided in this Agreement and the well shall thereafter be operated by the Unit Operator in accordance with the terms of this Agreement and the Unit Operating Agreement.

ARTICLE XVII—LEASES AND CONTRACTS CONFORMED AND EXTENDED

17.1 The terms, conditions, and provisions of all leases, subleases, and other contracts relating to exploration, drilling, development, or utilization of geothermal resources on lands committed to this Agreement, are hereby expressly modified and amended only to the extent necessary to make the same conform to the provisions hereof, otherwise said leases, subleases, and contracts shall remain in full force and effect.

17.2 The parties hereto consent that the Secretary shall, by his approval hereof, modify and amend the Federal leases committed hereto and the regulations in respect thereto to the extent necessary to conform said leases and regulations to the provisions of this Agreement.

17.3 The development and/or operation of lands subject to this Agreement under the terms hereof shall be deemed full performance of any obligations for development and operation with respect to each and every separately owned tract subject to this Agreement, regardless of whether there is any development of any particular tract of the Unit Area.

17.4 Drilling and/or producing operations performed hereunder upon any tract of Unitized Lands will be accepted and deemed to be performed upon and for the benefit of each and every tract of Unitized Land.

17.5 Suspension of operations and/or production on all Unitized Lands pursuant to direction or consent of the Secretary or his duly authorized representative shall be deemed to constitute such suspension pursuant to such direction or consent as to each and every tract of Unitized Land. A suspension of operations and/or production limited to specified lands shall be applicable only to such lands.

17.6 Subject to the provisions of Article XV hereof and 17.10 of this Article, each lease, sublease, or contract relating to the exploration, drilling, development, or utilization of geothermal resources of lands other than those of the United States committed to this Agreement, is hereby extended beyond any such term so provided therein so that it shall be continued for and during the term of this Agreement.

17.7 Subject to the lease renewal and the readjustment provision of the Act, any Federal lease committed hereto may, as to the Unitized Lands, be continued for the term so provided therein, or as extended by law. This subsection shall not operate to extend any lease or portion thereof as to lands excluded from the Unit Area by the contraction thereof.

17.8 Each sublease or contract relating to the operations and development of Unitized Substances from lands of the United States committed to this Agreement shall be continued in force and effect for and during the term of the underlying lease.

17.9 Any Federal lease heretofore or hereafter committed to any such unit plan embracing lands that are in part within and in part outside of the area covered by any such plan shall be segregated into separate leases as to the lands committed and the lands not committed as of the effective date of unitization.

17.10 In the absence of any specific lease provision to the contrary, any lease, other than a Federal lease, having only a portion of its land committed hereto shall be segregated as to the portion committed and the portion not committed, and the provisions of such lease shall apply separately to such segregated portions commencing as of the effective date hereof. In the event any such lease provides for a lump-sum rental payment, such payment shall be prorated between the portions so segregated in proportion to the acreage of the respective tracts.

17.11 Upon termination of this Agreement, the leases covered hereby may be maintained and continued in force and effect in accordance with the terms, provisions, and conditions of the Act, the lease or leases, and amendments thereto.

ARTICLE XVIII—EFFECTIVE DATE AND TERM

18.1 This Agreement shall become effective upon approval by the Secretary or his duly authorized representative and shall terminate five (5) years from said effective date unless,

(a) Such date of expiration is extended by the Director, or

(b) Unitized Substances are produced or utilized in commercial quantities in which event this Agreement shall continue for so long as Unitized Substances are produced or utilized in commercial quantities, or

(c) This Agreement is terminated prior to the end of said five (5) year period as heretofore provided.

18.2 This Agreement may be terminated at any time by the owners of a majority of the Working Interests, on an acreage basis, with the approval of the Supervisor. Notice of any such approval shall be given by the Unit Operator to all parties hereto.

ARTICLE XIX—APPEARANCES

19.1 Unit Operator shall, after notice to other parties affected, have the right to appear for and on behalf of any and all interests affected hereby before the Department of the Interior, and to appeal from decisions, orders or rulings issued under the regulations of said Department, or to apply for relief from any of said regulations or in any proceedings relative to operations before the Department of the Interior or any other legally constituted authority: *Provided, however,* That any interested parties shall also have the right, at its own expenses, to be heard in any such proceeding.

ARTICLE XX—NO WAIVER OF CERTAIN RIGHTS

20.1 Nothing contained in this Agreement shall be construed as a waiver by any party

hereto of the right to assert any legal or constitutional right or defense pertaining to the validity or invalidity of any law of the State wherein lands subject to this Agreement are located, or of the United States, or regulations issued thereunder, in any way affecting such party or as a waiver by any such party of any right beyond his or its authority to waive.

ARTICLE XXI—UNAVOIDABLE DELAY

21.1 The obligations imposed by this Agreement requiring Unit Operator to commence or continue drilling or to produce or utilize Unitized Substances from any of the land covered by this Agreement, shall be suspended while, but only so long as, Unit Operator, despite the exercise of due care and diligence, is prevented from complying with such obligations, in whole or in part, by strikes, Acts of God, Federal or other applicable law, Federal or other authorized governmental agencies, unavoidable accidents, uncontrollable delays in transportation, inability to obtain necessary materials in open market, or other matters beyond the reasonable control of Unit Operator, whether similar to matters herein enumerated or not.

21.2 No unit obligation which is suspended under this section shall become due less than thirty (30) days after it has been determined that the suspension is no longer applicable.

21.3 Determination of creditable "Unavoidable Delay" time shall be made by the Unit Operator subject to approval of the Supervisor.

ARTICLE XXII—POSTPONEMENT OF OBLIGATIONS

22.1 Notwithstanding any other provisions of this Agreement, the Director, on his own initiative or upon appropriate justification by Unit Operator, may postpone any obligation established by and under this Agreement to commence or continue drilling or to operate on or produce Unitized Substances from lands covered by this Agreement when in his judgement, circumstances warrant such action.

ARTICLE XXIII—NONDISCRIMINATION

23.1 In connection with the performance of work under this Agreement, the Operator agrees to comply with all of the provisions of section 202 (1) to (7) inclusive, of Executive Order 11246 (30 F.R. 12319), as amended by Executive Order 11375 (32 F.R. 14303), which are hereby incorporated by reference in this Agreement.

ARTICLE XXIV—COUNTERPARTS

24.1 This Agreement may be executed in any number of counterparts no one of which needs to be executed by all parties, or may be ratified or consented to by separate instruments in writing specifically referring hereto, and shall be binding upon all parties who have executed such a counterpart, ratification or consent hereto, with the same force and effect as if all such parties had signed the same document.

ARTICLE XXV—SUBSEQUENT JOINDER

25.1 If the owner of any substantial interest in geothermal resources under a tract within the Unit Area fails or refuses to subscribe or consent to this Agreement, the owner of the Working Interest in that tract may withdraw said tract from this Agreement by written notice delivered to the Supervisor and the Unit Operator prior to the approval of this Agreement by the Supervisor.

25.2 Any geothermal resources interests in lands within the Unit Area not committed hereto prior to approval of this Agreement may thereafter be committed by the owner or owners thereof subscribing or consenting to this Agreement, and, if the interest is a Working Interest, by the owner of such interest also subscribing to the Unit Operating Agreement.

25.3 After operations are commenced hereunder, the right of subsequent joinder, as provided in this Article XXV, by a working Interest Owner is subject to such requirements or approvals, if any, pertaining to such joinder, as may be provided for in the Unit Operating Agreement. Joinder to the Unit Agreement by a Working Interest Owner, at any time, must be accompanied by appropriate joinder to the Unit Operating Agreement, if more than one committed Working Interest Owner is involved, in order for the interest to be regarded as committed to this Unit Agreement.

25.4 After final approval hereof, joinder by a nonworking interest owner must be consented to in writing by the Working Interest Owner committed hereto and responsible for the payment of any benefits that may accrue hereunder in behalf of such nonworking interest. A nonworking interest may not be committed to this Agreement unless the corresponding Working Interest is committed hereto.

25.5 Except as may otherwise herein be provided, subsequent joinders to this Agreement shall be effective as of the first day of the month following the filing with the Supervisor of duly executed counterparts of all or any papers necessary to establish effective commitment of any tract to this Agreement unless objection to such joinder is duly made within sixty (60) days by the Supervisor.

ARTICLE XXVI—COVENANTS RUN WITH THE LAND

26.1 The covenants herein shall be construed to be covenants running with the land with respect to the interest of the parties hereto and their successors in interest until this Agreement terminates, and any grant, transfer, or conveyance, of interest in land or leases subject hereto shall be and hereby is conditioned upon the assumption of all privileges and obligations hereunder by the grantee, transferee, or other successor in interest.

26.2 No assignment or transfer of any Working Interest or other interest subject hereto shall be binding upon Unit Operator until the first day of the calendar month after Unit Operator is furnished with the original, photostatic, or certified copy of the instrument of transfer.

ARTICLE XXVII—NOTICES

27.1 All notices, demands or statements required hereunder to be given or rendered to the parties hereto shall be deemed fully given if given in writing and personally delivered to the party or sent by postpaid registered or certified mail, addressed to such party or parties at their respective addresses set forth in connection with the signatures hereto or to the ratification or consent hereof or to such other address as any such party may have furnished in writing to party sending the notice, demand or statement.

ARTICLE XXVIII—LOSS OF TITLE

28.1 In the event title to any tract of Unitized Land shall fail and the true owner cannot be induced to join in this Agreement, such tract shall be automatically regarded as not committed hereto and there shall be such readjustment of future costs and benefits as may be required on account of the loss of such title.

28.2 In the event of a dispute as to title as to any royalty, Working Interest, or other interests subject hereto, payment or delivery on account thereof may be withheld without liability for interest until the dispute is finally settled: *Provided,* That, as to Federal land or leases, no payments of funds due the United States shall be withheld, but such funds shall be deposited as directed by the Supervisor to be held as unearned money pending final settlement of the title dispute, and then applied as earned or returned in accordance with such final settlement.

ARTICLE XXIX—TAXES

29.1 The Working Interest Owners shall render and pay for their accounts and the accounts of the owners of nonworking interests all valid taxes on or measured by the Unitized Substances in and under or that may be produced, gathered, and sold or utilized from the land subject to this Agreement after the effective date hereof.

29.2 The Working Interest Owners on each tract may charge a proper proportion of the taxes paid under 29.1 hereof to the owners of nonworking interests in said tract, and may reduce the allocated share of each royalty owner for taxes so paid. No taxes shall be charged to the United States or the State of _____ or to any lessor who has a contract with his lessee which requires the lessee to pay such taxes.

ARTICLE XXX—RELATION OF PARTIES

30.1 It is expressly agreed that the relation of the parties hereto is that of independent contractors and nothing in this Agreement contained, expressed, or implied, nor any operations conducted hereunder, shall create or be deemed to have created a partnership or association between the parties hereto or any of them.

ARTICLE XXXI—SPECIAL FEDERAL LEASE STIPULATIONS AND/OR CONDITIONS

31.1 Nothing in this Agreement shall modify special lease stipulations and/or conditions applicable to lands of the United States. No modification of the conditions necessary to protect the lands or functions of lands under the jurisdiction of any Federal agency is authorized except with prior consent in writing whereby the authorizing official specifies the modification permitted.

In witness whereof, the parties hereto have caused this Agreement to be executed and have set opposite their respective names the date of execution.

§ 271.15 Form of collective bond.

COLLECTIVE CORPORATE SURETY

Known all men by these presents, That we, _____ signing as Principal, (Name of Unit Operator) and _____, as Surety are jointly and severally held and firmly bound unto the United States of America in the sum of _____ Dollars, (Amount of bond) lawful money of the United States, for the use and benefit of and to be paid to the United States and any entryman or patentee of any portion of the unitized land, heretofore entered or patented with the reservation of the geothermal resources deposits to the United States, for which payment well and truly to be made, we bind ourselves, and each of us, and each of our heirs, executors, administrators, successors, and assigns by these presents.

The condition of the foregoing obligation is such that, whereas the Secretary on _____ (Date) approved under the provisions of the Geothermal Steam Act of 1970, a unit agreement for the development and operation of the _____ (Name of Unit and State)

§ 271.13 Sample form of exhibit A of unit agreement.

EXHIBIT A—BIG VAPOR UNIT AREA, T. 13 N., R. 10 W., M.D.M., California
R. 1 W.

Whereas said Principal and record owners of unitized substances, pursuant to said unit agreement, have entered into certain covenants and agreements as set forth therein, under which operations are to be conducted; and

Whereas said Principal as Unit Operator has assumed the duties and obligations of the respective owners of unitized substances as defined in said unit agreement; and

Whereas said Principal and surety agree to remain bound in the full amount of the bond for failure to comply with the terms of the unit agreement, and the payment of rentals, minimum royalties, and royalties due under the Federal leases committed to said unit agreement; and

Whereas the Surety hereby waives any right of notice of and agrees that this bond may remain in force and effect notwithstanding:

(a) Any additions to or change in the ownership of the unitized substances herein described.

(b) Any suspension of the drilling or producing requirements or waiver, suspension or reduction of rental or minimum royalty payments or reduction of royalties pursuant to applicable laws or regulations thereunder; and

Whereas said Principal and Surety agree to the payment of compensatory royalty under the regulations of the Interior Department in lieu of drilling necessary offset wells in the event of drainage; and

Whereas nothing herein contained shall preclude the United States from requiring an additional bond at any time when deemed necessary:

Now, therefore, if the said Principal shall faithfully comply with all of the provisions of the above-identified unit agreement and with the terms of the leases committed thereto, then the above obligation is to be of no effect; otherwise to remain in full force and virtue.

§ 271.16 Form of designation of successor unit operator by working interest owners.

Designation of successor Unit Operator _____, Unit Area, County of _____ State of _____, No. _____.

This indenture, dated as of the _____ day of _____, 19____, by and between _____ hereinafter designated as "First Party," and the owners of unitized working interest, hereinafter designated as "Second Parties,"

Witnesseth: Whereas under the provisions of the Geothermal Steam Act of December 24, 1970, 84 Stat. 1566, the Secretary on the _____ day of _____, 19____, approved a unit agreement for the _____ Unit Area, wherein _____ is designated as Unit Operator; and

Whereas said _____ has resigned as such Operator,[1] and the designation of a successor Unit Operator is now required pursuant to the terms thereof; and

Whereas First Party has been and hereby is designated by Second Parties as a Unit Operator, and said First Party desires to assume all the rights, duties, and obligations of Unit Operator under the said unit agreement.

Now, therefore, in consideration of the premises hereinbefore set forth and the promises hereinafter stated, the First Party hereby covenants and agrees to fulfill the duties and assume the obligations of Unit Operator under and pursuant to all the terms of the _____ unit agreement, and the Second Parties covenant and agree that, effective upon approval of this identure by the Supervisor, of the Geological Survey, First Party shall be granted the exclusive right and privilege of exercising any and all rights and privileges and Unit Operator, pursuant to the terms and conditions of said unit agreement; said unit agreement being hereby incorporated herein by references and made a part hereof as fully and effectively as though said unit agreement were expressly set forth in this instrument.

In witness whereof, the parties hereto have executed this instrument as of the date hereinabove set forth.

§ 271.17 Form of change in unit operator by assignment.

Change in Unit Operator _____ unit Area, County of _____, State of _____, No. _____.

This indenture, dated as of the _____ day of _____, 19____, by and between _____ hereinafter designated as "First Party," and _____, hereinafter designated as "Second Party."

Witnesseth: Whereas under the provisions of the Geothermal Steam Act of December 24, 1970, 84 Stat. 1566, the Secretary on the _____ day of _____, 19____, approved a unit agreement for the _____ Unit Area, wherein the First Party is designated as Unit Operator; and

Whereas the First Party desires to transfer, assign, release, and quitclaim, and the Second Party desires to assume all the rights, duties, and obligations of Unit Operator under the unit agreement; and

Whereas for sufficient and valuable consideration, the receipt whereof is hereby acknowledged, the First Party has transferred, conveyed and assigned all his/its rights under certain operating agreements involving lands within the area set forth in said unit agreement unto the Second Party:

Now, therefore, in consideration of the premises hereinbefore set forth, the First Party does hereby transfer, assign, release, and quitclaim unto Second Party all of First Party's rights, duties and obligations as Unit Operator under said unit agreement; and

Second Party hereby accept this assignment and hereby covenants and agrees to fulfill the duties and assume the obligations of Unit Operator under and pursuant to all the terms of said unit agreement to the full extent set forth in this assignment, effective upon approval of this indenture by the Supervisor of the Geological Survey; said unit agreement being hereby incorporated herein by reference and made a part hereof as fully and effectively as though said unit agreement were expressly set forth in this instrument.

In witness whereof, the parties hereto have executed this instrument as of the date hereinabove set forth.

PART III

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

RECOMMENDATIONS and MISCELLANEOUS STATEMENTS

No. 140—Pt. III——1

V 38 - 140 - JUL 23 73 XUM

Title 1—General Provisions

CHAPTER III—ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

PART 305—RECOMMENDATIONS OF THE ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

PART 310—MISCELLANEOUS STATEMENTS

Miscellaneous Amendments

The Administrative Conference published in the FEDERAL REGISTER of June 27, 1973 (38 FR 16839) three Recommendations and one formal Statement, adopted at its Ninth Plenary Session, held June 7–8, 1973. It announced at that time that all formal Recommendations and Statements adopted by the Assembly of the Conference in Plenary Session would henceforth be published in the FEDERAL REGISTER upon their adoption and listed in the Code of Federal Regulations, and that Recommendations and Statements deemed to be of continuing and general interest would be published in full in the Code of Federal Regulations.

The purpose of this document is to furnish a complete list of the Recommendations and Statements of the Administrative Conference not hitherto published in the FEDERAL REGISTER, together with the complete texts of those Recommendations of continuing and general interest.

At its eight Plenary Sessions held between December, 1968 and December, 1973 the Conference adopted thirty-nine Recommendations and one Statement. Published here are the full texts of twenty of the Recommendations which are addressed broadly to problems of agency practices and procedures. Listed but not published in full are those Recommendations which have been wholly or largely implemented, those which can be implemented only by legislative action, and those addressed to practices and procedures in a single agency. Separate statements filed by Conference member pursuant to 5 U.S.C. 575(a)(1) are noted but not published in full.

The complete texts of the Recommendations and Statements published or listed below, including separate statements, have been previously published in the annual reports of the Administrative Conference (the proceedings of the Eighth Plenary Session, held in December, 1972, will be reported in the forthcoming annual report) and in two bound volumes of Recommendations and Reports of the Administrative Conference of the United States, which may be obtained from the Government Printing Office. These texts are also available on request from the office of the Administrative Conference, 2120 L Street, NW., Washington, D.C. 20037.

1. The Table of Contents of Part 305 of Chapter III is revised to read as follows:

Sec.
305.68–1 Adequate Hearing Facilities (Recommendation No. 68–1).
305.68–2 U.S. Government Organization Manual (Recommendation No. 68–2).
305.68–3 Parallel Table of Statutory Authorities and Rules (2 CFR Ch. I)[1] (Recommendation No. 68–3).
305.68–4 Consumer Bulletin (Recommendation No. 68–4).
305.68–5 Representation of the Poor in Agency Rulemaking of Direct Consequence to Them (Recommendation No. 68–5).
305.68–6 Delegation of Final Decisional Authority Subject to Discretionary Review by the Agency (Recommendation No. 68–6).
305.68–7 Elimination of Jurisdictional Amount Requirement in Judicial Review (Recommendation No. 68–7).
305.68–8 Judicial review of Interstate Commerce Commission Orders (Recommendation No. 68–8).
305.69–1 Statutory reform of the soverign immunity doctrine (Recommendation No. 69–1).
305.69–2 Judicial enforcement of orders of the National Labor Relations Board (Recommendation No. 69–2).
305.69–3 Publication of a "Guide to Federal Reporting Requirements" (Recommendation No. 69–3).
305.69–4 Analytical Subject-Indexes to Selected Volumes of the Code of Federal Regulations (Recommendation No. 69–4).
305.69–5 Elimination of Duplicative Hearings in FAA Safety De-certification Cases (Recommendation No. 69–5).
305.69–6 Compilation of Statistics on Administrative Proceedings by Federal Departments and Agencies (Recommendation No. 69–6).
305.69–7 Consideration of Alternatives in Licensing Procedures (Recommendation No. 69–7).
305.69–8 Elimination of Certain Exemptions from the APA Rulemaking Requirements (Recommendation No. 69–8).
305.69–9 Recruitment and Selection of Hearing Examiners; Continuing Training for Government Attorneys and Hearing Examiners; Creation of a Center for Continuing Legal Education in Government (Recommendation No. 69–9).
305.70–1 Parties Defendant (Recommendation 70–1).
305.70–2 SEC No-Action Letters Under Section 4 of the Securities Act of of 1933 (Recommendation No. 70–2).
305.70–3 Summary Decision in Agency Adjudication (Recommendation No. 70–3).
305.70–4 Discovery in Agency Adjudication (Recommendation No. 70–4).
305.70–5 Practices and Procedures Under the Renegotiation Act of 1951 (Recommendation No. 70–5).
305.71–1 Interlocutory Appeal Procedures (Recommendation No. 71–1).
305.71–2 Principles and Guidelines for Implementation of the Freedom of Information Act (Recommendation No. 71–2).
305.71–3 Articulation of Agency Policies (Recommendation No. 71–3).
305.71–4 Minimum Procedures for Agencies Administering Discretionary Grant Programs (Recommendation No. 71–4).
305.71–5 Procedures of the Immigration and Naturalization Service in Respect to Change-of-Status Applications (Recommendation No. 71–5).
305.71–6 Public Participation in Administrative Hearings (Recommendation No. 71–6).
305.71–7 Rulemaking on a Record by the Food and Drug Administration (Recommendation No. 71–7).
305.71–8 Modification and Dissolution of Orders and Injunctions (Recommendation No. 71–8).
305.71–9 Enforcement of Standards in Federal Grant-in-Aid Programs (Recommendation No. 71–9).
305.72–1 Broadcast of Agency Proceedings (Recommendation No. 72–1).
305.72–2 Conflict-of-Interest Problems in Dealing with Natural Resources of Indian Tribes (Recommendation No. 72–2).
305.72–3 Procedures of the United States Board of Parole (Recommendation No. 72–3).
305.72–4 Suspension and Negotiation of Rate Proposals by Federal Regulatory Agencies (Recommendation No. 72–4).
305.72–5 Procedures for the Adoption of Rules of General Applicability (Recommendation No. 72–5).
305.72–6 Civil Money Penalties as a Sanction (Recommendation No. 72–6).
305.72–7 Pre-induction Review of Selective Service Classification Orders and Related Procedural Matters (Recommendation No. 72–7).
305.72–8 Adverse Actions Against Federal Employees (Recommendation No. 72–8).
305.73–1 Adverse Agency Publicity (Recommendation No. 73–1).
305.73–2 Labor Certification of Immigrant Aliens (Recommendation No. 73–2).
305.73–3 Quality Assurance Systems in the Adjudication of Claims of Entitlement to Benefits or Compensation (Recommendation No. 73–3).

AUTHORITY: 5 U.S.C. 571–576.

2. Part 305 is amended to add the following sections:

§ 305.68–1 Adequate Hearing Facilities (Recommendation No. 68–1).

§ 305.68–2 U.S. Government Organization Manual (Recommendation No. 68–2).

§ 305.68–3 Parallel Table of Statutory Authorities and Rules (2 CFR Ch. I)[1] (Recommendation No. 68–3).

§ 305.68–4 Consumer Bulletin (Recommendation No. 68–4).

§ 305.68–5 Representation of the Poor in Agency Rulemaking of Direct Consequence to Them. (Recommendation No. 68–5).

RECOMMENDATION

A. *Agency efforts.* 1. Federal agencies should engage more extensively in affirmative, self-initiated efforts to ascertain directly from the poor their views with respect to rulemaking that may affect them substantially. For this purpose, agencies should make strong efforts, by use of existing as well as newly devised procedures, to obtain information and opinion from those whose circumstances may not permit conventional participation in rulemaking proceedings. The "rulemaking" referred to is that defined by the Administrative Procedure Act, section 2(c), 5 U.S.C. 551 (4) and (5).

2. Agencies should employ as many of the following procedures as are feasible, practicable, and necessary to assure their being fully informed concerning the relevant interests of the poor:

(a) Agencies should seek to inform the poor of all rulemaking proposals that may affect them substantially and should provide opportunities for the poor to submit their views concerning these and related proposals.

(b) Agencies should hold formal public hearings or informal conferences in close geographic proximity to the poor substantially affected by contemplated rulemaking.

(c) Agencies should take care to invite individuals constituting a representative cross-section of the poor to submit their views orally or in writing as to proposed rules substantially affecting the poor.

(d) Agencies should conduct field surveys among the poor to discover their attitudes concerning particular government policymaking substantially affecting them.

(e) Agencies should use advisory committees made of representatives of the poor as continuing consultants for all programs having a substantial effect on such persons.

(f) When necessary to assure adequate representation for the poor, agencies should pay the personal expenses and wage losses incurred by individuals incident to their participation in rulemaking hearings. Congress should support agency requests for funds and for authority, where none exists, to make discretionary payments for, this purpose. Agencies already authorized to make such payments in whole or in part should use their existing authority and should allocate funds accordingly.

In deciding whether the use of any one or more of the above devices is feasible, practicable, or necessary in a given situation, agencies should resolve doubts in favor of utilizing them; but their enumeration should not exclude or discourage the development and use of other devices to achieve the same result.

In carrying out paragraphs 1 and 2 of this recommendation, agencies should consult with and coordinate their efforts with other Federal agecnies having responsibilities in this area and should make maximum feasible use of the facilities of such other agencies for communicating with and obtaining expressions of the views of the poor.

3. Agencies should be encouraged in appropriate circumstances to determine that the exemptions in 5 U.S.C. 553(a)(2) should not be applied with respect to rulemaking which may have a substantial impact on the poor.

B. *People's Counsel.* 4. (a) An organization should be authorized by statute to employ a staff to act as "People's Counsel." The People's Counsel should represent the interests of the poor in all Federal administrative rulemaking substantially affecting the poor.

(b) The People's Counsel should be charged with assuring that the views of significant separable minority interests among the poor are represented in such Federal administrative rulemaking.

(c) The People's Counsel should be required to disseminate to all interested poor people's organizations pertinent information concerning rulemaking substantially affecting the poor.

(d) The People's Counsel should be authorized to participate suitably in its own name to represent the interests of the poor in any Federal agency proceedings in which the poor have a substantial interest.

(e) The People's Counsel should be authorized to provide representation for organizations and groups of the poor who seek judicial review of administrative action substantially affecting their interests. This recommendation is not to alter the kinds of agency action amenable to judicial review, the requirements of standing to seek review, or the scope of that review.

(f) As an incident to its main responsibilities the People's Counsel should be empowered to recommend to Congress or the President or to both such legislation or other action as it deems appropriate to correct deficiencies in or otherwise improve Federal progams having a substantial impact on the poor.

5.(a) Congress should provide for an appropriate body to perform the functions outlined in section 4. Deserving of consideration as such body would be a new single-purpose corporation, to be created by Congress, modeled on the Corporation for Public Broadcasting, Public Law 90–129, 81 Stat. 368 (1967), 47 U.S.C. (Supp. III) 396, and to be known as the People's Counsel Corporation. In the event this form of organization is adopted, the following considerations should apply:

(1) The People's Counsel Corporation should be made tax exempt and authorized to accept grants of private funds. Gifts to the Corporation should be made deductible as charitable contributions for Federal income tax purposes.

(2) Federal financing of the Corporation should be made available to the extent necessary to assure its effective operation.

(3) The governing board of the People's Counsel Corporation should be constituted to give the poor meaningful representation thereon. Such body should be constituted to ensure close communication with the poor and effective representation of the viewpoints of the poor.

6. All Federal agencies should be required by Executive order to notify the People's Counsel of all proposed rules which would have a substantial impact on the poor. Agencies also should be required by that Executive order to give the People's Counsel an opportunity to present the views of the poor with respect to such proposed rules. Exceptions to these obligations should be permitted only "when the agency for good cause finds (and incorporates the finding and a brief statement of reasons therefor in the rules issued) that (such) notice and * * * (an opportunity for the People's Counsel to present its views) are impracticable, unnecessary, or contrary to the public interest." (See 5 U.S.C. 553(b)(B).) In these exceptional cases, agencies should be required to notify the People's Counsel as soon as practicable of any consummated rulemaking substantially affecting the poor, and should be required to give the Counsel as soon as practicable an opportunity to communicate to the agency its views concerning the desirability of further action with respect to such rulemaking.

Without prejudice to creating or empowering any other appropriate body to perform the general functions outlined in paragraphs 4, 5, and 6, any special provision therefor should be so structured as to take maximum advantage of the capabilities in this field of nongovernment organizations, and of other public bodies, including notably the Office of Economic Opportunity.

NOTE: Six separate statements were filed concerning this Recommendation.

§ 305.68–6 Delegation of Final Decisional Authority Subject to Discretionary Review by the Agency. (Recommendation No. 68–6).

RECOMMENDATION

1. In order to make more efficient use of the time and energies of agency members and their staffs, to improve the quality of decision without sacrificing procedural fairness, and to help eliminate delay in the administrative process, every agency having a substantial caseload of formal adjudications should consider the establishment of one or more intermediate appellate boards or the adoption of procedures for according administrative finality to presiding officers' decisions, with discretionary authority in the agency to affirm summarily or to review, in whole or in part, the decisions of such boards or officers.

2. Section 8 of the Administrative Procedure Act, 5 U.S.C. 557, should be amended as necessary to clarify the authority of agencies to restructure their decisional processes along either of the following lines:

(a) *Intermediate appellate boards.* (1) Whenever an agency deems it appropriate for the efficient and orderly conduct of its business, it may, by rule or order:

(A) Establish one or more intermediate appellate boards consisting of agency employees qualified by training, experience, and competence to perform review functions,

(B) Authorize these boards to perform functions in connection with the disposition of cases of the same character as those which may be performed by the agency,

(C) Prescribe procedures for review of subordinate decisions by such boards or by the agency, and

(D) Restrict the scope of inquiry by such boards and by the agency in any review, without impairing the authority of the agency in any case to decide on its own motion any question of procedure, fact, law, policy, or discretion as fully as if it were making the initial decision.

(2) Any order or decision of an intermediate appellate board, unless reviewed by the agency, shall have the same force and effect and shall be made, evidenced, and enforced in the same manner as orders and decisions of the agency.

(3) A party aggrieved by an order of such board may file an application for review by the agency within such time and in such manner as the agency shall prescribe, and every such application shall be passed upon by the agency.

(4) In passing upon such applications for review, an agency may grant, in whole or in part, or deny the application without specifying any reasons therefor. No such application shall rely upon questions of fact or law upon which the intermediate appellate board has been afforded no opportunity to pass.

(5) An agency, on its own initiative, may review in whole or in part, at such time and in such manner as it shall determine, any order, decision, report, or other action made or taken by an intermediate appellate board.

(6) If an agency grants an application for review or undertakes review on its own motion, it may affirm, modify, reverse, or set aside the order, decision, report or other action of the intermediate appellate board, or may remand the proceeding for reconsideration.

(7) The filing of an application for agency review shall be a condition precedent to judicial review of any order of an intermediate appellate board.

(8) Agency employees performing review functions shall not be responsible to or subject to the supervision or direction of any employee or agent engaged in the performance of investigative or prosecuting functions for any agency.

[1] As of January 1, 1973, codified as Table I of the Finding Aids Volume.

V 38 I 140 JUL 23 73 XUM

(b) *Discretionary review of decisions of presiding officers.* (1) When a party to a proceeding seeks administrative review of an initial decision rendered by the presiding officer (or other officer authorized by law to make such decision), the agency may accord administrative finality to the initial decision by denying the petition for its review, or by summarily affirming the initial decision, unless the party seeking review makes a reasonable showing that:

(A) A prejudicial procedural error was committed in the conduct of the proceeding, or

(B) The initial decision embodies

(i) A finding or conclusion of material fact which is erroneous or clearly erroneous, as the agency may by rule provide,

(ii) A legal conclusion which is erroneous, or

(iii) An exercise of discretion or decision of law or policy which is important and which the agency should review.

(2) The agency's decision to accord or not to accord administrative finality to an initial decision shall not be subject to judicial review. If the initial decision becomes the decision of the agency, however, because it is summarily affirmed by the agency or because the petition for its review is denied, such decision of the agency will be subject to judicial review in accordance with established law.

§ 305.68–7 Elimination of Jurisdictional Amount Requirement in Judicial Review (Recommendation No. 68–7).

§ 305.68–8 Judicial Review of Interstate Commerce Commission Orders (Recommendation 68–8).

§ 305.69–1 Statutory Reform of the Sovereign Immunity Doctrine. (Recommendation 69–1).

§ 305.69–2 Judicial Enforcement of Orders of the National Labor Relations Board (Recommendation 69–2).

§ 305.69–3 Publication of a "Guide to Federal Reporting Requirements" (Recommendation No. 69–3).

§ 305.69–4 Analytical Subject-Indexes to Selected Volumes of the Code of Federal Regulations (Recommendation No. 69–4).

§ 305.69–5 Elimination of Duplicative Hearings in FAA Safety De-certification Cases (Recommendation No. 69–5).

§ 305.69–6 Compilation of Statistics on Administrative Proceedings by Federal Departments and Agencies (Recommendation No. 69–6).

Government agencies which conduct formal or informal rulemaking proceedings or cases of adjudication which directly fix the rights and obligations of private persons (hereafter referred to as "proceedings")[1] owe a special duty to the individuals affected and to the general public to manage their caseloads as efficiently as possible, to eliminate inordinate delays in the conduct of proceedings, and to work continuously toward improving the fairness, effectiveness, and economy of their procedures. The present volume of Federal administrative proceedings is so great that much of the basic information needed in these efforts can be developed in intelligible and useful form only through statistical study. The compilation and publication of comprehensive statistics on Federal agency proceedings, at regular intervals would:

(a) Provide each agency with information concerning its business which would enable it to manage its caseload more effectively,

(b) Augment generally the information concerning its activities which each agency must furnish to the President, the Congress, and the public,

(c) Afford affected parties and their counsel a better understanding of the administrative processes which determine their rights and obligations, and

(d) Provide a basis for specific study of particular agency procedures by the agency itself, by committees of Congress, the Administrative Conference of the United States, the organized bar, research scholars, and other individuals and organizations, public and private, interested in improving the Federal administrative process.

RECOMMENDATION

1. To the extent deemed useful to advance the purposes of this recommendation, each Federal administrative agency which conducts proceedings (as defined above) affecting private persons' rights, privileges or obligations, should prepare annual statistical data pertaining to those proceedings, to be compiled in such manner and presented in such publications as the agency considers appropriate.

2. These statistical compilations should list the kinds of proceedings pending during the year, with a concise yet meaningful description of the nature and purpose of each kind of proceeding and citations for the statutory authority under which the proceedings are conducted, and the sections of the Code of Federal Regulations which set forth the rules of practice governing each kind of proceeding.

3. For the purpose of agency efforts that may be made in cooperation with the Chairman of the Administrative Conference of the United States, to lessen delays in administrative proceedings, the statistical compilation should show the number of days which elapsed during each significant step of the proceedings which were concluded during the year.

4. In designing each agency's compilation, the following information, together with the time-study data referred to in 3 above, should be considered minimal:

(a) The number of proceedings of each kind pending at the beginning of the year;

(b) The number of new proceedings filed or otherwise commenced during the year;

(c) The number of proceedings concluded during the year and the manner of their disposition (i.e., by settlement, dismissal on procedural grounds, decision on the merits without hearing, final decision by agency after hearing, and an examiner's initial decision, etc.);

(d) The number of proceedings remaining at the end of the year; and

(e) The number of proceedings concluded during the year which were appealed to the courts.

5. Each agency should periodically analyse all of the information thus compiled and should develop improved techniques fitted to its particular needs to reduce delays and expense and otherwise to improve its administrative processes. A copy of this analysis should be submitted to the Administrative Conference of the United States.

6. In presenting its statistical compilation, each agency should summarize this analysis and describe the specific steps it has taken toward the ends referred to in 5 above.

7. Each agency, in its subsequent compilations, should follow a pattern that makes possible a comparison of data with corresponding data for earlier periods, thus reflecting changes in backlogs, volumes, and elapsed times and providing a measure of the agency's experience following the specific actions referred to in 6 above.

§ 305.69–7 Consideration of Alternatives in Licensing Procedures (Recommendation No. 69–7).

Court decisions, notably Scenic Hudson Preservation Conference v. FPC,[1] have emphasized that in licensing cases the Federal Power Commission must explore and give proper consideration to possible alternatives to the specific plan proposed by the applicant. This principle may in the future be applied to other licensing agencies. Since the range of possible alternatives in any case can be extensive and in some cases virtually unbounded, ways must be sought to control the scope and duration of licensing proceedings within manageable limits while meeting the requirements of the law.

RECOMMENDATIONS

Each agency which issues licenses, permits, or other forms of authorization, should seek to create procedures fitting its particular circumstances which will assure appropriate consideration of alternatives, where necessary, and at the same time will permit effective administration of that agency's licensing functions.

Because the various agencies must deal in their licensing procedures with many diverse subject matters, the Administrative Conference cannot specify a single rule and procedure for achieving this objective. Procedural techniques which experience has shown useful in analogous situations and which an agency might consider include: (1) Guidelines embodying a rule of reason concerning the number and character of alternatives to be considered in particular types of cases; (2) rules providing a point in time beyond which the issues in a proceeding will not be expanded to include additional alternatives except under compelling circumstances; (3) techniques, such as prehearing conferences and the filing of testimony in written form before trial, which tend to promote early identification of interested parties and important alternatives; and (4) placing responsibility upon the party or other person proposing an alternative to the applicant's proposal to make an appropriate threshold showing that the alternative deserves the agency's consideration.

§ 305.69–8 Elimination of Certain Exemptions from the APA Rulemaking Requirements (Recommendation No. 69–8).

RECOMMENDATION

In order to assure that Federal agencies will have the benefit of the information and

[1] The agency compilations proposed by this recommendation should not be limited to formal proceedings, or limited to "proceedings" as that term has been employed in gathering statistics for past conferences or Congressional groups. Rather, agency figures should report all matters directly fixing the rights, privileges, and obligations of private interests including the routine handling of applications and claims.

[1] 354 F.2d 608 (2d Cir. 1965), cert. denied, 384 U.S. 941 (1966). See also Udall v. FPC, 387 U.S. 428 (1967).

opinion that can be supplied by persons whom regulations will affect, the Administrative Procedure Act requires that the public must have opportunity to participate in rulemaking proceedings. The procedures to assure this opportunity are not required by law, however, when rules are promulgated in relation to "public property, loans, grants, benefits, or contracts." These types of rules may nevertheless bear heavily upon nongovernmental interests. Exempting them from generally applicable procedural requirements is unwise. The present law should therefore be amended to discontinue the exemptions to strengthen procedures that will make for fair, informed exercise of rulemaking authority in these as in other areas.

Removing these statutory exemptions would not diminish the power of the agencies to omit the prescribed rulemaking procedures whenever their observances were found to be impracticable, unnecessary, or contrary to the public interest. A finding to that effect can be made, and published in the FEDERAL REGISTER, as to an entire subject matter concerning which rules may be promulgated. Each finding of this type should be no broader than essential and should include a statement of underlying reasons rather than a merely conclusory recital.

Wholly without statutory amendment, agencies already have the authority to utilize the generally applicable procedural methods even when formulating rules of the exempt types now under discussion. They are urged to utilize their existing powers to employ the rulemaking procedures provided by the Administrative Procedure Act, whenever appropriate, without awaiting a legislative command to do so.

§ 305.69–9 Recruitment and selection of Hearing Examiners; continuing training for Government Attorneys and Hearing Examiners; creation of a center for continuing legal education in Government (Recommendation 69–9).

RECOMMENDATION

A. RECURITMENT AND SELECTION OF HEARING EXAMINERS

1. The Civil Service Commission should enlarge the base of recruitment and the number of qualified candidates available for appointment to hearing examiner positions by recognizing trial experience as one basis for qualification.

2. The Civil Service Commission should depart experimentally from the selective certification system as now practiced in the appointment of hearing examiners. Instead, it should develop a system under which the number of candidates qualified for hearing examiner positions is enlarged through the use of a general register for all agencies, with additional credit for specific relevant professional experience or selective certification for those agencies which demonstrate to the Civil Service Commission's satisfaction a current need for personnel possessing a specific background. The purpose of this experiment should be to permit meaningful comparative evaluation with the system now in effect. A report should be made to the Administrative Conference after 3 years of experience.

To aid the Civil Service Commission in effectuating the objective of this part of the recommendation, the Chairman of the Administrative Conference should appoint special committees from time to time to evaluate the standards of specific relevant professional experience proposed to the Civil Service Commission by any agency as being required for its work. Present selective certification agreements should continue until new standards have been adopted by the Civil Service Commission.

3. The Civil Service Commission should study and, if practicable, should institute an experimental intern program to supplement the direct appointment of hearing examiners from the register. Without finally deciding the issue, the Conference urges the Commission to consider anew whether successful interns should automatically be placed in hearing examiner positions.

4. The Veterans Preference Act should be amended to permit the selection of examiners for each vacancy from the top 10 available persons then appearing on the register, determined on the basis of examination and ranking without reference to veterans preference.

B. CONTINUING TRAINING FOR GOVERNMENT ATTORNEYS AND EXAMINERS

1. Agencies employing attorneys and hearing examiners should encourage their participation in programs of continuing legal education. Budgets should include adequate funds for personnel so that attorneys and examiners may be released for reasonable periods of time to accomplish added training. Agencies should take all suitable steps to assure wide knowledge of training opportunities.

2. Agencies should also explore ways in which they can support the professional training activities of the Federal Trial Examiners Conference, bar associations, foundations, the Civil Service Commission, law schools, the individual agencies with parallel legal interests, and other institutions offering appropriate training for attorneys and examiners.

3. The feasibility of short-term exchange assignments of experienced attorneys in higher grades among agencies should be considered, in order to enhance the insight and effectiveness of government lawyers by exposing them to varied aspects of legal problems with which they may deal.

C. CREATION OF A CENTER FOR CONTINUING LEGAL EDUCATION IN GOVERNMENT

1. A center should be established in the Washington area for the continuing legal education of Government lawyers, hearing examiners, and private attorneys practicing before Government agencies. The center should also promote coordinated programs within the Government and with specialized segments of the organized bar; stimulate and engage in the preparation of manuals, research materials, and other publications in support of such continuing legal education; and provide a mechanism for the exchange of information concerning professional problems of Government attorneys. The center, under the direction of lawyers, should be oriented toward applied legal problems. The Civil Service Commission should make available to it the benefit of the Commission's experience in establishing and operating Federal Executive institutes and centers. The Federal Administrative Justice Center proposed by the American Bar Association in a resolution adopted by the American Bar Association's House of Delegates in January 1969, as an example, would serve the purpose of the present recommendation.

2. The establishment of the Center should not diminish each agency's present responsibility to provide continuing legal education for its own lawyers through "in-house" training programs, but the Center should support and assist all agencies in maintaining these programs at a high level of effectiveness.

§ 305.70–1 Parties Defendant (Recommendation No. 70–1)

§ 305.70–2 SEC No-Action Letters Under Section 4 of the Securities Act of 1933 (Recommendation No. 70–2)

§ 305.70–3 Summary Decision in Agency Adjudication (Recommendation No. 70–3).

Delays in the administrative process can be avoided by eliminating unnecessary evidentiary hearings where no genuine issue of material fact exists. Each agency having a substantial caseload of formal adjudications should adopt procedures providing for summary judgment or decision, patterned after the following model rule in suitable cases and with appropriate modifications to meet the needs of its own hearings:

RECOMMENDATION

SECTION 1 Any party to an adjudicatory or rulemaking proceeding required by statute to be determined on the record after opportunity for agency hearing may, after commencement of the proceeding and at least —— days before the date fixed for the hearing, move with or without supporting affidavits for a summary decision in his favor of all or any part of the proceeding. Any other party may, within —— days after service of the motion, serve opposing affidavits or countermove for summary decision. The presiding officer may, in his discretion, set the matter for argument and call for the submission of briefs.

SEC. 2 The presiding officer may grant such motion if the pleadings, affidavits, material obtained by discovery or otherwise, or matters officially noticed, show that there is no genuine issue as to any material fact and that a party is entitled to summary decision.

SEC. 3 Affidavits shall set forth such facts as would be admissible in evidence and shall show affirmatively that the affiant is competent to testify to the matters stated therein. When a motion for summary decision is made and supported as provided in this rule, a party opposing the motion may not rest upon the mere allegations or denials of his pleading; his response, by affidavits or as otherwise provided in this rule, must set forth specific facts showing that there is a genuine issue of fact for the hearing.

SEC. 4 Should it appear from the affidavits of a party opposing the motion that he cannot for reasons stated present by affidavit facts essential to justify his opposition, the presiding officer may deny the motion for summary decision or may order a discontinuance to permit affidavits to be obtained or discovery to be had or may make such other order as is just.

SEC. 5 The denial of all or any part of a motion for summary decision by the presiding officer shall not be subject to interlocutory appeal to the (*review authority*) unless (a) the presiding officer certifies in writing (i) that the rule involves an important question of law or policy as to which there is substantial ground for difference of opinion and (ii) that an immediate appeal from the ruling may materially advance the ultimate termination of the litigation; or (b) if the presiding officer declines so to certify, a designee of the (*review authority*) so certifies upon appropriate application. The allowance of such an interlocutory appeal shall not stay the proceeding before the presiding officer unless the (*review authority*) shall so order.

V 38 I 140 JUL 23 73 XUM

§ 305.70–4 Discovery in Agency Adjudication (Recommendation No. 70–4).

Prehearing discovery in agency adjudication insures that the parties to the proceeding have access to all relevant, unprivileged information prior to the hearing. Its primary objectives include the more expeditious conduct of the hearing itself, the encouragement of settlement between the parties, and greater fairness in adjudication. Agencies that conduct adjudicatory proceedings generally enjoy broad investigatory powers, and fairness requires that private parties have equal access to all relevant, unprivileged information at some point prior to the hearing.

RECOMMENDATION

It is therefore recommended that each agency recognize the following minimum standards for discovery in adjudicatory proceedings subject to sections 5, 7 and 8 of the Administrative Procedure Act, now codified as 5 U.S.C. 554, 556 and 557. Individual agencies may permit additional discovery where appropriate and may tailor the recommended standards to meet the needs of particular types of proceedings where special or less elaborate discovery procedures will accomplish the same basic objectives or where the protective measures here recommended will be inadequate to achieve the ends sought. Each agency should undertake to train its hearing examiners in the application of the rules it promulgates to implement these standards. This training should draw upon the experience of other agencies, the Federal Courts, private practitioners, and bar associations.

The recommended minimum standards include the following procedures:

1. *Prehearing conferences.* The presiding officer should have the authority to hold one or more prehearing conferences during the course of the proceeding on his own motion or at the request of a party to the proceeding. The presiding officer should normally hold at least one prehearing conference in proceedings where the issues are complex or where it appears likely that the hearing will last a considerable period of time. The presiding officer at a prehearing conference should have the authority to direct the parties to exchange their evidentiary exhibits and witness lists prior to the hearing. Where good cause exists, the parties should have the right at any time to amend, by deletion or supplementation, their evidentiary exhibits and witness lists.

2. *Depositions.* A party to the proceeding should be able to take depositions of witnesses upon oral examination or written questions for purposes of discovering relevant, unprivileged information, subject to the following conditions:

(1) The taking of depositions should normally be deferred until there has been at least one prehearing conference;

(2) The party seeking to take a deposition should apply to the presiding officer for an order to do so;

(3) The party seeking to take a deposition should serve copies of the application on the other party or parties to the proceeding, who should be given an opportunity, along with the deponent, to notify the presiding officer of any objections to the taking of the deposition;

(4) The presiding officer should not grant an application to take a deposition if he finds that the taking of the deposition would result in undue delay;

(5) The presiding officer should otherwise grant an application to take a deposition unless he finds that there is not good cause for doing so; and

(6) The deposing of an agency employee should only be allowed upon an order of the presiding officer based on a specific finding that the party applying to take the deposition is seeking significant, unprivileged information not discoverable by alternative means. Any such order should be subject to an interlocutory appeal to the agency.

An order to take a deposition should be enforceable through the issuance of a subpoena ad testificandum.

3. *Witnesses*—(a) *Prior statements.* At the prehearing conference or at some other reasonable time prior to the hearing the attorney or employee appearing on behalf of the agency in the proceeding should make available to the other parties to the proceeding any prior statements of agency witnesses which are in the possession of the agency or obtainable by it from any other Federal agency and which relate to the subject matter of the expected testimony. "Statement" is defined to include only a written statement signed or adopted by the witness or a recording or transcription which is a substantially verbatim recital of an oral statement made by the witness to an agent of the Federal government.

(b) *Narrative summaries of expected testimony.* At the prehearing conference or at some other reasonable time prior to the hearing each party to the proceeding should make available to the other parties to the proceeding the names of the witnesses he expects to call and a narrative summary of their expected testimony. The attorney or employee appearing on behalf of the agency in the proceeding should have the authority to designate any prior statement or statements of an agency witness which he makes available to the other parties under 3(a) as all or part of the narrative summary of that witness' expected testimony. Where good cause exists, the parties should have the right at any time to amend, by deletion or supplementation, the list of names of the witnesses they plan to call and the narrative summaries of the expected testimony of those witnesses.

4. *Written interrogatories to parties*—(a) *Availability.* A party to the proceeding should be able to serve written interrogatories upon any other party for purposes of discovering relevant, unprivileged information. A party served with interrogatories, should be able, before he must answer the interrogatories, to apply to the presiding officer for the holding of a prehearing conference for the mutual exchange of evidentiary exhibits and other information. Each interrogatory which requests information not previously supplied at a prehearing conference should be answered separately and fully in writing under oath, unless it is objected to, in which event the reasons for the objection should be stated in lieu of an answer. The party upon whom the interrogatories have been served should serve a copy of the answers and objections within a reasonable time upon the party submitting the interrogatories. The party submitting the interrogatories may move the presiding officer for an order compelling an answer to an interrogatory or interrogatories to which there has been an objection or other failure to answer.

(b) *Interrogatories directed to the Agency.* Each agency should designate an appropriate official on whom other parties to the proceeding may serve written interrogatories directed to the agency. That official should arrange for agency personnel with knowledge of the facts to answer and sign the interrogatories on behalf of the agency. The attorney or employee appearing on behalf of the agency in the proceeding should have the authority to make and sign objections to interrogatories served upon the agency. Interrogatories directed to the agency which seek information available only from the agency head, member, or members should only be allowed upon an order of the agency based on a specific finding that the interrogating party is seeking significant, unprivileged information not discoverable by alternative means.

5. *Requests for admissions*—(a) *Availability.* A party to the proceeding should be able to serve upon any other party a written request for the admission, for purposes of the pending proceeding, of any relevant, unprivileged facts, including the genuineness of any document described in the request.

(b) *Requests directed to the Agency.* Each agency should designate an appropriate official on whom other parties to the proceeding may serve requests for admissions directed to the agency. That official should arrange for agency personnel with knowledge of the facts to respond to the requests on behalf of the agency. The attorney or employee appearing on behalf of the agency in the proceeding should have the authority to make and sign objections to requests for admissions served upon the agency. Requests directed to the agency which seek admissions obtainable only from the agency head, member or members should only be allowed upon an order of the agency based on a specific finding that the requesting party is seeking significant, unprivileged information not discoverable by alternative means.

6. *Production of documents and tangible things*—(a) *From non-parties.* A party to the proceeding should be able to obtain in accordance with agency rules a subpoena duces tecum requiring a non-party to produce relevant designated documents and tangible things, not privileged, at a prehearing conference, at the taking of the non-party's deposition, or at any other specific time and place designated by the issuing officer.

(b) *From parties.* A party to the proceeding should be able to apply to the presiding officer for an order requiring any other party to produce and to make available for inspection, copying or photographing, at a prehearing conference or other specific time and place, any designated documents and tangible things, not privileged, which constitute or contain relevant evidence. The party seeking production should serve copies of the application on the other party or parties to the proceeding, who should be given an opportunity to notify the presiding officer of any objections. The presiding officer should order the production of such designated documents and tangible things unless he finds that there is not good cause for doing so.

(c) *From the Agency.* For the purposes of paragraph 6, the agency conducting the proceeding should be considered a party to the proceeding whether or not the agency staff participates as a party to the proceeding.

7. *Role of the Presiding Officer*—(a) *Control over discovery.* The presiding officer should have the authority to impose schedules on the parties to the proceeding specifying the periods of time during which the parties may pursue each means of discovery available to them under the rules of the agency. Such schedules and time periods should be set with a view to accelerating disposition of the case to the fullest extent consistent with fairness.

(b) *Interlocutory appeals.* Except as provided by 2(6) above, an interlocutory appeal from a ruling of the presiding officer on discovery should be allowed only upon certification by the presiding officer that the ruling involves an important question of law or policy which should be resolved at that time by the appropriate review authority. Notwithstanding the presiding officer's certification, the review authority should have the authority to dismiss summarily the interlocutory appeal if it should appear that the certification was improvident. An interlocutory appeal should not result in a stay of the proceedings except in extraordinary circumstances.

8. *Protective Orders*—(a) *Authority of Presiding Officer in General.* The presiding officer should have the authority, upon motion by a party or by the person from whom discovery is sought, and for good cause shown, to make any order which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, including one or more of the following: (1) That the discovery not be had; (2) that the discovery may be had only on specified terms and conditions, including a designation of the time or place; (3) that the discovery may be had only by a method of discovery other than that selected by the party seeking discovery; (4) that certain matters not be inquired into, or that the scope of the discovery be limited to certain matters; (5) that discovery be conducted with no one present except persons designated by the presiding officer; (6) that a deposition after being sealed be opened only by order of the presiding officer; (7) that a trade secret or other confidential research, development, or commercial information not be disclosed or be disclosed only in a designated way; (8) that the parties simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the presiding officer.

(b) *Names of witnesses.* The presiding officer should have the authority upon motion by a party or other person, and for good cause shown, by order (a) to restrict or defer disclosure by a party of the name of a witness, a narrative summary of the expected testimony of a witness or, in the case of an agency witness, any prior statement of the witness, and (b) to prescribe other appropriate measures to protect a witness. Any party affected by any such action should have an adequate opportunity, once he learns the name of a witness and obtains the narrative summary of his expected testimony or, in the case of an agency witness, his prior statement or statements, to prepare for cross-examination and for the presentation of his case.

(c) *In Camera proceedings.* The presiding officer should have the authority to permit a party or person seeking a protective order to make all or part of the showing of good cause in camera. A record should be made of such in camera proceedings. If the presiding officer enters a protective order following a showing in camera, the record of such showing should be sealed and preserved and made available to the agency or court in the event of an appeal.

9. *Subpoenas.* The presiding officer should have the power to issue subpoenas ad testificandum and duces tecum at any time during the course of the proceeding. Agencies affected by this Recommendation that do not have the statutory authority to issue subpoenas should seek to obtain any necessary authority from the Congress.

§ 305.70–5 Practices and Procedures Under the Renegotiation Act of 1951 (Recommendation No. 70–5).

§ 305.71–1 Interlocutory Appeal Procedures (Recommendation No. 71–1).

Interlocutory appeal procedures for agency review of rulings by presiding officers must balance the advantages derived from intermediate correction of an erroneous ruling against interruption of the hearing process and other costs of piecemeal review. Striking an appropriate balance between these competing concerns requires that the exercise of discretion in individual cases be carefully circumscribed. Procedures that delegate the responsibility for allowing interlocutory appeals to presiding officers, with a reserved power in the agency to handle exceptional situations, have proven most satisfactory.

RECOMMENDATION [1]

Each agency which handles a substantial volume of cases that are decided on the basis of a record should adopt interlocutory appeal procedures based on the following principles:

1. Presiding officers should be authorized to rule initially on all questions raised in the proceeding. A ruling by the presiding officer, supported by a reasoned statement, usually should precede interlocutory review of the question raised.

2. In general, interlocutory appeal from a ruling of the presiding officer should be allowed only when the presiding officer certifies that (a) the ruling involves an important question of law or policy concerning which there is substantial ground for difference of opinion; and (b) an immediate appeal from the ruling will materially advance the ultimate termination of the proceeding or subsequent review will be an inadequate remedy.

3. Allowance of an interlocutory appeal should not stay the proceeding unless the presiding officer determines that extraordinary circumstances require a postponement. A stay of more than 30 days must be approved by the review authority.

4. If the number of interlocutory appeals in an agency is substantial, the authority to affirm, modify, or reverse the presiding officer's interlocutory ruling should be delegated, to the extent permitted by law, to a review authority designated by the agency.

5. Unless the review authority orders otherwise in the particular case, the review authority should decide the interlocutory appeal on the record and briefs submitted to the presiding officer without further briefs or oral argument. The review authority should summarily dismiss an interlocutory appeal whenever it determines that the presiding officer's certification was improvidently granted or that consideration of the appeal is unnecessary. If the review authority does not specify otherwise within 30 days after the certification or allowance of the interlocutory appeal, leave to appeal from the presiding officer's interlocutory ruling should be deemed to be denied.

6. Interlocutory review by petition to the review authority without certification by the presiding officer should be restricted to exceptional situations in which (a) vital public or private interests might otherwise be seriously impaired, and (b) the review authority has not had an opportunity to develop standards which the presiding officer can apply in determining whether interlocutory review is appropriate.

§ 305.71–2 Principles and Guidelines for Implementation of the Freedom of Information Act (Recommendation No. 71–2).

The Freedom of Information Act, 5 U.S.C. 552, expresses important policies with respect to the availability to the public of records of Federal agencies. To achieve free access to and prompt production of identifiable government records in accordance with the terms and policies of the Act, each agency [1] should conform to the statutory policy encouraging disclosure, adopt procedural regulations for the expeditious handling of information requests, and review the fees charged for providing information.

RECOMMENDATION

A. *General principles.* Agencies should conform to the following principles in handling requests for information:

1. Each agency should resolve questions under the Freedom of Information Act with a view to providing the utmost information. The exemptions authorizing non-disclosure should be interpreted restrictively.

2. Each agency should make certain that its rules provide the fullest assistance to inquirers, including information relating to where requests may be filed. It should provide the most timely possible action on requests for information.

3. When requested information is partially exempt from disclosure the agency should, to the fullest extent possible, supply that portion of the information which is not exempt.

4. If it is necessary for an agency to deny a request, the denial should be promptly made and the agency should specify the reason for the denial. Procedures for review of denials within the agency should be specified and any such review should be promptly made.

5. Fees for the provision of information should be held to the minimum consistent with the reimbursement of the cost of providing the information. Provision should be made for waiver of fees when this is in the public interest.

B. *Guidelines for handling of information request.* Each agency should adopt procedural rules to effectuate the principles stated in Part A. To assist in this task the following guidelines are set forth as a model of the kinds of procedures that are appropriate and would accomplish this purpose.

1. *Agency assistance in making request for records.* Each agency should publish a directory designating names or titles and addresses of the particular officers and employees in its Washington office and in its various regional and field offices to whom requests for information and records should be sent. Appropriate means should be used to make the directory available to members of the public who would be interested in requesting information or records.

Each agency should direct one or more members of its staff to take primary responsibility for assisting the public in framing requests for identifiable records containing the information that they seek. The names or titles and addresses of these staff members should be included in the public directory referred to above.

2. *Form of request.*—a. *No standard form.* No agency should require the use of standard forms for making requests. Any written request that identifies a record sufficiently for the purpose of finding it should be acceptable. A standard form may be offered as an optional aid.

b. *Categorical requests.* i. Requests calling for all records falling within a reasonably specific category should be regarded as conforming to the statutory requirement of

[1] This recommendation supersedes section 5 of Recommendation No. 70–3 and paragraphs 2(6) and 7(b) of Recommendation No. 70–4, adopted June 2–3, 1970, insofar as they deal with interlocutory appeals.

[1] The term agency as used herein denotes an agency, executive department, or a separate administration or bureau within a department which has adopted its own administrative structure for handling requests for records.

V 38 140
JUL 23 73
XUM

"identifiable records" if the agency would be reasonably able to determine which particular records come within the request and to search for and collect them without unduly burdening or interfering with agency operations because of the staff time consumed or the resulting disruption of files.

ii. If any agency responds to a categorical request by stating that compliance would unduly burden or interfere with its operations, it should do so in writing, specifying the reasons why and the extent to which compliance would burden or interfere with agency operations. In the case of such a response the agency should extend to the requester an opportunity to confer with it in an attempt to reduce the request to manageable proportions by reformulation and by outlining an orderly procedure for the production of documents.

3. *Partial disclosure of exempt records and files.* Where a requested file or record contains exempt information that the agency wishes to maintain confidential, it should offer to make available the file or a copy of the record with appropriate deletions if this can be done without revealing the exempt information.

4. *Time for reply to request.* Every agency should either comply with or deny a request for records within ten working days of its receipt unless additional time is required for one of the following reasons:

a. The requested records are stored in whole or part at other locations than the office having charge of the records requested.

b. The request requires the collection of a substantial number of specified records.

c. The request is couched in categorical terms and requires an extensive search for the records responsive to it.

d. The requested records have not been located in the course of a routine search and additional efforts are being made to locate them.

e. The requested records require examination and evaluation by personnel having the necessary competence and discretion to determine if they are: (a) Exempt from disclosure under the Freedom of Information Act and (b) should be withheld as a matter of sound policy, or revealed only with appropriate deletions.

When additional time is required for one of the above reasons, the agency should acknowledge the request in writing within the ten-day period and should include a brief notation of the reason for the delay and an indication of the date on which the records would be made available or a denial would be forthcoming.

The ten-day time period specified above should begin to run on the day that the request is received at that office of the agency having charge of the records. When a request is received at an office not having charge of the records, it should promptly forward the request to the proper office and notify the requester of the action taken.

If an agency does not reply to or acknowledge a request within the ten-day period, the requester may petition the officer handling appeals from denials of records for appropriate action on the request. If an agency does not act on a request within an extended deadline adopted for one of the reasons set forth above, the requester may petition the officer handling appeals from denials of records for action on the request without additional delay. If an agency adopts an unreasonably long extended deadline for one of the reasons set forth above, the requester may petition the officer handling appeals from denials of records for action on the request within a reasonable period of time from acknowledgment.

An extended deadline adopted for one of the reasons set forth above would be considered reasonable in all cases if it does not exceed ten additional working days. An agency may adopt an extended deadline in excess of the ten additional working days (i.e. a deadline in excess of twenty working days from the time of initial receipt of the request) where special circumstances would reasonably warrant the more extended deadline and they are stated in the written notice of the extension.

5. *Initial denials of requests.*—a. *Form of denial.* A reply denying a written request for a record should be in writing and should include:

i. A reference to the specific exemption under the Freedom of Information Act authorizing the withholding of the record and a brief explanation of how the exemption applies to the record withheld.

ii. An outline of the appeal procedure within the agency and of the ultimate availability of judicial review in either the district in which the requester resides or has a principal place of business, or in which the agency records are situated.

If the requester indicates to the agency that he wishes to have a brief written statement of the reasons why the exempt record is being withheld as a matter of discretion where neither a statute nor an executive order requires denial, he will be given such a statement.

b. *Collection of denials.* A copy of all denial letters and all written statements explaining why exempt records have been withheld should be collected in a single central-office file.

c. *Denials; protection of privacy.* Where the identity of a requester, or other identifying details related to a request, would constitute an unwarranted invasion of personal privacy if made generally available, as in the case of a request to examine one's own medical files, the agency should delete identifying details from copies of the request and written responses to it that are made available to requesting members of the public.

6. *Intra-agency appeals.*—a. *Designation of officer for appeals.* Each agency should publicly designate an officer to whom a requester can take an appeal from a denial of records.

b. *Time for action on appeals.* There should be only one level of intra-agency appeal. Final action should be taken within twenty working days from the time of filing the appeal. Where novel and very complicated questions have been raised, the agency may extend the time for final action for a reasonable period beyond twenty working days upon notifying the requester of the reasons for the extended deadline and the date on which a final response will be forthcoming.

c. *Action on appeals.* The grant or denial of an appeal should be in writing and set forth the exemption relied on, how it applies to the record withheld, and the reasons for asserting it. Copies of both grants and denials on appeal should be collected in one file open to the public and should be indexed according to the exemptions asserted and, to the extent feasible, according to the type of records requested.

d. *Necessity for prompt action on petitions complaining of delay.* Where a petition to an appeals officer complaining of an agency's failure to respond to a request or to meet an extended deadline for responding to a request does not elicit an appropriate response within ten days, the requester may treat his request as denied and file an appeal. Where a petition to an appeals officer complaining of the agency's imposition of an unreasonably long deadline to consider assertion of an exemption does not bring about a properly revised deadline, the requester may treat his request as denied after a reasonable period of time has elapsed from his initial request and he may then file an appeal.

C. *Fees for the provision of information.* Each agency should establish a fair and equitable fee schedule relating to the provision of information. To assist the agencies in this endeavor, a committee composed of representatives from the Office of Management and Budget, the Department of Justice and the General Services Administration, should establish uniform criteria for determining a fair and equitable fee schedule relating to requests for records that would take into account, pursuant to 31 U.S.C. 483a (1964), the costs incurred by the agency, the value received by the requester and the public interest in making the information freely and generally available. The Committee should also review agency fees to determine if they comply with the enunciated criteria. These criteria might include the following:

1. *Fees for copying documents.* In view of the public interest in making government information freely available, the fee charged for reproducing documents in written, typewritten, printed or other form that permits copying by duplicating processes, should be uniform and not exceed the going commercial rate, even where such a charge would not cover all costs incurred by particular agencies.

2. *No fee for routine search.* In view of the public interest in making government held information freely available, no charge should be made for the search time and other incidental costs involved in the routine handling of a request for a specific document.

3. *No fee for screening out exempt records.* As a rule, no charge should be made for the time involved in examining and evaluating records for the purpose of determining whether they are exempt from disclosure under the Freedom of Information Act and should be withheld as a matter of sound policy. Where a broad request requires qualified agency personnel to devote a substantial amount of time to screening out exempt records and considering whether they should be made available, the agency in its discretion may include in its fee a charge for the time so consumed. An important factor in exercising this discretion and determining the fee should be whether the intended use of the requested records will be of general public interest and benefit or whether it will be of primary value to the requester.

§ 305.71–3 Articulation of Agency Policies (Recommendation No. 71–3).

Agencies of the Federal Government should strive to act on the basis of articulated policies and standards. Concerns of good government and efficient management support this general principle, as do the developing views of the Federal courts.

RECOMMENDATION

Agency policies which affect the public should be articulated and made known to the public to the greatest extent feasible. To this end, each agency which takes actions affecting substantial public or private interests, whether after hearing or through informal action, should, as far as is feasible in the circumstances, state the standards that will guide its determination in various types of agency action, either through published decisions, general rules or policy statements other than rules. Each such agency from time to time should review its precedents, rules and policy statements to assure that they accurately reflect the agency's developing experience. If rulemaking is used for these purposes, each agency should establish and publish general or particular procedures (whether or not such procedures are required by statute) that define the extent and manner of public participation appropriate in the circumstances.

§ 305.71–4 Minimum Procedures for Agencies Administering Discretionary Grant Programs (Recommendation 71–4).

Agencies that administer grant programs employ disparate and sometimes inadequate procedures in notifying applicants of available funds, stating policies for award of grants, informing applicants of actions taken on applications, and other matters. Adoption of more uniform, minimum procedures would be helpful to the agencies and would assist applicants, who often must deal with a number of different agencies. The recommendation applies to all grant programs which involve the exercise of some discretion in their administration. It is not intended to apply to Federal grant-in-aid programs that are wholly mandatory, *i.e.*, dispensed in accordance with a statutory formula without any discretion on the part of the agency.

RECOMMENDATION

Agencies should examine and revise their grant procedures to achieve to the maximum extent practicable the following objectives:

1. *Public notice.* Agencies should publish a notice in the FEDERAL REGISTER (or in other publications that, in the judgment of the agency, have wider distribution among potential grantees) of the availability of grant funds at the outset of a new grant program, each time additional funds become available, and each time a deadline is established for submission of applications for funds. When an agency elects to publish elsewhere than in the Federal Register, it should publish in the Federal Register a statement specifying the other publication or publications in which it will publish.

2. *Development of criteria by rulemaking.* Unless otherwise provided by statute, agencies should issue regulations, pursuant to the notice and opportunity to comment provisions of the Administrative Procedure Act (5 U.S.C. 553), specifying: (a) The procedures to be followed by applicants, and (b) criteria or standards, and priorities among criteria or standards, for the selection of grantees under each grant program. Agencies should review and, when appropriate, reissue such regulations at least once every five years.

3. *Avoidance of conflict of interest.* Agencies should review their practices regarding utilization of advisory committees to ensure that they are in full compliance with existing conflict-of-interest requirements.

4. *Notification of applicants.* Agencies should notify applicants in writing of the award, rejection, modification, non-renewal or termination of grants, or the disallowance of expenditures under grants, specifying the grounds for such action. A more detailed statement of reasons should be made available upon request by the applicant.

5. *Public information.* Unless otherwise provided by statute and subject to the exemptions contained in the Freedom of Information Act, 5 U.S.C. 552(b), agencies should maintain and make available to public inspection the notifications specified in paragraph 4.

§ 305.71–5 Procedures of the Immigration and Naturalization Service in Respect to Change-of-Status Applications (Recommendation No. 71–5).

§ 305.71–6 Public Participation in Administrative Hearings (Recommendation No. 71–6).

Individuals and citizen organizations, often representing those without a direct economic or personal stake in the outcome, are increasingly seeking to participate in administrative hearings. Their concern is to protect interests and present views not otherwise adequately represented in the proceedings. Agencies are exposed to the views of their staffs, whose positions necessarily blend a number of interests, and to the views of those whose immediate stake is so great that they are willing to undertake the cost of vigorous presentation of their private interests. The opportunity of citizen groups to intervene as parties in trial-type proceedings where their views are unrepresented, formerly challenged on doctrinal grounds that they lacked a sufficient interest to have "standing," has been greatly broadened by statutes, administrative actions, and judicial decisions. Agency decisionmaking benefits from the additional perspectives provided by informed public participation. However, the scope and manner of public participation desirable in agency hearings has not been delineated. In order that agencies may effectively exercise their powers and duties in the public interest, public participation in agency proceedings should neither frustrate an agency's control of the allocation of its resources nor unduly complicate and delay its proceedings. Consequently, each agency has a prime responsibility to reexamine its rules and practices to make public participation meaningful and effective without impairing the agency's performance of its statutory obligations.

RECOMMENDATION

In connection with agency proceedings where the agency's decision is preceded by notice and an opportunity to be heard or otherwise to participate—namely, notice-and-comment rulemaking, on-the-record rulemaking and adjudication—each agency should, to the fullest extent appropriate in the light of its capabilities and responsibilities, apply the following criteria in determining the scope of public participation and adopt the following methods for facilitating that participation:

A. *Intervention or other participation.* Agency rules should clearly indicate that persons whose interests or views are relevant and are not otherwise represented should be allowed to participate in agency proceedings whether or not they have a direct economic or personal interest. Whatever the form of the proceeding, reasonable limits should be imposed on who may participate in order (a) to limit the presentation of redundant evidence, (b) to impose reasonable restrictions on interrogation and argument, and (c) to prevent avoidable delay. In every determination of whether participation is appropriate, the agency should also determine whether the prospective participant's interests and views are otherwise represented and the effect of participation on the interests of existing parties.

1. *Notice-and-comment rulemaking proceedings.*—Agencies engaging in notice-and-comment rulemaking should, to the extent feasible: (a) Make available documents, materials and public submissions upon which the proposed rule is based; (b) invite the presentation of all views so that the agency may be apprised of any relevant consideration before formulating policy; (c) develop effective means of providing notice to the affected public and to groups likely to possess useful information; and (d) if there is a hearing, allocate time fairly among all participants.

2. *On-the-record rulemaking and adjudicative hearings.*—Public participation should be freely allowed in trial-type proceedings where the agency action is likely to affect the interests asserted by the participants. Intervention or other participation in enforcement or license revocation proceedings should be permitted when a significant objective of the adjudication is to develop and test a new policy or remedy in a precise factual setting or when the prospective intervener is the de facto charging party. Public participation in enforcement proceedings, license revocations or other adjudications where the issue is whether the charged respondent has violated a settled law or policy should be permitted only after close scrutiny of the effect of intervention or other participation on existing parties.

B. *Selection of interveners.* Intervention by a particular group or person as a party in a trial-type proceeding should depend upon a balancing of several factors, including:

(a) The nature of the contested issues;

(b) The prospective intervener's precise interest in the subject matter or possible outcome of the proceeding;

(c) The adequacy of representation provided by the existing parties to the proceeding, including whether these other parties will represent the prospective intervener's interest and present its views, and the availability of other means (*e.g.*, presentation of views or argument as an *amicus curiae*) to protect its interest;

(d) The ability of the prospective intervener to present relevant evidence and argument; and

(e) The effect of intervention on the agency's implementation of its statutory mandate.

C. *Scope of participation.* The scope of an intervener's participation in a trial-type proceeding must assure it a fair opportunity to present pertinent information and to provide the agency a sound basis for decision, without rendering the hearing unmanageable. The nature of the issues, the intervener's interests, its ability to present relevant evidence and argument, and the number, interests and capacities of the other parties should determine the dimensions of that participation. In general, a public intervener should not be allowed to determine the broad outline of the proceeding, such as the scope or compass of the issues. A public intervener generally should be allowed all the rights of any other party including the right to be represented by counsel, participate in prehearing conferences, obtain discovery, stipulate facts, present and cross-examine witnesses, make oral and written argument, and participate in settlement negotiations. Where the intervener focuses on only one aspect of the proceeding or does not seek to controvert adjudicative facts, consideration should be given to limiting its participation to particular issues, written evidence, argument or the like. Agencies should be cautious in advance of actual experience in anticipating that intervention will cause undue delays.

D. *Cost of participation.* The cost of participation in trial-type proceedings can render the opportunity to participate meaningless. Agencies have an obligation to minimize transcript charges, to avoid unnecessary filing requirements; and to provide assistance in making information available; and they should experiment with allowing access to their staff experts as advisers and witnesses in appropriate cases.

1. *Filing and distribution requirements.*—Filing and distribution requirements (*e.g.*, multiple copy rules) should be avoided except as necessary and provision should be made for a waiver where the requirement is burdensome. Existing filing and distribution requirements should be re-examined. Agen-

V 38 140 JUL 23 73 XUM

cies should make every effort to provide duplication facilities at a minimum cost.

2. *Transcripts.* The cost of recording formal proceedings should be borne by the agencies, not by the parties or other participants to the proceeding (except to the extent that a person requests expedited delivery). Existing contracts and arrangements should be revised to provide for the availability, either through a reporting service or the agency itself, of transcripts at a minimum charge reflecting only the cost of reproducing copies of the agency's transcript. Transcripts should be available without charge to indigent participants to the extent necessary for the effective representation of their interests. Where the aggregate of these transcript costs imposes a significant financial burden on the agency, the agency should seek and Congress should provide the necessary additional appropriation.

3. *Availability of information and experts.*—An agency should provide assistance to participants in proceedings before it or another agency, provided that the agency's resources will not be seriously burdened or its operations impaired. Assistance should include advice and help in obtaining information from the agency's files. Each agency should experiment with allowing access to agency experts and making available experts whose testimony would be helpful in another agency's proceedings.

E. *Notice.* Each agency should utilize such methods as may be feasible, in addition to the FEDERAL REGISTER's official public notice, to inform the public and citizen groups about proceedings (including significant applications and petitions) where their participation is appropriate. Among the techniques which should be considered are factual press releases written in lay language, public service announcements on radio and television, direct mailings and advertisements where the affected public is located, and express invitations to groups which are likely to be interested in and able to represent otherwise unrepresented interests and views. The initial notice should be as far in advance of hearing as possible in order to allow affected groups an opportunity to prepare. Each agency should consider publication of a monthly bulletin,[1] listing:

(a) The name and docket number or other identification of any scheduled proceeding in which public intervention may be appropriate;

(b) A brief summary of the purpose of the proceeding;

(c) The date, time and place of the hearing; and

(d) The name of the agency, and the name and address of the person to contact if participation or further information is sought.

NOTE: Five separate statements were filed concerning this Recommendation.

§ 305.71–7 Rulemaking on a Record by the Food and Drug Administration (Recommendation No. 71–7).

§ 305.71–8 Modification and Dissolution of Orders and Injunctions (Recommendation No. 71–8).

Cease-and-desist orders issued by administrative agencies and injunctions obtained by administrative agencies from the federal courts in the enforcement of regulatory statutes have generally been permanent in duration. As a result of this practice, many orders and injunctions now outstanding are decades old. Such outstanding orders and injunctions may serve no useful purpose and often cause inconvenience and hardship to the respondents. A number of agencies have experimented successfully with techniques for limiting the duration of certain types of orders and injunctions to a set period of time, but this approach is not appropriate in many circumstances. To deal with this situation agencies should therefore have available procedures whereby respondents may seek modification or dissolution of outstanding orders and injunctions.

RECOMMENDATION

A. *Agency cease-and-desist orders.* Each federal agency that issues a significant number of cease-and-desist orders over which it retains jurisdiction should have a procedure available whereby a respondent may request the agency to modify or vacate a cease-and-desist order that has become final. The factors considered by the agency in ruling upon such a request should include: The period of time the order has been in effect; changed conditions of fact or law during that period; the respondent's compliance with the order; the likelihood of further violations of the order; the hardship which the order imposes on the respondent; the extent of the respondent's compliance with requirements of law that are related to those covered by the order; the interests of other persons or parties affected by the order; the importance of the order to the agency's overall enforcement program; and the public interest in the enforcement of the law.

B. *Court-enforced orders.* Each federal agency that obtains a significant number of injunctions in the federal courts or issues a significant number of cease-and-desist orders which are enforced by federal courts that retain by statute exclusive jurisdiction over the orders should have a procedure available whereby a respondent may request the agency to join or concur with it in moving the court to modify or vacate such an injunction or order or, in the case of an order issued by the agency, to remand the proceeding to the agency for that purpose. The factors considered by the agency in acting upon such a request should include those stated in paragraph A.

§ 305.71–9 Enforcement of Standards in Federal Grant-in-Aid Programs (Recommendation No. 71–9).

(a) Federal agencies annually disburse billions of dollars in grants-in-aid to State and local governments and to private entities to subsidize activities in such areas as welfare, housing, transportation, urban development and renewal, law enforcement, education, pollution control and health. While State and local governments and private organizations are the direct recipients of the grants, the intended ultimate beneficiaries of the grant programs are private persons helped by the expanded level of support or services made possible by Federal funds.

(b) In administering these grants both public and private grantees must observe the Federal grant standards established to assure the accomplishment of Federal purposes. Federal agencies have often encountered difficulty in enforcing compliance by the grantees with the Federal standards. A factor contributing to this difficulty is that many Federal agencies do not have adequate procedures for resolving questions of compliance and for handling complaints by private persons affected by a grant-in-aid program that the program does not comply with Federal standards. A further contributing factor is that the principal sanction presently available to Federal agencies for securing compliance is to cut off the flow of Federal funds. This sanction raises a serious problem because, unless its threatened imposition prompts compliance, it stops worthwhile programs and adversely affects the interests of the innocent private persons whom the Congress intended to benefit through the program of Federal financial assistance.

(c) To aid in alleviating this situation the following recommendations are proposed with respect to each Federal program in aid of State, local or private activities through which support or services are provided to individual beneficiaries or to the public generally. However, the recommendation does not apply to research, training, or demonstration grants to government units or private organizations or individuals, or to grants such as fellowship grants to individuals that primarily benefit the recipients of the grants.

RECOMMENDATION

A. *The Federal administrative complaint procedure.* The Federal grantor agency should have an administrative procedure for the receipt and impartial consideration of complaints by persons affected by the grant-in-aid program that a plan, project application or other data submitted by a grant applicant or grantee as a basis for Federal funding does not meet one or more Federal standards. This procedure should afford the complainant an opportunity to submit to the grantor agency for its consideration data and argument in support of the complaint, and should afford the grant applicant or grantee involved a fair opportunity to respond. If the agency determines that the complaint is apparently ill-founded or is insubstantial, it should notify the complainant of its determination and should state in writing the reasons therefor. If the agency determines that the complaint appears to be substantial and supported by the information at hand, it should so notify both the complainant and the grant applicant or grantee of its present determination in this respect and should state in writing the reasons therefor. If the agency exercises discretion not to make a determination on one or more issues raised by a complaint, it should so notify the complainant in writing. The agency should pass upon all complaints within a prescribed period of time.

The complaint procedure administered by the Federal grantor agency should also provide for the receipt and impartial consideration of complaints that a grantee has in its administration of the funded program failed to comply with one or more Federal standards. It is anticipated that many grantor agencies will find it necessary to limit their consideration of such complaints to situations in which the complainant raises issues which affect a substantial number of persons or which are particularly important to the effectuation of Federal policy and will, therefore, dispose of most individual complaints concerning grantee administration by referring the complainant to such complaint procedures as are required to be established by the grantee. The grantor agency should seek by regulation to define the classes of cases that it will consider sufficiently substantial to warrant processing through the Federal complaint procedure and those classes of cases wherein complainants will be required to pursue a remedy through available complaint procedures administered by the grantee.

B. *The grantee's administrative complaint procedures.* The Federal grantor agency should require as a grant condition the establishment by the grantee of procedures to handle complaints concerning the grantee's operation of the federally assisted program. These procedures should afford any person affected by an action of the grantee in the operation of the program a fair opportunity to contest that action. The "fair opportunity" to contest will necessarily vary with the nature of the issues involved and the identity and interests of the complainant. In all cases, however, the complainant should have the right to submit to the grantee for its consideration data and argument in support of the complainant's position.

C. *The information system.* The Federal grantor agency should seek to assure that persons affected by a grant-in-aid program receive adequate information about the program in order that they may take advantage of the Federal and the grantee complaint procedures. The Federal grantor agency should require as a grant condition that all program materials (regulations, handbooks, manuals, etc.) governing the grantee's administration of a program supported in whole or in part by Federal grant-in-aid funds and all plans, applications and other documents required to be submitted to the Federal agency as a condition to the receipt of Federal funds should be readily accessible to persons affected or likely to be affected by the operation of the funded program. Plans, applications and other documents that provide the basis for Federal funding should be made readily accessible to interested persons no later than the time of their submission to the grantor agency for approval and at an earlier time when required by law.

The Federal grantor agency should seek to assure that the grantee's system for dissemination of program materials and grant submissions takes account of the nature, location and representation of affected persons. For example, as a part of a plan to make such materials readily accessible, program information might be deposited not only in the offices of the grantee but also in public and university libraries and in the offices of affected interest groups and their legal representatives. It might also be necessary to require the provision of descriptive summaries of technical rules or project applications or to require an oral explanation of program features, for example, the complaint procedures, which are critical to the protection of a beneficiary's interests. The Federal agency should make parallel efforts to disseminate materials relating to its administration of the Federal grant program.

D. *Range of sanctions.* The Federal grantor agency should seek to develop an adequate range of sanctions for insuring compliance with Federal standards by grantees that apply for or receive Federal financial assistance. The sanction of the total denial or cut-off of Federal funds should be retained and used where necessary to obtain compliance, but the agency should have available lesser sanctions that do not result in the prevention or discontinuance of beneficial programs and projects. This range of sanctions should include in appropriate cases:

1. The public disclosure by the agency of a grantee's failure to comply with Federal standards and an indication of the steps believed by the agency now to be appropriate.

2. An injunctive action brought by the agency or the Department of Justice in the Federal courts to require the grantee to fulfill any assurances of compliance with Federal standards made by the grantee or to enforce the Federal standards attached to the grant.

3. The disallowance as a program or project cost of an expenditure by the grantee that does not conform with Federal standards, or other partial denial or cutoff of funds that affects only that portion of a program or project that is not in compliance with Federal standards.

4. The imposition on a grantee who has not complied with Federal standards of additional administrative requirements specially designed to assure that the grantee brings its operations into compliance with Federal standards and redresses the effects of past noncompliance.

5. The transfer of a grant, or the awarding of subsequent grants under the same or related grant-in-aid programs, to a different grantee if the original grantee violates Federal standards.

Where an agency lacks statutory authority to invoke one or more of the above sanctions and such authority would provide an appropriate means of insuring compliance with Federal standards in a grant-in-aid program administered by the agency, it should seek the necessary authority from the Congress.

E. *Other performance incentives.* The agency should also consider the provision of incentives, such as the contribution of an increased matching share or the awarding of additional grant funds, to grantees who fulfill certain Federal goals. Where the agency lacks statutory authority to provide compliance incentives and such authority would provide an appropriate means of ensuring effectuation of Federal objectives in a grant-in-aid program administered by the agency, it should seek the necessary authority from the Congress.

§ 305.72–1 Broadcast of Agency Proceedings (Recommendation No. 72–1).

In recent years radio and television broadcasters have sought live or delayed coverage of many kinds of public governmental proceedings. While Canon 35 of the Canons of Judicial Ethics of the American Bar Association states that broadcasting or televising of court proceedings "should not be permitted," the reasons for this policy, to the extent they are applicable to administrative proceedings, are often outweighed by the need to inform the public concerning administrative proceedings, particularly those of broad social or economic impact, and to encourage participation in and understanding of the administrative process. Therefore, the public interest will be served by permitting radio and television coverage of many administrative proceedings, subject to appropriate limitations and controls.

RECOMMENDATION

A. *Audiovisual coverage of public administrative proceedings.* An agency which conducts proceedings of interest to the general public should adopt regulations, consistent with the principles stated below, which state whether audiovisual coverage of each type of proceeding is permitted, precluded or left to the discretion of the presiding officer or other official under standards determined by the agency.

1. *Proceedings in which audiovisual coverage should be encouraged.*—Notice-and-comment and on-the-record rulemaking proceedings, and adjudications in which a public interest standard is applied to authorize service or determine its level or quality, normally involve issues of broad public interest. An agency should take affirmative steps to encourage audiovisual coverage of public hearings or oral presentations in such proceedings, including provision of adequate space and facilities, convenient schedules, and the like.

2. *Proceedings in which audiovisual coverage should be excluded.*—Audiovisual coverage should be excluded in adjudicatory proceedings involving the rights or status of individuals (including those of small corporations likely to be indistinguishable in the public mind from one or a few individuals) in which individual past culpable conduct or other aspect of personal life is a primary subject of adjudication and the person in question objects to coverage.

3. *Proceedings in which agencies should balance conflicting values.* In adjudicatory proceedings not governed by paragraphs 1 and 2, an agency should determine whether the drawbacks of audiovisual coverage outweigh the advantages of informing the public. When audiovisual coverage is excluded or restricted, the agency should state the reasons for such exclusion or restriction on the record of the proceeding.

B. *Prevention of disruption.* Audiovisual coverage should be conducted with minimal physical intrusion on the normal course of the proceeding. Agencies should impose reasonable restrictions on lighting, multiple microphones and other possible sources of disruption.

C. *Protection of witnesses.* In any public proceeding a witness should have the right, prior to or during his testimony, to exclude audiovisual coverage of his testimony.

NOTE. A separate statement was filed concerning this Recommendation.

§ 305.72–2 Conflict-of-Interest Problems in Dealing with Natural Resources of Indian Tribes (Recommendation No. 72–2).

§ 305.72–3 Procedures of the United States Board of Parole (Recommendation No. 72–3).

§ 305.72–4 Suspension and Negotiation of Rate Proposals by Federal Regulatory Agencies (Recommendation No. 72–4).

The determinations of the Civil Aeronautics Board, Federal Communications Commission, Federal Power Commission, and Interstate Commerce Commission whether to exercise or refrain from exercising their power to suspend and investigate newly filed rate proposals are of great importance to regulated companies, their customers, and the general public. Although a decision not to suspend does not preclude an agency investigation at a later date (either *sua sponte* or upon complaint), inertia then plays a significant role. Moreover, once a tariff change is effectuated, in most cases the burdens of dislodging an existing rate rest upon its challenger. Since suspension of a rate initiates a proceeding that is likely to be protracted and costly, a decision to suspend is also an important action. The procedures by which rate proposals are suspended, including the various forms of private negotiation that often accompany the suspension process, can and should be improved.

RECOMMENDATION

A. *Suspension of rate proposals.*—1. *Statement of reasons for suspension.*—A ratemaking agency in exercising its statutory power to suspend rate proposals should state the reasons for suspension to the extent practicable. Identification by the agency of the limits and sources of its concern, and not merely a recital of statutory criteria, will enable the proponent of the rate to make a more informed decision whether to withdraw the proposal, modify it or persist in it, and will also serve to focus the areas of controversy in the event that the regulated company stands on its proposal and the matter goes to hearing.

2. *"Speaking" orders of suspension.*—Ratemaking agencies which are not authorized to

[1] This recommendation does not supersede Recommendation No. 68–4, Consumer Bulletin.

V 38 140 JUL 23 73 XUM

prescribe rates without public proceedings should not provide in suspending a rate a detailed statement of a substitute proposal that the agency would allow to go into permanent effect without suspension. The expression of detailed agency views concerning an acceptable rate should not be used as a means of prescribing a rate without allowing interested persons an opportunity to participate.

B. *Negotiation between the agency and the regulated company.* A rate-making agency should not rely on a pattern of regulation consisting largely or solely of informal negotiation by the members of the agency with regulated companies in order to influence, shape or pre-audit rate proposals to be filed in the future. In the short run negotiation may appear efficient because it avoids the burden of complex public proceedings. In the long run, however, over-reliance on negotiation may inhibit the development of an adequate staff, compromise the independence of the agency in passing on protests and complaints against negotiated rates, delay the development of an adequate methodology of regulation, and result in a failure to formulate visible and predictable standards. The development of such standards is critical to expeditious disposition of rate proceedings. Since negotiation with respect to rates could preclude effective participation by others who have a direct interest in the outcome, any negotiation undertaken should, to the extent practicable, be conducted in proceedings open to them.

C. *Authorization of temporary and partial increases.* Regulatory statutes should be amended, to the extent that existing authority is lacking, to authorize rate-making agencies, as an adjunct to their power to suspend, to allow temporary rate increases, including partial increases, subject to appropriate conditions (including, where practicable, provision for refund if the interim increase is ultimately found unjustified). A temporary increase should be authorized only when the agency makes a preliminary judgment, on the basis of a written showing by the regulated company and an opportunity for comment thereon by affected persons, that a proposed increase is justifiable at least in part. Exercise of authority to grant temporary increases, rather than suspending a proposed increase in full or allowing it to go into effect without suspension, would mitigate the effects of regulatory lag. Similar authority to allow temporary and partial rate reductions, or other temporary changes, should also be sought where appropriate.

D. *Settlement of rate proceedings*—1. *Settlement by agreement of the parties.*—Settlement of rate proceedings by agreement among the parties, either before or after an evidentiary hearing, is appropriate and desirable if the agency, on the basis of the available record and any further written submissions, is in a position to determine that the disposition is in the public interest.

2. *Settlement in the absence of agreement.*—Disposition of a rate proceeding on the basis of a proposed settlement, in the absence of full agreement by the parties, should turn upon the nature of the issues involved in the proceeding and the appropriateness of an evidentiary hearing for a fair, accurate, and efficient decision of those issues. The degree of consensus among the parties and the nature of the interests represented by any objecting parties are factors which the agency may consider in determining whether a settlement is in the public interest. In situations in which a participant who is objecting to a proposed disposition does not show that a genuine issue of material fact is involved, an agency may dispose of a rate proceeding on the basis of written submissions without holding an evidentiary hearing for purposes of cross-examination.

The Administrative Procedure Act requires cross-examination only insofar as it is required "for a full and true disclosure of the facts," 5 U.S.C. 556(d).

E. *Screening of tariff adjustments by the Interstate Commerce Commission Staff.* The disposition of rate matters by the Interstate Commerce Commission presents special problems because of the enormous volume of tariff adjustments, given the existing regulatory scheme, which it receives from a very large number of companies performing a wide variety of transportation services. The Commission, largely because of limitations of manpower, now relies almost entirely upon the self-interest of competitive carriers and of shippers to alert it by the filing of protests to matters warranting its serious consideration. To the extent that resources and priorities permit, the Commission should assume a greater burden of screening tariff adjustments on its own initiative.

NOTE.—A separate statement was filed concerning this Recommendation.

§ 305.72–5 Procedures for the Adoption of Rules of General Applicability (Recommendation No. 72–5).

(a) The Administrative Procedure Act, 5 U.S.C. 553 (1970), provides simple, flexible and efficient procedure for rulemaking, including publication of a notice of proposed rulemaking in the Federal Register, opportunity for submission of written comments, and opportunity in the discretion of the agency for oral presentation. This notice-and-comment rulemaking procedure is extensively used and on the whole has worked well. Each agency is of course free to provide additional procedural protection to private parties in any proceeding.

(b) There are statutes that require procedures in addition to those required by section 553. Some require opportunity for oral arguments, some require agency consultation with advisory committees, and some require trial-type procedure.

(c) The Administrative Conference believes that statutory requirements going beyond those of section 553 should not be imposed in absence of special reasons for doing so, because the propriety of additional procedures is usually best determined by the agency in the light of the needs of particular rulemaking proceedings. The Administrative Conference emphatically believes that trial-type procedures should never be required for rulemaking except to resolve issues of specific fact.

RECOMMENDATION

1. This recommendation applies only to rules of general applicability and not to rules of particular applicability, only to substantive rules and not to procedural rules, only to legislative rules and not to interpretative rules, and only to rulemaking governed by section 553 and not to rulemaking excepted from the requirements of section 553.

2. In future grants of rulemaking authority to administrative agencies, Congress ordinarily should not impose mandatory procedural requirements other than those required by 5 U.S.C. 553, except that when it has special reason to do so, it may appropriately require opportunity for oral argument, agency consultation with an advisory committee, or trial-type hearings on issues of specific fact.

3. Congress should never require trial-type procedures for resolving questions of policy or of broad or general fact. Ordinarily it should not require such procedures for making rules of general applicability, except that it may sometimes appropriately require such procedures for resolving issues of specific fact. Existing statutes imposing a requirement of trial-type procedures for rulemaking of general applicability should be reexamined in light of these principles.

4. A study of proceedings conducted by the Food and Drug Administration pursuant to section 701(e) of the Federal Food, Drug and Cosmetic Act, 21 U.S.C. section 371(e) (1970), has demonstrated that that section should be amended so as to make clear that trial-type hearings are not required except on issues of specific fact.

5. Each agency should decide in the light of the circumstances of particular proceedings whether or not to provide procedural protections going beyond those of section 553, such as opportunity for oral argument, agency consultation with an advisory committee, opportunity for parties to comment on each other's written or oral submissions, a public-meeting type of hearing, or trial-type hearing for issues of specific fact.

§ 305.72–6 Civil Money Penalties as a Sanction (Recommendation No. 72–6).

(a) Federal administrative agencies enforce many statutory provisions and administrative regulations for violation of which fixed or variable civil money penalties may be imposed.[1] During Fiscal 1971, seven executive departments and thirteen independent agencies collected well in excess of $10 million, in over 15,000 cases; all evidence points to a doubling or tripling dollar magnitude and substantially increasing caseload within the next few years.

(b) Increased use of civil money penalties is an important and salutary trend. When civil money penalties are not available, agency administrators often voice frustration at having to render harsh "all-or-nothing decisions" (e.g., in license revocation proceedings), sometimes adversely affecting innocent third parties, in cases in which enforcement purposes could better be served by a more precise measurement of culpability and a more flexible response. In many areas of increased concern (e.g., health and safety, the environment, consumer protection) availability of civil money penalties might significantly enhance an agency's ability to achieve its statutory goals.

[1] For purposes of this recommendation, no distinction has been drawn between sanctions denominated "money penalties" and sanctions denominated "forfeitures" (e.g., in FCC legislation) and "fines" (e.g., in Postal Service legislation) so long as (i) the sanction is classified as civil and (ii) money is, in fact, subject to collection by an agency or a court. Excluded are situations involving penalties or liquidated damages assessed pursuant to the terms of a government contract or sums withheld or recovered for failure to comply with the terms of a government grant.

(c) In developing a range of sanctions adequate to meet enforcement needs, Congress and agencies must often determine whether a "criminal fine" or a "civil money penalty," or both, should be applied to a given regulatory offense. The choice they make has large consequences. Criminal penalties expose an offender to the disgrace and disabilities associated with "convictions"; they require special procedural and other protections; and they can not be imposed administratively. These factors make it appropriate to consider whether criminal sanctions should not be supplemented or replaced by civil money penalties.

(d) Under most money penalty statutes, the penalty cannot be imposed until the agency has succeeded in a de novo adjudication in federal district court, whether or not an administrative proceeding has been held previously. The already critical overburdening of the courts argues against flooding them with controversies of this type, which generally have small precedential significance.

(e) Because of such factors as considerations of equity, mitigating circumstances, and the substantial time, effort and expertise such litigation often requires in cases usually involving relatively small sums (an average of less than $1,000 per case), agencies settle well over 90 percent of their cases by means of compromise, remission, or mitigation. Settlements are not wrong *per se*, but the quality of the settlements under the present system is a matter of concern. Regulatory needs are sometimes sacrificed for what is collectible. On the other hand, those accused sometimes charge that they are being denied procedural protections and an impartial forum and that they are often forced to acquiesce in unfair settlements because of the lack of a prompt and economical procedure for judicial resolution. Moreover, several agency administrators warn that some of the worst offenders, who will not settle and cannot feasibly be brought to trial, are escaping penalties altogether.

NOTE: This recommendation is intended to meet the problems posed above.

RECOMMENDATION

A. *Desirability of Civil Money Penalties as a Sanction.* 1. Federal administrative agencies should evaluate the benefits which may be derived from the use (or increased use) of civil money penalties as a sanction. Such penalties should not be adopted as a means of supplanting or curtailing other private or public civil remedies.

2. Civil money penalties are often particularly valuable, and generally should be sought, to supplement those more potent sanctions already available to an agency—such as license suspension or revocation—whose use may prove (a) unduly harsh for relatively minor offenses, or (b) infeasible because, for example, the offender provides services which cannot be disrupted without serious harm to the public.

3. Each federal agency which administers laws that provide for criminal sanctions should review its experience with such sanctions to determine whether authorizing civil money penalties as another or substitute sanction would be in the public interest. Such authority for civil money penalties would be particularly appropriate, and generally should be sought, where offending behavior is not of a type readily recognizable as likely to warrant imprisonment.

B. *Adjudication of Civil Money Penalty Cases in an Administrative Imposition System.* 1. In some circumstances it is desirable to commit the imposition of civil money penalties to agencies themselves, without subjecting agency determinations to *de novo* judicial review. Agencies should consider asking Congress to grant them such authority.[2]

Factors whose presence tends to commend such a course with respect to a particular penalty provision include the following:

(a) A large volume of cases likely to be processed annually;

(b) The availability to the agency of more potent sanctions with the resulting likelihood that civil money penalties will be used to moderate an otherwise too harsh response;

(c) The importance to the enforcement scheme of speedy adjudications;

(d) The need for specialized knowledge and agency expertise in the resolution of disputed issues;

(e) The relative rarity of issues of law (*e.g.*, statutory interpretation) which require judicial resolution;

(f) The importance of greater consistency of outcome (particularly as to the penalties imposed) which could result from agency, as opposed to district court, adjudications; and

(g) The likelihood that an agency (or a group of agencies in combination) will establish an impartial forum in which cases can be efficiently and fairly decided.

Considerations such as those set forth above should be weighed heavily in favor of administrative imposition when the usual monetary penalty for an offense or a related series of offenses would be relatively small, and should normally be decisive when the penalty would be unlikely to exceed $5,000. However, the benefits to be derived from civil money penalties, and the administrative imposition thereof, should also be considered when the penalties may be relatively large.

2. An administrative imposition system should provide:

(a) For and adjudication on the record pursuant to the Administrative Procedure Act, 5 U.S.C. 554–57 (1970), at the option of the alleged offender or the agency;

(b) For finality of an agency's decision unless appealed within a specified period of time;

(c) That, if the person on whom the penalty is imposed appeals, an agency's decision will be reviewed in United States Courts of Appeals under the substantial evidence rule in accordance with the Administrative Procedure Act, 5 U.S.C. 706(e);

(d) That issues made final by reason of (b) above and issues which were raised, or might have been raised, in a proceeding for review under (c) above may not be raised as a defense to a suit by the United States for collection of the penalty.

Agencies should adopt rules of practice which will enable just, inexpensive and speedy determinations. They should provide procedures for settlement by means of remission, mitigation or compromise.

[2] Due to the special procedures and status of the United States Tax Court, the rationale for administrative imposition may have only limited applicability to civil money penalties administered by the Internal Revenue Service.

§ 305.72–7 Pre-induction Review of Selective Service Classification Orders and Related Procedural Matters (Recommendation No. 72–7).

§ 305.72–8 Adverse Actions Against Federal Employees (Recommendation No. 72–8).

(a) A critical part of the mission of the Administrative Conference is to study the processes of government to assure the full protection of the rights of private citizens, including the rights of federal employees. At the same time, the Conference is equally concerned about assisting government agencies to devise and implement efficient administrative procedures that will facilitate accomplishment of their varied programs.

(b) The Civil Service Commission and other government agencies each year conduct a large number of formal personnel action proceedings that involve charges of personal misconduct, poor job performance, or other behavior which reflects adversely on the individual employee. Each year several thousand adverse personnel action appeals are decided throughout the Government; the Civil Service Commission alone adjudicates well over 1200 appeals anually. The nature of these cases and the size of the caseload make it imperative both that proceedings be conducted with scrupulous fairness, and that procedures be neither too costly nor time-consuming. While existing adverse action procedures have attempted to meet these objectives, the Conference believes that implementation of this recommendation will yield substantial improvements in many highly significant respects.

(c) This recommendation is intended to apply only to those classes of federal civilian employment currently entitled to adverse action procedures, as identified in Subchapter S2 of Federal Personnel Manual Supplement 752–1.

A. Definitions and standards—1. *Adverse action.* In all cases in which an employing agency takes a personnel action adversely affecting an employee on the basis of his conduct or performance, the employee should be afforded an opportunity for an evidentiary hearing and his case should be decided on the basis of the record made at the hearing.

Such procedures are inappropriate, however, for use in situations in which an agency action made on the basis of broad managerial considerations of agency structure or resource allocation (*e.g.*, change in job classification, reduction in force) has incidental adverse effects on certain agency employees. The Civil Service Commission should seek legislation redefining the category of "adverse action" to exclude therefrom personnel actions not based on the individual employee's conduct or performance. However, in any proceeding to effect a personnel action assertedly based on managerial considerations, the employee should retain the right to challenge the bona fides of the agency's action.

2. *Efficiency of the service.* The Civil Service Commission should publish regulations or interpretive rules elaborating in as much detail as practicable the statutory standard of "efficiency of the service."

B. *Procedures for Agency hearings.* 1. All employing agencies should establish procedures for personally advising an employee

V 38-140 JUL 23 73 XUM

who has received a letter of proposed adverse action about the consequences of the action proposed and the procedures available for contesting it, which should continue to include the right to respond to the employing agency's charges prior to an evidentiary hearing.

2. An employee against whom an adverse action is proposed should have an opportunity for a prompt evidentiary hearing before the action becomes effective. However, if the employing agency determines that retention of the employee in his current duty assignment will adversely affect the ability of his office or installation to perform its functions, the employing agency should be able, pending its final decision (a) to reassign the employee; (b) to place the employee on administrative leave with pay; and (c) if, for a cause attributable to the employee, the hearing is not commenced within 30 days after the agency notifies him of its readiness to proceed or has not resulted in a final agency decision within 60 days after such notification, to place the employee on leave without pay.

3. Except in extremely rare cases where an employing agency can establish good cause for keeping the hearing closed, an employee subject to adverse action should have a right to elect a hearing that is open to the public. An employee is entitled to a private hearing, however, at which he may be accompanied by an observer of his choosing, in addition to any representative. This recommendation is not intended to limit the hearing officer's traditional authority to exclude other witnesses during the taking of testimony or to maintain order and decorum.

4. The Civil Service Commission should assign the hearing officers to conduct hearings before employing agencies. A hearing officer should be suitably equipped by training and experience to conduct such personnel hearings and, unless he is an administrative law judge, should not be an employee of the charging agency. Ordinarily, hearing officers should be drawn from a pool established and employed by the Civil Service Commission, but when appropriate the Commission should be able to assign as hearing officers other persons with the prescribed qualifications.

5. Civil Service Commission regulations should make clear that at any hearing the employing agency has both the burden of coming forward with evidence and the burden of persuasion.

6. The hearing officer should use a prehearing conference or other means to identify and limit the hearing to the trial of material issues of fact as to which the parties genuinely disagree. The hearing officer should also be authorized to resolve summarily those material issues of fact as to which he is satisfied there is no genuine disagreement.

7. The hearing officer should be authorized to order an employing agency to produce witnesses in its employ or documentary evidence that he believes may be relevant to an employee's case. He should be free to call witnesses himself, to question witnesses for both parties, and to provide guidance to employees who are not represented. With the completion of the hearing, the evidentiary record shall be considered closed for purposes of the employing agency's decision and any appeal by the employee to the Civil Service Commission.

8. The hearing officer should make factual findings and prepare a proposed decision, which would be submitted to the official designated by the employing agency to make the agency decision and made available to the parties along with the transcript of the hearing. The parties should have an opportunity (*e.g.*, ten days) in which to submit written argument, including objections to the proposed decision, to the deciding agency official. If the deciding official does not accept the hearing officer's proposed decision, he should prepare a formal agency decision that, among other things, states specifically the reasons for rejecting the hearing officer's findings or recommended disposition. The employing agency should be able to make its personnel action fully effective upon the issuance of its decision, and any subsequent appeal should not have the effect of postponing such effectiveness unless the employing agency otherwise directs.

C. Procedures for appeals from Agency decisions. 1. Employing agency appeals systems, apart from that required by paragraph B(8) (i.e., a final agency decision following the hearing at a level higher than that proposing the action) should be abolished.

2. An employee against whom adverse action is taken should have an opportunity for a single appeal outside his agency, to a central appellate authority within the Civil Service Commission.

3. The Civil Service Commission's appellate authority should customarily be limited in its review to the record compiled at the employing agency. Upon the motion of an employee, however, the authority should be able to admit or remand to the hearing officer for the admission of, evidence that the employee could not reasonably have produced at the original hearing, subject to the employing agency's right to respond or rebut.

4. The Commission's appellate authority should have authority to affirm, or to reverse, or to modify the employing agency's disciplinary action in any appeal.

5. The Commission's appellate authority should assign cases for decision by lot or by rotation so far as practicable and permit announcement of dissenting and concurring views.

6. The Civil Service Commissioners should retain discretionary authority to reopen and decide exceptional cases upon the petition of either the employing agency or the employee.

7. Employing agency and Commission decisions in adverse action cases should be publicly available after minimum editing necessary to protect employee privacy.

D. Ex parte communications. 1. (a) At no time should officials of the Civil Service Commission who participate in or are responsible for the dispoeition of employee appeals provide advice to either party or to the hearing officer on the initiation, processing, or disposition of any adverse action.

(b) Other Civil Service Commission officials should not advise or consult with either party, or their representatives, regarding the merits of any case that has been formalized by the issuance of a letter of proposed adverse action.

2. Hearing officers who conduct agency hearings and Civil Service Commission officials who participate in or are responsible for deciding employee appeals should be free from all *ex parte* influence or advice—including communications from employing agencies, employee representatives, and other Commission employees—relating to the factual issues or appropriate disposition of any adverse action or appeal. Expert professional advice on the facts or disposition of a case (such as the evaluation of a job classification specialist) should only be received on the record, subject to the right of both parties to respond.

E. Role of the Civil Service Commission. With the additional safeguards of the independence of the Civil Service Commission's appellate authority, proposed under C and D, above, it is not necessary to establish a new, independent agency to adjudicate adverse action appeals.

F. Effect on employee grievance procedure. The provisions of this recommendation are not intended to supplant or preclude provision for employee grievance procedures in existing or future collective bargaining agreements.

3. The Table of Contents of Part 310 of Chapter III is revised to read as follows:

Sec. 310.1 Views of the Administrative Conference on the "Report on Selected Independent Regulatory Agencies" of the President's Advisory Council on Executive Organization (Adopted May 7, 1971).

310.2 Statement of the Administrative Conference on the ABA Proposals to Amend the Administrative Procedure Act (Adopted June 7–8, 1973).

AUTHORITY: 5 U.S.C. 571–576

4. Part 310 is amended to add the following section:

§ 310.1 Views of the Administrative Conference on the "Report on Selected Independent Regulatory Agencies" of the President's Advisory Council on Executive Organization (Adopted May 7, 1971).

Dated: July 16, 1973

RICHARD K. BERG,
Executive Secretary.

Would you like to know

WHAT CHANGES HAVE BEEN MADE IN CERTAIN TITLES OF THE CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the "List of CFR Sections Affected."

?

List of CFR Sections Affected — $5.00 per year

The "List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Also available on a subscription basis . . .

The Federal Register Subject Index — $3.00 per year

Subject Indexes covering the contents of the daily Federal Register are issued monthly, quarterly, and annually. Entries are carried primarily under the names of the issuing agencies, with the most significant subjects additionally carried in appropriate alphabetical position.

A finding aid is included at the end of each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Order from: Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

Note to FR Subscribers: FR Subject Indexes and the "List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

POLLUTION—EPA issues rules and guidelines for acquiring information from owners of "point sources" 19893

HORSES IMPORTED FROM CANADA—USDA relieves certain inspection restrictions; effective 7–24–73 19813

WHOLE FISH PROTEIN CONCENTRATE—FDA adds species acceptable as raw ingredient and permits use in manufactured foods; effective 7–24–73 19815

INDIAN EDUCATION—HEW rules for improvement programs (2 documents); effective 7–24–73 ..... 19825, 19829

ECONOMIC STABILIZATION—CLC adds form for use by hospitals 19801

COMMERCIAL FISHERIES—NOAA proposal to implement annual catch quotas and requirements for the Northwest Atlantic area; comments by 8–13–73 19832

OIL IMPORTS—Interior Department makes various amendments to Oil Import Regulation 1 (Revision 5) 19818

FEDERAL–STATE SOCIAL SECURITY TRANSACTIONS—HEW proposal regarding filing date of delayed mail; comments by 8–23–73 19839

FEDERAL SAVINGS AND LOAN ASSOCIATIONS—FHLBB authorizes investment in the Student Loan Marketing Association; effective 7–18–73 19814

LOAN FINANCE CHARGES—FRS rule to require creditors who do not make rebates to disclose that fact to consumers 19814

ANTIDUMPING—Tariff Commission finds printed film from Brazil and Argentina causing likelihood of injury 19878

AMPICILLIN—Tariff Commission notice for 10–2–73 hearing on unfair methods of competition and importation 19878

COTTON—USDA amends crop insurance formula; effective 7–12–73 19811

REMINDERS

NOTE: There were no items published after October 1, 1972, that are eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

federal register

Area Code 202 Phone 962-8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

PESTICIDES—
EPA proposes exemptions from tolerance requirements for certain inert ingredients; comments by 8–23–73.... 19840
EPA notice of intent to hold hearing on uses of 2,4,5,-Trichloraphenoxyacetic acid (2 documents); requests to participate by 8–23–73..... 19859, 19860
EPA proposal on pesticide establishment, registration, labeling and reporting; comments by 8–23–73..... 19841

ANTIBIOTIC DRUGS—FDA certifies zinc bacitracin neomycin sulfate-polymyxin B sulfate opthalmic ointment; effective 7–24–73..... 19816

GRAS STATUS—FDA notice of petitions for ethyl alcohol, citric acid and chlorine in an aqueous solution (3 documents); comments by 9–24–73..... 19851, 19852

COLOR ADDITIVES—
FDA notice of petition proposing safe use of carbon black in foods, drugs, and cosmetics..... 19851
FDA notice of filing of petition regarding disodium EDTA-copper for use in cosmetics..... 19852

FOOD ADDITIVES—FDA notice of withdrawal of petition proposing safe use of an electron-beam cured coating.... 19852

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 130—COST OF LIVING COUNCIL PHASE III REGULATIONS

Appendix C—Cost of Living Council Reporting Forms

The purpose of this amendment is to add Form S–52 (Revised July, 1973), "Income and Expense Analysis for Hospitals and Other Institutional Health Services Providers," and Schedule A (July, 97), "Report of Price Changes for Institutional Providers of Health Services," to Appendix C.

6 CFR 300.18 of the Economic Stabilization regulations requires that a Form S–52 be completed and sent to the local Internal Revenue Service when an institutional provider of health services charges a price in excess of the base price that would result in an increase in its aggregate annual revenues over its last fiscal year at an annualized rate of between 2.5 and 6 percent. In addition, an exception must be requested by using a Form S–52 if an institutional provider of health services desires to charge a price in excess of the base price that would result in an increase in its aggregate annual revenues over its last fiscal year at an annualized rate of over 6 percent. Even though blank Forms S–52 have been publicly available through the Internal Revenue Service, the Form has not until now been included in the list of Economic Stabilization Forms published as part of the Economic Stabilization Regulations (6 CFR). We are taking the occasion of issuing this revised edition of Form S–52 and the initial issuing of related Schedule A to incorporate both Forms in the regulations.

The instructions to Form S–52 (Revised July, 1973) and Schedule A (July, 1973) are self-explanatory. An institutional provider of health services with its budgeted fiscal year beginning on or after July 1, 1973, is required to use Form S–52 (Revised July, 1973) for reporting a price increase, for requesting an exception, or for determining whether a proposed price increase is permitted under the Economic Stabilization regulations. Where an institutional provider has a budgeted fiscal year that is completed before July 1, 1973, Form S–52 (Revised September, 1972) must continue to be used. If the budgeted fiscal year includes both June 30 and July 1, 1973, the institutional provider may, at its option, use either Form S–52 (Revised September, 1972) or the new Form S–52 (Revised July, 1973). If a provider uses Form S–52 (Revised September, 1972) there is now available at local Internal Revenue Service offices an Addendum to Form S–52 (Revised September, 1972) with the accompanying instructions that provides the method for computing allowable costs for price increase justification and the amounts subject to exception. The Addendum is not published here.

Schedule A (July, 1973) is to be used with Form S–52 (Revised July 1, 1973) to show the effective dates of price changes and their effect on revenues in a given fiscal year. This schedule represents the only approved method of computing the increase (annualized and realized) in revenues due to price increases for budgeted fiscal years reported on Form S–52 (Revised July, 1973). Schedule A is optional when Form S–52 (Revised September, 1972) is used.

In addition, the instructions to Form S–52 (Revised July, 1973) provide that an exception request for increases in aggregate annual revenues more than 6 percent over the aggregate annual revenues for its last fiscal year should be filed directly with the local District Director of Internal Revenue Service. The District Director will forward the request to the State Advisory Board (SAB). The SAB will have 30 days within which to make its recommendations with respect to the request. As stated in the Addendum to Form S–52 (Revised September, 1972) this administrative procedure is also applicable to institutional providers using Form S–52 (Revised September, 1972).

Because the purpose of this amendment is to provide immediate guidance and information with respect to the administration of the Economic Stabilization Program, the Council finds that further notice and procedure thereon is impracticable and that good cause exists for making it effective in less than 30 days.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1473, Cost of Living Council Order No. 14, 38 FR 1489)

In consideration of the foregoing, Appendix C of Part 130 of Title 6 of the Code of Federal Regulations is amended as set forth herein, effective July 1, 1973.

Issued in Washington, D.C., July 18, 1973.

WILLIAM N. WALKER,
Acting Deputy Director, Cost of Living Council.

Appendix C of Part 130 of Title 6 of the Code of Federal Regulations is amended by adding Form S–52 (Revised July, 1973) and Schedule A (July, 1973) to read as follows:

V 38-141 JUL 24 73 XUM

Economic Stabilization Program

Form S-52 (Rev. July 1973)

Instructions for Form S-52
Revised July 1973

Who Uses Form S-52.—If you are an institutional provider of health services, use Form S-52 to determine whether proposed price increases are permitted under Economic Stabilization regulations.

Who use Form S-52 as part of the documentation when you report a price increase or request an exception, and for computing allowable cost justification for the purpose of self-monitoring and compliance.

What Form S-52 You Should Use.—If your budgeted fiscal year ended before July 1, 1973, use Form S-52 (Revised September 1972).

If your budgeted fiscal year began on or after July 1, 1973, use Form S-52 (Revised July 1973).

If your budgeted fiscal year included both June 30 and July 1, 1973, you may, at your option, use either the July 1973 or the September 1972 version of Form S-52 as part of your documentation for reporting price increases (if you are required to report), or as a supplement to Form S-16 if you request an exception.

If you have an option to use either the July 1973 or September 1972 version of the form, you must continue to use the same version you have chosen for any subsequent filings during the rest of the budgeted fiscal year, because an Internal Revenue Service (IRS) compliance audit will be based on that version of the form. The formal for calculating allowable cost justification is found in Part V of the July 1973 version of the form. If you use the September 1972 version, compute cost increases in Part III of the September version, but compute allowable costs using the format of Part V of the July 1973 version. You may use the Addendum to Form S-52 (Rev. September 1972), available from your local IRS office, for computing allowable costs. Note that line item numbers on the July 1973 version of Form S-52 do not correspond to the same items on the September 1972 version.)

General Instructions

Prepare a Form S-52 for each separate and distinct Individual health care provider, regardless of its organizational affiliation or fiscal support. If you are a hospital which also operates a skilled nursing or extended or intermediate care facility on the same premises, you may, at your option, treat the hospital (including all outpatient facilities) as one institution. The skilled nursing (including extended and intermediate care) section may be treated as a separate institution if accounting records are sufficiently differentiated. Once the decision has been made to separate the institutions, each must separately comply with all provisions of the regulations. Nonoperating revenue and expenditures must be allocated consistently from year to year.

If you operate an outpatient facility, it may not be considered a separate and distinct institutional provider. The outpatient facility will be considered either an integral part of its institutional operator or as a noninstitutional provider. The Internal Revenue Service and/or the Cost of Living Council reserves the right in each case to determine: (1) the supporting status of particular facilities based on the merits of the individual circumstances; and (2) the appropriateness of allocated revenues and expenditures, both operating and nonoperating.

The fact that the allowable cost limitations of 6 CFR 300.18(d) have been exceeded does not require an exception unless such excesses are used to cost justify an equalized increase in aggregate annual revenues due to price.

Definitions.—An institutional health care provider is any organization which operates licensed 24-hour inpatient health care facilities.

For purposes of the Economic Stabilization regulations, "inpatient health care" is defined as the diagnosis, cure, mitigation, and treatment of disease for residents. This care does not include care in a convalescent home, a home for children or the aged, or institutions whose principal purposes or functions are to train handicapped persons to pursue a vocation.

Institutional providers of health services include but are not limited to: medical hospitals; psychiatric hospitals or asylums; tuberculosis hospital sanitaria providing medical care; clinics and dispensaries operated by hospitals or other institutional health providers; nurses' training schools operated by hospitals or other institutional health providers; skilled nursing homes; and extended and intermediate care facilities.

The budgeted fiscal year (abbreviated as BFY) refers to the year under determination. It is the price increase year for which you request exception, file a report, or on which a compliance determination is made. If you are completing a year-end annual report, the budgeted fiscal year (or BFY) on Form S-52 and Schedule A refers to the year for which the annual report is being made.

The last fiscal year (abbreviated as LFY) is the fiscal year immediately preceding the budgeted fiscal year.

Aggregate annual revenues is defined in 6 CFR 300.18(a) and is abbreviated as AAR.

Fiscal year is abbreviated as FY.

Filing for Exception.—Use Form S-52 with Form S-16, Application for Exemption or Exception, (file both in duplicate) when you request an exception to the Economic Stabilization regulations. Also include the following financial information, prepared (if possible) in accordance with the American Institute of Certified Public Accountants' (A.I.C.P.A.) Hospital Audit Guide:

1. Certified financial statements for the last three fiscal years and any other year selected as the base period year. (Certification by an independent audit is not required if that audit has not already been done.)

2. Detailed statements of changes in financial position for all funds for the last fiscal year.

3. A completed Form S-52 for the last fiscal year, using actual data through the end of the last fiscal year for revenues, expenses, and cost information.

4. Detailed cash budget for both the last fiscal year and the budgeted fiscal year to include:

a. A separate itemization of donor-restricted and donor-unrestricted nonoperating cash income from gifts, contributions, endowments, and investment income. A detailed explanation of the nature of the donor restrictions must be provided; i.e., to what use is such income restricted.

b. All nonoperating income including that from taxes and appropriations. Nonoperating tax or appropriation income excludes appropriation income directly related to services rendered.

c. An itemization of all nonoperating cash requirements including those for principal payments on long-term debt, scheduled capital replacement (to exclude new technology and capital expansion) and dividend requirements.

The regulations provide no automatic relief from operating losses incurred by health care institutions. If you want a ceiling in the form of price increases in excess of those authorized by the regulations, you must file an exception request. Parts V and VI of Form S-52 (Rev. July 73) will help you determine whether you need to file for an exception.

Where to File.—If the annualized percentage increase in price increase revenues (item 59 of Form S-52 (Rev. July 73)) in the budgeted fiscal year exceeds or will exceed 6 percent on aggregate annual revenues in the last fiscal year, file the exception request with your District Director of Internal Revenue Service. The District Director will forward the request to the State Advisory Board (SAB). The SAB recommendation will not be required if the SAB fails to make it within 30 days of receipt from IRS, as required by 6 CFR 300.18(c)(2).

If the budgeted fiscal year annualized percentage increase in price increase revenues is or will be 6 percent or less of aggregate annual revenues in the last fiscal year and you still need an exception to either the allowable cost limitations specified by 6 CFR 300.18(d), or the base period net revenue or profit margin specified by 6 CFR 300.18(b), file the request with IRS. You may withdraw it any time before a decision is reached.

Reporting Price Increases.—Prepare Schedule A to report price increases and price increase revenues, and use Form S-52 to report the allowable cost justification for those price increases. Furnish a complete set of these to the District Director of the IRS, and to the Medicare Intermediary.

Pursuant to 6 CFR 300.18, if price increases are that you implement now will not cause you to exceed your base period net revenue or profit margin (Part VI of Form S-52 (Rev. July 73)) or your allowable cost limitation (Part V of Form S-52 (Rev. July 73)), please use the following procedures:

1. If the price increases result, on an annualized basis, in price increase revenues of 2½ percent or less of aggregate annual revenues in the last fiscal year, no report is necessary.

2. If the price increases result, on an annualized basis, in price increase revenues of more than 2½ percent but not more than 6 percent of aggregate annual revenues in the last fiscal year, notify the District Director of the Internal Revenue Service and the Medicare Intermediary before implementing the increases.

All other price increases require that an exception be granted before implementation. While you wait for a decision on the requested exception, you may implement only that portion of the requested price increase to which you are entitled under the Economic Stabilization regulations.

Cost Justification of Annualized Price Increases.—For purposes of the Economic Stabilization Program, all price increases must be cost justified. The 6 percent allowable increase in aggregate annual revenue is a limitation rather than an automatic allowance. For example, if the total amount of allowable cost increases are equivalent to 4.5 percent of the aggregate annual revenues realized in the last fiscal year, and the budgeted revenue increase resulting from price increases is 5.2 percent (annualized), the annualized revenue increase allowable without an exception would be limited to the level of allowable cost justification (4.5 percent).

How to Self-Monitor to Check Compliance.—Normally, you will complete Form S-52 and Schedule A before the start of the year in which the price increase is to be made. Revenue expenses, and census data are all on a projected basis. Therefore, you should check at least quarterly to determine whether your projections appear to be correct; whether the price increases instituted are producing the expected level of revenues; and whether adjustments to your pricing structure might be required to ensure continued compliance with Economic Stabilization regulations.

As each fiscal quarter of the budgeted fiscal year is ended, complete a new Form S-52 and Schedule A. More frequent monitoring might be advisable. Replace budgeted figures used in the original Form S-52 with a combination of actual figures for that portion of the year completed and the revised (if necessary) projections for the remaining quarters. If you used the volume index method of adjusting costs, recompute the index, because variations in census data will alter the value of the index as well as the amounts shown as cost increases in column (d) of items 19 through 24 on Form S-52 (Rev. July 73). Make your final check at the end of the budgeted fiscal year when all projected figures are replaced with actual figures.

Use Schedule A to compute the annualized effect of price increases. "Total Annual Units," (col. h), will be a combination of actual units of service rendered from the first day of the budgeted fiscal year through the last day of the last completed quarter, and the projected units of service for the remaining quarters of the budgeted fiscal year.

Compare the total annualized price increase revenues for the budgeted fiscal year with the amount shown in item 54 of the Form S-52 (Rev. July 73), plus the dollar amount of any exception granted for the budgeted fiscal year. If the annualized price increase revenues are less than or equal to item 54 (plus the exception, if any) AND you have not exceeded your base period net revenue or profit margin, you would appear to be in compliance with the Economic Stabilization regulations. If your annualized price increase revenues are greater than item 54 plus the amount of any exception, AND/OR you have exceeded (or will exceed by the end of the year) your base period net revenue or profit margin, you may not be in compliance with the regulations. You should immediately determine what corrective action is necessary. If any, and notify the District Director of the Internal Revenue Service of any such action. Part VIII of Form S-52 (Rev. July 73) will help you determine whether there is a need for corrective action.

Quarterly Reports.—When you are required to make quarterly reports, submit a new Form S-52 and Schedule A to report both annualized and realized price increase revenues, justification. Part VIII of Form S-52 must be completed. See instructions to Schedule A for more details. Unless otherwise specified in a Decision and Order requiring such reports, file the reports with the District Director of the Internal Revenue Service no later than 45 days after the end of the fiscal quarter being reported. The Cost of Living Council and/or the Internal Revenue Service in each case may require any other information deemed necessary for the effective administration of the Economic Stabilization Program.

Annual Reports to Check Compliance.—Each provider charging any price above the base price should complete Form S-52 and Schedule A when final figures for the fiscal year are available. If you are required to report (see instructions for Schedule A for details), complete these forms and submit them to the District Director of the Internal Revenue Service within 90 days of the end of the fiscal year, and include copies of the financial statements for the year.

Specific Instructions for Form S-52 (Rev. July 73)

We have not given you instructions for those items on Form S-52 and Schedule A which are self-explanatory or fully explained. Use generally accepted accounting principles to report revenues and expenses, except where specifically modified by these instructions for Form S-52 or where law or custom requires use of the cash basis of accounting. (See the Hospital Audit Guide of the American Institute of Certified Public Accountants and pronouncements of the Accounting Principles Board (APB) of the A.I.C.P.A.)

Certain providers may find it necessary to adjust or restate base period revenues and expenses to reflect comparable data to conform with the accounting principles contained in the A.I.C.P.A. Hospital Audit Guide.

Part I Self-Explantory

Part II Aggregate Annual Revenues

Your operating revenues consist of revenues from all sources as defined under Aggregate Annual Revenues by 6 CFR 300.18(a), including any patient service revenues related to new technology or derived from new services. Do not include as a part of the aggregate annual revenues those revenues received from research activities. Since both revenues and expenses for research are excluded from this form, if you wish to use a net loss on research activities as part of a claim to serious hardship, report these factors in separate documentation.

Instructions by columns and items follow. Please read the instructions for item 9 before you complete this part.

Column (a).—Enter actual revenues (exclude research revenues) from the last fiscal year; i.e., has most recently completed fiscal year. The last fiscal year is always the year immediately preceding the year in which the price increase is or will be made.

When you are in the fourth quarter of your fiscal year and wish to request an exception for the next fiscal year, or to make price changes early in the first quarter of the next fiscal year which require no exception, you may use your current fiscal year as your last fiscal year (LFY). However, you must have **actual figures for at least 8 months of your current year.** You may estimate figures for the remainder of the year. Attach to Form S-52 supporting documentation which shows the actual portion and the projected portion, and explains the methodology you employed to make the projections. If a price increase is to be implemented during the remaining portion of the fourth quarter, the current fiscal year is the price increase year and cannot be used as the last fiscal year.

Column (b).—Enter the revenues you would receive in the budgeted fiscal year in the absence of any price changes; i.e., revenues at last fiscal year prices and budgeted fiscal year volume and mix. Include the same amount of revenues from new services and new technology in this column, column (c), and item 31. Do not include research revenues in the entries. See instructions to Schedule A, paragraph 2, under "General Guidelines."

Column (c).—If you operate on a cash basis, read the instructions for item 9 before completing this column. Otherwise, enter the proposed revenues for the budgeted fiscal year. Include revenues from new services and new technology, but exclude research revenues. If the proposed price increase will not be in effect for the entire fiscal year in which it is requested, the revenue entries in column (c) must reflect a composite of actual experience to the end of the most recently completed quarter, and a projection for the remaining portion of the fiscal year at the appropriate prices. Please consider carefully what effect the cost reimbursement contracts will have on the contractual allowances in the projection, since realized third-party reimbursements are considered prices under Economic Stabilization regulations.

Item 4.—Enter routine service revenues (daily rate charges for services). If you do not distinguish between routine and ancillary services, enter the inclusive rate revenues.

Item 5.—Enter all specialty service revenues other than those included in the daily rate routine revenues. Include all outpatient service revenues.

Item 6.—Enter professional fees for inpatient treatment billed, if not included in ancillary services in item 5 and if the related salaries, fees, or other compensation to doctors are included in expenses of the institution, regardless of whether records include fees as revenues or as additions to special funds.

Item 7.—Self-explanatory.

Item 8.—Third-party cost reimbursement is included in the definition of "price." Accordingly, prices paid by an insurer under a hospitalization or other medical services plan are subject to the Economic Stabilization regulations. Please give careful attention to the determination of projected contractual allowances to third parties. Any deductions from revenues must be supported by attached documentation. If budgeted allowances and deductions deviate from historical patterns, the document should explain the deviations for the appropriate allowance or deduction category.

Item 9.—(Cash Basis Institutions): If you record revenue on a cash basis, with no recognition of full charges for services or allowances, enter the amount of the cash revenue in this item and leave blank items 4 through 8 in columns (a), (b), and (c).

Item 10.—Include all other operating revenues. If you are requesting an exception, use separate documentation to report nonoperating revenues.

Item 11.—If you are a government-related institution, enter the total amount of governmental appropriations. If the appropriation bears no direct relationship to services but is solely for the purposes of making up a cash deficit, do not include the amount of the appropriation in your aggregate annual revenues, but report it as nonoperating revenue in separate documentation. However, if you do not show in item 9 cash collections remitted to you as a governmental unit, AND the appropriation bears no relationship to services but is solely for the purposes of making up a cash deficit, then show in this item an amount equal to the cash collections and report the remainder of the appropriation as nonoperating revenue.

Item 12.—Self-explanatory.

Part III Census Data

Item 13.—If you are classified as an acute hospital, or any other hospital with outpatient facilities, enter in columns (b) and (d), respectively, the number of inpatient admissions and outpatient procedures in accordance with past practices. Outpatient procedures may be either visits or occasions of service, but must be consistent in both periods.

Enter patient day data (acute hospitals and long-term care facilities) in columns (f) and (g).

Enter in columns (c) and (e), respectively, inpatient costs and outpatient costs. If such costs are normally allocated on a relationship between inpatient and outpatient revenues, this allocation procedure is acceptable.

Item 14.—Use either the volume index or actual budgeted changes in costs attributable to volume to determine adjusted costs (Part IV, col. (c)). When you use actual budget data to identify changes attributable to volume, attach detailed documentation showing the bases upon which such changes were determined.

Acute Hospitals or Any Other Hospitals with Outpatient Facilities.—Use the volume index which includes a 2 percent adjustment for intensity, as reflected by the factor of 1.02. This volume index is calculated in three steps using data provided in item 13.

Step 1.—Compute a value for the index using only your last fiscal year actual patient days and the change in patient days with your last fiscal year outpatient procedures and the change in outpatient procedures. This computation is shown in the formula below.

Step 2.—Compute a value for the index, similarly using your actual last fiscal year admissions and the change in admissions for your actual last fiscal year patient days and the change in patient days. This computation is shown in the formula below.

Step 3.—Compute the value of the index by taking the average (arithmetic mean) of the values computed in the first two steps (i.e., Step 1 and Step 2). The index value computed in Step 3 is the value to be entered in Item 14.

Note that budget figures for inpatient and outpatient costs are not included in the volume index calculation.

Volume Index for Other Institutions.—If you do not have outpatient facilities, do not use the volume index described above. If, by the use of normal budgeting procedures, you are unable to adjust your last fiscal year costs to reflect only changes in volume, calculate item 14 as follows:

$$\text{Volume Index} = \frac{\text{Projected Patient Days (item 13B, col. (g))}}{\text{Last Fiscal Year Patient Days (item 13A, col. (g))}}$$

Use the data provided in column (g) of item 13 to determine the ratio of patient days projected for the budgeted fiscal year to the patient days experienced in the last fiscal year. Enter this number in item 14.

Part IV Operating Costs

Cost Justification for Price Increase Year.—The fiscal periods for which cost justification data are presented must be the same as those periods for which revenues were reported in column (a) of Item 13. In completing Part IV, you will separate cost changes resulting from increased prices which you must pay to render your services (i.e., changes in unit cost) from those cost changes resulting from changes in the volume of services rendered.

Column (a).—Include combined actual expenses incurred for all operations (excluding research) of your last fiscal year. Since both revenues and expenses for research activities are excluded, attach separate documentation containing full explanations for any research expenses not recovered from research revenues, when such expenses are part of a claim to serious hardship.

If you determined revenues for the last fiscal year by combining revenues realized for the first three quarters of the current fiscal year with a projection for the remaining quarter, you must also determine costs for this same period. Attach documentation to support these projections.

Adjustments Due to Budgeted Fiscal Year Reallocations.—When you change your last fiscal year method of producing and/or allocating your services, and the change results in a reallocation of costs among cost categories, you must adjust your last fiscal year costs by category to reflect the cost reallocations that will be effective in the budgeted fiscal year. The following example shows the required adjustments to the last fiscal year costs by category:

Hospital H in the last fiscal year operated its own laundry service. In the budgeted fiscal year, H is closing its laundry facility and will have to contract with an outside laundry service. The cost of the budgeted fiscal year contracted laundry service will be included under column (b), Item 24, "Other Expenses." Therefore, H must adjust the last fiscal year cost category entries by deducting all laundry-related costs from the respective cost categories and entering the total of laundry costs under column (a), in Item 24. From the wage/salary category (Items 15, 16, and 17), H would deduct all last fiscal year laundry personnel wages or salaries and fringe benefits; from the utilities cost category (Item 22), H would deduct all utility expenses allocated to laundry; and so forth. There should be no change in total expenses for the last fiscal year; merely a reallocation of all laundry-related expenses from their original entries into Item 24. Documentation must be attached to support all such cost reallocation adjustments and to reconcile differences in the financial statements.

Column (b).—Enter expenses for the budgeted or price increase fiscal year (excluding research). In Item 30 only, enter expenses for new technology.

Column (c).—The data to be provided in this column represent the amount of costs which you would expect to incur if, in the last fiscal year, you were servicing the volume and mix of patients projected in the budgeted fiscal year (i.e., last fiscal year costs at projected volume). There are only two acceptable methods of making this computation; use either the volume index computed according to the formula provided in the instructions for item 14, or use actual budget data. You may not develop an alternative index factor. It is preferable to use the budget data method if you have the capability of deriving the information needed. The volume index method is provided for those institutions who cannot or choose not to provide such computations. Each method will be described in general.

The volume index assumes that costs vary in a one-to-one relationship with volume. In recognition of the fact that all costs do not reflect volume changes, a volume adjustment is allowed for depreciation (item 25), interest (item 26) or insurance (item 27). Further, when an exception request is pending, the Cost of Living Council and/or IRS will take into consideration the degree to which costs respond to volume changes. If you show a decrease in volume, the extent to which you cannot be expected to decrease proportionately will be a factor in determining serious hardship for gross inequity. Conversely, when you experience an increase in volume, it will be expected that your costs would not increase in direct proportion.

Volume Index Method.—At the top of column (a) in Part IV, enter the volume index as computed for Item 14. For each applicable item (items 15(b) through 24), multiply the amount shown in column (a) for that item by the volume index, and enter the results of the computations in column (c). Do not adjust the entries for items 25, 26, and 27; instead, enter in column (c) the same amount shown in column (a).

Budget Method.—Explain every entry in a supporting document. No entry can be accepted without a full explanation of the methodology and computation. Do not adjust the entries for items 25, 26, and 27; instead, enter in column (c) the same amount shown in column (a).

For each cost item on Form S-52, multiply the actual unit cost of that item in the last fiscal year times the projected number of units serviced (or used) during the budgeted fiscal year. The "unit" chosen for each item must be statistically valid and in accordance with guidelines established by the American Hospital Association and the A.I.C.P.A. While the statistical unit chosen may vary from institution to institution, any individual institution must be consistent in its use of the chosen units from year to year. The Cost of Living Council will decide in each case whether the particular unit chosen is acceptable. For any one item, you may develop in supporting documents several different units and their unit costs and enter in column (c) the total of their products.

To determine the unit cost of any item, divide the total costs for that item by the units of service for that fiscal year.

Acceptable Budget Methods.—You may prepare your Form S-52 by using a budget method, as explained in the instructions for Budget Method, column (c) of this part. In every case where the budget method used is not included in the suggested methods announced by the Cost of Living Council, either the Cost of Living Council or the Internal Revenue Service will decide whether the budget method is acceptable. File any unapproved budget method with the Cost of Living Council or the Internal Revenue Service before you file your exception request or price increase notification with the State Advisory Board or the Internal Revenue Service.

Exhibit I shows a suggested format for documentation which illustrates one of several budget methods which the Council has found acceptable. Also, an example follows:

Hospital H is developing supporting documentation to determine the entry for column (c) of Item 15(b), "Wages/Other Salaries." H maintains its records on a functional (departmental) basis. To determine the wage and salary cost of each revenue-producing department, H customarily allocates the wage and salary costs of the nonrevenue-producing departments (such as administrative services) by the proportion which each revenue-producing department bears to the total revenues of the institution. H's operating room produces 10 percent of H's total revenues; therefore, H allocates 10 percent of the wage and salary expense of nonrevenue-producing departments to the operating room.

In its last fiscal year the operating room performed 8,000 procedures and had total wage and salary expenses (both direct and indirect) of $80,000. In its budgeted fiscal year H expects to perform 10,000 procedures with total wage and salary expense of $120,000. H would therefore show the following computations in its supporting documentation:

		Cumulative TOTAL
Operating Room		
Last fiscal year wage and salary expense		$ 80,000
Divided by—Last fiscal year surgical procedures		9,000
Equals—Last fiscal year cost per procedure		$ 10
Multiplied by—Budgeted fiscal year surgical procedures		10,000
Equals—Adjusted operating room wage and salary costs (budgeted fiscal year volume at last fiscal year cost)	$100,000	$100,000

H would continue with similar computations for its other revenue producing departments, and enter the total of all adjusted wage and salary costs in column (c) of Item 15.

Step 1:

$$\text{Volume Index} = 1.02 + \left[\frac{\left(\frac{\text{LFY Inpatient Costs (Item 13A, col. (c))}}{\text{LFY Actual Patient Days (Item 13A, col. (g))}} \times \frac{\text{Change in Actual Patient Days (+ or −) (col. (f), Item 13B minus Item 13A)}}{1}\right) + \left(\frac{\text{LFY Outpatient Costs (Item 13A, col. (e))}}{\text{LFY Outpatient Procedures (Item 13A, col. (d))}} \times \frac{\text{Change in Outpatient Procedures (+ or −) (col. (d), Item 13B minus Item 13A)}}{1}\right)}{\text{LFY Total Costs (Item 13A, col. (c) + Item 13A, col. (e))}}\right]$$

Step 2:

$$\text{Volume Index} = 1.02 + \left[\frac{\left(\frac{\text{LFY Inpatient Costs (Item 13A, col. (c))}}{\text{LFY Inpatient Admissions (Item 13A, col. (b))}} \times \frac{\text{Change in Inpatient Admissions (+ or −) (col. (b), Item 13B minus Item 13A)}}{1}\right) + \left(\frac{\text{LFY Outpatient Costs (Item 13A, col. (e))}}{\text{LFY Outpatient Procedures (Item 13A, col. (d))}} \times \frac{\text{Change in Outpatient Procedures (+ or −) (col. (d), Item 13B minus Item 13A)}}{1}\right)}{\text{LFY Total Costs (Item 13A, col. (c) + Item 13A, col. (e))}}\right]$$

Step 3:

$$\text{Volume Index} = \frac{\text{Step 1} + \text{Step 2}}{2}$$

Note: Changes in Actual Patient Days and Outpatient Procedures must indicate the direction of change as well as the actual amount of increase or decrease. The plus (increase) or minus (decrease) sign must be carried throughout the computation.

the lesser of the entries in either column (c) or (d). Enter the result in column (e).

Unit cost increase allowable per cost category for price increase justification. If the entry in column (e) is negative, enter a zero in column (g).

Column (f)—Excess. Entries in this column identify the amount by which the difference between the actual cost changes (in column (b)) and the allowable cost changes (in column (e)) for the entry in column (c) for any cost category is a zero, then enter in column (f) the entry in item 78, which appears in column (b) for that cost category.

Items 46 and 47.—Self-explanatory.

Item 48.—Self-explanatory. However, the following example shows how you can calculate this entry.

If:

(a) the entry in item 15(e), column (d) is $10,000, and

(b) the entry in item 37, column (d) is $8,000, and

(c) the entry in item 38, column (d) is $6,000, and

(d) the entry in item 41, column (d) is $2,000 the $2,000 excess (excess of pensions, etc., in item 18(e), column (d) over the nonwage/salary limitation in item 18(d), column (d)) may be used as allowable cost increases, subject to the overall 6 percent limitation (the item 68 test) and the base period profit or net revenue margin limitation (the item 68 test).

Item 49.—Pensions and group insurance. Entries in this column (and column (d)) are eligible for "spillover" treatment. The amount of pensions and group insurance costs that exceed the amount of increases in such costs in excess of the nonwage/salary limitation (as shown in the entry for item 38. However, the amount of spillover cannot exceed the amount of spillover cannot exceed the nonwage/salary limitation in item 18(e), column (d) over the nonwage/salary limitation in item 18(d), column (d). Excess cost increases due to low-wage adjustments and/or pre-existing labor contracts are not eligible for this treatment. In calculating allowable costs to be used for justifying price increases, the entries in this item 49 are the entries for item 15(e), columns (b) and (d).

For low-wage adjustments, consider employee wage increases up to $3.50 (or $2.75) an hour for the item 15(e) entry. If a wage rate increase in excess of $3.50 (or $2.75) an hour, include only the portion of the increase up to $3.50 (or $2.75) an hour. Do not include as wage increases the wage expense for low-wage workers hired into jobs that did not exist during the fiscal year. However, if a wage increase is granted to such employees after they are hired, you may include the expense of the increase only.

Compute the low-wage excess as follows: Determine the wages in the last fiscal year. Multiply that amount by 2.5 percent (i.e., 0.025). If the total adjustment to be paid low-wage workers in the budgeted fiscal year is more than 2.5 percent of the last fiscal year's low-wage expense, then there is no low-wage excess eligible for pass-through. If the adjustment is more than 2.5 percent of the last fiscal year's low-wage expense for the last fiscal year, then the excess is the amount by which the current adjustment exceeds 2.5 percent of the low-wage expense for the last fiscal year. For example, suppose a hospital grants a 5.5 percent wage increase and a 20 percent increase to low-wage employees. The 20 percent increase to low-wage employees added $3.30 (or $2.75) an hour. In the budgeted fiscal year, total adjustments to $10,000 (20 percent of that amount, or $2,000). Of that amount, 2.5 percent represented the increase over 5.5 percent, or $1,750. This same amount would be deducted from the entry in column (b) of item 15(e). The $7,250 is eligible for treatment as a pass-through if all other conditions are met.

Make a similar computation of cost increases to determine the eligibility of costs associated with fringe benefits. Only increases in fringe benefit costs that exceed 2.5 percent of the total costs in the last fiscal year are eligible for pass-through. Use this part to calculate allowable costs for price increase justification and to determine the amount of excess costs for pass-through. Add this excess to existing labor contracts eligible for pass-through; add this excess to the entry in item 15(b). For example, suppose a hospital grants a 5.5 percent wage increase and a 20 percent increase to low-wage employees. The 20 percent increase to low-wage employees added $3.30 (or $2.75) an hour. In the budgeted fiscal year, total adjustments to $10,000 (20 percent of that amount, or $2,000). Of that amount, 2.5 percent represented the increase over 5.5 percent, or $1,750. This same amount would be deducted from the entry in column (b) of item 15(e). The $7,250 is eligible for treatment as a pass-through if all other conditions are met.

Make a similar computation of cost increases to determine the eligibility of costs associated with fringe benefits. Only increases in fringe benefit costs that exceed 2.5 percent of the total costs in the last fiscal year are eligible for pass-through.

Item 15(e).—Low-Wage Adjustments and Pre-existing Binding Labor Contracts.

The Cost of Living Council has provided relief from the wage and salary controls of the Economic Stabilization Program for workers to bring them to or toward $3.50 an hour, effective on or after May 1, 1973 and for binding (signed) labor contracts existing before November 1, 1971 that will expire in the budgeted fiscal year. Excess cost increases due to low-wage adjustments and/or pre-existing labor contracts are not eligible for this special treatment. In calculating allowable costs to be used for justifying price increases, the entries in this item 15(e) are the entries for item 15(e), columns (b) and (d).

For low-wage adjustments, consider employee wage increases up to $3.50 (or $2.75) an hour for the item 15(e) entry. If a wage rate increase in excess of $3.50 (or $2.75) an hour, include only the portion of the increase up to $3.50 (or $2.75) an hour. Do not include as wage increases the wage expense for low-wage workers hired into jobs that did not exist during the fiscal year. However, if a wage increase is granted to such employees after they are hired, you may include the expense of the increase only.

Compute the low-wage excess as follows: Determine the wages in the last fiscal year. Multiply that amount by 2.5 percent (i.e., 0.025). If the total adjustment to be paid low-wage workers in the budgeted fiscal year is more than 2.5 percent of the last fiscal year's low-wage expense for the last fiscal year, then there is no low-wage excess eligible for pass-through. If the adjustment is more than 2.5 percent of the last fiscal year's low-wage expense for the last fiscal year, then the excess is the amount by which the current adjustment exceeds 2.5 percent of the low-wage expense for the last fiscal year. Costs associated with the excess are eligible for pass-through; add this excess to the entry in item 15(b). For example, suppose a hospital grants a 5.5 percent wage increase and a 20 percent increase to low-wage employees. The 20 percent increase to low-wage employees added $3.30 (or $2.75) an hour. In the budgeted fiscal year, total adjustments to $10,000 (20 percent of that amount, or $2,000). Of that amount, 2.5 percent represented the increase over 5.5 percent, or $1,750. This same amount would be deducted from the entry in column (b) of item 15(e). The $7,250 is eligible for treatment as a pass-through if all other conditions are met.

Make a similar computation of cost increases to determine the eligibility of costs associated with fringe benefits. Only increases in fringe benefit costs that exceed 2.5 percent of the total costs in the last fiscal year are eligible for pass-through.

Item 15(b).—Other Wages/Salaries. Enter in this item 15(b) the sum of the pre-existing labor contract cost excesses, if any, from item 15(e) and the pre-existing labor contract cost excesses. Attach detailed documentation to support the entry in this item 15(b). This same amount would be deducted from the entry in column (b) of item 15(e). The $7,250 is eligible for treatment as a pass-through if all other conditions are met.

Make a similar computation of cost increases to determine the eligibility of costs associated with fringe benefits. Only increases in fringe benefit costs that exceed 2.5 percent of the total costs in the last fiscal year are eligible for pass-through.

Items 16-18.—Self-explanatory.

Item 19.—Commissions. Amounts paid to free-standing physicians who function as independent contractors and who are not employees of the institution are not considered salaries. Amounts paid to salaried physicians should be included in item 15(c).

Items 20-23.—Self-explanatory.

Item 23.—Group all expenses (other than salaries and fringe benefits) charged to special purpose funds if an appropriate expense category. Attach additional documentation.

Item 24.—Attach additional documentation for all components of this cost category.

Item 25.—You may not claim depreciation on assets acquired by lease if you are a tenant. If you are renting your facility, add an extra line in this item to show your annual rental expense on the facility only. Do not adjust for volume. Enter in column (c) the same entry as in column (b).

Items 26 and 27.—Do not adjust for volume. Enter in column (c) the same entry as in column (b).

Item 28 and 29.—Self-explanatory.

Item 30.—New technology means new (different) equipment and services as the institution's first application of existing technology. However, a new cardiac care unit which only adds more patient care beds is not considered new technology. Form S-52 items 30-39 pertain to new technology. Form S-52 items 30-39 pertain to new technology. If you have more than one category of service or equipment, aggregate all of them and attach documentation to explain each of the items. Also show in your documentation the aggregate of items 32 and 33 and the aggregate of items 38 and 39 as a percentage of item 31.

Item 31.—Do not include any price increase revenue in this item.

Item 32.—Enter the amount in this item as a positive amount. If the amount is negative, enter a zero in item 32 and in items 43, 44, and 45.

Item 33.—Self-explanatory.

Part V Price Increase Subject to Exception

Use this part to calculate allowable costs for price increase justification and to determine the amount of excess costs for pass-through. If you have more than one cost category, complete this part in its entirety, because you are required to allocate your base period limitation for the remainder of that fiscal year. For a budgeted fiscal year that begins before January 1, 1973, complete the "New Technology Cost Increases" section (items 42 through 45); ignore the "Phase II" section. Examples are provided in items 38 and 39 to show a combination of the former nonwage/salary (Phase I) and the new technology (Phase II) cost category limitations.

Items 34-45.—Self-explanatory. Instructions for the related columns follow.

Column (b).—Limitations. Entries in this column (for items 34, 36, and 42) identify the limitations that may be used on allowable cost increases to be used for price increase justification. The limitations in this column (b) are shown but do not represent automatic allowances unless such cost increases will actually be incurred.

Column (b).—Actual. Part IV, column (d), from Part IV, column (d). These are the actual cost changes within reasonable limits for the budgeted fiscal year. If any of the actual changes are negative, enter the changes as negative amounts. *Exception:* Do not enter negative amounts for *new technology expenses* or *new (i.e., revenue) expense for new technology*) then enter a zero.

Column (c).—Allowable. Entries in this column (for items 34, 40, and 43) are

Department of the Treasury - Internal Revenue Service

Economic Stabilization Program

Issued July 1973

Instructions For Preparing Schedule A (To IRS Form S-52)

Report of Price Changes for Institutional Providers of Health Services

Purpose.—Use this schedule with Form S-52 (Revised July 1973) to report effective dates of your price changes and their effect on revenues in a given fiscal year. This schedule replaces the old Form S-52 (Revised September 1972) and is used to report the annualized effect on revenues due to price changes for budgeted fiscal years beginning after August 30, 1973. The information furnished in Form S-52 (Revised July 1973) and its Schedule A is used to determine compliance with the Economic Stabilization regulations.

Schedule A is not used when you file Form S-52 (Revised September 1972). The Form S-52 (Revised September 1972) can be used to determine compliance with the Economic Stabilization regulations for fiscal years beginning before August 31, 1973. If the form is completed in a manner consistent with past practice using actual instead of budgeted data.

Definitions

(1) The budgeted fiscal year (abbreviated as BFY) referred to on Schedule A is the one year under determination; it is the price increase year for which an exception is requested, a report is filed, or a computation is completed e year=and annual report, the budgeted fiscal year (or BFY) on Form S-52 and Schedule A refers to the year just ended. The year which the annual report is being made.

(2) The last fiscal year (abbreviated as LFY) is the fiscal year immediately preceding the budgeted fiscal year.

(3) Fiscal year annual revenues (abbreviated as FYAR) are annual revenues (as defined in 6 CFR 300.18(e)) is abbreviated as AAR.

Who Must File a Report of Price Increases.—Pursuant to section 300.18 of Title 6 of the Code of Federal Regulations (6 CFR 300.18), if the price increases you are proposing will not exceed your allowable costs, or 6 percent of net revenue margin; AND the amount shown in Schedule A, line 6, column (i) is less than or equal to your allowable costs, you may file the simplified pursuant to 6 CFR 300.18(d)(i); AND

(1) The amount shown in Schedule A, line 6, column (i) is 2½ percent, or less, of the aggregate annual revenues (AAR) for the last fiscal year (the year before the budgeted fiscal year (LFY), then the price increase may be implemented without a report. However, you are required to maintain adequate records to support your computations for your audit by the Internal Revenue Service.

(2) The amount shown in Schedule A, line 6, column (i) is more than 2½ percent but not more than 6 percent of the aggregate annual revenues (AAR) for the last fiscal year (LFY), then a report of price increases must be filed with your District Director of the Internal Revenue Service, and with the Medicare intermediary, before the price increases become effective.

All other price increases require that an exception be granted before they are implemented. While you wait for a decision on the requested exception, you may charge during the budgeted fiscal year the last fiscal year was established. Please use the following guidelines:

(1) If you did not exceed the base period net revenue or profit margin in the last fiscal year. The entries for column (d) will be that set of prices which, have been charged uniformly throughout the last fiscal year, would have produced price increase revenues less than or equal to the sum of your allowable costs for that same fiscal year and the amount of any exception granted for that year.

(2) If you exceeded the base period net revenue or profit margin in the last fiscal year. The entries for column (d) will be that set of prices which, have been charged uniformly throughout the last fiscal year, would have produced price increase revenues less than or equal to the sum of your allowable costs for that same fiscal year and the amount of any exception granted for that year.

Submit requests for an extension of time to the District Director of the Internal Revenue Service for the district in which the provider entity is located.

Allowable costs (excluding any exception granted) must be calculated pursuant to 6 CFR 300.18(d) and may not exceed the net revenue or profit margin realized in the immediately preceding fiscal year. (See "What to File When Reporting a Price Increase," below, for determining the appropriate set of your last fiscal year's prices, consider only the prices for those services for which price changes were actually made during the last fiscal year. Also, exclude from the MINUS the dollar amount by which you exceeded your base period net revenue or profit margin in the last fiscal year.

Allowable costs (excluding any exception granted) must be calculated pursuant to 6 CFR 300.18(d) and may not exceed the net revenue or profit margin realized in the immediately preceding fiscal year. (See "What to File When Reporting a Price Increase," below, for determining the appropriate set of your last fiscal year's prices, consider only the prices for those services for which price changes were actually made during the last fiscal year. Also, exclude from the limit for any individual price is the highest price actually charged during that year.

Column (a).—Subtract the last fiscal year price (col. (d)) from the budgeted fiscal year price (col. (c)). Enter totals for each service or commodity.

Column (f).—If the first fiscal quarter of the budgeted fiscal year has not yet been completed, enter a zero. If any quarter of the budgeted fiscal year has been completed, enter the total number of units rendered to patients covered by a third-party insurer that pays under a cost reimbursement contract. These units will be reported under Part II.

Column (g).—If the budgeted fiscal year has not yet begun, enter a zero. If the budgeted fiscal year has begun but the first fiscal quarter has not been completed, enter the total number of units rendered during the first fiscal quarter of the budgeted fiscal year, regardless of when the price changes were effective. In the budgeted fiscal year the price is to be changed. If any fiscal quarter of the budgeted fiscal year has been completed, enter the projected number of units for the fiscal quarters of the budgeted fiscal year not yet completed.

Column (h).—Add the numbers in columns (f) and (g) on each line, and enter totals for each.

Column (i).—Multiply the number of units in column (h) by the dollar amount in column (e) on each line, and enter the products for each.

Column (j).—If the price change has already been made, enter the number of units of service rendered from the effective date of the price change through the end of the quarter being reported. If the price change will not be made until later in the budgeted fiscal year, enter a zero. If a price change will be made in the budgeted fiscal year, this number will be the same as that shown in column (f).

Column (k).—If the price change is already in effect and will remain in effect throughout the remainder of the budgeted fiscal year, enter the same number of units as shown in column (g). If the change is to be made on a future date, enter the projected number of units to be serviced from the effective date through the last day of the budgeted fiscal year.

Column (l).—Add column (j) and column (k) on each line, and enter totals for each.

Column (m).—Multiply column (l) by column (e) on each line, and enter the products for each.

Column (n).—Enter effective date of the price change.

Line 1.—Column (i).—Enter the total of all entries in this column.

Column (m).—Enter the total of all entries in this column.

Line (2).—In the line space provided, enter the percentage deduction from revenues for bad debts and charity allowances. If the budgeted fiscal year has not been completed, use projections for that part of the year for which actual data is not available. To compute the dollar amount of bad debt and charity allowances, multiply the totals for line 1, columns (i) and (m), respectively, by the percentage figure in line 2, and enter the dollar results in columns (i) and (m), respectively.

Line 3.—Subtract line 2 from line 1 in columns (i) and (m), respectively, and enter remainders.

Part II Price Changes Under Cost-Reimbursement Contracts

The definition of the term "price" includes a price reimbursed to a provider under a cost-reimbursement contract. In this part, list each price which is to be changed under such a contract and specify the third-party insurer (Medicare, Medicaid, etc.).

Under the Economic Stabilization regulations, institutions are required to report all price increases above (1) base prices as defined by the regulations, or (2) prices in effect on the last day of the last fiscal year, whichever is higher, when such increases result in an annualized increase in aggregate annual revenues due to price in excess of 2½ percent of aggregate annual revenues in the last fiscal year (see instructions for column (d) below for certain possible adjustments). For purposes of the Economic Stabilization Program, each of the following changes or claims for changes in the reimbursement rate constitutes a price change to third-party cost-reimbursers:

(1) Change in interim price.

(2) Change in price claimed on cost reports submitted to the cost-reimburser.

(3) Change in price established by the cost-reimburser following its initial review.

(4) Change in price established under each review after the initial review until the final price is established.

If any of the price changes cause you to come under the reporting or notification requirements, you must report the price changes as they become effective. A price increase occurs when either (1) the price for the last fiscal year is reduced in accordance with one of the above criteria and the price decrease is not fully offset by a price decrease in the budgeted fiscal year, or (2) the price in the budgeted fiscal year increases in accordance with one of the above criteria.

The total annualized price increase revenues authorized (including any exception granted), less the amount shown in Part I, line 3, column (i), represents the maximum amount of annualized price increase revenues which you may seek from third-party cost-reimbursers for a fiscal year. See the instructions for column (d), below, for certain possible adjustments.

Column (a).—Group all price changes by the third-party payer; i.e., list all Medicare prices together, all Medicaid prices together, etc.

Column (b).—Show the billing unit for each price.

Column (c).—Show the price to be charged in the budgeted fiscal year. See the discussion above for various prices which may need to be reported.

Column (d).—Show the most recent price (as discussed above) effective for the last fiscal year. This price may not be higher than the legally authorized price for the last fiscal year (as discussed in the instructions for column (d) of Part I).

When a third-party payer expresses cost reimbursement as a rate per patient day (or adjusted patient day) or per outpatient visit, the price for the last fiscal year may be increased by 2 percent to show the delivery of more services per patient day or outpatient visit. This combination of the last fiscal year price and the 2 percent intensity factor will be termed the "adjusted last fiscal year price" and is the point from which the price increase will be measured. When this factor is applicable, show by an asterisk (*) that the last fiscal year price has been adjusted for the entry in column (d). You may not adjust the last fiscal year price if the third-party payer reimburses in any other manner. You may not use an intensity factor greater than 2 percent.

The following example illustrates use of the 2 percent intensity factor. You would enter in column (d) the amounts shown under "Adjusted Last Fiscal Year Price," below, and in column (e) the amounts shown under "Unit Price Increase," below.

Example

Payer	Unit	BFY Price	LFY Price	1.02 (if applicable)	Adjusted LFY Price	Unit Price Increase
MEDICARE						
Inpatient	PD	$80.12	$75.00	1.02	$76.50	$3.62
Outpatient	Visits	9.90	8.20	1.02	8.36	1.54
BLUE CROSS						
Inpatient	PD	102.95	89.50	1.02	91.30	11.65
Outpatient						
EKG	Procedures	25.00	23.00	NA	23.00	2.00
X-ray	Procedures	10.00	9.20	NA	9.20	.80
Other	Visits	12.62	10.59	1.02	10.80	1.82

Discussion.—In the foregoing example, Medicare reimbursement is calculated on a patient day or patient visit basis. Therefore, the 1.02 adjustment for intensity applies to all prices paid by Medicare.

Blue Cross pays on a mixed system. All inpatient prices and most outpatient prices are expressed as a rate per patient day or per visit. Certain outpatient departments are, however, reimbursed by the number of procedures performed for persons covered by the insurer. In the example, reimbursement for EKG and X-ray is not subject to the 1.02 intensity adjustment since higher intensity will be reflected as a greater number of procedures.

Column (e).—Subtract the last fiscal year price (col. (d)) from the budgeted fiscal year price (col. (c)). Enter the remainder for each service or commodity.

Columns (f)-(m).—Most cost reimbursers pay a uniform rate throughout the fiscal year. In such a case, the following pairs of columns should be identical: (f) and (j); (g) and (k); (h) and (l); (i) and (m). If they are not, attach an explanation.

Column (n).—If the effective date of price increases to third-party payers under cost-reimbursement contracts is not the first day of your fiscal year, attach an explanation.

Line 4.—Column (i).—Enter the total of all entries in this column.

Column (m).—Enter the total of all entries in this column.

Line 5.—Enter the amounts shown in line 3, columns (i) and (m), respectively, from Part I.

Line 6.—Add lines 4 and 5 in columns (i) and (m), respectively. Line 6, column (i) represents the annualized effect on revenues of all price increases. This is the amount which must be cost-justified, and it must meet the 6 percent limitation. Line 6, column (m) is the actual amount of revenue from price changes that occur in the budgeted fiscal year which you have realized (if your budgeted fiscal year has been completed) or expect to realize (if your budgeted fiscal year has not yet begun or is in progress).

Use of Schedule A with Form S-52.—After you complete Schedule A, use the information derived to complete your report of price increases, your quarterly report, your annual report, and/or your self-monitoring check. Details on the specific uses of this information are in the general instructions for this schedule and in the instructions for the Form S-52 (Rev. July 1973). Additionally, a few specific points of interest follow:

If You Use the September 1972 Revision of Form S-52—Calculate the entry for Item 18(b) as follows: Divide the amount shown in Schedule A, line 6, column (i) by the amount shown in Form S-52, Item 14, column (a). This is the annualized percentage increase in aggregate annual revenues due to price increases.

If You Use the July 1973 Revision of Form S-52—

(1) The amount shown in Schedule A, line 6, column (i) should be equal to the amount shown in Form S-52, Item 59, when you request an exception or when an exception has already been granted for the budgeted fiscal year.

(2) When you complete Part VIII of Form S-52, show the same amount in Item 75 as you show in Schedule A, line 6, column (i). Also, show in Form S-52, Item 77, the same amount that you show in Schedule A, line 6, column (m).

For All Revisions of Form S-52—

(1) The amount shown in Schedule A, line 6, column (i), is the amount which must not exceed your justified allowable costs, or 6 percent of the aggregate annual revenues realized in the last fiscal year, whichever is less, except when you have been granted an exception. If you have been granted an exception for the budgeted fiscal year, then the amount of annualized price increase revenues (Schedule A, line 6, column (i)) must not exceed the sum of the exception granted and the lesser of justified allowable costs, or 6 percent of the aggregate annual revenues realized in the last fiscal year.

(2) The amount shown in Schedule A, line 6, column (m), is the amount of price increase revenue which you will actually realize. This amount can never be greater than the amount shown in Schedule A, line 6, column (i).

Title 7—Agriculture

CHAPTER IV—FEDERAL CROP INSURANCE CORPORATION, DEPARTMENT OF AGRICULTURE

[Amdt. 45]

PART 401—FEDERAL CROP INSURANCE

Subpart—Regulations for the 1969 and Succeeding Crop Years

COTTON

Pursuant to the authority contained in the Federal Crop Insurance Act, as amended, the above-identified regulations are amended effective beginning with the 1974 crop year in the following respects:

1. Subsection 5(f) of the Cotton Endorsement shown in § 401.136 is amended to read as follows:

(f) Notwithstanding any provision of this section for determining the production to be counted, such production shall be reduced when, due solely to insured causes, the quality of the cotton produced is such that, on the date the final notice of loss is given by the insured, the price quotation for cotton of like quality (price quotation "A") at the applicable spot market, as determined by the Corporation, is less than 75 percent of price quotation "B". Price quotation "B" shall be that day's spot market price quotation at the same market for cotton of the grade, staple length, and micronaire reading shown on the actuarial table for this purpose. In such case, the pounds of production to be counted shall be determined by multiplying the actual number of pounds of such production by price quotation "A", and dividing the result by 75 percent of price quotation "B". This reduction for quality shall not be made if the Corporation determines that quality damage could have been prevented or reduced by following recognized good farming practices, including timely harvesting.

2. Section 6 of the Cotton Endorsement shown in § 401.136 is amended by adding a subsection (g) thereto reading as follows:

(g) "Spot market" means a market so designated by the Secretary of Agriculture by regulation (7 CFR 27.93) pursuant to 26 U.S.C. § 4862.

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U.S.C. 1506, 1516)

The foregoing amendment establishes a formula for the downward adjustment in the production of cotton to be counted because of poor quality due to insured causes which is different from the formula applicable in the current contract. The current contract provides for an adjustment in any cotton production to be counted for which the quality has been damaged to the extent that the value per pound is less than 75 percent of the Commodity Credit Corporation loan rate for the quality of cotton shown on the actuarial table. The production of any cotton so damaged is adjusted downward by dividing the total value of such cotton by 75 percent of the Commodity Credit Corporation loan rate for the quality shown on the actuarial table.

Inasmuch as the market price for cotton is greatly in excess of the CCC loan rate, the relationship of the CCC loan rate to the value of the damaged cotton does not reflect an equitable comparison for the adjustment of production. The retention of the current quality provision will probably result in reduced sales and increased cancellations. The foregoing amendment is designed to correct this, and it is desirable it become effective in 1974. Notice of changes must be given insureds in the southern Texas counties by September 15, 1973, and applications will be taken in the near future.

Under the circumstances, and since it is a change favorable to the insured, the Board of Directors found that it would be impracticable and contrary to the public interest to follow the procedure for notice and public participation prescribed by 5 U.S.C. 553 (b) and (c), as directed by the Secretary of Agriculture in a Statement of Policy, executed July 20, 1971 (36 FR 13804), prior to its adoption. Accordingly, said amendment was adopted by the Board of Directors on July 12, 1973.

[SEAL] LLOYD E. JONES,
Secretary, Federal Crop Insurance Corporation.

Approved on July 18, 1973.

EARL L. BUTZ,
Secretary.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 440, Amdt. 1]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period July 13–19, 1973. The quantity that may be shipped is increased due to improved market conditions for California-Arizona Valencia oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674) and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Valencia Orange Regulation 440 (38 FR 18554). The marketing picture now indicates that there is a greater demand for Valencia oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Valencia oranges to fill the current demand thereby making a greater quantity of Valencia oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Valencia oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b) (1) (ii) of § 908.740 Valencia Orange Regulation 440 (38 FR 18554) are hereby amended to read as follows:

§ 908.740 Valencia Orange Regulation 440.

• • • • • •

(b) • • •
(1) • • •
(ii) District 2: 410,000 cartons.

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 18, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-15089 Filed 7-23-73;8:45 am]

[Lime Reg. 4, Amdt. 1]

PART 911—LIMES GROWN IN FLORIDA

Limitation of Handling

This regulation increases the quantity of Florida limes that may be shipped to fresh market during the weekly regulation period July 15, 1973, through July 21, 1973. The quantity that may be shipped is increased due to improved market conditions for Florida limes. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 911.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911; 37 FR 10497), regulating the han-

V 38 - 141 - I JUL 24 73 XUM

dling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Florida Lime Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of limes available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Lime Regulation 4 (38 FR 18662). The marketing picture now indicates that there is a greater demand for limes than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of limes to fill the current market demand thereby making a greater quantity of limes available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of limes grown in Florida.

(b) *Order, as amended.* The provisions in paragraph (b) (1) of § 911.404 (Lime Regulation 4, 38 FR 18662) is hereby amended to read as follows:

§ 911.404 Lime Regulation 4.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 19, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73–15182 Filed 7–23–73;8:45 am]

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

MISCELLANEOUS AMENDMENTS TO CHAPTER

Pursuant to section 552 of Title 5 of the United States Code (80 Stat. 383) and the authority in 8 U.S.C. 1103 and 8 CFR 2.1, miscellaneous amendments, as set forth herein, are prescribed in Parts 103, 223, 238, 299, and 499 of Chapter I of Title 8 of the Code of Federal Regulations.

Current Form I–143, "Application for Extension of Permit to Reenter the United States," is being eliminated since Form I–131 has been revised to serve as an application for either issuance or extension of a reentry permit. Accordingly, the first sentence of § 223.2 is amended by substituting "Form I–131" in lieu of "Form I–143" therein, and the listing of forms in § 299.1 is amended to delete therefrom the reference to Form I–143 and to reflect a revision of the title of Form I–131. Minor corollary amendments are likewise made in §§ 103.1(e) (12) and 103.7(b) (1).

In Part 223, a minor technical amendment is made in the first sentence of § 223.2 by changing "United Arab Republic" to read "Arab Republic of Egypt."

Pursuant to section 238(d) of the Immigration and Nationality Act, an agreement has been entered into between the Acting Commissioner of Immigration and Naturalization and Air Nauru, a transportation line operating at ports of the United States, to guarantee the passage through the United States in immediate and continuous transit of aliens destined to foreign countries. In Part 238, § 238.3 (b) is, therefore, amended by adding "Air Nauru" to the listing of signatory transportation lines.

A number of immigration forms and naturalization forms listed in Parts 299 and 499, respectively, have been reissued and now bear a more recent edition date. Accordingly, §§ 299.1 and 499.1 are amended to reflect the current edition date of those forms. The listing of forms in § 299.1 is also amended to reflect a substitution of Form G–325C in lieu of Form G–325B, and a revision of the title of Form I–342 by substituting therein "Immigration Judge" in lieu of "Special Inquiry Officer."

In the light of the foregoing, the following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

1. In § 103.1(e), subparagraph (12) is amended by inserting the words "issuance of" immediately preceding the words "reentry permits." As amended, § 103.1(e) (12) reads as follows:

§ 103.1 Delegations of authority.

* * * * *

(e) *Regional commissioners.* * * *

(12) Decisions on applications for issuance of reentry permits, as provided in § 223.1;

* * * * *

2. In § 103.7(b), subparagraph (1) is amended by deleting the existing 12th fee and by amending the existing 11th fee which, when taken with the introductory material, will read as follows:

§ 103.7 Fees.

* * * * *

(b) *Amounts of fees.* (1) The following fees and charges are prescribed: * * *

For filing application for issuance or extension of reentry permit..	$10. 00

* * * * *

PART 223—REENTRY PERMITS

In § 223.2, the first sentence is amended. As so amended, § 223.2 reads as follows:

§ 223.2 Extensions.

An application for extension of a reentry permit shall be submitted on Form I–131 prior to the expiration of the reentry permit's validity to the office having jurisdiction over the applicant's place of residence in the United States, or to the immigration officer stationed outside the United States having jurisdiction over the place where the applicant is temporarily sojourning, or to an American consular officer in South America (except Venezuela), in those areas of Asia lying to the east of the western borders of Afghanistan and Pakistan (but not including Hong Kong and adjacent islands, Taiwan, Japan, Okinawa, Korea, and the Philippines), in Australia, New Zealand, Bulgaria, Czechoslovakia, Hungary, Iceland, Poland, Romania, the Union of Soviet Socialist Republics, Yugoslavia, Iran, Iraq, Jordan, Saudi Arabia, Syrian Arab Republic, Yemen, Aden, Kuwait, United Arab Emirates, and in Africa (including the Arab Republic of Egypt) when the applicant is temporarily sojourning in one of the aforementioned places. A reentry permit extension application mailed during the permit's validity is concidered as timely submitted, even though received by a Service or consular office after the permit's validity has expired. If the extension application is granted, the permit will be noted to show the extension and returned to the applicant; if denied, the applicant shall be notified of the decision, and the permit returned to him if the remaining period of its validity permits its use for return to the United States. No appeal shall lie from a decision denying an application for extension of a reentry permit.

PART 238—CONTRACTS WITH TRANSPORTATION LINES

§ 238.3 [Amended]

The listing of transportation lines in paragraph (b) *Signatory lines* of § 238.3 *Aliens in immediate and continuous transit* is amended by adding the following transportation line in alphabetical sequence: "Air Nauru."

PART 299—IMMIGRATION FORMS

§ 299.1 [Amended]

The listing of forms in § 299.1 *Prescribed forms* is amended in the following respects:

1. The reference to Form G–325B is deleted and in lieu thereof Form G–325C is added in alphabetical and numerical sequence to read as follows:

Form No.	*Title and description*
G–325C (3–1–72)	Biographic Information.

2. The reference to Form I–143 is deleted.

3. The listing of forms is amended to reflect the current edition date of the following forms, in addition to a revision of the title of Form I–131 and Form I–342:

§ 299.1 Prescribed forms.

* * * * *

Form No.	*Title and description*
I–90 (12–1–72)	Application by Lawful Permanent Resident Alien for Alien Registration Receipt Card, Form I–151.
I–92 (6–1–73)	Aircraft/Vessel Report.
* *	* * *
I–129F (2–1–72)	Petition to Classify Status of Alien Fiance or Fiancee for Issuance of Nonimmigrant Visa.
* *	* * *
I–131 (11–1–72)	Application for Issuance or Extension of Permit to Reenter the United States.
* *	* * *
I–181 (12–1–72)	Memorandum of Creation of Record of Lawful Permanent Residence.
* *	* * *
I–256A (6–1–73)	Application for Suspension of Deportation.
* *	* * *
I–342 (5–1–73)	Determination of the Immigration Judge with Respect to Custody.
* *	* * *
I–356 (4–1–73)	Request for Cancellation of Public Charge Bond.
* *	* * *
I–418 (5–1–73)	Passenger List—Crew List.
* *	* * *
I–485 (12–1–72)	Application for Status as Permanent Resident.
* *	* * *
I–486A (6–1–73)	Medical Examination and Immigration Interview.
* *	* * *
I–570 (5–1–73)	Application for Issuance or Extension of Refugee Travel Document.
I–571 (6–1–73)	Refugee Travel Document.
* *	* * *
I–612 (5–1–73)	Application for Waiver of the Foreign Residence Requirement of Section 212(e) of the Immigration and Nationality Act, as amended.
* *	* * *

PART 499—NATIONALITY FORMS

The listing of forms in § 499.1 is amended to reflect the current edition date of the following forms:

§ 499.1 Prescribed forms.

* * * * *

Form No.	*Title and description*
* *	* * *
N–3 (6–1–70)	Requisition for Forms and Binders.
* *	* * *
N–315 (2–1–71)	Declaration of Intention.
* *	* * *
N–400 (5–1–73)	Application to File Petition for Naturalization.
* *	* * *
N–405 (7–1–70)	Petition for Naturalization (under general provisions of the Immigration and Nationality Act).
* *	* * *
N–470 (1–22–73)	Application to Preserve Residence for Naturalization Purposes (under Sec. 316(b) or 317, Immigration and Nationality Act).
N–472 (4–26–72)	Approval of Application to Preserve Residence for Naturalization Purposes.
* *	* * *
N–550 (12–1–69)	Certificate of Naturalization.
* *	* * *
N–585 (4–1–73)	Application for Information from or Copies of Immigration and Naturalization Records.
* *	* * *
N–600 (9–1–69)	Application for Certificate of Citizenship.

Compliance with the provisions of section 553 of Title 5 of the United States Code (80 Stat. 383) as to notice of proposed rule making and delayed effective date is unnecessary in this instance and would serve no useful purpose because the amendments to §§ 103.1(e), 103.7(b) (1), 223.2, 299.1, and 499.1 relate to agency management and are editorial in nature; and the amendment to § 238.3 (b) adds a transportation line to the listing.

Effective date. This order shall become effective on July 24, 1973.

Dated: July 19, 1973.

JAMES F. GREENE,
Acting Commissioner of Immigration and Naturalization.

[FR Doc.73–15178 Filed 7–23–73;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 92—IMPORTATION OF CERTAIN ANIMALS AND POULTRY AND CERTAIN ANIMAL AND POULTRY PRODUCTS; INSPECTION AND OTHER REQUIREMENTS FOR CERTAIN MEANS OF CONVEYANCE AND SHIPPING CONTAINERS THEREON

Horses From Canada

The purpose of this amendment of the regulations in Part 92 is to permit a waiver of import inspection of horses entering the United States from Canada for temporary periods not exceeding 72 hours and to provide for inspection of horses from Canada offered for permanent entry at a port other than the port of entry when it is determined that such action will not endanger the livestock industry of the United States.

Similar procedure was in effect prior to the outbreak of Venezuelan equine encephalomyelitis (VEE) in the United States but was discontinued in July 1971 to provide increased security on horse movements into the United States. With the eradication of VEE from the United States plus the fact that Canada is free of this and other diseases of horses considered to be exotic to the United States, the present restriction is considered unnecessary and is, therefore, being relieved.

Pursuant to the provisions of section 2 of the Act of February 2, 1903, as amended, and sections 2, 3, 4, and 11 of the Act of July 2, 1962 (21 U.S.C. 111, 134a, 134b, 134c, and 134f), Part 92, Title 9, Code of Federal Regulations, is hereby amended in the following respects:

1. Section 92.3(a) is amended by inserting after "§ 92.11," the term "or § 92.24,".

2. Section 92.24 is amended to read:

§ 92.24 Horses from Canada.

Horses from Canada shall be inspected as provided in § 92.8 and shall be accompanied by a certificate and otherwise handled as provided in § 92.17: *Provided, however,* That certificates required for horses from Canada may be either issued or endorsed by a salaried veterinarian of the Canadian Government: *And provided, further,* That inspection is not required for horses imported from Canada under temporary Customs authorization for a stay not to exceed 72 hours, and arrangements may be made to provide inspection of horses imported from Canada for a stay in excess of 72 hours at a point in the United States, other than the Customs port of entry, when the Veterinary Services inspector having responsibility for imports through such port of entry determines that such action will not endanger the livestock of the United States.

(Sec. 2, 32 Stat. 792, as amended; secs. 2, 3, 4, and 11, 76 Stat. 129, 130, 132; 21 U.S.C. 111, 134a, 134b, 134c, 134f; 37 FR 28464, 28477)

Effective date. The foregoing amendments shall become effective July 24, 1973.

The amendments relieve certain restrictions presently imposed but no longer deemed necessary to prevent the spread of animal diseases, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and

V 38-141 JUL 24 73 XUM

unnecessary and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 19th day of July 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-15104 Filed 7-23-73;8:45 am]

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Z]

PART 226—TRUTH IN LENDING

Disclosure of Rebates of Finance Charges

1. Effective January 1, 1974, § 226.8 (b)(7) is amended to read as set forth below. The amendment will require creditors who do not grant rebates of the unearned portion of a finance charge upon prepayment of a precomputed instalment contract to disclose this fact on the Truth in Lending disclosure form. For example, if the cash price of an item is $100 and the finance charge for one year is $20, the consumer normally will sign an obligation to pay $120 over a year in 12 monthly instalments of $10 each. If the consumer repays the obligation in full before maturity, he may or may not receive a rebate of any unearned portion of the finance charge. The Regulation currently requires those creditors who make rebates to identify the rebate method. This amendment requires creditors who do not make rebates to disclose that fact to consumers in advance of their becoming obligated on credit contracts.

§ 226.8 **Credit other than open end—Specific disclosures.**

* * * * *

(b) *Disclosures in sale and non-sale credit.* * * *

(7) Identification of the method of computing any unearned portion of the finance charge in the event of prepayment in full of an obligation which includes precomputed finance charges and a statement of the amount or method of computation of any charge that may be deducted from the amount of any rebate of such unearned finance charge that will be credited to an obligation or refunded to the customer. If the credit contract does not provide for any rebate of unearned finance charges upon prepayment in full, this fact shall be disclosed.

2. This amendment was promulgated pursuant to section 105 of the Truth in Lending Act (15 U.S.C. section 1604). Notice of proposed rule making was published on May 3, 1973 (38 FR 12240). After consideration of all relevent matter submitted by interested parties, two minor changes were made to § 226.8 (b)(7).

3. The amendment is designed to alert consumers, before they become obligated on an installment contract, if they will not receive a rebate of the unearned portion of the finance charge should they prepay the obligation before its stated maturity.

4. Section 226.8(b)(7) has been altered from its proposed form to clarify that it applies only to rebates provided in the event that an obligation is prepaid in full and does not require disclosure relating to partial prepayment of obligations. It has also been clarified to reflect the fact that it only relates to the rebate of the "unearned" portion of a finance charge.

By order of the Board of Governors, July 12, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-15075 Filed 7-23-73;8:45 am]

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 73-996]

PART 545—OPERATIONS

Securities and Other Investments

JULY 18, 1973.

Section 133(c)(3) of Public Law No. 92-318 of June 23, 1972, amended section 5(c) of the Home Owners' Loan Act of 1933 (12 U.S.C. 1464(c)) to authorize investment by Federal savings and loan associations in "obligations or other instruments or securities of the Student Loan Marketing Association". The Federal Home Loan Bank Board considers it desirable to amend § 545.9 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.9) in order to implement such authorization.

Accordingly, the Board hereby amends said § 545.9 by adding thereto a new paragraph (g), immediately following paragraph (f), to read as follows, effective July 18, 1973:

§ 545.9 **Securities and other investments.**

A Federal association may invest in the following:

* * * * *

(g) Any obligations or other instruments or securities of the Student Loan Marketing Association.

Since affording notice and public procedure on the above amendment would delay it from becoming effective for a period of time and since it is in the public interest that the authority contained in the amendment become effective as soon as possible, the Board hereby finds that notice and public procedure on said amendment are contrary to the public interest under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since the amendment relieves restriction, publication for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of the amendment is unnecessary; and the Board hereby provides that the amendment shall become effective as hereinbefore set forth.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] HENRY A. CARRINGTON,
Secretary.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 73-WA-33]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration to VOR Federal Airway Description

On April 17, 1973, an amendment was published in the FEDERAL REGISTER (38 FR 9488) stating in part that effective June 21, 1973, V-13 alignment would be "from Corpus Christi, Tex.; via INT Corpus Christi 038° and Palacios, Tex., 241° radials; Palacios;."

As a result, the magnetic radial for V-13 from Corpus Christi was charted as the 029° radial. The Southwest Region requested that this enroute radial be realigned via the 030° magnetic radial.

This alignment is required so that it reflects similar information described on charts utilized by the controllers, and action is taken herein to realign V-13 via the 030° (039°T) magnetic radial.

Since amending the description of this airway is a minor editorial change on which the public would have no particular reason to comment, notice and public procedure thereon are unnecessary, and good cause exists for making this amendment effective on less than 30-days notice.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., August 16, 1973, as hereinafter set forth.

Section 71.123 (38 FR 307 and 9488) is amended as follows:

In V-13 "From Corpus Christi, Tex.; via INT Corpus Christi 038° and Palacios, Tex., 241° radials; Palacios;" is deleted and "From Corpus Christi, Tex.; via INT Corpus Christi 039° and Palacios, Tex., 241° radials; Palacios;" is substituted therefor.

(Sec. 307(a)) Federal Aviation Act of 1958, 49 U.S.C. 1348(a), and Sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c).

Issued in Washington, D.C., on July 17, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-15064 Filed 7-23-73;8:45 am]

[Airspace Docket No. 73-SW-31]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Ruston, La., transition area.

On June 4, 1973, a notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 14694) stating the Federal Aviation Administration proposed to alter the Ruston, La., 700-foot transition area.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., September 13, 1973, as hereinafter set forth.

In § 71.181 (38 FR 435), the Ruston, La., transition area is amended to read:

RUSTON, LA.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Ruston Municipal Airport (latitude 32°30'45" N., longitude 92°37'45" W.), within 2 miles each side of the Monroe, La., VORTAC 278° radial extending from the 5-mile radius area to 4 miles west of the VORTAC, and within 3.5 miles each side of the Ruston, La., VOR (latitude 32°27'54" N., longitude 92°36'30" W.) 167° radial extending from the 5-mile radius area to 11.5 miles south of the VOR.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); Sec. 6(c), Department of Transportation Act [49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on July 11, 1973.

HENRY L. NEWMAN,
Director, Southwest Region.

[Airspace Docket No. 71-WA-16C]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Designation of Area High Routes

On May 21, 1971, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (36 FR 9258) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 75 of the Federal Aviation Regulations that would designate eleven area high routes in the United States.

Six of the routes (J-933R, J-971R, J-972R, J-974R, J-975R, and J-976R) have previously been designated. Four of the remaining five routes (J-926R, J-973R, J-977R, and J-978R) have been successfully flight inspected and are being designated in this rule. J-979R is hereby withdrawn since J-975R and J-985R could be used instead.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

Changes from route descriptions listed in the NPRM have been made in order to use previously designated waypoints and to conform to terminal procedures in the Chicago, Ill., and Los Angeles, Calif., areas.

Since these changes are minor in nature and upon which the public would not have particular reason to comment, additional notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., September 13, 1973, as hereinafter set forth.

In § 75.400 (38 FR 700) the following area high routes are added:

Waypoint	N. Lat./W. Long. in degrees/minutes/seconds	Reference facility
J-926R DENVER, COLO., TO LOS ANGELES, CALIF.		
Golden, Colo...	39°48'15"/105°04'06"	Denver, Colo.
Redstone, Colo.	39°01'15"/107°22'02"	Gunnison, Colo.
La Salle, Utah..	38°20'00"/109°14'49"	Dove Creek, Colo.
White Cliffs, Utah	37°06'22"/112°20'29"	Bryce Canyon, Utah.
Sanup, Ariz....	36°08'19"/113°51'29"	Peach Springs, Ariz.
Kelso, Calif....	35°06'06"/115°34'49"	Parker, Calif.
Morrow, Calif..	34°02'51"/117°14'54"	Oceanside, Calif.
J-973R SEATTLE, WASH., TO SALT LAKE CITY, UTAH		
Cumberland, Wash.	47°15'12"/121°53'53"	Yakima, Wash.
McKay, Oreg...	45°52'54"/119°28'48"	Pendleton, Oreg.
Horseshoe, Idaho.	43°46'40"/116°08'13"	Boise, Idaho.
Spring Bay, Utah.	41°28'18"/112°54'14"	Malad City, Idaho.
J-977R PORTLAND, OREG., TO CHICAGO, ILL.		
Portland, Oreg.	45°44'53"/122°35'25"	Portland, Oreg.
McKay, Oreg...	45°52'54"/119°28'48"	Pendleton, Oreg.
Grangeville, Idaho	45°55'51"/116°12'25"	McCall, Idaho
Whitehall, Mont.	45°51'43"/112°10'08"	Whitehall, Mont.
Rockvale, Mont.	45°41'03"/106°38'26"	Billings, Mont.
Brandenburg, Mont.	45°29'21"/106°06'57"	Miles City, Mont.
Mud Butte, S. Dak.	45°06'17"/102°44'26"	Rapid City, S. Dak.
Bonilla, S. Dak..	44°34'07"/98°38'07"	Aberdeen, S. Dak.
Heidy, Mont....	44°07'06"/96°00'04"	Sioux Falls, S. Dak.
Oranto, Iowa...	43°27'29"/93°09'59"	Mason City, Iowa
Woodstock, Ill..	42°21'21"/88°24'13"	Milwaukee, Wis.
J-978R CHICAGO, ILL., TO PORTLAND, OREG.		
Morrison, Ill....	41°55'53"/89°47'00"	Bradford, Ill.
Elberon, Iowa..	42°00'53"/92°15'40"	Dubuque, Iowa
Corwith, Iowa..	42°58'37"/93°54'48"	Fort Dodge, Iowa.
Heidy, Minn...	44°07'06"/96°00'04"	Sioux Falls, S. Dak.
Bonilla, S. Dak.	44°34'07"/98°38'07"	Aberdeen, S. Dak.
Mud Butte, S. Dak.	45°06'17"/102°44'26"	Rapid City, S. Dak.
Brandenburg, Mont.	45°29'21"/106°06'57"	Miles City, Mont.
Rockvale, Mont.	45°41'03"/106°38'26"	Billings, Mont.
Whitehall, Mont.	45°51'43"/112°10'08"	Whitehall, Mont.
Grangeville, Idaho	45°55'51"/116°12'25"	McCall, Idaho
McKay, Oreg...	45°52'54"/119°28'48"	Pendleton, Oreg.
Portland, Oreg.	45°44'53"/122°35'25"	Portland, Oreg.

(Sec. 307(a)) Federal Aviation Act of 1958, 49 U.S.C. 1348(a), and Sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c).

Issued in Washington, D.C., on July 17, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-15063 Filed 7-23-73;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

WHOLE FISH PROTEIN CONCENTRATE

An order published in the FEDERAL REGISTER of February 2, 1967 (32 FR 1173) provided for the safe use of whole fish protein concentrate as a protein supplement in food. In promulgating that order, the Commissioner of Food and Drugs found that:

"Individual consumers are entitled to the opportunity of choice in the matter of whether they desire to include this item in their diets; therefore, the product, to be readily distinguishable should be more properly identified as 'whole fish protein concentrate,' and for domestic distribution it should be packaged for household use in consumer sized units not exceeding 1-pound net weight. Bulk sales or packaging in units larger than 1-pound cannot be authorized unless the Commissioner is supplied with data demonstrating that the proposed use of the article will not promote deception and will promote honesty and fair dealing in the interest of the consumer."

It was also concluded in the promulgating order that the fluorine intake of children under 8 years of age should be controlled to prevent tooth disfigurement by limiting the amount of the additive in their total diet on a regular basis to not more than 20 grams per day.

The Commissioner, having evaluated data in a petition (FAP 2A2762) filed by the National Fish Meal & Oil Association, 1225 Connecticut Avenue, NW, Washington, DC 20036, and other relevant material, concludes that the food additive regulations should be amended to provide for the safe use of whole fish protein concentrate in manufactured foods by deleting from § 121.1202 (21 CFR 121.1202), the present restrictions which limit packaging of the additive to units not in excess of 1 pound net weight with informative consumer labeling for use only in the household. These restrictions are no longer deemed necessary provided that the labeling of the manufactured foods containing the additive bears the declaration "whole fish protein concentrate" in the proper sequence in the statement of ingredients. Over the period since the promulgation of § 121.1202, the name "whole fish protein concentrate" has been adequately established as the common or usual name and the label declaration by that name in the ingredient statement will be informative to consumers as to the presence of the additive in manufactured foods.

More recently, concern about the mercury content of fish resulted in the

V38-141 JUL 24 73 XUM

establishment by the Food and Drug Administration of a guideline of 0.5 part per million (ppm) in the raw edible portion of fish. Almost all of the mercury in fish is methylmercury, the form of toxicological concern. The guideline was based on information that a daily intake of 300 micrograms (ug) mercury by pregnant women was the minimum intake that gave rise to neurological symptoms in newborn infants (although the mothers were asymptomatic) in a poisoning episode in Japan. Allowing a safety factor of 10, the tolerable limit of exposure is 30 ug per day for a 70 kilogram (kg) individual or 2 ounces (60 grams) per day of fish containing 0.5 ug mercury per gram wet weight. The validity of this tolerable level of exposure has since been given support by a study of individuals in Iraq exposed to organic mercury as a result of consumption of mercury treated wheat. Assuming the validity of the available data relating to methylmercury metabolism, accumulation of methylmercury is essentially complete and has reached an equilibration level after the exposure for one year to the same daily dose. The importance of this relationship is that methylmercury would not be expected to accumulate over the life span of an individual as has been observed generally with other heavy metals.

Data on heavy metal content of whole fish protein concentrate show that, except for mercury, the average heavy metal content is within the range found in many common foods. The question of need for a tolerance for mercury content of whole fish protein concentrate has been considered. Unlike the usual heavy metals which tend to accumulate in bone, and which may be reduced in the partial deboning of whole fish protein concentrate permitted under § 121.1202, methylmercury concentrates in tissue and there is currently no effective means for removal.

Species of fish permitted by § 121.1202 in the production of whole fish protein concentrate are limited to deep ocean fish. Unlike freshwater fish which may contain mercury levels exceeding the 0.5 ppm guideline, the vast majority of deep ocean fish have mercury levels well below 0.5 ppm. Petition data show that mercury levels in whole fish protein concentrate are in the range of 0.11 to 0.55 ppm (mean value for all species). Despite the 5-fold concentration in preparation, the extreme upper range of mercury content in the concentrate is roughly within that permitted for fresh fish.

It is recognized that there is potential for mercury from the use of whole fish protein concentrate to be additive with that obtained from consumption of fresh fish. However, since the majority of fish consumed are well below the 0.5 ppm guideline for mercury (even tuna fish averages 0.2–0.3 ppm mercury), it is unlikely that the total mercury intake will exceed the overall guideline of 30 ug/day. Even if such a slight increase were to occur occasionaly it would be without hazard.

Since all of the species of fish permitted under § 121.1202 are deep ocean fish which contain low levels of mercury, it is concluded that there is no necessity to establish a tolerance for mercury in the concentrate at this time.

Safety for the use of whole fish protein concentrate is based on 30 grams of the concentrate as the maximum that an adult could conceivably consume. Total food intake accepted by toxicologists for a 70 kg. adult is 1500 grams per day of which 500 grams is fruit and vegetables and for which there is no logical reason for supplementation with protein. The remaining 1000 grams in diet equates to about 300 grams on a dry basis, and there is a technologically realistic top use level of 10 percent whole fish protein concentrate based on dry weight of the food. Assuming supplementation of all such foods, the daily adult intake of the concentrate would be 30 grams per day. Obviously, this intake is highly exaggerated because the concentrate cannot be successfully incorporated into all foods represented by the remaining 1000 grams in diet, nor will all such foods contain as much as 10 percent of the concentrate, the technical limit.

Assuming the maximum daily intake of the concentrate as 30 grams per day, mercury intake would range from 3 to 16 ug which is considerably less than the assumed safe daily intake of 30 ug. As a practical matter, it is unlikely that the total intake of mercury by an individual from all sources of food would approach 30 ug.

It is concluded that any increase in heavy metal exposure as the result of the use of whole fish protein concentrate will be minimal, and the benefits to be derived from the use of this high quality protein far outweigh any possible hazards, which are ill-defined at this time.

Because excessive fluoride could be damaging to the teeth of children under 8 years of age, § 121.1202 currently limits regular consumption of whole fish protein concentrate to 20 grams per day by children up to 8 years of age. In comparison with the accepted 30 grams of concentrate per day that an adult could conceivably consume, the intake by a child under 8 years may be accepted as within the present 20 grams per day limit because of lower food intake by the child.

It is concluded that fluoride intake from manufactured foods may be controlled by imposing an 8 ppm tolerance on fluoride in the finished food. This tolerance will limit intake of the concentrate to 20 grams per day by children up to 8 years. Since the safety of fluoride (20 grams concentrate containing 100 ppm fluoride) is based on the maximum possible use level of the concentrate in all potential foods, the possibility of exposure from both foods supplemented in the household and manufactured foods need be of no concern.

It is highly unlikely that a child's consumption of the additive as an ingredient in manufactured foods and in home prepared foods would exceed 20 grams per day. However, even if the 20 grams per day intake is occasionally exceeded, the resulting fluoride intake would present no hazard in the diet of children.

The Commissioner has also evaluated data in a petition (FAP 1A2654) filed by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, Washington, D.C. 20235, and other relevant material, and concludes that the food additive regulations should be further amended to provide for the safe use of whole fish protein concentrate prepared from anchovy of the species *Engraulis mordax*. The petition, as originally submitted, proposed the use of the genus *Engraulis* without limitation. However, the petitioner subsequently amended the petition to limit use of the species *Engraulis mordax* in the absence of data supporting the safety of other species. As with the fish species permitted by § 121.1202, anchovy is a deep ocean fish.

The Commissioner having carefully considered, pursuant to 21 CFR Part 6, all environmental effects relevant to this amendment of food additive regulations, concludes that an environmental impact statement is not required under the National Environmental Policy Act, 42 CFR 4332 (2) (C).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.1202 is amended by revising paragraphs (a), (b), (d), (e), (f)(1), and (f)(2), and by adding a new paragraph (f)(3), as follows:

§ 121.1202 Whole fish protein concentrate.

* * * * *

(a) The additive is derived from whole, wholesome hake and hakelike fish, herring of the genera *Clupea*, menhaden, and anchovy of the species *Engraulis mordax*, handled expeditiously and under sanitary conditions in accordance with good manufacturing practices recognized as proper for fish that are used in other forms for human food.

(b) The additive consists essentially of a dried fish protein processed from the whole fish without removal of heads, fins, tails, viscera, or intestinal contents. It is prepared by solvent extraction of fat and moisture with isopropyl alcohol or with ethylene dichloride followed by isopropyl alcohol, except that the additive derived from herring, menhaden and anchovy is prepared by solvent extraction with isopropyl alcohol alone. Solvent residues are reduced by conventional heat drying and/or microwave radiation and there is a partial removal of bone.

* * * * *

(d) When the additive is used or intended for use in the household as a protein supplement in food for regular consumption by children up to 8 years of age, the amount of the additive from this source shall not exceed 20 grams per day (about one heaping tablespoon).

(e) When the additive is used as a protein supplement in manufactured food, the total fluoride content (expressed as F) of the finished food shall not exceed 8 ppm based on the dry weight of the food product.

(f) * * *

(1) The label of consumer-sized or bulk containers of the additive shall bear the name "whole fish protein concentrate."

(2) The label or labeling of containers of the additive shall bear adequate directions for use to comply with the limitations prescribed by paragraphs (d) and (e) of this section.

(3) Labels of manufactured foods containing the additive shall bear, in the ingredient statement, the name of the additive, "whole fish protein concentrate" in the proper order of decreasing predominance in the finished food.

Any person who will be adversely affected by the foregoing order may at any time on or before August 23, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of this factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on July 24, 1973.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: July 17, 1973.

SHERWIN GARDNER,
Deputy Commissioner of Food and Drugs.

[FR Doc.73–15110 Filed 7–23–73;8:45 am]

SUBCHAPTER C—DRUGS

PART 151b—BACITRACIN

Zinc Bacitracin-Neomycin Sulfate-Polymyxin B Sulfate Ophthalmic Ointment

The Commissioner has evaluated data submitted in accordance with regulations promulgated under section 507 of the Federal Food, Drug, and Cosmetic Act, with respect to approval of the antibiotic drug zinc bacitracin-neomycin sulfate-polymyxin B sulfate ophthalmic ointment.

He concludes that data supplied by the manufacturer concerning the subject antibiotic drug is adequate to establish its safety and efficacy when used as directed in the labeling, and that the regulations should be amended to provide for the certification of this drug.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 507, 512(n), 59 Stat. 463, as amended, 82 Stat. 350–351; 21 U.S.C. 357, 360b(n)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 151b is amended by adding the following new section:

§ 151b.22 Zinc bacitracin-neomycin sulfate-polymyxin B sulfate ophthalmic ointment.

(a) *Requirements for certification—*(1) *Standards of identity, strength, quality, and purity.* Zinc bacitracin-neomycin sulfate-polymyxin B sulfate ophthalmic ointment is zinc bacitracin, neomycin sulfate, and polymyxin B sulfate in a suitable and harmless ointment base. Each gram contains 400 units of zinc bacitracin, 3.5 milligrams of neomycin, and 5,000 units of polymyxin B. Its zinc bacitracin content is satisfactory if it is not less than 90 percent and not more than 140 percent of the number of units of bacitracin that it is represented to contain. Its neomycin sulfate content is satisfactory if it is not less than 90 percent and not more than 140 percent of the number of milligrams of neomycin that it is represented to contain. Its polymyxin B sulfate content is satisfactory if it is not less than 90 percent and not more than 140 percent of the number of units of polymyxin B that it is represented to contain. It is sterile. Its moisture content is not more than 0.5 percent. The zinc bacitracin used conforms to the standards prescribed by § 146e.-418(a) of this chapter. The neomycin sulfate used conforms to the standards prescribed by § 148i.1(a)(1) of this chapter. The polymyxin B sulfate used conforms to the standards prescribed by § 148p.1(a)(1) of this chapter.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 148.3 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The zinc bacitracin used in making the batch for potency, safety, loss on drying, pH, and zinc content.

(*b*) The neomycin sulfate used in making the batch for potency, safety, loss on drying, pH, and identity.

(c) The polymyxin B sulfate used in making the batch for potency, safety, loss on drying, pH, residue on ignition, and identity.

(*d*) The batch for zinc bacitracin content, neomycin content, polymyxin B content, sterility, and moisture.

(ii) Samples required:

(*a*) The zinc bacitracin used in making the batch: 10 packages, each containing 300 milligrams.

(*b*) The neomycin sulfate used in making the batch: 10 packages, each containing 300 milligrams.

(*c*) The polymyxin B sulfate used in making the batch: 10 packages, each containing 300 milligrams.

(*d*) The batch:

(*1*) For all tests except sterility: A minimum of 17 immediate containers.

(*2*) For sterility testing: 20 immediate containers, collected at regular intervals throughout each filing operation.

(b) *Tests and methods of assay—*(1) *Potency—*(i) *Zinc bacitracin content.* Proceed as directed in § 141.110 of this chapter, except add to each standard response line concentration sufficient 0.01*N* hydrochloric acid to yield the same ratio of 0.01*N* hydrochloric acid to 1 percent potassium phosphate buffer, pH 6.0 (solution 1), as present in the sample solution diluted to the reference concentration. Prepare the sample for assay as follows: Place an accurately weighed representative portion of the sample into a separatory funnel containing approximately 50 milliliters of peroxide-free ether. Shake the sample and ether until homogeneous. Add 20 to 25 milliliters of 0.01*N* hydrochloric acid and shake well. Allow the layers to separate. Remove the acid layer and repeat the extraction procedure with each of three more 20-to-25-milliliter quantities of 0.01*N* hydrochloric acid. Combine the acid extractives in a suitable volumetric flask and bring to mark with 0.01*N* hydrochloric acid. Remove an aliquot and further dilute with 1 percent potassium phospate buffer, pH 6.0 (solution 1), to the reference concentration of 1 unit of bacitracin per milliliter (estimated).

(ii) *Neomycin content.* Proceed as directed in § 141.110 of this chapter, preparing the sample for assay as follows: Place an accurately weighed representative portion of the sample into a separatory funnel containing approximately 50 milliliters of peroxide-free ether. Shake the sample and ether until homogeneous. Add 20 to 25 milliliters of 0.1*M* potassium phosphate buffer, pH 8.0 (solution 3), and shake well. Allow the layers to separate. Remove the buffer layer and repeat the extraction procedure with each of three more 20-to-25- milliliter quantities of solution 3. Combine the buffer extractives in a suitable volumetric flask and bring to mark with solution 3. Remove an aliquot and further dilute with solution 3 to the reference concentration of 1.0 microgram of neomycin per milliliter (estimated).

(iii) *Polymyxin B content.* Proceed as directed in § 141.110 of this chapter, except add to each concentration of the polymyxin standard response line a quantity of neomycin to yield the same concentration of neomycin as that present when the sample is diluted to contain 10 units of polymyxin per milliliter. Prepare the sample for assay as follows: Place an accurately weighed representative portion of the sample into a separatory funnel containing approximately 50 milliliters of peroxide-free ether. Shake the sample and ether until homogeneous. Add 20 to 25 milliliters of 10 percent potassium phosphate buffer, pH 6.0 (so-

V 38-141
JUL 24 73
XUM

lution 6), and shake well. Allow the layers to separate. Remove the buffer layer and repeat the extraction procedure with each of three more 20-to-25-milliliter quantities of solution 6. Combine the buffer extractives in a suitable volumetric flask and bring to mark with solution 6. Remove an aliquot and further dilute with solution 6 to the reference concentration of 10 units of polymyxin B per milliliter (estimated).

(2) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in paragraph (e)(3) of that section.

(3) *Moisture.* Proceed as directed in § 141.502 of this chapter.

Since the conditions prerequisite to providing for certification of subject antibiotic have been complied with and since the matter is noncontroversial, notice and public procedure and delayed effective date are not prerequisites to this promulgation.

Effective date. This order shall be effective on July 24, 1973.

(Sec. 507, 512(n), 59 Stat. 463 as amended, 82 Stat. 350–351; 21 U.S.C. 357, 360b(n))

Dated: July 10, 1973.

MARY A. MCENIRY,
Assistant to the Director for Regulatory Affairs, Bureau of Drugs.

[FR Doc.73–15109 Filed 7–23–73;8:45 am]

Title 32A—National Defense, Appendix.

CHAPTER X—OFFICE OF OIL AND GAS, DEPARTMENT OF THE INTERIOR

[Oil Import Reg. 1 (Rev. 5), Amdt 59]

O.I. REG. 1—OIL IMPORT REGULATIONS

Miscellaneous Amendments

This Amendment 59 amends sections 9A, 10, 11, 11A, 17, 21, 22, 25, 30 and 32 and rescinds paragraph (k) of section 23 of Oil Import Regulation 1 (Revision 5).

Section 9A. Section 9A was amended in Amendment 58 to Oil Import Regulation 1 (Revision 5). The preamble to Amendment 58 stated that some items included in the Schedule B numbers 629.1060 to 629.1090 which had been included in the proposed rulemaking would be deleted. Among the items deleted were inner tubes for vehicles. Inadvertently, however, the word "tubes" was left in the description of the Schedule B numbers. To avoid confusion section 9A is amended to delete the references to tubes from the description.

Sections 10, 11, and 11A. Presidential Proclamation 4227 authorized the Secretary of the Interior to make such regulations as necessary to include in the mandatory oil import program on terms no less favorable than those accorded persons having refinery capacity in the Customs territory of the United States, persons having refinery cipacity in the territories of American Samoa, Guam, the Virgin Islands, and foreign trade zones. Accordingly, section 10 is amended to provide for allocations to persons having refinery capacity in the Virgin Islands and section 11 is amended to provide for allocations to persons having refinery capacity in American Samoa or Guam. Section 11A is amended to provide allocations for persons in American Samoa or Guam who manufacture low sulphur residual fuel oil for consumption in District V. Existing long term allocations for importation of crude into foreign trade zones will be modified to provide for imports into the U.S. Customs territory.

Section 17. On April 10 there appeared in the Federal Register (38 F.R. 7016) a proposal to amend section 17 to extend the time allowed for processing domestic crude received in exchange for foreign crude. It was also proposed that monetary or accounting adjustments be allowed in exchanges of foreign oil for domestic oil to reflect the relative values of the oil. After review of the comments received section 17 is amended essentially as proposed except that the domestic oil must be processed not later than 150 days (instead of 30 days) after the end of the allocation period during which the exchange was made. A provision is also made for the Director to extend the period in the event it is not possible to process the oil in the allotted time.

Section 21. Presidential Proclamation 4227 empowered the Oil Import Appeals Board (1) to grant refunds of license fees paid by a person for which an allocation was subsequently made by the Board and (2) to review the denial of refunds by the Secretary of license fees as provided for in the Proclamation. Section 21 is amended to conform to the Proclamation.

Section 22. On April 10, 1973, there appeared in the FEDERAL REGISTER (38 FR 7016) a proposal to amend the definition of imports as defined in section 22 to exclude domestic crude that is transported by pipeline through a foreign country back into the United States. After a careful review of the comments paragraph (j) of section 22 is amended essentially as proposed but reworded to also exclude as imports domestic oil which is commingled with foreign crude that is being transported in bond by pipeline within the United States.

Two amendments are made to the definitions in section 22 to conform to Presidential Proclamation 4227:

1. The definition of "gasoline" is amended to exclude ASTM nitration grade benzene and cumene, ethylbenzene, isoprene, meta-xylene, ortho-xylene, or para-xylene having a purity of 95 percent or more by weight.

2. The definition of "petrochemical plant inputs" is amended to exclude ASTM nitration grade benzene and cumene, ethylbenzene, isoprene, meta-xylene, ortho-xylene, or para-xylene having a purity of 95 percent or more by weight.

In addition, the following technical amendments are made to section 22:

1. The definition of "distillate fuel oil" is amended to exclude refined petroleum wax.

2. The definition of "motor gasoline" is amended to include material meeting aviation gasoline characteristics and fuel chiefly used as fuel in piston type internal combustion engines.

3. The definition of "unfinished oils" is amended by deleting the word "imported" from the description of distillation in paragraph (h)(1).

4. Definitions of "petrochemicals" and "petroleum oils" which were inadvertently omitted from section 22 by Amendment 56 are restored.

Section 25. On December 2, 1972, there appeared in the Federal Register a proposal to amend section 25 of Oil Import Regulation 1 (Revision 5) to provide increased starter allocations for new refinery capacity. Specifically, it was proposed that new refining capacity earn allocation at the front end of the sliding scale for a period of two years. Comments on the proposal were generally favorable but most people commenting felt that the allocations should be larger and that the period for the starter allocations should be longer than two years.

Presidential Proclamations 4210 and 4227 granted the Secretary the authority to grant startup allocations to new, expanded, or reactivated refinery or petrochemical capacity of up to seventy-five percent of inputs for a period of five years. This is compatible with the thrust of the comments that were made on the proposed rulemaking. Accordingly, section 25 is amended in its entirety to provide startup allocations for new, expanded, or reactivated refinery capacity at seventy-five percent of qualified inputs for a period of five years from startup. The startup allocations are outside the established levels and will not phase out. The startup provisions apply to persons having new, expanded, reactivated refinery capacity in Puerto Rico, American Samoa, Guam, the Virgin Islands, and foreign trade zones as well as to facilities in Districts I–V.

No provision is made in the amended section 25 for startup allocations to new, expanded and reactivated petrochemical plants. It is anticipated that a separate amendment will be made in the near future covering petrochemical plants.

Section 30. Presidential Proclamation 4227 added to the class of persons ineligible to qualify for an allocation of No. 2 fuel oil into district I those persons holding allocations under either section 11 to import into district V or section 15 to import into Puerto Rico. Section 30 is amended to conform to Proclamation 4227.

Section 32. Presidential Proclamation 4227 made several adjustments in the oil import program with regard to the license fee system. Among these were:

1. Provision for the posting of a bond in lieu of full payment of the license fee when the application is filed. Payment of the license fees when the proper bond is posted will be made after importation of the oil.

2. Provision for refund of license fees for unused portions of licenses in whole or in part.

3. Provision for refund of license fees if so directed by the Oil Import Appeals Board.

4. Provision for refund of any overcharge for a license.

5. Provisions for the importation of unfinished oils and finished products from American Samoa, Guam, the Virgin Islands, and foreign trade zones at the license fee applicable to the feedstocks from which these unfinished oils or finished products were derived.

6. Establishment of a separate fee schedule for motor gasoline and finished products from Canada. This fee schedule will phase in at a slower rate than the fee schedule for imports from other sources so as to lessen the shock of imposing license fees on materials which have moved into the U.S. freely in the past.

Section 32 is amended to conform to the Proclamation.

Section 23. Paragraph (k) of section 23 of Oil Import Regulation 1 (Revision 5) permits a person holding an import license under an allocation made pursuant to sections 9, 10, or 25 to exchange such license for a license to import Canadian imports. This provision provided added flexibility that was desirable when excess Canadian imports were available. However, the extremely tight supply situation of Canadian imports has led to export controls by the Canadian Government. The granting of additional licenses for Canadian imports is not compatible with the action taken by the Canadian Government. Therefore, paragraph (k) of section 23 of Oil Import Regulation 1 (Revision 5) is hereby rescinded.

STEPHEN A. WAKEFIELD,
Assistant Secretary of the Interior.

Approved: July 19, 1973.

WILLIAM E. SIMON,
Deputy Secretary of Treasury.

Sec. 9A [Amended]

Subparagraph (1) of paragraph (a) of section 9A of Oil Import Regulation 1 (Revision 5), as amended, is amended by deleting the expression "and tubes" in the Description following the Trade Classification Schedule B numbers 629.1010–629.1050. Paragraphs (a) and (c) of section 10 of Oil Import Regulation 1 (Revision 5), as amended, are amended, and new paragraphs (f) and (g) are added to read as set forth below.

Sec. 10 Allocations; Refiners; Districts I–IV.

(a) For the allocation period January 1, 1973, through December 31, 1973, the Director shall allocate, as provided in paragraph (b) of this section and within the quantities available under applicable levels established in Proclamation 3279, as amended imports into Districts I–IV among eligible persons having refinery capacity in these districts or the Virgin Islands. With respect to the Virgin Islands qualified refinery inputs shall be limited to crude oil charged to the refinery.

• • • • • •

(c) Except as provided for allocations based on inputs to refineries located in the Virgin Islands, under an allocation made pursuant to paragraph (b) of this section, unfinished oil may be imported, but imports of such oils shall not exceed 15 percent of the allocation. Within such 15 percent, a maximum quantity of imports not exceeding one percent of the total allocation may be imported in the form of finished products, provided that prior written notification is given to the Director of each entry proposed to be made. Finished products imported pursuant to this paragraph may not be exchanged.

• • • • • •

(f)(1) For the purpose of allocating imports of unfinished oils and finished products produced by refineries in the Virgin Islands, allocations claimed on account of such refineries shall be computed in accordance with the sliding scale set out in paragraph (b) of this section but inputs to such refineries shall be treated as the last increment of the aggregate of inputs at the highest applicable level in the sliding scale.

(2) Allocations made pursuant to this section 10 to persons for refinery capacity located in the Virgin Islands shall be for import into Districts I–IV or Puerto Rico of unfinished oils or finished products manufactured in the facility earning the allocation. Unfinished oils imported from the Virgin Islands pursuant to an allocation granted under this section 10 cannot be counted as qualified refinery inputs in Districts I–IV or District V.

(g) Applications must be filed with the Director, Office of Oil and Gas, Department of the Interior, Washington, D.C. 20240 within seven (7) days after publication of this amendment in the FEDERAL REGISTER unless an application for a 1973 allocation has been filed with the Director, Office of Oil and Gas, previously.

Paragraphs (a) and (c) of section 11 of Oil Import Regulation 1 (Revision 5), as amended are amended, and new paragraphs (f) and (g) are added to read as follows.

Sec. 11 Allocations; Refiners; District V.

(a) For the allocation period January 1, 1973, through December 31, 1973, the Director shall allocate, as provided in paragraph (b) of this section and within the quantities available under applicable levels established in Proclamation 3279, as amended, imports into District V among eligible persons having refinery capacity in that district, Guam or American Samoa. With respect to Guam or American Samoa qualified refinery inputs shall be limited to crude oil charged to the refinery.

• • • • • •

(c) Except as provided for allocations based on inputs to refineries located in Guam or American Samoa, under an allocation made pursuant to paragraph (b) of this section, unfinished oil may be imported, but imports of such oils shall not exceed 15 percent of the allocation. Within such 15 percent, a maximum quantity of imports not exceeding one percent of the total allocation may be imported in the form of finished products, provided that prior written notification is given to the Director of each entry proposed to be made. Finished products imported pursuant to this paragraph may not be exchanged.

• • • • • •

(f)(1) For the purpose of allocating imports of unfinished oils and finished products produced by refineries in Guam or American Samoa, allocations claimed on account of such refineries shall be computed in accordance with the sliding scale set out in paragraph (b) of this section, but inputs to such refineries shall be treated as the last increment of the aggregate of inputs at the highest applicable level in the sliding scale.

(2) Allocations made pursuant to this section 11 to persons for refinery capacity located in Guam or American Samoa shall be for import into District V of unfinished oils or finished products manufactured in the facility earning the allocation. Unfinished oils imported from Guam or American Samoa pursuant to an allocation granted under section 11 cannot be counted as qualified inputs in Districts I–IV or District V.

(g) Applications must be filed with the Director, Office of Oil and Gas, Department of the Interior, Washington, D.C. 20240 within seven (7) days after publication of this amendment in the Federal Register unless an application for a 1973 allocation has been filed with the Director, Office of Oil and Gas, previously.

Paragraphs (a) and (b) of section 11A of Oil Import Regulation 1 (Revision 5), as amended, are amended to read as follows:

Sec. 11A Allocations of crude oil—District V—based upon production of low sulphur residual fuel oil to be used as fuel in District V.

(a) This section provides for the making of allocations of imports into District V of crude oil or finished products based upon the production of low sulphur residual fuel oil. To the extent that the provisions of this section are inconsistent with the provisions of other sections of this regulation, the provisions of this section shall be controlling.

(b) In addition to the allocations of imports of crude oil made under section 11 of this Regulation, each eligible applicant with refinery capacity in District V, American Samoa or Guam who produces low sulphur residual fuel oil, containing not more than five-tenths of one per cent (0.5%) sulphur by weight, and which is delivered to consumers in District V for use as fuel in order to comply with governmental requirements respecting air pollution shall receive an allocation of imports equal to the amount in barrels of such low sulphur residual fuel oil to

V 38 1141 JUL 24 73 XUM

which the applicant certifies both as to production and delivery. In the case of refinery capacity located within the Customs territory of the United States the allocation will be for the importation of crude oil. In the case of refinery capacity located in American Samoa or Guam the allocation will be for the importation of finished product into District V.

Paragraph (b) of section 17 of Oil Import Regulation 1 (Revision 5), as amended, is amended to read as follows:

Sec. 17 Use of imported crude oil and unfinished oils.

• • • • • •

(b) (1) Subject to the provisions of this paragraph (b), a person who imports crude oil or unfinished oils under an allocation made under sections 9, 10, 11, 11A, paragraph (a) of section 15, or section 25 of this regulation, may exchange his imported crude oil either for domestic crude oil or for domestic unfinished oils or exchange his imported unfinished oils either for domestic unfinished oils or for domestic crude oil. However, a person receiving an allocation under section 9 may be restricted in the exchange of imported unfinished oils, as provided in paragraph (c) of that section.

(2) A proposed agreement for each such exchange must be reported to the Director before any action involved in the exchange is taken.

(3) Each such exchange must be effected on a ratio of not less than 1 barrel of domestic oil for each barrel of imported oil unless a different exchange rate is approved by the Director.

(4) In any such exchange, the person who is exchanging oil imported pursuant to an allocation under section 9, 10, 11, 11A, 15 or 25 for domestic oil must take delivery of the domestic oil and process it in his own refinery or petrochemical plant, located in the same district for which the allocation is granted, not later than 150 days after the end of the allocation period in which the exchange is made. If requested the Director may extend this period if it is shown that the person receiving the domestic oil cannot process the oil in the allotted time.

(5) Each such exchange must be on an oil-for-oil basis; however, settlements, credits, monetary, or accounting adjustments reflecting the relative values of the oils involved in the exchange are permissible.

(6) Any such exchange must not be otherwise unlawful.

Section 21 of Oil Import Regulation 1 (Revision 5), as amended, is amended to read as follows:

Sec. 21 Oil Import Appeals Board.

(a) There is in the Department of the Interior, an Oil Import Appeals Board comprised of a representative each from the Department of the Interior, Justice and Commerce to be designated by the heads of such departments. The representative of the Department of the Interior shall be the Board's Chairman.

(b) The Board, subject to the general direction of the Chairman of the Oil Policy Committee, shall consider petitions by persons affected by this Regulation that fall within the limits of the jurisdiction specified in this paragraph and without regard to the limits of the maximum levels of imports established in section 2 of Proclamation 3279, as amended, may:

(1) Reverse or modify on grounds of error actions taken by the Director (Office of Oil and Gas) on applications for allocations of imports under this Regulation;

(2) Modify, on the grounds of exceptional hardship, any allocation made to any person under this Regulation;

(3) Grant allocations of imports of crude oil and unfinished oils in special circumstances to persons with importing histories who do not qualify for allocations under this regulation;

(4) Grant allocations of imports of finished products on grounds of exceptional hardship;

(5) Grant allocations of imports of crude oil, unfinished oils, and finished products to independent refiners or established independent marketers who are experiencing exceptional hardship, or in emergencies in order to assure, insofar as practicable, that adequate supplies are available;

(6) Review the revocation or suspension of any allocation or license;

(7) Review the denial by the Director, Office of Oil and Gas, Department of the Interior, of refunds of license fees, whether in whole or in part, theretofore paid by a person; and

(8) Grant refunds, in whole or in part, of license fees paid by persons to whom licenses were issued for imports which they subsequently became entitled to make under allocations made by the Board.

(c) Except with respect to its function to review applications for allocations of imports to which license fees are applicable, licenses issued pursuant to the Board allocations shall be fee exempt.

(d) The Board may take such actions on petitions as it deems appropriate and its decisions shall constitute final action.

(e) The Board may adopt, promulgate, and publish such rules and procedures as it deems appropriate for the conduct of its business.

Subparagraphs (g)(2), (g)(4), (g)(9), (h)(1), (p)(2)(iii) and paragraph (j) of section 22 of Oil Import Regulation 1 (Revision 5), as amended, are amended and two new paragraphs (q) and (r) are added to read as follows.

Sec. 22 Definitions.

• • • • • •

(g) • • •

(2) 'Gasoline' means a refined petroleum distillate, including naphtha, jet fuel or other petroleum oils (but not benzene which meets the ASTM distillation standards for nitration grade or cumene, ethylbenzene, isoprene, metaxylene, ortho-xylene, or para-xylene having a purity of 95 percent or more by weight) derived by refining or processing crude oil or unfinished oils, in whatever type of plant such refining or processing may occur, and having a boiling range at atmospheric pressure from 80° to 400° F.

• • • • • •

(4) 'Distillate fuel oil' means any fuel oil, gas oil, topped crude oil, or other petroleum oils (except refined petroleum wax) derived by refining or processing crude oil or unfinished oils, in whatever type of plant such refining or processing may occur, which has a boiling range at atmospheric pressure from 550° to 1200° F.

• • • • • •

(9) 'Motor gasoline' means:

(i) Automotive gasoline with the following characteristics:

	Gasoline All Grades
Gravity, °API, ASTM D287	56.3–67.7
Distillation, ASTM D–86	
°F at 10% D+L	103–135
°F at 50%	185–233
°F at 90%	301–358
Reid Vapor Pressure, psi ASTM D–23.	7.5–13.2
Octane (Research) ASTM D–908.	83.1–103.3
Octane (Motor) ASTM D–357.	79.5–99.6
Appearance	Clear and Bright

(ii) Aviation gasoline with the following characteristics:

	Gasoline All Grades
Gravity, °API, ASTM D–287	64.0–76.2
Distillation, ASTM D–86	
°F at 10% D+L	138–165
°F at 50%	174–220
°F at 90%	213–260
Reid Vapor Pressure, psi ASTM D–323.	5.8–7.0
Octane (Research) ASTM D–908.	81–105
Octane (Motor) ASTM D–357.	81–105
Appearance	Clear and Bright; or:

(iii) Fuel (but not diesel fuel) shown to be derived primarily from petroleum, shale or gilsonite and chiefly used as fuel in piston type internal combustion engines.

(h)(1) By distillation with a resulting yield of at unfinished oils, two of which products or unfinished oils, two of which must be equal to not less than 10 percent of the total charge of such unfinished oils to the distillation unit. Different grades or specifications of finished products or unfinished oils will not constitute district finished products or unfinished oils for purposes of this subparagraph. Distillation of petroleum oils which have been reconstituted by blending of two or more finished products or unfinished oils does not constitute processing for the purposes of this subparagraph.

• • • • • •

(j) The words "importation", "importing", "import", "imports", and "imported" include both entry for consumption and withdrawal from warehouse for consumption; but do not include crude oil, unfinished oils, or finished products which were produced in the United States and are tranported by a pipeline carrying foreign oil in bond within the United States or which are transported by pipeline through a foreign country into the Customs territory of the United States or in the event of commingling with foreign oils of like kind and qualities incidental to such transportation of quantities equivalent to the quantities produced in and withdrawn from foreign oil moving in bond within the United States and shipped from such customs territory.

• • • • • •

(p) • • •

(2) • • •

(iii) Benzene which met the ASTM distillation standards for nitration grade or cumene, ethylbenzene, isoprene, metaxylene, ortho-xylene or para-xylene which had a purity of 95 percent or more by weight but which subsequently has been recycled and mixed with other hydrocarbons, commingled, or purposely debased.

(q) "Petrochemicals" means carbon or organic compounds (other than finished products or unfinished oils) which are produced from petrochemical plant inputs by chemical reaction in a petrochemical plant.

(r) As used in paragraph (g) and paragraph (h) of this section, the term "petroleum oils" includes liquid hydrocarbons derived from crude oil.

Section 25 of Oil Import Regulation 1 (Revision 5), as amended, is amended in its entirety to read as follows:

Sec. 25 Allocations of crude, unfinished oils and finished products—Districts I–IV, District V, Puerto Rico, the Virgin Islands, Guam, American Samoa, and Foreign Trade Zones—new, expanded or reactivated refinery capacity based upon estimated and actual inputs.

(a) (1) The Director may make allocations of imports of crude oil, unfinished oils, and finished products with respect to new, expanded or reactivated refinery capacity as provided in this section.

(2) A person seeking such an allocation must file an application in the form prescribed by the Director. The application shall disclose in detail such information as the Director may require, including—

(i) The nature of the facility,

(ii) The location of the facility,

(iii) The products and the quantity of each product to be produced,

(iv) The capital outlay involved,

(v) The expected average barrels per day of qualified feedstocks inputs of such facility,

(vi) The identification of the feedstocks, and the source thereof,

(vii) The date that the facility went on-stream or is scheduled to go on-stream,

(viii) Whether the application is for a new facility, an expansion, or a reactivation, and

(ix) Whether this facility will replace an existing facility which is to be or has been shut down.

(b) (1) Each increment of new, expanded or reactivated refinery capacity will be treated as a separate entity under this paragraph (b) for a total of sixty months.

(2) If the new, expanded or reactivated refinery capacity is scheduled to come on-stream during the allocation period for which the allocation is requested, the allocation shall be computed on the basis of inputs (divided by 365), which it is estimated will be made to such capacity during that allocation period. In the event the new, expanded or reactivated refinery capacity comes on-stream after September 30 of the allocation period for which the allocation is requested, the Director may, if requested by the applicant, extend the expiration date of the license or licenses to 120 days after the start-up date. An applicant who receives an allocation for a particular allocation period pursuant to this subparagraph (2) may be eligible for an allocation pursuant to paragraph (b)(3), (4), or (5) of this section for the succeeding allocation periods.

(3) If the new, expanded or reactivated refinery capacity has come on-stream during the allocation period immediately preceding the allocation period for which the allocation is requested, the allocation shall be computed on the basis of the sum (divided by 365) of (i) the refinery inputs actually made to the new, expanded or reactivated refinery capacity during the first nine months of the allocation period immediately preceding the allocation period for which the allocation is requested and (ii) the inputs which it is estimated will be made to such capacity during the next number of months which, when combined with the months in clause (i), will constitute a period of twelve months.

(4) If the new, expanded or reactivated refinery capacity has been on-stream for at least one year as of September 30, of the allocation period immediately preceding the allocation period for which the allocation is requested, the allocation shall be based on actual inputs (divided by 365) to the facility during the preceding twelve months ending September 30; *Provided*, That, the facility will not have been on-stream in excess of sixty months during the allocation period for which the allocation is requested.

(5) If the new, expanded or reactivated refinery capacity has not been on-stream for a period of sixty months after earning an allocation under paragraph (b)(4) of this section, an allocation will be made for the next allocation year based on actual inputs (divided by 365) for the year ending September 30 of the previous allocation year. In computing the allocation, the Director will determine the number of days which, when added to the actual operating period in the two previous allocation years, will constitute a period of sixty months. The facility will, for this number of days, earn an allocation under this section 25.

(c) Allocations with respect to new, expanded or reactivated refinery capacity shall be computed at seventy-five percent of estimated or actual qualified inputs to such facility as determined in paragraph (b)(2), (b)(3), (b)(4), or (b)(5) of this section.

(d) With regard to the Virgin Islands, Guam, American Samoa, and foreign trade zones "qualified inputs" shall be limited to crude oil charged to the refinery.

(e)(1) If an allocation based in whole or in part on estimated inputs is made to an applicant pursuant to this section, the actual inputs submitted by the applicant as a basis for allocations in the next succeeding allocation period or periods for which the applicant applies for an allocation or allocations under this regulation shall be adjusted upward or downward to compensate for the difference between the estimated inputs and the actual inputs made during the period for which inputs were estimated.

(2) If the estimated inputs upon which an allocation is based exceed the actual inputs made by more than five percent of the estimated inputs, then, in addition to the adjustment downward provided by paragraph (e)(1) of this section, the applicant shall be penalized for the overestimate as provided in this subparagraph (2). As a penalty, the actual inputs submitted by the applicant as a basis for allocation for the next succeeding period or periods for which the applicant applies for an allocation or allocations under this regulation shall be further reduced by the number of barrels by which the estimated inputs exceeded the actual inputs by more than five percent. However, to the extent that an applicant demonstrates to the satisfaction of the Director that the excess of estimated inputs over actual inputs was attributable to acts of God, fire, government action, explosion, labor disputes, or other similar circumstances beyond the applicant's control, the Director may waive the penalty or reduce the number of barrels of excess for which the penalty will be imposed. Persons applying for and receiving allocations under this section whose new, expanded or reactivated refinery fails to come on-stream within the allocation period may be denied any allocation for the next succeeding period. The Director may elect not to apply this penalty in those cases where the applicant demonstrates to the satisfaction of the Director that a substantial effort was made to complete and to start-up such a facility and that the person's failure was attributable to acts of God, fire, government action, explosion, labor disputes, or other similar circumstances beyond the applicant's control.

(3)(i) Any person who has been granted an allocation for a new, expanded or reactivated refinery in Districts I–IV may avoid the penalty prescribed in paragraph (e)(2) of this section by returning on or before September 30 of the period for which the alloca-

V 38 141 JUL 24 73 XUM

tion was granted such a license or licenses for a downward adjustment, or, in lieu of returning such license or licenses, returning for downward adjustment a license issued to the person under section 10.

(ii) Any person who has been granted an allocation for a new, expanded or reactivated refinery in District V may avoid the penalty prescribed in paragraph (e) (2) of this section by returning on or before September 30 of the allocation period for which the allocation and license were granted such a license for a downward adjustment, or in lieu of returning such license, returning for downward adjustment a license issued in District V to the person under section 11.

(iii) Any person who has been granted an allocation for a new, expanded or reactivated refinery, in Puerto Rico, the Virgin Islands, Guam, American Samoa or a foreign trade zone may avoid the penalty prescribed in subparagraph (2) by returning on or before September 30 of the allocation period for which the allocation and license were granted such a license for a downward adjustment.

(iv) A request by an applicant who has received an allocation and license under this section for a downward adjustment shall be made in writing to the Director on or before September 30 of the allocation period for which the allocation and license were granted.

(4) Further adjustments will be made in addition to those described in paragraph (e) (3) (i) and (ii) of this section. If the person has any other like refinery capacity, and reductions are made in the inputs for this other capacity during the allocation periods as a result of the new, expanded or reactivated facility; in such a case, in determining inputs for the next allocation period, the input credit for the new facility application will be lowered by the amount that inputs were reduced in the applicant's other existing facilities in the year ending September 30 of the prior allocation period.

(5) The Director shall not issue a license under an allocation made pursuant to this section until (i) an on-the-spot evaluation of the new, expanded or reactivated refinery capacity has been conducted by compliance representatives of the Office of Oil and Gas and (ii) a written determination has been made by the Director that the facility is a bona fide refinery capacity as certified in the application, and that construction or reactivation has so far progressed that, in the Director's judgment, the plant will within sixty days from the date of such determination be ready for start-up and trials.

(f) No license issued for allocations made under this section may be sold, assigned, or otherwise transferred.

(g) (1) As used in this section 25, "expanded refinery capacity" includes expansion of existing facilities by the addition of equipment, such as, but not limited to, stills, towers, pumps, and conversion units, or such additions to or modification of existing refinery capacity as have resulted in an increased processing capability of not less than fifteen percent in the particular refinery capacity under consideration over the refinery capacity existing in that particular facility during the preceding twelve months.

(2) As used in this section 25, "reactivated refinery capacity" means restoration to operation of refinery capacity which had been shut down for not less than twelve months immediately preceding its reactivation.

(h) An applicant to whom an allocation is made under this section shall not receive an allocation for the same refinery capacity under section 10 or 11.

(i) (1) Except as provided in paragraph (i) (2) of this section, under an allocation made pursuant to this section 25, unfinished oil may be imported, but imports of such oils shall not exceed 15 percent of the allocation. Within such 15 percent, a maximum quantity of imports not exceeding one percent of the total allocation may be imported in the form of finished products, provided that prior written notification is given to the Director of each entry proposed to be made. Finished products imported pursuant to this paragraph may not be exchanged.

(2) Allocations made pursuant to this section 25 to persons for new, expanded or reactivated refinery capacity located in American Samoa, Guam, the Virgin Islands or foreign trade zones shall be for import into Districts I–V or Puerto Rico of unfinished oils or finished products manufactured in the facility earning the allocation. Unfinished oils imported pursuant to an allocation granted under this section 25 cannot be counted as qualified refinery inputs in Districts I–IV or District V, or Puerto Rico.

(j) An applicant may not receive an allocation under this section 25 for new, expanded or reactivated refinery capacity for which inputs were included in applications filed pursuant to section 10 or 11 for allocation periods beginning on or before January 1, 1973.

(k) An applicant may not receive an allocation under this section 25 for new, expanded or reactivated refinery capacity if the same refinery capacity is subject to a long term allocation as defined in Presidential Proclamation 3279, as amended.

(l) Persons wishing to qualify for an allocation under this section 25 for the 1973 allocation period must file an application on or before July 31, 1973, unless an application has been filed previously.

Paragraph (c) of section 30 of Oil Import Regulation 1 (Revision 5), as amended, is amended to read as follows:

Sec. 30 Allocations of No. 2 fuel oil—District I.

* * * * *

(c) (1) Except as provided in paragraph (c) (2) of this section, a person shall be eligible for an allocation of imports into District I of No. 2 fuel oil under paragraph (e) of this section:

(i) If he is in the business in District I of selling No. 2 fuel oil, has under his management and operational control a deepwater terminal which is located in District I and in which No. 2 fuel oil is handled, does not have a crude oil import allocation into Districts I–V or Puerto Rico under section 9, 10, 11, 15 or 25 of this Regulation and who, in the allocation period beginning prior to January 1, 1973, had received from the Secretary an allocation of imports into District I of No. 2 fuel oil.

(ii) If he is in the business in District I of selling No. 2 fuel oil and has a throughput agreement with a deepwater terminal operator in District I who does not have a crude oil import allocation into Districts I–V or Puerto Rico under section 9, 10, 11, 15 or 25 of this Regulation and who in the allocation period beginning prior to January 1, 1973, had received from the Director, Office of Oil and Gas, an allocation of imports into District I of No. 2 fuel oil.

(2) No person who has an allocation of imports into Districts I–V or Puerto Rico of crude oil under section 9, 10, 11, 15 or 25 of this Regulation shall be eligible for an allocation under paragraph (c) of this section.

* * * * *

Section 32 of Oil Import Regulation 1 (Revision 5), as amended, is amended in its entirety to read as follows:

Sec. 32 Allocations and fee-paid licenses for imports of crude oil, unfinished oils and finished products—Districts I-IV, District V, and Puerto Rico.

(a) Effective May 1, 1973, any person wishing to import crude oil, unfinished oils, or finished products into Districts I–IV, District V, or Puerto Rico may do so by filing an application with the Director of the Office of Oil and Gas, in such form as the Director may prescribe.

(b) Allocations and licenses under this section will, to the fullest practicable extent, be made and issued by the Director within (10) days after his receipt of applications therefor. In no event will allocations be made and licenses issued by the Director within less than five (5) days after his receipt of applications therefor.

(c) Applications for allocations and licenses under this section, to be issued at the rates prescribed in this section for a particular period and postmarked not later than midnight of the date upon which such period expires, will qualify for issuance at the rate for the period in effect at the time the application was mailed. Any application for an allocation under this section postmarked later than midnight of the date upon which such period expires may at the option of the applicant, be subject to the license fee applicable during the following license fee period or withdrawn. If the date upon which the period expires is a Saturday, Sunday or holiday, the application will nevertheless qualify if it is postmarked not later than midnight of the next succeeding business day.

(d) Applications for allocations under this section shall be accompanied by the applicant's certified check, or a cashier's check, payable to the order of the Treasurer of the United States in the amount chargeable pursuant to paragraph (1) of this section or by a bond with a surety on the list of acceptable sureties on Federal bonds maintained by the Bureau of Accounts, Department of the Treasury, in the sum not less than the amount chargeable pursuant to paragraph (1) of this section, conditioned upon payment to the order of the Treasurer of the United States, within thirty (30) calendar days from the date of entry or withdrawal from warehouse for consumption of the commodities for the importation of which a license or licenses have issued, in the amount chargeable pursuant to paragraph (1) of this section. Applications not accompanied by a certified check, cashier's check, or bond in the amount required shall not be considered. Applications by or for the account of a department, establishment, or agency of the United States need not be accompanied by a certified check or cashier's check or a bond as required by this paragraph.

(e) Separate licenses will be issued for crude oil, motor gasoline, and for all other finished products and unfinished oils.

(f) Allocations and licenses for imports of crude oil, unfinished oils and finished products made under this section shall be valid for six (6) months following the date of their issuance.

(g) Refund of license fees paid for the importation of crude or unfinished oils shall be made by the Director, wholly or in part:

(1) where the licensee has failed to use, wholly or in part, the license issued to him. Applications for such refunds must be filed in such form as the Director may prescribe not later than ninety (90) days after expiration of said license for which the refund is requested.

(2) where refund of license fees, in whole or in part, is ordered by the Oil Import Appeals Board.

(3) to the extent that such crude oils or unfinished oils have been incorporated into petrochemicals as defined in section 9A of this Regulation which are subsequently exported, or finished products subsequently exported or that asphalt as defined in this Regulation was produced from the imported feedstocks. Applications for refunds must be filed in such form as the Director may prescribe not later than ninety (90) days after exportation of the petrochemical or finished product or manufacture of the asphalt to which such application pertains; and shall be accompanied by all information necessary in the judgment of the Director to enable him to determine the sum, if any, which should be refunded.

(4) to the extent that they reflect volume adjustments made subsequent to entries made against the license at the time of importation, such as corrections made by Customs of contained basic sediment and water, corrections of mistakes made in calculating tank volumes, or corrections of mistakes made in calculating volumes to standard temperature. Applications for such refunds must be filed in such form as the Director may prescribe, not later than ninety (90) days after the date of the last entry of imports made against the license.

(5) in the event it is determined after entry that a particular shipment of crude oil, unfinished oils, or finished products imported pursuant to a license for which a license fee has been paid should in fact have been assessed a license fee at a lower rate. In such cases the Director will make refunds for the overpayment of license fees as soon as practicable after notification by the District Director of Customs that a lower license fee is applicable.

(h) (1) In the event the volume of a particular shipment of crude oil, unfinished oils, or finished products being imported pursuant to a license to which a license fee is applicable exceeds the volume stated on the license against which the material is being imported by five (5) percent or less the District Director of Customs may permit the entry of the excess without license. The importer, however, must within ten (10) days of such entry remit payment to the Director of the Office of Oil and Gas by certified check or a cashier's check payable to the order of the Treasurer of the United States for the fee on the excess entered without license at the same rate such fee was paid for the license.

(2) In the event it is determined after entry that a particular shipment of crude oil, unfinished oils, or finished products imported pursuant to a license for which a license fee has been paid should in fact have been assessed a higher license fee the importer must within thirty (30) days after notification by the District Director of Customs that a higher license fee is applicable remit payment to the Director, Office of Oil and Gas by certified check or a cashier's check payable to the Treasurer of the United States for the sum of the additional license fee due.

(3) In the event an importer fails to comply with the terms set forth in paragraph (h) (1) and (2) of this section, a penalty shall be assessed equal to the additional license fees due. The Director shall collect both the additional license fee due and the penalty due before entertaining any further applications from said importer for additional fee paid licenses.

(i) (1) Fees payable for licenses issued under allocations of imports of unfinished oils and finished products shall be in accordance with the following schedule:

(i) with respect to imports, other than imports from Canada of motor gasoline and finished products, such fees shall be:

FEE SCHEDULE

[Cents Per Barrel]

	May 1, 1973	Nov. 1, 1973	May 1, 1974	Nov. 1, 1974	May 1, 1975	Nov. 1, 1975
Crude	10.5	13.0	15.5	18.0	21.0	21.0
Motor Gasoline	52.0	54.5	57.0	59.5	63.0	63.0
All other finished products and unfinished oils (except ethane, propane, butanes, and asphalt)	15.0	20.0	30.0	42.0	52.0	63.0

(ii) With respect to imports from Canada of motor gasoline and finished products, such fees shall be:

FEE SCHEDULE

[Cents Per Barrel]

	May 1, 1973	Nov. 1, 1973	May 1, 1974	Nov. 1, 1974	May 1, 1975	Nov. 1, 1975	May 1, 1976	Nov. 1, 1976
Motor Gasoline	0	0	5.7	6.0	12.6	12.6	22.1	22.1
Other finished products (but not including ethane, propane, butanes or asphalt)	0	0	3.0	4.2	10.4	12.6	22.1	22.1
	May 1, 1977	Nov. 1, 1977	May 1, 1978	Nov. 1, 1978	May 1, 1979	Nov. 1, 1979	May 1, 1980	Nov. 1, 1980
Motor Gasoline	31.5	31.5	41.0	41.0	50.4	50.4	63.0	63.0
Other finished products (but not including ethane, propane, butanes, or asphalt)	31.5	31.5	41.0	41.0	50.4	50.4	63.0	63.0

(2) License fees payable for imports of motor gasoline or other finished products or unfinished oils, manufactured in American Samoa, Guam, or the Virgin Islands or in a foreign trade zone and transported to the Customs territory of the United States by overland means or by vessel or vessels under United States registry, shall be at the rate applicable to the feedstock from which such motor gasoline or other finished product or unfinished oil was manufactured: *Provided*, That, such rate shall apply also in cases where the holder of the license establishes to the satisfaction of the Director (Office of Oil and Gas) that he made a good faith attempt to arrange shipment by vessel under United States registry and that no such vessel was available for the purpose at the time this shipment was made."

Title 41—Public Contracts and Property Management

CHAPTER 14—DEPARTMENT OF THE INTERIOR

PART 14–1—GENERAL

PART 14–2—PROCUREMENT BY FORMAL ADVERTISING

Novation Agreements; Miscellaneous Amendments

Pursuant to the authority of the Secretary of the Interior, contained in 5 USC 301, Clause 18 of the Novation Agreement contained in § 14–1.5101(d) and § 14–2.407–1 of Chapter 14, Title 41 of the Code of Federal Regulations are hereby amended.

It is the general policy of the Department of the Interior to allow time for interested parties to participate in the rule making process. However, the amendments herein are minor and entirely administrative in nature. Therefore, the public rulemaking process is waived, and these changes will become effective on August 1, 1973.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

JULY 17, 1973.

1. The Interior Procurement Regulations are amended to correct minor typographical errors in Clause 18 of the Novation Agreement in § 14–1.5101(d). The clause is revised to read as follows:

Subpart 14–1.51—Novation Agreements and Change of Name Agreements

§ 14–1.5101 Agreement to recognize a successor in interest.

. . . . . .

(d) . . .

NOVATION AGREEMENT

. . . . . .

18. The Transferor agrees that any rights in inventions, patents, and data which accrue to the Government or to third party beneficiaries under the contracts between the Transferor and the Government shall not be diminished as a result of the transfer instruments or this Agreement.

2. Section 14–2.407–1 is amended to clarify the language and to change the title of an officer from the Director of Congressional Liaison to the Assistant Secretary—Congressional and Public Affairs. The section is amended to read as follows:

Subpart 14–2.4—Opening of Bids and Award of Contracts

§ 14–2.407 Award.

§ 14–2.407–1 General.

(a) At least 48 hours prior to award of a contract between $10,000 and $1,000,000, and at least 72 hours prior to award of a contract in excess of $1,000,000, and prior to any other announcement regarding the proposed date of contract award, the following information shall be furnished simultaneously to the Assistant Secretary having jurisdiction over the bureau or office making the award, and to the Assistant Secretary—Congressional and Public Affairs:

(1) Name and street address of contractor

(2) Complete description in layman terms of items or services involved, and exact location of contract performance

(3) Small business or distressed labor area preference given to the successful bidder, if applicable

(4) Proposed date of contract award

(5) Contract amount

(b) Contract modifications in excess of $10,000, which fundamentally alter the project involved, are also subject to the above requirements.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5349]

[Arizona 6701]

ARIZONA

Modification of Stock Driveway Withdrawal To Permit Grant of Right-of-Way

By virtue of the authority contained in section 10 of the Act of December 29, 1916, as amended, 43 U.S.C. 300 (1970), it is ordered as follows:

The departmental order of February 4, 1919, as modified by the departmental order of August 19, 1941, creating Stock Driveway No. 56, Arizona No. 2, is hereby modified to the extent necessary to permit the location of a right-of-way under Section 2477, U.S. Revised Statutes, 43 U.S.C. 932, by the Yavapai County Highway Department, on the following described lands, as delineated on a map entitled "Yavapai County Highway Department Right-of-Way Map Maggie Mine Road" on file with the Bureau of Land Management in Arizona 6701, for construction of a public road:

GILA AND SALT RIVER MERIDIAN

T. 9 N., R. 2 E.,
sec. 22, W½NW¼, NW¼SW¼, SE¼SW¼;
sec. 27, SW¼NW¼.

The area described in the right-of-way aggregates 8.124 acres in Yavapai County.

JACK O. HORTON,
Assistant Secretary of the Interior.

JULY 17, 1973.

Withdrawal for National Forest Research Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forests lands are hereby withdrawn from appropriation under the mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture:

COCONINO NATIONAL FOREST

GILA AND SALT RIVER MERIDIAN

San Francisco Peaks Research Natural Area

T. 23 N., R. 7 E.,
sec. 19, lots 2, 3, 4, SE¼NW¼, E½SW¼, SE¼;
sec. 30, lots 1 to 12, incl., E½W½.

The areas described aggregate 1,023.93 acres in Coconino County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

JACK O. HORTON,
Assistant Secretary of the Interior.

[Idaho 4471]

IDAHO

Partial Revocation of Reclamation Project Withdrawal

By virtue of the authority contained in section 3 of the Act of June 17, 1902, as amended and supplemented, 43 U.S.C. 416 (1970), it is ordered as follows:

1. Secretary's Orders dated March 5, 1903, April 15, 1919, and June 23, 1943, withdrawing lands for the Boise Project, are hereby revoked so far as they affect the following described lands:

BOISE MERIDIAN

T. 5 N., R. 2 W.,
Sec. 21, NE¼NW¼.
T. 5 N., R. 3 W.,
Sec. 2, E½NE¼SW¼;
Sec. 12, NE¼SE¼NW¼, S½SE¼NW¼, NE¼SW¼, SW¼SW¼, NW¼SE¼.
T. 6 N., R. 3 W.,
Sec. 5, lots 3, 4, S½SW¼NE¼, SE¼NW¼;
Sec. 6, lots 1, 2, 7, SW¼NE¼, E½E½SE¼NW¼, NE¼NE¼SW¼, S½NE¼SW¼;
Sec. 15, SE¼NW¼;
Sec. 22, NE¼SW¼, E½SE¼SW¼;
Sec. 27, N½NE¼NW¼, SE¼NE¼NW¼, SE¼NW¼, NW¼SE¼;
Sec. 28, NE¼NW¼;
Sec. 29, NE¼NE¼, NE¼NW¼;
Sec. 35, E½NE¼NW¼, SE¼NW¼, E½SW¼.
T. 6 N., R. 4 W.,
Sec. 1, lot 4.
T. 7 N., R. 4 W.,
Sec. 20, S½SE¼;
Sec. 28, N½SW¼.
T. 6 N., R. 5 W.,
Sec. 28, S½NE¼.

The areas described aggregate 1,316.51 acres in Canyon, Gem, and Payette Counties.

The lands are located northerly from Caldwell in the Black Canyon area. They are gently rolling grazing lands. Vegetative cover consists of sagebrush, native grasses and forbs.

2. At 10 a.m. on August 22, 1973, the lands shall be open to operation of the public land laws generally, including the United States mining laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received prior to 10 a.m. on August 22, 1973, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

The lands have been and will continue to be open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to Chief, Division of Technical Services, Bureau of Land Management, Boise, Idaho.

JACK O. HORTON,
Assistant Secretary of the Interior.

[Public Land Order 5353]

ALASKA

Withdrawal of Lands Pending Determination of Eligibility of Native Communities and for Classification of Lands in Withdrawals

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, and the provisions of prior withdrawals, the following described lands are hereby withdrawn from all forms of appropriation under the public land laws, including selections by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws, 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970), but not from selection under section 12 of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, 701, 43 U.S.C. sec. 1611 (hereinafter referred to as the "Act"), and are hereby reserved pending determination under section 11(b)(3) of the Act, of the eligibility of the following named communities for benefits as "Native villages" under the Act. Following the name of each community will appear the township or townships in which all or part of that community is located. This order withdraws and reserves all the public lands as defined in the Act, which are located in any of the named townships or which are located in a first ring of townships that are contiguous to or corner upon the named townships, or which are located in a second ring of townships that are contiguous to or corner upon the first ring of townships:

a. *Council:*

KATEEL RIVER MERIDIAN

Protracted Descriptions

T. 7 S., R. 25 W.

b. *Woody Island:*

SEWARD MERIDIAN

Protracted Descriptions

T. 27 S., R. 19 W.
T. 28 S., R. 19 W.

c. *Eyak:*

COPPER RIVER MERIDIAN

Protracted Descriptions

T. 15 S., R. 2 W.

d. *Chenega:*

SEWARD MERIDIAN

Protracted Descriptions

T. 2 N., R. 8 E.

The withdrawal made by this paragraph is not a determination of the eligibility of any of the aforenamed communities to receive benefits under the provisions of the Act.

2. Subject to the provisions of paragraph 4 of this order, any appropriation or disposal of these lands permitted by any prior withdrawal of these lands, but forbidden by the terms of this order, are hereby forbidden. Any appropriation or disposal of these lands permitted by the terms of this order but forbidden by the terms of any prior withdrawal, remain forbidden until this order is appropriately modified.

3. By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), and by virtue of the authority vested in the Secretary of the Interior in section 17(d)(1) of the Act, it is ordered as follows:

Subject to valid existing rights, the lands described in paragraph 1 of this order are hereby withdrawn from all forms of appropriation under the public land laws, including selections by the State of Alaska under the Alaska Statehood Act, supra, and from location and entry under the mining laws, 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act, supra, but not from selection pursuant to section 12 of the Alaska Native Claims Settlement Act, supra, by corporations formed pursuant to section 7 or 8 of said Act, and are hereby reserved for study and review by the Secretary of the Interior for the purpose of classification or reclassification of any of the lands not conveyed pursuant to section 14 of the Act, or conveyed to the State of Alaska pursuant to Alaska Statehood Act, supra.

4. Prior to the conveyance of any of the lands withdrawn by paragraph 1 of this order to any village corporation or regional corporation, the lands shall be subject to administration by the Secretary of the Interior, or the Secretary of Agriculture in case of national forest lands, under the applicable laws and regulations, and their authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by this withdrawal. Applications for leases under the Mineral Leasing Act, supra, will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

5. It is hereby determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. section 4332(2)(C), is required.

JACK O. HORTON,
Assistant Secretary of the Interior.

JULY 17, 1973.

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 187—FINANCIAL ASSISTANCE FOR THE IMPROVEMENT OF EDUCATIONAL OPPORTUNITIES FOR INDIAN CHILDREN

Notice of proposed rulemaking was published in the FEDERAL REGISTER on

V 38-141 JUL 24 73 XUM

May 9, 1973, at 38 FR 12130, setting forth requirements and criteria for the award of financial assistance under section 810 of the Elementary and Secondary Education Act of 1965, as added by part B of the Indian Education Act, Title IV of the Education Amendments of 1972, (Public Law 92–318, 86 Stat. 339, 20 U.S.C. 887c), to State and local educational agencies; Federally supported elementary and secondary schools for Indian children; Indian tribes, organizations, and institutions; institutions of higher education, and public agencies and institutions. Funds under the Act are to be used for the purpose of planning, developing, and carrying out programs and projects for the improvement of educational opportunities for Indian children.

Interested persons were given 20 days in which to submit written comments, suggestions, or objections regarding the proposed regulation. No comments of a substantive nature were received during this period, and no substantive changes have been made in the proposed regulation. A few minor changes have been made to correct clerical errors.

After consultation with the National Advisory Council on Indian Education as required by section 442(b) of the Indian Education Act, and with the approval of the National Advisory Council, Title 45 of the Code of Federal Regulations is amended by adding a new Part 187 as set forth below.

Federal financial assistance provided pursuant to section 810 of the Elementary and Secondary Education Act of 1965 is subject to the regulations in 45 CFR Part 80, issued by the Secretary of Health, Education, and Welfare, and approved by the President, to effectuate the provisions of section 601 of the Civil Rights Act of 1964 (42 U.S.C. 2000d). Such assistance is also subject to the provisions of title IX of Public Law 92–318 (20 U.S.C. 1681) (relating to discrimination on the basis of sex).

Effective date. As appears from the foregoing, the corrections in the text of the regulation do not involve any changes of a substantial nature in the provisions which were published in the FEDERAL REGISTER on May 9, 1973, as proposed rulemaking. Accordingly, this regulation shall be effective on July 24, 1973.

Dated: July 5, 1973.

JOHN OTTINA,
Acting U.S. Commissioner of Education.

Approved: July 18, 1973.

CASPAR W. WEINBERGER,
Secretary, Health, Education, and Welfare.

AUTHORITY.—Sec. 810, Public Law 89–10, as amended, 86 Stat. 339 (20 U.S.C. 887c), unless otherwise noted.

Subpart A—Scope; Definitions

§ 187.1 Scope.

This part governs the provision of assistance to State and local educational agencies; Indian tribes, organizations, and institutions; federally supported elementary and secondary schools for Indian children; and institutions of higher education for carrying out special programs and projects to improve educational opportunities for Indian children under section 810 of the Elementary and Secondary Education Act of 1965 (as added by § 421 of the Indian Education Act, title IV of Public Law 92–318).

(20 U.S.C. 887c.)

§ 187.2 Definitions.

As used in this part:

"Act" means section 810 of title VIII of the Elementary and Secondary Education Act of 1965.

(20 U.S.C. 887c.)

"Elementary school" means a day or residential school which provides elementary education including early childhood education, as determined under State law.

(20 U.S.C. 887c; 20 U.S.C. 881(c).)

"Equipment" includes machinery, utilities, and built-in equipment and any necessary enclosures or structures to house them, and includes all other items necessary for the functioning of a particular facility as a facility for the provision of educational services for Indian children, including items such as instructional equipment and necessary furniture, printed, published and audiovisual instructional materials, and books, periodicals, documents, and other related materials.

(20 U.S.C. 881(d).)

"Exemplary," as applied to an educational program, project, service, or activity, includes a program, project, service or activity designed to be so educationally effective or outstanding that it could be identified as a promising solution to a basic Indian educational problem.

(20 U.S.C. 887c(c).)

"Federally supported elementary and secondary school for Indian children" means an elementary or secondary school for Indian children operated or supported by the Department of the Interior.

(20 U.S.C. 887c(b).)

"Guidance and counseling" refers to (a) services to Indian pupils to assist them in assessing and understanding their particular abilities, educational needs, and career and vocational interests, and (b) assistance in personal and social development, including the development of a positive self-concept for Indian children and their parents.

(20 U.S.C. 887(c)(1)(D).)

"Handicapped children" means mentally retarded, hard of hearing, deaf, speech impaired, visually handicapped, seriously emotionally disturbed, crippled, or other health impaired children, who by reason thereof require special educational and related services.

(20 U.S.C. 887c(c)(1)(E).)

"Indian" means any individual, living on or off a reservation, who (a) is a member of a tribe, band or other organized group of Indians, including those tribes, bands, or groups terminated since 1940 and those recognized now or in the future by the State in which they reside, or who is a descendant, in the first or second degree, of any such member, or (b) is considered by the Secretary of the Interior to be an Indian for any purpose, or (c) is an Eskimo or Aleut or other Alaska Native.

(20 U.S.C. 1221h.)

"Secondary school" means a day or residential school which provides secondary education, as determined under State law, except that such term does not include any education provided beyond grade 12.

(20 U.S.C. 881(h).)

Subpart B—Applications for Financial Assistance

§ 187.5 Eligibility for, and nature of, available assistance.

(a) *Demonstration projects for improving educational opportunities.*—State and local educational agencies, federally supported elementary and secondary schools for Indian children, and Indian tribes, organizations and institutions may apply for grants to support planning, pilot and demonstration projects which are designed to plan for, and test and demonstrate the effectiveness of, programs (including early childhood programs) for improving educational opportunities for Indian children.

(20 U.S.C. 887c (a)(1) and (b).)

(b) *Educational enrichment and exemplary programs.*—State and local educational agencies, and tribal and other Indian community organizations may apply for grants to assist them (1) to provide educational services not available to Indian children in sufficient quantity or quality (such as programs described in section 810(c)(1) of the Act); or (2) to establish and operate exemplary and innovative educational programs and centers which involve new educational approaches, methods, and techniques designed to enrich programs of elementary and secondary education for Indian children and which will serve as models for regular elementary and secondary school programs in which Indian children are educated.

(20 U.S.C. 887c (a)(2) and (c).)

(c) *Training.*—Institutions of higher education (as defined in section 801(e) of the Elementary and Secondary Education Act) and State and local educational agencies in combination with institutions of higher education, may apply for grants to assist them in carrying out programs or projects (1) to prepare persons to serve Indian children as teachers, teacher aides, social workers, or ancillary educational personnel, and (2) to improve the qualifications of such persons who are serving Indian children in such capacities.

(20 U.S.C. 887c (a)(3) and (d), and 881(e).)

(d) *Dissemination and evaluation.*—Public agencies and institutions, and Indian tribes, institutions and organizations may apply for assistance (by grant or contract) for carrying out programs or projects to encourage the dissemination of information and materials relating to, and the evaluation of the effectiveness of, educational programs which may offer educational opportunities to Indian children.

(20 U.S.C. 887c (a)(4) and (e).)

§ 187.6 Applications.

Any eligible group, tribe, organization, or school or school system may submit an application for assistance under this part which shall set forth (a) the problem to be addressed, (b) the overall objectives of the proposed program or project, (c) the manner in which the proposed program or project carries out the purpose, as set forth in § 187.5, to which it relates, (d) the type and size of the proposed staff (including the staff training proposed), (e) the amount of the grant being requested, and such other information as the Commissioner may require. The description of the proposed program or project in the application shall also include a specific discussion of the manner in which the program or project relates to the applicable criteria set forth in subpart C. The application shall also describe methods of administration which will provide proper and efficient administration of the program or project for which assistance is requested.

(20 U.S.C. 887c(f).)

§ 187.7 Community participation.

Applications under § 187.5 (a) and (b) must describe the manner in which parents of the Indian children to be served and tribal communities: (a) Were consulted and involved in the planning and development of the project; and (b) will be actively participating in the further planning, development, operation, and evaluation of the project.

(20 U.S.C. 887c(f).)

§ 187.8 Coordination of resources.

Applications for assistance under § 187.5(b) (educational enrichment and exemplary programs) must contain an assurance that the program or project to be assisted will be coordinated with programs or projects carried out with other resources which may be available to the applicant in order that funds under this part and those other resources will be used for a comprehensive program for the improvement of educational opportunities of Indian children.

(20 U.S.C. 887c(f)(2).)

§ 187.9 Training of personnel.

Applications under § 187.5(b) (relating to educational enrichment and exemplary programs) must provide a description of the methods to be used for the training of personnel who will be participating in the project. Before he may approve an application under § 187.5(b), the Commissioner must be satisfied that such methods are adequate for the purpose of carrying out the project.

(20 U.S.C. 887c(f)(3).)

§ 187.10 Indian preference.

(a) In approving applications under this part, the Commissioner will give priority to applications submitted by Indian educational agencies, organizations, and institutions.

(b) In approving applications under § 187.5(c), the Commissioner will give preference to those projects which involve the training of Indians. In carrying out an approved project the applicant shall give preference to the training of Indians.

(20 U.S.C. 887c(f).)

§ 187.11 Evaluation.

An application under this part must contain an assurance to the Commissioner that (a) the applicant will arrange for an independent and objective evaluation of the effectiveness of the project in achieving its purposes and the purposes of the act, and (b) the applicant will cooperate with any evaluation conducted or arranged by the Commissioner.

(20 U.S.C. 887c(f)(4).)

Subpart C—Criteria for Assistance

§ 187.21 Criteria for consideration of applications.

In considering whether to approve applications and in determining the amount of the award under approved applications, the Commissioner will take into account the following general criteria:

(a) The number of Indian children involved in the program or project and number of children that would be affected by a successful outcome of the program or project;

(b) The degree to which the program or project to be assisted addresses the particular educational needs of Indian children;

(c) The relative isolation (geographic or social) of the Indian community which will be served by the program or project;

(d) The degree to which the activities supported under this part will be coordinated with other activities to meet the special educational needs of Indian children (including program supported under part A of the Indian Education Act, the Elementary and Secondary Education Act, and the Vocational Education Act);

(e) The adequacy of the qualifications and experience of the personnel designated to carry out the proposed project;

(f) The adequacy of facilities and other resources;

(g) The reasonableness of the estimated cost in relation to the anticipated results;

(h) The expected potential for utilizing the results of the proposed project in other projects or programs for similar educational purposes;

(i) The sufficiency of the size, scope, quality, and duration of the program or project so as to secure productive results; and

(j) The soundness of the proposed plan of operation, including consideration of the extent to which:

(1) The objectives of the proposed project are sharply defined, clearly stated, capable of being attained by the proposed procedures, and capable of being measured or evaluated;

(2) Provision is made for adequate evaluation of the effectiveness of the project and for determining the extent to which the objectives are accomplished;

(3) Where appropriate, provision is made for inservice training connected with project services; and

(4) Provision is made for disseminating the results of the project and for making materials and techniques resulting therefrom available to the general public and those concerned with education of Indian children.

(20 U.S.C. 887c.)

§ 187.22 Additional criteria for projects for improving educational opportunities.

(a) In considering whether to approve applications submitted under § 187.5(a), and in determining the amount of the awards under those applications, the Commissioner will take into account the following criteria (in addition to the criteria set forth in § 187.21):

(1) The degree to which the project addresses a demonstrated and substantial educational need of Indian children which is not being adequately met by projects supported with resources under other Federal, State, or local programs;

(2) The degree to which the successful carrying out of the project will measurably contribute to improving the educational opportunities of Indian children throughout the Nation;

(3) The numbers of Indian children who are estimated to require educational or other related services or programs of the kind which will be demonstrated or improved by the proposed project;

(4) In the case of projects which address themselves primarily to academic needs, the degree to which the level of

V 38 1 141 L
JUL 24 73
XUM

academic achievement of Indian children is likely to be improved by the carrying out or replication of the results of the proposed project;

(5) The degree of innovation of the proposed project; and

(6) The degree to which the project can be replicated for the purpose of providing educational services or programs for Indian children.

(b) In considering applications under this section priority will be given to projects which will provide models for coordinating the operation, at the local level, of federally assisted programs or projects designed to assist in meeting the educational needs of Indian children.

(20 U.S.C. 887c(b).)

§ 187.23 Additional criteria for educational enrichment and exemplary programs.

(a) In considering whether to approve applications submitted under § 187.5(b) and in determining the amount of the awards under those applications, the Commissioner will take into account the following criteria (in addition to the criteria set forth in § 187.21):

(1) The degree to which the application demonstrates that the services to be stimulated by the project are not available in sufficient quantity or quality to the Indian children to be served;

(2) The significance, in terms of long term improvement of the educational opportunities of Indian children, of the provision of the educational service, or the widespread application of the exemplary program, for which assistance is requested;

(3) In the case of an exemplary educational program, the degree to which the application demonstrates that the educational approach, method, or technique involved in the program has not previously been tested or applied in the education of Indian children;

(4) The extent to which the program or project involves Indian parents in the educational process and demonstrates new methods for involving those parents generally in activities to meet the educational needs of Indian children.

(b) In considering applications under § 187.5(b), priority will be given to (1) programs which are directed at meeting the needs of Indian children who are handicapped; (2) programs designed to assist and encourage Indian children to enter, remain in, or reenter elementary or secondary school; and (3) programs designed to assist Indian children to prepare to enter postsecondary or career education programs.

(20 U.S.C. 887c(c).)

§ 187.24 Additional criteria for training programs or projects.

(a) In addition to the criteria set forth in § 187.21, the Commissioner will apply the following criteria in evaluating applications submitted under § 187.5(c):

(1) The need with regard to Indian education for the type of educational or other personnel for which the training is provided;

(2) The likelihood that the training to be assisted will be applied to meet the educational needs of Indian children;

(3) The degree to which the training will involve educational approaches which take into account the culture and heritage of Indian children; and

(4) The degree to which the training program focuses on approaches, methods, and techniques which are pertinent to the education of Indian children.

(b) (1) Assistance under § 187.5(c) is available for the establishment of fellowship programs leading to an advanced degree; for institutes and for seminars, symposia, workshops, and conferences which are part of a continuing program.

(2) In providing assistance under § 187.5(c), projects including inservice training for qualified persons already serving in the education of Indian children and projects involving short-term training (6 months or less) will be given special consideration.

(20 U.S.C. 887c(a)(3); 887c(d).)

§ 187.25 Additional criteria for projects for dissemination and evaluation.

In the evaluation of applications for assistance under § 187.5(d), priority will be given to projects involving the dissemination of information and materials relating to, and the evaluation of the effectiveness of, academic programs and educational services which affect academic achievement in basic educational areas (such as reading, language arts, mathematics, and sciences).

(20 U.S.C. 887c(e).)

Subpart D—General Provisions

§ 187.31 Retention of records.

(a) *Records.*—Each recipient shall keep intact and accessible records relating to the receipt and expenditure of Federal funds (and to the expenditure of the recipient's contribution to the cost of the project, if any, in accordance with section 434(a) of the General Education Provisions Act), including all accounting records and related original and supporting documents that substantiate direct and indirect costs charged to the award.

(b) *Period of retention.*—(1) Except as provided in paragraphs (b)(2) and (d) of this section the records specified in paragraph (a) of this section shall be retained (i) for 3 years after the date of the submission of the final expenditure report, or (ii) for grants and contracts which are renewed annually, for 3 years after the date of the submission of the annual expenditure report.

(2) Records for nonexpendable personal property which was acquired with Federal funds shall be retained for 3 years after its final disposition.

(c) *Microfilm copies.*—Recipients may substitute microfilm copies in lieu of original records in meeting the requirements of this section.

(d) *Audit questions.*—The records involved in any claim or expenditure which has been questioned by Federal audit shall be further retained until resolution of any such audit questions.

(e) *Audit and examination.*—The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to all such records and to any other pertinent books, documents, papers, and records of the recipient.

(OMB Circular No. A-73; OMB Circular No. A-102, attachment C; 20 U.S.C. 1232c(a).)

§ 187.32 Audits.

(a) All expenditures by recipients shall be audited by the recipient or at the recipient's direction to determine, at a minimum, the fiscal integrity of financial transactions and reports, and the compliance with laws and regulations.

(b) The recipient shall schedule such audits with reasonable frequency, usually annually, but not less frequently than once every 2 years, considering the nature, site, and complexity of the activity.

(c) Copies of audit reports shall be made available to the Commissioner to assure that proper use has been made of the funds expended. The results of such audits will be used to review the recipient's records and shall be made available to Federal auditors. Federal auditors shall be given access to such records or other documents as may be necessary to review the results of such audits.

(20 U.S.C. 1232c(b)(2); OMB Circular No. A-102, attachment G, 2, attachment C, 1.)

§ 187.33 Limitations on costs.

The amount of the award shall be set forth in the grant award document. The total cost to the Federal Government will not exceed the amount set forth in the grant award document or contract or any modification thereof approved by the Commissioner which meets the requirements of applicable statutes and regulations. The Federal Government shall not be obligated to reimburse the recipient for costs incurred in excess of such amount unless and until the Commissioner has notified the recipient in writing that such amount has been increased and has specified such increased amount in a revised grant award document. Such revised amount shall thereupon constitute the revised total cost of the performance of the grant.

(20 U.S.C. 887c.)

§ 187.34 Final accounting.

(a) In addition to such other accounting as the Commissioner may require the recipient shall render, with respect to the project, a full account of funds expended, obligated, and remaining.

(b) A report of such accounting shall be submitted to the Commissioner within 90 days of the expiration or termination of the grant or contract, and the recipient shall remit within 30 days of the receipt of a written request therefor any amounts found by the Commissioner to be due. Such period may be extended at the discretion of the Commissioner upon the written request of the recipient.

(20 U.S.C. 1232c(b)(3); 31 U.S.C. 628.)

[FR Doc.73-15169 Filed 7-23-73;8:45 am]

PART 188—FINANCIAL ASSISTANCE FOR THE IMPROVEMENT OF EDUCATIONAL OPPORTUNITIES FOR ADULT INDIANS

Notice of proposed rulemaking was published in the FEDERAL REGISTER on May 17, 1973, at 38 FR 12931, setting forth requirements and criteria for the award of financial assistance under section 314 of the Adult Education Act as added by Part C of the Indian Education Act, Title IV of the Education Amendments of 1972, (Public Law 92-318, 86 Stat. 342, 20 U.S.C. 1211a), to State and local educational agencies; Indian tribes, organizations, and institutions; and public agencies and institutions. Funds under the Act are to be used to support planning, pilot, and demonstration projects designed to plan for, and test and demonstrate the effectiveness of, programs for the improvement of educational opportunities for adult Indians.

Interested persons were given 20 days in which to submit written comments, suggestions, or objections regarding the proposed regulation. No comments of a substantive nature were received during this period, and no substantive changes have been made in the proposed regulation. A few minor changes have been made to correct clerical errors.

After consultation with the National Advisory Council on Indian Education as required by § 442(b) of the Indian Education Act, and with the approval of the National Advisory Council, Title 45 of the Code of Federal Regulations is amended by adding a new Part 188 as set forth below.

Federal financial assistance provided pursuant to section 314 of the Adult Education Act is subject to the regulations in 45 CFR Part 80, issued by the Secretary of Health, Education, and Welfare, and approved by the President, to effectuate the provisions of section 601 of the Civil Rights Act of 1964 (42 U.S.C. 2000d). Such assistance is also subject to the provisions of title IX of Public Law 92-318 (20 U.S.C. 1681) (relating to discrimination on the basis of sex).

Effective date. As appears from the foregoing, the corrections in the text of the regulation do not involve any changes of a substantial nature in the provisions which were published in the FEDERAL REGISTER on May 17, 1973, as proposed rulemaking. Accordingly, this regulation shall be effective on July 24, 1973.

Dated: July 5, 1973.

JOHN OTTINA,
Acting U.S. Commissioner of Education.

Approved: July 18, 1973.

CASPAR W. WEINBERGER,
Secretary, Health, Education, and Welfare.

AUTHORITY.—Sec. 314, Public Law 89-750, as amended, 86 Stat. 342 (20 U.S.C. 1211a), unless otherwise noted.

Subpart A—Scope; Definitions

§ 188.1 Scope.

(a) This part governs the provision of assistance to State and local educational agencies, to Indian tribes, institutions, and organizations, and to public agencies and institutions to support planning, pilot, and demonstration projects which are designed to plan for, and test and demonstrate the effectiveness of, programs for improving educational opportunities for adult Indians under section 314 of the Adult Education Act (as added by section 431 of the Indian Education Act, title IV of Public Law 92-318).

(b) Assistance provided under this part is subject to applicable provisions contained in section 303 of the Adult Education Act (20 U.S.C. 1202) and regulations thereunder.

(20 U.S.C. 1211a.)

§ 188.2 Definitions.

"Act" means section 314 of the Adult Education Act (20 U.S.C. 1201).

(20 U.S.C. 1211a.)

"Adult" means any individual who has attained the age of 16.

(20 U.S.C. 1202(a).)

"Adult education" means services or instruction below the college level, for adults who (1) do not have a certificate of graduation from a school providing secondary education and who have not achieved an equivalent level of education, and (2) are not currently required to be enrolled in schools.

(20 U.S.C. 1202(b).)

"Indian" means any individual, living on or off a reservation, who (1) is a member of a tribe, band, or other organized group of Indians, including those tribes, bands, or groups terminated since 1940 and those recognized now or in the future by the State in which they reside, or who is a descendant, in the first or second degree, of any such member, or (2) is considered by the Secretary of the Interior to be an Indian for any purpose, or (3) is an Eskimo or Aleut or other Alaska Native.

(20 U.S.C. 1221h.)

Subpart B—Applications for Financial Assistance

§ 188.5 Eligibility for, and nature of, available assistance.

(a) *Planning, pilot, and demonstration projects.*—State educational agencies (as defined in 20 U.S.C. 1202(g)) and local educational agencies (as defined in 20 U.S.C. 1202(e)), and Indian tribes, institutions, and organizations may apply for grants to support planning, pilot, and demonstration projects which are designed to plan for, and test and demonstrate the effectiveness of, programs for providing adult education for Indians. Such projects may be designed (1) to test and demonstrate the effectiveness of programs to improve employment and educational opportunities; (2) to assist in the establishment and operation of programs designed to stimulate the provision of (i) basic literacy opportunities to all nonliterate Indian adults, and (ii) high school equivalency opportunities in the shortest period of time feasible; (3) to support a major research and development program to develop more innovative and effective techniques for achieving the literacy and high school equivalency goals; (4) to provide for basic surveys (and evaluations of such surveys) to define accurately the extent of the problems of illiteracy and lack of high school completion on Indian reservations; and (5) to encourage the dissemination of information and materials relating to, and the evaluation of the effectiveness of, education programs which may offer educational opportunities to Indian adults.

(20 U.S.C. 1211a(a).)

(b) *Dissemination and evaluation projects.*—The Commissioner may also make grants to, and contracts with, public agencies and institutions, and Indian tribes, institutions, and organizations for (1) the dissemination of information concerning educational programs, services, and resources available to Indian adults, including evaluations thereof; and (2) the evaluation of the effectiveness of federally assisted programs (in which Indian adults may participate) in achieving their purposes with respect to such adults.

(20 U.S.C. 1211a(b).)

(c) *Special considerations applicable to assistance for fiscal year 1973.*—For fiscal year 1973 it is expected that only a very limited number of grants will be made under the program and that the Commissioner will be unable to make grants in all the categories set forth in paragraphs (a) and (b) of this section. (The fiscal year 1973 appropriation for the program is $500,000.) Under these circumstances the Commissioner will give special consideration to (1) projects to provide a basic survey (and evaluation thereof) designed to define the extent of the problems of adult illiteracy and lack of high school completion on Indian reservations, and (2) demonstration projects to develop model programs for

V 38 1 41 JUL 24 73 XUM

the achievement of basic literacy or high school equivalency which meet the special needs of Indian adults.

(20 U.S.C. 1211a.)

§ 188.6 Applications.

Any party eligible for assistance under this part may submit an application therefor on such forms as may be prescribed by the Commissioner. Such application shall set forth (a) the problem to be addressed; (b) the overall objectives of the proposed project; (c) the activities to be carried out; (d) the manner in which the proposed project carries out the purpose, as set forth in § 188.5, to which it relates; (e) the type and size of the staff envisioned; (f) the amount of the assistance being requested; and (g) such other information as the Commissioner may require. The description of the proposed project in such application shall also include a specific discussion of the manner in which such project relates to the applicable criteria set forth in subpart C of this part. The application shall also provide for such methods of administration as are necessary for the proper and efficient administration of the project for which assistance is requested.

(20 U.S.C. 1211a(c).)

§ 188.7 Community participation.

Applications submitted under § 188.5 (a) must describe the manner in which individuals to be served and tribal communities (a) participated in the planning and development of the project, and (b) will be actively participating in the further planning, development, operation, and evaluation of the project. (See section 314(c) of the act.)

(20 U.S.C. 1211a(c).)

§ 188.8 Indian preference.

In approving applications under § 188.5(a) the Commissioner will give priority to applications submitted by Indian educational agencies, organizations, and institutions.

(20 U.S.C. 1211a(c).)

§ 188.9 Evaluation.

An application under this part must contain an assurance to the Commissioner that (a) the applicant will arrange for an independent and objective evaluation of the effectiveness of the project in achieving its purposes and the purposes of the act, and (b) the applicant will cooperate with any evaluation conducted or arranged by the Commissioner.

(20 U.S.C. 1211a(c)(2).)

Subpart C—Criteria for Assistance

§ 188.15 General criteria for consideration of applications.

In considering whether to approve applications, and in determining the amount of the award under approved applications, the Commissioner will take into account the following general criteria:

(a) The degree to which the program or project to be assisted will involve the use of innovative methods, systems, materials, or programs which may be of special value in developing effective programs for improving employment and educational opportunities for adult Indians;

(b) The extent to which activities supported under this part will be coordinated with other programs to improve educational and employment opportunities of adult Indians (including programs supported under the Adult Education Act and the Vocational Education Act);

(c) The adequacy of the qualifications and experience of the personnel designated to carry out the proposed projects;

(d) The adequacy of facilities and other resources;

(e) The reasonableness of the estimated cost in relation to the anticipated results; and

(f) The soundness of the proposed plan of operation, including consideration of the extent to which:

(1) The objectives of the proposed project are sharply defined, clearly stated, capable of being attained by the proposed procedures, and capable of being measured or evaluated;

(2) Provision is made for adequate evaluation of the effectiveness of the project and for determining the extent to which the objectives are accomplished;

(3) Where appropriate, provision is made for satisfactory inservice training connected with project services; and

(4) Provision is made for disseminating the results of the project and for making materials and techniques resulting therefrom available to the general public and specifically to all those concerned with education of Indian adults.

(20 U.S.C. 1211a.)

§ 188.16 Additional criteria for survey and evaluation projects.

In the evaluation of applications submitted under § 188.5(a)(4) to provide basic surveys and evaluations thereof to define the extent of the problems of illiteracy and lack of completion of high school on Indian reservations, the Commissioner will take into account the following criteria (in addition to those contained in § 188.15):

(a) The adequacy of the survey instrument and data collection system to be used;

(b) The adequacy of the methods proposed for processing, analyzing, and evaluating the data to be obtained, and for making available the results thereof; and

(c) The adequacy of the plan for administration of the survey, including:

(1) The personnel to be used; (2) the comprehensiveness of the survey sample; (3) the number of Indian adults to be surveyed; (4) the practicability of the time schedule to be followed relative to the proposed survey procedures; and (5) the provision for verification by the project director of the validity of the survey.

(20 U.S.C. 1211a(a)(4).)

Subpart D—General Provisions

§ 188.21 Retention of records.

(a) *Records.*—Each recipient shall keep intact and accessible records relating to the receipt and expenditure of Federal funds (and to the expenditure of the recipient's contribution to the cost of the project, if any, in accordance with section 434(a) of the General Education Provisions Act), including all accounting records and related original and supporting documents that substantiate direct and indirect costs charged to the award.

(b) *Period of retention.*—(1) Except as provided in paragraphs (b)(2) and (d) of this section the records specified in paragraph (a) of this section shall be retained (i) for 3 years after the date of the submission of the final expenditure report, or (ii) for grants and contracts which are renewed annually, for 3 years after the date of the submission of the annual expenditure report.

(2) Records for nonexpendable personal property which was acquired with Federal funds shall be retained for 3 years after its final disposition.

(c) *Microfilm copies.*—Recipients may substitute microfilm copies in lieu of original records in meeting the requirements of this section.

(d) *Audit questions.*—The records involved in any claim or expenditure which has been questioned by Federal audit shall be further retained until resolution of any such audit questions.

(e) *Audit and examination.*—The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to all such records and to any other pertinent books, documents, papers, and records of the recipient.

(OMB Circular No. A-73; OMB Circular No. A-102, attachment C; 20 U.S.C. 1232c(a).)

§ 188.22 Audits.

(a) All expenditures by recipients shall be audited by the recipient or at the recipient's direction to determine, at a minimum, the fiscal integrity of financial transactions and reports, and the compliance with laws and regulations.

(b) The recipient shall schedule such audits with reasonable frequency, usually annually, but not less frequently than once every 2 years, considering the nature, site, and complexity of the activity.

(c) Copies of audit reports shall be made available to the Commissioner to assure that proper use has been made of the funds expended. The results of such audits will be used to review the recipient's records and shall be made available to Federal auditors. Federal auditors shall be given access to such records or other documents as may be necessary to review the results of such audits.

(20 U.S.C. 1232c(b)(2); OMB Circular No. A-102, attachment G, 2, attachment C, 1.)

§ 188.23 Limitations on costs.

The amount of the award shall be set forth in the grant award document or contract. The total cost to the Federal Government will not exceed the amount set forth in the grant award document or contract or any modification thereof approved by the Commissioner which meets the requirements of applicable statutes and regulations. The Federal Government shall not be obligated to reimburse the recipient for costs incurred in excess of such amount unless and until the Commissioner has notified the recipient in writing that such amount has been increased and has specified such increased amount in a revised grant award document or contract. Such revised amount shall thereupon constitute the revised total cost of the performance of the grant.

(20 U.S.C. 1211a.)

§ 188.24 Final accounting.

(a) In addition to such other accounting as the Commissioner may require the recipient shall render, with respect to the project, a full account of funds expended, obligated, and remaining.

(b) A report of such accounting shall be submitted to the Commissioner within 90 days of the expiration or termination of the grant or contract, and the recipient shall remit within 30 days of the receipt of a written request therefor any amounts found by the Commissioner to be due. Such period may be extended at the discretion of the Commissioner upon the written request of the recipient.

(20 U.S.C. 1232c(b)(3); 31 U.S.C. 628.)

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1134, Amdt. 1]

PART 1033—CAR SERVICE

Lumber and Plywood—Restrictions on Reconsigning

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 12th day of July 1973.

Upon further consideration of Service Order No. 1134 (38 FR 12606), and good cause appearing therefor:

It is ordered, That:

§ 1033.1134 *Service Order No. 1134.* (Lumber and plywood—restrictions on reconsigning) be, and it is hereby, amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., November 15, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., July 31, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10-17, 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2).)

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Title 4—Accounts

CHAPTER III—COST ACCOUNTING STANDARDS BOARD

SUBCHAPTER A—ADMINISTRATION

PART 303—RELEASE OF INFORMATION

PART 304—DELEGATIONS OF AUTHORITY

Fees for Copying Records

The purpose of this publication by the Cost Accounting Standards Board is to modify Part 303, Release of Information, of its rules and regulations by eliminating, for most requests, the fee set forth in § 303.5 for copying Board records. It also adds a delegation of authority to Part 304 of the Board's regulations.

The Board's current fee of ten cents per page was based on the Board's estimates of the probable cost of preparing such copies and on information regarding the fees charged by other agencies. The Board's experience now indicates that the Board will be able to supply without charge most requests for copies of Board records. The Board recognizes that there may be occasions where requests for copying will entail effort beyond that normally involved. Therefore, the Board reserves the right to charge a reasonable fee per page in these instances. This is consistent with the Board's experience and the intent of the Public Information Section of the Administrative Procedure Act.

To facilitate the administration of § 303.5 the Board has delegated authority to the Executive Secretary of the Board at § 304.4 to exercise the Board's authority in any individual cases that may occur.

Section 303.5. *Fees for copying* is revised as follows:

§ 303.5 Fees for copying.

(a) Normally, no fee will be charged for copying Board records; however, the Board reserves the right to charge a reasonable fee per page when in the Board's judgment a request will entail effort beyond that normally involved in supplying copies of records in response to requests from the public.

(b) Where the Board determines a fee is appropriate, the fee shall be paid in advance to the Cost Accounting Standards Board.

(c) There shall be no charge made for search, retrieval, and handling of records.

Part 304 of the Board's rules and regulations is modified by adding a new § 304.4 *Fees for copying records*, to read as follows:

§ 304.4 Fees for copying records.

(a) The Cost Accounting Standards Board hereby delegates to the Executive Secretary of the Board authority to exercise the Board's authority under § 303.5(a), release of information (4 CFR 303.5(a)), of its rules and regulations.

(b) This authority may be redelegated.

(c) This delegation is effective July 25, 1973 and until revoked.

(84 Stat. 796, sec. 103; 50 U.S.C. App. 2168.)

Effective date. These amendments are effective on July 25, 1973.

ARTHUR SCHOENHAUT, *Executive Secretary.*

V 38 141 JUL 24 73 XUM

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 919]

FRESH PEACHES GROWN IN COLORADO

Limitation of Handling

Consideration is being given to the following proposal, which would limit the handling of fresh peaches by establishing minimum grades and sizes, pursuant to the marketing agreement, as amended, and Order No. 919, as amended (7 CFR Part 919), regulating the handling of fresh peaches grown in the County of Mesa in the State of Colorado. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same in quadruplicate, with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than July 30, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed regulation was recommended by the Administrative Committee and it reflects the committee's appraisal of the crop and current and the prospective market conditions. Shipments of peaches from the production area are expected to begin on or about August 4, 1973. The proposed grade and size requirements provided herein are necessary to prevent the handling, on and after August 4, 1973, of any peaches which do not comply with such requirements, so as to provide consumers with good quality fruit, consistent with the overall quality of the crop, while providing producers a fair return pursuant to the declared policy of the act. Such proposal reads as follows:

§ 919.314 Peach Regulation 13.

Order. (a) During the period August 4, through September 30, 1973, no handler shall ship:

(1) Any peaches of any variety which do not grade at least U.S. No. 1;

(2) Any peaches of any variety which are of a size smaller than 2⅛ inches in diameter: *Provided,* That any lot of peaches shall be deemed to be of a size not smaller than 2⅛ inches in diameter (i) if not more than 10 percent, by count, of such peaches in such lot are smaller than 2⅛ inches in diameter; and (ii) if not more than 15 percent, by count, of the peaches contained in any individual container in such lot are smaller than 2⅛ inches in diameter.

(b) *Definitions.* As used herein, "peaches", "handler", "ship", and "variety" shall have the same meaning as when used in the aforesaid amended marketing agreement and order; "U.S. No. 1", "diameter", and "count", shall have the same meaning as when used in the United States Standards for Peaches (7 CFR 51.1210–51.1223).

Dated: July 19, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 240]

NORTHWEST ATLANTIC COMMERCIAL FISHERIES

Regulated Commercial Fisheries

At the midyear meeting held in Rome, Italy, January 16–26, 1973, the International Commission for the Northwest Atlantic Fisheries recommended that member governments adopt revised catch quotas for herring for 1973 in the areas presently regulated by the Commission and to implement annual catch quotas adopted for mackerel, pollock, redfish, and other flounders, except yellowtail flounders, in Subareas 4 and 5.

At the present time, annual catch quotas for herring are published in the FEDERAL REGISTER under Title 50 CFR, Part 242—Herring Fisheries, while other Northwest Atlantic commercial fish species are regulated under Title 50 CFR, Part 240—Groundfish Fisheries. Recognizing that this arrangement may be confusing to fishermen who catch more than one species or change during the year from one fishery to another, it is proposed to transfer the provisions of 50 CFR Part 242 to 50 CFR Part 240 and reserve Part 242 for future use.

Therefore, it is proposed to incorporate the new regulated species into the existing regulations, thereby providing a single document that will provide easier reference. The proposed changes and inclusions are as follows:

1. Change the title of present Part 240 from "Groundfish Fisheries" to "Regulated Commercial Fisheries."

2. Add to § 240.1(c)(5), the new regulated species; pollock, redfish, mackerel, other flounders.

3. In Subpart B—Groundfish Fisheries, it is proposed to include the 1973 catch quotas for pollock and redfish. The 1973 annual catch quota for redfish for vessels under the jurisdiction of the United States in Subarea 5 shall not exceed 24,550 metric tons and for pollock, 11,275 metric tons.

4. In Subpart C—Flatfish Fisheries, it is proposed to include the 1973 catch quota for other flounders. The 1973 annual aggregate catch quota for other flounders, excluding yellowtail flounder, for vessels under the jurisdiction of the United States shall not exceed 21,700 metric tons.

5. It is proposed to add a new Subpart E—Pelagic Fisheries, which would include the regulations for herring presently published under Part 242 and mackerel recently adopted as a regulated species. The 1973 catch quotas for herring for vessels under the jurisdiction of the United States shall be as follows:

Division 5Z of Subarea 5, 5,250 metric tons; Division 5Y of Subarea 5, 19,750 metric tons; and Division 4X and 4W of Subarea 4, 400 metric tons. The 1973 catch quota for mackerel in Subarea 5 is 26,200 metric tons.

6. It is proposed to make other minor editorial changes to provide consistent language within each subpart.

The proposed amendments are to be issued under the authority contained in subsection (a) of section 7 of the Northwest Atlantic Fisheries Act of 1950 (64 Stat. 1069; 16 U.S.C. 986) as modified by Reorganization Plan No. 4, effective October 3, 1970 (35 FR 15627).

Prior to final adoption of the proposed amendments, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing to the Director, National Marine Fisheries Service, Washington, D.C. 20235, on or before August 13, 1973.

Issued at Washington, D.C., and dated July 17, 1973.

T. P. GLEITER,
Assistant Administrator for Administration.

Subpart A—General Provisions

§ 240.1 Definitions.

(a) *Convention area.* The term "Convention area" means and includes all waters, except territorial waters, bounded by a line beginning at a point on the coast of Rhode Island in 71°40′ west longitude; thence due south to 39°00′ north latitude; thence due east to 42°00′ west longitude; thence due north to 50°00′ north latitude; thence due west to 44°00′ west longitude; thence due north to the coast of Greenland; thence along the west coast of Greenland to 78°10′ north latitude; thence southward to a point in 75°00′ north latitude and 73°30′ west longitude, thence along a rhumb line to a point in 69°00′ north latitude and 50°00′ west longitude; thence due south to 61°00′ north latitude; thence due west to 64°30′ west longitude; thence due south to the coast of Labrador; thence in a southerly direction along the coast of Labrador to the southern terminus of its boundary with Quebec; thence in a westerly direction along the coast of Quebec, and in an easterly and southerly direction along the coasts of New Brunswick, Nova Scotia, and Cape Breton Island, to Cabot Strait; thence along the coasts of Cape Breton Island, Nova Scotia, New Brunswick, Maine, New Hampshire, Massachusetts and Rhode Island to the point of beginning.

(b) *Regulatory area.* The term "Regulatory area" means and includes the whole of those portions of the Convention area which are separately described as follows:

(1) *Subarea 1.* The term "Subarea 1" means that portion of the Convention area, including all waters except territorial waters, which lies to the north and east of a rhumb line from a point in 75°00′ north latitude and 73°30′ west longitude to a point in 69°00′ north latitude and 59°00′ west longitude; east of 59°00′ west longitude; and to the north and east of a rhumb line from a point in 61°00′ north latitude and 59°00′ west longitude to a point in 52°15′ north latitude and 42°00′ west longitude.

(2) *Subarea 2.* The term "Subarea 2" means that portion of the Convention area, including all waters except territorial waters, lying to the south and west of Subarea 1, as defined in subparagraph (1) of this paragraph, and to the north of the parallel of 52°15′ north latitude.

(3) *Subarea 3.* The term "Subarea 3" means that portion of the Convention area, including all waters except territorial waters, lying south of the parallel of 52°15′ north latitude; and to the east of a line extending due north from Cape Bauld on the north coast of Newfoundland to 52°15′ north latitude; to the north of the parallel of 39°00′ north latitude; and to the east and north of a rhumb line extending in a northwesterly direction which passes through a point in 42°30′ north latitude, 55°00′ west longitude in the direction of a point in 47°50′ north latitude, 60°00′ west longitude, until it intersects a straight line connecting Cape Ray, on the coast of Newfoundland, with Cape North on Cape Breton Island; thence in a northeasterly direction along said line to Cape Ray.

(4) *Subarea 4.* The term "Subarea 4" means that portion of the Convention area, including all waters except territorial waters, lying to the west of Subarea 3 as described in subparagraph (3) of this paragraph, and to the east of a line described as follows: Beginning at the terminus of the international boundary between the United States of America and Canada in Grand Manan Channel, at a point 44°46′35.34″ north latitude, 66°54′11.23″ west longitude; thence due south to the parallel of 43°50′ north latitude; thence due west to the meridian of 67°40′ west longitude; thence due south to the parallel of 42°40′ north latitude; thence due east to a point in 66°00′ west longitude; thence along a rhumb line in a southeasterly direction to a point in 42°00′ north latitude, 65°40′ west longitude; thence due south to the parallel of 39°00′ north latitude.

(5) *Subarea 5.* The term "Subarea 5" means that portion of the Convention area, including all waters except territorial waters, bounded by a line beginning at the terminus of the international boundary between the United States of America and Canada in Grand Manan Channel at a point in 44°46′35.34″ north latitude, 66°54′11.23″ west longitude; thence due south to the parallel of 43°50′ north latitude; thence due west to the meridian of 67°40′ west longitude; thence due south to the parallel of 42°20′ north latitude; thence due east to a point in 66°00′ west longitude; thence along a rhumb line in a southeasterly direction to a point in 42°00′ north latitude, 65°40′ west longitude; thence due south to the parallel of 39°00′ north latitude; thence due west to the meridian of 71°40′ west longitude; thence due north to a point 3 statute miles off the coast of the State of Rhode Island; thence along the coasts of Rhode Island, Massachusetts, New Hampshire, and Maine at a distance of 3 statute miles to the point of beginning.

(c) *Regulated species.* The regulations in this part shall apply to the following species by the subareas they are included in and wherever in the regulations in this part the term "regulated species" is used, it shall apply to those in this list.

(1) *In Subarea 1.* (i) Cod (*Gadus morhua* (L.)).

(ii) Haddock (*Melanogrammus aeglefinus* (L.)).

(iii) Ocean perch (redfish) (*Sebastes*).

(iv) Halibut (*Hippoglossus hippoglossus* (L.)).

(v) Grey sole (witch) (*Glyptocephalus cynoglossus* (L.)).

(vi) Dab (American plaice) (*Hippoglossoides platessoides* (Fab.)).

(vii) Greenland halibut (*Reinhardtius hippoglossoides* (Walb.)).

(2) *In Subarea 2.* (i) Cod (*Gadus morhua* (L.)).

(ii) Haddock (*Melanogrammus aeglefinus* (L.)).

(iii) Ocean perch (redfish) (*Sebastes*).

(iv) Halibut (*Hippoglossus hippoglossus* (L.)).

(v) Grey sole (witch) (*Glyptocephalus cynoglossus* (L.)).

(vi) Dab (american plaice) (*Hippoglossoides platessoides* (Fab.)).

(vii) Greenland halibut (*Reinhardtius hippoglossoides* (Walb.)).

(3) *In Subarea 3.* (i) Cod (*Gadus morhua* (L.)).

(ii) Haddock (*Melanogrammus aeglefinus* (L.)).

(iii) In aggregate: ocean perch (redfish) (*Sebastes*), except in the statistical division 3N, 30, and 3P, halibut (*Hippoglossus hippoglossus* (L.)), grey sole (witch) (*Glyptocephalus cynglossus* (L.)), yellowtail flounder (*Limanda ferruginea* (Storer), dab (American plaice) (*Hippoglossoides platessoides* (Fab.)), Greenland halibut (*Reinhardtius hippoglossoides* (Walb.)), pollock (saithe) (*Pollachius virens* (L.)), white hake (*Urophycis tenuis* (Mitch.)).

(4) *In Subarea 4.* (i) Cod (*Gadus morhua* (L.)).

(ii) Haddock (*Melanogrammus aeglefinus* (L.)).

(iii) In aggregate: Flounders: grey sole (witch) (*Glyptocephalus cynoglossus* (L.)), yellowtail flounder (*Limanda ferruginea* (Storer)), blackback or lemon sole (winter flounder) (*Pseudopleuronectes americanus* (Walb.)), dab, *American plaice*) (*Hippoglossoides platessoides* (Fab.)).

(5) *In Subarea 5,* (i) Cod (*Gadua morhua* (L.)).

(ii) Haddock (*Melanogrammus aeglefinus* (L.)).

(iii) Yellowtail flounder (*Limanda ferruginea* (Storer)).

(iv) Silver hake (*Merluccius bilinearis* (Mitch.)).

V 38-141 JUL 24 73 XUM

(v) Red hake (*Urophycis chuss* (Walb.)).
(vi) Herring (*Clupea harengus* (L.)).
(vii) Mackerel (*Scomber scombrus* (L.)).
(viii) Pollock (*Pollachius virens* (L.)).
(ix) Redfish (*Sebastes marinus* (L.)).
(x) In aggregate: Flounders: grey sole (witch) (*Glyptocephalus cynoglossus* (L), dab (American plaice) (*Hippoglossoides platessoides* (Fab) fluke (summer flounder) (*Peralichthys dentatus* (L), blackback or lemon sole (winter flounder) (*Pseudopleuronectes americanus* (Walb.).

(d) *Chafer.* A protective covering of canvas, netting, or other material attached to the underside of the cod end only of the net to reduce and prevent damage, and a rectangular piece or pieces of netting attached to the upper side of the cod end only of the net to reduce and prevent damage, so long as the netting attached to the upper side of the cod end conforms to the specifications of either the "ICNAF-type chafer," the "multiple flap-type chafer," or the "Polish-type chafer," described below. For the purposes of this paragraph, the required mesh size, when measured wet after use, shall be deemed to be the average of the measurements of 20 consecutive meshes in a series across the nettings.

(1) *ICNAW chafer.* A chafer having the following characteristics:

(i) The width of the netting shall be at least 1½ times the width of the area of the cod end which is covered, such width to be measured at right angles to the long axis of the cod end.

(ii) Such netting may be fastened to the cod end of the trawl net only along the forward and lateral edges of the netting and at no other place in the netting.

(iii) On cod ends having a splitting strap, the netting shall be fastened in such a manner that it extends forward of the splitting strap no more than four meshes and ends not less than four meshes in front of the cod line mesh.

(iv) On cod ends not having a splitting strap, the netting shall not extend to more than one-third the length of the cod end measured from not less than four meshes in front of the cod line mesh.

(v) The netting shall not have a mesh size less than that specified for the cod end to which it is attached.

(2) *Multiple flap-type chafer.* A chafer having the following characteristics:

(i) Each piece of netting shall not exceed 10 meshes in length; each shall be at least the width of the cod end, such width being measured at right angles to the long axis of the cod end at the point of attachment; each shall be fastened by its forward edge only across the cod end at right angles to its long axis.

(ii) The aggregate length of all pieces of neeting shall not exceed two-thirds the length of the cod end.

(iii) The netting shall not have a mesh size less than that specified for the cod end to which it is attached.

(3) *Polish-type chafer.* A chafer having the following characteristics:

(i) The rectangular piece of netting attached to the upper side of the cod end shall have a mesh size at least twice as large as that specified for the cod end to which it is attached and shall have a width the same as that for the cod end.

(ii) It shall be fastened to the cod end only along the forward, lateral, and rear edges of the netting so that the meshes exactly overlay the meshes of the cod end.

(iii) The netting shall be the same twine size and material as that of the cod end.

(e) *Closed season.* The time during which regulated species in specified areas may not be taken in quantities exceeding the amounts specified as incidental fisheries.

(f) *Cod end.* The bag-like extension attached to the after end of the belly of the trawl net and used to retain the catch.

(g) *Commission.* The International Commission for the Northwest Atlantic Fisheries established pursuant to the Convention.

(h) *Convention.* The International Convention for the Northwest Atlantic Fisheries signed at Washington, D.C., February 8, 1949, and amendments.

(i) *Contracting governments.* Governments party to the Convention.

(j) *Demersal species.* Fishes living at the bottom of the sea.

(k) *Executive Secretary.* The Executive Secretary of the International Commission for the Northwest Atlantic Fisheries.

(l) *Fishing.* The catching, taking or fishing for, or the attempted catching, taking, or fishing for any regulated species.

(m) *Incidental fisheries.* The inadvertent taking of regulated species while conducting fishing operations primarily for other species.

(n) *Mesh size.* Any part of the net, the average of the measurements of any 20 consecutive meshes in any row located at least 10 meshes from the side lacings measured when wet after use.

(o) *License.* A license issued by the National Marine Fisheries Service to enable the holder thereof to fish for, possess, transport, or deliver, by means of any fishing vessel, any regulated species.

(p) *Official or authorized official.* Any representative of the National Marine Fisheries Service (NMFS), U.S. Coast Guard, or U.S. Bureau of Customs, authorized to enforce this part.

(q) *Open season.* The time during which regulated species may lawfully be captured and taken on board a fishing vessel without limitation of the quantity permitted to be retained during each fishing voyage, except as otherwise provided in this part.

(r) *Person.* Any owner, master, or operator of a vessel.

(s) *Regional Director.* The Regional Director, Northeast Region, National Marine Fisheries Service, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930. Telephone number: Area code (617) 281-0640.

(t) *Service.* The National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

(u) *Service Director.* The Director of the National Marine Fisheries Service.

(v) *Trawl net.* Any large bag net dragged in the sea by a vessel or vessels for the purpose of fishing.

(w) *Vessel.* Every kind, type or description of watercraft subject to the jurisdiction of the United States, used, or capable of being used, as a means of transportation on water.

(x) *Trip.* As used in connection with the trip exemption provided in § 240.3(b) means a departure from port, transit to the Convention area, participation in the fisheries, including incidental fisheries, and discharges any part of the catch on board.

§ 240.2 Licensing provisions.

(a) Any person or vessel desiring to fish for any regulated species within the Convention area, or possess, transport, or deliver for sale, any regulated species taken within the Convention area, must first obtain a license for that purpose.

(b) The owner or operator of a vessel may obtain the appropriate license by furnishing, on a form supplied by the National Marine Fisheries Service, information specifying the names and addresses of the owner and operator of the vessel and the name, official number, and home port of the vessel. The form shall be submitted, in duplicate, to the Regional Director, National Marine Fisheries Service, Gloucester, Massachusetts, who shall grant the requested license, without fee, for the calendar year in which the license is issued. New licenses shall be issued to replace expired, lost, or mutilated licenses. An application for replacement of an expiring license shall be made in like manner as the original application, not later than 10 days prior to the expiration date of the expiring license.

(c) The owner or operator of any licensed vessel which is proposed to be used in fishing outside the Convention area may obtain a temporary suspension of the license until such time that the vessel returns to fish within the Convention area.

(d) The temporary suspension or modification of the license shall be granted upon either an oral or a written request, specifying the period of suspension or modification desired by an authorized State official or by an authorized official of the National Marine Fisheries Service, or Coast Guard. Such official shall make appropriate endorsement on the license evidencing the duration of its suspension or modification.

(e) The license issued by the National Marine Fisheries Service must be carried, at all times, on board the vessel for which it is issued and such license, the vessel, its gear and equipment shall be subject to inspection, at reasonable times, by authorized officials.

(f) Licenses issued under this part may be revoked by the Regional Director for violations of this part.

§ 240.3 Persons and vessels exempted.

(a) *Scientific investigations.* Any person operating a vessel authorized by the Secretary of Commerce to engage in fishing for scientific purposes is exempt from all the requirements of this part.

(b) *Trip exemption.* (1) Any person operating a vessel in the course of fishing for nonregulated species in Subareas 3, 4, and 5, is exempt from the requirements of this part, and may take and possess, on any one trip, an incidental catch of regulated species not to exceed, for each species, 5,000 pounds or 10 percent (10%) by weight of all the fish on board, whichever is greater, taken from the same subarea.

(2) Any person or vessel fishing for regulated species, using gear required for that fishery, may take and possess, on any one trip, other regulated species, not to exceed 5,000 pounds or 10 percent (10%) by weight of all fish on board, whichever is greater: *Provided,* That a valid license issued under the provisions of § 240.2 is in force.

(c) *Annual exemption.* Any person operating a vessel engaged in fishing for nonregulated species within Subarea 3, 4, or 5, who does not take in any period of 12 months more than 10 percent (10%) by weight of regulated species described in the immediately preceding paragraph may avail himself of the exemption provided in this paragraph by obtaining a license for exemption under the provision of § 240.2(a).

§ 240.4 Reports and records.

(a) *Dealers.* (1) All persons, individuals, firms or corporations, at any port or place within the United States, that buy from other U.S. flag vessels or from a carrier licensed as a common carrier engaged in either interstate or intrastate commerce, any regulated species taken within the Convention area by any fishing vessel, shall make and shall furnish to an authorized officer of the National Marine Fisheries Service, within 72 hours of sale or within 72 hours after buying or receiving, or upon the vessel's return to any port of the United States, a complete record of each purchase, on forms supplied by the National Marine Fisheries Service.

(2) All persons purchasing or receiving any regulated species in the Convention area for transport to any port of the United States must maintain records identical to those required under paragraph (a)(1) of this section.

(3) The possession by any person, firm or corporation of regulated species which such person, firm, or corporation knows to have been taken by a vessel of the United States without a valid license, is prohibited.

(b) *Owner or master.* (1) In the case of a vessel licensed under § 240.2, and fishing for any of the regulated species, the owner or master of vessels of 50 gross tons or more must maintain an accurate log of fishing operations showing date, type and size of gear used, locality fished, duration of fishing time or tow, and the estimated weight in pounds of each species taken at 12-hour intervals. Such logbooks shall be available for inspection by an authorized official in accordance with the ICNAF International Inspection Scheme adopted at the Twenty-first Annual Meeting, May 27–June 4, 1971. At the conclusion of each fishing trip, such logbook shall be delivered to an authorized official of the United States or, if no official is available, such logbook must be mailed in the envelope provided for that purpose. These forms will be furnished without cost by the National Marine Fisheries Service. Such logbooks shall be used for statistical and biological purposes only.

(2) In the case of vessels of less than 50 gross tons licensed under § 240.2, and fishing for any of the regulated species, the owner or master may be required to maintain the logbook for sampling purposes at the option of an appropriate official of the United States.

(3) In the case of vessels desiring to fish for nonregulated species on a trip basis, no reports are required of the owner or master.

Subpart B—Groundfish Fisheries

§ 240.10 Definitions.

(a) Unless otherwise defined herein, the terms used in this subpart will have the meanings ascribed to them in § 240.1.

(b) Regulations in this subpart will apply to haddock (*Melanogrammus aeglefinus* (L.)), cod (*Gadus morhua* (L.)), pollock (*Pollachius virens* (L.)), and redfish (ocean perch) (*Sebastes marinus* (L.)).

§ 240.11 Catch quota.

(a) An annual catch limitation is placed upon the quantity of haddock permitted to be taken in Division 4W and 4X of Subarea 4 and Subarea 5. The aggregate catch of haddock during 1973, by persons or fishing vessels under the jurisdiction of the United States, in each area, is as follows:

(1) The annual catch of haddock by persons or fishing vessels fishing in Division 4W of Subarea 4, in the year 1973, shall not exceed 4,000 metric tons.

(2) The annual catch of haddock by persons or fishing vessels fishing in Division 4X of Subarea 4, in the year 1973, shall not exceed 9,00 metric tons.

(3) The annual catch of haddock by persons or fishing vessels fishing in Subarea 5, shall not exceed 6,000 metric tons.

(b) An annual catch limitation is placed upon the quantity of cod permitted to be taken in Subdivision 4Vs and Division 4W of Subarea 4, Division 5Y of Subarea 5, and Subdivisions 5Ze and 5Zw of Subarea 5. The aggregate catch of cod during 1973, by persons or fishing vessels under the jurisdiction of the United States, in each area, is as follows:

(1) The annual catch of cod in Subdivision 4Vs and Division 4W of Subarea 4 shall not exceed 1,050 metric tons.

(2) The annual catch of cod in Division 5Y or Subarea 5 shall not exceed 9,400 metric tons.

(3) The annual catch of cod in Subdivision 5Ze and 5Zw of Subarea 5 shall not exceed 19,600 metric tons.

(c) An annual catch limitation is placed upon the quantity of pollock permitted to be taken in Division 4X of Subarea 4 and Subarea 5. The catch of pollock in the above area during 1973 by persons or fishing vessels under the jurisdiction of the United States, shall not exceed 11,275 metric tons.

(d) An annual catch limitation is placed upon the quantity of redfish (ocean perch) permitted to be taken in Subarea 5. The catch of redfish (ocean perch) in the above area during 1973 by persons or fishing vessels under the jurisdiction of the United States shall not exceed 24,550 metric tons.

§ 240.12 Open season.

(a) The open season for regulated groundfish species in Subdivision 4Vs, Division 4X and Division 4W of Subarea 4, and Subarea 5, shall begin at 0001 hours of the 1st day of January 1973, and terminate at a time and a date to be determine and announced in the FEDERAL REGISTER: *Provided,* That the areas described in § 240.13 shall be closed to any vessel using gear capable of catching demersal species.

§ 240.13 Closed seasons and areas.

(a) The Director shall announce the closure of the season by publication of a notice in the FEDERAL REGISTER, specifying the time and date for the termination of specialized fishing for regulated groundfish species in Subarea 4 or 5, or any division thereof. The closure is determined in the following manner:

(1) The National Marine Fisheries Service maintains records of the catches of regulated groundfish species, except haddock, made in Subdivision 4Vs, Division 4X and Division 4W of Subarea 4 and Subarea 5, during the open season, by vessels under the jurisdiction of the United States participating in the fishery.

(2) When the accumulative and estimated prospective catch of regulated groundfish species, except haddock in each subarea, making allowance for the incidental catch for the remainder of the year, equals 100 percent of the allowable catch permitted under § 240.11, the Director shall promptly publish the notice, in the FEDERAL REGISTER, required in paragraph (a) of this section, and shall notify the Executive Secretary of the date on which vessels subject to the jurisdiction of the United States have ceased a specialized fishery.

(b) The Executive Secretary of the International Commission for the Northwest Atlantic Fisheries maintains records of the catches of haddock made in Division 4X and Division 4W of Subarea 4 and Subarea 5 during the open season by the vessels of all Contracting Governments participating in the fishery.

(1) When the accumulative and estimated prospective catch of haddock, in each subarea, making allowance for the incidental catch for the remainder of the year, equal 100 percent of the allowable catch permitted under § 240.10, the Executive Secretary shall notify each Contracting Government of that fact.

V 38-141-I JUL 24 73 XUM

(2) If, after having given the notification provided in paragraph (b)(1) of this section, the Executive Secretary determines, on the basis of new or further information, that the total catch will be less than 100 percent of the allowable catch, he may so inform each Contracting Government, stating the number of additional days haddock fishing may be permitted in each subarea.

(3) Within 10 days of the receipt of the notification specified in paragraph (b) (1) or (2) of this section, the Director shall announce by publication in the FEDERAL REGISTER, the time and date for the termination of fishing, or the number of days that a previously announced closure shall be extended, as appropriate.

(c) It shall be unlawful for any person to use, during the period from 0001 hours, March 1, to 2400 hours May 31, 1973, fishing gear capable of catching demersal species, including any trawl gear or similar devices, gillnet, or hook and line, in:

(1) Division 4X of Subarea 4, bounded by straight lines connecting the following coordinates in the order listed: 65°44′W.—42°04′N., 64°30′W.—42°40′N., 64°30′W.—43°00′N., 66°32′W.—43°00′N., 66°32′W.—42°20′N., 66°00′W.—42°20′N.

(2) Subarea 5, two areas bounded by lines connecting the following coordinates:

(i) 69°55′W.—42°10′N., 69°10′W.—41°10′N., 68°30′W.—41°35′N., 68°45′W.—41°50′N., 69°00′W.—41°50′N.

(ii) 67°00′W.—42°20′N., 67°00′W.—41°15′N., 65°40′W.—41°15′N., 65°40′W.—42°00′N., 66°00′W.—42°20′N.

(iii) except that vessels using hooks having a gap of not less than 3 cm (1⅛″) may fish in Subarea 5, without restriction.

§ 240.14 Gear restrictions.

(a) In Subareas 1, 2, and 3, no person shall fish for regulated species with a trawl net or nets, parts of nets, or netting of manila or of the trade named twines, under the chemical category of polypropylene, having a mesh size of less than 5⅛ inches (130 mm.), or a trawl net or nets or parts of nets, or netting of material other than manila or polypropylene twine, unless it shall have a selectivity equivalent to that of a 5⅛ inch (130 mm.) manila trawl net.

(b) In Subareas 4 and 5, except as provided in § 240.23(a), no person shall fish for haddock or cod with a trawl net or nets, parts or nets, or netting of manila or of the trade named twines, under the chemical category of polypropylene, having a mesh size of less than 4½ inches (114 mm.) or a trawl net or nets, or netting of material other than manila or polypropylene twine, unless it shall have a selectivity equivalent to that of a 4½ inch (114 mm.) manila trawl net.

(c) The use in fishing for haddock or cod within the Regulatory area of any device or method which would, or otherwise, have the effect of diminishing the size of said meshes of the trawl net is prohibited: *Provided*, That an approved chafer described in § 240.1(d) may be used.

§ 240.15 General restrictions.

(a) Except as provided in paragraphs (b), (c), and (d), of this section, after the dates announced in the manner provided in § 240.13(a), for the closing of the unrestrictive fishing for certain species in Division 4X or Division 4W of Subarea 4 and Subarea 5, it shall be unlawful for any master or other person in charge of a fishing vessel to possess such regulated ground fish species on board such vessel in those areas or to land such regulated ground fish species in those areas in any port or place until the next succeeding fishing season reopens on January 1 next.

(b)(1) Any fishing vessel which had departed port to engage in fishing for regulated groundfish species under the provisions of § 240.2, prior to the date of the closure for such regulated species in either Division 4X or 4W in Subarea 4, or Subarea 5, may continue to take and retain such species in the Division or Subarea for which the closure has been announced, for a period of time not to exceed 10 days, at which time fishing for such species in the closed Division or Subarea shall be prohibited. Within 48 hours after the expiration of the 10-day period, each such vessel must return to a port or place in the United States, and the master or person in charge must immediately, on his return, notify any officer of the National Marine Fisheries Service, U.S. Bureau of Customs or Coast Guard, of his arrival.

(2) Any master or person in charge of a fishing vessel, licensed pursuant to § 240.2, may continue to fish after the date of closure, in any subarea or division, the provisions of the next preceding paragraph notwithstanding, but should he elect to do so, the quantity of such regulated species in his possession on each trip must not exceed 5,000 pounds or 10 percent (10%) by weight of all other fish on board.

(c) Any master or person in charge of a fishing vessel, which has departed port after the date of closure of unrestrictive fishing for certain regulated groundfish species in Division 4X or 4W in Subarea 4, or Subarea 5, may take, possess on board, and land in any port or place, such regulated species as may be taken incidentally to a fishery for nonregulated species: *Provided*, That the master of the said vessel has on board the appropriate license as required under § 240.2(a) and complies with the limitations specified in § 240.3, and the reporting requirements, where required, in § 240.4(b): *Provided further*, That nothing contained herein shall be construed to amend, modify, or repeal those portions of the regulations relating to areas closed to all demersal fishing, which may be found in § 240.13(d).

(d) The provisions of this subpart shall apply to all fishing trips begun during the current calendar year, whether completed before January 1, or not.

Subpart C—Flatfish Fisheries

§ 240.20 Definitions.

(a) Unless otherwise defined herein, the terms used in this subpart will have the meanings ascribed to them in § 240.1.

(b) Regulations in this subpart will apply to American plaice (*Hippoglossoides platessoides* (Fab.)), Yellowtail flounder (*Limanda ferruginea* (Storer)), and other flounders in aggregate grey sole or witch (*Glyptocephalus gynoglossdab* or American plaice (*Hippoglossoides sus* (L)), dab or American plaice (*Hippoglossoides platessoides* (Fab.)), fluke or summer flounder (*Paralichthys dentatus* (L), blackback, lemon sole or winter flounder (*Pseudopleuronectes americanus* (Walb.))

§ 240.21 Catch quota.

(a) An annual catch limitation is placed upon the quantity of American plaice permitted to be taken in Divisions 3L, 3N, and 3O, of Subarea 3. The aggregate catch of American plaice in the above Divisions during 1973, by persons or fishing vessels, under the jurisdiction of the United States, shall not exceed 100 metric tons.

(b) An annual catch limitation is placed on the quantity of yellowtail flounder permitted to be taken in Divisions 3L, 3N, and 3O, in subarea 3, and in the areas east and west of 69° West longitude in Subarea 5, as follows:

(1) The annual catch of yellowtail flounder in Divisions 3L, 3N, and 3O, of Subarea 3, shall not exceed 100 metric tons.

(2) The annual catch of yellowtail flounder in Subarea 5, in the area east of 69° West longitude shall not exceed 15,000 metric tons and shall be taken in quarterly increments as follows:

Quarter	Catch quota	Expected accumulative catch
Jan. 1—Mar. 31	2,950	2,950
Apr. 1—June 30	3,850	6,800
July 1—Sept. 30	4,900	11,700
Oct. 1—Dec. 31	3,300	15,000

(3) The annual catch of yellowtail flounder in Subarea 5, in the area west of 69° longitude shall not exceed 9,000 metric tons and shall be taken in quarterly increments as follows:

Quarter	Catch quota	Expected accumulative catch
Jan. 1–Mar. 31	2,750	2,750
Apr. 1–June 30	1,500	4,250
July 1–Sept. 30	2,000	6,250
Oct. 1–Dec. 31	2,750	9,000

(c) The Director may adjust the quarterly increments in either area by publication of a notice in the FEDERAL REGISTER

(d) An annual catch limitation is placed upon the aggregate quantity of flounders other than yellowtail flounder, permitted to be taken in Subarea 5. The aggregate catch of flounders, other than yellowtail flounder, in the above Subarea during 1973, by persons or fishing vessels under the jurisdiction of the United States, shall not exceed 21,700 metric tons.

§ 240.22 Open season.

(a) The open season for regulated flatfish species in areas under quota in § 240.21, shall begin at 0001 hours local time on the 1st day of January 1973, and terminate at a time and date to be announced by the Director, by publication of a notice in the FEDERAL REGISTER. In the event of a closure during any quarter, open season fishing for yellowtail flounder shall resume on the first day of the next quarter.

§ 240.23 Closed season and areas.

(a) The Director shall announce the closure of the season by publication of a notice in the FEDERAL REGISTER, specifying the time and date for the termination of specialized fishery for certain regulated flatfish species in Subarea 3, and Subarea 5.

(b) The National Marine Fisheries Service maintains records of the catches of regulated flatfish species made during the open seasons in those areas under quota limitations specified in § 240.21 by vessels under the jurisdiction of the United States, participating in the fishery.

(c) When the accumulative and estimated catch of certain regulated flatfish species, making allowance for the incidental catch for the remainder of the year, equals 100 percent of the allowable catch permitted under § 240.21, the Director shall promptly notify the Executive Secretary of the date on which vessels subject to the jurisdiction of the United States have ceased a specialized fishery.

(d) Announcement shall also be made by publication of a notice in the FEDERAL REGISTER of the closing time and date of the first, second, and third quarters when the Director has determined, on the basis of catch data and catch rates, that the accumulative catch (landings plus discards) of yellowtail flounder in Subarea 5, in either area (east or west of 69°00W.), will equal the quarterly quota established in § 240.21(b).

§ 240.24 Gear restrictions.

(a) In Subarea 5, no person shall fish for yellowtail flounder with a net of manila or of the trade named twines, under the chemical category of polypropylene, having a mesh size of less than 5⅛ inches (130 mm.), or a trawl net or nets, parts of nets, or netting of material other than manila or polypropylene twine, unless it shall have a selectivity equivalent to that of a 5⅛ inch (130 mm.) manila net.

(b) The use in fishing for regulated species within the Regulatory area of any device or method which would have the effect of diminishing the size of said meshes or obstruct the meshes of the trawl net, is prohibited: *Provided*, That an approved chafer, described in § 240.1(d), may be used.

§ 240.25 General restrictions.

(a) Except as provided in paragraphs (a)(1) or (2) and (b) of this section, after the dates announced in the manner provided in § 240.23 for the closing of the fishing season or seasons, it shall be unlawful for any master or other person in charge of a fishing vessel to possess such regulated flatfish species in the closed Regulatory areas or to land such species taken in those areas in any port or place until the next succeeding open season.

(1) In the event of a closure of any of the first three quarters, as provided under § 240.23(d), any fishing vessel which had departed port to engage in yellowtail flounder fishing in Subarea 5 prior to the date of the closure, may continue to take and retain yellowtail flounder in the area subject to the closure for a period of time not to exceed 5 days, at which time fishing for yellowtail flounder in the closed area shall be prohibited.

(2) In the event of an annual closure as provided under § 240.23, any fishing vessel which had departed port to engage in fishing for regulated flatfish species in Subarea 5, prior to date of the closure, may continue to take and retain such species in the area subject to the closure, for a period of time not to exceed 10 days, at which time fishing in the closed area shall be prohibited. Within 24 hours after the expiration of either the 10-day or 5-day period, provided under the preceding paragraph, each such vessel much return to a port or place in the United States and the master or person in charge must immediately, on the return, notify any appropriate official of the National Marine Fisheries Service, U.S. Bureau of Customs or Coast Guard, of his arrival.

(b) Any master or person in charge of a fishing vessel which has departed port after the date of closure in Subarea 5, may take, possess on board, and land in any port or place, such regulated flatfish species as may be taken incidentally in such closed area to a fishery for nonregulated species: *Provided*, That the owner or operator of the said vessel has on board the appropriate license as required under § 240.2(a) and complies with the limitations specified in § 240.3 and the reporting requirements, where required, in § 240.4(b): *Provided further*, That nothing contained herein shall be construed to amend, modify, or repeal those portions of the regulations relating to areas closed to all demersal fishing which may be found in § 240.13(d).

(1) The provisions of this subpart shall apply to all fishing trips begun during the calendar year 1973, whether completed before January 1, 1974, or not.

Subpart D—Hake Fisheries

§ 240.30 Definitions.

(a) Unless otherwise defined herein, the terms used in this subpart will have the meanings ascribed to them in § 240.1.

(b) Regulations in this subpart will apply to silver hake, (*Merluccius bilinearis* (Mitch.)), and red hake, (*Urophycis chuss* (Walb.)).

§ 240.31 Catch quota.

(a) An annual catch limitation is placed the quantity of silver hake permitted to be taken in Division 5Y and Subdivision 5Ze and 5Zw of Subarea 5. The aggregate catch of silver hake during 1973, by persons or fishing vessels, under the jurisdiction of the United States, in each area, is as follows:

(1) The annual catch of silver hake in Division 5Y of Subarea 5, shall not exceed 9,500 metric tons.

(2) The annual catch of silver hake in Subdivision 5Ze of Subarea 5, shall not exceed 17,000 metric tons.

(3) The annual catch of silver hake in Subdivision 5Zw, shall not exceed 25,000 metric tons.

(b) An annual catch limitation is placed upon the quantity of red hake permitted to be taken in Subdivision 5Zw of Subarea 5. The aggregate catch of red hake during 1973, by persons or fishing vessels, under the jurisdiction of the United States, in each area is as follows:

(1) The annual catch of red hake in Subdivision 5Zw of Subarea 5, shall not exceed 15,000 metric tons.

§ 240.32 Open season.

(a) The open season for silver hake fishing in Division 5Y and 5Z of Subarea 5, and red hake fishing in Division 5Z of Subarea 5, shall begin at 0001 hours of the 1st day of January 1973 and terminate at a time and a date to be determined pursuant to § 240.33.

§ 240.33 Closed season and areas.

(a) The Director shall announce the closure of the season by publication of a notice in the FEDERAL REGISTER, specifying the time and date for the termination of specialized fishery for silver hake or red hake in Subarea 5.

(b) The National Marine Fisheries Service maintains records of the catches of silver hake or red hake made in each Division of Subarea 5 during the open season by vessels, under the jurisdiction of the United States, participating in the fishery.

(c) When the accumulative and estimated prospective catch of silver hake and red hake in each Division of Subarea 5, making allowance for the incidental catch for the remainder of the year, equals 100 percent of the allowable catch permitted under § 240.31, the Director shall promptly notify the Executive Secretary of the date on which its vessels have ceased a specialized fishery.

(d) It shall be unlawful for any person to conduct a specialized fishery for silver hake or red hake from 0001 hours, April 1 to 2400 hours, April 30, 1973, in the area bounded by 69°00′W., 39°50′N., 71°40′W., and 40°20′N., however, groundfish vessels may be permitted to take on each trip, during this period, in the said area, red and silver hake in amounts not to exceed 10 percent each of the total catch taken in the said area, on that trip.

§ 240.34 Gear restrictions.

There are no gear restrictions regarding fishing for silver or red hake in 1973.

§ 240.35 General restrictions.

(a) Except as provided in paragraphs (b), (c), and (d), of this section, after the dates announced in the manner provided in § 240.33(a), for the closure of

V 38 1 141
JUL 24 73
XUM

silver or red hake fishing seasons in Division 5Y or 5Z of Subarea 5, it shall be unlawful for any master or other person in charge of a fishing vessel to possess silver or red hake on board such vessel in those areas or to land silver or red hake taken in those areas in any port or place until the silver or red hake fishing season reopens on January 1 next, following the close of the season.

(b)(1) Any fishing vessel which had departed port to engage in silver or red hake fishing under the provisions of § 240.2(a), prior to the date of closure of silver or red hake fishing in either Division 5Y or 5Z of Subarea 5, may continue to take and retain silver or red hake in the Divisions for which the closure has been announced for a period of time not to exceed 5 days, at which time fishing for silver or red hake in the closed Division shall be prohibited. Within 48 hours after the expiration of the 5-day period, each such vessel must return to a port or place in the United States and the master or person in charge must immediately, on his return, notify any appropriate officer of the National Marine Fisheries Service, U.S. Bureau of Customs, or Coast Guard, of his arrival.

(2) Any master or person in charge of a fishing vessel licensed to take silver or red hake from waters of the Convention area may continue to fish after the date of closure in any Subarea or Division, the provisions of the next preceding paragraph notwithstanding, but should he elect to do so, the quantity of silver or red hake in his possession must not exceed 5,000 pounds or 10 percent (10%) by weight of all other fish on board.

(c) Any master or person in charge of a fishing vessel which has departed port after the date of closure of silver or red hake fishing in Division 5Y or 5Z of Subarea 5, may take and possess on board, and land in any port or place, such silver or red hake as may be taken incidentally to a fishery for nonregulated species: *Provided*, That the master of the said vessel has on board the appropriate license as required under § 240.2(a) and complies with the limitations specified in § 240.3 and the reporting requirements, where required, in § 240.4(b): *Provided further*, That nothing contained herein shall be construed to amend, modify, or repeal those portions of the regulations relating to areas closed to all demersal fishing, which may be found in § 240.13(d).

(d) The provisions of this subpart shall apply to all fishing trips begun during the current calendar year, whether completed before January 1, or not.

Subpart E—Pelagic Fisheries

§ 240.40 Definitions.

(a) Unless otherwise defined herein, the terms used in this Subpart will have the meanings ascribed to them in Subpart A, § 240.1.

(b) Regulations in this Subpart will apply to herring (*Clupea harengus* (L)), and mackerel (*Scomber scombrus* (L)). (L)).

§ 240.41 Catch quota.

(a) An annual catch limitation is placed upon the quantity of herring permitted to be taken in Division 5Z of Subarea 5 and in the adjacent waters to the west and south from Division 5Y of Subarea 5 and from that portion of Division 4W south of 44°52′ N. latitude and in Division 4X of Subarea 4. The catch of herring during 1973, by persons or fishing vessels under the jurisdiction of the United States, in each area, is as follows:

(1) The annual catch of herring in Division 5Z of Subarea 5 and in the adjacent waters to the west and south shall not exceed 5,250 metric tons.

(2) The annual catch of herring in Division 5Y of Subarea 5 shall not exceed 19,750 metric tons.

(3) The combined annual catch of herring by member countries in that portion of Division 4W south of 44°52′ N. latitude and in Division 4X of Subarea 4, for which specific allocations have not been assigned, shall not exceed 600 metric tons.

(b) An annual catch limitation is placed upon the quantity of mackerel permitted to be taken in Subarea 5 and in the adjacent waters to the west and south. The catch of mackerel in the above area during 1973 by persons or fishing vessels under the jurisdiction of the United States, shall not exceed 26,200 metric tons.

§ 240.42 Open season.

The open season for herring or mackerel shall begin at 0001 hours of the first day of January each year and terminate in each subarea at a time and date to be determined and announced as provided in § 240.43.

§ 240.43 Closed season and areas.

(a) The Service Director shall maintain records of the catches of herring or mackerel by fishing vessels subject to quota allocations in Subareas 4 and 5, and Statistical Area 6 during the open season. The Service Director shall announce the closure dates for herring or mackerel fishing in Divisions 5Y and 5Z of Subarea 5, when the accumulated catch and estimated catch of herring or mackerel, the quantity estimated to be taken before closure could be introduced, and the likely incidental catch for the remainder of the year, equal 100 percent of the allowable catch permitted under § 240.41. Such announcement of the season closure dates shall be made by publication of a notice in the FEDERAL REGISTER.

(b) The Executive Secretary shall maintain records of the catches by fishing vessels, of all contracting governments participating in fishing for herring, subject to quota regulations in Subarea 4, during open seasons for which specific allocations have not been assigned. The Executive Secretary shall notify the United States when the accumulated catch and estimated catch of herring in Divisions 4W and 4X of Subarea 4, the quantity estimated to be taken before closure could be introduced, and the likely incidental catch for the remainder of the year, equal 100 percent of the allowable catch permitted under § 240.41. The Service Director shall announce the closure dates for the Divisions 4W and 4X of Subarea 4, herring fishing season, within 10 days of the receipt of such notification from the Executive Secretary. Such announcement of the season closure dates shall be made by publication of a notice in the FEDERAL REGISTER.

§ 240.44 Gear restrictions.

There are no gear restrictions regarding fishing for herring or mackerel in 1973.

§ 240.45 General restrictions.

(a) Except as provided in § 240.3, and as provided below, after the date announced in manner provided in § 240.43, for the closing of the herring or mackerel fishing season, it shall be unlawful for any master or other person in charge of a fishing vessel to possess herring or mackerel taken in the closed subareas or to land herring taken in those subareas in any port or place until the next succeeding open season for herring or mackerel.

(b) In the event of an annual closure in Division 5Y or 5Z in Subarea 5, as provided in § 240.43(a), any fishing vessel, which had departed port to engage in herring or mackerel fishing in Subarea 5 prior to the date of closure, may continue to take and retain herring or mackerel in that subarea after the closure, for a period of time not to exceed 2 days, at which time fishing for herring or mackerel in the closed subarea shall be prohibited. Within 24 hours after the expiration of the 2-day period, each fishing vessel must return to a port or place in the United States, and the master or person in charge of the fishing vessel must then immediately notify an authorized official of the vessel's arrival in port.

(c) In the event of an annual closure in Division 4W or 4X in Subarea 4 as provided in § 240.43(b), any fishing vessel, which had departed port to engage in herring fishing in Subarea 4 prior to the date of closure, may continue to take and retain herring in that subarea after the closure, for a period of time not to exceed 4 days, at which time fishing for herring in the closed subarea shall be prohibited. Within 24 hours after the expiration of the 4-day period, each fishing vessel must return to a port or place in the United States, and the master or person in charge of the fishing vessel must then immediately notify an authorized official of the vessel's arrival in port.

(d) For the purposes of inspection, NMFS officials shall have reasonable access to any area on board a fishing vessel, transport, or shore facility where fish are landed, handled, stored, or processed, and to areas where fishing gear or parts of fishing gear are used, assembled, or stored.

§ 240.46 Size limits.

A size limit is placed on the length of herring permitted to be taken by persons or fishing vessels, under the jurisdiction of the United States, in those portions of Division 4W south of 44°52′N. latitude and Division 4X south of 43°50′N. latitude of Subarea 4 and in Subarea 5.

(a) The taking or possession of herring less than 9 inches (22.7 cm), measured from the tip of the snout to the end of the tail, is prohibited except as provided in paragraph (b) of this section.

(b) A person may take herring in any year, less than 9 inches (22.7 cm), measured as specified in paragraph (a) of this section: *Provided*, That the total amount taken does not exceed 10 percent by weight of all herring caught in the areas above, specified by that fishing vessel during such year.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

[20 CFR Part 404]

[Regs. 4]

FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Coverage of Employees of State and Local Governments; Establishment of Filing Dates

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 552 et seq.) that the amendments to the regulations set forth in tentative form below are proposed by the Acting Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments would provide that in certain cases where materials are received through the mail the filing date may be established up to 2 days earlier than the date of postmark. The amendments would apply to the extension of the time for States to file requests for review or additional information for consideration in review, determining the time limitation for instituting civil actions, and for the allowance of credits or refunds to States.

Prior to the final adoption of the proposed amendments to the regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, D.C. 20201, on or before August 23, 1973.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

The proposed amendments are to be issued under the authority of sections 205, 218, and 1102 of the Social Security Act as amended; 53 Stat. 1368, as amended; 64 Stat. 514, as amended; 49 Stat. 647 as amended; section 5 of Reorganization Plan No. 1 of 1953, 67 Stat. 18, 631; 42 U.S.C. 405, 418, and 1102.

(Catalog of Federal Domestic Assistance Program No. 13.803, Social Security—Retirement Insurance.)

Dated: June 22, 1973.

ARTHUR E. HESS,
Acting Commissioner of Social Security.

Approved: July 18, 1973.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

Regulations No. 4 of the Social Security Administration, as amended (20 CFR 404.1 et seq.), are further amended as follows:

1. Paragraph (a) of § 404.1272 is revised to read as follows:

§ 404.1272 Time for filing request for review.

(a) *In general.* The request for review must be filed by the State with the Secretary or his delegate within 90 days after the date of the notice to the State of the assessment, disallowance or allowance. (A revised notice indicating the correction of a mathematical error (see § 404.1270(f)) shall not be deemed to be a notice for purposes of this section.) The request for review will be deemed to be filed when it is mailed or delivered by other means to the Secretary or his delegate. Normally, the mailing date will be considered as the date of postmark on the envelope in which the request for review is mailed. However, where there is an identifiable delay in the handling of mail by the U.S. Postal Service, a mailing date may be established up to 2 days earlier than the date of postmark. If the established mailing date falls within the prescribed period, the request for review will be considered as timely filed. Where the 90-day period expires on a Saturday, Sunday, or other nonworkday as defined in § 404.3(c), a request mailed on the next following business day will be deemed to be timely filed.

* * * * *

2. Paragraph (a) of § 404.1276 is revised to read as follows:

§ 404.1276 Time for filing civil action.

(a) *In general.* Civil action for a redetermination of the assessment, disallowance or allowance shall be filed before the expiration of 2 years from the date of mailing by the Secretary to the State of the notice of the decision of the Secretary to which the action relates. Where a request for civil action is received through the mail, the filing date may be determined as defined in § 404.1272(a). Where the 2-year period expires on a Saturday, Sunday, or other nonworkday as defined in § 404.3(c), an action filed on the next following business day will be deemed to be timely filed. The date of certification, or registration of the notice of decision by the Secretary as shown on the envelope or wrapper in which such decision is mailed shall be considered as the date of mailing.

* * * * *

3. Paragraph (a) of § 404.1285 is revised to read as follows:

§ 404.1285 Time limitations on credits or refunds.

(a) *In general.* No credit or refund of an overpayment of amounts paid under an agreement pursuant to section 218 of the Act by a State shall be allowed unless a claim for such credit or refund is filed by the State with the Secretary before the expiration of the period of limitation applicable thereto. A claim for credit or refund made by a State in accordance with the applicable provisions of these regulations is deemed to have been filed with the Secretary when delivered to the Secretary or when mailed to the Secretary. Normally, the mailing date will be considered as the date of postmark on the envelope in which such request is mailed. However, where there is an identifiable delay in handling of mail by the U.S. Postal Service, a mailing date may be established up to 2 days earlier than the date of postmark. If the established mailing date falls within the prescribed period, the request for credit or refund will be considered as timely filed. Where a period of limitation expires on a Saturday, Sunday, or other nonworkday as defined in § 404.3(c), a claim filed on the next following business day will be deemed to be timely filed.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73–NE–23]

TRANSITION AREA

Notice of Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Administration Regulations so as to alter the Laconia, New Hampshire, Transition Area (38 FR 515).

Two new Standard Instrument Approach Procedures for the Laconia Municipal Airport, Laconia, New Hampshire have been established in accordance with the U.S. Standard Terminal Instrument Procedures. This revised procedure will require alteration of the Laconia, New Hampshire, 700-foot transition area in order to provide controlled airspace protection for aircraft executing this procedure.

Interested persons may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, New England

V 38-141 JUL 24 73 XUM

Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803. All communications received by August 23, 1973 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Operations, Procedures and Airspace Branch, New England Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of Regional Counsel, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Laconia, New Hampshire, proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Laconia, New Hampshire, 700-foot Transition Area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 6.5 mile radius of the center, 43° 34′ 25″N, 71° 25′ 22″W. of Laconia Municipal Airport, Laconia, New Hampshire; and within 6.5 miles northwest and 4.5 miles southeast of the 247° bearing and the 067° bearing from the Belmont NDB, 43° 32′ 09″N, 71° 32′ 09″W., extending from 11.5 miles southwest of the NDB to 5.5 miles northeast of the NDB.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c).)

Issued in Burlington, Massachusetts, on July 11, 1973.

FERRIS J. HOWLAND,
Director,
New England Region.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 180]

CERTAIN INERT INGREDIENTS IN PESTICIDE FORMULATIONS

Proposed Exemptions From Requirement of Tolerance

The Administrator of the Environmental Protection Agency has received requests to exempt certain additional inert (or occasionally active) ingredients in pesticide formulations from tolerance requirements under the provisions of section 408 of the Federal Food, Drug, and Cosmetic Act. Based on a review of the history of use and available information on the chemistry and toxicity of these substances, the Administrator finds that these substances are useful as adjuvants and, when used in accordance with good agricultural practice, will not result in a hazard to the public health.

Therefore, pursuant to provisions of the act (sec. 4408(c), (e), 68 Stat. 512, 514; 21 U.S.C. 346a(c), (e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), it is proposed that § 180.001 be amended by (1) revising the items "α-Alkyl (C_{10}–C_{18})-*omega*- • • • and "Castor oil polyoxyethylated • • •" in the table in paragraph (c), (2) transferring to the table in paragraph (c) from the table in paragraph (d) the items "Propyl p-hydroxybenzoate • • •" and "Sorbic acid • • •", (3) revising the items "Locust bean gum • • •" and "Methyl violet 2B • • •" in the table in paragraph (d), (4) revising the item "Mineral oil, U.S.P. • • •" in the table in paragraph (e), and (5) alphabetically inserting new items in the tables in paragraphs (c), (d), and (e), as follows:

§ 180.1001 Exemptions from the requirement of a tolerance.

• • • • • •

(c) • • •

Inert ingredients	Limits	Uses
• • •	• • •	• • •
α-Alkyl (C_{12}–C_{15})-*omega*-hydroxypoly(oxyethylene); the poly(oxyethylene) content averages 3–30 moles.	----------	Surfactants, related adjuvants of surfactants.
• • •	• • •	• • •
Ammonium carbamate.	----------	Synergist in aluminum phosphide formulations.
• • •	• • •	• • •
Castor oil, polyoxyethylated; the poly(oxyethylene) content averages 30–54 moles.	----------	Surfactants, related adjuvants of surfactants.
• • •	• • •	• • •
Methyl esters of higher fatty acids conforming to Title 21, §121.224.	----------	Antidusting agent.
• • •	• • •	• • •
Polyglycerol esters of fatty acids conforming to Title 21, §121.1120.	----------	Surfactants, related adjuvants of surfactants.
• • •	• • •	• • •
Propyl p-hydroxybenzoate.	----------	Preservative for formulations.
• • •	• • •	• • •
Sodium dibutylnaphthalenesulfonate.	----------	Surfactant, related adjuvants of surfactants.
• • •	• • •	• • •
Sodium isopropylisohexylnaphthalenesulfonate.	----------	Do.
• • •	• • •	• • •
Sorbic acid (and potassium salt).	----------	Preservative for formulations.
• • •	• • •	• • •
Sucrose octaacetate.	----------	Adhesive.
• • •	• • •	• • •

(d) • • •

Inert ingredients	Limits	Uses
• • •	• • •	• • •
Aluminum 2-ethylhexanoate.	Not more than 0.25% of pesticide formulation.	Gelling agent.
• • •	• • •	• • •
N,N-Bis[α-ethyl-*omega*-hydroxypoly(oxyethylene)] alkylamine; the poly(oxyethylene) content averages 3 moles; the alkyl groups (C_{12}–C_{15}) are derived from tallow, or from soybean or cottonseed oil acids.	----------	Surfactant for preemergence use with herbicides on sugarcane only.
• • •	• • •	• • •
Dodecylphenol	Not more than 0.6% of pesticide formulations.	Coupling agent in emulsifier.
• • •	• • •	• • •
Locust bean gum	----------	Adhesive, component of defoamers.
Maleic acid and maleic anhydride.	For pesticide formulations applied to apples with a minimum preharvest interval of 21 days.	Stabilizer.
• • •	• • •	• • •
Methyl isoamyl ketone.	----------	Solvent, cosolvent.
• • •	• • •	• • •
Methyl violet 2B	Not more than 0.02% of pesticide formulation.	Dye.
• • •	• • •	• • •
Oleic acid diester of α-Hydro-*omega*-hydroxypoly(oxyethylene); the poly(oxyethylene) molecular weight averages 2300.	----------	Surfactant.
• • •	• • •	• • •
Polyvinyl alcohol	Not more than 1% of pesticide formulation.	Binder; water soluble bag-container or film-tape for encapsulating seeds.
• • •	• • •	• • •
Sodium polyflavinoid sulfonate, consisting chiefly of the copolymer of catechin and leucocyanidin.	----------	Sunscreen agent for viral insecticides for use on cotton.
• • •	• • •	• • •
α-[p-(1,1,3,3-Tetramethylbutyl) phenyl]-*omega*-hydroxypoly-(oxyethylene) mixture of dihydrogen phosphate and monohydrogen phosphate esters and the corresponding sodium salts of the phosphate esters; the poly(oxyethylene) content averages 6 to 10 moles.	----------	Surfactants, related adjuvants of surfactants.
• • •	• • •	• • •

Iner ingredients	Limits	Uses
Tri-*tert*-butylphenol polyglycol ether (molecular weight 746).	----------	Surfactant for formulations used before corp emerges from soil.
• • •	• • •	• • •

(e) • • •

Inert ingredients	Limits	Uses
• • •	• • •	• • •
α-Alkyl (C_{12}–C_{15})-*omega*-hydroxypoly-(oxyethylene); the poly(oxyethylene) content averages 3–20 moles.	----------	Surfactants, related adjuvants of surfactants.
• • •	• • •	• • •
n-Butanol	----------	Solvent for blended emulsifiers.
• • •	• • •	• • •
Caster oil, polyoxyethylated; the poly(oxyethylene) content averages 30–54 moles.	----------	Surfactants, related adjuvants of surfactants.
• • •	• • •	• • •
3,6-Dimethyl-4-octyne-3,6-diol.	Not more than 2.5% of pesticide formulation.	Surfactants, related adjuvants of surfactants.
α-(o,p-Dinonylphenyl)-*omega*-hydroxypoly(oxyethylene), produced by the condensation of 1 mole of dinonylphenol (nonyl group is a propylene trimer isomer) with an average of 4–14 moles of ethylene oxide.	----------	Do.
• • •	• • •	• • •
α-(o,p-Dinonylphenyl)-*omega*-hydroxypoly(oxyethylene) mixture of dihydrogen phosphate and monohydrogen phosphate esters and the corresponding ammonium calcium, magnesium, monoethanolamine, potassium, sodium and zinc salts of the phosphate esters; the nonyl group is a propylene trimer isomer and the poly(oxyethylene) content averages 4–14 moles.	----------	Surfactants, related adjuvants of surfactants.
2-Ethyl-1-hexanol	Not more than 2.5% of pesticide formulation.	Solvent, adjuvant of surfactants.
• • •	• • •	• • •
α-Hydro-*omega*-hydropoly(oxypropylene); molecular weight 2,000.	----------	Surfactants, related adjuvants of surfactants.
• • •	• • •	• • •
Lignosulfonate; ammonium, calcium, magnesium, potassium, sodium, and zinc salts.	----------	Surfactants, related adjuvants of surfactants.
• • •	• • •	• • •
Methyl esters of higher fatty acids conforming to Title 21, § 121.224.	----------	Antidusting agent.
Mineral oil, U.S.P., or conforming to Title 21, § 121.1146 or § 121.2589(a), (b).	----------	Solvent, diluent.
• • •	• • •	• • •

Inert ingredients	Limits	Uses
α-(p-Nonylphenyl)-*omega*-hydroxypoly(oxyethylene) mixture of dihydrogen phosphate and monohydrogen phosphate esters and the corresponding ammonium, calcium, magnesium, monoethanolamine, potassium, sodium and zinc salts of the phosphate esters; the nonyl group is a propylene trimer isomer and the poly(oxyethylene) content averages 4–14 moles.	----------	Surfactants, related adjuvants of surfactants.
α-(p-Nonylphenyl)-*omega*-hydroxypoly(oxyethylene) produced by the condensation of 1 mole of nonylphenol (nonyl group is a propylene trimer isomer) with an average of 15 moles of ethylene oxide.	----------	Do.
• • •	• • •	• • •
Polyglycerol esters of fatty acids, conforming to Title 21, §121.1120.	----------	Surfactants, related adjuvants of surfactants.
• • •	• • •	• • •
n-Propanol	----------	Solvent, for blended emulsifiers.
• • •	• • •	• • •
Sodium dibutylnaphthalenesulfonate.	----------	Surfactants, related adjuvants of surfactants.
Sodium isopropylisohexylnaphthalenesulfonate.	----------	Do.
• • •	• • •	• • •
Sodium monoalkyl and dialkyl (C_7–C_{12}) phenoxybenzenedisulfonate mixtures containing not less than 70% of the monoalkylated product.	----------	Surfactants, related adjuvants of surfactants.
• • •	• • •	• • •
2,4,7,9-Tetramethyl-5-decyne-4,7-diol.	Not more than 25% of pesticide formulation.	Surfactants, related adjuvants of surfactants.
• • •	• • •	• • •
Tri-*tert*-butylphenol polyglycol ether (molecular weight 746).	----------	Dispersing agent.
1,1,1-Trichlorethane	Not more than 25% of pesticide formulation.	Solvent, cosolvent.
• • •	• • •	• • •
Urea	----------	Stabilizer, inhibitor.
• • •	• • •	• • •

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, on or before August 23, 1973, that this proposal be referred to an advisory committee in accordance with section 408 (e) of the act.

Interested persons may, on or before August 23, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets, S.W., Waterside Mall, Washington, D.C. 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. All written submissions made pursuant to this proposal will be made available for public inspection at the office of the Hearing Clerk.

Dated: July 18, 1973.

HENRY J. KORP,
Deputy Assistant Administrator
for Pesticide Programs.

[FR Doc.73-15050 Filed 7-23-73;8:45 am]

[40 CFR Part 167]

PESTICIDE ESTABLISHMENT REGISTRATION, LABELING, AND REPORTING

Notice of Proposed Rule Making

Notice is hereby given, pursuant to the authority of Sections 7 and 25 of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (86 Stat. 973–999), that it is proposed to issue a new Part 167 of Title 40, Code of Federal Regulations, to read as set forth below. Any person may file comments on this proposal within thirty (30) days from the date of publication of this notice in the Federal Register. Such comments should be filed in duplicate and addressed to the Pesticides Enforcement Division, Establishment Registration Section, Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460. All written submissions filed pursuant to this notice will be available for public inspection at the Office of the Hearing Clerk during regular business hours, 8:00–4:30 daily.

Section 7 requires that all establishments in which pesticides, as defined by this Act, and those devices specified by the Administrator pursuant to section 25(c), are produced must be registered with the Administrator, and that all producers submit within thirty days of registration, an annually thereafter, production, sales, and distribution reports. Section 2(q)(1)(D) provides that a pesticide is misbranded if its label does not bear the registration number assigned to the establishment in which it was produced. The regulations proposed herein set forth the procedures to be followed to comply with the provisions of these sections.

The term "establishment" is defined so as to include any site involved in the production of a pesticide. The term "establishment" applies to all domestic sites, including those producing pesticides for export, and foreign sites whose pesticides are imported into the United States. Foreign establishments are included in view of the fact that all pesticides distributed or sold in this country must bear an assigned establishment number. The scope of the term "production" covers the manufacture of technical material; the formulation and reformulation of pesticidal material, including

V 38 141 JUL 24 73 XUM

pesticides produced under an Experimental Use Permit and pesticides used in custom blending; and the repackaging of any pesticide product. However, because pesticide applicators are subject to section 4 and are regulated by the certification provisions, registration of their establishments under section 7 is not deemed necessary at this time. If, however, the pesticide applicator mixes and sells a product for use by others, he becomes a producer and his establishment is subject to this section.

The dates and procedure for applying for establishment registration are proposed in § 167.2 (b), (c), and (d). Although establishments that produce pesticides solely for intrastate commerce are not subject to this Act until two years after enactment, the Agency requests that such establishments make application for establishment registration at any time prior to the required date of submission. Early registration would not require submission of the required reports within thirty days or the establishment number to appear on labels until six months after intrastate establishments are required to be registered.

It should be noted that, although registration is required to engage in pesticide production, registration of the establishment in which a pesticide is produced does not imply that the holder of the registration is in any way qualified to engaged in such activities, nor does it denote Agency approval of the establishment or its products.

Section 167.3 *Duration of Registration*, states that registration remains effective provided the pesticides reports are submitted as required.

Section 167.4 deals with the requirement that each pesticide label must bear the number assigned to the establishment in which it was produced. Because of the difficulty, in many cases, of affixing the number to the actual label, it is proposed that establishments be permitted to place the number, preceded by "EPA Est.", in any location on the label or immediate exterior of the container: provided, however, that it must also appear on the outside container or wrapper of the package if there be one through which the EPA Establishment Number on the immediate container cannot be clearly read. The proposed dates for requiring products to bear this number are believed to provide the industry sufficient time within which to comply.

The terms pertinent to production, sales, and distribution reporting are dealt with in §§ 167.1 and 167.5. It is believed that the submission dates recommended provide the industry sufficient time in which to compile the data.

Dated: July 18, 1973.

JOHN QUARLES,
For Acting Administrator.

PART 167—REGISTRATION OF PESTICIDE-PRODUCING ESTABLISHMENTS, SUBMISSION OF PESTICIDES REPORTS, AND LABELING

Sec.
167.1 Definitions.
167.2 Registration procedures.
167.3 Duration of registration.
167.4 Labeling requirements.
167.5 Pesticides reports.

AUTHORITY: Secs. 7 and 25 of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (86 Stat. 973–999).

§ 167.1 Definitions.

Terms used in this part shall have the meanings set forth for such terms in the Act. In addition, as used in this part, the following terms shall have the meanings stated below:

(a) *Act.* As used in this part, the term "Act" means the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (86 Stat. 973–999).

(b) *Establishment.* The term "establishment", for purposes of this part, means each site where a pesticide, as defined by this Act, or a device determined by the Administrator to be subject to any provisions of Section 7, is produced, regardless of whether such site it independently owned or operated and regardless of whether such site is domestic and producing any pesticide or device for export only or whether the site is foreign and producing any pesticide or device for import into the United States.

(c) *Produce.* The term "produce" means to manufacture, prepare, propagate, compound, or process any pesticide, including any pesticide produced pursuant to section 5, or device, or to repackage or otherwise change the container of any pesticide or device.

(d) *Producer.* The term "producer" means any person, as defined by the Act, who produces any pesticide or device.

(e) *Pesticides report.* The term "pesticides report" means information showing the types and amounts of pesticides or devices which are being produced in the current calendar year, have been produced in the past calender year, and which have been sold or distributed in the past calendar year.

(f) *Current production.* The term "current production" means volume of planned production in the calendar year in which the pesticides report is submitted, including new products not previously sold or distributed.

(g) *Past year.* The term "past year" means the calendar year immediately prior to that in which the report is submitted.

(h) *Sold or distributed.* The term "sold or distributed" means those products sold or distributed in channels of trade by the establishment in which the pesticide or device was produced.

(i) *Type of pesticide.* The term "type of pesticide" refers to the formulation of each individual product as identified by the product name; EPA Registration Number (permit number if the pesticide is produced under an Experimental Use Permit); production type (technical, formulation, reformulation, repackaging, etc.); and class (fungicide, insecticide, herbicide, etc.), except where such pesticide is produced for export only, in which case the term shall include the product name and chemical formulation. For planned products, the term means proposed product name and EPA File Symbol, if any.

(j) *Amount of pesticide.* The term "amount of pesticide" means quantity, or volume of the formulation, and is to be expressed in pounds for solid or semi-solid products and gallons for liquid products.

(k) *Device.* The term "device" means any device or class of devices as defined by the Act and determined by the Administrator pursuant to section 25(c) to be subject to the provisions of section 7 of the Act.

§ 167.2 Registration procedures.

(a) *Who must register.* All establishments, as defined in this part, which manufacture, prepare, compound, propagate or process any pesticide or device or repackage or otherwise change the container of a pesticide or device, subject to the provisions of this section must be registered pursuant to the requirements of these regulations: *Provided, however,* That those persons who produce pesticides solely for application by themselves are not required to be registered.

(b) *Information required.* Application for registration, to be made on the EPA Application for Registration of Pesticide-Producing Establishment form, requires the name and address of the company; the type of ownership (individual, partnership, cooperative association, corporation, or any organized group of persons whether incorporated or not); and the name and address of the producing establishment. Applications are obtainable on request from the Environmental Protection Agency, Pesticides Enforcement Division, Washington, D.C. 20460 or from one of the EPA Regional Offices. Addresses of the Regional Offices may be obtained from the Environmental Protection Agency, Washington, D.C. 20460.

(c) *Submission of application.* The completed application shall be submitted to the Regional Office having jurisdiction over the State in which the headquarters of the company is located, provided, however, that foreign companies shall submit their applications to the Environmental Protection Agency, Pesticides Enforcement Division, Washington, D.C. 20460 U.S.A.

(d) *Times for registration.* Applications for registration of all establishments producing pesticides or devices distributed in interstate commerce, or produced for export, or imported into the United States must be submitted by December 24, 1973. Applications for registration of all establishments producing solely for intrastate commerce must be submitted by October 21, 1974.

(e) *Notification of establishment registration number.* The Agency will provide to the company a validated copy of the EPA Application for Registration of Pesticide-Producing Establishment containing the registration number assigned to each establishment registered in accordance with these regulations.

(f) *Amendments to registration.* Any changes in type of ownership or address shall be submitted on the EPA Amendment to Registration of Pesticide-Producing Establishment form within five days of such changes to the appropriate Regional Office of the Agency.

§ 167.3 Duration of registration.

Establishment registration will remain effective provided annual pesticides reports are submitted on a timely basis pursuant to this section. Failure to submit a report may result in termination of establishment registration.

§ 167.4 Labeling requirements.

(a) *Placement.* For purposes of this part, the Establishment Registration Number may appear in any location on the label or immediate container and must also appear on the outside container or wrapper of the package if there be one through which the EPA Establishment Registration Number on the immediate container cannot be clearly read.

(b) *Designation.* The Establishment Registration Number shall be preceded by "EPA Est."

(c) *Deadline for labeling.* Those products produced by establishments whose applications are due by December 24, 1973, must bear the EPA Establishment Registration Number by October 21, 1974. Products produced by those establishments whose applications are due by October 21, 1974, must bear the Establishment Registration Number within six months of registration. New products and products of those establishments entering into pesticides production for the first time must bear the Establishment Registration Number from the outset of production.

§ 167.5 Pesticides reports.

(a) *Information required.* The pesticides report, to be submitted on the EPA Pesticides Report form, shall include the name and address of the establishment; the types of pesticides produced (identified by EPA product registration number, permit number, or EPA File Symbol; product name; class; and production type); the past year's volume of production, sales, and distribution of each product; and the planned volume of production of each product for the current year. This report does not cover those pesticides or devices sold or distributed but not produced by the reporting establishment. Reports submitted by foreign producers shall cover those pesticide products or devices exported to the United States.

(b) *Submission of report.* All reports shall be submitted to the Regional Office having jurisdiction over the State in which the establishment is located. Reports from foreign establishments shall be submitted to the Environmental Protection Agency, Pesticides Enforcement Division, Washington, D.C. 20460, U.S.A.

(c) *When to report.* Within 30 days of notification of registration of an establishment the producer of the establishment shall file with the Agency a pesticides report. Thereafter reports are required to be filed on or before February 1 of each year.

(d) *Confidentiality of information.* Any information submitted in the pesticides report shall be considered confidential and subject to the provisions of section 10.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 19690]

FM BROADCAST STATIONS IN LOUISIANA

Proposed Table of Assignments; Extension of Time for Filing Comments

In the matter of amendment of § 73.202(b), *Table of Assignments*, FM Broadcast Stations. (Wilmington, Ill.; *Many, La.;* Moyock, N.C.; Lake Providence, La.; Newton, Miss.; Bay Springs, Miss.; York, Ala.; Rehoboth Beach, Del.; Canton, Tex.; Brandon, Miss.; Southport, N.C.; Harrison, Mich.; Greenfield, Mo.; Belhaven, N.C.; *Ruston, La.; Shreveport, La.;* and Bethany Beach, Del.), Docket No. 19690, RM–2003, RM–2059, *RM–2027*, RM–2062, RM–2046, RM–2068, RM–2051, RM–2085, RM–2054, RM–2097, RM–2057, RM–2098, RM–2058, RM–2100, *RM–2144, RM–2002*, RM–2160.

1. On May 16, 1973, a further notice of proposed rulemaking was adopted in the above-captioned proceeding. Publication was given in the FEDERAL REGISTER on May 24, 1973, 38 FR 13658. The date for filing reply comments is presently July 24, 1973.

2. Counsel for Ruston Broadcasting Company, Inc., on July 12, 1973, filed a request for additional time in which to file reply comments, to and including August 7, 1973. Counsel states that the requested extension is necessary in order to complete the preparation of replies to pleadings filed by other parties in this proceeding.

3. We feel that the additional time is warranted and would serve the public interest. *Therefore, it is ordered,* That the time for filing reply comments in this proceeding is extended to and including August 7, 1973.

4. This action is taken pursuant to authority found in sections 4(i) and 303 (r) of the Communications Act of 1934, as amended, and § 0.281(d)(8) of the Commission's rules and regulations.

Adopted: July 13, 1973.

Released: July 16, 1973.

[SEAL] HAROLD L. KASSENS,
Acting Chief,
Broadcast Bureau.

Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Office of the Secretary

ELEMENTAL SULPHUR FROM CANADA

Antidumping; Determination of Sales at Less Than Fair Value

JULY 20, 1973.

Information was received on January 21, 1972, that sulphur from Canada was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 *et seq.*) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER on February 24, 1972, on page 3922. An amendment to this notice was published in the FEDERAL REGISTER of April 19, 1972, on pages 7717 and 7718, for the purpose of restricting the application of the notice to elemental sulphur from Canada.

A "Withholding of Appraisement Notice" was published in the FEDERAL REGISTER of April 23, 1973 (38 FR 10026).

I hereby determine that for the reasons stated below, elemental sulphur from Canada is being, or is likely to be, sold at less than fair value within the meaning of section 201(a) of the Act (19 U.S.C. 160(a)).

Statement of reasons on which this determination is based. The information before the Bureau of Customs reveals that the proper basis of comparison for fair value purposes is between purchase price or exporter's sales price, as applicable, and the adjusted home market price of such or similar merchandise.

Purchase price was calculated on the delivered buyer's plant price or f.o.b. seller's plant price, as appropriate. Deductions were made for United States and Canadian freight and related charges, brokerage charges, car heel allowances, plant conversion costs and discounts, as appropriate.

Exporter's sales price was calculated on the basis of a delivered United States customer's premises price with deductions for United States and Canadian freight charges, brokerage expenses and selling expenses.

The adjusted home market price was based on the delivered buyer's plant price or f.o.b. seller's plant price of such or similar merchandise sold in Canada with deductions for Canadian freight and related charges, plant conversion costs, car heel allowances and discounts, as appropriate. Adjustments were made for differences in commissions and selling expenses, as appropriate.

Using the above criteria, purchase price and exporter's sales price were found to be lower than the adjusted home market price of such or similar merchandise.

Elemental sulphur produced and sold by Texasgulf Inc. (formerly Texas Gulf Inc.) and Canadian Occidental Petroleum Ltd., is excluded from the withholding of appraisement ordered in this case and this determination of sales at less than fair value since 100 percent of the export sales to the United States by both companies during the period under consideration were examined and the adjusted home market prices of each company were found to be lower than the appropriate purchase price in every instance.

The United States Tariff Commission is being advised of this determination.

This determination is being published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)).

[SEAL] EDWARD L. MORGAN,
Assistant Secretary for Enforcement, Tariff and Trade Affairs, and Operations.

[FR Doc.73-15245 Filed 7-23-73;8:45 am]

Office of the Secretary

DEPARTMENT OF DEFENSE WAGE COMMITTEE

Notice of Closed Meetings

Pursuant to the provisions of section 10 of Public Law 92-463, effective January 5, 1973, notice is hereby given that meetings of the Department of Defense Wage Committee will be held on:

Tuesday, August 7, 1973
Tuesday, August 14, 1973
Tuesday, August 21, 1973
Tuesday, August 28, 1973

These meetings will convene at 9:30 a.m. and will be held in Room 1E-801, The Pentagon, Washington, D.C.

The Committee's primary responsibility is to consider and make recommendations to the Assistant Secretary of Defense (Manpower and Reserve Affairs) on all matters involved in the development and authorization of wage schedules for Federal prevailing rate employees pursuant to Public Law 92-392.

At these scheduled meetings, the Committee will consider wage survey specifications, wage survey data, local reports and recommendations, statistical analyses and proposed pay schedules derived therefrom.

Under the provisions of section 10(d) of Public Law 92-463 and 5 USC 552(b)(2) and (4), the Assistant Secretary of Defense (Manpower and Reserve Affairs) has determined that these meetings will be closed to the public.

However, members of the public who may wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the Committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Department of Defense Wage Committee, Room 3D-281, The Pentagon, Washington, D. C.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Comptroller).

INDUSTRY ADVISORY COMMITTEE ON MARITIME POLICY

Cancellation and Notice of Meeting

Reference FR Doc. 73-14402, appearing at page 18916 in the issue for Monday, July 16, 1973, the meeting of the Industry Advisory Committee on Maritime Policy scheduled for July 25, 1973, is cancelled.

Pursuant to the Federal Advisory Committee Act (Public Law 92-463) notice is hereby given that the Industry Advisory Committee on Maritime Policy will meet in open session at 9:30 am, on August 7, 1973, in Room IE 801, Pentagon, Washington, D.C. 20301.

The meeting will be devoted to a discussion of the quantitative justification for and structure of an ocean cargo allocation system.

With respect to public participation the following requirements shall apply:

(a) Individuals desiring to submit written statements may do so by mailing ten copies thereof no later than July 30, 1973, if possible, to the Recorder, Industry Advisory Committee on Maritime Policy, Office of the Assistant Secretary of Defense (Installations and Logistics), Washington, D.C. 20301. The minutes will be kept open for ten days for the receipt of written statements for the record.

(b) Those individuals submitting a written statement in accordance with (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement.

(c) Requests for the purpose of making an oral statement shall be ruled on by the Chairman of the Committee who is empowered to apportion the time available during a period of not more than 30 minutes between 11 a.m. and 12 Noon. Information concerning the Chairman's ruling on requests for the opportunity to make an oral statement can be obtained by a prepaid telephone call to the Recorder of the Committee (202-697-1903) between 9 a.m. and 5 p.m. Eastern Time, on August 3, 1973.

(d) Questions may be asked only by members of the Committee and staff.

(e) Seating for the public is limited and will be available on a first-come-first-served basis. Because of building security requirements, anyone wishing to attend the meeting must advise the Recorder of the Committee in advance of the meeting at telephone 202-697-1903.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Comptroller).

DEPARTMENT OF THE INTERIOR

National Park Service

AMISTAD RECREATION AREA

Notice of Intention To Issue Concession Permits

Pursuant to the provisions of section 5, of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on September 1, 1973, the Department of the Interior, through the Superintendent, Amistad Recreation Area, proposes to issue concession permits in the name of Gus Carey, Del Rio, Tx.; in the name of David Crawley, Del Rio, Tx.; in the name of W. P. Fisher, Del Rio, Tx.; in the name of Glenn McGonagill, Del Rio, Tx.; in the name of Charles E. Morgan, Del Rio, Tx.; in the name of Joe R. Morgan, Del Rio, Tx.; in the name of Jerry L. Rust, Del Rio, Tx., and Jack Skipworth, Del Rio, Tx., authorizing them to provide fishing guide service for the public at Amistad Recreation Area for the period September 1, 1973 through August 31, 1977.

The foregoing concessioners have performed their obligations under existing permits to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, are entitled to be given preference in the issuance of new permits. However, under the Act cited above, the National Park Service is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before August 31, 1973.

Interested parties should contact the Superintendent, Amistad Recreation Area, Post Office Box 1463, Del Rio, Texas 78840, for information as to the requirements of the proposed permits.

Dated: June 26, 1973.

COLEMAN C. NEWMAN,
Superintendent, Amistad Recreation Area.

HONOKOHAU STUDY ADVISORY COMMISSION

Notice of Meetings

Notice is hereby given in accordance with the Federal Advisory Committee Act that meetings of the Honokohau Study Advisory Commission will be held on July 28, 1973, on the Island of Maui, August 4, 1973, on the Island of Kauai, and August 11, 1973, on the Island of Molokai.

The purpose of the Honokohau Study Advisory Commission is to provide advice to the Secretary of the Interior on matters relating to the making of a study of the feasibility and desirability of establishing as a part of the National Park System an area comprising the site of Honokohau National Historic Landmark.

The members of the Commission are as follows:

Colonel Arthur Chun, Kailua-Kona (Chairman); Rev. Henry K. Boshard, Kailua-Kona; Ms. Nani Mary Bowman, Honolulu; Mr. Fred Cachola, Waianae; Mr. Alika Cooper, Hilo; Dr. Kenneth P. Emory, Honolulu; Mr. Homer K. Hayes, Honolulu; Mr. Kwai Wah Lee, Hilo; Ms. Iolani Luahine, Kailua-Kona; Mr. George Naope, Hilo; Mrs. Abbie Napeahi, Hilo; Mr. George Pinehaka, Honaunau Kona; Mr. David K. Roy, Kailua-Kona; Mr. Philipo Springer, Holualoa; and Mrs. Emily Kaai Thomas, Honolulu.

The matters to be considered at these meetings are:

1. Review of basic data gathered to date;
2. Review of outline of report;
3. Gathering of supplemental data and ideas from interested persons, agencies, and organizations;
4. Inspection of comparative areas which afford insight into Hawaiian cultural practices and resource uses, and park plans.

The first meeting will be held from 9:00 a.m. to 1:00 p.m., July 28, in the Kahului Library, Kahului, Maui, Hawaii. On July 29 the Commission will inspect the Seven Pools section of Haleakala National Park.

The second meeting will be held from 8:00 a.m. to noon, August 4, in the Lihue Library, Lihue, Kauai, Hawaii. On August 5, the Commission will inspect park areas involving elements of Hawaiian culture on Kauai.

The third meeting will be held from 9:00 a.m. to 1:00 p.m., August 11, in the Molokai Community Center, Kaunakakai, Molokai, Hawaii. On August 12 the Commission will inspect fishponds and other Hawaiian cultural elements on Molokai.

The meetings will be open to the public, and participation is encouraged. Transportation will not be provided for members of the public for the field inspections. However, members of the public may participate in these inspections by providing their own transportation. Any person may file with the Commission a written statement concerning the matters to be discussed.

Persons wishing further information concerning the meetings, or who wish to submit written statements, may contact Robert L. Barrel, State Director, Hawaii, National Park Service, 677 Ala Moana Boulevard, Suite 512, Honolulu, Hawaii 96813.

Minutes of the meetings will be available for public inspection four weeks after each meeting at the Office of the State Director, Hawaii, and the Director, Western Region, National Park Service, 450 Golden Gate Avenue, San Francisco, California 94102.

Date: July 16, 1973.

STANLEY W. HULETT,
Associate Director, National Park Service.

Office of the Secretary

JUNEAU AREA

Change of Agency Jurisdictions

This notice is published in exercise of the authority delegated by the Secretary of the Interior to the Assistant to the Secretary for Indian Affairs in Amendment 2 to Secretarial Order 2950.

By village resolution, certain Alaska Native villages have requested to be transferred from the jurisdiction of one Bureau of Indian Affairs' Agency to another in order to conform to the boundaries of the Regional Corporations. Therefore, effective July 1, 1973, the following villages are hereby transferred from the Bethel Agency to the Fairbanks Agency:

1. Anvik
2. Grayling
3. Shageluk
4. Holy Cross
5. McGrath
6. Nikolai
7. Medfra
8. Telida
9. Takotna

Also effective July 1, 1973, the Alaska Native village of Mentasta is hereby transferred from the Fairbanks Agency to the Anchorage Agency.

This notice revises any previous notices concerning the jurisdictions of

V 38-141 JUL 24 73 XUM

Agencies under the Juneau Area Office of the Bureau of Indian Affairs.

WILLIAM L. ROGERS,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Forest Service

GUNNISON NATIONAL FOREST AND GRAND MESA-UNCOMPAHGRE NATIONAL FORESTS MULTIPLE USE ADVISORY COMMITTEES

Notice of Meeting

The Gunnison National Forest and Grand Mesa-Uncompahgre National Forests Multiple Use Advisory Committees will meet at 9:00 a.m., August 4, 1973 at the Forest Service office at 216 North Colorado, Gunnison, Colorado for the beginning of a two-day summer field trip.

The purpose of this summer trip is to make an on-the-ground review of land use planning and related activities in the vicinity of Crested Butte.

The meeting will be open to the public. Persons who wish to attend should notify Forest Supervisor John T. Minow, P.O. Box 138, Delta, Colorado 81416 (Phone 303-874-4411). Written statements may be filed with the committee before or after the meeting.

The committee has established the following rules for public participation:

1. A member of the public wishing to attend and participate in the summer field trip should notify Forest Supervisor John T. Minow at least five days prior to the trip.

2. Any member of the public may be permitted to participate and present oral statements during the field trip by the committee chairman to the extent that time permits.

Dated: July 16, 1973.

JOHN T. MINOW,
Forest Supervisor, Grand Mesa-Uncompahgre National Forests, Acting Forest Supervisor Gunnison National Forest.

[FR Doc.73-15072 Filed 7-23-73;8:45 am]

DEPARTMENT OF COMMERCE

Domestic and International Business Administration Bureau of East-West Trade

COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

Notice of Meeting

The Computer Systems Technical Advisory Committee of the U.S. Department of Commerce will meet August 1, 1973, at 9:30 a.m. in Room 6802 of the Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

Members advise the Office of Export Control, Bureau of East-West Trade, with respect to questions involving technical matters, worldwide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to computer systems, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

Agenda items are as follows:

1. Comments on minutes of previous meeting.
2. Presentation of papers or comments by the public.
3. Report on the work program.
4. Discussion of other necessary work assignments.
5. Executive Session:
   Discussion of, and progress report on, the work program:
   a. Foreign availability
   b. Performance characteristics
   c. Safeguards
6. Adjournment.

The Computer Systems Technical Advisory Committee was established January 3, 1973, and consists of technical experts from a representative cross-section of the industry in the United States and officials representing various agencies of the U.S. Government. The industry members are appointed by the Assistant Secretary for Domestic and International Business to serve a two-year term.

The public will be permitted to attend the discussion of agenda items 1-4, and a limited number of seats—approximately 25—will be available to the public for these agenda items. To the extent time permits, members of the public may present oral statements to the committee. Interested persons are also invited to file written statements with the committee.

With respect to agenda item (5), "Executive Session," the Assistant Secretary of Commerce for Administration, on July 17, 1973, determined, pursuant to section 10(d) of P.L. 92-463, that this agenda item should be exempt from the provision of sections 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the meeting will be concerned with matters listed in 5 USC 552(b)(1).

Further information may be obtained from Rauer H. Meyer, Director, Office of Export Control, Room 1886C, U.S. Department of Commerce, Washington, D.C. 20230 (AC 202 + 967-4293).

Minutes of those portions of the meeting which are open to the public will be available 30 days from the date of the meeting upon written request addressed to: Central Reference and Records Inspection Facility, U.S. Department of Commerce, Washington, D.C. 20230.

Dated: July 19, 1973.

STEVEN LAZARUS,
Deputy Assistant Secretary for East-West Trade, U.S. Department of Commerce.

[Docket No. S-371]

OPERATING-DIFFERENTIAL SUBSIDY FOR CARRIAGE OF BULK CARGO PRINCIPALLY BETWEEN THE U.S. AND U.S.S.R.

Notice of Multiple Applications

Notice is hereby given that the corporations listed in Appendix A have filed applications for extension of operating-differential subsidy contracts to carry bulk cargoes to expire on December 31, 1973 (unless extended only for subsidized voyages in progress on that date). The bulk cargo carrying vessels proposed to be subsidized and a description of each of such vessels are also presented in Appendix A.

Said applications may be inspected in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, U.S. Department of Commerce, Washington, D.C., during regular working hours.

These vessels are to engage in the carriage of export bulk, raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the United States to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Liquid and dry bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk, raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.-U.S.S.R. export bulk, raw and processed agricultural commodities subsidy program, including terms, conditions, and restrictions upon both the subsidized operators and vessels, appear in the regulations published in the FEDERAL REGISTER on November 16, 1972 (37 FR 24349).

For purposes of section 605(c), Merchant Marine Act, 1936, as amended (Act), it should be assumed that each vessel named will engage in the trades described on a full-time basis through December 31, 1973 (with extension to termination of approved subsidized voyages in progress on that date). Each voyage must be approved for subsidy before commencement of the voyage. The Maritime Subsidy Board (Board) will act on each request for a subsidized voyage as an administrative matter under the terms of the individual operating-differential subsidy contract for which there is no requirement for further notices under section 605(c) of the Act.

The Board has previously found during fiscal year 1973, that section 605(c) was no bar to the grant of operating-differential subsidy to each of the applicants listed in Appendix A.

Any person having an interest in the granting of one or any of such applications and who would contest a finding of the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes as previously specified is inadequate, must, on or before July 30, 1973, notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing. Further, each such statement shall identify the applicant or applicants against which the intervention is lodged.

In the event requests for hearing and petitions regarding the relevant section 605(c) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled commencing at 10 a.m., July 31, 1973, and continuing on succeeding business days if required, in Room 4896, Department of Commerce Building, 14th and E Streets, NW., Washington, D.C. 20235. The purpose of the hearing will be to receive evidence relevant to (1) whether the application(s) hereinabove described is one with respect to vessels to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon. Evidence concerning each application will be heard in the order in which applicants are listed in Appendix A.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

Dated: July 20, 1973.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

[Docket No. S-372]

OPERATING-DIFFERENTIAL SUBSIDY FOR CARRIAGE OF BULK CARGO PRINCIPALLY BETWEEN THE U.S. AND U.S.S.R.

Notice of Multiple Applications

Notice is hereby given that applications have been filed under the Merchant Marine Act of 1936, as amended, for extension of operating-differential subsidy with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on December 31, 1973 (unless extended only for subsidized voyages in progress on that date). Inasmuch as the applicants listed in Appendix A and/or related persons or firms, employ ships in the domestic intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required for each such applicant if its application for operating-differential subsidy is granted.

Said applicants have requested written permission involving the domestic, intercoastal or coastwise services likewise described in Appendix A.

Said applicants have previously been granted written permission with respect to such services in fiscal year 1973.

Interested parties may inspect these applications in the Office of the Secretary, Maritime Administration, Department of Commerce Building, 14th and E Streets, NW., Washington, D.C. 20230.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in any application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on July 30, 1973 file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief. Further, each petition shall identify the applicant or applicants against which the intervention is lodged.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled commencing at 10 a.m., July 31, 1973 and continuing on succeeding business days if required, in Room 4896, Department of Commerce Building, 14th and E Streets, NW., Washington, D.C. 20230. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operations (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act relative to domestic trade operations. Evidence concerning each application will be heard in the order in which applicants are listed in Appendix A.

Dated: July 20, 1973.

By Order of the Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

APPENDIX A

I. *Name of applicants.* Manhattan Tankers Company, Inc. (Manhattan); Transeastern Shipping Corporation (Transeastern); Hudson Waterways Corporation (Hudson).

Description of domestic service and vessels. The applicants, Manhattan, Transeastern and Hudson, are all affiliated with each other and with Seatrain Lines, Inc. (Seatrain), and Seatrain and its affiliates have engaged in the domestic trades shown below, and each applicant has requested written permission for the continuance, by Seatrain and other affiliated companies, of those services, as well as the right to move any vessel listed below from one domestic trade to another, and/or from a foreign trade(s) to a domestic trade(s) within the fiscal year period of the proposed operating-differential subsidy agreement. All of the vessels listed have coastwise privileges. The following are the vessels by type and an indication of those currently in the domestic trades:

Ship	Type	Current service
Seatrain Puerto Rico.	Dry cargo (military).	MSC.[1]
Seatrain Carolina.	Dry cargo (military).	MSC.
Seatrain Florida.	Dry cargo (military).	MSC.
Seatrain Maryland.	Dry cargo (military).	MSC.
Seatrain Maine.	Dry cargo (military).	MSC.
Seatrain Washington.	Dry cargo (military).	MSC.
Seatrain Ohio.	Dry cargo (military).	MSC.
Transcolorado	Dry cargo (heavy type).	MSC.
Transcolumbia	Dry cargo (heavy type).	MSC.
Transpacific	C4 Conventional	MSC.
Transeastern	Tanker	
Erna Elizabeth	Tanker	Time charter (MSC).[1]
Transhuron	Tanker	Time charter (MSC).
Transidaho	Container C4	U.S. E.C./Puerto Rico.
Transoregon	Container C4	U.S. E.C./Puerto Rico.
Transhawaii	Container C4	U.S. E.C./Puerto Rico.
Seatrain San Juan.	Container T2	U.S. E.C./Puerto Rico.
Seatrain Delaware.	Container T2	U.S. E.C./Puerto Rico.
Transindiana	Container T2	U.S. Pac. Coast/Hawaii.
Transchamplain	Container mission tanker.	U.S. Pac. Coast/Hawaii.
Transoneida	Container T2	
Transontario	Container T2	
Seatrain Georgia.	Container T2	
Seatrain Louisiana.	Container T2	
Manhattan	Tanker	
Transglobe	Ro/Ro	
Transerie	Tanker	
Transpanama	Tanker	
Transsuperior	Tanker	

[1] The vessels chartered to MSC are presently under contract to MSC for periods of up to five years and their operations are consequently not under the control of their owners.

Written permission is now required by the applicants (Manhattan, Transeastern and Hudson) notwithstanding that a voyage in

V 38 141 L JUL 24 73 XUM

the proposed service for which subsidy is sought would not be eligible for subsidy if the vessel carried domestic commerce of the United States on that voyage.

II. *Name of applicant.* Blackships, Inc.

Description of domestic service and vessels. The applicant, Blackships, Inc. acting by and through Gulf Oil Corporation, requests permission to continue operation of the following listed vessels in domestic intercoastal or coastwise service, as well as permission for all other vessels owned and/or operated by Gulf Oil and other related companies to continue operation in domestic intercoastal or coastwise service.

Gulf Deer	Gulf Knight
Gulf Lion	Gulf Crest
Gulf Tiger	Gulf Pride
Gulf King	Gulf Solar
Gulf Queen	Gulf Oil
Gulf Prince	

Written permission is now required by the applicant, Blackships, Inc., notwithstanding that a voyage in the proposed service for which subsidy is sought would not be eligible for subsidy if the vessel carried domestic commerce of the United States on that voyage.

[FR Doc.73-15290 Filed 7-23-73;8:45 am]

National Bureau of Standards

NUMERIC DATA

Notice of Proposed Federal Information Processing Standard

Under the provisions of Public Law 89-306, the Secretary of Commerce is authorized to make appropriate recommendations to the President relating to the establishment of uniform Federal automatic data processing standards. Effective May 9, 1973, Executive Order 11717 transferred to the Secretary of Commerce all functions being performed in the Office of Management and Budget relating to the establishment of government-wide automatic data processing standards, including the function of approving standards on behalf of the President pursuant to section 111(f)(2) of the Federal Property and Administrative Services Act of 1949, as amended.

A proposed standard for Representations of Numeric Data in Dense Forms for Information Interchange has been developed by the National Bureau of Standards. This proposed standard, which provides specifications for three dense forms of numeric data, was developed by the NBS Institute for Computer Sciences and Technology. It will be promulgated as a Federal Information Processing Standard at such time as it may be approved by the Secretary of Commerce, on behalf of the President.

This notice solicits views of manufacturers, the public, and state and local governments prior to final drafting and formal coordination with departments and agencies of the Federal Government.

Federal Information Processing Standards contain two basic sections: (1) an announcement section which provides information concerning the applicability, implementation, and maintenance of the standard; and (2) a specification section which details the technical requirements of the standard.

Interested parties may submit comments to the Associate Director for ADP Standards, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234, on or before September 24, 1973.

Dated: July 17, 1973.

RICHARD W. ROBERTS,
Director.

FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATION ----

(Date) ----------

Announcing the Standard for

REPRESENTATIONS OF NUMERIC DATA IN DENSE FORMS FOR INFORMATION INTERCHANGE

Federal Information Processing Standards Publications are issued by the National Bureau of Standards under the provisions of Public Law 89-306 and Executive Order 11717.

Name of Standard. Representations of Numeric Data in Dense Forms for Information Interchange.

Category of Standard. Hardware Standard, Interchange Codes and Media.

Explanation. This FIPS PUB provides standard representations for three dense forms of numeric data. This FIPS PUB applies only to defined numeric fields in formatted data. The dense forms which are defined are:

a. Packed decimal numeric data, two digits per 8-bit octet, with algebraic signs and fillers.

b. [1] Packed Floating Point Decimal Data, with digits, fillers, algebraic signs and separator each represented in 4-bit form.

c. Straight binary data, up to 8 bits per octet with an algebraic sign bit and fill bits.

Approving Authority. Secretary of Commerce.

Maintenance Agency. Department of Commerce, National Bureau of Standards (Institute for Computer Sciences and Technology).

Cross Index. a. FIPS PUB 1, Code for Information Interchange.

b. FIPS PUB 3-1, Recorded Magnetic Tape for Information Interchange (800 CPI, NRZI).

c. FIPS PUB 7, Implementation of the Code for Information Interchange and Related Media Standards.

d. FIPS PUB 15, Subsets of the Standard Code for Information Interchange.

e. FIPS PUB 20, Guidelines for Describing Information Interchange Formats.

f. FIPS PUB --, (Magnetic Tape Cassettes).

g. FIPS PUB --, (ANSI X3/SSC/AHCC/050) Representation of Numeric Values in Character-Strings for Information Interchange.

h. FIPS PUB -- (ANSI X3.27-1969) American National Standard Magnetic Tape Labels for Information Interchange.

i. ANSI Z39.2-1971, American National Standard for Bibliographic Information Interchange on Magnetic Tape.

Objectives. The principal objective of this FIPS PUB is to provide the combined benefits of a standard representation, the effective use of recording medium, and higher transfer rates for data in those situations for which interchangeable magnetic media are used to transfer large data files that are predominantly numeric, but which may also contain some non-numeric ASCII or extended ASCII character-oriented information.

Applicability. This standard is applicable in those interchange environments having eight or more bits per information character (i.e., 9 track tape, disk, and cassettes).

This Federal standard will be used whenever packed decimal, floating point decimal or binary data forms are used in magnetic tape reels, disks, or magnetic tape cassettes. It may also be used in internal computer representations, and in non-interchangeable media, but such use is not prescribed by this standard.

It will not be used in data communication systems that monitor bit patterns in search of communication control characters.

Implementation Schedule. (To be determined).

Waiver Procedure. (To be determined).

Specifications. Federal Information Processing Standard -- (FIPS --), Representations of Numeric Data in Dense Forms for Information Interchange, (Date) (affixed).

Qualifications. This numeric data standard does not specify a Data Descriptive Language (DDL), a Data Management Language (DML) nor does it specify the use of machine-sensible labels or the structure of any optional label blocks to define field boundaries, field types, ranges of values, or scaling factors, all of which must be supplied in adequate documentation, such as is provided in FIPS PUB 20, Guidelines for Describing Information Interchange Formats.

Four-bit patterns corresponding to decimal values 12 and 15 and hence to the graphic symbols Comma and Slant of the 16-character subset of FIPS 15, may be used in packed decimal forms along with the 14 defined packed characters, but no meaning is ascribed to those two 4-bit patterns.

The form of packed decimal numerics specified by this FIPS PUB may or may not be a "computational form" for use in internal computer processing. Only a storage form for use in magnetic tape, disk packs, or cassettes is specified. If any different packed numeric forms are used for computation, internal representation, variable-field storage, or other purpose, then a transformation will be required in passing data to or from the storage form specified by this FIPS PUB.

Special Information. Unpacked character-oriented information used in fields other than packed fields on magnetic tapes, disk packs, or cassettes should conform to the standard recording conventions of FIPS 3, Recorded Magnetic Tape for Information Interchange (800 CPI, NRZI) whether or not a different density or recording technique is employed.

The following table may be helpful, although the EBCDIC bit patterns are not part of any Federal or other non-commercial standard:

RELATIONSHIPS IN 9-TRACK MAGNETIC TAPE

Track No.	4	7	6	5	3	9	1	8	2
ASCII (FIPS 1) Bits	P	"b_8"	b_7	b_6	b_5	b_4	b_3	b_2	b_1
IBM EBCDIC Bit Numbers	P	0	1	2	3	4	5	6	7
Binary Weight (Unpacked)	P	2^8	2^7	2^6	2^5	2^4	2^3	2^2	2^1
Binary Weight (Packed)	P	2^9	2^8	2^7	2^6	2^5	2^4	2^3	2^2
Packed Numeric Order	P	High					Low		

Note: "P" is an odd parity bit.

[1] May be changed to Floating Point Binary Data.

Packed - Unpacked Order	High									Low
Octet in Field	N	N-1			3		2		1	
Packed Digit Number ±Sign or	d_{2n}	d_{2n-1}	d_{2n-2}		d_4	d_3	d_2	d_1		

NOTE: Octet boundaries are illustrated by Colon (:) but these are not used in the bit structure.

Any "d" can represent a decimal digit or the decimal point. If no explicit decimal point is included, it is assumed to be to the right of d_1 and the decimal number has an integer value. If no sign is included, the numeric value is assumed to be positive or zero.

The lowest-order packed decimal digit (d_1) is located in the right-hand side of the lowest-order octet. Packed decimal digits of ascending order are placed in adjacent half-octets in order of ascending significance, as shown. The digit zero, bit pattern 0000, is used to fill all half-octets not needed for the most significant packed digit. If algebraic signs are used, the position of the 4-bit sign pattern is at the high-order half of the highest-order octet. The value 11 (bit pattern 1011) represents positive (+) and the value 13 (bit pattern 1101) represents negative (−). Algebraic signs must never be located in other positions. If all numeric bits in a packed decimal field are "zero" and a signed representation is required, then the sign pattern for "Positive" (Plus Sign, bit pattern 1011) must be used. Thus the value "Minus Zero" is not allowed in packed decimal representations.

3.2 *Packed Floating Point Decimal Data.*[1] One format is specified for floating point decimal representations. The structure employs two algebraic signs, one decimal point, any number of digits, and a separator, each represented by 4 bits in accordance with the table below. The Asterisk, bit pattern 1010, separates the significand from the exrad, a power of ten. The structure is:

Sign Digits	
Point Digits	
Asterisk	
Significand	Exrad

The same number of octets must be used for each occurrence of a given field. The significand sign must be present, must be + or −, and must be located in the high-order half of the highest order octet. If fill digits are required, then the bit pattern for Zero, 0000, must be used as fill. The decimal point must be present and it must occupy the same position for each occurrence of a given field. The Asterisk must be present and it must occupy the same position for each occurrence of a field. The exrad sign must be present, must be + or − and must occupy the same position for each occurrence of the field. The same number of exrad digits must be used for each occurrence of a field, and the lowest order digit of the exrad must occupy the lowest order position of the entire field. Zero must be used as fill digits if fill is required. The exrad decimal point does not appear but it is assumed to be to the right of the lowest order exrad digit. External scaling factors may be used for the significand or exrad, or both.

3.3 *Binary Numeric Data.* One format is specified for binary representation of numeric values, as shown by the layout:

Binary-Unpacked Order	High							Low
Octet in Field	N							1
Binary Bit Number	S	Z	Z	Z	B	B	B	B

Where S is a sign bit, Z is a Zero fill bit, and B is a value bit. The number of bits in an externally recorded binary field is always a multiple of 8 bits. The lowest order bit is "right justified" in the lowest order bit position of the lowest order octet. The other binary value bits are packed adjacent to this low order bit in ascending order up to the

[1] This section may be changed to Floating Point Binary.

Where to Obtain Copies of the Standard. Copies of this publication are for sale from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. (Price ---- cents a copy; SD Catalog Number ----------.) There is a 25 percent discount on quantities of 100 or more. When ordering, specify document number, title, and SD Catalog Number or Accession Number.

FEDERAL INFORMATION PROCESSING STANDARD ------

(Date) ----------

Specifications for

REPRESENTATIONS OF NUMERIC DATA IN DENSE FORMS FOR INFORMATION INTERCHANGE

1. *Name of Standard.* Representations of Numeric Data in Dense Forms for Information Interchange.

2. *Category of Standard.* Hardware Standard, Interchange Codes and Media.

3. *Specifications.* This specification provides a standard method of recording three different dense numeric data forms on interchangeable media that are oriented to handling 8-bit "octets" of information. These three dense forms supplement the FIPS representations in the standard 1 (ASCII) numeric characters and the other characters of FIPS 1. The three dense numeric forms are:

a. Packed Decimal Numeric Data

b. Packed Floating Point Decimal Data

c. Binary Numeric Data

Unpacked fields are specified to be standard FIPS 1 (ASCII) characters represented in the standard 8-bit format of FIPS 3 magnetic tape, in which the high order bit (b_8) is set to "zero" for the 128 characters defined in FIPS 1 (ASCII), and is set to "one" for the remaining 128 characters that are not defined by FIPS 1 (ASCII). This specification applies only to defined numeric fields in formatted data.

In standard 9-track magnetic tape, or on standard serial-by-bit magnetic tape cassettes, or on magnetic disks, if the eight information bits are designated as E$_1$ to E$_8$, low-order to high-order bit, then the following relationships apply to this standard:

Bit-Positions in Unpacked Byte	E$_8$	E$_7$	E$_6$	E$_5$	E$_4$	E$_3$	E$_2$	E$_1$
Binary Weight, Unpacked	2^8	2^7	2^6	2^5	2^4	2^3	2^2	2^1
Binary Weight, Packed	2^9	2^8	2^7	2^6	2^5	2^4	2^3	2^2
Bit Name, Packed		b_8	b_7	b_6	b_5	b_4	b_3	b_2
Packed Numeric Order		High					Low	

The 4-bit patterns of the packed form are related to the four low-order bits of the 16-character subset of FIPS PUB 15 in accordance with the following table:

FIPS 1 ASCII Row No.	Bit and Value b_4 2^4	b_3 2^3	b_2 2^2	b_1 2^1	Graphic Symbol	Symbol Name
0	0	0	0	0	0	Zero
1	0	0	0	1	1	One
2	0	0	1	0	2	Two
3	0	0	1	1	3	Three
4	0	1	0	0	4	Four
5	0	1	0	1	5	Five
6	0	1	1	0	6	Six
7	0	1	1	1	7	Seven
8	1	0	0	0	8	Eight
9	1	0	0	1	9	Nine
10	1	0	1	0	*	Asterisk
11	1	0	1	1	+	Plus
12	1	1	0	0	,	Comma
13	1	1	0	1	-	Minus
14	1	1	1	0	.	Decimal Point
15	1	1	1	1	/	Slant

Bit patterns corresponding to Row Numbers 12 and 15 may appear in the packed forms of this FIPS, but no meaning is ascribed to those two values. When packed, or when unpacked, the preferred graphic symbols for all 16 of the 4-bit patterns are as shown in the above table.

3.1 *Packed Decimal Numeric Data.* Two formats for packed decimal numeric fields are specified: signed and unsigned. Both formats are shown by the layout:

V 38 141 JUL 24 73 XUM

highest value bit. The sign bit (S) is "left justified" in the highest order position of the highest order octet. A "zero" sign bit denotes "Positive" and a "one" bit denotes "Negative". The symbol "Z" denotes a fill or padding bit used, if necessary, to fill up unused bit positions between the sign bit and the highest order binary value bit. The bit value of "Z" is always "zero". If all other bits in a field are "zero" bits then the sign bit "S" must also be "zero". Thus the value "Minus zero" is not allowed in binary representations. The smallest (nearest to zero) negative value has a "one" bit at the extreme left end of the field, for the negative sign, and a "one" bit at the extreme right end of the field for the lowest permissible binary value. This standard binary representation does not employ "complemented bits" to represent negative values. The progression of values is shown by the following table:

S								
0	1	1	1	1	1	1	1	Largest Positive
0	0	0	0	0	0	0	1	Smallest Positive
0	0	0	0	0	0	0	0	Zero
1	0	0	0	0	0	0	0	Not Allowed
1	0	0	0	0	0	0	1	Smallest Negative
1	1	1	1	1	1	1	1	Largest Negative

No explicit location of the "binary point" is specified in the binary field structure. The location of the "binary point" is always in the same implied position for each occurrence of a given binary field.

PORCELAIN-ENAMELED STEEL UTENSILS

Notice of Intent To Withdraw Voluntary Product Standard

In accordance with § 10.12 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10, as revised; 35 FR 8349 dated May 28, 1970), notice is hereby given of the intent to withdraw Commercial Standard CS 100–47, "Porcelain-Enameled Steel Utensils." It has been tentatively determined that this standard is no longer in general use and revision would serve no useful purpose.

Any comments or objections concerning the intended withdrawal of this standard should be made in writing and directed to the Office of Engineering Standards Services, National Bureau of Standards, Washington, D.C. 20234, on or before August 23, 1973. The effective date of withdrawal, if appropriate, will be not less than 60 days after the final notice of withdrawal. Withdrawal action terminates the authority to refer to a published standard as a voluntary standard developed under the Department of Commerce procedures from the effective date of the withdrawal.

Dated: July 18, 1973.

RICHARD W. ROBERTS,
Director.

[FR Doc.73-15119 Filed 7-23-73;8:45 am]

PINE OIL DISINFECTANT AND PENTACHLOROPHENOL CONCENTRATE

Notice of Intent To Withdraw Voluntary Product Standards

In accordance with § 10.12 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10, as revised; 35 FR 8349 dated May 28, 1970), notice is hereby given of the intent to withdraw Commercial Standards CS 69–38, "Pine Oil Disinfectant" and CS 194–53, "Pentachlorophenol Concentrate for Wood Preservation and Soil Poisoning." It has been tentatively determined that these standards are no longer technically adequate and revisions would serve no useful purpose.

Any comments or objections concerning the intended withdrawal of these standards should be made in writing and directed to the Office of Engineering Standards Services, National Bureau of Standards, Washington, D.C. 20234, on or before August 23, 1973. The effective date of withdrawal, if appropriate, will be not less than 60 days after the final notice of withdrawal. Withdrawal action terminates the authority to refer to a published standard as a voluntary standard developed under the Department of Commerce procedures from the effective date of the withdrawal.

Dated: July 18, 1973.

RICHARD W. ROBERTS,
Director.

[FR Doc.73-15120 Filed 7-23-73;8:45 am]

ENAMELED CAST IRON PLUMBING FIXTURES

Notice of Action on Voluntary Product Standard Withdrawal

In accordance with § 10.12 of the Department's Procedures for the Development of Voluntary Product Standards (15 CFR Part 10, as revised; 35 FR 8349 dated May 28, 1970), notice is hereby given of the withdrawal of Commercial Standard CS 77–63, "Enameled Cast Iron Plumbing Fixtures."

Public notice of the Department's intention to withdraw this standard was published in the FEDERAL REGISTER on May 18, 1973 (38 FR 13044). No objections to the Department's intention of withdrawing this standard have been received by the National Bureau of Standards.

The effective date for the withdrawal of this standard will be on or before September 24, 1973. This withdrawal action terminates the authority to refer to this standard as a Voluntary Product Standard developed under the Department of Commerce Procedures.

Dated: July 19, 1973.

RICHARD W. RICHARDS,
Director.

[FR Doc.73-15122 Filed 7-23-73;8:45 am]

HOUSEHOLD INSECTICIDE

Notice of Intent To Withdraw Voluntary Product Standard

In accordance with § 10.12 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10, as revised; 35 FR 8349 dated May 28, 1970), notice is hereby given of the intent to withdraw Commercial Standard CS 72–54, "Household Insecticide (Liquid Space Spray Type for Flying Insects)." It has been tentatively determined that this standard is no longer technically adequate and in view of the current publications of the Chemical Specialties Manufacturers Association which establish standards for the subject products revision would serve no useful purpose.

Any comments or objections concerning the intended withdrawal of this standard should be made in writing and directed to the Office of Engineering Standards Services, National Bureau of Standards, Washington, D.C. 20234, on or before August 23, 1973. The effective date of withdrawal, if appropriate, will be not less than 60 days after the final notice of withdrawal. Withdrawal action terminates the authority to refer to a published standard as a voluntary standard developed under the Department of Commerce procedures from the effective date of the withdrawal.

Dated: July 18, 1973.

National Oceanic and Atmospheric Administration

[Docket No. Sub-B-50]

AMERICAN STERN TRAWLERS, INC.

Order Terminating Proceedings

In the matter of the application of American Stern Trawlers, Inc. for transfer of fishery for the vessel Seafreeze Pacific, Docket No. Sub-B-50.

Upon consideration of the withdrawal of the application by counsel for the Applicant on the ground that the vessel, Seafreeze Pacific, has been sold by the Applicant to a person not a party to this proceeding, and since the National Oceanic and Atmospheric Administration, through counsel, stated it had no objection to the withdrawal of the application, and no prejudice to the interests of intervenors appears,

Now therefore, *It is ordered*, That withdrawal of the application is allowed, proceedings in this matter are terminated and, accordingly, notice is given that the matter is closed.

JOHN J. MCCARTHY,
Administrative Law Judge.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

OPHTHALMIC DRUGS ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92-463, 86 Stat. 770–776), the Food and Drug Administration announces the following public advisory committee meeting and other required information in accordance with provisions set forth in section 10(a) (1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
Ophthalmic Drugs Advisory Committee.	Aug. 6 and 7, 9 a.m., Conference Room M, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open August 6, closed August 7. William E. Gilbertson, Pharm. D., Room 12B-25, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3500.

Purpose. Advises the Commissioner of Food and Drugs regarding safety and efficacy of drugs employed in the treatment of diseases and disorders of the eye.

Agenda. The agenda will cover consideration and discussion of a recent subcommittee proposal to establish criteria for clinical testing to determine the effectiveness and safety of steroid-anti-infective fixed dosage combination drugs.

The public is invited to comment on the proposal in the open session of the meeting on August 6. Requests for time to participate in the open session should be made in advance through the contact person shown above. A copy of the proposal may be obtained from the contact person.

Agenda items are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Commissioner in exercising his law enforcement responsibilities.

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal discussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided that this type of discussion would remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of which are of substantial competitive importance.

In addition, to operate most effectively, the evaluation of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank discussion. Members of committees have frequently agreed to serve and to provide their most candid advice on the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its mission.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First, any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will be open to the public, so that interested persons may present any relevant information or views orally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which non-confidential information is made available to the committee will be open for public participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regulatory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself or full public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meeting is concerned with matters listed in 5 U.S.C. 552(b), which contains the exemptions from the public disclosure requirements of the Freedom of Information Act. Pursuant to this authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552(b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: July 18, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[Docket No. NFD-110]

PENNSYLVANIA

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11725 of June 27, 1973; and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D–73–238; and by virtue of the Act of December 31, 1970, entitled "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Public Law 92–209 (85 Stat. 742); notice is hereby given that on July 17, 1973, the President declared a major disaster as follows:

I have determined that the damage in certain areas of the State of Pennsylvania from severe storms and flooding beginning on or about June 27, 1973, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91–606. I therefore declare that such a major disaster exists in the State of Pennsylvania. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11725, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D–73–238, to administer the Disaster Relief Act of 1970 (Public Law 91–606, as amended), I hereby appoint Mr. Alfred A. Hahn, HUD Region 3, to act as the Federal Coordinating Officer to perform the duties specified by section 201 of that Act for this disaster.

I do hereby determine the following areas in the State of Pennsylvania to have been adversely affected by this declared major disaster:

The counties of:

Berks	Lancaster
Bucks	Monroe
Chester	Montgomery
Delaware	Wayne

Dated: July 18, 1973.

(Catalog of Federal Domestic Assistance Program No. 50.002, Disaster Assistance)

FEDERAL COMMUNICATIONS COMMISSION

STEERING COMMITTEE, CABLE TELEVISION OF THE FEDERAL/STATE-LOCAL ADVISORY COMMITTEE

Notice of Meeting

JULY 18, 1973.

The Steering Committee of the Cable Television Federal/State-Local Advisory Committee will hold open meetings on July 30 and 31, 1973, at 9:30 a.m. The meetings will be held in Room 6331 of the Cable Television Bureau offices located at 2025 M Street, N.W., Washington D.C.

The agenda for the meeting will be a discussion on the following subjects:

Issue #4—Jurisdiction for Technical Performance Standards

Issue #6—Jurisdiction for Cross-Ownership Requirements

Issue #12—Construction and System Extension and Part II of the Report.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 50-304]

COMMONWEALTH EDISON CO.

Order Extending Completion Date

Commonwealth Edison Company is the holder of Provisional Construction Permit No. CPPR–59 issued by the Commission on December 26, 1968, for the construction of the Zion Station, Unit 2, a 3250 megawatt (thermal) pressurized water nuclear reactor presently under construction at the Company's site on the west shore of Lake Michigan in Zion, Lake County, Illinois.

On May 17, 1973, the Company filed a request for an extension of the completion date because construction has been delayed due to (i) a construction schedule which gave precedence to Unit 1 construction, (ii) a determination that certain modifications in plant design for both units were desirable to increase the assurance that adequate margins of safety exist which required additional construction time, and (iii) time loss due to late delivery of essential components. The Director of regulation having determined that this action involves no significant hazards considerations, and good cause having been shown, the bases for which are set forth in a memorandum dated June 20, 1973, from R. C. DeYoung to A. Giambusso:

It is hereby ordered, That the latest completion date for CPPR–59 is extended from July 1, 1973 to April 1, 1974.

Date of Issuance: July 13, 1973.

For the Atomic Energy Commission.

A. GIAMBUSSO,
Deputy Director for Reactor Projects Directorate of Licensing.

[FR Doc.73-15086 Filed 7-23-73;8:45 am]

[Source Material License SUB-1010]

KERR-McGEE CORP.

Notice and Order for Prehearing Conference, and Evidentiary Hearing

In the matter of Kerr-McGee Corporation Kerr-McGee Building Oklahoma City, Oklahoma.

On July 10, 1973, the Atomic Energy Commission issued a notice of hearing, published in the FEDERAL REGISTER (38 FR 18921), directing that a hearing be held to consider the May 10, 1972, application by the Kerr-McGee Corporation for amendment of its Source Material License Number SUB–1010. The amendment would authorize subsurface disposal of certain liquid radioactive wastes. The Deputy Director for Fuels and Materials has advised the Applicant that its amendment request has been denied. This Board has been established to hear and resolve the issue.

Take notice, pursuant to said Commission notice, a Prehearing Conference will be held at 10:00 am, local time, on August 14, 1973, at the U.S. Tax Court, Courtroom Number 1 (Room Number 2132), 1111 Constitution Avenue, NW, Washington, D.C. 20044, in preparation for an Evidentiary Hearing hereby scheduled to commence at 1:30 pm, local time, on August 27, 1973, at the U.S. Tax Court, Courtroom Number 2 (Room 2142), 1111 Constitution Avenue, NW, Washington, D.C. 20044.

Issued at Washington, D.C., this 19th day of July 1973.

It is so ordered.

THE ATOMIC SAFETY AND LICENSING BOARD,
JOHN B. FARMAKIDES,
Chairman.

[FR Doc.73-15153 Filed 7-23-73;8:45 am]

LMFBR DEMONSTRATION PROJECT

Determination Pending Preparation of NEPA Impact Statement

On June 12, 1973, the U.S. Court of Appeals for the District of Columbia Circuit held in Scientists Institute for Public Information, Inc. v. AEC that present preparation of an environmental impact statement on the Liquid Metal Fast Breeder Reactor (LMFBR) program is required by section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA). The Commission, on June 14, 1973, determined that preparation of an environmental impact statement on the LMFBR program will immediately be initiated pursuant to the Court's decision. The Commission has already prepared and issued section 102(2)(C) impact statements on a hypothetical LMFBR demonstration plant and on the Fast Flux Test Facility. In addition to these statements and the overall statement called for by the Court's decision, the Commission will issue further environmental impact statements in connection with any licensing of construction and operation of the actual Demonstration Plant as provided for in AEC regulations (10 CFR Part 50, Appendix D). It is presently estimated that a NEPA impact statement on the LMFBR program will require approximately 8 months to complete.

By letter dated June 19, 1973, the Joint Committee on Atomic Energy ad-

V 38 141 JUL 24 73 XUM

vised the Commission that, subject to a contractual revision (which the parties have agreed to), the Joint Committee "will interpose no objection to the execution of the proposed contracts (for the LMFBR Demonstration Plant), and the parties could proceed without further delay."[1]

The opinion of the Court of Appeals in the above referenced litigation noted that an injunction against continuation of the program pending completion of an impact statement had not been sought in this case and the Court accordingly intimated no views concerning such relief. The Court's opinion also stated that "there is no indication that, aside from not preparing an impact statement, the AEC has given insufficient weight to environmental values in charting the LMFBR program's present course." On July 11, 1973, following a remand of the case to the District Court "for the entry of appropriate declaratory relief," plaintiffs (Scientists' Institute for Public Information, Inc.) moved to enjoin the Commission from, inter alia, executing the LMFBR Demonstration project contracts and implementing same during the NEPA review period. The District Court denied the requested injunctive relief and entered a final declaratory order providing for completion of the LMFBR program impact statement within twelve months from June 14, 1973. Plaintiffs have appealed that order to the Court of Appeals.

Notwithstanding the absence of any legal bar to execution of the LMFBR Demonstration Plant contracts and implementation thereof during the period of preparation of a NEPA impact statement on the LMFBR program, the Commission has determined that an examination should be made as to whether such actions would be inconsistent with its NEPA responsibilities in regard to environmental protection, or would prejudice its ability to make the required NEPA review and take whatever action may be appropriate in light thereof.

In undertaking this interim NEPA examination, the Commission has utilized factors analogous to those developed for determinations in regard to whether to suspend certain reactor construction permits and operating licenses pending completion of the section 102(2)(C) reviews required as a result of the decision of the Court of Appeals for the District of Columbia Circuit in the Calvert Cliffs' litigation.[2] These factors are set forth in 10 CFR Part 50, Appendix D, Section E.2. An additional factor has been added to recognize the subsequent decision of the Court of Appeals for the District of Columbia Circuit in Coalition For Safe Nuclear Power v. AEC, et al. (463 F.2d 954), which involved judicial review of the interim NEPA review approach.

As applied to the present matter, the Commission, in making the determination at hand, has considered and balanced the following factors:

1. Whether it is likely that execution of the LMFBR Demonstration project contracts and implementation thereof during the prospective review period will give rise to a significant adverse impact on the environment, the nature and extent of such impact, if any; and whether redress of any such adverse environmental impact can reasonably be effected should modification, suspension or termination of project activities result from the ongoing NEPA environmental review.

2. Whether execution of the LMFBR project contracts and implementation thereof during the prospective review period would foreclose subsequent adoption of alternatives of the type that could result from the ongoing NEPA review.

3. The effect of delay in executing and implementing the LMFBR project contracts upon the public interest.

4. Whether the additional irretrievable commitment of resources if these contracts are executed and implemented during the limited time involved might affect the eventual decision reached on the NEPA review.

To assist the Commission in its consideration of the foregoing factors the Commission published in the FEDERAL REGISTER on June 29, 1973 (38 FR 17263) its proposed determination with a request that interested persons who desire to submit written comments or suggestions for Commission consideration do so on or before July 14, 1973.

As of the close of business on July 18, 1973, comments were received from fifteen organizations and persons, including other LMFBR Demonstration plant project participants and the Scientists' Institute for Public Information (SIPI).[3] In response to SIPI's request, a meeting took place between Commissioner William E. Kriegsman and SIPI officials on July 6 for the purpose of receiving SIPI's views through direct communication. A transcript of that meeting (on file in the Commission's Public Document Room) was considered together with all written comments received in making this Determination.

All respondents except Mr. Russell M. Bimber, Painesville, Ohio, and SIPI and two other groups—Environmental Action and Friends of the Earth—supported the Commission's proposed determination. Mr. Bimber submits that "continuing LMFBR activities at this time will buy support for decisions which may seem unwise when the final environmental statement becomes available." The thrust of the comments of the latter three groups is that execution of contractual agreements by the Commission and the other participants, the ensuing expenditure of funds during the period of the NEPA program review, and the accumulation of further technological and managerial expertise and attendant project momentum during that review period would effectively prevent AEC from making a determination other than to proceed with LMFBR program implementation at the conclusion of the review period, thereby foreclosing consideration of other energy options.

In assessing the four factors enumerated earlier, and in making its consequent Determination, the Commission has carefully considered all comments received. It is appropriate, however, to take special note of those comments which were adverse to this Determination. The purport of the adverse comments is summarized above; it lacks validity, we believe, for several reasons. First, the existing technological base for the LMFBR program represents an investment of more than $1 billion over the past 20 years, and the monies projected to be expended on the overall program during the course of completion of the Demonstration project are $3–4 billion. By any objective standard, the incremental expenditures of $18 million during the eight (8) month NEPA review period (or $27 million should the review extend to 12 months) will not represent a commitment of such magnitude or nature as to foreclose any Commission options at the conclusion of the NEPA review. Federal Government Fiscal Year 1974 funds allocated to energy research and development is estimated to be $772 million. AEC's portion of this is $574 million. Of that amount about $255 million is assigned to energy R&D in other than LMFBR development. This is an increase of over $30 million by comparison with the FY 1973 budget for AEC R&D on energy systems other than LMFBR. Moreover, pursuant to the President's 1973 Energy Message to the Congress, the Commission is currently exploring ways of increasing the funding for other energy concepts (non-nuclear as well as nuclear).

Finally, it should be emphasized that execution of the Demonstration project contracts and their limited implementation during the period of the NEPA program review by no means constitutes an "irrevocable commitment" by AEC and the other participants of the project. Continuing AEC participation is, of course, subject to compliance with applicable laws; and the project contract makes specific that this includes compliance with "the provisions and policies of applicable laws in respect to the protection of the environment" (para. 5 and 11, AT(49–18)–12). Funds are expended by each of the participants at the financial risk that the outcome of the NEPA review of the program may require some alternative course, including project termination. Cf: Coalition for Safe Nuclear Power v. AEC, et al. (supra).

The results of the Commission's examination of this matter in the light of all comments received are set forth in a document entitled, "Findings Supporting Determination in Regard to LMFBR Demonstration Project Pending Preparation of a section 102(2)(C) NEPA Impact Statement on the LMFBR Program." Copies of this document are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. Copies may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: General Manager.

Based on the results of the foregoing examination, the Commission has determined that the LMFBR Demonstration project contracts may be executed and thereafter implemented during the limited period of the ongoing NEPA review of the LMFBR program. More specifically, the Commission has determined that:

1. Execution of the proposed contracts and the limited implementing actions to be taken by the AEC and the other project participants during the period of preparation of the NEPA impact statement on the LMFBR program will not give rise to any significant adverse impact on the environment; and that such limited impact as may occur will readily be redressable should the NEPA review of the program result in a different course of action.

2. Subsequent adoption of project alternatives—including cessation of the project itself, or other alternative approaches—would not be foreclosed by execution of the project contracts and implementation thereof during the limited period of the ongoing NEPA review of the program.

3. Delay in execution and implementation of the project contracts until the NEPA review of the LMFBR program is completed would adversely affect the public interest. In terms of immediate impact, delay would risk loss of key management and engineering personnel in the many organizations involved, thus compromising project viability or, at the least, giving rise to further appreciable delays. Delay would additionally result in a significant increase in project costs. Moreover, of longer range importance, should continuation of the LMFBR Demonstration project be consistent with the outcome of the NEPA program review, a present suspension of project activity would delay availability of a key energy option for the Nation with the potential for significant adverse consequences.

4. The expenditure of resources by the AEC and the other project participants for the LMFBR Demonstration Plant program ($22 million) comprises $18 million to be expended during the limited period of the ongoing NEPA review of the program and $4 million in costs incurred prior to June 30, 1973. This expenditure will not be of such magnitude, taken in relationship to monies already expended on the LMFBR program ($1 billion) or monies projected to be expended on the overall program during the course of completion of the LMFBR Demonstration project (possibly $3–4 billion), as to affect the eventual decision on the NEPA review of the LMFBR program.

Dated at Germantown, Maryland, this 20th day of July, 1973.

For the Commission.

GORDON M. GRANT,
Acting Secretary of the Commission.

[FR Doc.73-15316 Filed 7-23-73;8:45 am]

[1] The following contracts to be executed by AEC provide the framework for participation in the project by the several parties involved: AT(49-18)-12 (AEC-Commonwealth Edison-Tennessee Valley Authority and Project Management Corporation; and AT(49-18)-14 (AEC and Breeder Reactor Corporation).

[2] Calvert Cliffs' Coordinating Committee, Inc. v. Atomic Energy Commission, 449 F.2d 1109 (DC Cir. 1971)

[3] A list of those organizations and persons is attached to the Commission's Findings (see infra). Copies of all comments received are on file in the Commission's Public Document Room, 1717 H Street, Washington, D.C. and are available upon request.

[Docket No. 50-219, etc.]

CERTAIN BOILING WATER REACTORS

Petition for Immediate Derating; Request for Comments

In the matter of Friends of the Earth's "Petition for Immediate Derating of Certain Boiling Water Reactors and for Issuance of a Show Cause Order Why the Authorization to Operate These Plants Should Not be Suspended", Dockets Nos. 50-219, 50-237, 249, 254, 265, 50-220, 50-245, 50-263, 50-293.

Notice

On July 12, 1973, Friends of the Earth filed with the Commission the above-styled petition seeking the emergency derating, to an unspecified extent, of nine licensed nuclear power plants identified as follows:

Pilgrim	Boston Edison Company
Dresden 2 & 3	Commonwealth Edison Company
Quad-Cities 1 & 2	Commonwealth Edison Company
Oyster Creek 1	Jersey Central Power & Light Co.
Millstone 1	Millstone Point Company
Nine Mile Point 1	Niagara Mohawk Power Corporation
Monticello	Northern States Power Company

Comments on the legal and substantive safety matters covered by the petition, including the need, if any, for emergency action, are requested from the affected licensees and the Regulatory Staff by July 31, 1973. Any other interested person may submit comments by the same date. All such comments should be addressed to: Secretary, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff.

A copy of the petition is available for public inspection in the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. A copy of the petition may be obtained by writing to the Rules and Proceedings Branch, Office of Administration Regulation, U.S. Atomic Energy Commission, Washington, D.C. 20545.

For the Atomic Energy Commission.

[Docket No. 50-206, etc.]

SHUTDOWN OF TWENTY NUCLEAR POWER PLANTS

Petition; Request for Comments

In the matter of Ralph Nader and Friends of the Earth's "Petition with Respect to Shut Down of Twenty Nuclear Power Plants". Dockets Nos. 50-206, 50-263, 50-254, 50-213, 50-266, 50-265, 50-219, 50-245, 50-281, 50-220, 50-249, 50-269, 50-244, 50-280, 50-309, 50-237, 50-250, 50-251, 50-261, 50-255.

On July 16, 1973, Ralph Nader and Friends of the Earth filed with the Commission the above-styled petition seeking the shut-down of twenty licensed nuclear power plants identified by cross reference to a suit pending in the United States Court of Appeals for the District of Columbia Circuit (Nader, et al. v. Ray, et al., CA No. 73-1733).

Comments on the legal and substantive safety matters covered by the petition, including the need, if any, for emergency action, are requested from the affected licensees and the Regulatory Staff by July 31, 1973. Any other interested person may submit comments by the same date. All such comments should be addressed to: Secretary, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff.

A copy of the petition is available for public inspection in the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. A copy of the petition may be obtained by writing to the Rules and Proceedings Branch, Office of Administration Regulation, U.S. Atomic Energy Commission, Washington, D.C. 20545.

For the Atomic Energy Commission.

Dated at Germantown, Maryland, this 20th day of July 1973.

GORDON M. GRANT,
Acting Secretary of the Commission.

CIVIL AERONAUTICS BOARD

[Docket No. 25137]

ALLEGHENY AIRLINES, INC.

Notice of Hearing Regarding Service to Glen Falls, NY

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a public hearing in this proceeding is assigned to be held on August 14, 1973, at 10:00 a.m. (local time) in the Supreme Court Room, Warren County Municipal Center, Town of Queensbury, Warren County, New York, before the undersigned Administrative Law Judge.

For information concerning the issues involved and other details in this proceeding, interested persons are referred to the prehearing conference report served on June 15, 1973, the supplemental prehearing conference report served July 16, 1973, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., July 18, 1973.

[SEAL] ALEXANDER N. ARGERAKIS,
Administrative Law Judge.

FRONTIER AIRLINES, INC.

Notice of Application for Certificate of Public Convenience and Necessity

JULY 18, 1973.

Notice is hereby given that the Civil Aeronautics Board on July 18, 1973, received an application, Docket 25713, from Frontier Airlines, Inc. for amendment of its certificate of public convenience and necessity to provide nonstop service between Colorado Springs, Colorado and Tucson, Arizona.

The applicant requests that its application be processed under the expedited procedures set forth in Subpart M of Part 302 (14 CFR Part 302).

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[Docket No. 25310; Order 73-6-92]

HUGHES AIRWEST

Order To Show Cause Regarding Application for Deletion of San Luis Obispo/Paso Robles, California

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 22nd day of June 1973.

By application filed on March 13, 1973, Hughes Airwest (Airwest) has requested amendment of its certificate of public convenience and necessity for Route 76 so as to delete San Luis Obispo/Paso Robles,[1] (Paso Robles) California there from. On the same date Airwest filed a motion for expedited hearing of its application.

No answers in opposition were filed in response to the application.

Upon consideration of Airwest's request and all the relevant facts, we have decided to issue an order to show cause which proposes to grant the requested deletion. We tentatively find and conclude that the public convenience and necessity require the amendment of Airwest's certificate so as to delete Paso Robles therefrom.

In support of our ultimate conclusion, we make the following tentative findings and conclusions. Airwest's service at Paso Robles has been characterized by declining traffic and excessive costs and is not likely to become economically sound in the future. In 1972, only 3,915 passengers or 3.99 per departure were enplaned at Paso Robles, in contrast to 1969 levels of 9,000 and 4.85, respectively. Contributing factors to this decline have been the geographic proximity of San Luis Obispo, the dominant population base, to the Santa Maria airport,[2] which is served by both Airwest and Swift Aire Lines (Swift), a commuter carrier, and the establishment of service at the Paso Robles and San Luis Obispo airports by Swift in 1969.

Paso Robles is now provided with direct air service by Swift to Los Angeles and San Francisco, through its own airport and the San Luis Obispo airport 33 miles away. In addition, service at Santa Maria, approximately 63 miles south of Paso Robles, is provided by both Swift and Airwest[3] to these two major communities of interest.[4] Moreover, suspension of the current operations at Paso Robles would eliminate an annual subsidy need in excess of $80,000. Under these circumstances, and in the absence of any civic opposition, we find that deletion of the intermediate point San Luis Obispo-Paso Robles from Airwest's certificate is in the public interest.[5]

Interested persons will be given twenty days following service of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If any evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, and amending the certificate of public convenience and necessity of Hughes Airwest for Route 76 so as to delete San Luis Obispo/Paso Robles, California, therefrom;

2. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within 20 days after service of a copy of this order, file with the Board and serve upon all persons listed in paragraph 6 a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections;[7]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein;

5. The motion for expedited hearing of Hughes Airwest be and is hereby denied; and

6. A copy of this order shall be served upon Hughes Airwest; District Attorney, County of San Luis Obispo; Mayors, Cities of El Paso de Robles, San Luis Obispo, Santa Maria, Oxnard and Ventura, California; Governor, State of California; California Public Utilities Commission; and the Postmaster General.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73-15174 Filed 7-23-73;8:45 am]

REEVE ALEUTIAN AIRWAYS, INC.

Order To Show Cause and Granting Exemption

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of July 1973.

Application of Reeve Aleutian Airways, Inc., for an amendment of its certificate of public convenience and necessity for route 127, Docket 25493; application of Reeve Aleutian Airways, Inc., for an exemption pursuant to section 416(b) of the Federal Aviation Act of 1958, Docket 25494; application of Reeve Aleutian Airways, Inc., for an amendment of its certificate of public convenience and necessity for route 127 by show cause procedures, Docket 25495.

By application dated May 2, 1973, Reeve Aleutian Airways, Inc. (Reeve) seeks (1) an amendment of its certificate of public convenience and necessity for route 127 so as to add Amchitka Island as an intermediate point on segment 1 thereof; (2) the grant of the above authority by means of show-cause procedures; and (3) a temporary exemption to serve Amchitka pending effectuation of the requested certificate amendment. No answers to Reeve's application have been received.

Upon consideration of the applications and all relevant circumstances we have tentatively determined that the grant of the requested certificate amendment would serve the public convenience and necessity, and are hereby issuing this order requesting any interested persons to show cause why our tentative determinations should not be made final. Also, we find that enforcement of the certification provisions of the Act (to the extent that they would preclude Reeve's operations at Amchitka pending effectuation of the certificate amendment) would not be in the public interest and would be an undue burden on Reeve by reason of the limited extent of, and unusual circumstances affecting, the operations of the carrier, and we will accordingly grant a temporary exemption from section 401. In support of our actions herein, we tentatively find the facts to be as detailed below.[1]

Amchitka is an island in the Aleutian chain located about 1,400 miles from Anchorage, Alaska, between the islands of Adak and Shemya, both of which are intermediate points on segment 1 of Reeve's route 127. Amchitka was at one time an intermediate point on Reeve's route but was deleted from its certificate in 1959 because of minimal demand.[2] However, in 1965 the Department of Defense began preparations for underground nuclear experiments at Amchitka, and the Board on the basis of the renewed and immediate need for air service involving national defense considerations, granted Reeve a temporary two-year exemption to reinstitute scheduled services to the island.[3] Reeve has continued to serve Amchitka with scheduled services up to the present time.[4]

Reeve states that since the initial DOD experiment, the facilities at Amchitka have been expanded and now house a permanent—but fluctuating—population in furtherance of various research projects of both the DOD and the Atomic Energy Commission (AEC). The population, which has varied from 175 to 750 residents, has generated revenues which, by Alaskan standards, suggest a possible need for scheduled air service. Reeve's actual operating results in terms of passengers, mail, and cargo carried over the last three years on its twice-weekly round trips with large aircraft (currently Lockheed Electras), bears out our tentative conclusion that a need for the services provided exists.[5] Moreover, the national defense considerations which, in part, prompted the Board to grant exemption authority to Reeve in 1965, continue to be characteristic of Amchitka's air service requirements.

Reeve does not receive federal subsidy for its services along the Aleutian archipelago, nor should it require subsidy for the services at Amchitka. In fact, it appears that Reeve's Amchitka services have contributed to its overall system revenues without requiring an expansion of its regular scheduled frequencies, by filling in existing unused capacity on Reeve's regularly scheduled round trips operating between Anchorage and Sheyma and Attu.[6] The carrier estimates that the circuity attributable to serving Amchitka involves direct aircraft operating expenses of $350 per departure. We find this estimate reasonable.[7] On this basis, Reeve's expense at Amchitka in 1972 is estimated at about $60,000 against revenues of $543,000. Thus, service to Amchitka provides a substantial net contribution to Reeve's system without placing any additional burden upon the Federal Treasury.

Finally, there do not appear to be any competitive or diversionary considerations involved here, for Reeve is the only scheduled carrier serving the Aleutian chain and no other carrier has opposed the instant applications or expressed any desire to provide service to Amchitka.

In light of all of the above considerations, we tentatively find that the amendment of Reeve's certificate for route 127 so as to add Amchitka as an intermediate point on segment 1 thereof is required by the public convenience and necessity. We further tentatively find that Reeve is a citizen of the United States within the meaning of the Act and is fit, willing and able to perform such transportation properly and to conform to the provisions of the Act and the rules, regulations, and requirements of the Board promulgated thereunder.

Interested persons will be given thirty days following service of this order to show cause why the tentative findings and conclusions set forth above should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If any evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. Gen-

---

[1] Both communities are served by Airwest through the airport five miles northeast of Paso Robles.

[2] An answer in opposition was initially filed by the County of San Luis Obispo but was subsequently withdrawn pursuant to a resolution of the County Board of Supervisors, which stated, *inter alia,* that adequate air service would still be provided to Paso Robles in the event that it was deleted from Airwest's certificate.

[3] Both the Paso Robles and Santa Maria airports are 33 miles away from San Luis Obispo.

[4] Excluding Airwest's service at Paso Robles, there are currently: (a) 24 round trips per week between San Luis Obispo airport and Los Angeles, and 44 between that airport and San Francisco; (b) 13 weekly round trips between Santa Maria and San Francisco, and 39 between that airport and Los Angeles (plus five additional northbound Los Angeles-Santa Maria flights); and (c) seven weekly round trips between Paso Robles and Los Angeles and fourteen between Paso Robles and San Francisco. OAG, May 15, 1973.

[5] Moreover, Paso Robles is located on U.S. Highway 101, a multilane superhighway which connects it with San Francisco, San Jose, and Salinas to the north and San Luis Obispo, Santa Maria, Oxnard and Los Angeles to the south. There is frequent Greyhound service to cities on U.S. 101. The estimated driving time between Paso Robles and Santa Maria is approximately 70 minutes and between Paso Robles and San Luis Obispo approximately half that time.

[6] We further tentatively find that Airwest is a citizen of the United States within the meaning of the Act and is fit, willing and able properly to perform the transportation pursuant to the amended certificate proposed and to conform to the provisions of the Act and the Board's rules, regulations, and requirements thereunder.

[7] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further such motions, requests or petitions for reconsideration of this order will be entertained.

[1] Our findings are tentative only with respect to the requested certificate amendment. They are final in connection with the temporary exemption, subject, of course, to the possibility of reconsideration in accordance with the Board's procedural rules, 14 C.F.R. 302.27.

[2] Order E-13376 (January 14, 1959).

[3] Order E-22274 (June 7, 1965).

[4] Reeve's exemption expired by its terms in 1967, and no further authority was requested until the filing of the instant applications. Accordingly, neither section 9(b) of the Administrative Procedure Act, nor, apparently, any other authority for scheduled operations after 1967 exists. Reeve admits that it has been remiss in not previously seeking certification or renewal of its exemption authority, but represents that its failure to do so was an inadvertent oversight, and that Reeve has made no secret of its continued regular service to Amchitka, as evidenced by its filings since 1967—tariffs, schedules, reports, etc.—with the Board. While the Board is not prepared to condone this type of omission by a carrier, we tentatively find, in the circumstances of this case, that Reeve's apparent violation of the Act should not be a bar to the grant of the authority sought. Reeve is the only scheduled carrier operating in the area and the only carrier expressing an interest in providing services which are, as we tentatively find below, required by the public convenience and necessity. Moreover, Reeve's action does not appear intentional and we do not believe it is indicative of Reeve's disposition to comply with the provisions of the Act and the Board's regulations, which otherwise has been, as far as the Board's records indicate, satisfactory.

[5] According to information supplied by the carrier, service at Amchitka in 1970 accounted for 944 passengers, 41.4 tons of mail, and 22.0 tons of freight, and estimated revenues of $206,300. By 1972, Amchitka services had expanded to encompass 2,260 passengers, 89.7 tons of mail, and 143.1 tons of freight, with estimated revenues of $543,600.

[6] Amchitka is served as an additional stop between Adak and Sheyma.

[7] Reeve states that it has no investment in facilities in Amchitka, and pays only nominal ground servicing charges.

V38-141 JUL 24 73 XUM

eral, vague, or unsupported objections will not be entertained.[9]

Turning to Reeve's request for an exemption pursuant to section 416(b) of the Act pending the effectuation of the certificate authority sought here, we note first of all that even though we are acting upon the certificate amendment by expedited procedures, the population of Amchitka, and the DOD and AEC programs conducted on the island, have a clear and present interim need for air transportation which Reeve has been meeting, albeit without apparent authority. In view of the remoteness of the island, the lack of suitable alternative transportation, and the immediate need for the continuation of Reeve's services, we find that the enforcement of section 401 of the Act, to the extent that it would preclude Reeve's operations at Amchitka pending certificate amendment, would not be in the public interest. We further find that enforcement of section 401 would be an undue burden upon Reeve in that Reeve would be deprived of the revenues attendant upon serving Amchitka in the interim,[9] a burden rendered undue (in the strong public interest circumstances of this case) by the limited extent of Reeve's operations,[10] as well as by the unusual circumstances affecting its operations.[11] Thus, we will grant Reeve's application for a *pendente lite* exemption, effective from the date of this order and continuing until such time as the applications in Dockets 25493 and 25495 are finally decided.

Accordingly, it is ordered, That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein and amending the certificate of Reeve Aleutian Airways, Inc. for route 127 so as to add Amchitka Island, Alaska, as an intermediate point (between Adak and Sheyma Island) on segment 1 thereof;

2. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within 30 days after service of a copy of this order, file with the Board and serve upon all persons listed in paragraph 8 a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections;[12]

3. If timely and properly supported objections are filed, full consideration will be accorded the matter and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein;

5. Reeve Aleutian Airways, Inc., be and it hereby is exempted from the provisions of section 401 of the Act insofar as it would otherwise be precluded from serving Amchitka Island on route 127, segment 1 pending the effective date of the final decision in Dockets 25493 and 25495;

6. Ordering paragraph 5 of this order may be amended or revoked at any time at the discretion of the Board without hearing;

7. Except to the extent granted herein the application of Reeve Aleutian Airways, Inc., in Docket 25494, be and it hereby is denied;

8. A copy of this order shall be served upon the Governor, State of Alaska; the Alaska Transportation Commission; the Postmaster General (attention: Assistant General Counsel of Transportation), Post Office Department; the Department of Defense; the Atomic Energy Commission; and all air carriers certificated pursuant to the Act to serve a point or points in the State of Alaska.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73-15175 Filed 7-23-73;8:45 am]

[Docket Nos. 25252, 25253; Order 73-6-81]

TEXAS INTERNATIONAL AIRLINES, INC.

Order Denying Temporary Suspension and Petition for Order To Show Cause and Setting Application for Hearing

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 20th day of June 1973.

In the matter of the application of Texas International Airlines, Inc. under section 401 of the Federal Aviation Act of 1958, as amended, for amendment of the certificate of public convenience and necessity for route 82 so as to delete Lufkin, Texas from segment 4, Dockets 25252 and 25253.

On February 27, 1973, Texas International Airlines, Inc. (TXI) filed an application for an amendment of its certificate of public convenience and necessity for route 82 so as to delete Lufkin, Texas, as an intermediate point on segment 4 thereof.[1] Concurrently therewith, the carrier filed in Docket 25253 an application, pursuant to Part 205 of the Board's Economic Regulations, requesting that it be permitted to suspend service temporarily at Lufkin until 30 days after Board action on its application for certificate amendment; and, a petition requesting the Board to process the deletion application by show cause procedures.

In support of its filings TXI has alleged, inter alia, that Lufkin is a marginal point which cannot be economically served, due in part to the proximity of the Houston Intercontinental Airport where far superior air service is available.[2] The carrier further alleges that the forecast subsidy payments per passenger for service to Lufkin are not justified because Lufkin is not isolated.[3]

An answer in opposition to TXI's application to temporarily suspend service at Lufkin was filed jointly by the Angelina County Chamber of Commerce, the Mayor of the City of Lufkin, and the Angelina County Airport Board (hereinafter referred to as the civic parties). The civic parties allege, *inter alia*, that notwithstanding complaints that have been "passed on to TXI" concerning inadequate scheduling, little has been done to improve the scheduling; that bus transportation to Dallas (about five hours) is not a viable substitute for air service and that no direct bus service is provided from Lufkin to the Houston airport; and, that TXI has failed to advertise and market the airline's service to Lufkin.

TXI did not file a reply to the answer.

Upon consideration of the pleadings and all of the relevant facts, we have decided to deny TXI's application for a temporary suspension and petition for an order to show cause, and to set for hearing TXI's application for an amendment of its certificate so as to delete Lufkin therefrom.

We note that in the absence of replacement service, Lufkin will be without air transportation and, under all the circumstances, we find it is appropriate to consider in an evidentiary record the conflicting contentions of the parties.[4]

Accordingly, it is ordered, That:

1. The application of Texas International Airlines, Inc. in Docket 25253 for a temporary suspension of service be and it hereby is denied;

2. The petition of Texas International Airlines, Inc. in Docket 25253 for an order to show cause be and it hereby it is denied;

3. The application of Texas International Airlines, Inc. in Docket 25252 be and it hereby is set for hearing at a time and place to be hereafter designated; [5] and

4. A copy of this order shall be served upon Texas International Airlines, Inc.; Mayor, City of Lufkin; Director, Texas Aeronautics Commission; Manager, Lufkin Airport; and the Postmaster General.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73-15176 Filed 7-23-73;8:45 am]

[9] In light of the circumstances that Reeve has been operating the proposed service, albeit without apparent authority, we will not require the carrier to estimate the annual gross transport revenues for the future year for purposes of computing the license fee pursuant to section 389.25(a)(2) of the Board's regulations. Rather, the fee will be computed on the basis of the revenues of Reeve's last full calendar year of operations at Amchitka (1972) as estimated in Exhibit C of its application in Docket 25495.

[10] Amchitka services accounted for about 9 percent of Reeve's system revenues in 1972.

[11] Reeve's system operations are limited in extent in comparison to other Alaskan certificated carriers. Thus, it enplaned 8 percent and 13 percent of the total passengers enplaned by Alaska Airlines and Wien Consolidated Airlines, respectively (12 months ending March 31, 1973). Moreover, the exempted services are also limited in extent, involving only one point, no additional frequencies, and a circuity from the nonstop Adak-Sheyma flight pattern of only 22 miles.

[12] The unusual circumstances include the facts that Reeve is the sole certificated scheduled carrier operating or willing to operate in the area, that Amchitka is remote from all other air carrier routes save Reeve's, and that Reeve can consequently provide the interim service needed with minimal monetary outlay and no competitive impact upon other carriers.

[13] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further such motions, requests, or petitions for reconsideration of this order will be entertained.

[1] Filed in Docket 25252.

[2] Houston Intercontinental Airport is 100 miles from Lufkin and driving time is 1 hour and 40 minutes.

[3] The average number of passengers enplaned per day at Lufkin has declined from a high of 11.2 per day in 1969 to 6.5 per day in 1972.

[4] See *e.g.*, Order 70-11-72, November 18, 1970, and Order 71-12-68, December 16, 1971.

[5] As as alternative to deletion, we shall place in issue whether the public interest requires the temporary suspension of service by Texas International, with or without conditions.

CIVIL SERVICE COMMISSION

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Notice of Grant of Authority To Make a Noncareer Executive Assignment

Under authority of § 9.20 of Civil Service Rule IX (5 CFR 9.20), the Civil Service Commission authorizes the Department of Housing and Urban Development to fill by noncareer executive assignment in the excepted service the position of Director, Office of Housing Research, Assistant Secretary for Policy Development and Research.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

COST OF LIVING COUNCIL

FOOD INDUSTRY WAGE AND SALARY COMMITTEE

Notice of Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that the Food Industry Wage and Salary Committee, established under the authority of section 212(f) of the Economic Stabilization Act, as amended, section 4(a)(iv) of Executive Order 11695, and Cost of Living Council Order No. 14, will meet at 10:00 a.m., Wednesday, August 1, 1973, at 2025 M Street, N.W., Washington, D.C.

The agenda will consist of discussions leading to recommendations on specific Phase II and Phase III wage cases in the food area, and future wage policy.

Since the above stated meeting will consist of discussions of future food wage policy and Phase II and III cases for decision, pursuant to authority granted me by Cost of Living Council Order 25, I have determined that the meeting would fall within exemption (5) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with the operation of the Committee.

Issued in Washington, D.C. on July 20, 1973.

HENRY H. PERRITT, JR.,
Executive Secretary, Cost of Living Council.

ENVIRONMENTAL PROTECTION AGENCY

2,4,5-TRICHLOROPHENOXYACETIC ACID

Statement of Issues

Pursuant to the accompanying notice of intent to hold a hearing, it is hereby ordered that the following issues be addressed by such hearing together with any other issues which the Administrative Law Judge deems relevant, namely:

I. Whether 2,4,5-Trichlorophenoxyacetic Acid (2,4,5-T) products presently registered, or other material submitted in support of these registrations, complies with the provisions of the Federal Insecticide, Fungicide and Rodenticide Act, as amended; and

II. Whether 2,4,5-T will perform its intended function without unreasonable adverse effects on the environment.

III. Whether, when used in accordance with widespread and commonly recognized practice, 2,4,5-T generally causes unreasonable adverse effects on the environment, as defined by the Federal Insecticide, Fungicide and Rodenticide Act, as amended.

IV. Whether the registrations of 2,4,5-T should be cancelled or its classification changed.

V. The answers to these issues should relate to the following subsidiary questions, as well as to the ten issues delineated in the 2,4,5-T Orders of the Administrator of November 4, 1971 and April 13, 1972; (I. F. & R. Docket No. 42 and No. 44) and to such additional questions as the Administrative Law Judge finds relevant, namely:
